

YEAR OF THE HORSE 2014 2026 PART TWO

On the subject of more than one cipher key for numbers/dating – see the following lines from the hidden texts which explains how the Jain key was found, as well as saying there are plural keys. One really needs to simply cast one's mind over the almost impossible coincidence that anyone at all would find the code! The chances of prying eyes gaining the information in a given immediate time frame are practically nil. Nor even putting several people to the task. It requires *one* mind with a useful memory, it requires the Template and the knowledge of the "key" words. It was Alan Webber who accomplished part one of this. The word "Jain" as confirmation was well hidden just to top it off. To find all these lines *ad hoc* in documents with ten thousand lines and to recognise that any given one applied to any other given one was a task for years of work. Allan would have only had one key word to work from, "zero". The rest were simply "curious" to me so they were "collected" for "later".

This is what the collator does, *collect and put together*.

Just to show you how these lines first arrived to be collated, one original example is here for you to see for yourself.

Agios (Greek: ἅγιος) or agioi (Greek: ἅγιοι) transcribe Greek words meaning "Sacred" or "Saint". Until recently, prior to working on Centuries 11, I was not realizing that those from Cepheus (King of kings) were "saints". The word "elephant" in 11 39 (Elephant routing) & also in 1 10 & 11 29** THORN is Thurisaz the sky rune for Cepheus TYPHON: the most deadly monster of Greek mythology.

****2 95 Line 1: THIS BULLETIN EXPLAINS (!) FORE-SEEABLE EXPRESSIONS (these texts) LIBEL BEAUTIFUL ELEPHANT UP**
This Elephant first appeared in Century 11 #29, & 11 39 (Elephant and the Wolf) then again in 11 #56 (Elephant and the Griffon). There must be a division amongst those from Cepheus because many lines hint they are Reptilian – so I have been taking this to mean they are the negatives. They are not included in the Mazzaroth of the Second Coming which is composed of those from: ARGO (Oar), SIRIUS, ORION, (Anu) AURIGA, PERSEUS and CASSIOPEIA = "the unholy Six"; where Argo/Oar and Cassiopeia are the two here to help the Earth and the other four are the "INSANE FOUR DUE". They orbit the sun right now. The alchemy list key for Cepheus is Arm. The quatrain 1 10 is about those from Cepheus hibernating above (the Black Knight) The arm which "holds the branches". And this must also be the BRANCHES in C 1 Q 2 "Cepheus can be no other than the Redeemer, the Branch of David (Jeremiah 23:5), the King of Kings and Lord of Lords (Rev 19:16) AGAIN, I WILL HIGHLIGHT MY ERROR IN THE HIDDEN TEXTS & CENTURIES 11 & 12 FORUMS WHERE I SAID THE CEPHEANS ARE THE CANNIBALISTIC REPTILIAN. 1. R.O COMPILED BENEFICIARY COOL = the "beneficiary cool" is possibly the *lifting of the radioactive oceans and freezing them*
 2. ¶S ESTABLISHES CLEAR REVERSALS, ASSESSING HEAVEN BORN *assessing carried to the skies* lends impact to lifting the seas with the words "clear" meaning *cleaning* and "reversal" of the radioactive dangers to the entire planet and Living Library. THEN... line three goes on to say "application of this task by sending the frozen seas' PERIPHERAL *further* creating a sustainable method. Noting it is ¶S of the Living Library who is performing these tasks (using the Elo'im) "able subtraction" ocean away from Earth! The Guardian who is "overseeing" is the Andromeda Council (R.O.) is warning us to "delve" (seek) and "inter" ourselves in our shelters commencing "A" = December 20 for this Capricorn period. This is substantiated by the word "OS" = Capricorn 2015 If you are wondering *why* these events seem to occur at the winter solstice/Yuletide period, it is because the Numbers OCD of the Seraphim (Anakim) leans them towards really important passages during their own orbit. The PassOver in Easter & for them, their winter solstice, which must be horrendous times at the furthest point in space away from our sun. This set of lines all fit in with the Vignette showing the Scorpion [date] and leaping sheep over the golden ratio.

This is the reason your "government" wants you to dwell in the cities and not in rural life. There is a need to recognise the word "government" should always read "Cor.porate", or "corporation", It is not a coincidence that the reptilian "empire" call themselves The Corporate. 2) "Dangerous hair raiser" taking advantage of the event

The "before" shot. Nibiru solar system is passing giving us a "shove". The little dot could be the asteroid which shoves the radioactive ocean off – see Earth with only an atmosphere, minus the ocean. This is what Da Vinci said. There are two views of this event, as if two different "people" are telling the same story one on each "side" of the view See the next view, next page

WELLENSPIRALE & NIBIRU SOLAR SYSTEM AT THE LEFT, ONE CROP CIRCLE IS CLOCKWISE & THE FOLLOWING ONE IS NOT. The other crop circle looking the same which appeared in 1999 is not the same. It is the view from the other side. This is the view of the Cassiopeians, the Elohm, since Nibiru is shown. Compare the two central subjects in each of the different year between the 1999 and the 2006 crop circles. The 2006 is the "before" and the 1999 is the "after" with our ocean "lifted" (see the pdf forum DA VINCI & NOSTRADAMUS)

TWO DIFFERENT VIEWS ONE FROM EACH SIDE – from a space station and a mother ship? BUT IT IS EARTH BEING MOVED ~ THREE ORBITS OUT... the consistent theme

The "after" picture, the 2006 crop circle is the "before" shot, here our ocean is left behind
 1999
 the centre shows where Earth once was on the 365 day orbit
 The blue circle is our moon moving away before we reach our final destination – the red circles are Earth.
 The radioactive ocean has been left behind – a rather ingenious way to fix the fowl up caused by greedy "government". The means and manner is explained in ANDROMEDA BOOTS UP THE PYRAMIDS

These two crop circles illustrations can be seen more clearly on page 5 in the forum SHARS OF NIBIRU & THE ZODIAC AGES
 Once one realizes it refers to shifting the radioactive oceans into outer space in order to save the Living Library, it becomes easy to understand the overall picture. William Whitaker's Latin Words

You see what "they" do? Even though this quatrain appeared in two former forums, it was not yet worded properly, so it had to be 'done again'. You will notice this throughout these attempts of mine. Obeying the line above it in 1 55 3 did bring entirely new and different meaning.

The word 'Alchemists' here probably does have the two intentions which come to mind. The first being that the "ALCHEMYE LIST" is available to those who seek to understand former masters with a little more insight and the compensations are rewarded highly for those who do so. This forum is at the web site pg 11.

The other "All Chemists" thought which comes to mind these days is one of the most profitable of business ventures on the planet. Monsanto *et alia* – whose tenets seem to be "followed" by the 'ruler' of the Piedmontese in northern Italy.

To my own mind, it is the former which will "profit" anyone interested in continuing this work properly. By now – all those who thought they 'had a handle' on the quatrains can see for themselves how vastly different the meaning can be when using the very original quatrains from which to interpret. The best example to date has been in 1 42 4 where the decoders over the centuries have said "seeking the bones (os) of the demon and Psellus". When looking at the very original the "os" becomes "or" – gold. The *D'Amant* is not 'demon', it is 'diamonte' or 'ornament' which Nostradamus calls himself in 3 94 (Ornament of his times). The 'gold' is the *knowledge* of Nostradamus and of Michael Psellus the monk, who wrote "*Chronographia*" around 1055AD., in which quantum mechanics and its implications are mentioned. 'Seeking the bones of the demon AND Psellus' makes no sense. Psellus the Younger *did* write *De Demonibus Zoroaster, Oracula magica* but there would be no need for the *bones* of Psellus too. Unless, of course one needed the DNA of Psellus. Noting: *Zoro.aster/Ring Lord*. Q 1 42 is about the Vril and Cheetham does give a very good account, otherwise. Her account in part speaks of the ten days removed from the calendar:

The first line of 1 42 says: Tenth day of the April Calends (*Kalendes Gotique*) calculated Gothic fashion.

"Nostradamus seems to have understood the change of the calendar from the old style to the Gregorian system which took place in 1582 (after his death). The tenth day of the Kalendes of Apueril [his spelling] would be April 10th as the calends was the first day of the Roman month. When the Gregorian calendar was introduced, ten days were removed from the calendar." Erika Cheetham

It was this very fact which brought to the attention of scholars who queried the Middle or Dark Ages; that it should have been 13 days removed, if it really was 1582.

From another forum:

Nothing is ever what one thinks it will be. It came to me that line 1 42 1 needs further deconstructing because of the word "Apuril". For one thing the word *purile** is within it but that is probably coincidence. The word which is more obvious, missed by me first time round, is APU. We all know that April is spelt *Avril* in the French, and 1 42 was about exactly that – the Vril society, explained in the Centuries 12 forum. There has also been another mystery hovering amongst the lines. That of the *nephew* and his intentions. APU is one of the nephews, he is Ninurta. For this instance the word *purile* may well be the indication towards how we think about Ninurta, the lover of the bull and mountains. So: *purile* Vril belongs to Ninurta [at the Antarctic] But this may not have been the only reason this line woke me up. See what it holds? *exploding kel's star*

**purile* in 2 39 2 the words "aim aphesis rule" guides decoders regarding the *silent* letters such as *k* in knight and the *e* at the end of a word
The quatrain 1 42 was also about the Vril Society being re-invented – April 10 1904 by Aleister Crowley.

There is another quatrain which when read from the very original publication says something quite different than the interpreters have envisaged. That is: 1 43 in which the word "pillar" was made plural. Once it is seen that "pillar of Porphyry" is singular, then the correct "Porphyry" is found, he who wrote regarding the Pillar of the Milky Way – a little bit further out than the "Pillars of Hercules".

1 43 THE ORIGINAL SPELLING

David Huggins has unwittingly painted the Elo'im, being a serial abductee himself for purposes of the Living Library. Ea/E.Yah/Enki/Ra the green Oannes is in the 'Aettir compound' along with a Mantis, a Dwarf (of Whitley Strieber), four differing greys – one of which is a Che-Rub he rod, a Dal Nordic and a Plejaren. Missing are the Succubi and As.

5 47 3 ED: QUATREIN DEVIOUSLY UUANED LATIN

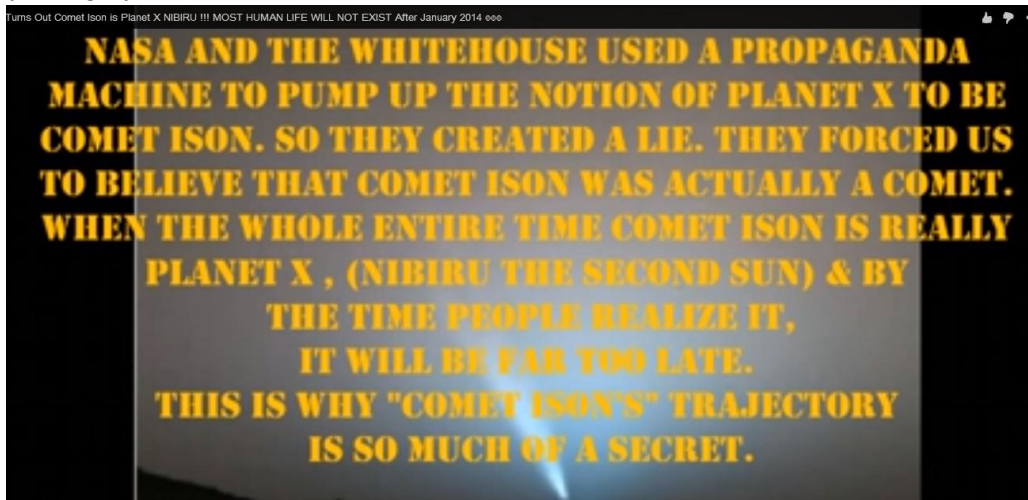

Another line with 'direction' for the collator... something which became obvious in the quatrains in COMBIEN
This line was found just now (December 29 2013) but the finding of the sneaky Latin in the Combien forum
was good 'training'... The word QUATREIN spelt this way simply means the Hidden Text quatrains

**The spoke free wheel of time – a new start?
End of the Age, even the great orbit of Nibiru?**
The yellow/gold colour usually means in Leo or “from the sun”. Or even Golden Host. The Vine which entwines the cycle of time means in Virgo. The six limbed star is the “unholy six” of the second coming and on the top left hand limb is a little blob. I scratched my head and asked around to see if anyone could determine what it is meant to be. I was thinking it was a bear... My son in law said he thought it is an owl. I nearly fell out of my chair when he said that.

**OWL MEANS MAY 13 – JUNE 9
(see Chani Project)**

Warnings regarding Easter and May are plentiful The CHANI Project speaks frequently about the May event and see lines 10 27 and 5 14 1

ONE THING WE CAN DO, IS TRUST IN ENKI IN TABLET 10 – WHERE NINURTA STATES IT IS UP TO THE CREATOR OF ALL FOR THE SURVIVAL OF MANKIND, IN OTHER TABLETS THE ANAKIM DISPLAY THEIR FEAR/RESPECT FOR THE CREATOR OF ALL – ADMITTING IN TABLET 14:

"The will of the **Creator** of All it must have been **Enlil to Enki** said. ...

Who could between our chosen destinies and our unbending fate distinguish?"

AND A PROMISE IS MADE BY NINMAH THAT THE ANNIHILATION OF MANKIND WILL NEVER HAPPEN AGAIN (FOLLOWING THE GREATEST DELUGE CAUSED BY NIBIRU)

THIS ALSO INDICATES THAT THE NIBIRU SYSTEM IS CONTROLLED! SO THERE IS *NO* EXCUSE see 8 56 2 here

"The survival of Mankind the will of the **Creator of All** must be! So did **Ninurta** to his father say.

Ninmah her necklace of crystals, a gift of **Anu**, touched and swore:

The army denied entry to the city (Cheetham) Cheetham took exercit from the Latin *exercitus*/army because she could not envision **years** being denied entry to society (cit) or to a citation.

Without the original quatrain I cannot establish if it is cite or cit, but it matters not.

The confirmation is in the word "Dans", which can and might really be D'ans.

desniee Cheetham has this as *denied* but *destinee* or "destiny" means *future travels* – (not necessarily *arrivals*)

"denied" is *dementi* or *rejeté, refusé* or *contesté* ... yet those years **were** denied

Quote : society's future outcome by/of years entered

9 96 1 **Cite: society's destiny because of years added**

NOT STATED – [medical] **PULSE MODULATION of INJURES.** who have

NOT POSTULATED EMULATIONS do INJURI (and I did read that the "treatment" *causes* the same problem)

Par son moy en fenestre aura secours.

¶S (of the Cassiopeians) ASSURES UNFORSEEN [by the public] that the UNMERCENARY CONTEMPORARY RESUMES TASK (from the previous lifetime? The reason I ask is that this *task* has not been interrupted since 2006)

This could also be saying "that the U.N. MERCENARY RESUMES TASK".

But the "unmercenary" is the person who has no love for money, the plan for reading the Hidden Texts being that no one need buy a book to have access to them...

then this line then continues with an upset "professor" and seems to refer to deciphering the quatrains.

It is understandable that people who have spent their "hobby" time working on the quatrains of Nostradamus (and for most humans, the "hobby" is the real part of their lives) would be upset that they did not think to do the following:

- 1) get the ORIGINAL quatrains and thereby delete centuries of mis-construction, something I was guilty of, and the very reason the first web site had to be pulled down
- 2) realize on perusing the original quatrains that something was not quite right in many of the lines. Someone like Nostradamus, who was an academic himself, should not have been miss spelling so many proper names minus its capitalisation and vice versa. The Publisher cannot be blamed, since his reputation depended on accuracy
- 3) apply anagrams to the lines, not easy without a computer
- 4) then *follow the instructions* from the result
- 5) finally, and not to *expect to make a living* from the final result

UUM[52] MIX E.YAH ID William52 (assistant to Nostradamus) is one of the Elo'im, along with E.Yah[Ra] William52 helped Nostradamus in the stage gate forays. William52 was a J-Rod52 of whom Nostradamus was quite fond. In the STAGE GATE – STARGATE forum, not yet published, Nostradamus was quite saddened when William52 suffered an accident in the stage gate and was killed. The next assistant given to Nostradamus he named "Paul" and it was quite obvious he did not share the same feelings for the substitute he rod.

EQUAL QUEEN TIE (restrain) ELITE, CLINIC ELICIT LATE ICE, EQUAL ICE IN LITTLE ICE [age]
 this is saying the Cassiopeians/Elo'im restrain the elite. The rest could be saying it is the elite's clinic (laboratory) which causes the mini ice age with HAARP. Or it can be saying it is the Elo'im's clinic which creates the mini ice age and that would be a by product of moving the Earth.
