

FREE SASAR ENERGY & FIPPLE ~ INTRODUCTION

All of this information came from this one line: 1 27 3
It clearly describes Leedskalnin's rotor machine, his moving water, the magnetic alignments and his sonic "cones" Recall that Mayan codex glyph with the bird singing into a conic shape with the [cymatics of] a pheon cross?

When I retrieved a picture which has appeared in the forums a number of times already, my head started spinning in a faint. There written across the copper "plate" of Psunnenes I is my caption 1 27, which when you read the original quatrain, then the "modernised" version (which I was asked to do "by thesaural") then read the texts hidden within, *all of it* refers to free fuel and time travel. These quatrains and quateins are here.

1 27 3 *Qui par longs fiecles avoit efte grappe
that which for a long time had been contained
the stage gates & knowledge*

1 27 3 **SOLAR ECLIPSE SIGN is APRIL'S SONG,
RENDERS TENEBROUSNESS (obscurity/sackcloth) IN FIFTEEN**

"knowledge" in 1 42 4 is the "gold" of the ornament – Nostradamus describes himself in 3 94 - plus "ornament" is a pun since it also means in Libra – the October which Nostradamus describes to king Henri II being when people "will think that gravity has left the Earth" and of Psellus, Michael the Younger who wrote *Cronographia* in which quantum physics is described (he who married the widow of king Constantine – the uncle of prince/king Otto, the same who had 324 years removed from the calendars. At the time the word 'gold' only seemed to me the same as it seems to everyone, something valuable. Once one has either read or watched Laurence Gardner and his topic of Ormus/ white powder gold, with its miraculous qualities, one can never see gold in any other light forever after. Immediately the realisation became clear that gold mining will never cease here on Earth, that the Anakim will *never* stop coming here to obtain it and that the greatest 'treasure' within all the quatrains which we already discovered i.e: the time gates - need white powder gold for certain of their 'conduits' for *intra dimensional* porting. The hints have been spattered throughout the hidden texts such as the word ORME and quantum mechanics in *Cronographia* (published 1055AD) and in the not yet published *STAGE GATE-STARGATE* forum which I was told not to publish yet (DELAY PORTAL CHORE 9 67 2). Now I know why...

So far, in my mind I see this as the beginning of a process once zinc is involved with those artifacts.

The DOZEN is always a key word for the Anakim who have twelve digits and who are O. C. D. with the number twelve

The word "Rome" in the texts has "orme" as its hidden text.

Only yesterday while watching Alex Collier videos, did I realize that the As that you have seen all throughout these forums is pronounced AYZE as in "A"s. Now I am wondering if this is what the four "A"s are on the Cross of Hendaye.

Listening to questions placed before Alex Collier the answers of which he was unsure – made me conclude that some of those answers for him are here within these lines. When Alex xpeaks of the events at Dulce, without giving us details, this is the Phil Schneider information... it is my suggestion you read all you can, watch every video regarding Phil Schneider. When Alex speaks of "several benevolent races" he is speaking of the Elohim alliance.

This also tells us that Alex Collier is thoroughly vindicated. The only other person who has made mention of "As" or "Az" is Anton Parcs – and there is an entire forum regarding him, since he was born inhabited by E.Yah/En.ki.

Also referenced below are a couple of examples of “notes to the collator/decoder”. These are just examples of how Allan UUebber and I have been ‘told’ how to do the work for Nostradamus. I have not yet needed to publish any with Allan’s ‘guidance’ and this just shows how delightfully clever the entire ‘chore’ was constructed. Do not think I was able to do it all on my own. Many people (and they are named in the lines) have been an influence to my understanding... Stella Heap, David Glen Spearcatcher, Eloise Parks, Michel Nostradamus and all of those in the Bibliography.

Footnotes

fipple *noun*

noun: **fipple**; plural noun: **fipples**

the mouthpiece of a recorder or similar wind instrument which is blown endwise, in which a thin channel cut through a block directs a stream of air against a sharp edge. The term has been applied to various parts of this, including the block and the channel.

Origin early 17th century: perhaps related to Icelandic *flipi* 'horse's lip'.

The forum being completed now titled *FREE ENERGY & FIPPLE*

which derived from a line in *EARTH BEAST – HUMAN CREATURE* (MAY 26 2014)

The information seems to be parallel with the energy from the Giza pyramids and from Tesla, also explaining much that I have missed simply because I had not been aware that white powder gold is a transmutation agent – even though the word ORME has appeared frequently. This derives from the word ROME, so saying that within all the quatrains and presages, the word ROME and the quatrain it is in will need to be studied in some depth.

HoaRa greets Nicolosi, August 6, 1985 At 9:35 Hours
"ANOMALOUS VORTEXES OF THE TERRESTRIAL GRAVITATION"

In force to as there and having communicated about the unsteadiness of the planet on the impermanent brittleness of the ring, must itemize you as I approach: to part the abiding danger of the escape without return of the magnetic axis of the geoid, already to his time itemized, throngs of notables starts in the gravitational force of your planet exist. Such starts act on the equilibriums cohesion of the subject with consequences not inconsiderable, either on the structures you enslave to the gravitational constant, or also on the equilibrium psychic-physical of the live beings.

The subject in kind, gerrymandered or minus, invested from a flow more good or of small gravitational force, fatally it suffers of the modifications of stability also disintegrating. There we have told and we repeat you it still once: the experiments nuclear and as other on templates to upset the Law of the Onnicreante Force, they there will bring in a blind alley without any hope of exit.

The next events will give you the exact measure of your irresponsibility and of your cynicism."

HoaRa greets: as told to Eugenio Siragusa October 25, 1984 - At 15:00 Hours
"BURSTS OF ATOMIC BOMBS IN THE SUBSOIL"

The scientist extraterrestrial HoaRa explains:
Such experiments are not less deleterious than those effected in the atmosphere.
The waves of bump can seriously decompose the normal stasis of the cope magma on which rest the terrestrial crust.
The consequences are been able to perceive easily.
You, earthlings, consider your planet like a ball from ping pong.
You don't hold account of his nature at all and of the its demands cosmological.
Your planet, like all the others broadcast in the cosmos, alive in operation of one specific equilibrium that you would should already know.

Your habitat tied indissoluble to a his precise function that you don't can nor ignore if you don't want his essential equilibrium to come minus the, with unimaginable effects catastrophics.

You are really and obstinately against the life and against all that vitalizes it and renders it healthy and fecund. Peace on the Earth.

oooooooooooooooooooooooooooo

Hoara greets: 30 JULY 1963

THE EXTRATERRESTRIALS ACROSS to EUGENIO SIRAGUSA HAD TOLD:

The deadly effects of the experiments nuclear cellars will change, between not much, the face of your planet if the men responsible they won't put them sudden to the proclamation. You, terrestrial scientists, not imagine vaguely what not even you have already built and what you still intend of build with your foolish craze of the atomic science.

If the Earth has trembled and will continue to tremble with so much destructive violence, the guilt is chiefly your, of the your cynic pride, of the your unaware barren science of control that ignores all the disastrous effects caused from the bursts of the nuclear in the cellar on the bulk burning-cosmic of your planet that any constitutes the kernel.

The actual disasters, that have harvested a considerable number of innocent victims already, are well few thing as compare to those that fatally must wait for you in a very next time to come. Complete continents could be shattered from the terrible enormous force of the elements burning-cosmic that with as much adolescent boldness has upset and envoy in as dangerous nervousness. There we tell still: nobody, and not even we, could do anything for change the tragic situation in which you there are outcast. The only thing that you could do for remedy is that of stop each type of experiment immediately nuclear, in special way of those cellars if you in the future will avoid subsequent, bad and irreparable destructions.

In the past, like in the present, we have done and we continue to do the possible for embank the effects equally killer of the "atomic retina" errant in your atmosphere. The cinders are abundant and are a great deal frequent meet them. But these radioactive leavings has destined to have counteracted if the men of science, and above all of government, they will maintain the appointments engaged in the recent treatise that forbid subsequent atomic experiments, are in surface that in tall quota. It is not as for the subterranean experiments. We could not attend, we could not do anything. WARNING OF THE EXTRATERRESTRIALS PILOTS TO THE CIVIC AND MILITARY PILOTS

OF ALL THE NATIONS OF THE EARTH

We believe opportune communicate you that our spatial carriers that you earthlings calls Flying Disks, have moved by a powerful fluctuating energy, unknown by you and by the scientists of your planet.

There we exhort, friendly, for your safety and for the certainty of the passengers that you carry with the yours airplanes, of don't exceed in the curiosity, and of avoid absolutely, of chase us and of put you on our wake of flight.

Chiefly we address the blind sense of irresponsibility of the men provosts to the command of the military airplanes person in charge of intercept our spatial means, of approach them most possible for photograph them or demolish them. We exhort also you, dear brothers, to don't do it for your good and for our calm of conscience. We become notice well gladly and with all the necessary heeds, but you don't do likewise and, often, the your absurd zeal procures you serious and deadly accidents.

To part the fact that our means could achieve speed for you impossible and inconceivable, the yours arms, any they are, they won't can ever affect on the absolute certainty of our means, neither could put in danger our existences.

It is instead extremely dangerous for you and for your airplanes channel you in the wake of our spatial means in navigation.

You know, and they know your scientists, that our means travels in the absolute void also and to the speed of the light using the same energy that consents to the celestial bodies, inclusive the planets of the Solar System, to remain in the cosmic space in a perfect state anti-gravitational respects to the other planets.

Still you, and in distinctive way your scientists, you don't know the enormous energy that impends the zones until today explore from your artful satellites. The imprisonment and the enslavement of this energy are for us possible and easily feasible thank to special apparatuses that we consent this operation, already since many millenniums. Additionally this energy comes from us tabloid to our desire and according to the voltage of required projection from the circumstances. The push of projection of our spatial means is then adjustable, and we bring it to the extreme limits when we meet with your apparatuses, for these two principal motives:

Consentire to your visual power of observe us and to your intelligence of deduce.

Avoid most possible the widening of the energetic halo with the intention of annul a contingent clash of him with your airplanes.

But it often happens that you address your airplanes on our means forcing us to accelerate the push of projection and, then, the adjunct widening of the halo of the fluctuating energy.

From that bear serious eventualities that could induce you in extremely dangerous situations and also deadly. Invest the cinder of energy also still in a relative state of condensation, that comes left from the our means, it involve for your airplanes complete breakup and then the your sure death. Therefore we there invite, with brotherly love, to don't risk you

with insensibility to such enterprises, and we there exhort, with spiritual affection, to cheer you of our meetings, as like us cheer us of it, with calm and peace in heart.

We want only help you to incite you to do you understand our conscience and the our Holy Mission of Well Universal and of Divine Truth.

We build the ideal presuppositions for the Saint Advent of the Celestial Justice for Holy Wish of God.

We streak from you on the Earth animated from your Saint Love and from the your Sacred Laws. Reform you! You pay attention and counseled.

This we there have communicated through our mind on the Earth for point out you and render you awake. The Peace and the Calm is on you and on all the humanity.

FROM THE EXTRATERRESTRIAL HOA-RA June 18, 1963 In faith Eugenio Siragusa

Listen well and pay attention to what I tell you:

Men have to correct themselves. With humble petitions they have to ask forgiveness for the sins committed and those they could commit. You want me to give you a sign, so that every one will accept My Words, which I say through you to mankind. You have seen the Miracle of the Sun, and all, believers, non-believers, farmers, city dwellers, wise men, reporters, lays, clergymen, they all have seen it. And now proclaim in My Name:

A great punishment will fall on mankind; not today, not tomorrow, but in the second half of the XX Century. I already revealed it to the children Melania and Massimino, at "La Salette", and today I repeat it to you because mankind has sinned and trod upon the gift that I had given.

There is no order in any part of the world, and Satan rules in the highest positions, establishing the course of things.

He will effectively succeed in getting to the top of the Church; he will succeed in seducing the souls of great scientists who invent arms, with which it will be possible to destroy a great part of mankind in a few minutes.

He will have in his power the powerful who rule the peoples and he will incite them to build enormous quantities of those arms. And, if mankind should not object to it, I will be forced to set My Son's Arm free.

Then you will see that God will punish men with greater severity than He ever did with the flood.

The time of times and the end of all ends will come, if mankind is not converted; and if all should stay as it is now, or worse, should it worsen even more, the great and the powerful will perish with the small and the weak. The time of great trials will also come for the Church. Cardinals will oppose Cardinals, bishops will oppose bishops, Satan will march among them, and there will be changes in Rome. That which is rotten will fall, and that which fall will never rise again. The Church will be darkened, and the world will be overturned by terror. The time will come that no King, Emperor, Cardinal or bishop awaits Him who still has to come, but to punish according to the plans of my Father.

A big war will break out in the second half of the XX Century. Fire and smoke will fall from the Sky, the waters of the oceans will become steam, and the foam will rise, overturning and sinking everything. Millions and millions of men will perish from hour to hour and those who are still alive will envy the dead. Whichever way one turns to look, there will be anguish, poverty, ruins in all the cities. Do you see? The time comes nearer and the abyss widens without hope. The good will perish with the wicked, the great with the small, the Princes of the Church with their believers, and the rulers with their peoples. There will be death everywhere due to the mistakes made by the senseless and the followers of Satan who then, and only then, will rule the world; lastly, those who survive all happenings and are still alive, will proclaim again God and His Glory, and will serve Him as before when the world was not so perverted.

Go my little one, and proclaim it. For that purpose I will be always at your side to help you".
