Helios belch = Cycle 24? The coronal mass ejections?
If ALTER is ALTAR, in constellation Sagittarius...OR
LATER: after the HELIOS BELCH. Or both

The younger son playing outdoors under the arbor
RUNESTAFF - DIVIDED: astrology divided (into decans)
ZEALOTS: ‘decoders’ span the surface of the quatrains
HOCUSSES all the zealots

By night the ambush, the sentinel under the vines
Those with the proper cause carry on
"SALT TAIL" - putting salt on Hitler’s ‘tail’ – an old saying
HORSE: 6 meanings... = Pegasus constellation, year of the horse,
and 2nd decan Aquarius. ‘White’ HORSE means the oceans.
Alpha Andromeda was the ‘Horse’. Equuleus, Little Horse const.
Coming from Pegasus in the 2nd decan of Aquarius?
STARS – ALTER = can only mean poles rotation

"And interpret the runes of divine origin". More notably, in the Poetic Edda

That is now proved,
what you asked of the runes,
of the potent famous ones,
which the great gods made,
and the mighty sage carved,
that it is best for him if he stays silent

The poem Hávamál explains that the originator of the runes was the major god Odin.
NORN: are the woven fates.
The weavers (Ariadne – also the asteroid with the chaotic orbit, making NORN another key word for asteroid). Your FATE
is sealed, your planned DESTINY is not. The LOOM has a vertical WARP which is the unchangeable FATE.
The WEFT or WOOF is the DESIGN is = the DESTINY you are born with which changes throughout your life.

The Runes go back when time began, when those of Ásatrú (Ástaru-Aesir) have a date from when the first Futhark was discovered as 2253 years ago. (From when?) This is known as the Runic Era. See 3. Ansuz. AESIR = ASIA

"And interpret the runes of divine origin". More notably, in the _Poetic Edda_

That is now proved, what you asked of the runes, of the potent famous ones, which the great gods made, and the mighty sage carved, that it is best for him if he stays silent

The poem _Hávamál_ explains that the **originator of the runes was the major god Odin**.
**The Eddur**

In the following grand and ancient *lay*, dating most probably from the time of heathenism, are set forth, as the utterances of a Vala, or wandering prophetess, as above described, the story of the creation of the world from chaos, of the origin of the *giants, the gods, the dwarfs*, and the human race, together with other events relating to the mythology of the North, and ending with the destruction of the gods and the world, and their renewal.

The following are the Aesir gods **AS** (singular) and goddesses: "REMAINDER" LETTERS IN A LINE COULD MEAN:

According to **Aartun**, new archaeological finds show that many people from the Mediterranean Sea area, and especially the Cretans (who were Semitic), often travelled to the north on trading tours. He says that during the Migration Period many Semitic-speaking people came to Norway. **Aartun** writes that this conclusion is born out by actual facts which Snorri refers to when saying: "**these Asians were called aesor** in the northern countries the Asians spread so much that their language was the common language in all these countries."

They would have logically come from Scythia – since their language and the Celtic has much in common [and Scythia is not far from Shambhala]
Here are some definitions that need to be cleared up about the Norse gods.
The word "Aesir" can mean gods and goddesses who belong to the tribe of gods living in Asgard. However, more precisely, "Aesir" is plural for the gods, where as an Aesir god may be referred to as "AS". While the Aesir goddesses were known as "Asynior" or "Asyniur".
The singular form of Asyniur is called "Asynia". Their runes are the “aettir”
Similarly, the "Vanir" was a tribe of gods, who lived in Vanaheim, while a single Vanir is called a "VAN".
[This would be “UAN” to Nostradamus”]

There is one noticeable Roman holiday that I would like to say more about.

May 1 I am referring to Saturnalia, an annual holiday dedicated to Saturn.
Saturnalia lasted for several days, beginning on December 17th and ending on the 24th. It was days of merrymaking and exchanging of gifts.
Clearly, like the Teutonic winter solstice, known as Yule, the Saturnalia is a pagan form of the Christmas (December 25).

Woven on a loom
The horizontal threads (the woof, the design which can be changed) are woven (as “destiny”) in layers along the vertical threads (the warp, which can’t be changed).
The horizontal threads represent layers of future actions.
The vertical threads (verticals, the warp are “fixed” as in fate) represent a time line, past and present to the end.
The colours of each horizontal thread as it is woven in will be the experiences created by a decision.
