T he hidden texts provided within them guidance to the collator/decoder and to the programmer. When all the “guidance” lines were collected, there were 28 pages in ten font Arial for the computer programmer whose “chore” it was to transform all the words of each quatrain line by anagram, and 38 pages for the collator/decoder. The five lines on page two give the best and easiest understood example of guidance by Nostradamus to the person doing the collating/publication of the hidden texts. They are from the *quatrein* lines resulting from the anagrammed words.

Hats off to Alan UUebber, as it is a profound task anagramming all the quatrains lines. The research involved is enormous for both of us. Every single day working on the quatrein lines leaves me with an “oohmph” moment.

For instance, when working on 9 35 4 below. The letters Y-I-N-M on their own were a total mystery – as I am sure they would be to you too (unless you are a molecular scientist). After researching what in the world these letters mean – look at the result! You answer the huge mystery of the “how” of the cattle mutilations…the “why” turned up in a code within codes in 1 98 3 out of CRETETHESSALIE resulting in CERISE T CHASE LITRES … cerise being the colour of “T” those from Ursa Major Central…CHASE LITRES of BLOOD.

I must put in brackets here that the letter “T” was derived from yet another of Alan UUebber’s discoveries as guided to him; regarding the “runic skies”…the constellations being in the shape of a runic character. The “LOBSTERMEN” forum is on its way. For confirmation that “CRETETHESSALIE” was telling us about cattle mutilations – this was followed by HEAT, (hate) SLICE STEER…AS IT LEECH (leach) STEER. Leech being a pun as well, because the obsolete name “Leech” was for the constellation over the head of the hunter Orion between Orion and Ursa constellation. Leech is now called Hirudo. Not to be confused with Hirundo the Swallow in Pisces Constellation.

Therefore the possibility is that those from “T” are in this case from somewhere closer to “Leech”…at the outer edge of Ursa Major. The cattle mutilations have remained a mystery even to the journalists who follow it closely. According to Nostradamus the division of cells is done at a molecular level using heat. The description of a “crab cross scorpion” seen by an Iowa minister in 2007 on the back of a cow could be what the “Myrmidon” is that is referenced here.

I have not yet needed to publish any with Alan’s ‘guidance’ and this just shows how delightfully clever the entire ‘chore’ was constructed. Do not think I was able to to do it all on my own. Many people (and they are named in the lines) have been an influence to my understanding … Dan Green, Kimberley Jaeger, Peter Farley, George Elliot Stella Heap, David Spearcchett, Eloise Parks & Nostradamus.

Everything can be summarized in three simple rules, one of which has a poem associated with it.

- The Kalends always falls on the first of the month
- The Nones falls on the fifth, except as described by the following poem:
  March, July, October, May
  The Nones are then on the seventh day
- The Ides falls 8 days after the Nones

The day before the Nones, Ides, or Kalends was called Pridie

PYRAMIS RARE PLUME ~ PEER PYRAMIS MURAL

This could be telling us about the stream of something appearing from the tops of all the pyramids world-wide and...

To PEER which means to study the MURALS; the hieroglyphics which should tell us what is happening

Left: Mayan energy beam.
Processed image on right side shows hidden lightning bolt
But the Mayan pyramid of Kukulkan transmitting a raw column of incredible energy into space was just the latest pyramid to do so.

On the right
Aztec Pyramid of the Moon blasts energy vortex from apex

Although the above may be fanciful – the question of exactly what the pyramids' function really is/was has yet to be explained by anyone...

This brings to mind the strange happenings at Tunguska
Nexus magazine had an article about a dormant "installation" in Siberia which protected the Earth

Mysteries of Siberia's "Valley of Death" - Part 4
www.bibliotecapleyades.net/ciencia/esp_ciencia_tunguska13.htm

Extracted from Nexus Magazine, Volume 12, Number 3
MICROSPHERULES FROM THE TUNGUSKA EXPLOSION ..... thousands of years ago, designed and built the Installation in the Valley of Death to use as a high-altitude first strike

Or it is referring to PYRAMIS (and Thisbe) in which there are several clues – especially in the “mural” here

The story goes:

“The lion, on hearing the shriek came near the tree where Thisbe was initially waiting. The creature picked up the veil in his bloody jaws. At that moment, Pyramis reaches near the mulberry tree (called a 'sycamore' in Celt) and sees Thisbe's veil in the jaws of the lion. He is completely devastated as he thinks that the lion just hunted down Thisbe. Shattered, he pierces his chest with his own sword.

Unknown to what just happened; Thisbe is still hiding in the rocks

The key words here which Nostradamus wants highlighted mean:
LION = the Leo/Den.ebolan of the “Medusine Devise” the “jellyfish” and other living craft
VEIL: well-disguised – with invisibility, also means that knowledge of the truth of history has been hidden from humans
MULBERRY TREE: the Sycamore is a Celt date of: April the 20th and October 23rd (once 9 is added, see illustration below)
JAWS of Draco of Dracum (Grumium XI) HUNTED: by Orion the Hunter PIERCED: is Aries, so it is the April date
CHEST: can mean either Cancer (the Ursa Majorites which are puce/plum in colour) or it can mean Leo
SWORD: is Orion
ROCKS: are the planets in the Solar System

TETH The Mulberry tree/Sycamore Téth (also Teth, Tet) is the ninth letter of many Semitic abjads (alphabets), including Phoenician, Aramaic, Hebrew Tet υ, Syriac _ord, and Arabic

This article describes the symbolism of those born between 11th and 20th April and the 14th and 23rd October

SEVENTH DAY OF THE FIFTH MONTH?
The story of Pyramus and Thisbe appears in Giovanni Boccaccio's On Famous Women as biography number twelve (sometimes thirteen) and in his Decameron, in the fifth story on the seventh day, where a desperate housewife falls in love with her neighbour, and communicates with him through a crack in the wall, attracting his attention by dropping pieces of stone and straw through the crack.

In this “mural” Pyramids seems to be part scorpion

Arab astronomers had a number of titles for Sycamore tree constellation (Canis Minor

"it is noteworthy that the ideas of water and drowning seem to be universally associated with this constellation”.

I used to feel confident in saying "Yellowstone is safe until 2044", because I have been studying the quatrains of Nostradamus since 1980, and in quatrain 2 65 it had said:

The sloping park great calamity
(Professor) seas
To be done through Hesperia (USA) to Insubria (Lombardy)
(This is the latitudes)
Fire in the ship, plague and captivity
(The ship is our Earth, captivity meaning we are unable to leave)
Mercury in Sagittarius, Saturn will fade
(A date of December 7 2044) however

However - I have re worked the last line as follows using the CELT clues, a recent development in decoding Nostradamus, and the CELT clues read like this for the last line:

Mercury is quicksilver, and the Celt zodiac is Cancer (because Mercury is next to the sun and the sun is Leo)
"Arc" was obsolete for Sagittarius, but can just as easily mean the "heavens" or the "canopy"
Saturn has the meaning of "chronos" - time itself (also means "the cannibal")
"fenera" - the last French word of this line, (taken from 'fenestra') means "small windows"
consequently the last line can now read

SMALL TIME RELATED OPENINGS IN THE HEAVENS DATING LATE CANCER (2012)
See the vignette Cesar's Lost Manuscript showing Cancer the crab or lobster

I take back my confident thoughts regarding Yellowstone This was the only line, interpreted as it had been, that was leading me to tell everyone "no, Yellowstone is safe for now"

And within Byzantium will he leave his bloody rod.

LIBRA TRAITS means those from Leo are "divided"
Balancing things up, "sitting on the fence"

The quatrains of the Hidden Texts …
Both the stage gate and In the Hidden Texts
It would go without saying that a stage gate traveller would not be in a position to do anything but watch. Interesting that he seems accompanied by "GREYS ABOVE" causing one to think of all the mystery orbs

*LIBRA In several lines including:
"This will be preceded by a solar eclipse more dark and gloomy than any since the creation of the world, except that after the death and passion of Jesus Christ. And it will be in the month of October that the great translation will be made and it will be such that one will think the gravity of the earth has lost its natural movement and that it is to be plunged into the abyss of perpetual darkness. [Poles shift]
In the spring (April) there will be omens, and thereafter extreme changes, reversals of realms and mighty earthquakes

These quatrains lend themselves to various different interpretations. I have taken the most extreme. It would be uplifting to receive from any readers, their interpretation. This would be published

(*) L is the sky rune for Pavo/Pisces and also for Cetus. An important event displayed in the vignettes.
Three different events.
Pisces the two fish in one vignette sit over tectonic plates divided.
Pisces the constellation, from which those of Cygnus and Aquarius/Eridanus invade.
L means Cetus, in which sits Mira, to be the new north polestar:

Mercury eclipses the sun – saying the sun is so far away that Mercury can cover its face, and the sun will be placed only second in the heavens

“I understand your words asking [about] ascension
I tell you now, your ascension is nothing more than a mass abduction event”

Satyr

In ancient Greek mythology, a forest deity and demon of fertility found in the retinue of the god Dion-ysus. Dion/god Ysus/Sirius.

In myths satyrs are depicted as part goat with horns – which could mean “IN CAPRICORN”

Satire: a literary term used to ridicule or make fun of human vice or weakness, often with the intent of correcting, or changing, the subject of the satiric attack… AND I SEE the SaLuSa messages exactly so

This same line also gave the co-ordinates of the Earth’s new position after necessary changes to the current one

A new 900 – 1260 day orbit “ascended” further out - 1260 is divisible by 12 by 105 and 105 adds to 6; (as in – SIX DAYS) Therefore, the “numerator” seems to be involved, those who love the number 12. The Anun.nakim
