INVENTED: created OLDER could be the quatrains or Genesis

INLAND IRE: volcano, earthquake &/or nuclear disaster

INVENT: genetic engineering and hybrid breeding

INTERVALED - binary user (the Japanese) or Insectoide Biome

INEVIDENT INVADER = radiation or the Mantis

RECOUPLE CRADLE: mutated genes in babies

1 9 1 **L'ORIENT PUNIQUE** the codes within codes

The information from these two words is so important that I have sent them to a page of their own near the end

1 49 3 **L'an mil sept cens feront grands emmenees**

SPELT: PERFECTNESS

FORSEEN SINE MEN MEAL

MALIN ENFORCE REMANDS

SIMPLE SPLENETIC DANGERS

GRANDEST PESTILENCES FOR MAN

The year 1700 will be a great conveyance 2025(snake) or 2158(horse)

Is this "spelt" the grain? For good health? Or the hidden texts PERFECT

Or is Nostradamus saying PERFECTNESS with the hidden texts spelling?

SINE: the Metricians (Oannes) and cannibalism

MALIN: shrewd, cunning grey literature (the hidden texts?) grey could be a pun

Danger to the spleen: immune system and red blood cells reproduction

1 49 3 **The year 1700 will be a great conveyance.** Sometimes lines appear in the quatrains which say nothing much meaningful at all.

Those are lines which are there for one reason – to provide another anagrammed hidden text line later. This is not one of the seeming meaningless lines. The number is provided to which a cipher is to be added. The main cipher has been 458(AD) so far - giving 2158AD and because it is a "year of the horse" which is mentioned in many other lines, it cannot be ignored.

There IS one other answer – that the 1700 is the 18th century *AFTER* the end of the A.D. period. That is to say: after the beginning of the new calendar. If it means a "GREAT CONVEYANCE" – it is probably referring to the Ascension (humans) Earth, a planet or a moon. The words "great conveyance" could even be referring to moving humanity OFF the Earth and it does *not* say "IN" the year 1700...

recently I have had to revise the code for arriving at a date. There seems to be more than one occasion in history when the numeral zero was "first published". The numbers of these years are the number to add as a cipher (which itself means "zero")... In 300BC (Babylon) 458AD (Jain text) 876AD (stone inscription India) and the Persian scientist Khwarizmi in 825AD. The year 325AD seems to have some bearing also, being the year the Bible was collated by the Nicaean Council. This cannot be counted out (pardon the pun). Then to add to the confusion, the number 485 has been seen to fit, and all I can think of is that it is an anagram of 458. If we add all these ciphers to 1700 we get: 2,000... 2025 (year of the snake or serpent)... 2158 (year of the horse) ... 2185 ... 2525 ... 2576.

The most interesting cipher to all of us has been the quatrain in "ORNAMENT OF HIS TIMES" in 3 94 where Nostradamus says: "For five hundred years more, one will keep count of him" where he speaks about himself - or the quatrains which were published in 1555. If we add 458 to that we get 2013. But if we add 500 "more or less" (he states in another line) to the date of his death July 1566, we get 2066. There are a number of lines which speak of the year from (commencing) August 2065... (Saturn and Mars equal fiery)

1 55 *Soubs l'opposite climat Babylonique. Soubs : from 'soubresaut'* found in the Oxford entries: English: [jerk](#) - [shudder](#) - [twitch](#)

For Erika Cheetham or anyone in the 1960's to think of Babylon being 'jerked' or the Earth 'bucking' was not comprehensible.

The word *sous* could also be applied, where Babylon was once "under" then becomes "on top" to the "opposite climate"....

Even a huge earthquake would or could create the same response – a huge "jerk" then much snow. An asteroid would do it

1 88 4 The Nicaean Council's Bible is the "it" which will "die" because of the greys. There are two words in here which point to a double meaning. LEPROSARIUM = the place of the uninitiated, which is almost all of the Earth these days because people have lost interest in anything that is not on their TV. The word LEPROSARIUM is intended to have one believe it is the disease which is the subject (and it probably is). The Other word is LIES. This is the Earth, so it could be saying **ONCE after Earth LIES; ARMOUR PRO UUAR**. This may be good advice, because **after the Earth lies down** there will be mayhem.

 It was this line, 3 9 1 which prevented me from discarding the articles regarding James Casbolt... there are more lines which speak of SEXUAL ROGUES and those from Aldebaren – begging the question – how did he know? The only way he could have known was to be involved (in the same way David Huggins proved the truth by painting the icon that Nostradamus described).
 The Ibis was also called the “Benu” or “Beni” bird and was given the same distinctions as the Phoenix

*ANGIE was shown a blood red moon and fiery orange sun exploding, a desert planet with two suns with an underground city
Interesting that both Linda Porter and David Huggins painted the same “PUPA” room...

In “HOT WINTER” the earthfiles excerpt says the Oliveira experience was with Pegasus, not Cassiopeia. The face painted by David Huggins might be **Als**, which is “Ferdinand the Fair” in the quatrains... [appearing as] a tall blond cat eyed person. The person in blue who is “see thru” [shape shifting] is mentioned by all abductees of the Cassiopeian nursery breeders. The shape shifting could be a representation of being inter dimensional (as in the Alec Newald experience) which the cat eyed Dals are.

The illustration on the right is probably the most telling of all. We must all be grateful to David Huggins for the detail in his pictures. What he has painted on the right tells us that the hooded dwarf (Whitley Strieber’s) –the same which were seen spreading green mist prior to the plagues, is involved with the Cassiopeians, who are themselves in league with the agenda of the Andromeda Council (3 25 4). The Mantis(Lobstermen)has been seen on a wall glyph – twice – in a submissive posture to the giants Enki or Enlil. There are four different greys, one of which is a see thru **Elder**. A hooded reptilian, a tall blond (synthetic?) woman and a hybrid man in blue. **Who is in charge?**

The illustration on the left has a hint we should take note of. There are two suns. One other painting showed one black sun. Would that be the “sack cloth” of darkness in the Bible?

The cattle mutilations have remained a mystery even to the journalists who follow it closely. YINM according to Nostradamus is the division of cells done at a molecular level using heat. The description of a “crab cross scorpion” seen by an Iowa minister July 13 2007 on the back of a cow could be what the “*Myrmidon*” is in the quatrain 9 35. Line 9 35 4 has them as “Marron” (a very large crayfish) The minister described a “crab/scorpion” and illustrated what he saw here:

SUMMARY: Nostradamus said in the OIL SPILL forum that this spill would have consequences equal to a meteor hit. At the time I was working on the line I could not see how. Apparently the ocean currents are carrying the now *radioactive* oil spill around the world, as the oil had been hidden out of sight by means of causing it to sink to the bottom of the ocean floor. So, not only was the oil made toxic by the chemicals which made it sink, but now it will be radioactive as well

September 14, 2011 – LONDON - Multidrug-resistant and extensively drug-resistant forms of tuberculosis (TB) are spreading at an alarming rate in Europe and will kill thousands unless health authorities halt the pandemic, the World Health Organization (WHO) said on Wednesday. Launching a new regional plan to find, diagnose and treat cases of the airborne infectious disease more effectively, the WHO's European director warned that complacency had allowed a resurgence of TB and failure to tackle it now would mean huge human and economic costs in the future. "TB is an old disease that never went away, and now it is evolving with a vengeance," said Zuzsanna Jakab, the WHO's Regional Director for Europe. "The numbers are scary," Lucica Ditiu, executive secretary of the Stop TB Partnership told a news conference in London. "This is a very dramatic situation." TB is currently a worldwide pandemic that kills around 1.7 million people a year.

The infection is caused by the bacterium *Mycobacterium tuberculosis* and destroys patients' lung tissue, causing them to cough up the bacteria, which then spreads through the air and can be inhaled by others. Cases of multidrug-resistant (MDR-TB) and extensively drug-resistant TB (XDR-TB) -- where the infections are resistant to first-line and then second-line antibiotic treatments -- are spreading fast, with about 440,000 new patients every year around the world. According to the WHO and Stop TB, 15 of the 27 countries with the highest burden of MDR-TB are in the WHO's European region, which includes 53 countries in Europe and Central Asia. More than 80,000 MDR-TB cases occur in the region each year -- almost a fifth of the world's total. The WHO said precise figures for XDR-TB are not available because most countries lack the facilities to diagnose it, but officially reported cases of XDR-TB increased six-fold between 2008 and 2009.

Rates are highest in Eastern Europe and Central Asia, but many countries in Western Europe have increasing rates of TB and drug-resistant TB, Ditiu said. Britain's capital, London, has the highest TB rate of any capital city in Western Europe with around 3,500 cases a year, 2 percent of which are MDR-TB. Treating even normal TB is a long and unpleasant process, with patients needing to take a combination of powerful antibiotics for 6 months. Many patients fail to correctly complete the course of medicines, a factor which has fuelled a rise in drug-resistant forms of the disease. Treatment regimes for MDR-TB and XDR-TB can stretch into two or more years, costing up to \$16,000 in drugs alone and up to \$200,000 to \$300,000 per patient if isolation hospital costs, medical care and other resources are taken into account. Experts say around 7 percent of patients with straightforward TB die, and that death rate rises to around 50 percent of patients with drug-resistant forms. The WHO's action plan for tackling tuberculosis emphasizes the need for doctors and patients to be more aware of the disease and its symptoms, to diagnose and treat cases promptly with the right drugs, and follow patients up over many months or years to ensure they take their medications

There is one thing certain with these Hidden Texts – one never knows where they will lead to!
 Many have taken on the task of quatrain 1 48
 This was certainly not the *intended* idea here!

1, 48

Vingt ans du regne de la lune passez
 Sept mil and autre tiendra sa monarchie:
 Quand le soleil prendra ses jours lassez,
 Lors accomplit & mine¹ ma² prophetie.

Twenty years of the moon's reign passes. Saros cycle
 And another (moon?) will hold its reign for seven thousand years:
 When the sun takes up its exhausted days cycle,
 And face my prophecy at the time it happens

1 48 It seems to me that Erika Cheetham got it right when she said that Nostradamus is telling us to take the year 1555 as a starting point and not necessarily within this quatrain... There are several moon's cycles, one of which is the saros cycle, which is almost 20 years on its own. The Moon's great cycle in the time of Nostradamus is supposed to have commenced in 1535, so

adding 20 years would give us 1555. This is the date of the publication of the quatrains. When the hidden text cipher of 458* years is added to 1555... (as Nostradamus asked to do in 'Ornament of his time' in 3 94) one arrives at the date of 2013. Interesting that the spelling 'error' of the word 'ans' meaning the word 'years' is a 'd' instead of an 's'. This seems to me to be a heavy hint to use it as the English word...and when done so, lends an entirely different meaning to line two. It is in fact the proof of the full colon : saying that a second moon will appear at the time of [problems with] the exhausted sun. In presage **Januier 3** 1555 is stated the following:

3 1555 lanuier. JANUARY (2013 ?)
Le gros airain qui les heures ordonne

This is then saying that along with Andromeda, Ursa Major (East) and
Ophiucus comes peace. None of these are named in the Second Coming
as part of the "unholy Six"
THE PLACEMENT OF OUR EARTH – FAR TO GO
This is also saying our sun has turned "orange"

*458AD is the year that the numeral "0" was first published. Nostradamus said in the Hidden Texts to use this number. In many other lines there is a qualifier for "the year osculates", i.e. "joins" or the year turns into another one. That is why the date January 3rd caught my attention

¹ mine – means 'countenance' or 'face'. However, the Alchemye list has 'face' as a date which is the first ten days in any zodiac or in the case of Scorpio – the first and the second ten days. This does tie in well with other warnings (by da Vinci) regarding All Saints day.

² ma – in the Alchemye list, Ma means 'truth in Libra'

The forum NOSTRADAMUS, CROP CIRCLES AND ORBITS states that the Earth will be moved away from the danger of the corona of the sun's nebula, which is what the word 'bronze' is describing. Venus also will be moved. In the case of the Earth, she will end up with her own moon 'in opposition' of her own orbit but with two moons still. If she is orbiting Jupiter (as the quatrains say) then her new moons will be Io and Ganymede.

The words **TALISMAN, GEM & EMERALD** are scattered throughout the template of coded words. Until now I had not tied them together; (or until I read Wes Penre, which the hidden texts asked me to do)... The Anun.nakim have in recent history divided off from certain treaties and formed an alliance of their own which includes the 'rogue' faction of the Pleiades – those from Alcyone, according to Penre. Thus the **Emerald Covenant** has reached "an impediment"... the word "DAN" means in Scorpio, but the impediment could be the word DNA. Nostradamus refers to the female collator as the "anchorette", so the "anchor" here is Allan Webber who constructed the template... both of whom are "AUSTRALIEN".

STAGE GATE

HARM TIMEPIECE DAN (in Scorpio)- or **TIMEPIECE HARM** in **DAN...** meaning our view of the constellations will change
The "TIMEPIECE" is always the constellations – by which Nostradamus refers to repeatedly, being the only way to calculate time and calendars properly

MEET C.P (Coburn Parks) **MAIDENHAIR...** (Ginkgo biloba – Nelumbo = stage gate) [quite so – four times]

MAN (Orion) **RAPED** (attacked) **TIME MACHINE**: APE DR. The Siriacs doctored it

to **DRAPE**, (cover/hide) **PARED** (not used so much)

TIME MERE HANDICAP: I'M THE RAPID MENACE... **TIME CHAIR DEEP** (under Giza or in the money pit on Oak Island)

The 'money pit' clues came from the word "*guienne*" – the oak tree which was the clue leading to the "launch boom" of the stage gate. Following the leads I realized that **OAK ISLAND** was in its entirety an alchemye cipher...planted by the Templars (Cathars) hiding their infamous 'holy grail' – the stargate. This, then, begs the question of what is on "Birch Island" ?

Birch in the alchemye list means "boat", "barque" or the Earth herself! Nostradamus often refers to planets as "islands".

Birch as a date is the summer solstice (northern hemisphere) and the date of December 24 – January 20.

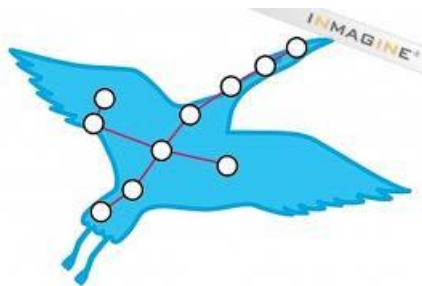

Recently I did find a web site – with no author – from Portugal, dated 2003.

The person had also made a 'money pit' discovery from quatrain 5 7 ... then backed it up with other quatrains, so let us see...

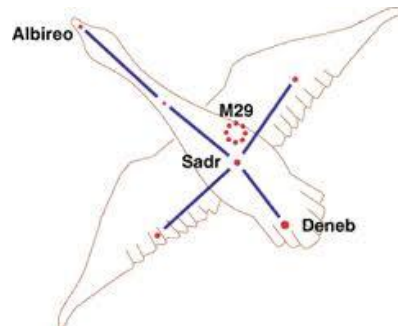

The camera also returned the image of tools and a body. In our opinion this is a reference to what is cited in [1.65](#).

[P136M06](#) V. 7 ...search "treasure" [5 23](#) [1 27](#), [1.65](#), [P 98 M06](#)

so let us see... all quatrains with the word "treasure" mean a reference to a stage gate – stargate, with only one exception which is 3 24 (but it could still mean a time portal) which I took to mean great treasures of mankind lost.

Just such a longer cycle, called the saros cycle, was discovered by Babylonian astronomers in ancient times. The *saros* (meaning "repetition") lasts exactly 223 synodic months. That's a period of 18 years 11-1/3 days (or 18 years 10-1/3 days if five February 29s fall within the period). And the *saros* coincides closely with 19 eclipse years:

223 synodic months (29.5306 days) = 6,585.32 days

TIMES 20 CYCLES = 360 years plus .83945 = 306 days = ten months plus 8.88 hours

For simplicity sake for the purposes of this quatrain - we will call it 361 years

WHAT A COINCIDENCE! THE MISSING 'DARK AGES' YEARS IS 325

I have found a document by a German Professor, which he did in 1995, saying that the 'middle ages' or the 'dark ages' are actually **325** years that was removed from the calendars by the stroke of a pen.

This is an easy thing to do - Pope Gregory did it when he took ten days out of the calendar

And that is how the professor made his discovery - it should have been 13 days that Pope Gregory should have taken - if that year was really 1582!

Dr Hans Ulrich Niemitz is saying that in fact 1582 was really 1257AD

This explains the architectural anomalies

To my surprise Brucellosis is indeed a ‘bacteria’ which has been genetically engineered for bio-warfare, in the presidency of Nixon who ordered the manipulation of Brucellosis “banned”. It is also my understanding that laboratories always keep samples of their work.

In cattle and horses this is called “infectious abortion” and “contagious abortion” –

Brucellosis, also called **Bang's disease**, **Crimean fever**, **Gibraltar fever**, **Malta fever**, **Maltese fever**, **Mediterranean fever**, **rock fever**, or **undulant fever**,^{[1][2]} is a highly contagious **zoonosis** caused by ingestion of **unsterilized milk** or **meat** from infected animals or close contact with their secretions. Transmission from human to human, through sexual contact or from mother to child, is rare but possible.^[3] **Brucella** spp. are small, **Gram-negative**, non-motile, non-spore-forming, rod shaped (**coccobacilli**) bacteria. They function as **facultative** intracellular parasites causing chronic disease, which usually persists for life. Symptoms include profuse sweating and joint and muscle pain. Brucellosis has been recognized in animals including humans since the 20th century. Wiki

There is nothing preventing a laboratory from tweaking this bacteria (and splicing it with scrophula/TB) so that the “spontaneous abortion” creates permanent sterility in humans affected... thus creating a ready made population control.

ARE THE GERMANS DESCENDANTS OF NORDIC ALIENS?

(Nordic is generic – see previous page)

A book written by a German American, Reinhold Schmidt, claims that the author was taken up in a UFO on several occasions. The crew spoke German and he was taken to the South Pole. The Americans forced him into silence. The UFO matched at least 2 German designs. The crew leader claimed he was **from Saturn**.

It could be that Germans along with the Nordic nations are descendants of Nordic ETs, as contactees have said that **Pleiadians** have confirmed this. There was also a story of a German woman who was getting abducted and the ETs spoke German*, and they claimed that they had a space station outside our solar system and were the German gods as mentioned in German legends.

Blond blue eyed giants are spoken of in Nordic, Incan, Aztec and North American legends.

Perhaps the Germans did originate from Agartha as the Nazis believed and before that from another planetary system. The Nordic Pleiadians are said to be blood type A- and apparently Hitler was attempting to eliminate all blood types except type A which is genetically Nordic.

Runic inscriptions were on the uniform emblems - 2 jagged lightning flashes of the storm god Thor

The left hand swastika as chosen by Hitler, was associated with Kali of India and the sun of the underground in its nightly course west to east.

Dr. James Hurtak was involved in using ground penetrating radar to find **a 15,000 year old subterranean complex under the pyramid at Giza**, a legacy of Atlantis.

It's rumoured he encountered **"THOTH" (OF THE ANU)** down there.

There were massive chambers the size of our largest cathedrals. Paul White writes that hi-tech Flood survivors of the previous civilization arose "after the dust settled" to become the gods of ancient Sumer, Egypt and India.

Tunnels under the Mayan pyramids extend 800 km across the country.

Brotherhood' will 'Externalize' and appear as our 'Masters'.

12 specially created artificial time portals have been created by aliens and human hyperdimensional physicists to enable the chosen few to escape the wrath coming to earth which will kill the masses, which according to him will be through **solar flares and diseases**.

The number 12 is a foundation numeral for what we call the Anun.nakim

From Linda Porter interview Linda Moulton Howe

The EBEN craft in Earth skies are called "bathtubs" by human agents because the EBEN craft are egg-shaped and put down "bent legs" that remind some people of antique bathtubs that rested on ornate, angled legs.

In contrast, the blond humanoids' ships are shaped more like upside down pie plates with three "balls" placed in a triangle pattern on the bottom of the blond "Nordic, or Swede," craft.

EBEN craft and technology are described as so advanced that the best human scientists at Los Alamos cannot grasp the technologies. Travel is inter-dimensional.

According to Ebe, there are at least fourteen different dimensions. Two of those dimensions, the human mind might be able to relate to, but humans would not be able to relate to the other twelve dimensions.

The December 1980 Cash-Landrum craft is supposed to be one set down at Hill AFB, Utah, in 1953 as a "gift" by EBENs. The advanced craft was left powered up, but scientists have been trying to figure out how to make it work ever since. The egg-shaped scout craft that produce flame and scorch plants. The landing leg supports leave deep impressions of a triangle pattern in the soil.
