Dressed as Boötes (Libra) ~ man of the Earth which is the Taurean what zodiac house has eleven stars?
 Taurus has four plus the seven of the Pleiades. So in Taurus. The calipers to measure distance Earth shifted are at his feet & have already been used – he sits under the last tree standing. The quadrant shown is that of around $\frac{1}{6}$ i.e. ca 4,000 nautical miles movement of the Earth – see the new axial tilt angle moved from 23.5° on the globe in his hand (first millennium BC, the Zodiac consisted of only eleven constellations) In the prophetic dreams of Joseph, he saw eleven stars bowing down to his star...
 However; the warning here is in the House of Taurus

The Hesperides: Pleiades were the seven daughters of Atlas and Pleione, and half-sisters of the Hyades, whose mother was Æthra

Here is the exact 1555 spelling, photocopied from the edition
 This is the spelling used here in these anagrams

On this subject Isaac Myer states: "We think that the Zodiacal constellations were first ten^{2next page} and represented an immense androgenic man or deity; subsequently this was changed, resulting in Scorpio and Virgo and making eleven; after this from Scorpio, Libra, the Balance, was taken, making the present twelve." (*The Qabbalah*). Eleven means Abrak.hadabra (in **Taurus** the Bull). Above are 13 stars, but two separate constellations. Many have seven including Ursa Major/ Cepheus and the Pleiades. In the Hidden Texts, Alcyone allies with those from Ursa, leaving the Pleiades with six.

²Except that the Clay Tablets of En.ki (Ea/ EyAh pron. 'ewe-ah' sometimes confused with YHWH) say they 'placed' the twelve zoo-diacs for 'sign posts' to show the 'way in [and out] of the Solar system' – our solar system. Because the Anu (as we know them) have six toes and six fingers, their system is based on twelve with the consequence that all Earth co-ordinates are as well. For us on Earth, these constellations became the Runic Skies, (by Allan Webber) easily read by the likes of the Vikings.

For those who have not seen quatrain 2 5 it is here. The sixth bright celestial light has a few choices: "celestial light" could mean planet or star. Sixth planet inwards is Mars, going out it is Saturn. Not including our star the Sun, it is Rigel or Capella in Auriga. **Or Vega.**

From the sixth bright celestial light

it will come to thunder very strongly in Burgundy.

Then a monster will be born of a very hideous beast:

In March, April, May and June great wounding and worrying.

Theta (uppercase Θ, lowercase θ or ϑ;[1] Ancient Greek θῆτα [tʰɛːta]; Modern Greek θήτα [ˈθita]; UK /ˈθiːtə/, US /ˈθeɪtə/) is the eighth letter of the Greek alphabet, derived from the Phoenician letter Teth . In the system of Greek numerals it

has a value of 9.

Lambda (uppercase Λ, lowercase λ; Greek: Λάμβδα or Λάμδα, lamda or lamtha) is the 11th letter of the Greek alphabet. In the system of Greek numerals lambda **has a value of 30.** Lambda is related to the Phoenician letter *Lamed* Letters in other alphabets which stemmed from lambda include the Latin L and the Cyrillic letter El (Л, л).

"EE LIE 1366E" cannot be "EELRIJUE" or "BELIEVE", like some people say, since eleven digits are used to form the binary number "1366". ASCII signs contain only eight digits.

My guess considering the EELIE1366E is that either there is a hidden crypto within the code, or it is a typing mistake, or it is meant to be used as a mantra or a spell. There is no "bell sound" in the end of the message.

Again will the holy temples be polluted,
 And plundered by the Senate of Toulouse:
 Saturn two three cycles completed, **177 YEARS**
In April, May, people of new leaven. Extraterrestrials

see the PREFACE to his son Cesar...

"Some countries will be in the grip of revolution for several years, and others ruined for a still longer period.
 And now that we are in a **republican era**, with Almighty God's aid, **and before completing its full cycle**, the monarchy will
 return, **then the Golden Age.**
 For according to the celestial signs, the Golden Age shall return, and after all calculations, **with the world near to an all-
 encompassing revolution**" [poles shift]
 - from the time of writing **177 years 3 months 11 days**- plague, long famine and wars, and **still more floods** from then until the stated
 time. Before and after these, humanity shall several times be so severely diminished that scarcely anyone shall be found who wishes to take
 over the fields, which shall become free where they had previously been tied.
 This will be **after the visible judgement of heaven, [ASTEROID HIT, NIBIRU, POLE SHIFT, ICE AGE] before we reach the millennium**
[FOURTH millennium] which shall complete all.
 In the firmament [orbits] of the **eighth** sphere, [counting outwards or counting in towards the sun?]

a **dimension** whereon Almighty God will complete the revolution, and where the constellations will **resume their motion** [meaning the Earth resumes her motion] which will render the earth stable and firm, but only if He will remain unchanged for ever until His will be done.

“This is in spite of all the ambiguous opinions surpassing all natural reason, expressed by Mahomet”
