

TO The Lessins – salutations: from the collator of the Hidden Texts...
 This seems just the beginning of certain "directions" to both of you.
 When the Elohim want something repaired, they do not mince words and sometimes it can be received in a hurtful fashion. I know this personally (this was why there were ten more pages of directions to the collator, than there were to Alan Webber, the collator being the one more likely to make [many] mistakes)...
 Please do not be offended by their manner and use of words!
 Please do attempt to repair what they ask you to 'fix', your task is not only that you are educating the people who "have the ears to hear".
 These lines found (so far) in the Leonardo forum are not in numerical order, but instead an attempt has been made at an order of events.

Hafnium A lustrous, silvery gray, [tetravalent transition metal](#), hafnium chemically resembles [zirconium](#) and is found in zirconium [minerals](#). The penultimate [stable isotope](#) element to be discovered ([rhenium](#) was identified two years later). Hafnium is named after *Hafnia*, the [Latin](#) name for [Copenhagen](#), where it was discovered.^[2]

Hafnium is used in filaments and electrodes. Some [semiconductor](#) fabrication processes use its oxide for [integrated circuits](#) at 45 nm and smaller feature lengths. Some [superalloys](#) used for special applications [space craft] contain hafnium in combination with [niobium](#), [titanium](#), or [tungsten](#).

Hafnium's large [neutron capture](#) cross-section makes it a good material for [neutron](#) absorption in [control rods](#)

 The subject of the mysterious “Hero” which in other lines was “Hero Ehuua [moves the Earth]” who seems to be with the Elohim which includes E.Yah/Enki, may be the one which needs repairing amongst the family tree of the Anun.naki authored by Prof. Sasha. The entity which visited Aleister Crowley and subsequently named “Aiwaz” by Crowley may have been the same Ehwas of the Elohim. The one called Aiwaz may have been *pretending* to be Ehwas. The visit of April 1904 which resulted in the Law of One and which Crowley seems to have twisted to suit his own agenda according to the un-numbered quatrain

our current money "system" put in place by the AskheNazi/Zionist, with the warning to get away from this system

- from reading all of this in relation to something the Lessins have published – there are two hints which came to my mind – the words “Igigi” and “Utu”... *I am asking which it is?? See ANSWER below*
 - Other lines point to Utu being a “Hero” (such as Osiris) and the Igigi being a *form of* grey or He-Rod (J-Rod).
 - The word “hero” is not just a literal description, it also refers to Sagitta Constellation, the “Bowman” which sits just before Capricorn, so it can mean that as a date too, or it can refer to those who *come from* there.
 - The request made here to have this detail (what ever it is) repaired is not just a case of semantics for some reason we are not yet aware of. We may never become aware of what the problem created by this “graph” may be.
- Whatever the consequences of this problem they need to be stemmed, and this is what this is all about.**

YA FEEL "UTU" CONTRADICTIONARY, ¶ Elohim/_EYE UTU Af CONTRADICTIONARY

ANUN.NAKI by prof. Sasha Lessin, Ph.D. (Anthropology, U.C.L.A.)

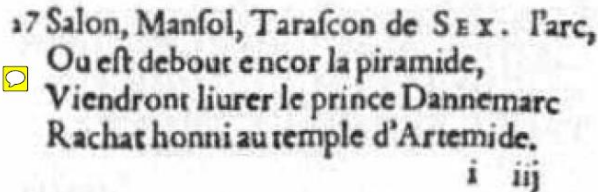

After reading this thesis, the collator could not see the 'contradiction' other than possibly the reference to "SIN" who is also "Shin" as an alternate name for Utu the Hero. Or maybe that Utu is Shamesh. As a "Hero" he will be shown in the stance of a "Hero" and this stance is shown in a wall relief attributed to Ea with the river of Erid.anus flowing over his head and the fishes of Form Al Haut within it and a young animal is at his feet. Somewhere I did read that SIN is an alternative and one of the "fifty" names of Marduk.

As everyone knows, one can read anything anywhere on the internet and take a pinch of salt with it. When the Cassiopeians or Elohim use the word “FEEL” it has always held weight throughout these hidden texts. Such as *FEEL MIRACLES REFLECTED 2012* when the Earth had been moved out of the way of the two asteroids for December 13 2012 – St. Lucy’s Day.

Ok, this is telling Glenn Bogue (author of many books) to not lump E.Yah/Enki into the same category as those from Leech constellation (which is just over the top of the head of Orion) from where come certain Anakim.

Vignette shows the "band" of the Milky Way on its side, this means the Earth is on her side because it is our view.

Band also means in Pisces. Note the band/age under the maned one (this is explained in *LEONARDO & ENKI*)

Ursa the bear has a grip on the book, the mane could indicate Leo/ Berenices (hair of the Lion's tail)

Crown also means in Libra. Coronet means Prince, which is Sirius. The long hair also means those from Cassiopeia

And the FACE is in Scorpio or the first ten days of any zodiac sign mentioned.

Time is folded back, many folds in the banner of the Milky Way, meaning this is the view *from* Earth

In Pisces or from Pisces (in the south)

The archer is Sagitta the Hero, (see '*Hero Moves the Earth*') just before Capricorn - when Earth comes to rest -

ORDINARY [human] PRINCE PROMPTLY PRAISED YEAR E.D. R.O. RIP TYRANNIC RED LEO LORD'S ELITE PIMPS in 'P' date
 - "P" is Pillar, was December 23 but add 3 days.

"Ordinary" prince is either Prince Will.i.am Arthur whose date of birth had to be the June solstice (sun stands still)
 which was June 21 at the time. This was a date of ritual arranged by those who believe in sourcing certain powers
 even to the point of inducing Princess Diana in order for her to give birth on that day. The Elohim have stayed ahead
 of this luciferian ritual by changing the number of days in our year!

At the moment we have 377 days, noting that they waited until after prince George was born to do this!

(Prince **George of Cambridge**. Born July 22 2013 which is not an equinox or a solstice)

"The URL is "The Dark Visitor"—a facetious reference to Nibiru, I would imagine. (From Marc DiGuissepe:

" It was an assertion by an astronomer that something had affected the Earth's orbit at the time that ISON was a big
 deal and he calculated that, for this year, the Earth would have a 377-day orbit. Here is the Link:

The "unhinged Alcyone" of the Pleiades have become pawns of the Ursa Major Anakim.

The subject of the mysterious "Hero" which in other lines was "Hero Ehuuas [moves the Earth]" who seems to be with the Elohim which includes E.Yah/Enki, may be the one which needs repairing amongst the family tree of the Anun.naki authored by Prof. Sasha. The entity which visited Aleister Crowley and subsequently named "Aiwaz" by Crowley may have been the same Ehwas of the Elohim. The one called **Aiwaz may have been pretending to be** Ehwas. The visit of April 1904 which resulted in the *Law of One* and which Crowley seems to have twisted to suit his own agenda according to the un-numbered quatrain... This "hero" may be the He Rod, the same J-Rod which turned up at Roswell and was so different to the dead occupants of that craft. He may have arrived there using a time gate and almost matyring himself in the process. The illustration drawn by Crowley did show a very different set of facial features to J-Rod52 of Dr Dan Burisch. Nostradamus called his assistant in his time gate "Uuilliem52".

According to Nostradamus these J-Rod52 are domiciled at the small constellation which has worn the names of Apis (the bee), Musca (the fly), and Vespa (the wasp) which can be seen on the door lintel of Seti I at Abydos.

This constellation has now become Aries. In the vignettes there appears a peacock - Pavo, which can be synonymous with the constellations named above. The only difference being that the Aries is a triangle of stars and Pavo a "U" using an extra nearby star, wearing the sky rune of Uruz.

In one way, this could be taken as a 'cup' or graal/goblet, minus handles.

The stance of the Hero is to be seen in a wall frieze in which people say the man standing with one leg up is Ea/Enki, because there is a flow of water over his head in which are some fish. This is the stance of the Hero, and the river is Erid.anus, with the fish being those of Form Al Hault. There is a young ovine animal at his foot.
