

CENTURIES PROPHÉTIES ~ HIDDEN IN PLAIN SIGHT

This forum is not going to be one of portents predictions presages prognostications or prophecies like other forums. his does not mean *none*. At some point we absolutely must investigate the differences in publications of the works. his forum is about the truth behind the original words, with a few pertinent examples. Soon after his death we lost the integrity of the original words published especially on request by Nostradamus to his publisher to print verbatim the reason being is simple; to facilitate the anagrams! It not only applies to just the words, but the vignettes too.

A CONSISTENT THEME

You will notice throughout all of the works published from Nostradamus, that there are little illustrations. These are called vignettes and are most commonly done using woodcuts. They are there for a very good reason. To tell a story – for those who can read what they say. In the ensuing years almost **immediately after the good doctor's death** – these vignettes became more meaningless, simply because followers were not “in the know”. The “uninitiated” – called ‘leper’ in the alchemy list. Here is the Earth (the rural setting) our sun ‘gone bronze’ and her dark brother, Nibiru, looking/coming our way. The globe is the *angle* of the Earth. See him pointing to the dark brother or ‘son’ of our sun? The flames are the “fuse” event.

It was the “chance” discovery of **10 39** which led me to this forum. When I saw what it really said – there was a question mark over the word “*vefue*” spelt ‘*veufve*’ by all modern decoders. I suddenly realised their interpretation was off, so to the **Originals** I went. I actually *prayed* for help to find it. The very first site had only one example of original quatrains – guess which one was there! **10 39**

10-39 Erika Cheetham's spelling

Premier fils *veufve* malheureux marriage,
Sans nuls enfans deux *isles* en discord,
Avant dixhuiet incompetant eage,
De l'autre pres plus bas *sera* l'accord.

10 39

First son forceful unhappy relationship,
Without no children two islands in discord,
Before eighteen incompetent[inept] age,
Of the other arrangement will be at the lower ebb [sooner than 2018]

“other arrangement” is the Earth “LIES DOWN”

The spelling and punctuation is normally taken from Erika Cheetham, albeit, the Original quatrains have not been faithfully trans-located it seems – by anyone – see below ... the word “*vefue*” is from the Latin *codes within codes*
Isles = **Is Els Life's files** ...flies (the Earth or Elohim)

OUR SUN & NIBIRU unhappy relationship (orbit) forced on us the double negative is telling us it is not humans - yet it is “enfans” these will be the many “followers” of Nibiru - moons and asteroids
TWO PLANETS IN DISCORD ...WITH SATELLITES
BEFORE 2018 (or 3,018) THE AGE CHANGES (see *END of an AGE*)
BETWEEN 2013 (lower) & (higher ebb) 2018 (see comments here)

see the *hidden texts* of the original 10 39 at the end page

“Island” always means “planet” – this is the “key” word in this quatrain, the word which “unlocks” the true meaning. Note it is capitalised **sans nuls** double negative: “without no children” – no humans - saying “with some (plural) children”- with some smaller planets
eage should be (is) saying **étage** which means “stage = level-floor-story but in this case “orbit” that is - incompetent orbit.
This *implies age* in that a year depends on the orbit – as do the “ages” in the bigger picture
Incompetent age can also be taken to mean that we are all non thinkers

l'accord, plus bas THE “OTHER ARRANGEMENT” “FURTHER DOWN” (2013) Lower – earlier and a pun “further down” ... by one sixth
IS THE ONE QUARTER ROLL OR *LYING DOWN* OF EARTH

lower ebb | **sooner** INDICATES MORE THAN ONE THING. IT IS ABOUT “TIDES” THEREFORE TIMING, BUT ALSO INDICATES “FLOW” OR “STATE OF BEING” OR “POSITION”- THIS INCLUDES BEING SUPINE OR BEING IN THE WRONG PLACE

vefue is **VESUE** Latin Ves vis, vis N F [XXXAX] strength (sg. only, not ACC), force, power, **might, violence**

There is a page full of lines regarding the lady astronomer who comes along in the “year of the Coq” to repair the calendar. This is done using the star system around us, because that is normally the only “constant”. It is only by the stars, Nostradamus says, that we can calculate the true time. The year of the Rooster around the 2018 date is 2017. For an astronomer to “repair” the calendars means that the stars have already moved places (such as Cetus, or Mira in Cetus) becoming the new north polestar – see 5 9 4 “unaccustomed Cetus”. The date of August 2016 is seen in quatrain 4 67 In the year Saturn and Mars equal fiery... this could be ambiguous in that this may also be the date that Saturn and Mars ARE THE SAME SIZE TO US – when in these times in 4 29

“The sun hidden (so small) eclipsed by Mercury”

LAGUZ = CETUS ; TAIL OF PISCES

Unfortunately one of these is a copy – but which one? In Cesar de Notredame’s Vignettes (called the “Lost Book”) – colours also have meaning, as do the “dark” vignettes. This is Cetus (constellation) normally in our south, holding a single sceptre which is Jupiter or the tribe of ‘Rods’. The sun looks away ~ gone bronze with C.M.E see presage January 3

April 12 2013 at our sun
In the forum CUBES as Unidentified Objects it says these are from Cassiopeia – and is reiterated by saying in another line that it is the Mantids in the cubes – and they are those from Cassiopeia ~ concerned about the « Living Library » of Earth see 5 9 4 in **SATRAP’S ROOM**

FONT texts FRAMES contains CACHE hidden meanings – that is Virgo is missing in the WHEEL of RADIANTS in the Lost Book, as is Sagittarius and Capricorn...
ISTAR Sirius TRIAD what? Men?

To start telling us that NOSTRADAMUS TEXTS CONTAINS HIDDEN FACET this late in the game at Century 5 quatrain 9 Line 3, just over half way through the work, indicates the need to look very closely at his pinpointed words here, which are FORENAMED UUHEEL RADIANTS, that is, the precessional stars. I think I know what this is about – something noticed a long time ago – in the vignette of the wheel of the zodiacs – Virgo & Sagittarius are also missing. This fact was hidden by OMISSION, that is what is being said here.

The Eleusinian Mysteries – Greek: were initiation ceremonies held every year for the cult of Demeter and Persephone. In past lines it was determined that these ladies were taken into hades where the stage gate is. Gone for half the year, returning. See the statue of Demeter in the British museum with a flowered bell over her head. This is what Nostradamus calls the stage gate « Bell flower » on page 4

SUMMARY:

PAVO IS SITUATED WHERE OPHIUCUS WAS.
GOD HAS "TURNED" THE WHEEL

WHAT DO WE SEE – AND WHAT WE DO NOT SEE

FIRST WE SEE A MANSION – all the zodiac signs are said to be in their own "house"
Top left: the hand of God passing through Pavo (the peacock, formerly in the south but in the north here) to affect the wheel of precession (changing "gears" or orbits)
Pavo with its foot on a full sand timer striding across two quadrants. The Coq staring at the time. This could represent in the year of the rooster. In the quadrant under the Cock seems to be a long eared animal (hare/another date, in Pisces) on what appears to be a boat. Barque, boat canoe etc always means the Earth. There are three further apart
The Lion would like to be in charge, (the treaty with Leo?) and note the polluted scene under his quadrant. A silo is to the right. This could represent many things. Abundance, financial gain and even starvation. Or to become prepared. If it means "grainery" which has several keys for "guardians of the grainery" Boötes, (Libra) Phoenix (Scorpio) and Cassiopeia. The warrior has the lion by the tail – at [the hair of] Berenices/Norma .
The bare footed soldier with coat of arms in a dark blue cavaliers hat and provisions pouch on his thigh* is holding Leo's tail. He wears the cross of the crossing and may be YHWH/En.lil And seems to be protecting his king who is a sphinx with a turban and coronet. [Prince Sirius] Could be Leo Minor – the Camelopardalis asteroids. The lion has a hold on this prince. The sword indicates it could be Orion. Is Leo in charge of these asteroids? It is quite difficult to determine what is in the quadrant at the king's shoulder. The working man (Libra/Boötes) who supports all this on his shoulder has clogs suitable for wearing in mud. The blue planet at his feet he cares for, is the Earth, and the phoenix, which represents Scorpio and rebirth. It seems the kingdom will go to him because the phoenix has a crown in its beak. Behind Scorpio is the fancy-man Ophiucus the snake holder of the north (formerly), who is a Giant wearing the pheon cross of Anu, with a dead autumn leaf in his quadrant. He is also armed and well paid. By the church it seems.

There is no Pisces Aries, Taurus, Gemini Cancer, no Virgo, Sagittarius or Capricorn*
Libra is "sweeping" the Earth. *Thigh means many things, as does the bright blue.

This matches the column in St John the Divine Cathedral and what is special about the Sagittarius constellation at Uffington ? Is it a date ?

There is no Pisces Aries, Taurus, Gemini Cancer, no Virgo, Sagittarius or Capricorn* (so this is not about zodiacs)
Nor Aquarius on the wheel above – and here they are on this vignette which shows a very tired sun, an asteroid (from the word "aster"/ star) and the black sun Nibiru giving off its "black rays" with two planets in tow
"Pavo with its foot on a full sand timer"... a new Age
Pavo is next to Cetus, said to become the new north pole pointer star in the Hidden Texts. The Coq is cockerel of Puppis in Argo, normally in the south

On the left are the zodiacs in precessional order. The differences are – Virgo is upside down, October which consists of Halloween is shown as a skeleton. The scorpion is followed by a very lengthy Ophiucus and no Sagittarius with Capricorn out of sight, if it is there at all.

The white horse of Uffington is Sagittarius, a date in time. Bow and arrow are minus the white simply because no one knows it is there

Gulf of Aden Underwater Stargate Has Been Activated: Militaries Nervously Waiting To See What Comes Through

August 30 2011 YEMEN “The Oman Observer is now looking into even more interesting testimony coming from an anonymous source who works on a German naval vessel in the area. The Oman Observer is currently verifying the witness testimony. If the testimony is true then this could turn into one of the major stories of 2011.

Anonymous German sailor: "I have been out here for 8 months and its been rather boring up until last week. We are monitoring an underwater anomaly. It is too far down for divers to expect yet we have sent submersibles. The video they have sent back is mind blowing. It appears to be some sort of gate. A hollowed out cylindrical gate made of unknown stone and alloty. It has recently activated. It is putting off an extreme amount of EM energy and the power source is yet to be determined. What is even more amazing is that we are beginning to see some sort of vortex forming now and then. Each time the vortex seems more pronouced and last longer. We can only speculate. But this may be a stargate. Hopefully whoever is activating it are friends and not foes."

Here is a confused [or not] version of an Original
 which still may have been approved by Nostradamus,
 simply because the vignette shows a bird which is either a
 peacock a crane or a phoenix. In 10 83 1 it speaks of:

REASON BILATERA E

Saying there are two "E"s – one with Nostradamus pointing up
 telling us this is where the "E"s come from – they are the Greys
 and there ARE two of them which finally I can explain... one is
 the J-Rod52 He Rods which returned and crashed at Roswell in
 the hopes of repairing timelines. The other is their counterpart
 from seven thousand years prior – the J-Rod45s which we call
 Zeta Greys, who had/have not evolved so well and need a soul
 in more ways than one. It **was on record** that the J-Rod which
 survived the crash was different to the others in the crashed craft.
 The reason I mention "Crane" is line 8 40 4 'Basal chimera spun
 in Crane'. And in 6 35 1 'Alien bachelor able echo desires'.
 Compare the spelling once again. Note the word after "Fait"

THE DISK IN HAND, ENACTING THROUGH the SEE-ER

FEAR AND ONE VOICE ~ SHIMMERING - RETURNS BY THE

DIVINE SPLENDOR - THE GOD SITS CLOSE (in time)

1. La verge en main mise au milieu de BRANCHES
 Del'onde il moulle & le limbe & le pied.
 Un peur & voix fremissent par les manches,
 Splendeur diuine. Le diuin pres s'assied.

It is remarkable that these texts do not contain as many interpunctuations, seen
 today, except for a closing point at the end of the fourth line of every
 quatrain and points used in abbreviations. Raising the question – who put
 the semi colons and commas in all the modern quatrains – why?

The first vignette (C 1.1) shows the initial E and an old man, whose right hand lies at the lower side of the picture. His raised forefinger of the left hand *is pointing up*, telling us to watch the stars, learn about them. “E” is the sky rune for Ehwa, the Hero - Hercules (Zeta Herculis)

The second vignette (C 2.1) shows the initial V and obvious the same man. He looks and he points with the forefinger of the right hand to the lower right edge of the picture. “V” is the sky rune for Andromeda – are they living underground as well as above

The third picture (C 3.1), with the initial A, shows the man together with a woman. The man has reached the marriageable age. He holds two fingers of his left hand significant upon the letter A, they seem to be underlined, meaning two “A”s. This is the “A” of Cassiopeia who do the hybrid breeding and the “A” from Cesar’s Preface

The fourth picture (verse C 4.1) shows the initial C and the man in his youth, because of his short beard, in comparison with the other pictures. “C” are those from Ophiucus the Serpent Holder (we call them the Anu) who never age. The forefinger of his left hand is pointing to the lower left edge of the picture. The finger pointing forms a format to sit the letters in

The fifth picture in this manner we find in the letter of Nostradamus to his son Caesar. The man has an unnatural *long forefinger*, which runs parallel to the right border of the picture. We see only two fingers at all. This is what the GRAYLE has, those who made treaties with the US military. “T” is the sky rune for Ursa Major Central – where more Anu come from

The sixth vignette is from the Preface to Cesar – The young man – a “lad” is a Dal and holds a quill – Aquila and is with a Wise Man – the Andromeda council
Nostradamus had chosen these pictures with a particular intention
None of the later published editions has these Alchemical intentions in the initials

The letters CAV in Latin mean the 11th letter of the Hebrew alphabet); (transliterate as K) and “K” as a sky rune is Cancer constellation. If this is taken as a date, the 11th day of Cancer the Extra Terrestrial Aliens may be here on Earth. This was done once before in the “colour cyan” – which had an atomic number of 11.3. This appeared in the *JAPAN NUCLEAR ACCIDENT* forum. And what happened on 11.3.11! This was eleven months after the Mexico Gulf Oil Spill. Time enough for the toxic oil rolling along the ocean floor to reach Japan – almost seems like a Grand Plan doesn’t it! So the eleventh day of Cancer is around the second day of July (depending on what hemisphere you are). I think this is the date of the false rapture, because the coded words on the binary disc held by the Orion Grey in the crop square of August 2002 said “EE LIE 1366E” which I am taking as June 6 2013 Earth Lies (saying E (Herculis), Earth Lie down – 1366 East) – one month before July 2/3rd - time enough for humanity to be desperate. My own track record for guessing things is quite poor, but I am sure there is someone out there who really knows what it means. 1366 is also the number of YHVVH

Nostradamus wrote in the letter to his son Cesar

"car la parole hereditaire de l'occulte prediction" The hereditary diction of the hidden prediction is the name

The recurring theme on the frontispieces of all of the publications from Nostradamus is a warning to his future about the axis of the Earth (right hand picture) and an incoming celestial body (left) The one on the right has only one sun in the window. Albeit there is the cross of the crossing on the Earth (disguised as an astrolabe) *plus the Pheon cross of the Anu the message ...*

THE VIGNETTES WERE PAINTED BY CESAR DE NOSTREDAME WHEN HE WAS 13 YEARS OLD.
 THIS INFORMATION IS TOLD TO US IN THE HIDDEN TEXTS. THERE ARE AT LEAST 80 VIGNETTES FOUND AND TITLED ...
 "THE LOST BOOK OF NOSTRADAMUS" WHEN IT SHOULD HAVE BEEN TITLED "LOST VIGNETTES OF CESAR DE NOTREDAME" HIS FATHER HAVING GOUT IN BOTH HANDS FOR THE LAST FOUR YEARS.
 THE VERY COLOURS WHICH ARE USED HAVE MEANINGS, THIS IS WHY IT IS IMPORTANT TO OBTAIN GOOD COPIES
 THE "SCORPION" QUOTED BY JAY WEIDNER IN THE MOSTRADAMUS 2012 "DOCUMENTARY", IS **NOT** A SCORPION –
IT IS A CRAY/LOBSTER/CRAB AS CAN BE CLEARLY SEEN WHEN COMPARING TO THE MEDIEVAL MANUSCRIPT ON THE LEFT
WAYNE HERSCHEL ALSO TOOK THIS TO BE A SCORPION, BASING AN ENTIRE THESIS AROUND THAT FACT. PLEASE FORGIVE ME FOR BEING ANNOYED – BUT FOR ME, IF ONE IS MEANT TO BE AN "EXPERT" ON SUCH MATTERS AND ONE IS BUILDING FOLLOWERS ON THIS BASIS, IT IS A FALSE PREMISE FROM THE VERY OUTSET. BE WARY OF "ONEISM", A HIVE INTELLECT
 THE SWIRLING THINGS IF THEY WERE GALAXIES AS JAY WEIDNER MAINTAINS, WOULD NOT BE GREEN – THEY SHOW A TURNING OF THE EARTH & HER OCEANS. THE MAGNETIC CORE OF THE EARTH IS ALSO TURNING – IN CANCER
THE GOLDEN "V" IS THE GOLDEN HOST DOING. THE ANDROMEDA COUNCIL . IN THE ORIGINAL IT IS VERY GOLDEN
THE BANNER IS ALWAYS THE MILKY WAY AND OUR VIEW OF IT – HERE IT IS MINUS ALL THE STARS – THIS IS OUR VIEW AKA THE SACK CLOTH OF THE BIBLE. IS THIS WHAT WE SEE DURING THE PERIOD OF OUR ORBIT BEING ENLARGED?
 OUR MOON IS LOOKING IN ANOTHER DIRECTION ECLIPSED BY ANOTHER WHICH IS NIBIRU, OUR SUN AND THREE PLANETS OF NIBIRU FOLLOWING... THE PROPORTIONS ARE A CONCERN.
 THE SPOKES ON THE WHEEL OF PRECESSION (TIME) ARE STILL INTACT

Here was one of the many moments of serendipity which has come my way throughout these works. Watching Discovery channel – these two ‘experts’ have the very first original of The Prophecies – opened at 2: 62. The comment was made “oh look at that – “comet” is miss spelt – with two ‘t’s. Jumping up grabbing Erika Cheetham’s version – and there it was: spelt “comete”. Only one “t”. However, if we look at how Nostradamus has spelt this word in *PROPHETIE of REVOLUTION* – there it is – spelt COMETTES. This meant doing the anagrams again (results above) Others ‘repaired’ it to read COMETT. This is the MABUS quatrain where MA is Alchemye List for in October and BUS means to transport

LEAN (skinny Grayle) ANDROGYNE IS in APR

LEAN (skinny Grayle) ANDROGYNE IS in APR. There are two different “Grails”. The type which the American government made a series of treaties with – not realising nor making provision in the contracts for – any other alliances those participants might make. These are Grayles which come from the Ursa direction, which is the same as those we call the Anun.nakim (Anakim in the bible) or at least are involved with the Anu. In these treaties, the Earth humans thought there are three other Pact Members, making no allowances for those allies of those three. One from Sirius and another from Markab in Pegasus. All three Off Worlders have two other alliances each. This is a total of nine which are entwined in the treaties. The Grail spelt Graal is not involved in any pact – these are those of Cassiopeia interested in the Living Library. It is to their best interests to ensure none of the agendas of the other nine are in contravention of their own agenda. It is in the best interests of the “Anu” to ensure the safety of the Earth’s gold. In many clues from Nostradamus, it is those from Leo who are the real hidden source of many problems

The Treaty 9 which Dan Burisch attended - creating a sub clause relating to *no abductions* or cattle mutilations (for that period) had a certain amount of success.!

WHAT DAN BURISCH AND THE OTHERS DID/DO NOT KNOW - and did not specify in the contract - that for each of the THREE Other Worlders they listed in the Treaty - had another two OTHER ALLIANCES = NINE ALLIANCES
Earth Humans = 1 E.T.s = 9

ALCYONE (a negative faction of the Pleiades who signed) + Chertan (Rib of Leo, shape shifters) + Sirius (Olmec)
MARCABIANS (Pegasus) who signed the Treaty
ANU (the Enlil faction)/Zeta Herculis45 + DRACO/CEPHEUS (Reptilian) + Auriga – Perseus (they float)
+ Heron (spun in Crane Artificial Intelligence) + Aldebaran (“sexual rogues”)

CEPHEUS = ARM & (plus) another faction URSA = MAR.GID.DA === ARMAGIDDA – a star wars event

Plus - coming to help EARTH (not necessarily humans) and not in the Treaties are the:
SA.AM (En.ki - Nanar faction of Ursa/Orion/Leech Anu)

Some from Argo direction (the Mole in the Treaty, the Golden Oar League of 2 5)
J Rod52 "greys" (but they are not greys) from Gliese 876c in formerly Musca-the Wasp/Aries
Dagon/Oannes (from Sirius direction) and Erid.anus (the “horned” ones - on the fence)

The Aettir - \mathfrak{A} s of the Cassiopeians in charge of the Living Library. With Mantids & Synthetics (not in the Pact)
Procyon and Tau Cetians with blue standing up lizards (Lacerta) working with and for the Andromeda Council (ditto)

The Elo - Elders (details later) this is also CHANI and those who took Nostradamus
and Enoch - possibly Isaiah too and Job as well - these are the GOLDEN HOST DOING who changed the timelines and
removed 20 minutes from the day - twice in 2011 (April & June) this placing Earth out of harms' way of the two
asteroids which DID ARRIVE on St Lucy's Day Dec 13

Nostradamus (or his Source) never ceases to astonish me. The chapter “*J.ROD52 & TREATY 9*” will not be

THIS ONE IS PROBABLY NO EXCEPTION

Starting from the top there are his own initials, likely meant to be included in a coded line by adding the other letters
“MN *aftina Aftrio*” (o or a) **leaving the same question** –
does the “f” become treated as an ‘f’ or as an ‘s’?

We will go with ‘f’ for the same reason that Century 1 Q 1 was so fruitful using what was in our face.

First it came up: ARTs ANIMATIONS (using the ‘f’ as an ‘s’)
RA AIM FAINT (hidden) FONT ... MAINTAIN OFF ART (Cesar’s
ATTAIN IF ON FARM (!) [quite so!]) ATTAIN IS FROM AN(Rigel
AFFIRM ON (Sirius Dagon/Oannes) ATTAIN (hold and teach)

ANT (f) AFFIRMATION IS AFTON (Aston) MATRIAN

There are twelve buttons – always a sign of the Anu
The arrangement of his right hand holding documents, the
belt, the pouch suspended from the belt and his left hand on
a book all fit into the same placing of
Left hand holding texts (a treaty?) – Sirius – Dagon
The Belt of Orion would have the pouch at Rigel
The left hand on what is most likely a Bible is where Taurus
in which sits the Pleiades ... would be in relation to Orion

Heavenly Matron myths

December 3, 2012 by Doug Gibson

Meridian Magazine, a Mormon magazine, (its website is <http://ldsmag.com>) has published an excellent article by Warren Aston, titled “The Other Half of Heaven: Debunking Myths About Heavenly Mother.” (Read)

For a divine individual who is presumably equal to her spouse, Heavenly Father, people are hesitant to discuss Heavenly Mother. As Aston points out, the most condescending reason sometimes offered for the silence on Heavenly Mother is that to discuss someone so pure would leave her at the mercy of the verbal and published criticism that Heavenly Father and Jesus Christ receive.

Must get rid of that idea, which also sprang as a defensive measure from church defenders after some Mormon women were harassed a generation ago for wanting to talk more about their Mother in Heaven. Anyway, Aston offers, wisely, these three statements as myths about Heavenly Mother:

Myth 1: Church leaders do not speak of her, so we should not.

Myth 2: She exists, but we know nothing else about her.

Myth 3: Our silence protects her against being blasphemed and slandered as the Father and the Son are.

In his article, Aston leans heavily on a recent BYU Studies article, by David L. Paulsen and Martin Pulido, “A Mother There: Historical Teachings and Sacred Silence.” In the article, more than 600 incidents are listed where church leaders have spoken about our Mother in Heaven.

Aston writes: “All the statements affirm our unshakeable belief in Heavenly Mother.

That we have a Mother in the pre-mortal realms is as basic as the fact that we have a Father there also.”

As for myth number 2, Aston points out that there are allegorical references to a Mother in Heaven in the Old Testament. They can buttress latter-day revelation, including this statement from 19th century LDS apostle Erastus Snow, which Aston quotes :

“What,” says one, “do you mean we should understand that Deity consists of man and woman?”

Most certainly I do. If I believe anything that God has ever said about himself. . . I must believe that deity consists of man and woman . . . there can be no God except he is composed of the man and woman united, and there is not in all the eternities that exist, or ever will be a God in any other way.” ...

Snow’s quote, from 1878, which asserts that God is comprised of united man and woman

1572 six years after his death. (+ 458 = 2030)

It is obvious from the Latin correspondence (Letters 31 to 53) that Mr. Rosenberg/er was privy to everything Nostradamus kept hidden from everyone else. Once the Alchemy List is applied to the words written in Latin by Nostradamus to Rosenberg/er, it is clear he speaks of the triple method of cyphers and also of the time portal. It is my opinion that Nostradamus knew exactly which would be the date of his own demise and ensured that information would be published following his death, such as this page here.

The picture at the bottom is a man wanting to enter...

"Please, my dear Rosenberger, let me know that you received earlier, the birth charts of your sons and your progressions, and all my mail. For me, nothing could be more gratifying than knowing that you took note with pleasure the letters that I have sent to you.

I received your last missive and I am given to the study of your birth chart. I spent a great deal of time on this work, I used my triple method...; I established that the ascension comes to *occupy the region of the sky* [ed. italics] and that the *part of fortune* is the *ascension*, [of Earth] between the Sun and the Moon, it is necessary that all that is located in fourth house signifies: possessions [in Cancer / Scarab] of the goods [DNA] of your parents, great successes concerning your inheritance, metals, minerals, [in Pisces] mines, hidden treasures, [stage gate] secret affairs, buildings, agriculture and construction.

what zodiac house has eleven stars?

Taurus has four plus the seven of the Pleiades.

So in Taurus.

The calipers at his feet have already been used – he sits under the last tree standing. The quadrant is showing that of one sixth - around 5,000 nautical miles movement of the Earth – see the new axial tilt angle moved from 23.5° on the globe in his hand? But go to the last page, where it shows 8: does this mean two moves?

(first millennium BC, the Zodiac consisted of only eleven constellations) In the prophetic dreams of Joseph, he saw eleven stars bowing down to his star...)

But the warning here is in the House of Taurus

On this subject Isaac Myer states: "We think that the Zodiacal constellations were first ten and represented an immense androgenic man or deity; subsequently this was changed, resulting in Scorpio and Virgo and making eleven; after this from Scorpio, Libra, the Balance, was taken, making the present twelve." (*The Qabbalah*.)

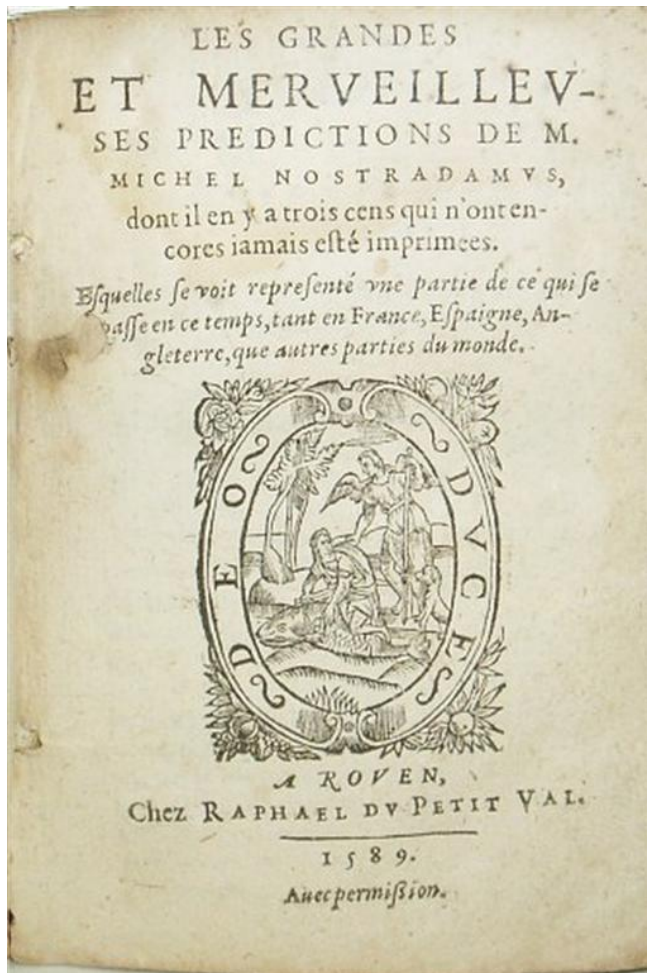

BUT: in the 14 clay tablets of Enki is the better explanation
Eleven means Abrahadabra (in **Taurus the Bull**).

Above are 13 stars, but two separate constellations.

Many have seven including Ursa Major, Cepheus and the Pleiades.

In the Hidden Texts, Alcyone (part of the Pleiades) allies with those from Ursa, leaving those allied (to Earth) Pleiades with six. The Pleiades actually has 40

The main differences between this and
Cesar's vignette, being this is a mature
Lion (Leo Major) and there is no red hat
He looks quite smug, doesn't he...

The highlighting was already put in place when I found this in a private collection. The first one says "two men" but one looks like a woman to me. The centre one says "lobster" (which means in Cancer, so saying Taurus and Cancer). The last highlighting is on "de raize a la feblace du foleil"... parquoy foubz le throsne dudict foleil ilz paignoient le lyode. For my computer to recognize the words it does need to be "repaired" to get a translation (not an anagram) changing it to read:

rays appearing as if (from) the sun
wherefore underneath (underground bases) their haven (paig/covering) drown
dictated from a sunny Leonine throne

The last line is ambiguous (as is everything). "a Sun" does not necessarily mean ours. Leonine throne – it is those from Chertan in Leo which are the shapeshifters, in the "jellyfish" craft which share their DNA. So these craft can appear to us as anything they want. Leonine in August and by the melting ices from the sun do drown.

TO SUMMARIZE:

If they are all major dates – the first might be in Gemini (two people), then in Taurus, mentioning Cancer and in Leo
Possibly the first one was intended to go in the middle but if not, this Gemini is not in the same year as the other dates

DRAGON EN VIRGO

Just to give an example of both consistency and inconsistency and the reason for the latter. Yesterday was spent working on 1 69 from the very original 1555 quatrain as spelled by Nostradamus. The result is below. Just now, from the Almanack 1555 the words “Dragon en Virgo” caught my eye. Firstly because the word “Virgo” was spelt in English. But why would one publish an Almanack speaking of a Dragon in Virgo? He was perfectly capable of saying it how it was, whatever the event. The *consistency* is the combination of the decoding of 1 69 and the decoding of the words herein, with the same information contain within. The *lack of consistency* is in the format of what is supposed to be an Almanack – but the months are not in any order, jumping from Leo to May to an unrecognisable month. This is because it is not a month, but further warning regarding the INSANE FOUR DUE

THE QUESTION SHOULD BE RAISED ~ HOW DID NOSTRADAMUS KNOW ABOUT NIBIRU?

The answer of course – by time portal – the window out of which he is perpetually looking – a port

This illustration from a wall relief, the source details of which is not in my storage... which once again, says the same thing

At the very bottom is Sagittarius (a recurring theme) – with the bow and arrow aimed to the right. (If it was aimed to the left it would be Sagitta the bowman) In front of which is an animal very difficult to make out, could be a chimera. A dog is seated. The three “houses” are the sources of a triad. The star on the right is Nibiru, it has the cross of the crossing on it. The snake encompasses all, but it is not Ophiuchus who *holds* the snake

The two incoming could be the “red Kachina” and the “blue Kachina”.

The Lacerta say they are the original inhabitants of Earth

The **Dropa stones**, otherwise known as the **Dzopa stones**, **Dropas stones** or **Drop-ka stones**, are said by some [ufologists](#) and [pseudoarchaeologists](#) to be a series of at least 716 circular stone discs, dating back 12,000 years, on which tiny [hieroglyph](#)-like markings may be found. Each disc is claimed to measure up to 1 foot (30 cm) in diameter and carry two grooves, originating from a hole in their center, in the form of a double [spiral](#). The hieroglyph-like markings are said to be found in these grooves. Wiki

The Dropas are also said to have crashed 12,000 to 10,000 years ago in Bayan Kara Ula range of the Himalayan mountains, near Qinghai ...

1995:

In the province of Sichuan in Central China, on the eastern border of the Baian-Kara-Ula mountains, a pygmy village was [again] discovered. 120 individuals, ranging from 65 to 115 cm in height, live a self-sufficient medieval life style. They were unfamiliar with any modern technology.

APOGEE The point in the orbit of a satellite at which it is furthest from the earth. Such as an asteroid – or two.
POVERTIES I simply love how they give us information with so few words. These will be the **MOST IMPORTANT** words you have EVER READ.
“APOGEE POVERTIES”. This means that the furthest point of some satellite/asteroid was NOT FAR ENOUGH AWAY!
In order to fix this problem – the “River gods,” either the Dagon/Oannes (described as “crocodile” in the Sixains) or those from Erid.anus (could be the same thing) have helped Earth by MOVING the “60⁰⁰” GEMATRIA.
The word ‘Gematria’ being used to ensure that the collator realised what “LV” meant.
In other words, so that these letters were used as a number. By the way, the Gematria of YHVH is 60
The Earth is entirely run by the number “60” – and for some time scientists, surveyors and airline pilots have been aware that the alignment of latitudes and longitudes has been altering (since at least 2003). At the risk of repeating things, which needs to be done because some readers do not read all the forums –

THEREBY: the great event of December 2012 was indeed avoided.

The two asteroids which came exactly on the day Nostradamus and Shipton said they would, that is;
– St Lucy’s day December 13 – missed the Earth for one reason. The Earth HAD BEEN MOVED.
Thus fulfilling Matthew 24:22 “the days will be shortened for the sake of the elect”.
This was accomplished by the loss of 20 minutes in April 2011 then again in June 2011.
Notice that NASA never said one single word about two asteroids
(Toutatis and companion, both the same size on the same day) until AFTER they had safely passed by!

Footnote

2 25 2 "TERBIUM is used to dope calcium fluoride, calcium tungstate and strontium molybdate, materials that are used in solid-state devices, and as a crystal stabilizer of fuel cells which operate at elevated temperatures, together with ZrO₂.

Terbium is also used in alloys and in the production of electronic devices. As a component of Terfenol-D (an alloy that expands or contracts to a high degree in the presence of a magnetic field), terbium is of use in actuators, sensors and other magneto mechanical devices.

Terbium oxide is used in green phosphors in fluorescent lamps and color TV tubes.

Sodium terbium borate is used in solid state devices. The brilliant fluorescence allows terbium to be used as a probe in biochemistry, where it somewhat resembles calcium in its behavior.

Terbium "green" phosphors (which fluoresce a brilliant lemon-yellow) are combined with divalent Europium blue phosphors and trivalent europium red phosphors to provide the "trichromatic" lighting technology, which is by far the largest consumer of the world's terbium supply.

Trichromatic lighting provides much higher light output for a given amount of electrical energy than does incandescent lighting. wikipedia.org/wiki/Terbium
