

ONE MALE

The letters which I think I can see are:

NONPU(V)OL = NUN (Virgo) LOOP (orbit)

OLEV(U)RE = RUE LEO (treaty 9) – EL ROVE

ALTRINER = RAN [Vanir/Cassiopeia] TILER RENT LIAR (treaty 9),
(handing out Maya numbered tiles for rapture¹)

ONE MALE = MENOEA (ELECTRON BEINGS)

FATTE JI (or OI) = EAT OF IT - IT OF AET. (manna)

UN OGMS = MU SONG

AN CHE = ANNUNAKI CHE-RUB

G(J)S L(T)ONO = N [Eridu] LOGOS – JNO SOL –
SO LONG

ST. ON IO - IS NOT O [Andromeda] (Othilla rune: cultural inheritance)

RAN = god of the Vanir. TILER = tiles are being handed out in the
Ascension/Rapture/Passion¹ for a false rapture

IT OF AET = humans – originally the Celt (Aetir/Asia)

MU SONG = tectonic plates activity

N: of Eridanus. Or “N’s LOGO”...LOGO is JESUS in human form

CHE-RUBs are He Rod greys

JNO* = JUNO : asteroid SOL = our sun † Juno is associated with all
beginnings and hers are the *kalendae* of every month, so this means

the calendars change

ST: Saint on Io IS NOT O: Andromedans

The tree of life – an apple tree here or *Fraxinia* an Ash means on a
Friday. Hercules the hero (Sagitta) holds Pomifer - an Apple branch

I reckon this is early March through to Easter 2013 –
H Parks

Vignette shows the “band” of the Milky Way on its side, this means the Earth is on her side it is our view.
Band also means in Pisces.

Ursa the bear has a grip on the book, the mane could indicate Leo or a very long lived person such as God, as the crown
would indicate. Crown also means in Libra. The long hair also means those from Cassiopeia
And the FACE is in Scorpio or the first ten days of any zodiac sign mentioned.

Time is folded back, many folds in the banner of the Milky Way, meaning this is the view *from* Earth

In Pisces or from Pisces (in the south)

The archer is Sagitta the Hero, (see Hero Moves the Earth) just before Capricorn – where Earth comes to rest - or a date
Tectonic plates have divided, Earth is leaving her orbit but the (precessional) wheel of timing is still intact at this stage

Juno (Latin pronunciation: [ˈjuːnoː]) was an ancient Roman goddess, the protector and special counsellor of the state. She is a daughter of
Saturn and sister (but also the wife) of the chief god Jupiter and the mother of Mars and Vulcan.

Her Greek equivalent is Hera. (Asteroid)

As the patron goddess of Rome and the Roman Empire she was called Regina (“queen”) and, together with Jupiter and Minerva, [Minerva –
another asteroid] was worshipped as a triad on the Capitol (Juno *Capitolina*) in Rome.

Juno’s own warlike aspect among the Romans is apparent in her attire. She often appeared armed and wearing a goatskin cloak. The traditional
depiction of this warlike aspect was assimilated from the Greek goddess Athena, whose goatskin was called the ‘aegis’ (shield/force field)

† Her complete name is also threefold: *The Wet* (Arədvī), *The Strong* (Sūrā), *The Immaculate* (Anāhitā) = ICE AGE?

Other epithets of hers that were in use include Moneta and Caprotina, Tutula, Fluonia or Fluviona and *Febualis* Wiki

*JNO may also be a reference to the author JNO COOK who has a very interesting hypothesis regarding the cause of Noah’s flood:
the meeting of planispheres. Two passing planets which need not be closer than 500,000 miles
These planets can still affect each other, in particular their atmospheres. inocook.net

¹ Ascension/Passion/Rapture/ are three different things

Ascension is in regard to Earth and the human soul, regardless of its physical or metaphysical whereabouts.

The Passion is an event which has happened to various nuns and persons through history where they levitate.

Rapture is a word which has come to mean the opposite to its original intention.

The meaning comes from RAPTOR: to be caught up, or picked up. As in ‘false rapture’
