

PEACE AND TELLINGER THE PEACE MAKER UBUNTU

This is not something you will see very often from this web site. It is being published here because it is so blatantly true. It is being offered in this forum because of the frequent message in the quatrains such as 1 63 4 and 3 18 2. The viewing time is 8 minutes 56 seconds, and every mother on the planet needs to understand what this message is...

Michael Tellinger shares the philosophy of Ubuntu.

One thing not included in *The Introduction* to the man of peace in I 92 was how that quatrain number was pinpointed. Just as in the case of Dan Green's mystery 681 in the window of Lincoln Cathedral when turned into Centuries 6 quatrain 81 became the subject of quantum physics, the very subject Dan was speaking about (this is in *ISON Part One*) :- Centuries I quatrain 92 had its own crop circle. December 2013 Salinas Valley...

"Those dots are in very specific order. It's so perfect it's almost like a machine did it. They are not off in any way, shape, or form."

Braille is a system of dots which enable blind people to read and write through touch. Falanga said the dots form three lines and translate in braille as: 192 192

Orchestra conductor Carl Christensen of Monterey said he works with blind music students and agrees that it reads 192.

"Now we just need to follow the 192 clue!" Christensen said.

I am not actually suggesting the "192" really meant to "go to that quatrain", but this is certainly one "coincidence" which brought much joy, particularly when the texts hidden in that quatrain are *all four lines* about Michael Tellinger.

On the subject of time travel. Portals is a better word ~ "time" being a misunderstood construct. Only because I have personally experienced seven episodes of receiving a time traveller, do I espouse and implore you, the reader, to put up with me. In the forum '*IS, CAN BE, SEVEN CONDUITS (Some Used)*' is described six of the different "intrusions" encountered by me in my own living room.

The seventh "visit" occurred October 2013, well after publishing that forum. One speculation which may have no foundations whatsoever which I did make was that these visits always seemed to be in a month which was high-lighted within the *quatrain* lines. The 2013 "interruption" was in the last Thursday in October.

Maybe I am just reading into the coincidences a little too much. This last visit, it is my opinion, was their *first*. A conclusion which was a "thought" sent to my brain, I believe so as not to frighten me, since it was some sort of mechanical vision peering through a "looking glass" hovering next to my television.

The word put in my head was "co-ordinates", which indeed one would require as a priority with the height of my house being placed quite awkwardly. It is only between January 2009 of the first apparition and now, April 2014 that I realise what the word "furniture" means which often appears in the anagrammed lines. Those were lines I steadfastly ignored, writing off as "nonsensical", when in fact they were complaining about my furniture being moved around so much! The consequence of this introduction becomes a video everyone with a decent working brain should listen to. The link here is part two of a recent reading this young man is making about one traveller who has ported from our future (2036) to 1998, leaving behind cryptic hints regarding right now.

The name of the "trans-porter" is John Titor, easily written off by those who skimmed lightly through his hidden warnings, simply because he took ten years off his prognostications. When he speaks of 2004 – he is speaking of 2014, and at the same time providing a ten year gap allowing people to prepare themselves. I strongly recommend one listens to this link for a start.

The reason this is being published here?

Because John Titor describes Michael Tellinger's paradigm of life style!

There is a twist to this which does not escape me, and which Michael Tellinger touched on lightly as surmisation. Those archaeological rock rings which contain such high Earthly electro-magnetism, and which were described in 1 92 the introduction to *this* forum; are *trans-portals*.

There are two reservations I have in regard to the messages brought back from 2036 and they are the presence of a military force from within the community and the mention of paper money.

If you have not been to *LORD OF THE RINGS* which is mostly in pictures, maybe now is a good time to do so.

The royal sceptre [president] will be forced to take that which his/its predecessors had pledged. The fiscal system **Because they do not understand about the ring** when they come to sack the palace (Vatican).

sceptre means "Erid.anus; (U.N.) Lepus tribes (of greys) Jupiter/Uranus"

l'aneau Here is a very interesting word. It means the "ring" but one can see the words "anniversary" and Anu stemming from this word. A ring certainly represents the circular pattern of an orbit, that which creates the "anna" or "annal" year. This line has hidden within it the words "Anu ring" – and Michael Tellinger has studied plenty of those!

These gate keepers either side of "the ring lord" are Seraphim of the Elohim – of E.Yah himself. Above the Ring is the 'street sign' which always attends a portal... the Haoma of Zoro.Aster/Gheber You can see who it is within the "ring"

Even if this is a hoax – why would someone think this up as an idea? Whoever would tie Nostradamus with the Elohim? Half a day was spent trying to find this again, it is no longer where it was when at first it was found. I do find it possible for a member of the "elite" to arrange this as a hoax, since they have possession of time gates. They must be having a real giggle.

To Conclude in relating these in date order - with only a small handful of lines yet to be accomplished - and the majority already come true
think again about prognostication *RICE FINAL PRESIDENT. These lines were found in 2008, in the Tuuin Touuers forum written in past tense*

In the original 3 56, line 4 it said: *Depuis fix cent & sept xxiii pars* yet no one has approached this last line utilising the full stop/period. Also at first glance, the line actually says "after six & seven cent 23" which we will look at here

<p>16 Montauban, Nismes, Auignon, & Besier, Pefte, tonnerre & gresle à fin de Mars: De Paris pont, Lyon mur, Montpellier, Depuis fix cent & sept xxiii pars.</p>	<p>3 56 from Cheetham: <i>Depuis six cens & sept vingts trois pars.</i> <i>Since six hundred and seven score three pairs</i> 3 56 4 SIX HUNDRED 600 plus SEVEN SCORE = 140 + THREE TIMES TWO = 6 = 746 = QUATRAIN 7 46 7 46 – was unreadable after being found in the wall of the hearth (Vulcan) of Nostradamus. Now look at the original 3 56</p>
<p>3 56 from Lemesurier – so you can compare the spelling Montaubant, Nismes, Auignon & Besier, Peste, tonnerre, & gresle fin de Mars: De Paris Pont, Lyon mur, Montpellier, Paris = is Apr. <i>Depuis six cens & sept vingts trois pars.</i> Note: the full stop after "XXIII" before "pars" in the original</p>	<p>Montauban, Nismes, Avignon and Bziers, Plague, thunder and hail in the wake of Mars: Oct March 2014 Of/with Paris bridge, Lyons wall, Montpellier, (mtn) <i>bridge & wall = stage gate</i> After six hundred and sixty seven by three = 2001! it says: Parse following (go to) centuries 6 23 & 7 23 (hp)</p>

Quatrain 3 56 4 states two separate details. The first that "everything follows on from 2001" and the second telling the collator to go directly to 6 67 line three and that this line relates to 3 56 4. The reason this was done is because the texts which the Elohim handed to Nostradamus were published in the original form only up to Cent 4 Quatrain 53 so these are the only ones I have been providing.

3 56 4 *Depuis fix cent & sept XXIII pars.* IS SIX UP EXCITED [Earth] SPIN EXIT. PS RA "EXCEPT IS PARS SIX SIX PUT IN DIE"

IS SIX PICTURES (vignettes in frontispieces the subjects of *Hidden In Plain Sight*)

PLUS 6 66 all four lines about "die" (dee-ay = Virgo) was the Twin Towers! APPENDIX, ADD SIX SIXTI SIX 6 66 (which is here)

ADD SIX° (the "60's" are degrees) SIXTIES meaning Earth lies down a further six degrees, and this was seen in *HIDDEN IN PLAIN SIGHT* where two different sextants showed 8° and 6° respectively, indicating two different "rolls" of Earth

The **60th parallel north** is a circle of latitude that is 60 degrees north of the Earth's equatorial plane. It crosses Europe, Asia, the Pacific Ocean, North America, and the Atlantic Ocean.

Although it lies approximately twice as far away from the Equator as from the North Pole, the 60th parallel is half as long as the Equator line. This is where the Earth bulges halfway as much as on the Equator. Wiki

Ruer = to buck

Quite another [ruler] one will try for the great Empire,

Distant (South Africa) kindness more so happiness:

Realms to buck, great misfortune.

peaultre: pe aultre. Pe from Pé.an: *medical intervention*. Some have "peaultre" as a brothel, and taking information from almost all those people who have been abducted by the Cassiopeians for the purposes of hybrid breeding – one cannot describe it any other way!

Thus line three in English can mean "Ruled by one begotten in vitrum" roughly speaking this is a very good description of the man who was brought back to life in 10 72 "KING OF FEAR" which has a forum all of its own, showing that Chinghiz Ghan has been either cloned from his own 65 year old cells or "re-made".

The "king of fear" in that quatrain may mean those *who did* the abducting and the creating of this (currently > 14 year old) which would make them the Anak'im returning Ghan to the Azkhenazi (elite) doctrines.

The occurrence was in July 1999 of the return of the king of fear (YHWH) and the reason no one saw any event is because the "event" was the *conception of the renewed* Chingiz Ghan – by those who had found his tomb – the Chinese or North Koreans.

In the forum "King of Fear" I did make the comment that July and August 1999 mantids were seen in Provence France picking Lavender – so linking the presence of the Elohim with that timing. It would be right up En.lil's "alley" to have E.Yah blamed for the return of the king of fear. Notice, it was Provence this event took place – the old stamping grounds for Nostradamus...

Day time, the "vatican"
HANDS represent LEO, and there are six of them, representing THE UNHOLY SIX
This castle keep has two BELL TOWERS (portals)
It has a BRIDGE and a RAMP the same as the stage gate has and one portal going nowhere
There are three horses way in the background (where is the 4th?)
Are they the months, the year?

Night time
Could be the same castle from the other side.
Many soldiers in the belfries (Are they the "dark men", have they arrived by portal in the basement?)
Are they reptilian?
See the vasacle...

Within Toulouse not far off Beluzer (LEO BLUR Z; THE ZOE/the Sphinx)
Within here is meant literally – under Toulouse there is a time gate, and the Sphinx "not far" as a result, with another time gate under...

as is Rennes Le Chateau. See many former forums which pictured the copper plaque of Psunnenes I showing the "coil", sonic waves etc

the treasure found will come to vex everyone (time gate) first found by the military industrial E.T. complex in Iraq 2003
The "treasure" when seen anywhere in the works of Nostradamus always refers to the time gate, *stage gate he calls them*
in two places and near the vasacle. (bridge and ramp at the gate – of the original Vatican) & another found recently in Afghanistan
Bridge and ramp "found in two places" could also mean two *time-frames*.

Tholozé Beluzer LEO BLUR Z (Zee is Cassiopeia/Elohim): THE ZOE (life force). Actually the Tau Cetian who visited
"William" all his life called himself Zöe. Google : [Interview with 'William' – earthfiles.com](http://interviewwithwilliam.com)

Cassiopeia is the "crowned queen", and for all of us who are meant to be the wardens of Edin – the Living Library, the Chi.
Leo means the Sphinx (found in the Denderah zodiac to be Leo "blurred" Virgo, another female) and the "crowned queen" of
Egypt was HatShepSut who was not born royal. Other explanations (in the *Shars of Nibiru*) have Leo as placed/constructed in
the Age of Leo.

this is the illustration which came up for the word "Cunaxa" in the forum
"What The Pyramids are for" which was basically a place where a large
battle was fought in the fifth century bc. This battle was fought for the
control of Persia (Iran) – but was it really just for the boundaries?
see this picture here – it has the haoma of the Lord of Rings -
he who uses the star gates. Titor calls them "world lines".
Battles are being fought there right now –
for the same "treasure" ?

I'm not spoiling my vote – I'm casting it for Ubuntu, because of its economic sense

WHILE I empathise with the campaign by Ronnie Kasrils et al to reject corruption by spoiling one's vote, I would rather encourage people to vote for something positive – and that is why I will be voting for the rather small and unknown Ubuntu Party that punches way above its weight.

That is because this is the only party that is tackling the root cause of most of our economic woes – the fraudulent financial system of fractional reserve banking.

This system places inordinate power in the hands of private banks to create new money out of thin air when they issue loans. Thus private banks control the money-creation process and create 97 percent of our money supply. The Reserve Bank ensures only that private banks maintain a certain reserve ratio of deposits to loans, or capital adequacy. The reserve requirements are as low as 4 percent in the case of local banks.

The Ubuntu Party has a well-thought-out plan, and legislative measures, that will rectify this undesirable system and ensure the Reserve Bank works in the interests of the public, not the interest of the banks.

This can be done by the establishment of a People's Bank owned by the public as proposed by the Ubuntu Party. A People's Bank would be used to fund all new infrastructure like renewable energy generation on a countrywide basis and in a decentralised way.

raising the reserve requirements gradually to eventually achieve a 100 percent reserve banking system would also be required to control inflation.

It must be recalled that countries like Canada developed their economies and infrastructure with interest-free money borrowed by their government from its own Reserve Bank between 1939 and 1974. During this period Canada's economy thrived and prospered and the national debt was greatly diminished.

Unfortunately, this ended when the Basel Accord in 1975 – dictated by the Bank of International Settlements, the so-called central bank of all central banks – insisted that governments had to borrow at interest from private sources instead, through the bond market or International Monetary Fund loans, etc.

By all accounts Michael Tellingier, the Ubuntu Party leader, is quite an accomplished person and, despite some of his esoteric New Age views on alternative medicine etc, has done remarkable work through the New Economic Rights Alliance in exposing and challenging in court the securitisation scandal of the local private banks whereby they are accused of bundling and selling on mortgage loans to other investors for fees and without disclosure to or the knowledge of their clients.

This is why I will not give my vote to the corrupt ANC or to the DA for more of the same. Nor will I spoil my vote. I would rather vote for positive change as advocated by the Ubuntu Party, no matter how little understood its policies are – if only to raise awareness on a critical issue that needs to be addressed if we are to make any headway in resolving our country's problems.
