

HURRICANE SANDI

For months now the concern felt here was intense, because that dreaded date mentioned so many times for so long seems to have passed (for this year anyway). This is the date of “IN FACE” (the first ten days of Scorpio) that of DAN and REED (October 28 – November 24) and Ng (Reed) and “1” (Halloween) – albeit the days of December 18/19/20 the other Yew Tree Days are still to come at the time of writing, (November 3rd 2012). Not to mention the Thursday of All Saints followed by the days of All Souls. However – Nostradamus was not wrong by any means. When I saw the name “Sandy” the sucker punch to the solar plexus hit me – yes – that name SANDRA *had* appeared in the template of the Hidden Texts – and I had not known to what it referred. So, at 2am today this is what I found:

SANDRA

Sandra is a short form of Cassandra. It is of Italian origin and means "protector of mankind".

The name may also derive from Alexandria which are feminine versions for Alexander which means warrior

DA VINCI

the clouds, riven and (**Dan in Scorpio**) torn, swept along in the path of the wind, together with storms of sand blown up from the sea shores, and branches (**in Virgo**) and leaves caught up by the irresistible fury **of the gale** and scattered through the air, and with them many other things of light weight. The trees and shrubs should be bent to the ground, as though showing their desire to follow the direction of the wind, with their **branches twisted (twisted in Virgo) out of their natural growth** and their leaves tossed **and inverted**. Of the men who are there, some should have fallen and be lying wrapped round by their garments (**garlanded/October**) and almost **indistinguishable (shapeshifters)** on account of the dust, and those who are left standing should be behind some tree with their arms thrown round it to prevent the wind from dragging them away ; others should be crouching on the ground, their hands over their eyes (eyes means from Orion) because of the dust, their garments and hair streaming in the wind* Let the sea (those from Crane Eridanus etc) be wild and tempestuous, and between the crests of its waves (**where it is calmer – means those of Tau Ceti in the Whale constellation**) it should be covered with eddying foam, and the wind should carry the finer spray through the stormy air after the manner of a thick and all-enveloping mist.
