"THREE SLEEPING MOUNTAINS"

This might be just wishful thinking on my part, but I am hoping that my feeling of lacking conviction in relation to the supervolcanoes has some merit for the moment. Somehow I doubt it in one way simply because so many of the other lines have carried weight. I used to feel confident in saying "Yellowstone is safe until 2044", because I have been studying the quatrains of Nostradamus since 1980, and in quatrain 2 65 line 4 it seems to say: "Mercury in Sagittarius, Saturn will fade/ fading". This conjunction has been converted into a date by more than one astrologer, and that date is December 7th 2044. There are now two reasons for this date not being correct.

The first reason is the matter of changing timelines.

An event hinted at by Nostradamus to his young son in preparation for Cesar's education in a letter which Nostradamus titled the "Preface". Being a "time traveller" himself, Nostradamus was fully aware of this astonishing "miracle" created by those Above with the means to do so... This has happened twice in 2011, removing forty minutes from Earth's orbit thus placing Earth out of harms way of the two asteroids on St. Lucy's day 2012. These two asteroids will be back in December of 2016. Not only that but a more recent and totally unremarked incident occurred in January 2014 – the same thing, where clocks were "playing up" this time not in the Mediterranean but around the north of New York state. The other reason I know a time line altered came from two personal lines, one from 2009 telling me one thing, and now another line in February 2014 stating a complete change of mind in relation to that personal thing. The lines were not changed just for me (not at all) it just happens that many other alterations are going to occur because of that time line, most belonging to the "elite" and their thought paradigm.

The second reason is the word "fenera" which people have taken as "fading" or receding. We will be looking at that word closely pg 13.

Ten hours, reversed in 705 BC. The Chinese said the sun set twice in the same day with a 360 day year before that

This is a timeline being altered

In effect – this was accomplished by the Cassiopeian/Elo'im, changing the Anak'im "12" O.C.D. parameter (360)

Then again in Joshua 10:13 The Sun Stands Still...

¹²Then Joshua spoke to the LORD in the day when the LORD delivered up the Amorites before the sons of Israel, and he said in the sight of Israel, "O sun, stand still at Gibeon, And O moon in the valley of Aijalon." ¹³ So the sun stood still, and the moon stopped, Until the nation avenged themselves of their enemies. Is it not written in the book of Jashar? And the sun stopped in the middle of the sky and did not hasten to go down for about a whole day. ¹⁴ There was no day like that before it or after it, when the LORD listened to the voice of a man; for the LORD fought for Israel....

This lord, of course, was YHVH, (En.lil lord of the air ways) an Anak'im. This tells us that both factions "in the heavens" are capable of moving planets. Thus the promise made by the Anak'im - following the consequences of the Great Flood (caused by the passing of the Nibiru system) to "never again allow that to happen" proves they *can move planets*.

(Enki's Clay Tablet 10) One might think the Anakim are simply *taking credit* for this ability, but they are so obsessed with number "12" that moving the Earth for just five days, instead of say six days, shows us it was not them on that occasion.

Isaiah 38:8

'I will make the shadow cast by the sun go back the ten steps it has gone down on the stairway of Ahaz.'

So the sunlight went back the ten steps it had gone down.

Habakkuk 3:11

'Sun and moon stood still in the heavens at the glint of your flying arrows, at the lightning of your flashing spear'

Not forgetting Matthew 24:22 "But for the sake of the elect, the days will be shortened" This was the 2011 event.

The event of Isaiah 24:23 is yet to come when:

²⁹ "Then the glory of the moon will wane, and the brightness of the sun will fade "

which fits in with any one of the following quatrains:

25 Perdu, trouué, caché de si long fiecle

* SUGGESTING THAT THE FOLLOWING EVENTS WILL ONCE AGAIN RELATE TO YELLOWSTONE

From James W Sears Dept GeoSciences: Late Oligocene–early Miocene Grand Canyon: A Canadian connection?

1. Uplift of the Rio Grande Rift cut the southern Colorado Plateau out of the Great Plains at 26 Ma and tilted it to the southwest.
2. The upper Colorado River and its tributaries began as consequent streams that flowed down the structural plunge of the basin toward the southwest corner of the Colorado Plateau, where the river passed through a Paleogene canyon.
3. The river turned north in the Lake Mead region to enter Paleogene rifts of the eastern Great Basin.
4. NE-trending grabens across the Idaho and Montana Rockies provided the final link to the Great Plains, where the Miocene drainage joined the "Bell River" of Canada, which drained to the Labrador Sea.
5. Faulting and volcanism began to segment the paleo-river
6. Faulting dammed Miocene Grand Canyon, creating a large ephemeral lake that persisted until after 6 Ma, when the Colorado River was captured by the Gulf of California.

In a previous line the reference was towards the opposite during another upheaval event – the *closing of the Grand Canyon, which would affect those reptilians living within*

7. The resulting shortcut to sea level greatly increased the gradient of the Colorado River, leading to headward incision of the Inner Gorge of Grand Canyon along the trace of the Miocene bedrock valley floor and renewed late Miocene-Holocene erosion of the Colorado Plateau.
8. The Yellowstone hotspot cut the river off in Idaho after 6 Ma.
9. Pleistocene continental glaciation destroyed the Canadian Bell River and diverted Montana's drainage into the modern Missouri River.

faner: to fade the generally accepted thought - however

Latin **faner:** sanctuary and Saturn has the alchemical name of "the shield" which *creates a sanctuary*

Latin **sener:** make a meal of People forget that "f" is also "s"

fenestre: (small) windows - having perforations, (such as our skin) apertures, or transparent open areas.

Sener: sinistral, meaning left hand (begging the question from the observer or for the object) leads to "sinister"

Sinistral and dextral are scientific terms which describe chirality ("handedness") or relative direction in a number of disciplines. The terms are derived from the Latin words for "left" (sinister) and "right" (dexter). Other disciplines have different terms (such as dextro- and laevo-rotary, in chemistry, or clockwise and anticlockwise in physics) or simply use left and right (as in anatomy). An object that has chirality can have sinistral and dextral directions defined by characteristics of the object, no matter the position of the observer.

fendre: to divide, this is a possibility, the planets being divided

IF the word is **senera** meaning "to the left" is it the curl of the Golden Mean, the Fibonacci cochleary and what would this mean?

No matter what one thinks of this word, it is one of the infamous hybrid Latin-Francophile words offering us a world of meaning. In the template for the hidden texts are the words MUREX (a snail) and COCHLEARY (the curling pathway into the inner ear). Both of these words can mean the Golden Mean. Especially as the word "sinistral" also refers to a snail which has its coils and its opening going to the left. One particular snail which has its coils this way is the fluke snail. But that is probably only a fluke/coincidence (apologies). These are the snails which lead to the parasite liver fluke. There is a ufo which does resemble an anemone/jellyfish and this snail. (See Gary Meisner The Golden Phi and the Orbits)

However, when dated this date was interpreted by astronomical means, *Mercury the planet was used.*

The new decoding would mean Mercury the metal, (quicksilver) which would alter this date somewhat

And the word "Saturn" has an alternative too - it is Cronos (time element)

SO I just re-did this quatrain line using the CELTIC clues provided in the Hidden Texts (the anagrammed quatrains)
 Quicksilver/mercury is considered to be close to the sun (Leo) ON EITHER SIDE (wiccan.shadows - peperonity.com¹)
 making both Cancer and Virgo a mercury related sign. Cancer is the silver aspect.
 The ARC is obs. for Sagittarius, correct, but also means the "heavens" and the 'canopy'
fenere (fenestre) means "small windows" small openings...

Now do you see what the last line is really saying?

SMALL TIME RELATED OPENINGS IN THE HEAVENS DATING LATE CANCER

See the vignette Cesar's Lost Manuscript showing Cancer the crab or lobster

However - I have re worked the last line as follows using the CELT clues, a recent development in decoding Nostradamus,
 and the CELT clues read like this for the last line:

Mercury is quicksilver, and the Celt zodiac is Cancer (because Mercury is next to the sun and the sun is Leo)

"l'Arc" was obsolete for Sagittarius, but can just as easily mean the "heavens" or the "canopy"

Saturn has the meaning of "chronos" - time itself

"fenera" - the last French word of this line, (taken from 'fenestra') means "small windows"

consequently the last line can now read:

Skeleton Destroys Multitudes

It seemed that what I saw was the entire North American continent, spread out like a map upon a table with this terrible skeleton-formed cloud arising from behind the table. It rose steadily until the form was visible down to the waist. At the waist the skeleton seemed to bend toward the United States, stretching forth a hand toward the east and one toward the west, one toward New York and one toward Seattle. As the awful form stretched forward, I could see that its entire attention seemed to be focused upon the United States, overlooking Canada at least for the time being. As I saw the horrible black cloud in the form of a skeleton bending toward America, bending from the waist over, reaching down toward Chicago and out toward both coasts, I knew its one interest was to destroy the multitudes.

The living pushed back and murdered instantly.

YELLOWSTONE IS 45° 10' N

From the “alchymie” lists (*CIPHERS of ANCIENT and OBSOLETE KEY WORDS*) come the key words for the celestial names. Sagittarius means the “*APPEARING*”, and “archer tells his coming sure”. It was also “EMERALD”, and this has meaning too, as the pact the Anu/Oannes/Sirius made is called the EMERALD COVENANT
 Some of the celestial names have more than one ancient name, such as Mercury – who can be the LORD, the HOURS the TRAVELLER and the MESSENGER HERMES.
 The parc prone to great calamity - could be “great calamity earth apt to slope (orbit)”
 Nostradamus did say to bring the quatrains “into the present” – that is, to ‘modernise’ them.
 The word “Hesperie” also means ‘in the west’. Insubria is Lombardy same latitude as Yellowstone

Hopi prophecy states that World War III will be started by the people who first received the Light — China, Palestine, India and Africa. When the war comes, the United States will be destroyed by “gourds of ashes” which will fall to the ground, boiling the rivers and burning the earth, where no grass will grow for many years, and causing a disease that no medicine can cure. . .
 [While this does sound like nuclear warfare, it also sounds like Yellowstone Park, as Nostradamus uses the word SULFUR in relation to an event which destroys much of the USA, and also that great warfare will be interrupted by this event, and an unprecedented flood.]

Its not just "White House Orders". The corruption of public knowledge, even from an scientific arena us USGS and volcanism, came about from the Orwellian Titled "Presidential Memorandum on Scientific Integrity" (2009), and was then incorporated into the Yellowstone Hazard Response Protocols in 2010, and creates a bureaucratic chain of command that prohibits legitimate science from occurring, and filters all comment through political oversight.

I watched the seismographs show signatures of volcanic tremors from the transport of large volumes of magma, on January 25th 2011. As a result of these tremors, a full scale seismic refraction survey was hastily begun two days later on January 27th, with more than 8 feet of snow on the ground. As a result of contacts in the geology business, I contacted a senior vulcanologist assigned to Yellowstone and had my concerns corroborated. Since then we have seen activity expand into Idaho, and expanse of the magma chamber, as well as confirmation that the mix of SIALic melt in that chamber has reached beyond the explosive level. Yellowstone's activity has not really abated since then, with recent news involving the high concentrations of HE-4 release.

Line three has something else going on. The "X" and the "I" are either in a different font from the next character, or one is a numeral and one is a letter.

To "spoil the cover" seems to be a reference to the atmosphere, and could refer to a nuclear winter from an 'engineered' supervolcano mentioned in another line, with the XI meaning 11th and the "I" meaning the runic clue – such as Yew tree day (Halloween in October).

See the full stop? This is in fact divided from the word "rouges". This normally means to anagram by parsing the line.

On the positive side, "to spoil the cover" could mean disclosure of the Off World presence which the government named in this quatrain would very much like to keep a secret while ever they are making money by doing so. Simply because the advent of free power/energy will be made public and the advent of the oil age will be finished once the public understand they have been hoodwinked for a hundred years and more. If this is the case, the 'eleven' is a reference to the number loved so much by the 'elite' and the Runic clue "I" can mean one of its other ciphers, such as 'Egypt'.

It also means 'ice', 'unable to move forward' and those from Ophiuchus (a sky rune).

Lucian (ca125AD-180AD) was also one of the earliest novelists in Western civilization. In *A True Story*, a fictional narrative work written in prose, he parodied some fantastic tales told by Homer in the *Odyssey* and some feeble fantasies that were popular in his time. He anticipated "modern" fictional themes like voyages to the moon and Venus, **extraterrestrial life** and **wars between planets**, nearly two millennia before Jules Verne and H. G. Wells. His novel is widely regarded as an early, if not the earliest **science fiction** work...

From Marc Di Guiseppe: I was working in the “Tri-City” area of New York State in the 1970’s (Albany, Schenectady, Troy) when it came out in the press that between the years 1944 and 1977 the GE (General Electric) plants near Fort Edward, New York and Hudson Falls, New York had dumped an estimated 1.3 million pounds of PCBs (a chemical used as a fire retardant in electrical transformers—the mix it with an oil not unlike brake fluid) into the Hudson River. PCBs interfere with oxygen molecules (hence their use as a fire retardant).

² "How dreadful are the curses which Mohammedanism lays on its votaries! Besides the fanatical frenzy, which is as dangerous in a man as hydrophobia in a dog, there is this fearful fatalistic apathy. The effects are apparent in many countries, improvident habits, slovenly systems of agriculture, sluggish methods of commerce and insecurity of property exist wherever the followers of the Prophet rule or live. A degraded sensualism deprives this life of its grace and refinement, the next of its dignity and sanctity. The fact that in Mohammedan law every woman must belong to some man as his absolute property, either as a child, a wife, or a concubine, must delay the final extinction of slavery until the faith of Islam has ceased to be a great power among men... Individual Moslems may show splendid qualities, but the influence of the religion paralyzes the social development of those who follow it. No stronger retrograde force exists in the world. Far from being moribund, Mohammedanism is a militant and proselytizing faith. It has already spread throughout Central Africa, raising fearless warriors at every step, and were it not that Christianity is sheltered in the strong arms of science, the science against which it (Islam) has vainly struggled, the civilization of modern Europe might fall, as fell the civilization of ancient Rome."
Winston Churchill

There was a medieval monastic order known as **the Priory of Sion**, but it died out and all its assets were absorbed by the Jesuits (Society of Jesus) in 1617. The official emblem of the Priory of Sion is partly based on the fleur-de-lis, [the Anu symbol for electron] during the First Crusade in 1099 and later absorbed by the Jesuits in 1617. Wiki. This word has two meanings, one from 1598 meaning the annexed script (the hidden texts) & the other meaning 'one born to an arbitrary placement in a particular social status', which the gentleman concerned probably is. Took me a bit to work it out. The "Pindaric" is the poet (Nostradamus) – if I marry the 'ordinary' gentleman then the pdfs will stop MISPRINT CAP ORDINARY PROP (normal quatrain 9 64 OK, I recall I had it as Capricorn but this is saying Capella in Auriga, in that case). DROP MISPRINT AND R.O. PIRACY. The Andromeda "piracy" was in a forum in the first web site which did have many "misprints"

Far from the court [theatre/solar system] it will cause to be **countrecoup**

A CROP CIRCLE TO CREATE CAUSE FOR PAUSE
see the sun is enlarged

Our brave little planet in opposition to

That which was once our moon

That which was once our orbit

According to Nostradamus the new orbit will be one of three years give or take

The pass of the red dwarf – one recorded throughout history by many names

The main planet in the Nibiru solar system, aka "Planet X" noting its orbit is inside ours in this pass

11 42 La grand cité où est le premier homme

That mighty town where is the principal man (president)
I've named the place -- just read the line again! (It says L.A. mighty city in the land of the president)
Is sore alarmed, with soldiers all afield. (Martial law)
Both war and flood the city shall assail (this war just might be the Russians putting their foot down regarding Monsanto)
Till Frenchmen rescuing shall once more prevail. (changing bad laws of Monsanto, these soldiers could be Blackwater ats Russia)
Six hundred ten: then see these things revealed. (In Centuries 6 quatrain 10 this is what it says:

6 10

In a short time the temple of colors
Of white and black of the two intermixed :
Then Red (Eridanu) and yellow ones belonging to them
Blood, land, plague, famine, fire [all] extinguished by water.
although you name LA city well known –
“first man” is the president so in the country of the first man
