Twenty years of the moon's reign passes. Saros cycle
Another (moon? sun?) will take up its reign for seven
thousand years. (two turns of the Nibiru system)
When the sun takes up its exhausted days (goes "bronze")
Then my prophecy and threats will be accomplished.

When the sun takes up its exhausted days (goes "bronze") this is also stated in Presage Jan 3:

The big bronze one (our sun) which arranges the hours of the day and again stated to an abductee:

"Clone nursery" of hybrid human-alien fetuses drawn by abductee, Angie. (see Other Worlders)

"One of the aliens touched my forehead," Angie said, "and a series of graphic

images exploded" in her mind. She saw "a reddish-gold desert planet with two setting suns,"

a "galaxy," a "blood-red moon and a fiery **orange sun exploding**," and an "underground city"

before she blacked out. When she regained consciousness, an alien told her their home was

"Cassiopeia in the heavens," but that they had made a home for themselves on Earth before humans were created.

Never ceases to amaze me. So true! People like one of my daughters who has been educated in the public "system" sent me an email written all in phone text language complaining she could not understand the work and especially the dates.

I was flat out understanding her email! It is true – people always make their first comment they can't understand the date.

First one needs to go to the pdf forums regarding the codes if one is serious regarding understanding the texts hidden within the quatrains.

The final note: IT TAKES DECADES TO UNDERSTAND the FUNDAMENTALS of the ECCLECTIC COLLECTION would be true if a person has spent their life in denial or with a closed mind especially regarding archaeology and the endless possibilities. It's only very recently that the thought of someone such as an Anakim has finally been accepted by my own mind!

1. A paramorphism is an extension of the concept of catamorphism to deal with a form which "eats its argument and keeps it too", as exemplified by the factorial function.
Its categorical dual is the apomorphism
2. Parochial: having a limited or narrow outlook or scope.
3. Empirical: based on, or verifiable by observation or experience
4. Temporal: relating to worldly as opposed to spiritual affairs; relating to time
5. Meromorphic: a function on an open subset of the complex plane is a function that is holomorphic on all except a set of isolated points.
Holomorphic functions are the central objects of a study (holograms)
6. ALLOMORPHIC: any of two or more actual representations of a morpheme, such as the plural endings 's' (as in bats), 'z' (as in bugs), and 'iz' (as in business).
7. PLEOMORPHIC: the occurrence of more than one distinct form of a natural object, such as a crystalline substance, a virus, the cells in a tumour, or an organism at different stages of its life cycle.
8. Perimorphous 1. A mineral that encloses a different mineral.
2. A crystal of one mineral enclosing that of another mineral. A fossil

This Eclipse is the 30 hours [some say three days] of 'sack cloth' and « all colours will be the same » (da Vinci)
caused by Nibiru, and is *this* monster Ison interpreted as Nibiru ?

Not caring about expense none will have provided for it is interesting. Those who have the means to "not care about expense" (sometimes called the 'elite') are placed in the same sentence as those which did NOT provide for it!

The word "harpoon" is a hint at the subject, a nautical event such as a supercane. There is a quatrain which speaks of tornadoes in London at the winter solstice. Meaning, this 'gun' is "aimed" in Scorpio (Dan) and released at the end of the year, possibly part of Obama's plots. Since HAARP is an American concept, used as a weapon despite signing Treaties not to do so, then the leader of America at this time must be Obama ("noire") making the entire hidden texts of quatrain 4 13 all about the "invented nonsense" of "terrorism" (caused, created and instigated by the Americans) and what those Above plan to do about it. The words "sentence undesirable overtones" refer to the false imprisonment of the American public, with guillotines and for the children, abduction

SHOE RIND. SHOE is "shod horse" either Sagittarius or Pegasus and RIND means "on the Edge" so I do not know if it means on the cusp of Sagittarius – either side - or coming from Pegasus constellation.

November 16, 2013 – SPACE - Sun is set to “flip upside down” within weeks as its magnetic field reverses polarity in an event that will send ripple effects throughout the solar system. Although it may sound like a catastrophic occurrence, there’s no need to run for cover. The sun switches its polarity, flipping its magnetic north and south, once every eleven years through an internal mechanism about which little is understood. The swap could however cause intergalactic weather fronts such as geomagnetic storms, which can interfere with satellites and cause radio blackouts. NASA said in August that the change would happen in three to four months time, but it is impossible to give a more specific date. Scientist won’t know for around another three weeks whether the flip is complete. The solar flip incidentally coincides with the near approach of Comet Ison. It’s unknown what effect, if any, solar behavior will have on the comet. The impact of the solar shake-up will be widespread, as the sun’s magnetic field exerts influence well beyond Pluto, and past NASA’s Voyager probes positioned near the edge of interstellar space.

The event will be watched closely by researchers at Stanford University’s Wilcox Solar Observatory, which monitors the sun’s magnetic field on a daily basis. Todd Hoeksema, director of the Wilcox Solar Observatory, said the polarity change is built up throughout the eleven year cycle through areas of intense magnetic activity known as sunspots which gradually move towards the poles, eroding the existing opposite polarity. Eventually, the magnetic field reduces to zero, before rebounding with the opposite polarity. “It’s kind of like a tide coming in or going out,” Hoeksema said. “Each little wave brings a little more water in, and eventually you get to the full reversal.” One of the most noticeable effect on Earth will be a boost in the occurrence, range and visibility of auroras - the Northern Lights. “It’s not a catastrophic event, it’s a large scale event that has some real implications, but it’s not something we need to worry about,” added Hoeksema. –**Independent**, TEP
