

## SOLAR FLIP ~ PART TWO

**T**he date today is the same that the general news and the alternate news is saying that the sun not only flipped its magnetic fields, but turned over physically. What a way to start the first week of 2014. Presage January 3 written in 1555 (add 458 becomes 2013, *and it is* Capricorn of 2013) in its first line says:

The big bronze one (our sun) which arranges the hours of the day (our sun going 'bronze')  
 Upon the wild goat passing, *the placement far to go* : (wild goat - in Capricorn which January 3rd is!  
 Tears, laments and cries, waters [UK], ice [USA], without bread (Monsanto impoverishing everything)

Right now, at this time, the UK is suffering floods and the USA is under unusual freezing  
 This is exactly what real scientists were saying in 2003 regarding the climate changes which will occur when the Gulf Stream reverses, which it did beginning December 21 2012, according to two friends of mine in Norway. In my mind *this* was the real dreaded 2012 event.

We can, none of us say that this is all mere *coincidence*

The sun has fully "flipped upside down", with its north and south poles reversed to reach the midpoint of Solar Cycle 24

The Antwerp Premetro is a network consisting of lines 2, 3, 5, 6, 9 and 15 of the Antwerp Tram system. It is a 1000 mm rail gauge system, which runs underground in the city centre and further out on surface lines, which are separated from motor vehicle traffic. It was intended eventually to evolve into a full metro, similar to the Brussels Metro or German Stadtbahnen (light railways).

If you have been following these works, you will recall several details regarding the duodenum of the giant. Just as the "tree in stone" of 2 70 3. *The tree in rock, the gent of fire carried down* was the mechanical "tree of life" the machine which "beams one down" appearing in many Sumerian wall reliefs – becoming more and more like a real tree as it evolved – thus the "stomach in stone" is the same. It appears as a *Nefer* in Hieroglyphs – a stylized duodenum! It is the alchemye symbol for the giant Anu just as the "leg" in hieroglyphs is the alchemye symbol for those from Scheat (seat of the leg) in Pegasus. Not to be confused with the lute symbol which has the two 'chanterelle' (strings) tabs and does represent Lyra/Vega.

A pond (see inside the spokes) refers to a water sign, meaning Aquarius, Pisces, Cancer and Scorpio. Also Neptune/Poseidon. The planet for Pisces is Uranus which has mention in 2 88 as being "stranger". Griddlecake/Pancake day is in Pisces.

The 'hand of God in heaven' can very easily be seen here, changing the "gears" (the word "differential" was used in 2 24 3 REFERRING LARGE INTERFACE DEAFENED, REFERENCE DANGER IN GEAR DIFFERENTIAL (the torque involved in "driving" Earth away) IS DEAF to LARGE GARDENER INTERFERENCE (YHVH/Enlil)

DIFFERENT ANGEL GARDENER CARE, FREE 1 This "1" being the Halloween (in Dan/Scorpio) followed by All Saints & All Souls' of Da Vinci – the clue to an ice age, but the words "interfere fridge" may well mean a heating event. The missing zodiacs are Events: Taurus, Gemini, Virgo, Capricorn.

This illustration says so much. Starting from the division of grey area and bright. Then the top left at the fancy "mansion" in the sky. This is our own sun - the other zodiacs are in "houses". Here there are eight houses represented. The Hand of God is "above" the sun. Orbiting? The hand is changing the **gearing** (differential) of the great wheel of Precession, called the Millwheel of the Ages. There is an alchemye key word for "hand" which means the right hand of Orion – Betelgeuse, but they are negative Other Worlders say the texts. The alchemye key word for Leo-nines is "hands" plural. Pavo the Peacock is Uruz/Aries but on the cusp of Aries and Pisces. The timer is black – this could mean the blackness of the sack cloth or that time has reached the 0000 time line of Chani. The cockerel is year of the coq, in this case 2017 because 10 39 3 says "Before eighteen, incompetent age". The cockerel is also Puppis in Argo and may be speaking of Argo, (the oar, the *Golden Oar League* of 2 5 with the dates of "letters in F.I.S.H"... which are the dates of 1 80: "In March, April, May and June great wounding and worrying".) The "I" of the 'fish' is the Yew Tree date of Halloween in Scorpio. Argo in the Mazzaroth is "Soheil, the *coming of the desired*, with his people".

The Great wheel sits within a "pond" which is most likely Aquarius in this case, the Age of Aquarius. This vignette has been described in other forums, the main reminder here is that BoÔtes is "sweeping" the blue planet clean, and he is in Libra. Arcturus is in Libra too. The Phoenix on his right hand means two things (at least) – that the timing is between Libra and Scorpio with the other intention meaning "rising anew" – the Earth. This has been the theme in more recent forums, and we all understand why this must happen. Ophiuchus the giant snake holder with that Anakim cross on his thigh (in Sagittarius) wears a king's headpiece. The other giant on the right hand side is the "wrathful" brother in league with those from Leo and Chertan (wearing the Oannes/Sirius mitre). He is a manticore/hybrid (sphinx) shape shifter and is tightly controlled by those of Leo. This giant is part of the "triad" and may also mean Orion (sword in front hanging from his belt) with the cross of "the crossing" on his breastplate which has an animal in each quadrant.

The black band on his thigh escapes me as a symbol except that "thigh" means Sagittarius, and a black band means mourning. Of the four animals the Hare/Lupus is the only one easy enough to see. Lupus is also in an alliance with this triad. Veils in veils.

From the sixth bright celestial light (LYRA – arrive in lightning

it will come to thunder very strongly in Burgundy.

Then a monster will be born of a very hideous beast: NIBIRU?

In March, April, May and June great wounding and worrying.

*sixth bright celestial light* can mean either a planet or a star. The sixth planet inwards is Mars, not so bright until recently due to Ison. Sixth planet outwards is Saturn – but if an asteroid is coming from the direction of a planet, one would need to know *when* to see where that planet is. Nostradamus did say "by fixed stars" so the direction of this asteroid is from the sixth brightest star in the heavens. Trouble is there are several opinions on this too. Vega/Capella/RIGEL/Canopus (the latter belongs to Argo)

*Then a monster will be born of a very hideous beast:* this is saying that an asteroid is carried (moved) by Nibiru.

The months mentioned are the "passing over" of Nibiru and are the same as those in the "letters in F.I.S.H." in 2 5

One-eyed, [Orion] the red, [Eridani] white hoary-headed [Elo'im]

Which will change to the new supreme commander

In Letter 32 – Nostradamus writes to Lorenz Tubbe “the Pomeranian” who lives in Bourges. Indeed – this Lorenz is receiving such cryptic communication which includes “The Triple Method” – which is NOT a tripod! This Lorenz Tubbe must have been entirely cognisant of everything which was happening to Nostradamus, such as time travel. What a responsibility in times of Inquisition! Tubbe says:

“I deeply regret *having been snatched* from France before we could meet and speak in person; I do not despair that it will happen one day, the gods willing.” “These, then, learned Berard, are the things that I have been able to glean from that good spirit according to the most profound judgment from the stars”

So who was this Tubbe? And later in these communications:

“Regarding the present years of 1560 and 1561 -- they do not have me being spared of calamities of all sorts.”

Adding the cipher of 458 years gives us 2018 and 2019 being “not spared of calamities of all sorts”. See I0 39

(\*Letters 31 to 44) which were written in Latin – thus negating much of the duplicity which the French language can contain. Amongst these letters are poems – which more modern “translators of the Nostradamus Institute” have made comment. These poems deserve a forum of their own)

Here, it can be seen that even the hieroglyphs contain hidden meanings, most refer to constellations from where various visitors have derived. It is the consistent theme of the Anakim which finds a parallel in Mayan works half a world away which in general, archaeologists have ignored

read from top left using the Alchemye list:  
 electric light pole – you can see the "eyes" in the other one shield (Saturn) over disc over a wren (Celtic Dec. 23 – 31 & June 25 – July 4) or swallow Ku NuNu SIM.MAH now Pisces constellation, not far from Tau Ceti in Cetus. The shield is one of the four magical gifts from the Tuatha de Danaan to the Celts, and represents bloodlines/banners/family "arms". The empty eye is cognisance only; without physical seeing, during a time travel trip, the "beam me up" part. The discs could be the end of the sentence, someone might be able to enlighten me. The "cup" means Perseus or Crater. The two lines are Mayan numerals for "ten" The two finger stalls are those of royalty ... Spearhead is the spear of destiny, and the object next to it evades me, possibly a censor. With the plough of Ursa Major. The red bowl is the magic cauldron of the Tuatha de Danaan This next electric light pole has mature papyrus reeds, which is a date too – in Scorpio. Under which are two planets of the crossing. This could even mean seven thousand years. The all seeing eye of Orion is the knowledge learned in a stage gate, the seat [Scheat Pegasus] and seated assistant are here. The cartouche has the vulture of Vega, the nefer lute of the LyRans, the "beautiful" Aquila with the "third eye" over two Mayan numerals... above heavy water/Aquarius/squeezing the air waves, over a set of bellows.Top right is the 'stone of Scone' black granite plinth here... a scythe/sickle (Leo) and an arm (Cepheus) – then a blank giants' nefer ("making") and an ovum (chick). The black sun, cognisance, knowledge, the seat (could be Scheat of Pegasus) and a bank of batteries...

NeferTari

The omissions above have been kept separate, simply because they seem very far fetched. In Celtic (Anakim) myth, four gifts were made to Ireland by the giants. (T.W Rolleston) The magic [red] cauldren which fed everyone (top middle) The spear of Destiny – once thrown not to return The shield of Saturn and the "Stone of Scone" of red granite crystal quartz (computer) All four of these are here with the exception in this wall painting the stone is black, but in others it is pink. Leaving the mystery objects: the one between the plough and the spear head, and what looks like bellows, but could be timelines. \*The "discs" are beehives. Ursa Major has been called the plough and the beehive, as well as the sheepfold. The green object in the cartouche of NeferTari could be one of the "space tubes"
