

Add to NEGRO DESPOT:
 ~BLACK FELON~
NOIR the WICKED
 from the QUATRAINS

In the beginning, I thought I would be simply compiling subjects from the Hidden Texts which Allan Webber had programmed. This collating is usually accomplished by "key" words. For instance, the word "OANNES", which was quite obvious amongst the template lines. It did not occur to me that there was anything particularly relevant in the quatrains themselves. That thought came to a screeching halt when by accident the original quatrains published in 1555 came to my attention this year 2013. Immediately my concern grew, since it was obvious that there were huge discrepancies in the spelling of those and the spelling of modern published quatrains. "Repaired" by persons intent on gaining the face value meaning.

The result of this discovery has, of course, placed me confronting the quatrains themselves.

Some years ago, in 2009, the 'forum' titled "NEGRO PRESIDENT" was published along with "CHARLES" and "RICE". During the tenure between times, and becoming more familiar with the Template of the texts, another forum more recently was published named *NEGRO DESPOT*.

Those words came from the anagrammed template, but most of the following come from the quatrains themselves.

("Forum" the word used by Nostradamus for a collection of his hidden text lines. See 6 89 3 next page)

At this juncture an explanation is needed. You are already aware that it was Allan Webber who found the Template of the Words,
 produced by his computer in no order at all. If you go now to his website, you will read his discourse on 3 94 *Ornament of his Time*

And when I just went there to get you the link, the following verse was there and the capitalised words had not been coded. The result of this decoding frightened me a little bit simply because this entire endeavour is not a *competition...* VERY EARLY IN THESE DISCOVERIES, BOTH ALLAN AND I PLUCKED OUT ALL THE LINES WHICH I DESCRIBED (TO MYSELF) AS "ADMONITIONS". WE DIVIDED THEM INTO THOSE WHICH WERE DIRECTIONS TO HIM, AND THOSE WHICH WERE DIRECTIONS TO THE COLLATOR. FOR INSTANCE:

2 4 3 FARAUJAY COCEBURN BOX LINE - LINEALLY (my name is actually Cockburn-Parks)

THIS WAS TELLING THE COLLATOR (the "monger") that the lines needed to be put in boxes – next to each other.

the end total of pages of "directions" to Allan was 28. The end number of pages of guidance to the collator was 38 ~ with the simple reason being the many "repairs" to errors the collator was doing.

such as: 8 6 2 LAY: STATE ISSUE IN UNSTATELY SUBLITERATE SUBTITLES

Quite true, for one thing, the former website had no attention paid to the "subtitles" of each "box". Gradually in the end (of that web site) with none at all appearing! I simply had no idea how important their words are.

The grammar is concise when it says "unstateily" for several reasons – the first being that none of them were derived from the original quatrain lines anyway! Un-stateily for sure – not up to scratch at all.

The word "sub-literate" because the quatrain lines when they *were* used were "not literal" and not the "literature".

When it comes to the words "state issue" – that was another entire rollcall of admonitions which included dividing the hybrid french words into their true meanings using both latin and french sometimes. One good example of this is here in 9 1 3 on page 9. Several hints to *USE THESAURAL* followed, and *ATONING MONTAGE* and one is still learning.

LUSITANT: see *l'vsitant* simply PROVES that this is ALL about the codes, as this IS Lusitania/Portugal, but the *codes within codes* would not work if ALL the proper names had their Capitalized letter!

This can be seen time and again in the ORIGINAL quatrains. Above is a very good example of *CODES WITHIN CODES* The Capitalized words in the quatrains – some of them seemingly miss-spelled – were put there in order to get the second and very hidden message!

The manner in which the *codes within codes* came to me was extremely unusual, highly paranormal and thoroughly unmistakable.

CONSUME (digest) **QUAD** (Pegasus) Understanding those from Pegasus is really important. There are three different factions, those from Enif (the 'Nose') those from 'Leg' (Scheat) and those from Marcab ('Shoulder'), who are the Grayles with current treaties tied to the American military. Trading technology for men.

GRANULAR is one of the key words for "grains of time" – that is, a time portal. Time is also told "by the stars".

sillera – a sheat-fish "Silurus" – now this has me in a quandary. The word "Scheat" – "Seat" is the star in the Leg of Pegasus – not involved with those from Markab (in treaty with the U.S. military) ... plus the word "Silurus – Silurid" means the Oannes. So have the Oannes two bases? One at Sirius and one at Pegasus? Or are there two different Oannes because in some lines they do not seem to be the goodies. Yet in others we will not get by without them. **Chameau** – a camel, a nasty person. In this case a pun on "camel" and a nasty person, as a Muslim. One of the most important gods worshipped by the Mayan people was the being known as Quetzalcoatl. Also referred to as the Great Feathered Serpent, Quetzalcoatl brought teachings of peace to the Maya. He is depicted as being a **white deity with a long beard**. It has been suggested that the carvings and drawings created by the Maya of Quetzalcoatl bear a striking resemblance to the god Enki (Ea) in the ancient Sumerian culture. www.articlesbase.com/education-articles/mayan-gods

vault.ort here is one of those hybrid words. Vault means a 'safe room' in this case a "jump room" or time gate. Even the word "vault" means to "jump". If the word "tort" is in use, it means the one who causes this. Hermes - he with many other names, is said to have become involved with what we call the Celts of Ireland, who received four magic gifts from those who "came from the clouds out of heaven" said Tuan Mac Carell. (*T W Rolleston*). They are :
 The Stone of Scone, the Sword of Lugh of the Long Arm, the magic Spear of Finias and the Cauldron of Dagda.

Described by Wiki as a red stone – it sure looks white to me.
 The "white stone of Scone" now situated under the current monarch's throne came from Celtic Falias, called *Lia Fail* or Stone of Destiny. The actual stone did from immemorial times exist at Tara and was sent thence to Scotland early in the sixth century for the crowning of Fergus the Great. An ancient prophecy told wherever the stone was, a Scotie monarch will reign. This is now called the Stone of Scone which never went back to Ireland, but was removed to England by Edward the First in 1297. It is now the Coronation Stone in Westminster Abbey. Nor has the old prophecy failed. Through the Stuarts and Fergus mac Erc, the British Royal family can be traced back to ancient Milesian Ireland. (*T W Rolleston*).

We have one president in "strange torments", in a tumbriel hogtied – and we have one taken without the lock being picked which indicates either traitors or taken through a wall, but murdered by a small "bald one". Could it still be the same president?

A synchrotron is a large machine (about the size of a football field) that accelerates electrons to almost the speed of light. As the electrons are deflected through magnetic fields they create extremely bright light.

The light is channelled down beamlines to experimental workstations where it is used for research.

Synchrotron light is advancing research and development in fields as diverse as:

- biosciences (macromolecular/protein crystallography and cell biology)
- medical research (microbiology, disease mechanisms, high resolution imaging and cancer radiation therapy)
- environmental sciences (toxicology, atmospheric research, clean combustion and cleaner industrial production technologies)
- agriculture (plant genomics, soil studies, animal and plant imaging)
- minerals exploration (rapid analysis of drill core samples, comprehensive characterisation of ores for ease of mineral processing)
- advanced materials (nanostructured materials, intelligent polymers, ceramics, light metals and alloys, electronic and magnetic materials)
- engineering (imaging of industrial processes in real time, high resolution imaging of cracks and defects in structures, the operation of catalysts in large chemical engineering processes)
- forensics (identification of suspects from extremely small and dilute samples).

This article is about the synchrotron, a [particle accelerator](#). For applications of the [synchrotron radiation](#) produced by cyclic particle accelerators see [synchrotron light source](#).

A **synchrotron** is a particular type of cyclic [particle accelerator](#) originating from the [cyclotron](#) in which the guiding magnetic field (bending the particles into a closed path) is time-dependent, being *synchronized* to a [particle beam](#) of increasing [kinetic energy](#). The synchrotron is one of the first accelerator concepts that enable the construction of large-scale facilities, since bending, beam focusing and acceleration can be separated into different components.

[Edwin McMillan](#) constructed the first electron synchrotron in 1945, although [Vladimir Veksler](#) had already (unknown to McMillan) published the principle in a [Soviet](#) journal in 1944.^{[1][2][3]} The first proton synchrotron was designed by [Sir Marcus Oliphant](#)^{[4][5][2]} and built in 1952.^[2]

The **Australian Synchrotron** is a 3 [GeV synchrotron radiation](#) facility built in [Melbourne, Victoria](#) and opened on 31 July 2007.^{[1][2]} The circular building was designed by Architectus in conjunction with Thies,^[3] while the lattice design was performed substantially by Professor [John Boldeman](#). The Synchrotron building is located in [Clayton](#) near the [Monash University](#) Clayton Campus.

Clayton – directly across from Geelong

The Australian Synchrotron is a [light source](#) facility (in contrast to a [collider](#)). It uses particle accelerators to produce a beam of high energy [electrons](#) which are placed within a [storage ring](#) that circulates the electrons to create [synchrotron light](#). The light is directed down separate [beamlines](#) at the end of which may be placed a variety of experimental equipment contained within the endstations.

TRANSLATION: The Oannes known as Dagon (in the Bible – six mentions) enraged while in orbit around the Sinai Peninsular – never aging, and in the NORSE (asteroid) period when Earth groaned with tectonic plates and those of Sirius (in alliance with them) organise moving Earth in Scorpio. The radiation level is safe but the new orbit in Scorpio is costly... warning regarding the E (greys) Dragon (reptoid) who are doing unnatural things with DNA, genes and with hormones. Ogre indicating they are the abductor greys and possibly allied with the cannibals. It is the Anu who have a “template” rod (one of the greys, the “che-rub” shape shifting grey) who are orbiting our sun. The cat eyed Dals and the Cassiopeians (Mantids) are also involved in the effort to move planets out of harms way of our sun going “orange”. Meanwhile the Edgar Cayce prophecies are coming true and the star wars are raging. The On are the Oannes [“crocodile” men see later here]. Our DNA needs to be mutated (tweaked) somewhat for future generations to survive in the Golden Age (new dawning). This DNA tweaking has been done in the past but by those from Erid.anus (the Red). The Cassiopeians also genetically engineer hybrids “with a gender/gonads” and Eggs meaning they can interbreed - for this new future – but crossed with non human DNA.

DR [Nostradamus] NO AGE could mean a reference to time travelling but could also mean the .E.T. doctors are changing our DNA to be ageless. ARGO are those of the second coming who seem to be part of the “unholy six” but will actually turn on the others. (In other lines). The “Ran” god is “ugly Ran” in one line, but Nostradamus says not to be influenced by their looks. It seems they are the GEODETIC who help arrange the Golden Ratio of orbits. Finally – one of these gods assists with agriculture in the New Golden Era, the New Dawning. Those from Cygnus (the *Returning*) end the star wars. Cygnus are the BIREO – the Beak of Cygnus & Deneb

You can see for yourself the short "arm" to Deneb the tail goes no where on the floorplan of Giza. Bireo the beak does, but not the tail.
To me, Bauval and Hancock are right about Orion

There is one caveat I would place on this thought. Where Deneb the tail star is situated on the floorplan in apparently no-man's land at Giza; this could be a good spot for ground sonar investigation.

 Looking at it more recently a couple of details came to my attention. **ALMANACH LXV~A LYON MDLXV** have been printed in colour. 1565, the year before his death. But the first numeral is just 65. The advent of the biblical "Wormwood" (Artemis Alba, a large comet) was slated for 2065, the year Newton searched for. Both Allan and I came to the same conclusion by very different avenues. Then a line said "she guesses it" but it was not a guess. It was a simple joining of dots. "In the seventh decade" said one line and "in the year of the Coq/rooster" said another. 2065 is both. For once – and this is the first time – anagramming these letters gave absolutely nothing.

NEGRO RICE ?

There are two negro Rice ladies in American politics currently (October 2012) – Susan and Condoleezza.

All I have done here is to pluck out the word “elect/ed” from the Presages, the Quatrains and the Quatreins of the Hidden Texts. Allan Ueber extracted the English words from the Centuries of quatrains and I have been collating the words into the topics they represent. Politics is a thing I always try to avoid because of its transient nature. The exception here is due to the eschaton nature of the events. Susan Rice *might or might not be* excluded because of the words Nostradamus used in 8 51 3 OPPOSE NEGRO LONGER NAME.

The hidden message implies a link between Piraeus and Persia (Iran) with funds being used for armaments.

The theme of the third line suggests Nostradamus’ method yields the name of the insane persons involved in bringing about a plague-war. The Cyprian anagram in the last line implies a wanton woman which is in keeping with the visible and hidden messages of verses who is yet to be presented. SEER'S DESTINE ~ ETERNALISE MAP or SEER'S MAP (France) ETERNALISE DESTINY

This would be a reference to 10 100 4 where Nostradamus tells us about Rennes Le Chateau having a time portal.
 But also the references to "France steps in" within Centuries II – where the French courts are the only ones using the law against Monsanto (et alia) regarding their attempt to legally control the food chain

It is very important here to point out the word **DESTINE (DESTINY)**

The Seer, of course, is Nostradamus. A destination is something that happens frequently throughout our lifetimes. Destinies are *directions* – with a distant goal in mind. The DESTINE of which Nostradamus speaks is a **TIMELINE** – and it is a given that timelines can be altered, merely by the fate of one person permanently affecting that which they might have once accomplished.

The word FATE is that which occurs to everyone at the end, their end. We all suffer only one fate.

When something is FATED, it is written in stone – it is SEALED.

In one way we could liken DESTINY to OMENS – as sign posts along the way towards our SEALED FATE.

Therefore – what Nostradamus is saying here – that this particular end is only a DESTINY, a signpost, and we can all CHANGE THIS DESTINY BECAUSE IT IS NOT SEALED. One's FATE is always sealed.

Note the pun SITED – either as CITED (stated to us all) or that it is a NUCLEAR POND which will bring our NEAR END

To conclude: there is no guarantee given regarding dates in this forum of ideas from Nostradamus.

However there are a couple of clues which do pinpoint possibilities; such as earthquakes and volcanoes and the tremulous environment around certain elections. Also factor in the way Rudd was re-elected, just as stated:

PREFACE TO CESAR DE NOTREDAME OF REVOLUTIONS AND MAHOMET

"But my son, lest I venture too far for your future perception, be aware that men of letters shall make grand and *usually boastful* claims about the way I interpreted the world, before the worldwide conflagration which is to bring so many catastrophes and such revolutions [of the Earth?] that scarcely any lands will not be covered by water, and this [water] will last until all has perished save history and geography themselves.

THE BIBLE SAYS THAT IT WILL BE FLAT AND ALL OF ONE SURFACE. SOUNDS LIKE ICE AGE

This is why, before and after these revolutions in various countries, the rains will be so diminished and such abundance of fire and fiery missiles shall fall from the heavens that nothing shall escape the holocaust.

And this will occur before the last conflagration.

For before war ends the century

[The only way a war can END A CENTURY is to end the calendar itself. So this speaks of a star wars scene] and in its final stages it will hold the century under its sway.

Some countries will be in the grip of revolution for several years, and others ruined for a still longer period.

And now that we are in a republican era, with Almighty God's aid, and before completing its full cycle, the monarchy will return, then the Golden Age.

[Sirius the prince & Leo, or Cepheus king of kings and "Al" the "greatest in the bible" (Elohim of Genesis 1)]

For according to the celestial signs, the Golden Age shall return, and after all calculations, with the world near to an all-encompassing revolution –

from the time of writing (1555 March 1) **177 years 3 months 11 days** ; plague, long famine

[= 1732 + 458 = 2190AD June 12 ... see C 1 Q 7 L 3 word 2 (2nd word) "conjurez xiiij." "Bringing about 13 j"]

INTERESTING – IF YOU ADD 458 (the cipher key) to 1555 (the year of publishing the quatrains) = 2013

and wars, and still more floods from now until the stated time. Before and after these, humanity shall several times be so severely diminished that scarcely anyone shall be found who wishes to take over the fields, which shall become free where they had previously been tied.

This will be after the visible judgement of heaven,

[CORONAL MASS EJECTION, ASTEROID HIT, POLE SHIFT, ICE AGE, HOLOGRAMS]

before we reach the FOURTH millennium, [the one with 3797 in it]

which shall complete all.

MONTAGE: Nostradamus says "ATONING MONTAGE" - to decoders. Providing that all the letters in the source are used the same number of times, and the context is maintained, I found that the meaning that resulted stayed within the frame work of its intention. Rather amazing. But what I did find more amazing – when using the *very original* quatrains – the correct anagram did not need to be "searched" for – it was always in the first few choices on the anagram program. 10 50 3 ATONING MONTAGING Trouble Penetrating Numerologic (True, left to Allan to do)

SO IF THERE ARE ANY SKEPTICS OR PURISTS OUT THERE – here within the hidden texts is the guidance

Example of hybrid words and words with two meanings held within them

From page 9

9 1 3 *Bourgne, roux, blanc, chanu tiendra de cours*

Shady/dark/fatigues, red, white, defoliate (remove) held from your (course/orbit) biosphere (using chemtrails?)

Erika Cheetham has it as:

"One eyed, red, white haired will hold the course".

This can relate exactly to: Titans, Red ones (Oannes?[Vertical Lizards] puce in other lines), Whites/Elders (a *form* of grey)

Bourgne: Shady/dark/fatigues. Turns out it means all three. Shady and dark on desert fatigues

Fatigues come in "red vertical lizard" pattern for desert campaigns. A hint at Red Vertical Reptilians eating obese people.

Bourgne can mean one eyed, seeing with singular or tunnel vision. As a saying this means "narrow minded" – or as a description of a Cyclops/Titan. As a person with one eye who is both red and white it is difficult to picture.

Chanu: a non word, however *Chenu:* defoliate *Charnu:* fat

If we take it to mean both meanings, stripping the fat (off obese people?). The "fat" also means the "good times" which would make it "removing the good times". This can be said by using those words... so why not do so?

It does not mean "haired" "white haired" = *aux cheveux blancs*

Cours: As "course" it means the orbit. As "rate of exchange" – the biosphere exchange – transpiration, breathing trees taking in carbon di.oxide and releasing oxygen. So "Chenu" would mean defoliating.

This also speaks of chronic fatigue and the imbalance of red and white blood cells.

Tiendra: held, to hold, to be held – maintaining, causing to be maintained

de: means with, from, of, for. It does not mean "the"

tiendra de cours = to be held from orbit

This comes under the auspices of sound waves which then takes us to sonic effect leading from quantum mechanics/physics. I do have the beginnings of a forum titled *SQUEEZING THE WAVES*, which stemmed from 1 63. I at first thought this was jet propulsion because that line was about "through the skies/heavens". On further consideration, this is all about quantum mechanics. We had a term in the 1960s and 1970s which directly relates to this – it was called "vibes". Yes, good vibrations – and how right we all were!

rich/wealthy; richly adorned; fertile/productive
DENSE: closely, thickly, close together; compactly; concisely; often, frequently;

The idea that one man could have accomplished the words you have been reading, these words which have been made public now for four years, these words derived by *anagram* and the thought that this one man living in medieval times writing with a quill and ink and for the last four years of his life unable to write being crippled in those hands – is an idea without common sense.

Even *with a computer* and the search and anagram engines, the collating is lagging!

So far – from the Template (the "RESUMÉ" in 4 97, *codes within codes*) there is still over forty percent of all of it regarding the Oannes/Dagon and the Anakim which has not been approached. Of those pdf forums already published – for each one there is one which has been collated, but not yet been shown. The reason for this is the matter of "clear and present danger".

Prioritising subjects by their apparent date and ensuring they are published before that date.

Even as the work has been in progress, events have been coming true...

The lines in the Hidden Texts themselves tell us where these works came from:

All together there are 40 pages of this text in this lost book
 "Lost" because it was sold at auction
 I found it today accidentally in a private collection while looking for something else
 Notice how short the lines are? Just the right length for an anagram program
 This is only an excerpt. the rest will be done hidtext@live.com.au
