

Simple Comparative Analysis between Oneism and The Law of One

Marc C. DiGiuseppe

To begin with, there are some really major misconceptions in this doctrine (Oneism) that show it is more a hodge-podge of bad science mixed together with religion and occult knowledge indicating that it is the invention of an immature mind “exploring the wisdom of separation.” Some of the major points I’d like to make are detailed below.

Oneism, as a metaphysical argument for a specific cosmology, is an argument of the order of a “fallacy.”

Note: A fallacy is an argument that uses poor reasoning. An argument can be fallacious whether or not its conclusion is true. A fallacy can be either formal or informal. An error that stems from a poor logical form is sometimes called a formal fallacy or simply an invalid argument. An informal fallacy is an error in reasoning that does not originate in improper logical form. Arguments committing informal fallacies may be formally valid, but still fallacious.

Fallacies of presumption fail to prove the conclusion by assuming the conclusion in the proof.

Fallacies of weak inference fail to prove the conclusion with insufficient evidence.

Fallacies of distraction fail to prove the conclusion with irrelevant evidence, like emotion.

Fallacies of ambiguity fail to prove the conclusion due to vagueness in words, phrases, or grammar (e.g., “perhaps,” “most likely,” etc.) [Wikipedia {clarification mine}]

Mr. Herschel’s suppositions fail these ontological comparisons on all counts: presumption, weak inference, distraction, and ambiguity.

Examples

Point 1

Oneism states: “The Big Bang Theory is the scientific hypothesis of the creation of the universe in an almighty explosion. This event could not realistically happen purely by chance and would be more plausible if there was an indestructible force, a ‘creator’ present. ‘Something’ that is this unique and complex cannot simply occur by chance from ‘nothing’. In an analogy closer to our own frame of reference, it would almost be as illogical as to believe that something as complex as a fully functional computer microchip can form on its own out of sand... by chance.

The Creation fits here as an indestructible form of pure energy. It would therefore be a spiritual collective ‘energy’ at one special moment...as ‘The One’... with all souls merged into it as one, creating everything with mere spiritual thought.

Here Herschel attempts to state as fact, a hypothesis based on another hypothesis and forward an assertion based on an assumption (albeit a reasonable one).

Ra* states in The Law of One: “That which is infinite cannot be many, for many-ness is a finite concept. In an infinite Creator there is only unity, (B1, 66-67)

Intelligent infinity discerned a concept, namely, freedom of will of awareness. This concept was finiteness. This is the first and primal paradox or distortion of the Law of One. Thus the one intelligent infinity invested itself in an exploration of many-ness. Due to the infinite possibilities of intelligent infinity (or the Oneness), there is no ending to many-ness. The exploration thus is free to continue infinitely into an eternal present.” (B1, 130-131)

Here, Ra explains that The One Infinite Creator is *infinite*. **Souls are not “merged into it.”** It is a “discerned” concept described as *freedom of will of awareness* investing itself in an “exploration of many-ness.” At that moment, we were “created.”

The difference between Herschel’s argument and Ra’s statement is that, again, Herschel attempts resolution through hypothesis and assumption (read: speculation) while Ra’s statement explains the same issue but uses logical structures and real-world references to convey, process, and assign meaning, and resolve ambiguity. He uses the English language with great precision employing both semantics (how meaning is inferred from words and concepts) and pragmatics (how meaning is inferred from context).

Ra’s statements are “matter of fact;” “That which is infinite cannot be many, for many-ness is a finite concept. In an infinite Creator there is only unity ... [read: Well, I guess so!]

Oneism states: “The Creation with its protective biosphere would also be a place of learning for life in the universe. All the souls of both matter and antimatter of the entire universe can be taken there in spirit form. However only physical life made of matter can be taken into the biosphere (made of matter) in physical form.

First of all, “Creation” is the Universe. This is *not* “True” if, as in this argument, you are attempting to propose a metaphysical description of reality. Spirit *can* occupy any space and occupies *all* space because it is “one” with The Infinite Creator. (Universal Originator. George Elliott ^{hp}) Our consciousness is *not* composed of a material component [read: matter and antimatter]. Our consciousness is our “spirit” and that manifestation is pure energy. As you are aware, **energy can neither be “created” nor “destroyed.”** Hence, the implication that we are “one” with The One Infinite Creator and, because of this, it follows that we are also immortal.

Ra explains in The Law of One that, “The next step is an infinite reaction to the creative principle (intelligent energy) following the Law of One in one of its basic distortions, namely, freedom of will. Thus many, many dimensions, infinite in number, are possible. The energy moves from the intelligent infinity **due first to the outpouring of randomized creative force which then creates patterns.** These patterns of energy begin to regularize their own rhythms and fields of energy, thus creating dimensions and universes. At this point the physical universes were not yet born. [Emphasis mine] The steps are simultaneous and infinite. (B1, 129-130)

The universe is infinite. This has yet to be proven or disproven, **but we can assure you that there is no end to your selves, of your journey of seeking or your perceptions of the creations.**” [Emphasis mine MdG] (B1, 66)

We are made up of three distinct aspects that form the aggregate of our being: We are a spirit (a conscious energy or the energy “essence” of our being) in possession of a Mind (the “information” processor part of us—a subordinate feature of our consciousness—where the *thinking* is done; the “exchange” of awareness conducted with The One Infinite Creator) connected to “The Source,” the All-Mind, The One Infinite Creator. We have a Body (physical “vehicle” used to navigate the material Universe). Our “soul” is a “sheath” into which our mind is placed whenever we choose to explore the “wisdom” (*knowledge of it + experience of it*) of **separation** (It is “The Veil” but many use it synonymously with the word “spirit”). It *behaves* as an “influence.” We are never truly “separate” from the Prime Creator. The concept of “separation” is an intellectual abstraction—an illusion that we maintain with our “mind.”

Point 2

Oneism states: “All souls will become a part of The Tree of Life once again before the rapid process occurs when the last few galaxies are locked in collisions hurtling towards The Tree of Life with all life forming as one... within The Creation. The biosphere around the Cosmic Tree would be destroyed in the process and another cycle of Creation begins in a new Big Bang”.

We are not “blasted” out away from “The Source” like the “particulate” of conjecture (abandoned) to be gathered up again as the seeds of “recreation” (homogenized) at the end of time. We are *immortal* and have always existed with The One Infinite Creator in *unity*.

Unity Consciousness is *not* a “re-amalgamation” of our being with the Prime Creator. As spirits, we are *always* at “one” with the Prime Creator; we cannot be separated because we are a part of It. We advance through stages of “wisdom” (gain knowledge of it plus the experience of it) governed by the features and characteristics of each context of “Cosmic Density.”

As we approach the Seventh Density, we realize (become aware) that there can be no separation; we are always with the Prime Creator. At this stage, we are ready to be “trained” as “co-creators” but we don’t become “homogenized.”

We are not “Borg.”

We maintain our individuality as *this* is the intent of the Prime Creator. It’s just that at higher frequencies [read: Densities], we, eventually, become aware of “the other’s” thoughts—communicate over vast distances with each other and we are always **aware of the guiding thoughts of the Prime Creator.** It experiences nuance through this sharing—not just our experience but also how we use our mind to process the awareness of each experience. This experience is *not* governed by Cosmology. Cosmology offers the mechanism to transform **physical presence**—matter—but the advance of the mind/body/spirit complex is orchestrated through the action of the Prime Creator [read: *Divine Intent; Divine Will*].

Ra states in The Law of One that: “The galaxy and all other material things are products of individualized portions of intelligent infinity [read: The One Infinite Creator]. As each exploration began, an individualized portion of the One would, in its turn, find its focus and become co-creator (a Logos). Using intelligent infinity each portion created a universe. Allowing the rhythm of free choice to flow and playing with the infinite spectrum of possibilities, each individualized portion channeled love/light into intelligent energy, thus creating the so-called Natural Laws of any particular universe. Each has its own local version of illusory Natural Laws.

It shall be understood that any portion, no matter how small, of any density or of any illusory pattern, contains, as in a holographic picture, the One Creator which is Infinity. Thus all begins and ends in mystery. (B1, 131)
[i.e., we as “Logoi” contain all of the information present in the Whole]

Ra clarifies this concept of individuality by stating: “The unity of the Creator exists, not only in a self-aware being, but within the smallest portion of any material created by Love. (B2, 111)

Each mind/body/spirit complex **is a unique portion** of the One Creator. [i.e., we are individuals but also integrated members of The One Infinite Creator {the Whole}] (B2, 22) [Emphasis mine MgD]

Within this explanation is a revelation that Wayne Herschel believes that we are separate from that which created us. He defines us as conscious matter whereas The Law of One and some references found in sacred scripture define us as pure conscious energy which can neither be created nor destroyed; elements of The One Infinite Creator — hence our **immortality**[†]. He exposes his own heresy by demonstrating an absence of the rational. Matter can be destroyed as it can be converted into any one of a number of forms of energy. His suppositions are, again rooted in an incomplete knowledge of the cosmos based on bad science—the ruminations of arrogant intellectuals who claim that we are something other than what our common sense can reveal to us.

Point 3

Oneism states: “Traditional accounts of The Tree of Life are covered in the Biblical story of Adam and Eve in the books of Genesis and Revelation. One of the biggest mistakes found in Genesis text is the mention of the cosmic serpent. Unlike what most interpretations have led us to believe, Oneism wants to dispel that there is anything destructive about the reference to any serpent imagery in anything relating to the universe or The Creation. It was *in all likelihood* part of the detail of The Tree of Life itself, erroneously interpreted as an evil serpent”.

This is “heresy.” The “Tree of Life” has always represented the manifestation of the material Universe as represented by the “Logi” (“...all other material things are products of individualized portions of intelligent infinity.”) The key words here are “...in all likelihood.” The **Author doesn’t understand**. The serpent has always been a symbol of “separation.” In our mythos, the serpent is “of Anu,” [read: Lucifer, the Devil, anyone who thinks he can be like unto the Most High (The Prime Creator) thereby declaring him or her “self” objectified and in separation *from* Intelligent Infinity {key words here are “like or as”}] who devised a clever scheme to enslave the mind/body/spirit complex to his will through the illusion of separation [WingMaker Philosophy]

Ra states in The Law of One, “In this context you may see the one you call Lucifer as the true light-bringer in that the knowledge of good and evil both precipitated the entities of this logos (galactic creator) from the Edenic conditions of constant contentment and also provided the impetus to move, to work, and to learn. (B4, 21)

Note from The Law of One: In other words, the presence of the negative forces provided the catalyst for growth, giving the knowledge of polarity and evil. By creating such intense struggle and hardship, the Luciferian force stimulates desire for change and growth in otherwise harmonious but slow-advancing cultures. That’s how things work in a “dualistic” Third Density, three-dimensional, prescriptive reality. [Yin/Yang, good/bad, light/dark, etc. so-on-and-so-forth]

We **always** have access to “The Source,” the All-Mind, The One Infinite Creator.

[the] Anu's manipulation of our Third Density condition produces the intellectual abstraction of *not knowing* [read: veiled]; being separate and apart from Creation—objectifying everything external to the subjective orientation of our minds caught up in the illusion of separation.

If we follow the “Way of Yahweh”—the way of a god of Retribution and punishment, we are controlled by this paradigm through our own volition. If, instead, we “seek” the “Truth,” that is, reach out to the Prime Creator with our heart (emotively) and mind (intellectually) then we will be given the “Truth” by The One Infinite Creator and will *know* that we are *not* alone.

Ra states in The Law of One, “The seeker seeks the One. The one is to be sought by the balanced and self-accepting self who is aware both of its apparent distortions and its total perfection. Resting in this balanced awareness, the entity then opens the self to the Universe which it is. The light energy of all things may then be attracted by this **intense seeking**, and wherever the inner seeking meets the attracted cosmic prana, the realization of the One takes place. The contact with intelligent infinity is most likely to produce an unspeakable joy in the entity experiencing such contact.” (B4, 53) [Emphasis mine MdG]

We are given the “Truth” if we “seek” it. Once we understand this as being a capacity of our own intellect, the portal to that communications corridor opens wide establishing *communion* between our individual self and The One Infinite Creator **once again**. In other words, The One Infinite Creator *allows* us our illusion (Free Will) but, upon awakening from that illusion [read: “seeking” the “Truth”], it then re-establishes communications that allows us to rescue *ourselves* from our own stupidity. After this has been achieved, the relationship cannot be tampered with by lower density beings exploring separation (who portray themselves as mythic figures, false gods, and powerful interlopers).

- "The [Oneism] author has well-founded references to reason that this ‘serpent’ was most likely a plasma-like ribbon of ethereal light that merely looks like a serpent, since it was made up of ‘living’ streams of light.

He is making it up as he goes along. The key words are “**most likely**,” he doesn’t *know* [Fallacy of ambiguity which fails to prove his conclusion due to vagueness in words, phrases, or grammar]. The serpent is not, has been, and will always be a representation of intelligence that seeks to maintain a “separation” from The One Infinite Creator. In this fashion, we do “their” will and not our own. This is *not* the condition of existence intended by The One Infinite Creator. In *unity consciousness*, we are constantly receiving the guidance of the Prime Creator whose influence prevents us from experiencing the *absence* of “Good” (i.e., *evil, sin, separation*)

“No one who is born of God will continue to sin, because God’s seed remains in them; they cannot go on sinning, because they have been born of God.” [1 John 3:9]

- "The serpent like streamers of energy from The Tree of Life are of the same exotic particle make-up of The Tree of Life itself.

Our spirit is pure energy (which can neither be created nor destroyed and hence *immortal, eternal*.); we are *not* wholly made of “matter” [read: “particles”]. Every being eventually “returns” to The One Infinite Creator—that is, everyone eventually realizes that we are always in Its presence and can call upon it for guidance and comfort. However, The One Infinite Creator continually maintains our consciousness as “individualized” and capable of “choice” (Free Will). [Besides, the “tree of life” represents DNA being “re-arranged”]

We need only to "seek"—to reach out with our hearts and call upon The One Infinite Creator to break the artificial bonds of separation through *enlightenment*—communication.

The "gold":

Anaxagoras of Clazomenae, the well-known Ionian philosopher of the fifth century B.C., thought that other kosmoi (universes) contemporaneous with our own might and probably did exist ad infinitum. Anaxagoras is famous for introducing the cosmological concept of Nous (mind), as an ordering force. He regarded material substance as an infinite multitude of imperishable primary elements, [such as atoms, DNA.^{hp}] referring all generation and disappearance to mixture and separation, respectively ...

this is part of the "GOLD in Nostradamus & PSELLUS" the monk of 976 – 1077

This speaks of atoms and the space between them – in other words – quantum physics.

It is a reference to "beam me up Scotty" the huge secret the Templars died for (this information is in the Hidden Texts of Nostradamus) and if you recall – the Nazis spent a great deal of effort to deconstruct Nostradamus, that is: seeking the 'gold' of which knowledge Nostradamus possessed.

In very recent times, the ability of the spoken word to affect molecules in water and also to affect our very DNA ! This comes under the auspices of sound waves which then takes us to sonic effect leading from quantum mechanics/physics. I do have the beginnings of a forum titled *SQUEEZING THE WAVES*, which stemmed from 1 63. I at first thought this was jet propulsion because that line was about "through the skies/heavens". On further consideration, this is all about quantum mechanics. We had a term in the 1960s and 1970s which directly relates to this – it was called "vibes". Yes, good vibrations – and how right we all were!

from Dan Green:

"Now that we are on the threshold of replacing the term 'paranormal' with an explanation of the phenomenon by way of the term 'Quantum Entanglement,' it makes life a little easier to share one's experiences with the actuality. Quantum Entanglement, used in physics to describe inseparable relationships between quantum systems which, when reduced to layman's terms explains how information can be shared no matter how far apart they exist – communication taking place outside of space-time to confirm the **Buddhist teaching that all things are linked** and that **separation is an illusion.**[†]

† I AM RA: The Law of One

There is a vignette displaying a Mobius Twist in the "banner" of the Milky Way, making the same statement

Again, Ra states in The Law of One, “The seeker seeks the One. The one is to be sought by the balanced and self-accepting self who is aware both of its apparent distortions and its total perfection. Resting in this balanced awareness, the entity then opens the self to the Universe which it is. The light energy of all things may then be attracted by this intense seeking, and wherever the inner seeking meets the attracted cosmic prana, the realization of the One takes place. The contact with intelligent infinity is most likely to produce an unspeakable joy in the entity experiencing such contact.” (B4, 53) [Emphasis mine]

Therefore “*seeking*” (through heartfelt desire) is the *only* requirement to acquire the “Truth.”

Point 4**Oneism states:**

“Perhaps the advanced angel-like beings who have taken people from Earth to this beautiful place called Eden were warned that they were not ready to have access to the recorded knowledge of all good and evil, since their primitive warlike nature might take advantage of destructive knowledge.

In the dialog between Dr. Don Elkins and Ra we read:

“**QUESTION:** Is the progression of life in other galaxies similar to ours? (B1, 156)

RA: The progression is close to being the same, with only minor variations.

QUESTION: Then the Law of One is truly universal in creating a progression towards the 8th density in all galaxies. Is this correct? (B1, 156)

RA: This is correct.

RA: This octave of Infinite knowledge of the One Infinite Creator is as it is throughout the One Infinite Creation, with variations programmed by sub-logoi [please note the inference of individuality] of what you call major galaxies and minor galaxies. These variations are not significant but may be compared to various regions in which different pronunciations of the same sound vibration are used.” [Clarification mine] (B3, 159)

Again, the “key word” here is “Perhaps.” Once again Mr. Herschel **demonstrates vacuity**; he doesn’t *know*.

This is a “distortion” of the “Truth.” The One Infinite Creator continually explores the infinite possibilities of existence and It does this *through* our experiences as well as through its own divine awareness. We are made as companions and not as slaves to Its will. There is no “Eden” or “Heaven” in this sense of this relationship; **neither is there a Hell**. The Multiverse of The One Infinite Creator is our playground. There is only an “Adventure” if we chose to explore it with our Prime Creator. Choice is “Free Will” and free will is governed by “The Law of Confusion.” Those in separation live an existence that constantly experiences the consequences of violating this law.

11 97 NOMINATES HELL as HOCUS POCUS HAZARD (one method of protecting Hades is where the star gate portals are)

Point 5

Oneism states: “Translated from early Hebrew as seen earlier, those Humans (Adam) that had been given ‘life’ (“Eve”) and who had ‘children’ (Hebrew spoken word “Cain”) were perhaps told by the advanced beings (Angels) and not by the Creation that they were not ready to interact and have access to all knowledge from The Tree of life since their nature was not at all like the lamb.

The key word in this passage is “**perhaps**” indicating that its author **really doesn’t know**. The “Hebrew” word for “children” is יְלָדִים and is translated to the English as “children.” The word “Cain” is a noun and in the Hebrew is written קַיִן which is translated to the English as “Cain.” Again, the author demonstrates that he doesn’t *know* and, once again, employs the keyword, “perhaps” **indicating speculation**. [reference: Google Translate]

If the author doesn’t know, it is because he has *not* attempted to “seek” the “Truth” which would be given to him. This is an indication that he has (1) employed the Hegelian dialectic and through this methodology has (2) synthesized a **hypothesis**. Hypothesis is speculation; it is *not* the “Truth” as it cannot be accepted in a universal understanding of its “virtue” (as what I am doing here with the “analysis” of it—pointing things out).

If it were the “Truth” then you and I would understand it in the same fashion. We cannot accept it as a tenet of our awareness and therefore it must remain **conjecture useful only to the process of discernment**.

Yes, advanced beings [read: Higher Density Beings] did communicate with early man but because they were exploring the wisdom of separation, they employed the paradigm of exploitation to control the behavior of humankind (I’ll do this for you if you do this for me—conversely—I’ll do this **to** you if you don’t do this for me). The One Infinite Creator provides through Its abundance according to Its *unconditional love*. There is no “contract.” This smacks of Vedic philosophy which is a truth of sorts in that it describes the paradigm of Anu—the paradigm of exploitation.

Summary

Oneism bears no resemblance to “The Law of One.” It preaches the heresy of Anu (the archetype of those who explore the wisdom of separation). Its doctrine continually refers to notions and examples of separation; its author continually reveals his ignorance and shows that his “hypothesis” has not been **thoroughly researched, adequately discussed**, or rationally assessed; as such, Oneism is a fallacy—the work of an immature mind.

Note: When I use the word immature, I do not mean to ridicule or slander. I mean it **in the strictest sense** (understanding) of the word as a mind that is “under” or “un”-developed. This mind displays such vacuity because it lacks discipline. It lacks discipline because it has not been adequately *trained* by its life-experience. It has not been adequately *trained* because it suffers from distraction. Its distraction is its ego. Mr. Herschel is a quintessential “cherry-picker” in that he subscribes to whatever incomplete argument serves his purpose (and I’m saying this in earnest and not to be pejorative). Our ego is an important subordinate element of our being but, to employ it effectively in our reckoning, we must gradually condition ourselves to *rationalize* using both polarities—pro and con, so-to-speak. It is difficult for us to accept a counterpoint if our ego is heavily invested in our own notion of the Truth conceived in the isolation of separation. We then assert in isolation; we are ignorant. Clarity comes with “awakening” and awakening can only be achieved if we pursue discovery in *unity* with Infinite Intelligence as opposed to speculation (i.e., hypothesis) immersed in the daydream of an illusion.

I’m not proselytizing. I’m just clarifying positions so that a determination can be accommodated. Though the Judeo-Christian Bible retains much “Wisdom,” it, like all of the other “religious” doctrines, Vedic scripture included, have been adulterated and distorted by centuries of manipulation and counterfeiting. Our science is just as unreliable as it is the mixture of isolated minds working with speculative assertions that are based on fabrications supported by empirical evidence that often tells us something other than what we want to believe. Hence, there are incongruities with Darwin’s Theory of Evolution, Newtonian Physics can’t explain why the mathematics of Einstein prove the existence of an alternate Universe, and “Time” is interpreted as a measurement of periodicity instead of what it actually *is* — the momentum behind a flow of events that establishes each event in the order of its appearance.

It is difficult to argue a “metaphysical” position using “scientific” hypothesis or philosophical conjecture in a “proof.” Reason and observation of the natural world are sufficient to determine the existence of The One Infinite Creator.

The straightforward explanations of Ra and the CHANI Entity astound us in their simplicity.

We can accommodate this reason with revelation, yes, and we can acknowledge an authority as a source of doctrinal knowledge but we must always use our own discernment to empower our determination as we labor to discover the “Truth.”

“1 Now faith is the assurance of things hoped for, the conviction of things not seen.

2 For by it the men of old gained approval.” [Hebrews 11:1-2]

If we’re going to attempt to establish a metaphysical position, **then we should use language with some precision** employing both semantics (how meaning is inferred from words and concepts) and pragmatics (how meaning is inferred from context). An ontological belief system is best served through a logical rationalization of competing arguments [read: discernment] in this manner.

Wisdom comes to us directly (just as it is coming to one through one’s work) from The One Infinite Creator who will find ways to deliver divine guidance as the “Truth.” We *have* to use our “discernment.” The “Truth” is **universally** understood. It does not require *interpretation* (theocratic, ideological, or dogmatic). We will recognize the “Truth” when we *see* it because we are “seeking” it and when we “seek” it, the veil of ignorance is lifted...

ALPHA (The Andromedans) AND OMEGA (The Cassiopeians) TRULY EQUAL RA.

***Note:** “LETTERO” There is no runic sky rune for “O”. However – this is Omega, making the “A” & the “O” alpha & omega. footnotes

Alpha Andromedae (Alpha And, α And, α Andromedae), which has the traditional names Alpheratz (or Alpherat) and Sirrah (or Sirah), is the brightest star in the Andromeda constellation .

This is where the word "Sir" comes in, as in both "sire" and the alpha star. Formerly within these forums I have taken it to mean "sire" as in those who engineered our DNA (the Anu) – obviously this is not a correct assumption. Being ALPHA indicates that the Extra Dimensional people from Andromeda for us would be God with a capital "G", the Grand Watchers Omega: The twenty-fourth, and last, letter of the Greek alphabet (Ω , ω), transliterated as 'o' or 'ō'. Symbol: Ohm(s): "a 100 Ω resistor". This is representing the Cassiopeian conglomerate, the only word which comes to mind for the mixture of Other World races who seem to be involved in the Living Library of Earth – under the auspices (good graces) of the Alpha. These in effect are the real "Keepers", and not the Anu, who have been the "zoo" keepers, the experimentors, and who happen to revere the number '12'. So as soon as I saw that Omega means the number 24th letter & the last, warning bells sounded 1 42 "The Thelemic Calendar begins in 1904, the year in which Aleister Crowley received The Book of the Law April 10 and inaugurated the New Aeon of Horus. As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" As we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions

Is this depicting the manipulation of DNA using sonic waves? To alter/mutate the genes? There are three different variations of "squeezing the waves" here. Is one of them used to "beam me up Scotty"? The word used by Nostradamus is :

reference is a direct hint to "beam me up"?

'ST ANDREW'S CROSS' UNDER THE PHEON CROSS OF EN.LIL (LORD OF THE AIR WAVES AND CHIEF PILOT YHVH)
SHOWS US THAT IT IS EN.LIL WHO IS QUETZAL-COATL. 'CEMENT/SOLID' -SPIRIT'. EN.LIL THE WRATHFUL. 3) THE
SINGING BIRD IS THE VERY EVIDENCE WE NEEDED TO PROVE THAT IT IS BY SONICS THAT THE CYMATICS OF THE
CROSSES AS SHOWN ON THE PREVIOUS PAGE ARE THE KEY TO GREAT TECHNOLOGY. THIS SHIELD HELD BY THE
MAYAN GOD IS NOT ONLY THE RAGING *PLANET* OF THE CROSSING – BUT THE SYMBOL FOR THE HAOMA OF THE

1. 10. 1 If it is "ARMS" it means Procyon from Gemini – who ARE called the "happy ones" by Nostradamus and who are mercenaries often sent by the Andromeda Council (says the texts) for operations, usually against negative reptilians (negative to the Earth). However, it could be saying ARM'S – those from Cepheus, who may have no emotions then. or to PEER closely to ARM oneself by seeing the VISIBLE DIFFERENCES between the real thing and a SHAPE SHIFTER
1 10 3. BORDERLINE FLUTE means on the cusp of Celtic Flute date noting that one Flute/Pipes date is in Pisces (cusp of) which is mentioned in FIFTEEN – DIFFERENT FEET (in 1. 1. 1.) and that the other date is definitely "borderline October"

FLUTE – PIPE/S

Mar 18 – Apr 14

Oct 28 - Nov 24 (Nov 24 is "borderline" the 2012.9 of Tom Horn)

There is a line which says that the October date is the last major event, the end of the age and "before 18" (in 10 39)
3 77 Gives us the following

OctobrePerfeEgypte YET to GET OS [Capricorn event] BEER, [Brew/May event] YET BEFORE COPPER [the October event]
CREEPY GREY TROOP PRECEPT (GOT PROBE) – in FEET, [Pisces – 2015?] COPE, GOne BY BEER (so to cope from Pisces to May 2015 or 16) This ties in with Century 1 quatrain 1 Line 1 the original - which says:

ENTRUSTS (trust me) EDUCATES: (teaching you) If [is] IN DATE FIFTEEN. DIFFERENT FEET (pun) [Pisces] STATUS.

Having said that – the YEAR OF THE HORSE (2014) pdf forum has not been compiled, and the BREW & OS event might be then

1 10. 4 Saying Earth is standing still at the beginning of the move. This fits in with the Epistle where the comment is made regarding everyone will believe the Earth has lost her gravity:

"This will be preceded by a solar eclipse more dark and gloomy than any since the creation of the world, except that after the death and passion of Jesus Christ. And it will be in the month of **October** that the great **translation** will be made and it will be such that one will think the gravity of the earth has lost its natural movement and that it is to be plunged into the abyss of perpetual darkness.

The "perpetual darkness" of Da Vinci's "All colours will be the same" – the sack cloth of the Bible...

CHLOROAMINE throughout the texts, the "amines" are

the "fragrant ones", the angels. See *Alchemy of the Angels*

See the **CHANI Project**. CHANI is an acronym for the Elder

entity which seems to be described as an angel here. When a

name has "el" in it – that name refers to the Elohim/Elders

The connection between Anakim, Bran and Michael is clear

I was actually looking for Michael Telling in the template when I found this line

Michael Telling lectures on the subject of harmonics being used as a power source, which information he derived from studying the Anakim of South Africa (the same in the Bible) – so this could still be about Michael Telling. This is the only Michael in the entire template of the hidden texts, which is interesting because Michel Nostradamus is a Michael too

CELTIC BRAN – one of the Tuatha de Danaan who delivered the magic cauldron which fed everyone all the time. E.Yah?

These were giants who "came out of heaven in a magic cloud" (T W Rolleston – *Celtic Myths & Legends* pages 103 – 106)

This line contradicts or I should say, corrects, something stated by me in a former forum – I had said that the Elders were not the Elohim. Since CHANI described himself as an "Elder", but a *junior* Elder and this line seems to be saying he is Angel Michael, and saying he was Celtic Bran – then I stand corrected.

Did I once see a connection **ELSEWHERE** between "I am Ra" and the Archangel Michael? Because the connection is here
