

## REPLACING CREATORS' DATIVE SECTOR ISON & NOSTRADAMUS

**I**SON, unlike "Elenin", has a very large number of appearances within the texts hidden by Nostradamus. Elenin was a test, an invention of the shadow government. A test for the populace and for certain of those in that populace. The shadow government is nothing to do with the Elohim or the Andromeda Council. Using fear as a weapon is not in their puerve.

From *THE COMING OF COMET ISON & THE FEMALE CHRIST* by Dan Green

from Dan Green

"Now that we are on the threshold of replacing the term 'paranormal' with an explanation of the phenomenon by way of the term 'Quantum Entanglement,' it makes life a little easier to share one's experiences with the actuality. Quantum Entanglement, used in physics to describe inseparable relationships between quantum systems which, when reduced to layman's terms explains how information can be shared no matter how far apart they exist – communication taking place outside of space-time to confirm the Buddhist teaching that all things are linked and that separation is an illusion.†

Rene d'Anjou 'La Fontaine de Fortune' – Comet ISON approaching?

Dan Green speaking of the painting: "in which a fallen knight has a pair of wings upon his helmet, with a heart between. Naturally we are given to thinking that the hazy orb in the sky is a diffused sun, but if we were to think of an approaching celestial body then what we could actually be seeing is the fuzzy, temporary atmosphere of a comet face on. That it is moving would explain the noted anomaly in the illustration of the shadows not being in the same direction, whereby we would expect them to be if cast by a fixed sun. The nucleus of a comet may also be referred to as its 'heart', and the wings it sits between in the illustration appear to duplicate the 'wings' or discharge of a comet. Now, we refer back to the Comet ISON, for the letters are an anagram of SION, the alleged Priory that watches over the Grail secret. Also, from the Rennes-le-Chateau Parchments that decode at Lincoln Cathedral is the enigmatic reference to 681. "

Just for the heck of it, I went to 6 8 1

The Latin congruō meaning "I meet together, I agree".

† I AM RA: The Law of One

Well, here I am – once more astonished

First, Dan Green speaks of the teachings in quantum entanglement, ending with the statement that "all things are linked"

Then I go to 6 8 1 just to see what it says, since I am not working on 6 8 1 from the Quatrein Words from Allan Webber

at this moment, I just worked this line autonomously above. Shortly I will go to the quatrein line to see what Allan's said.

An explanation is needed regarding RO and Ra. The Name "RO" was provided in a small number of lines as direction to the collator with what to do with "LETTER LETTERO" There is no runic sky rune for O\*. As a rune it means "natural inheritance" and "orbit" 10 1 3 where it says to use the letters "R" & "O" for the "PRIME" and the number one 'Prime' are the Andromeda council (who also "primed" the hidden texts indirectly) 10 1 3 RESET ENCIPHERMENTS LETTERS HENCE LETTER LETTERO IS PRIME (RO premise). The original problem being (apart from the word "OR", a word which should not be seen in a prophecy) is that the sky rune for "R" is Draco, so if one sees R. O in the lines it would read *Draco orbits*. In most cases this would be out of context.

Da Vinci said we would "hardly feel it" and Nostradamus says it will bring in the "wood age", and release the age of Anno domini

According to the texts hidden by Nostradamus - all "four and a half" will be moved, and not just the "one and a half"

WHY would "aliens" AIM asteroids at Earth when Earth is covered with pyramids constructed to prevent just that?

See WHAT THE PYRAMIDS ARE FOR at [www.hiddentextsofnostradamus.com](http://www.hiddentextsofnostradamus.com)

Other Worlders ARE however, AIMING Ison with the intention of "rolling" the Earth off her current orbit because of our sun and what it is about to do

Da Vinci says "we would hardly feel it" in the following Riddle"

"O marvel of mankind! What frenzy has thus impelled you! You shall hold converse with animals of every species, and they with you in human language.

You shall behold yourselves falling from great heights without suffering any

injury; the torrents [orbits] will bear you with them as they mingle in their rapid course."

Not just the ONE AND A HALF of Earth and the Moon - but all FOUR AND A HALF

this is a statement made more than once in the texts hidden by Nostradamus (or whoever gave him the quatrains).

As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" This could mean one of two things – or both. Each time an atom bomb or

nuclear weapon is set off it endangers the rest of the universe. It is a ripple effect, and this is where a knowledge of quantum entanglement kicks in. A case of "they know not what they do". Also we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions

Poussin certainly seems to invite the same word-splitting game with the word ARCADIA on the face of the tomb in his most famous of paintings. In the painting there is a shepherd pointing at the letter R of the word ARCADIA. In actual fact though we can only see the letters A, R, C & A (making the word ARCA) - the letters D, I & A are obscured by the other shepherds staff. So what we can see most easily is **ET IN ARCA** - which means something like 'And in the tomb'. It correlates with the paintings' theme as the shepherds are studying an inscription on a large tomb in a pastoral landscape, and it also correlates with the *et in arcadia ego* ... phrase itself.

**WHO IS CARVED AND SITS OVER THE CAPSTONE OF RENNES?:**

**Asmodeus** or **Asmodai** (**Hebrew**: אַשְׁמֹדַי *Ashmedai*) (see [below](#) for other variations) is a king of [demons](#) mostly known from the [deuterocanonical Book of Tobit](#), in which he is the primary [antagonist](#).<sup>[1]</sup> The demon is also mentioned in some Talmudic legends, for instance, in the story of the construction of the [Temple of Solomon](#). He was supposed by some [Renaissance Christians](#) to be the King of the Nine Hells. Asmodeus also is referred to as one of the [seven princes](#) of [Hell](#). In [Binsfeld's classification of demons](#), each one of these princes represents one of the [seven deadly sins](#) ([Lust](#), [Gluttony](#), [Greed](#), [Sloth](#), [Wrath](#), [Envy](#), and [Pride](#)). Asmodeus is the demon of lust and is therefore responsible for twisting people's sexual desires. It is said in *Asmodeus; Or, The Devil on Two Sticks* that people who fall to Asmodeus' ways will be sentenced to an eternity in the second level of hell. Wiki THE COW IS NINURTA & TAURUS "because that fierce demon Asmodeus knew even the future" (*ib.* p. 21).

☞ **Asmodeus** as depicted in [Collin de Plancy's Dictionnaire Infernal](#).

In the Book of Tobit. "because that fierce demon Asmodeus knew even the future" (*ib.* p. 21).

Asmodeus first appears in the Book of Tobit. According to Tobit iii. 8, vi. 14, the evil spirit Asmodeus—"king of the demons," in the Hebrew and Chaldaic versions, is a later addition—fell in love with Sarah, the daughter of Raguel, and for that reason prevented her from having a husband.

After killing seven men successively on the nights of their marriage to her, he was rendered harmless when Tobias married her, following the instructions given him by the angel Raphael. Asmodeus "fled into the utmost parts of Egypt and the angel [Raphael] bound him"

(*ib.* iii. 8, vi. 14 *et seq.* viii. 2-4).

Solomon would not give him his liberty

"because that fierce demon Asmodeus *knew even the future*" (*ib.* p. 21).

SO HOW DOES ONE GET "TO KNOW THE FUTURE"?

footnotes ALPHA (The Andromedans) AND OMEGA (The Cassiopeians) Truly Equal RA.

**Alpha Andromedae** (Alpha And, α And, α Andromedae), which has the traditional names Alpheratz (or Alpherat) and Sirrah (or Sirah), is the brightest star in the Andromeda constellation .

This is where the word "Sir" comes in, as in both "sire" and the alpha star. Formerly within these forums I have taken it to mean "sire" as in those who engineered our DNA (the Anu) – obviously this is not a correct assumption. Being ALPHA indicates that the Extra Dimensional people from Andromeda for us would be God with a capital "G", the Grand Watchers

**Omega: The twenty-fourth**, and last, letter of the Greek alphabet (Ω, ω), transliterated as 'o' or 'ō.

Symbol: Ohm(s): "a 100 Ω resistor".

This is representing the Cassiopeian conglomerate, the only word which comes to mind for the mixture of Other World races who seem to be involved in the Living Library of Earth – under the auspices (good graces) of the Alpha. These in effect are the real "Keepers", and not the Anu, who have been the "zoo" keepers, the experimentors, and who happen to revere the number '12'. So as soon as I saw that Omega means the number 24<sup>th</sup> letter & the last, warning bells sounded Yet there is the matter of "OUR EA" in 3 94 4. E.Yah who was once an Anu, has gone across to the Alpha & Omega and who is the loving and caring one. Another explanation for 24 could simply be there are 24 Other Worlds assisting them

**CHLOROAMINE** throughout the texts, the "amines" are  
 the "fragrant ones", the angels. See *Alchemy of the Angels*  
 See the **CHANI Project**. CHANI is an acronym for the Elder  
 entity which seems to be described as an angel here. When a  
 name has "el" in it – that name refers to the Elohim/Elders  
 The connection between Anakim, Bran and Michael is clear

I was actually looking for Michael Tellinger in the template when I found this line  
 Michael Tellinger lectures on the subject of harmonics being used as a power source, which information he derived from  
 studying the Anakim of South Africa (the same in the Bible) – so this could still be about Michael Tellinger. This is the only  
 Michael in the entire template of the hidden texts, which is interesting because Michel Nostradamus is a Michael too

**CELTIC BRAN** – one of the Tuatha de Danaan who delivered the magic cauldron which fed everyone all the time.  
 These were giants who "came out of heaven in a magic cloud" (T W Rolleston – *Celtic Myths & Legends* pages 103 – 106)  
 This line contradicts or I should say, corrects, something stated by me in a former forum – I had said that the Elders were not  
 the Elohim. Since CHANI described himself as an "Elder", but a *junior* Elder and this line seems to be saying he is Angel  
 Michael, and saying he was Celtic Bran – then I stand corrected.

Did I once see a connection between "I am Ra" and the Archangel Michael?  
 Yet there is still the matter of the Anakim being involved at all.  
 One other thing which seems clear here is the problem of the liaison between the Andromeda Council and the Anakim.  
 We already have seen that the Elders/Elohim (of the Living Library) are closely allied (in 3 25) with the Andromeda Council  
 (the Watchers). Various sources state that the Anakim (the "keepers") were forced to obtain permission from the Andromeda  
 Council to approach the Earth on the current passover, and that is the only connection which has been revealed so far. They  
 would not be denied permission since their entire planet depends on obtaining gold in order to remain alive. The "Watchers"  
 will be most certainly Watching the Anakim.

'N' is the sky rune for Eridanus. 'L' is the sky rune for Cetus the whale at the foot of Pisces  
Cetus (/ 'si:təs/) is a constellation. Its name refers to Cetus, a sea monster in Greek mythology, although it is often called 'the whale' today. Cetus is located in the region of the sky that contains other water-related constellations such as Aquarius, Pisces, and Eridanus.

1 98 3 out of *CRETETHESSALIE* resulting in *CERISE T CHASE LITRES* ... cerise being the colour of “T” those from Ursa

Major Central who turn out to be the red Oannes,...*CHASE LITRES* of BLOOD

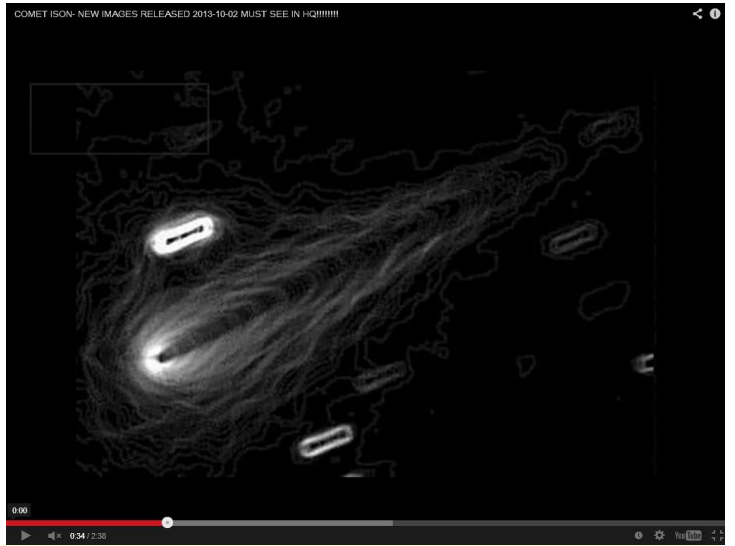

I must put in brackets here that the letter “T” was derived from yet another of Alan UUebber’s discoveries as guided to him; regarding the “runic skies”...the constellations *being in the shape of a runic character...*

The “*LOBSTERMEN*” forum is on its way. For confirmation that “*CRETETHESSALIE*” was telling us about cattle mutilations – this was followed by *HEAT*, (hate) *SLICE STEER*...*AS IT LEECH* (leach) *STEER*. Leech being a pun as well, because the obsolete name “Leech” was for the constellation between the hunter Orion and Taurus constellation. Leech is now called *Hirudo*. Not to be confused with *Hirundo* the Swallow in *Pisces* Constellation. Therefore the possibility is that those from “T” are in this case from somewhere closer to “Leech”...at the outer edge of Ursa Major.

The cattle mutilations have remained a mystery even to the journalists who follow it closely. According to Nostradamus the division of cells is done at a molecular level using heat. (By "yin") The description of a “crab cross scorpion” seen by an Iowa minister in 2007 on the back of a cow could be what the “*Myrmidon*” is, but the "ant people" belong to the Cassiopeian of the Living Library.
