

CHANI PROJECT introduction and the FUSE YEAR

TRANSLATED INTO MODERN GRAMMAR

Dedicated to Stella Lehalani

Excerpts from the article Nexus Magazine page 55 June/July 2011...The CHANI Project by "Acolyte"

... researchers started receiving communications from an Entity who claimed to be from a parallel universe/dimension/timeline.

A remarkable and ground breaking interaction ensued.

For a period of five years, researchers asked the Entity a series of over 20,000 questions and received answers to more than 95 per cent of questions asked.

In reviewing the research notes for this article, all the above projects at one stage seemed to have had a turn in merging with the CHANI project and subject matter. One researcher commented:

"This is an orgasmic interaction between science, theory and spiritual awareness."

In October 1999, technicians began a series of software and hardware upgrades to all the collider [a 'secret' collider somewhere in Africa] equipment and computer networks.

The purpose was to get the system infrastructure Y2K compliant.

It was soon apparent that the Y2K-compliant upgrades had a direct effect on the CHANI research project.

On 14 November 1999, contact with the Entity, which for five years was continuous and constant on a daily basis, was effectively lost.

The Entity was verified to them in ways and methods that are still highly classified and which I can't elaborate on.

The Entity and Humanity

The Entity explained in some detail to the researchers that contact was made because the Entity was our equivalent of a "student" and he had authority from his Elders to interact with, observe, study and learn from us.

The Entity explained that his Elders "noticed" us (we here on Earth) and our whole solar system cross onto "their" parallel universe. The Entity also explained that we weren't the only race reaching this crossroads/ merge, but that they could see other alien races from other planets in our solar system as well.

Our Entity was specifically tasked to study us (humans, Earth), while other students were tasked to study the other races and planets corresponding to their planet and solar system. It was not just a merging or colliding of our Earth reality, but it was our complete solar system colliding with the reality of another "parallel" solar system.

Although it was we humans (with some alien assistance/technology) who were "playing with dark and portal matters", the result was that our whole solar system traversed into "their" universe of visibility/perception.

To help researchers get a timeframe for when this merging or colliding of realities would occur, the Entity gave them **"predictions"** that served as **indicators** for when the time was close. The Entity's abilities and accuracy were verified to researchers by predictions and indicators given during the five years of the CHANI project (these are still classified).

The predictions didn't come all at once, but were obtained/spread over the duration of the research project.

Although the Entity was in the "now", he was able to see events in our timeline that he shared with the researchers.

Some of these were a cosmic sonic-boom event and changes to our Sun and Jupiter.

All these predictions were to be used as a sequence of steps/indicators to identify the time (**Fuse Year**) when the big event (**the Merge**) would occur.

this is the credo:

"Our whistle is blowing softly; if we blow too hard, some eardrums might pop, then everyone would be deaf."

And yes, I said "spiritual". Some might be pleasantly surprised if they knew how "spiritually oriented" the decision-makers in Upper Echelon and other intelligence-gathering organisations are. They are fully aware of the spiritual impact that the coming changes will bring to mankind. ...

Now, all that remained was to wait patiently for the appropriate time to release the CHANI information to the public. That time finally came in March 2008.

Birth of the "me tel u now" Thread

It was from the CHANI transcripts of over 20,000 questions and answers that the thread known as the

"me tel u now so u belive me after 15 may" thread was started on the Godlike Productions forum.

Apart from amazing information and discourses on various subjects, the transcripts also contained a large number of "predictions" or "calculations" (a term that the Entity used). We had the dates, but not the year.

The Entity never specified an exact year, but mentioned only months and days.

On various occasions, the Entity would also ask the researchers questions, which led to even more intrigue, insight and contemplation.

To put it frankly, on some days the researchers were quite literally stunned.

By the end of 2009 my active participation/reveal on the thread was halted.

Rubicon officially pulled the plug. However, with certain events transpiring in 2010, it's been suggested that

2012 may be the Fuse Year. Tom Horton in NEPHILIM STARGATES page 82 says 2012.9 providing his reasoning for that date With the official Rubicon release of the BEZERK information (another thread, launched in June 2010), there exists a strong case that the **"oil sickness" and the problems in Japan mentioned by the Entity could relate to events** in the BEZERK thread (e.g., the **Deepwater Horizon oil-well disaster, and the Japan earthquake***, tsunami and radiation contamination). Hence my renewed yet "unofficial" interest in the CHANI project and information. This article is meant to serve only as an introduction to CHANI and to provide some background. If there is enough interest or demand, I hope to expand on topics covered by the Entity in further articles, even if it turns out that 2011 is not the **Fuse Year**.

What follows below are selected quotes from the Entity in no particular order or importance.

Many have asked me what are my favourites or most significant. I really can't answer that.

They are all up there; every single quote ranks top. invite you to visit the thread at Godlike Productions and you'll soon understand

Below is the opening post on the "me tel u now" thread.

After reviewing more than 100 predictions, I decided on this collection to start the thread:

***The Entity referred to dolphins and mentioned their importance on a number of occasions.
Dolphins somehow balance certain vibrations on Earth.
Specifics were given, but that part was not cleared by Echelon for release.
We should keep an eye on dolphin behaviour and events involving dolphins.
Their behaviour heralds events and Earth changes:***

Some Closing Notes:

(a) English was the primary language used by the Entity. Another language was perfect Latin.

(b) The CHANI project was a natural outflow of the research done at the collider facility.

Among other things, the time-space fabric was tested and experimented on.

When protons collide, then what about time? Can times collide?

This was the irony of the research done at the collider.

They were looking at the possibility of times colliding—and the researchers were not disappointed.

The CHANI project was proof thereof.

Other aspects of the timeline phenomenon were also researched and tested,

e.g., time machines/devices, conscious projection of awareness of "human subject" forward or backward in time,

and projection of "objects" (mostly sub-nano quantum recording devices) forward and backward in time.

(c) I will comment briefly on aspects of the concept of time as it was covered in the CHANI research.

Time is linear and moves in a circle, i.e., a single line drawn in a circle: 0 to 0000, then back again to 0

(beginning to end to beginning).

There are many of these circular timelines and sometimes they interchange or cross each other.

Time is also elastic and can be stretched, resulting in a time-stretch phenomenon.

Some researchers commented on how déjà vu can fit into this paradigm, as well as on how the "time is elastic"

model seems to be the only workable model to describe and define time travel.

The "time is elastic" model also explains the colliding of realities at the same time.

As far as the CHANI project was concerned, the elastic properties of time helped to explain why no year was given, only dates.

A further "help" was how the Entity described the direct and "planned" influence of the Moon on the human perception of time.

The Entity explained that his Elders originally had calculated our dates using a 28-day, 13-month mathematical model,

but that they themselves couldn't decide on the appropriate maths and starting dates to use with our current timeline on Earth.

The procession of time and our awareness of time are directly controlled by our Moon.

The Moon has an effect on the body, mind and spirit of every living organism on this planet.

This is why the Entity's Elders destroyed their moon. They wanted to get rid of the moon's influence.

They received the advice to do so from inner-planet beings.

Without the moon, there were five immediately observable changes:

(1) The most notable changes were in the mood and temperament of the beings/civilisations living there.

Without the moon, they became more calm and peaceful.

Anxiety and emotional fear had a dramatic decline among the population and even the animals.

All living beings were affected.

(2) There were weather and climate changes.

The oceans became much calmer.

Heavy thunderstorms and lightning became a rarity.

The climate became balanced all over their planet.

Extreme cold or heat became something of the past.

(3) They developed an enhanced new colour spectrum.

They could see and differentiate between new colours in a way that they couldn't do before.

(d) I have to point out to the reader that there were certain topics that the Entity was very reluctant to address

or to provide more detail on, other than what was already covered.

Some topics were refused outright (these topics are classified).

**One of these "reluctant" topics was the naming and description of inner-Earth beings,
their role in our development as well as the appointed hierarchy and who appointed such a hierarchy.**

Door Lintel Seti 1

1 is Cup/Crater asterism
2 is the Maya numeral for twelve and
3 is Musca (obs.) asterism now known as Aries.

Recently it came to my attention that the J-Rod saved at Roswell told Dr Dan Burisch that he came from a star system called The Wasp. That star system was renamed Musca the Fly before becoming part of Aries

On various vignettes of Cesar de Nostredame can be seen a large fly, and Nostradamus had named his assistant “UUilliem52” – Dr Dan said his J-Rod was a “52”, and called him “J-Rod52”, although he did have a name: Che-ilah (as in “Che-rub”)

ONE: is the bowl of Crater constellation.

Surprisingly this is quite a significant mention.

CUP - LEO 2ND DECAN. CRATER. THIGH (Hip) of Leo

CUP OF WRATH – CRATER from August 2nd to the 11th

The cup, or basin, with the cup, crater, in Leo. Matt 26:39

4 20 One will bring there; bodies dead by water, land

4 38 Reverse side metaled will follow the trail of the blood.

5 34 fleet will enter the Gironde (Gyronne) by Blois

9 33 Italy and the one of St. Mark (Marcabian/Ursa) to tremble

9 92 The King will want to enter the new city.

This is the King of Fear of 10 72

TWO: The Mayan numeral for 12 – making this an Anu glyph

THREE: is Musca (the fly/wasp) constellation

This is a small constellation just under Crux the Southern Cross.

It must have some significance since the fly appears on the right on the outside wall of an underground stage gate. One of the Lions represents Den.ebola (Hip) and the other, Regulus. Sirius holds the keys to everything - With the sun flaring and Aquila (Hanix of the North) trumpeting. At the lower right of the door lintel is the same triangle which was a recent strange sunspot earlier in 2012

Just as verification – the word “stave” is a date, the **second decan in Leo!** The stave – or ‘rod’ here has a triad which is under the canopy of Sirius (wearing the Anu cross).

Not mentioned here is that SHE is standing on top of the stage gate.

The significance of the Fly/Wasp is huge – since the discovery in the tomb of the Princess of Senusret II 1880BC with a mummified He-Rod

The two keys in this vignette signify to use two of the three *triple method* forms of decoding. In this illustration, they are the Alchemye List and the Celtic Keys

April 16, 2013 – IRAN - A powerful, shallow **7.8** magnitude earthquake, which struck along the Iran-Pakistan border, was felt in several countries in Asia Tuesday, rocking buildings in the Indian capital of New Delhi and striking with powerful force in Iran, reports said. The earthquake measured 7.8 on the Richter scale on Iran's border with Pakistan, and appeared to be centered in the Khash, Iran, the U.S. Geological Survey said. The earthquake was felt as far away as the Persian Gulf states, according to the Reuters. The depth of the earthquakes was 15.2 km (9.4 miles) below the earth's surface. In New Delhi, which is periodically shaken by temblors, the distant quake could be felt through the city, as buildings shook for more than 10 seconds
