In the next part of this forum will be an excerpt from Jim Sparks who encountered the green Oannes, not knowing who and what they were. They had him learn the off world alphabet, the same which is on boulders on the moon and now found on Mars. A pictogram of a sentence in this writing appeared in more than one crop circle but the main point here is that these Oannes appeared to Jim Sparks as good looking humans. He then asked them to show him what they really looked like, and with hesitation (empathy) they did. This is shape shifting and David Icke is one hundred percent correct, with it being a short step to comprehending how easily the red Oannes are infiltrating the United Nations and the 'top elite. The sooner ordinary folk can accept this information' the better.

“Now that we’ve seen the lengths to which certain world leaders will go to conceal their reasons for invading other countries, a UFO conspiracy shouldn’t surprise us at all. True helplessness comes when, as we have learned, those with a different agenda infiltrate themselves into the centre of our affairs’... And then, going over the Siragusa materials, I spotted something:

“And those who, on your planet, represent us, are scrupulously followed and protected. I thought about the notorious Santilli film too. After all, what I’d seen was, in every way, identical to the humanoid being shown in the footage UFO abduction cases seemed to offer one avenue of exploration, and the best one of all, for my purposes, was that of Brazilian farmer Antonio Villas Boas\*, with his amazing visual memory and detailed descriptions of alien technology. Why not follow these high-tech gadgets: look for the kind of inventions that a cash-strapped alien might leak to the world. A good example is Boas’ account of 22 February 1958, some two decades before the appearance of holographic paper:

“ For all (five) members of the crew wore, at breast level, a sort of round red shield of the size of a slice of pineapple, which from time to time gave off luminous reflections. There were no lights from the shields themselves, but reflections like those of the pieces of red glass that are above the rear-lights of automobiles, which reflect the headlights of another car just as though they contained lights themselves\*\*. The Messages of Eugenio Siragusa - nuclear experiments - have put in alarm the inhabitants of other planets”

*ELOHIM A Quiet Invasion By Eris Andys*

\* Antonio Villas Boas see *THE SHROUD OF TURIN IS REAL*

\*\* Read *A LIFETIME DEAL* by Judy Clarke, whose “followers” have this red glow to the eyes. And google “Alien grey in the Baby Monitor” adding that I was actually on the phone with Judy when she saw this grey at the window of her mother’s next door duplex unit and this [Elohim] grey was there for over an hour. She and her little dog went outside while talking with me on the phone and the grey seemed to just disappear (became invisible).

The little dog ran over sniffing around and was later taken quite ill. The method used by some greys to become invisible includes electro magnetic resonance with very high sonic frequencies, something like a micro-wave.

caught using phone camera of baby monitor

[beforeitsnews.com/beyond-science/2013/03/alien-caught-on-baby-monitor-peeking-ir](http://beforeitsnews.com/beyond-science/2013/03/alien-caught-on-baby-monitor-peeking-ir)

What to say!

For those who go for photo shopping – do you see the reflection of its redness up on the window?

Who would think to do that?

I was on the phone with Judy while this was happening, that grey was there for a bit over an hour.

Even though Judy said ‘radiation’ she actually knows what really was the cause of the dog’s illness – the greys use a sonic shield when they want to be invisible – which it did as soon as Judy went outside.

Time is the only medicine for the little dog being affected by ultra sonic waves (whether high or extra low) - and what Judy has not stated is that she has been an abductee since she was a little child, and has written books regarding the matter. *A LIFETIME DEAL* is one of the books – but she did not want to “plug” the book for fear of nay sayers saying she was just plugging a book.

The more interesting thing she DID NOT say, is that when she turned the light on – the eyes of that grey got a red spot – and you CAN see this in the second photo as a reflection on the window too. I was on the phone talking with her when she went outside, and all I can say – is that my courage would have long disappeared – pretty much keeping me inside the house.

Noting that Auril is spelt *apuril* and Mai is spelt *May* with June spelt *luig* *sixth bright celestial light* can mean either a planet or a star.

The sixth planet inwards is Mars, not so bright. Sixth planet outwards is Saturn – but if an asteroid is coming from the direction of a planet, one would need to know *when* to see where that planet is. Nostradamus did say “by fixed stars” so the direction of this asteroid is from the sixth brightest star in the heavens. Trouble is there are several opinions on this too.

Vega/Capella/RIGEL/Canopus

*Then a monster will be born of a very hideous beast:* this is saying that an asteroid is carried (moved) by Nibiru.

The months mentioned are the “passing over” of Nibiru and are the same as those in the “letters in F.I.S.H.” in 2 5

The consistency of the message within lines never ceases to amaze me. Not just that they will use any one of the three "triple method" codes saying the same thing within one line (best example is the October date we have seen) but also the subject. There are two Condoleezza Rice lines which point to the grooming of her & and the platform upon which she becomes the "final president". One line says "oceans issuance" - the issue of the dead ocean (as if she can really do anything about radioactive seas) and the other tells us "penguin percent". We know it is Condo Rice because there is that text which tells us "of the longer name"

sad Nightingale: the singer of sad tunes (the verses of quatrains) renews her anguish the key word here is "renews" the anguish of the original quatrains [when she was another incarnation] when turned into their hidden texts... There is a large number of hidden texts asking the collator to "remember" these things, and one such line is in THE PROLOGUE making her days shorter: quite so sitting at the computer for many years [means of small windows] will she accomplish it...

the cloth already woven: also true - the Destination already set and the options have been taken.

By means of small windows One simply has to raise one's eyebrows at this - without Windows the computer program and its smaller windows the accomplishment would be nil - the research simply not possible and time of course - not long enough! Just another piece of evidence saying Nostradamus did not do these works all on his own with his plume and ink and candles in a mini ice age.

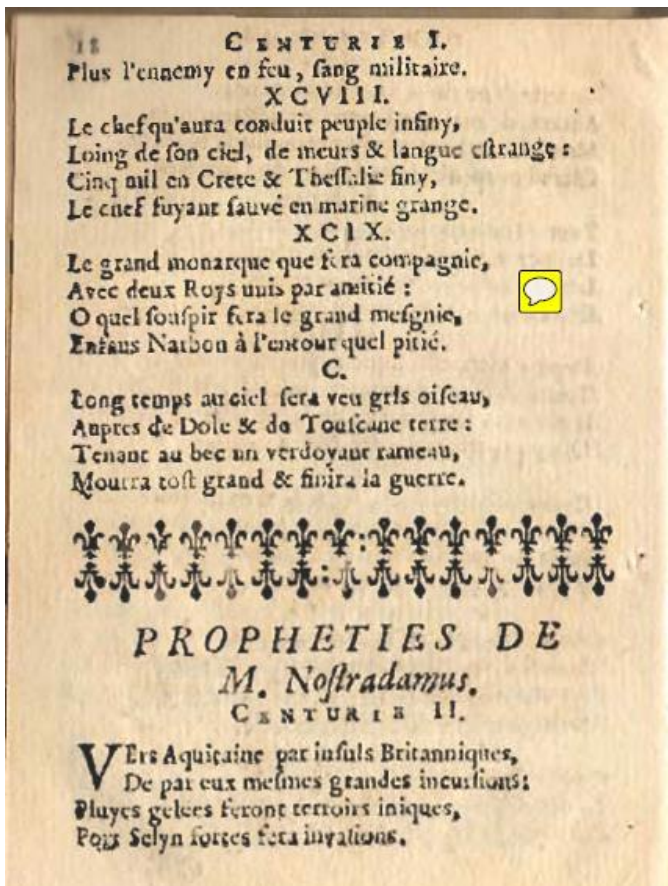

6:5 as you know, the SAMAROBRIN is the SAAM, RIB, ON & R (Draco) the "insane four" (see in "AUSTRALIE) arriving for the "second coming" of the Mazzaroth. (see TRAIN DANGER & The SECOND COMING

The very same of which the four "air vents" of the Giza pyre amid are pointers to!

Now we can see what 1 40 3 meant "one assigned to study Egyptian history" with Nostradamus having disappeared for around six years some say and eleven years others say.

That which is described in line three of 6:5 as SAMAROBRIN - ONE HUNDRED LEAGUES ABOVE which is a pun on how many there are and where from (above) as well as how high above they are hovering. Three hundred miles.

Here is something to take note of

These Fleur de Lys at the conclusion of CENTURIE I

There are eight then a full colon followed by seven  
Then there are seven, a full colon followed by eight  
all together thirty

Do these need to be formatted into a 3D version like  
crop circles do?

We have been learning that the Fleur de Lys means  
electro-magnetism – do these numbers mean anything in  
the electrical field of study?

We have learned that the colon indicates "ditrochee"  
that is, to divide the parts in that line (metre foot),  
making four parts

Can this be translated to music?

The Eloim use numbers which relate to "5". Best example is the 10 Commandments. Very occasionally we will see a twelve that stems from Enki who is now with the Eloim, and one example of that being the TWELVE CENTURIES of Nostradamus. This is what was meant with the quatrain (and forum) "Numbers speaking to the lady".*

*For the Anakim - five is an "unlucky" number. That is why it was the Eloim who added five days to our former 360 day year in 705BC, and why the Anakim-run Mayans called them "unlucky days" under Quetzal.Coatl/YHWH/Ruach/Enlil-'solid spirit'.*

"ANOMALOUS VORTEXES OF THE TERRESTRIAL GRAVITATION"

In force to as there and having communicated about the unsteadiness of the planet on the impermanent brittleness of the ring, must itemize you as I approach: to part the abiding danger of the escape without return of the magnetic axis of the geoid, already to his time itemized, throngs of notables starts in the gravitational force of your planet exist. Such starts act on the equilibriums cohesion of the subject with consequences not inconsiderable, either on the structures you enslave to the gravitational constant, or also on the equilibrium psychic-physical of the live beings.

The subject in kind, gerrymandered or minus, invested from a flow more good or of small gravitational force, fatally it suffers of the modifications of stability also disintegrating. There we have told and we repeat you it still once: the experiments nuclear and as other on templates to upset the Law of the *Onnicreante Force*, they there will bring in a blind alley without any hope of exit.

**The next events will give you the exact measure of your irresponsibility and of your cynicism.**

HoRa greets".

Nicolosi, August 6, 1985 At 9.35 Hours

What the extraterrestrials have told to Eugenio Siragusa

"Bursts of atomic bombs in the subsoil"

The scientist extraterrestrial HoRa explains:

Such experiments are not less deleterious than those effected in the atmosphere.

The waves of bump can seriously decompose the normal stasis of the cope magma on which rest the terrestrial crust.

The consequences are been able to perceive easily.

You, earthlings, consider your planet like a ball from ping pong.

You don't hold account of his nature at all and of the its demands cosmological.

Your planet, like all the others broadcast in the cosmos, alive in operation of one specific equilibrium that you would should already know.

Your habitat tied indissoluble to a his precise function that you don't can nor ignore if you don't want his essential equilibrium to come minus the, with unimaginable effects catastrophics.

You are really and obstinately against the life and against all that vitalizes it and renders it healthy and fecund. Peace on the Earth.

Through Eugenio Siragusa, HoRa greets

Nicolosi, October 25, 1984 - At 15:00 Hours

The 30 JULY 1963

THE EXTRATERRESTRIALS ACROSS EUGENIO SIRAGUSA HAD TOLD:

The deadly effects of the experiments nuclear cellars will change, between not much, the face of your planet if the men responsible they won't put them sudden to the proclamation. You, terrestrial scientists, not imagine vaguely what not even you have already built and what you still intend of build with your foolish craze of the atomic science.

If the Earth has trembled and will continue to tremble with so much destructive violence, the guilt is chiefly your, of the your cynic pride, of the your unaware barren science of control that ignores all the disastrous effects caused from the bursts of the nuclear in the cellar on the bulk burning-cosmic of your planet that any constitutes the kernel.

The actual disasters, that have harvested a considerable number of innocent victims already, are well few thing as compare to those that fatally must wait for you in a very next time to come. Complete continents could be shattered from the terrible enormous force of the elements burning-cosmic that with as much adolescent boldness has upset and envoy in as dangerous nervousness. There we tell still: nobody, and not even we, could do anything for change the tragic situation in which you there are outcast. The only thing that you could do for remedy is that of stop each type of experiment immediately nuclear, in special way of those cellars if you in the future will avoid subsequent, bad and irreparable destructions.

In the past, like in the present, we have done and we continue to do the possible for embank the effects equally killer of the "atomic retina" errant in your atmosphere. The cinders are abundant and are a great deal frequent meet them. But these radioactive leavings has destined to have counteracted if the men of science, and above all of government, they will maintain the appointments engaged in the recent treatise that forbid subsequent atomic experiments, are in surface that in tall quota. It is not as for the subterranean experiments. We could not attend, we could not do anything. The effects that have developed should becoming exhausted from oneself and as also the slow recession of the waves that shakes the bulk burning-cosmic, until they won't find again the them natural sag.

We and all the souls of the universe we there will thank if, with a sense of human comprehension, you will know tell no to the uncontrollable force that you have violent untidily. All the yours similar and we same we there will tell "thank you" if you will stay and not you will feed beyond the enormous force reagent of the elements burning-cosmic of the Earth, after have them disturbed in their order creative. Still once there point out.

## WARNING OF THE EXTRATERRESTRIALS PILOTS TO THE CIVIC AND MILITARY PILOTS

of all the nations of the Earth

We believe opportune communicate you that our spatial carriers that you earthlings calls Flying Disks, have moved by a powerful fluctuating energy, unknown by you and by the scientists of your planet.

There we exhort, friendly, for your safety and for the certainty of the passengers that you carry with the yours airplanes, of don't exceed in the curiosity, and of avoid absolutely, of chase us and of put you on our wake of flight.

Chiefly we address the blind sense of irresponsibility of the men provosts to the command of the military airplanes person in charge of intercept our spatial means, of approach them most possible for photograph them or demolish them. We exhort also you, dear brothers, to don't do it for your good and for our calm of conscience. We become notice well gladly and with all the necessary heeds, but you don't do likewise and, often, the your absurd zeal procures you serious and deadly accidents.

To part the fact that our means could achieve speed for you impossible and inconceivable, the yours arms, any they are, they won't can ever affect on the absolute certainty of our means, neither could put in danger our existences.

It is instead extremely dangerous for you and for your airplanes channel you in the wake of our spatial means in navigation.

You know, and they know your scientists, that our means travels in the absolute void also and to the speed of the light using the same energy that consents to the celestial bodies, inclusive the planets of the Solar System, to remain in the cosmic space in a perfect state anti-gravitational respects to the other planets.

Still you, and in distinctive way your scientists, you don't know the enormous energy that impends the zones until today explore from your artful satellites. The imprisonment and the enslavement of this energy are for us possible and easily feasible thank to special apparatuses that we consent this operation, already since many millenniums. Additionally this energy comes from us tabloid to our desire and according to the voltage of required projection from the circumstances.

The push of projection of our spatial means is then adjustable, and we bring it to the extreme limits when we meet with your apparatuses, for these two principal motives:

Consentire to your visual power of observe us and to your intelligence of deduce.

Avoid most possible the widening of the energetic halo with the intention of annul a contingent clash of him with your airplanes.

But it often happens that you address your airplanes on our means forcing us to accelerate the push of projection and, then, the adjunct widening of the halo of the fluctuating energy.

From that bear serious eventualities that could induce you in extremely dangerous situations and also deadly. Invest the cinder of energy also still in a relative state of condensation, that comes left from the our means, it involve for your airplanes complete breakup and then the your sure death. Therefore we there invite, with brotherly love, to don't risk you with insensibility to such enterprises, and we there exhort, with spiritual affection, to cheer you of our meetings, as like us cheer us of it, with calm and peace in heart.

We want only help you to incite you to do you understand our conscience and the our Holy Mission of Well Universal and of Divine Truth.

We build the ideal presuppositions for the Saint Advent of the Celestial Justice for Holy Wish of God.

We streak from you on the Earth animated from your Saint Love and from the your Sacred Laws. Reform you! You pay attention and counseled.

This we there have communicated through our mind on the Earth for point out you and render you awake. The Peace and the Calm is on you and on all the humanity.

## FROM THE EXTRATERRESTRIALS

In faith Eugenio Siragusa

June 18, 1963 Listen well and pay attention to what I tell you:

Men have to correct themselves. With humble petitions they have to ask forgiveness for the sins committed and those they could commit. You want me to give you a sign, so that every one will accept My Words, which I say through you to mankind. You have seen the Miracle of the Sun, and all, believers, non-believers, farmers, city dwellers, wise men, reporters, lays, clergymen, they all have seen it. And now proclaim in My Name:

A great punishment will fall on mankind; not today, not tomorrow, but in the second half of the XX Century. I already revealed it to the children Melania and Massimino, at "La Salette", and today I repeat it to you because mankind has sinned and trod upon the gift that I had given.

There is no order in any part of the world, and Satan rules in the highest positions, establishing the course of things.

He will effectively succeed in getting to the top of the Church; he will succeed in seducing the souls of great scientists who invent arms, with which it will be possible to destroy a great part of mankind in a few minutes.

He will have in his power the powerful who rule the peoples and he will incite them to build enormous quantities of those arms.

And, if mankind should not object to it, I will be forced to set My Son's Arm free.

Then you will see that God will punish men with greater severity than He ever did with the flood.

The time of times and the end of all ends will come, if mankind is not converted; and if all should stay as it is now, or worse, should it worsen even more, the great and the powerful will perish with the small and the weak. The time of great trials will also come for the Church. Cardinals will oppose Cardinals, bishops will oppose bishops, Satan will march among them, and there will be changes in Rome. That which is rotten will fall, and that which fall will never rise again. The Church will be darkened, and the world will be overturned by terror. The time will come that no King, Emperor, Cardinal or bishop awaits Him who still has to come, but to punish according to the plans of my Father.

A big war will break out in the second half of the XX Century. Fire and smoke will fall from the Sky, the waters of the oceans will become steam, and the foam will rise, overturning and sinking everything. Millions and millions of men will perish from hour to hour and those who are still alive will envy the dead. Whichever way one turns to look, there will be anguish, poverty, ruins in all the cities. Do you see? The time comes nearer and the abyss widens without hope. The good will perish with the wicked, the great with the small, the Princes of the Church with their believers, and the rulers with their peoples. There will be death everywhere due to the mistakes made by the senseless and the followers of Satan who then, and only then, will rule the world; lastly, those who survive all happenings and are still alive, will proclaim again God and His Glory, and will serve Him as before when the world was not so perverted.

Go my little one, and proclaim it. For that purpose I will be always at your side to help you".

FRAUDFUL AGREEMENT INFERNALLY DEGRADES [Earth] this is Treaty Nine due this year.

The fraudulent clauses have been published frequently, plus I have been asked to publish the *J-ROD45 & TREATY 9* forum,

which I will after this one. The clauses concern "trade in men" for (useless) technology (dangerous to the Earth).

AS (while) FERTILE DEFRAUDER FULLY GANGRENED MAN

"fertile defrauder" means the likes of Monsanto, and we saw recently a line about "gangrened DNA".

**ALERT: U.N. FRAMED LARGE FEARFUL TRADES** - END ING -

Ing means the harvest, being "caught up" taken to be eaten "feet first"
