

ALIENS, HUMANS AND INTERVENTION

Out of the mouths of babes ... five years ago at the former website of the Hidden Text, just for an eye opener for those not aware – two forums of simple illustrations were published. These illustrations can be seen by anyone who googles "Medieval UFO" and go straight to "images". There one will see pages and pages of five hundred year old information – unfettered by narrow minded "archaeologists" with some sort of axe to grind. Amongst these five hundred year old, and much older are depictions on the coin of the realm, hieroglyphs, wall reliefs, copper plaques, boulders and paintings.

These "thoughts made solid" that is; out of the "mind's eye" of one man his thoughts being made material for all other "mind's eyes" to see. No words needed, no need to be literate nor to understand another's Babelian tongue.

It is the *subject matter* of these works of art which should be disturbing – and disturbing they are to us here in this current modern and "blinded" times. Blinded to the truth that we are not alone, no matter the *form* of our visitors.

For instance:

If, and only if, aircraft were a normal daily event, such as they are today – and certainly have been in past eons, why then would an artist sit at an easel and spend long periods of his days putting his "mind's eye view" in colour for those generations who are coming after him?

Why would he be "telling this story" shown here, and what, exactly is this story? Did the artist actually witness something like this to have painted the craft appearing as many do today? This craft is especially seen in China today.

The Christ story may or may not be one of "influence" for the good of all. It may or may not have been hijacked to be used over the human population as a "control" measure.

Begging then, to ask – what is going on here, what is the truth in this picture?

The Baptism Of Christ, Aert De Gelder

Although we no longer paint pictures of events to display publicly as artists did in days gone by, this is what we do these days "and (the object) was blurred at 1/250th of a second, so it had to be going superfast. The object is not in the frame before or after, so it had to be going really, really fast. I was kind of blown away."

We have seen warnings throughout the hidden texts regarding the "zeppelin", the cylinder & cigar shaped craft, that they are involved in the "trade in men". The brightly lit ones which burst forth from volcanoes are from the nether regions of Earth. A good source of these 'people' is Phil Schneider (deceased R.I.P)

interestingly similar kind of UFO was videotaped in UK in 2010 as well. [Read more](#)

HERE at this juncture it should be highlighted that "Google" – an American construct – is performing "disclosure" at a very subjective level by "allowing" all these illustrations to be viewed by those who wish to do so

"The Annunciation with Saint Emidius" (1486) Carlo Crivelli (1430-1495) hangs in the National Gallery, London. MyMedia-Forum.com

It was not my intention to concentrate on any particular visitor, until I noticed the depiction above of the same craft in the other illustrations seemingly attacking the cigar shaped craft. A theme repeated

In France a coin minted in 1680 shows a hovering disc shaped UFO with what appears to be port holes or lights around the rim. You will realize that this craft on the coin is the same as that in the other pictures shown. On the right here is an Oannes with the "tree in stone" of Q2 70 (man of fire brought down) which is a machine for teleporting.

The main argument is this:

- a) that it was humans, and humans alone which commenced the amazing civilizations of ancient times and times before that – or was it?
- b) even though the fact these amazing cultures are showing evidence of technology far in advance of that which we here and now are in possession of, that we here and now are unable to duplicate the technology they utilized, indicating we here and now are devolving and not evolving. That is: we are in the process of going backwards, not forwards. The evidence is all around us – the inability to perform advanced tasks without damaging the planet, the nest in which we operate, the depletion of other life forms because of technology which we utilize and as a result of the depletion of these life forms (trees especially) we are destroying the biosphere
- c) one example which comes to mind being the first thing to remark upon when describing the so called "stone age" is the lack of this destruction current humans are wielding. The "throw away" stone age society did not leave behind islands the size of Texas floating *ad liberatum* all over the once pristine oceans!

Define technology

technology *tɛk'nɒlədʒi/ noun*

noun: technology; plural noun: technologies

1. the application of scientific knowledge for practical purposes, especially in industry.
"advances in computer technology"

We will all notice that the technology in use today does in no way help our planet, but seems to assist only those wishing to enlarge their own purse or their own laziness...

Within the Hidden Texts of Nostradamus are several new pollution-free forms of power, many of which are as Doug Yurchey describes, based on Tesla and his work. The name "Tesla" does appear several times, but as Doug Yurchey states – Tesla and his free power source cannot be utilized while ever we have the current format, which means telegraph poles, cables and all things electric as they are right now.

The warnings within the hidden texts seem to be pointing to the end of this age as we know it. The "age of wood" is upcoming while we are in the "recovery" period which will include an ice age.

This does seem to me to be "the Plan" from on high – an opportunity for humans to get their collective backsides in order and regroup in a more healthy manner for the sake of the Living Library which we share.
