

THE HIDDEN TEXTS OF NOSTRADAMUS

Explaining the Hidden Texts which were found in the quatrains of Nostradamus will not be simple. Almost everyone has heard of Nostradamus – or as he puts it “the Ornament of his time” in 3 94 – yet very few people truly comprehend the workings produced by this man. Even his own subtitle is code – “ornament” being one of the ciphers for the month of October, a month highly emphasised in his “Epistle to Henri”; which is a historical summary both for his and our past and for the future.

When put in the modern light ... the words of each quatrain line once they have been anagrammed... reach out to us with warnings, direction, guidance and even the ciphers.

The conclusions we have *been dealt* are: (all quotes below are from Nostradamus in the disguised words)

- Nostradamus travelled in time “flew four times, feel timeless, feel awe”¹
- He was taken by “Eloim” who “levels off time”²
- One of these times was at the Twin Towers event in which he states “rule out Sepdet Ceres”³
- by which he means *not the usual suspects*³ (in the unidentified aerial phenomena)*

Another time seems to have been to do with a planetoid which is orbiting the moon in a five day elliptical orbit “sees centile sided joints, lesser planet squat, [stop] prolateness quintan”⁴

The original question marks people have regarding the hidden words in the verses, were quite simply this;

1) In the English language...?

There were two reasons for doubt to hover – not only is it all rendered in a language which belongs in modern times, but English differs from French in one remarkable way – the French, and especially Archaic French have a minimum of descriptive words. One example, the word *Grande* seems to cover almost any thing which is great, big, large, huge, amazing and so on. Whereas in the English language we have words which are *designed* to fit.

Once the *hidden texts* had been transformed (by a computer program built by Allan Webber of Adelaide) into English words, those ‘designer’ descriptive English words are also there.

2) The amazing vocabulary...

How does a French speaking man from the 1550’s know the word *prolateness*? Meaning *elliptical*. Indeed, I had to do a glossary of vocabulary for such words which I had to transform from his high standard of English vocabulary to a more relaxed modern understanding.

The answer is simple. He had help.

For instance:

In the chapter regarding the Twin Towers event, he states...

“Lamented end found. Now WE alone select well”.⁵

In the Hidden Texts, throughout the 3774 lines, there are many times he refers to “US”, “WE”, and “OUR”.

Finally – the entire Tuuin Touuers chapter was written *in the past tense* – knowing that it would not be discovered until *after* the event. Nostradamus calls the chapters “forums” – being a *collection of ideas put into one place*

Most of the lines of the HIDDEN TEXTS do not relate to each other in any one given quatrain, however, those lines that do concern each other within one quatrain - with the same genre, contain very important and consistent information.

Two verses that come to immediate attention are:

* *Three orb ufos were filmed by many at the Twin Towers event, including CNN and 28 YouTube videos*

¹ Line 3 Quatrain 61 Century 2 [Derrier le fleuve au fort mise l'eschele](#)

² Line 3 Quatrain 74 Century 3 [Que pour complaire aux malheureux de Nolle](#)

³ Line 4 Quatrain 30 Century 4 [Qu'apres faim peste, descouuert le secret](#)

⁴ Line 2 Quatrain 25 Century 3 [Quand de Sicile et Naples seront joints](#)

⁵ Line 1 Quatrain 66 Century 6 [Au fondement de la nouvelle secte](#)

Quatrain/Verse 66 Century 6* (topic of the Twin Towers), and;
 Quatrain/Verse 25 Century 3, which has all four lines describing an artificial planetoid, the inhabitants, where they are from, and their agenda. Other separate lines include:

- “vandals orbit”⁶
- “planetoid pass”⁷
- “aligned planetoid”⁸
- “Istar Eridanu triads induce asteroid ordinates spiral uncited”⁹
- “noisome comets Yule Grace”¹⁰ (These could also be ufos or asteroids)
- “Peleus arranges undulated planetoid”¹¹

Since Nostradamus tells us that he “flew timeless four times”, I believe that those four times must represent very important events, such as a Passing Planet in orbit, and the Twin Towers. Therefore I am keeping my eyes open for two more such events, the same subject which will appear in all the four lines of the same quatrain.

An interesting chapter to read is the *MEDICAL & VACCINATION* collection.

The particularly intriguing component in these lines - is that which alludes to chemtrails, which is repeated quite literally, tens of times, and also admonitions regarding vaccinations. A few excerpts are:

- “queue free cures – purchase menace”¹²
- “grace regardance Melbourne mob – December danger queer year – you are none ready”¹³
- “Canada actual regular atlas, vaccinated vast accident”¹⁴
- “if [you] line up [to] vaccine, perceivance voraciti [of] creative evisceration”¹⁵
- “aim seed fate used filamentous”¹⁶ (hpc: ‘filamentous’ see Morgellan’s disease)
- “troubles boulangerite”¹⁷ (Boulangerite – lead antimony sulphide, hair like fibres)
- “plagues **treatment** supplied dangers”¹⁸
- “Borellia phoresy”¹⁹ (Borellia is Lyme’s disease, phoresy is ‘one parasite carries another’)
- “veining un-allotted biogens, dratard besoin [need - reason] given”²⁰
- “[if you] rely on vein sollute [vaccination solution] danger regarding gender readings”²¹

There is good news too...

- “few referent [tell] new fuel occupy future”²²
- “refuels indiums surpasses sparse olden fuels”²³ (Indium – similar to gallium)
- “Serapiel, [of the 5th hour] feel miracles reflected XII [2012]”²⁴

The other detail I found interesting, is that the *hidden texts* have nothing much in common with the “face value” Quatrains from which they derive, and they do not refer to times prior to the twenty first century.

There is an entire chapter about Climate Change, the sun's magnetic pole shift, the Earth's pole "rotation", (that of 5⁰ leaving Mira in Cetus as the new North Polestar) and in particular, Nostradamus (and Eloim) give very clear warnings regarding genetic manipulation of seed and people and the danger to bees.

If you have read this far, then I must now explain how the *hidden texts* are found.
Anyone can do it.

Simply get the original French Verses.

Make absolutely certain it is in the *original French spelling*, in particular because Nostradamus provided many with intentional miss-spelling... the safest of which is the translations made by Erika Cheetham, who realised there was something peculiar that may relate to codes and ciphers. She was right...

Choose one line.

Put all the French words together...this is what Copernicus and Galileo used to do too...

Now anagram the line.

Allan Webber ('*A Fossicker's Guide to Nostradamus*') has spent the better part of his adult life since the advent of the Twin Towers event, building a program to suit.

The most amazing - even astonishing effect is that often one line will give more than one genre!

Sometimes three. There is no question that each of the subject matter has meaning and impact.

Shown here are four lines (of many) which I believe relate to Linda Moulton Howe, an award winning journalist who spent much of her time investigating mysterious events

Century 3: Quatrein 72. Line 1 *Le bon vieillard tout vif ensevely,*
LITERAL: BOVINE BONE, BELLY, LITTORAL VILEIN. FIVE ENSUE ON BELLY VEIN. YULE
INVIOABLE NOBLE ART (journalism) TOUT ILL. (*Glimpses of Other Realities, Vol. II: High Strangeness*)

Century 2: Quatrein 20. Line 1 *Freres et soeurs en divers lieux captifs,*
ERUDITENESS RULES, REFERS SEER RELIES FIT CAP*. UX [means astronomical thing here]
UUESTERNISED SPECULATRIX UUEIRDNESS STIFFER STEER [would this be LM Howe?]
* Cap could either be Capella (in Auriga) or Capricorn, both of which are represented by goats

Century 7: Quatrein 22. Line 1 *Les citoyens de Mesopotamie,*
POEMS [quatreins] TO TIMESCALE. (or TO SCALE TIME)
SEEMS DOYEN [L.M.H.?] AIMS CITE STONEY [solid] SEMELOTICAL (symbols) [crop circles?] SOCIETY NEEDS

Century 9: Quatrein 88. Line 3 *Soulde d'Alobrox descendre par Roane.*
NODULE ORBS. LOUD BAAL SOUL RAPER [attacker], DEAD SOUL. REASON DESCEND, DEAD OX DEAL*.
AX ["be aware of partnership"] ADDABLE: BOLD ERA A [is a date of December 22, and as a rune refers to Cassiopeia]
*Note: "DEAL" is this the "Pact"? There is a chapter forming regarding a "Pact" called JRod52 & Treaty 9
"Baal" - in 2:2 :3 "green Baal Alnath branch". 'Branch' is Virgo Constellation, and Alnath is Beta Tauri

The real problem is that we are quite simply running out of time.

I have found that the words are not so much *warnings* that Nostradamus outlines, but of simple statements of fact.
The entire Twin Towers chapter was written by him with the *full knowledge* that no one had interpreted them before the event!

He had commenced every line that belongs to that subject with the word "wrote" in the past tense.

I believe that this chapter was done simply to gain verification. In much the same way that the Face Value Quatrains could be validated simply through known history about famous people.

In the beginning, my curiosity led me to do: "*Arnold Schwarzenegger and Other Famous People*", from the quatrains, as a history "lesson". For me, the resulting chapter vindicated the face value quatrains.

Regarding times and dates, Nostradamus very clearly outlines that the only failsafe method of arriving at a true date is through the constellations, the zodiacs and the precessions. They being the only constant.

There are lines which give clear warning to the decoders not to "do harm" by disclosing certain dates, such as:

10:90.2 *Mis a` son lieu scavant et debonnaire - In his place put one learned and mild*
DEBUTANT ~ SO AS, AN, LINES CAUSE NO MISERY...

The "debutant" is the collator of the lines. "AN" is the obsolete name for what we call the Anun.nakim. "AS" is the name of an Other World being who comes to help the Earth, and the word "SO" is actually "OS" which means 'bone' - one of the codes for "in Capricorn". OS can also indicate DNA... The word "NO" is "ON" - the obsolete name for the Oannes.

Amongst the ten thousand plus lines in the template of the quatrens – there are approximately four thousand which directly refer to what we call the Anun.nakim. They do not call themselves this name because Anu is no longer their king. Nan.nar is. “𐎠𐎺𐎠” is a god of the Aettir/Aesir, provider of the Runic alphabet. “𐎠𐎺𐎠” is a Mantis. The Oannes, from Sirius B are in league with the AN from Orion. Depending on where these Other Worlders landed on Earth, is the name given them. For the Dogon tribe the Oannes were called Nommo. For the Maya; one of many names – Quetzal.coatl (concrete spirit).

 1. UUOES... AIM DRUG MAIN GUARD, DOZES (O* could be “othilla” = *cultural inheritance* or the Initial of surname)
 2. SEUERS: MINOTAUR, RANDOM RADON (is this the sewers under the Twin Towers? The Minotaur is a hybrid)
 3. TUNES [verses] SURE MOIRA [asteroid] OS (Capricorn) -

Montauk Island is an experimental laboratory. Several hybrid creatures have been found dead on nearby beaches.

6:66 3 *Sepulchre en marbre apparoistra couverte*
 UUROTE: COUTURE [presented] BARER [truer] NAME. ENSEPULCHRE [entomb] BRAM, RENAME LECHER RACIST
 2. BEAR [Ursa], PELEUS [Antigone the Planet of Anu], ISTAR [Sirius] HERCLE [Heracles the Kneeling Warrior]
 2. ITS ARC LURCH HERE [ITS ARC = orbit - T (Rune of protection, keep your bargains, discrimination required)]

The “left-over letters” can be a date or a sky rune for its own constellation. “T” means Ursa Major, and it is extremely interesting that the meaning for the rune of protection is to “keep your bargains and to discriminate carefully”. This is exactly what has happened with the American military. They signed various treaties with other worlders from Ursa Major *direction* – then failed to keep the bargain. To be fair – those from Leech and Markab did not keep their bargains either. Markab is in Pegasus. These people are named “Grayle”, not to be confused with Graals who are in league with 𐎠𐎺𐎠.

6:66 4 *Terre trembler en Avril, mal enfouetz*
 Terror Enter Fallen Emblem. Zeal Inflame Touuer MALL, liarz menu
 UN-ERRABLE FELON, METE [measure] IR-REMUNERABLE . ENUMERABLE METER [measure] TREBLE R
 Alminezur Label [chapter] Fourteen [of En Chiffre].

(Alminezur = numeral iz (14). En Chiffre is the mysterious ‘Henric’ of the quatrens) This is “direction” to read Chapter 14 of Cornelius Agrippina. Allan Webber had discovered additional direction which led him to the meaning of “Henric”. The body of Agrippina’s work in chapter 14 relates to “good” angels and “bad” angels, and the fact they can appear in any form – shape shift.

<p>6 66 <i>Au fondement de la nouvelle secte,</i> <i>Seront les os du grand Romain trouvez,</i> <i>Sepulchre en marbre apparoistra couverte,</i> <i>Terre trembler en Avril, mal en fouetz.</i></p>	<p>With the basis of the new faction, (Disclosure regarding grey aliens) Will be of the great Roman bones found, Appearing hidden in a marble tomb, Earth to quake in April – badly beaten about (whipped up)</p>
---	--

The Hidden Texts give us guidance regarding certain codes, one of which relates to Other Worlders. This is the word ROMAN. From long before Rome was as it is now – the word “ROMAN” means “NORMA” - an obsolete name for Leo Constellation. Alien Greys would be “the basis for a new faction”...

The body of a perfectly preserved, carefully mummified alien was found January 7 2003...HIDDEN, buried in a pyramid tomb of the queen of 12th Dynasty **Senusret II** also known as **Sesostris II /Senwosret**. The mummy is of an unusual being, between 150 and 160 centimeters (5 foot 3”) in length was found January 7 2003, by Czechoslovakian archaeologist Dr. Viktor Lubek, retired professor of the University of Pennsylvania; near **Lahun** when exploring a small pyramid near the Dynasty tombs of **Senusret II**. However, this was not revealed by the Egyptian Antiquities Department until after Hawass retired. “The mummy of what appears to be an alien, dates back more than 3880 years and it seems it would be a humanoid” said a source at the Egyptian Antiquities Department, who provided details and photographs of the find but did so under the condition of anonymity.”

“The mummy’s tomb inscriptions showed it was a counsellor to king **Senusret II**, named **Osirunet**, which means ‘star - or heaven-sent.’ The body was mummified, buried and hidden with great respect and care, accompanied by a number of strange objects that have not been identified. The government has consulted a number of respected archaeologists, but none can explain the artifact in ordinary terms. “The truth is, almost every expert who has seen this mummy has concluded it’s not of earthly origin,” the source says. “There’s a feeling this is an Extraterrestrial who somehow ended up advising an Egyptian king. But everyone in government is shying away from that conclusion because it backs up New Age ideas that the ancient Egyptians had help from space aliens in building their extraordinary civilization”

ALSO earthfiles@earthfiles.com APRIL 2009 *nano thermitic evidence*

Steven Jones and other scientists examining World Trade Center dust have found numerous particles of unexploded thermite in the dust. Thermite is the military-grade explosive believed to have been used extensively in WTC 1, 2, and 7 to collapse them.

The scientists know it is thermite from the chemical analysis of the particles, and they know the thermite is unexploded because when they shined a laser on one particle it blew up, and when they heated another with a micro-torch, it too exploded.

It has been discovered that it was Condoleeza Rice who gave the high-level OK to tell workers that the WTC dust was not toxic and that they could go back to work into Manhattan, despite knowing that the dust is toxic.. CBS establishes that the Administration knew the dust is toxic. [CBS 2 story](#)

 seen, they are moving quite quickly. Nostradamus does say
