

## YEAR OF THE HORSE ~ FOURTEEN PART ONE

There are many animals named in the Template of the Hidden Texts which appear anomalous to the context. It turns out they are Chinese years or Celtic symbols (such as *salmon*) or constellations. Also there are several codes which the word HORSE indicates. The months of the horse, which happen to be the same horses as those of the "apocalypse" (the "unveiling"), the constellations: of the winged horse Scheat of Pegasus, the colt Equulus the foal, the horse's blaze Kurnah in Cepheus, Hippocampus the seahorse, Leucippe the white horse, Alpha Andromeda and then there is the Year of the Horse. The *months* of the horse have far too many ciphers ~ *nag, Dan, ornament, Ma, ears, Be, Elm, shoe, Ara, Bau* and all the other words which mean Gemini, Cancer, Virgo, Libra/October, Scorpio and Sagittarius. Something big is slotted for Sagittarius. The White Horse Warning at Uffington is Sagittarius, complete with the large cross of the bow and arrow. Sagittarius is not shown at all on the zodiac column of St John The Divine.

This forum is a collection of all the lines with the word *horse* or *fourteen* coded within them.

Before we get started on the year which is the beginning of the end for our current lifestyle, a pertinent detail will be outlined. The matter of the "shar" of the Nibiru system.

The shar is the "year", the orbit this solar system keeps. Many people have many different numbers of *our years* in one shar. It seems the Anakim (the biblical spelling for a civilization who have as many names as there are tribes on Earth) do have some control over their system. According to the Lost Clay Tablets of Enki in Tablet 10 as translated by Z. Sitchin, Nibiru was the cause of the great flood of Noah (as we know it), the loss of the atmosphere and ocean off Mars, the drowning of Atlantis and the reason for the filling in of Gobekli Tepi, and the building of the Giza complex. All at the same time, in the age of "Leo rising". The thing we need to be aware of right now, even though the number of years for every "shar" is not the exact same each time, that of 3,600 of our years, giving and taking a few years here and there, the periods between each major *cataclysm* on Earth do span out with that period (around 3,600) of our years being highly evident.

To save you from reading yourself to boredom here – the *results* of the research will be given and the *reasons* in footnotes. Actually, the reasons are extensive, so a partner forum will have the explanations in detail. This is very important, because the research does parallel what the texts hidden in the quatrains have been warning us about.

Briefly:

Given by Enki in Tablet 10 – Great Flood *before* Giza, the reason Giza was constructed, the promise to humanity<sup>1</sup> Age of the Great Flood, loss of Atlantis, Gobekli Tepi, the Younger Dryas, frozen Mammoth in Siberia: Age of Virgo (the Younger Dryas (about 10,800 to 10,000 years Before the Current Era) followed the Allerød stage. ... the beginning of the Allerød Warm stage approximately 9000 ± 500 bp (the early Boreal Warm stage).

Age of the Giza complex – Age of Leo *rising* ~ - 9160 to -11,323 BCE (Leo is the Sphinx)  
9,100 just having left the Age of Virgo (see details last page/s)  
deduct 3,600 years = 5,500 call it 5,220 (explanation of the cusp of ages recovery is involved)  
becomes 1,900 BC give or take two hundred fifty of our years, noting the 300 removed<sup>2</sup>  
deduct 3,600 years = 1,620 – 1630 BCE pinpointed because of Thera, & the Hyksos migration  
now deduct another shar  
From *around* 1600 BC plus ... deduct a shar ... 3,600 years and you have:  
the year 2000 A.D. or C.E. give or take a handful of years or so – we are over due for a Nibiru visit

For the purposes of all of the works of Nostradamus I am reminded to point out that the words *a year* means the following:  
ANY PERIOD OF 365 DAYS IN A ROW FROM ANY GIVEN POINT IN OUR TIME FRAME; thus (for instance)  
THE YEAR OF 2012 FROM DECEMBER 30 2012 WOULD NOT BE COMPLETE UNTIL DECEMBER 29 2013

<sup>1</sup> One thing I noticed in the relating of the construction of the Giza plateau in Enki's Tablet 10, was the omission of any mention regarding all the previous pyramids which are being discovered recently. The Bosnian pyramid/s for instance are providing a dating which is harking back to about a complete turn of the Great MillWheel. Does this mean it has been the Nibiru solar system which has been the culprit for most of the cataclysms leading up to the present? The Books of Enki do point to visits going back hundreds of thousands of our years, so a turn of our solar system of around 26,000 of our years is as yesterday to the denizens of Nibiru. The 9,200 BCE event disturbed "Ninurta and Ninmah" so much ...

"The survival of Mankind the will of the Creator of All must be! So did Ninurta to his father [En.ki] say.

Ninmah her necklace of crystals, a gift of Anu, touched and swore:

On my oath, the annihilation of Mankind shall never be repeated!" (Thus indicating they have some control over the Nibiru system)

<sup>2</sup> Robert Ohotto: (the "establishment" view) gives the Age of Leo 11000 B.C. - 8000 B.C. with the Age of Aquarius dating (2400 A.D. - 4600 C.E.) Immediately one can see a glaring problem. The Age of Aquarius needs to have at least 300 years shaved off this premise, since we are into the Age of Aquarius right now, and it is not yet 2,400 AD. According to Guth, Illig, Niemitz and Nostradamus (who supplied two quatrains and a quatrain about the subject of the "missing 300") see forum *325 MISSING YEARS & Did the Early Middle Ages Really Exist? Dr. Hans-Ulrich Niemitz*. In *NOSTRADAMUS & THE MISSING 325 YEARS*:

a shade over 300 years was removed by king Otto in 675 AD – taking that date immediately up to 1,000 AD to suit the king. The proof is in the number of days removed to "repair" the Gregorian calendar. Ten days were shaved when it should have been thirteen, according to Niemitz.

"V" the Andromeda Council ~ "God"  
 "A" the Elo'im ~ plural entities  
 "C" Orphiuchus M'ABUS  
 Extra ~ terrestrial ~ above Earth ~ note the fingers

vignettes from "The secret of the initials" by Peter Kubina Dipl.Ing. A pity the vignettes were coloured, because the true colour of "V" is gold, "A" is cerulean and "C" is red

The French for "E.T." is "T.E."  
 E.T. C [Orphiuchus] A [Cassiopeians/Eloim] V [Andromeda]

In Presage Jan 3 1555 – it says in line four "Peace, the V S C gone by"

In the sky runes, both "S" and "T" refer to Ursa Major, where factions of the Anakim are sourced.

< Note the pyramid shape formed by the finger pointing in the vignettes, with "A" [Eloim] as the apex.

The vignette A shows two people, a female to whom the male seems subservient i.e: a queen - Cassiopeia  
 Peter Kubina Dipl.Ing. did a brilliant expose of the Letters to Cesar and king Henri. He concentrated on the numbers in the letter to Henri and I will quote his results because they have merit:

"What's with the date March 1<sup>st</sup>, 1555? That's the 1.3.1555. If we cut off the last figure 5 from 1555 we get 155.  
 We calculate 155 x 3 = 465 - (5+1-3) = 462. This is exact the same number as we got above, to transfer the cycles.  
 There is a second possibility of calculation:

If we cut the first figure from 1555 we get 555. The date 1.3. gives 31 and 555 - (31 x 3) = 462."

If he had extrapolated his results the final step – this is what he would have arrived at:

1555+ (publication date March 1, in Pisces – "different feet") add 462  
 462 = 2017 year of the coq, [late in] the year in which a lady astronomer repairs the calendar in the hidden texts

Now, we will recall from the texts hidden in the quatrains, that the year Jain published his work regarding the "numeral" "O" which was 458AD, is to be [one of the] the cipher numbers.

So here we have two cipher numbers, that of 462 and that of 458. By adding 458 to the publication date one gets 2013, and by adding 462 we get 2017. These two years are those stated in quatrain 10 39 which speaks of 2018 *and under*. Except that... *no further under* than quatrain 3 94 says (2013)!

The actual lines which guided the collator to the finding of the main cipher key of them all are in the last pages of this forum

1 17 4 *Et grands deluges quand fera aperceu. Par* LARGE ANU ~ DREAD.FUL GRUDGE AGES; REQUEST APPEARANCE... FUND LARGE SPACE GUARD ... ENDANGER DREADFUL QUARTERS UP well – this just blows me away! This is speaking of the subject Alex Collier stated: that the Anu (as we call them) approached the Andromeda Council for permission to return to Earth ostensibly to retrieve plant and equipment from their gold mining enterprises. As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" As we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions

Even though the "establishment", that is, the *Military Industrial E.T. Complex* are busy answering the queries from the public with such banalities that they are 'keeping Earth cooled down' and other nonsensical responses – why are they going to the trouble of using holograms? Why are they disguising many facets of the Cloverleaf Program? What are they really hiding? They spray in winter so the 'keeping us cooled down' does not hold water. In the beginning they tried to 'scientifically' explain to the dumbed down public that these were all contrails of water vapour – if that is the case – where are the aeroplanes going in the right hand picture? Real scientists are waving red flags with the loss of natural biospheres and the continual extinctions on a daily basis of life on Earth.

These paintings made by David Huggins, an abductee all his life, display something really important. We can see the "cowled dwarf" of Whitley Strieber who are the same of the medieval painting where they are spreading 'green mist'. We can see the 'see-thru' Elder entity, and the 'Nordic' blond. There are 29 various Nordics. That which are missing here are the really tall synthetic entities, the original succubi who seem to be involved in the hybrid breeding program. However, the most important is the green Oannes. See also 2 54 'minor As is [from] Norma'

 GREEN ARROW – alteration of our DNA and density – leaving for outer space, a choice. The choice is a result of technology Agriculture is the parallel direction.  
 RED CIRCLE the pheon cross of Enlil.YHVH, the passing over

THE PROBLEM WHICH CONCERNS ME IS THAT OF THE HOPI HAVING THE BELIEF THAT IT WAS THOSE FROM ARCTURUS WHO GAVE THEM THIS PROPHECY, WHEN PLAINLY, IT WAS ENLIL/RUACH.YHVH. AS USUAL THE DEPICTION HAS BEEN "CROPPED" AND VERY OFTEN THE MOST IMPORTANT PART BECOMES OMITTED. THIS USED TO HAPPEN WITH CROP CIRCLE PHOTOGRAPHY TOO, SIMPLY BECAUSE THE PROVIDER OF THE ILLUSTRATION OFTEN IS NOT AWARE THAT AN 'OUTRIDER' IS PART OF THE EQUATION. ALSO ANOTHER THING WHICH NEEDS TO BE BROUGHT TO THE READER'S ATTENTION – AGAIN ~ THIS REPRODUCTION IS NOT CORRECT. COMPARE HERE THE REAL THING TO THE ABOVE

✘ MARKS THE SALIENT SPOT ON THE GOLDEN MEAN. The join is about one quarter down the line which is *all the orbits*. See what happens when people do not know what they are looking at. The most important part of the entire glyph is the red circle on the left hand depiction. This is Earth where she finally rests. in a "new heaven" with a "new" Earth.

A number 13 in the month of "j". If "13" is a year it can only be 2013, or 3013

Why would people take it upon themselves to *alter* something ... so important a detail?

This discovery was made when working on Line 4. Combien: "whate date"? or "how much"?

Line 4. THE ORIGINAL ~ note the word "dune". It is Latin. Meaning: "Assuredly turns twice"

Minuscule (lower case) letters were developed in the Middle Ages, well after the demise of the Western Roman Empire, and lower-case versions of Roman numbers are now also commonly used: i, ii, iii, iv, etc. In the Middle Ages, a *j* was sometimes substituted for the final *i* of a number, such as *ijj* for 3 or *vij* for 7. This *j* was considered a swash variant of *i*. The use of a final *j* is still used in medical prescriptions to prevent tampering with or misinterpretation of a number after it is written

This is speaking of the subject Alex Collier stated: that the Anu (as we call them) approached the Andromeda Council for permission to return to Earth ostensibly to retrieve plant and equipment from their gold mining enterprises. As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" As we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions

Line 4: aperceu. as "apesanteur" it means weightlessness as aperçu it means insight or overview, which is not in context. apercevoir is to perceive. APER.CEU in latin says "as if it were fish food" – could this be a hint at the end of the age of the "fish" that is: the end of the age of Christ – A.D. Du verbe apercevoir: (conjuguer) aperçu est: un participe passé (past participle)

This line also can be read as "great hordes of E.T. when perceived (understood)"

which I know is going to grow the hackles of most people who are still in the 'age' of Nostradamus – but, Nostradamus has given direction to the collator to "take the hint" from the French words themselves

In the original publication of The Centuries, due to a change of pages, there were two quatrains numbered "12" printed. One should have been "13", so "14" should have shown "15". Who knows? \*ARYAN ? when Hitler took to book burning (Kristallnacht) because this is about the loss of learning when coupled with 1. 7  
 The "third" climate could mean the third season – meaning in Autumn, which is October in the Northern hemisphere.

This quatrain has in line four an abbreviated word in French: "pte:" Naturally this has not appeared in any modern  
 quatrains. This is not a minor inconsequential word, because it means:

pte abr = **pointe** pt nf. point, tip; nib, prong; headland; dig, sally adj. dotted v. break, dawn v. point; check in; scrutinize

Pte abr = **Porte** see [porte porte](#) nfpl (environs proches, muraille [rampart/ramp] carried) doors, gates

Means: if Nostradamus wanted to say "point" he could have used the entire word "pointe" (scrutinize) and in usual  
 manner of getting two meanings out of one word – he is saying also that death from conflict has arisen as a result of  
 the portal/s! More recently this is becoming clear – that the March 20 2003 attack on Iraq was over gaining control of  
 the "star gate" there. Since then the conflict in Afghanistan and in Iran (Persia) has all been about the exact same thing.  
 Control over star gates. There is a sea gate at Aden – which is a no-fly zone, a no shipping area.

The problem according to Nostradamus, is that these portals are currently open, when they should have been kept  
 closed during the current geological turmoil while the Nibiru solar system passes over. Those from Other Worlds are  
 using the star gates while they can – and Pandora's box is well and truly open! The last words in this quatrain are  
 saying "to the [rising] cross (the planet of crossing, the planet of the Anu who wear the Pheon cross) great scorn"

All our planets are being disturbed by the passing of the Nibiru solar system; rendering stargate use very dangerous...

The *third* reason the word 'pte' has been abbreviated; is to create the the *hidden words* within this line... which will be  
 done here:

3 77 4 CONFLICT.MORT.PTE:ALA.CROIX.GRAD.APPROBRE

**BOLDER GALACTIC RO FACTION EXTRA RPM PROP; CORROBORATING CLIMAX – DRAFT COPPER-PLATE**

There you have it! Just as I said – this is all about NOT LOSING LEARNING. and the only way to PRESERVE  
 information for the distant future is on COPPERPLATE – just as Psunenes I did when he had under Giza and the great  
 pyramid showing the coils, the electric light pole, the heavy water and the battery banks of the star gate under! The  
 "bolder galactic faction" is referring to the Andromeda Council (Ro sky runes) and the "extra rpm prop" is about the  
 extra revolutions of our new orbit and or the Earth herself, because the word "prop" means "the normal order of  
 everything". The writing in reverse could mean Earth will be turning in reverse (as well as the hidden texts).

Then to top that off; the line is also giving us a date when this will happen on our plate. COPPER means in October.

**Al Bielek** said he was taken into the future, making several statements which do coincide with these texts. He did speak of people, children mainly, being taken by aliens to be eaten. He also stated that those in the future had "used technology" to prevent the poles from shifting. Throughout these lines of texts the word "flips" has been seen, and just as Isaiah also warned Earth will dance and "lie down" after she had "wobbled". This "lying down" (in Pisces of of "fifteen") is a move of about five thousand nautical miles. Mother Shipton and Da Vinci speak of a sudden move – "in the blink of an eye".  
An event like this will certainly cause "air" problems.

**RO MOURNING – IMPUGN MAN [Orion]** ... *after all, in this context Man is MANNUZ* is Orion

from Marc C. DiGiuseppe:

"The problem we are overlooking is the *reasons* for the prophetic statements being made by the "seers."

**THIS HAS BEEN MY OWN NUMBER ONE QUESTION...MY REASON FOR COMPARING "PROPHETS" WITH THE ASTONISHING  
 RESULT THEY ALL SAY THE SAME THINGS. THIS POINTS TO ONE SOURCE, ONE WITH TIME PORTALS, HENCE Biblical REVELATION**

The problem has nothing to do with *humanity* as a species on a journey toward enlightenment.

The problem has nothing to do with the concept of "sin" which is why there is ...

[the feuding religions governing "satrapy" and the control of money/power]

I think (of course, you can correct me here)

that the "RO" are mourning for Orion—not us;

*not* "The Son of Man"— [Jesus or humanity] or even what's been *done* to us.

*WE* can be "changed" because, in "seeking" the "Truth," we've been alerted"

What Marc refers to is the Anu denizens are too *dense* for all their technological development – to progress. It follows  
 that all their concepts on Earth aimed at control are also too dense to allow further development. Just because they are  
 virtually immortal, does not mean they are loving and progressively enlightened to the principles of the Andromeda  
 Council. The thing or even fear, which concerns the Anu regards the *ability of humanity* to progress, despite the  
 shortcomings in our own DNA and our lack of understanding their tremendous technological advancement.

The problem seems to be that humanity seems to believe that it *needs* the science of this technology.

4.6 Questioner: Is the large pyramid at Giza still usable for this purpose, or is it no longer functioning?

I am Ra. That, like many other pyramid structures, is like the piano out of tune.

It, as this instrument would express, plays the tune but, oh, so poorly. The disharmony jangles the sensitive. Only the ghost of the streaming still remains due to the shifting of the streaming points which is in turn due to the shifting electromagnetic field of your planet; due also to the discordant vibratory complexes of those who have used the initiatory and healing place for less compassionate purposes.
