The pulvinar is usually grouped as one of the *lateral thalamic nuclei*. The word is derived from the Latin *pulvinus* for "cushion".

The thalamus has multiple functions. It may be thought of as a kind of switchboard of information. It is generally believed to act as a relay between a variety of subcortical areas and the **cerebral cortex**. In particular, every sensory system (with the exception of the **olfactory system**)

ANENT = concerning: **VI** (the unholy six). **AN, NET** (Reticula) **VI N** (Eridu), **ATEN** (asteroid) 'N **ETNA. VI AT N.N.E.**

AN are the Anun.nakim, synonymous with Erid.anu

ISAIAH: vine 10 Within a year and a few days you shall be troubled, you careless women: for the vintage shall fail, the gathering shall not come.

VINE MEANS IN VIRGO (careless woman) – WHICH IS MISSING ALTOGETHER IN THE VIGNETTES OF CESAR DE NOSTREDAME. THE 'GATHERING' SHALL NOT HAPPEN DUE TO THE ENSUING MONTH OF OCTOBER AND THE GREAT TRANSLATION

23 But then it will happen, that every place, where there were a thousand vines priced at a thousand pieces of silver, that place shall become only for briers and thorns. THORNS are those from Cepheus of the second coming

24 With arrows and with bows shall men (from Eridanus) come there; so that all the land will become briers and thorns

25 But the fear of briers and thorns (those of Cepheus) shall not come on any of the hills cultivated with the hoe, (Arcturus BOöTES) but oxen (from Aldebaran) shall be sent there, and they shall be for the treading of lambs. (The sheepfold/Ursa m)

7 The new wine mourns, the vine languishes, all the merry hearted sigh.

19 The earth is completely broken down, the earth is fully dissolved, the earth is exceedingly moved.

20 The earth shall reel to and fro like a drunkard, and shall be removed like a tent; and its transgression shall be heavy upon it; and it shall fall, and not rise again.

Verses 13 - 20: The Withering is the harbinger of a final calamitous end:

YHWH will bring the last stroke which will be felt universally and there will be no escape.

The pictures of the olive tree with all of its olives on the ground and none left to harvest and of all the grapes of the vineyard not only on the ground but crushed gives an image to total and sudden destruction.

The reeling of the earth through space is coincident with its final moments. (In her current orbit)

YHWH needs some discussion. Both the Pleiades and those of the Anun.nakim lay claim to this name.

It seems to me that Nostradamus put great store in those of the Pleiades. Many times he also mentions the Eloim as being the mentor for his works. On the other hand there are a very large number of problems stemming from the Anu, who also lay claim to Elo(h)im and to YHWH. One other slight detail stems from the letter "Y" being interchangeable with "J" which can also be "I".

It is my understanding that the confusion of tongues we call Babel was and still is created by the Anu. Those who go by a thousand names themselves. Not only do they seem to have sequestered the name of YHWH, but also that of QUETZAL in the 14 clay tablets of Sumeria.

"Enlil, (brother of Enki) faithful shepherd of the teeming multitudes, herdsman, leader of all living creatures...He alone is the prince of heaven, **THE DRAGON OF THE EARTH**. The lofty god of the Anu.na himself determines the fates."

(p. 323. "Enlil in the E-kur." Jeremy Black, Graham Cunningham, Eleanor Robson & Gabor Zolyomi.

The Literature of Ancient Sumer. Oxford University Press. 2004 hardcover, 2006 paperback with corrections)

13. Marduk – Aftermath:

"The spellbinding answer, we believe, also leads to a solution of the enigmas of Quetzalcoatl and the circular observatories that he had built, the *God* who according to Mesoamerican lore left at one point in time to go back eastward across the seas (promising to return).

Was it not just the Enlilite [YHWH] *Gods* who had guided and led the wandering Sumerians, but also Thoth/Ningishzidda (alias Quetzalcoatl), the *God* of the Game of Fifty-two, who himself had been displaced from his native land?

From *Wes Presne*: **Ningishzidda also became Quetzalcoatl in Mexico**, Ningishzidda (Quetzalcoatl) said he was certain that Nannar was perhaps the only one who could unite the people again...Nan.nar being the new and current king of the Anu

The **coatl** has been related in Aztec mythology and literature to represent the concrete [solid].

The opposite is the **quetzal**, which represents spirit [Wiki](#)

Semjase (semi-yase) supposedly from the Pleiades, tells Billy Meier:

According to Billy Meier, the name 'Semjase' or 'Semjasa' simply means 'Semi-JHWH', referring to the JHWH, the highest rank and title in Lyrans-descended societies. In both historical cases, Semjasa was said to be of lesser rank than the JHWH, being a 'Semi-JHWH', so the name could be associated with the title as well...

From 1975 to 1986 his contacts were with Semjase, her father Ptaah ^{footnote}, and Quetzal.

Ptaah: vested with the rank of an **Jschwjsch**, (JHWH)

And from the 14 clay tablets of Sumeria, the Anu claim it too ...

Encyclopaedia. Etna. Etna or Aetna (both: et'nu) [key], volcano, 10958 ft (3340 m) high, on the east coast of Sicily, S Italy.

It is the highest active volcano in Europe

March 19, 2012 – ITALY - Europe's most active volcano, Mount Etna erupted on Sunday sending a four mile-long plume of smoke and ash into the sky. The eruption is the fourth of its kind this year sending a lava stream into Sicily's uninhabited valley of Valle del Bove. Etna, which is 11,000ft high and located 18 miles above the Sicilian town of Catania, often erupts but rarely causes damage. 11,000ft high, sits. Nearby airports remained open and continued operations during the eruption although authorities shut down two nearby flight paths. –**Telegraph**

Erato: in “*GRAND PULSE*” the dates for Celt Hazelnut tree zodiac were given as August 5th to September 1st – which they are. This was in relation to the grand Pall commencing with Etna, which it was. There is a “sub tree” decan date for Hazel-nut as well. It is **March 22nd to March 31st in the first decan of Aries 2013?**

Mount Etna blows her top for 5th eruption in 2012

by [The Extinction Protocol](#)

April 1, 2012 – SICILY - Europe's tallest and most active volcano, Mount Etna, has erupted for the fifth time in 2012, spewing hot lava and ash in the early hours of Sunday. The lava, which could be seen moving down the mountain's side just after 4am local time, continued to spew until around 5.30 am, according to local news reports. Ash from the eruption landed on the villages at the foot of the volcano; however no damage was reported and nearby airports remained open. -[ITN](#)

by [The Extinction Protocol](#)

April 12, 2012 – CATANIA, IT - Mount Etna is erupting for the sixth time this year with lava and plumes of smoke and ash from a new crater on the volcano's southeast side. The new activity was preceded by new phase that began last night and that, according to experts from the INGV in Catania, has the same characteristics as the one before this one. Ash, carried by wind towards the east, has not yet created problems at the Fontanarossa airport, which is fully operational. -[AGI](#)

Boomerang being the *stage gate* – what goes around, also the shape for/of the **Pleiades**, some call it a “cow’s leg”. This is also called a “Khemet” meaning “stranger” (alien), more properly “dark stranger” – hence the word “chemistry” or alchemye – the “dark arts” – leading to “prince of dark men”, that is, Sirius (which is NOT Pleiades **Anun.naki Eridanu [Templar] Cross**: the symbol for a YHWH [the Captain/pilot responsible for up to three planets]. The Pleiades call their chief pilot the same, (and Sem.jase means “semi” Yah) – Templar Cross or Crux constellation [maybe Cygnus – upon which shape a bigger picture of Giza’s foundation could mean that Cygnus and not Orion is the basis for the foundations of Giza) or the ‘Grand Cross’ of the wheel of precession of the equinoxes which is that of December 22 2012

All of these are OVER what is UNDER, and what is under is the Vulture of **Lyra** – the source of all hu-manity

The ‘bell flower’ with lotus...The Lotus Protocol refers to the stage gate; the “bell flower” is a description of it which Nostradamus gave in several lines (and which appears in a statue in the British museum over the head of Demeter)

The vulture means: Ninurta. Vulture the *devouring* bird symbolizes air = Aquarius and Upper Egypt and **Lyra**

Branch means Virgo. It also means DNA (branch of humanity) The Olive as a Celt date is the September equinox, however the little branch in the beak of the vulture has three boughs, which mean the three ways humanity has travelled (downwards) since Lyra first initiated mankind shortly after the demise of the dinosaurs around 65 million years ago.

6 97 2 **ALTHOUGH I** have been reminding readers what Nostradamus says regarding « **in October** » that the « **great translation** » will take place, here, he is saying it is time now to let people know. For some time I have been thinking that the **great translation** is the **moving of the Earth**, because Nostradamus uses the words:

“that one will think the gravity of the earth has lost its natural movement and that it is to be plunged into the abyss of perpetual darkness”.

This could also be describing mass abduction. The word “translation” is a geological term for a big land slide. Perpetual darkness is outer space

Isaiah also says the “Earth will be moved exceedingly”

Da Vinci (who must also have been taken/abducted like Ezekiel, Enoch, Nostradamus and Shipton) states:

“seventh (**PLANET IS Earth**) of propositions contrary to Nature - as to speak of a substance which the more there is taken from it is the more increased*

*** the more increased MEANS RADIATION or A NEW ORBIT**

It is to be noted that the ANUN.NAKIM also use this term for a Chief Pilot, or Captain of a fleet or armada. Lucian (ca125AD-180AD) was also one of the earliest novelists in Western civilization. In *A True Story*, a fictional narrative work written in prose, he parodied some fantastic tales told by Homer in the *Odyssey* and some feeble fantasies that were popular in his time. He anticipated "modern" fictional themes like voyages to the moon and Venus, [extraterrestrial life](#) and [wars between planets](#), nearly two millennia before Jules Verne and H. G. Wells. His novel is widely regarded as an early, if not the earliest science fiction work...

CHLORAMINE: is used to sterilize our tap water. Was it used in the oils spill 'clean up'? It is toxic to marine life

- Do not use it as a high dose dip. Its chemical action will cause serious damage to fish
- Do not allow it to come into contact with metal surfaces as toxic compounds can be formed
- Wear a particle mask and goggles when handling to prevent injury to skin or eyes.
- Toxicity is greatly increased in soft acidic water – only use the low dose.
- Aerate the water vigorously during treatment
- Turn off any UV lamps when using any pond or tank treatments
- Ponds should be cleaned and vacuumed prior to treatment in order to reduce free organics that would affect treatment efficacy
- The breakdown of chloramine-T is speeded up in sunlight, so treatments are best carried out evenings or on cloudy days.

Italy's Mt. Etna erupts for seventh time in 2012 by [The Extinction Protocol](#)

April 24, 2012 – ITALY – Mt. Etna volcano erupted for the seventh - and without doubt the most spectacular - time this year today, spewing forth molten lava hundreds of meters into the air. Residents living close by were covered in hot ash but Europe's tallest and most active volcano didn't seem to pose any threat to human safety. Local inhabitants of the Sicilian town of Catania were grateful that Etna at least didn't close the local airport as it did last month, preventing a visiting Serie A football team from leaving the island. The highest active volcano in Europe has blown its top three times in the past month alone, depositing a surface of black ash on its snowy higher slopes. Standing nearly 11,000ft high, Etna regularly. Tunnels and ditches have been dug to protect their villages from the lava flow. –**Daily Mail**

Footnote

Ptaah is about 775 (Earth) years old and has three children, two daughters by the names of **Semjase** and **Pleija** and one son by the name of **Jucata** who is no longer alive. His father was called **Sfath** and one of his nieces is **Asket**. Ptaah is the commander of the **Plejaren** spacecraft fleet and is vested with the rank of an **Jschwjsch**, (**JHWH**), which is comparable in meaning to a king of wisdom. In earlier times, this term was translated as **God**, not in the sense of creator but as a king of wisdom who **has the duty** to provide his peoples with help and advice. He also presides over other inhabited planets but may never assume the role of despotic ruler, which happened on earth to some extent in earlier times. At the present time, Ptaah presides over three different planets, two of which are known to us as **Erra** and **Terra** (earth). [Wiki](#)
