

WAS LEONARDO AN INCARNATION OF EN.KI-E.YAH?

for quick searches such as "find Bogue" or a quatrain number '9 45 2' just press "Ctrl + F" & type in 'bogue' or '9 45 2'

As usual nothing was normal regarding the *manner* of having to collate a forum regarding Leonardo Da Vinci. If it had not been for Janet Lessin of "Enki Speaks" this forum would not have been made imperative. First in passing Janet mentions that Ea/Enki 'was' Da Vinci, and at the time this came up in conversation it had not appeared in these texts. So, full of doubt the name "Leonardo" quickly became subject of a thorough search. The result was another one of those strange 'angiopressure' events which the Doctor (Nostradamus) himself describes in two lines which are here.

See 5 44 1 and 1 38 4, use Control+F "5 44 1".

"Yes, you may add that I gave you that information. The researcher who pointed me on the right track, that Enki had incarnated (or appeared) as various artists throughout time to give us clues came from Glenn Bogue^{9:45:2}. Once you realize that is true, look at which artists are leaving us important clues and you can follow where Enki appeared or popped in, or whatever it was he did to give us these very important clues".^{Date:} Sat, 18 Oct 14 janetlessin@gmail.com

In the recent couple of weeks leading up to Halloween of 2014, directives have been blasted my way – first that the Oannes forum was "slow out" then to go back to former collections of the Stargate lines and get that forum rolling, at the same time asking me to finish the "opaque traders" lines (J-Rod45 & Treaty 9) amongst which directives this [Leonardo] one here was forced to my attention simply because of a conversation with Janet Lessin. Some people might say that this "is the universe talking". One other request was related to getting part of the *Sasar Free Energy* collection published in amongst all of this, which has been done. The highest priority then is the Treaty 9 forum.

HAUL/abduct* ANARCHIC/Jesse VENTURA. This explains much that seemed anomalous in previous *Jesse Ventura* lines. We have already been told the BOLSHY (Russians) have the Eloim backing them, and now the real Ventura!

*The division into "boundaries" between most Off Worlders (such as the dog faced Perseids limited to South America *these days*) and the repellence of scout ships of the Elohim using the H.A.A.R.P radar does not seem to apply to the Cassiopeian craft (orbs and cubes), since David Huggins and Linda Porter on the opposite sides of the United States of Amerika are long-time abductees. The reason is simple – the orbs and cubes use time gates and not the propulsion of the scout craft, which on occasion in the past have been able to disarm nuclear warheads – noticing that this has been accomplished while these missiles are in a naval aircraft and not *touching ground* at the time.

The 2014 clause is for "trade in men" ...*J-ROD45 & TREATY9* has not been published yet. Quite apart from the evidence put forward in *SHARS Of NIBIRU & The MISSING 324 YEARS* the other outside peripheral evidence is that the *SHROUD IS REAL* which can be shown when the C14 dating is found to be faulty by 700+ years due to bacterial encapsulation, adding the 324 missing years to this then gives us the absent millenium in the true aging of the Shroud.

 FEMALE GREYS there are a couple of differing ‘greys’, the synthetic females of the Elohim or the Mantric also of the Elohim.
 The word “Set” sometimes meaning “Seth” has received bad publicity over the centuries due to the Incubus and Succubus episodes which ordinary folk have ‘suffered’. The relationship between ‘demons’ and ‘Set’ so long established without people knowing the why of it, which is to contribute to the never ending ongoing improvement of humans as a species.

In the Celtic Zodiac G: is a Monday G: is also Celt Ivy September 30 – October 27 and the runic “G” is Gera – planting seeds and waiting for them to come to fruition with runic “G” also as Gebo – a “gift” created by a partnership! E = Sept equinox:
 The former *YELLOWSTONE* dates, which do not seem to have occurred. The equinoxes (equal daylight equal night) are now altered in the date due to our orbit being 377 days and no longer 365 days, the same for the sol.stices (sol = sun, stice = standing still) the longest and the shortest days are in like manner now a different date making any magick or satanic rites null and void if performed on the former obsolete dates. The moving and repair of Stonehenge in the 1950’s would have had the placements according to a 365 day year, and they are also now incorrect. In 705BC the year changed from a 360 day to a 365 day year begging the question *for the reason* Stonehenge needed “repair” in the 1950’s.

Our year now has an extra 12 days, which is convenient for those who will be working with the new calendar of an extra day in each month. It would be interesting to see if the alignments of the mud-buried Gobekli Tepi were different for those times too. I say ‘mud buried’ because of the Greatest inundation of *Noah’s* flood was in 9,500BC – 9,200BC, which date fits.

http://www.oocities.org/br/kikolivros/new_earth_orbit.htm

And here is the formula these guys use:

<http://www.telescope.org/nuffield/pas/solar/solar7.html>

Distances in all graphs are measured in Astronomical Units, AU. (1 AU is the earth's separation from the sun.) The orbit graph shown above should appear approximately circular, but the new orbit is more elliptical than the current orbit. The lower section of the new orbit graph shows that the earth will go further from the sun (to 1.11AU at apogee). The upper section shows that it will also approach the sun more closely than it currently does. This closer approach occurs during summer of the **Southern Hemisphere**. Consequently, summers there will be hotter and the concurrent Northern winters will be milder. During summer of the Northern Hemisphere, the earth will be further from the sun and colder. It may seem strange, but these **milder winters and cooler summers in the US and Europe are a terrible curse, as will be realised.**

“Because the Southern Hemisphere is mainly ocean, the main effect of the increased solar heating in their summers will be to greatly increase evaporation from the southern oceans. Thick clouds will cover most of the earth during this “closer to the sun” part of the new orbit. The mild winters in the Northern Hemisphere and these constantly cloudy skies will produce frequent heavy snows, much like the great snowstorms that now occasionally occur in the late winter or early spring under similar conditions. The accumulated snow will not entirely melt in the cold summers that follow. Each year, more snow will accumulate. As snow and ice accumulate on land, the ocean levels will drop. In approximately one decade, all of the world's ports will be useless - too far from the sea as oceans begin to vacate the continental shelf.

This economic disaster is just the beginning of mankind's troubles.

As the snow accumulates, earth's albedo increases and more sunlight is reflected back into space. Thus less snow melts every summer and the region of permanent snow cover moves further south each year. **The lower layers of snow turn into ice.** These glaciers merge into a continental ice sheet, first in the more northern regions, but by 2025, Washington DC will be buried under approximately 100 feet of accumulated snow and ice. In less than 100 years, Europe and all of the USA, with the possible exception of the southern tip of Florida, will be in the grip of a **new ice age.**”

The texts said the equinox would see an event at Yellowstone (most like gaseous) but the equinox is now the 26th this year (1690/2014) because we have a 377 day orbit at the moment, and growing from now on - then a large event later leaving a 280 mile caldera at night time lasting from Halloween until Yule. (The 2015 event?) There were three lines naming October 11 regarding an episode at Yellowstone, in which nothing *seems* to have happened for 2014. Maybe they mean the *real* 2014? Yet that is another 324 years away and Yellowstone seems too active to wait another three centuries.

PRETERITION IN ORNATE October **LINE**

PRETERITION the act of mentioning a subject by saying it was omitted, thereby not omitting it (see "Mars explosion")
Here a really pertinent question is going to be asked – all throughout the Yellowstone forum the dates of the September Equinox (which is now three days later, around the 24th) and that of October 11 (which had three lines stating this day, and on a Friday night into Saturday) for an event followed by a major event the week of Halloween, which also lags a day or two due to our new orbit of 377 days. As this is being written the date is October 31 2014. According to the above information the main event is going to be "postponed". Since the exact day for the Japan Nuclear accident was stated, the exact day for the BP Mexico Gulf Oil Spill and the exact date for Hurricane Sandy was also correctly supplied, there was no reason to think the date of Halloween for Yellowstone would not come true. There are other forums which had hints at this postponement, one is in an unnumbered quatrain and one was in the Monstre D'Abvs manuscript:

before in comparing the contradictions between the Epistle and the Preface to Cesar. The dates in the Epistle are Centuries and quatrain/Sixaine numbers. But the main topic here is that part of the Epistle which speaks about October. First, let me point out that the word SHIN as a zodiac body part means two, one is in Libra (the Chinese nerve centers) and the other means in Capricorn/Aquarius (shin bones). The "I" is also ambiguous, being "Yew Tree" date which for us means both periods! Halloween/Samhain is also Yew tree date and the eve of the winter solstice, which is now moved, also means Yew Tree date! What used to be December 18/19/20 becomes three days later – in Capricorn!

Notice "NIGH RISEN" which means almost risen.

In the spring there will be omens, and thereafter extreme changes, reversals of realms and mighty earthquakes. **These will be accompanied by the procreation of the new Babylon, miserable daughter enlarged via the abomination of the first holocaust**".

According to this prognostication – the time traveller Nostradamus has told us that the great *sack cloth* event (of the Nemesis-Nibiru pass-over between Earth and our sun) which the bible says will last around 30 hours (some say three days) will be "April's song" in 2015, preceded by DIM *TEMPLATE REED/DEER (Capricorn) DATE.* & followed by great earthquaking events leading up to supervolcanoes going off between – with at least two of them happening at the same time, (at night time in other lines) **this would cause the Earth to stagger, easily giving the impression she has "lost her gravity".** The word "translation" is one which in geological terms means "moving earth".

Not caring about expense none will have provided for it (Cheetham)

This Eclipse is the days of 'sack cloth' and « all colours will be the same » (da Vinci)

caused by Nibiru, and this monster is Nibiru or Nemesis the dwarf star

Not caring about expense none will have provided for it is interesting. Those who have the means to "not care about expense" (sometimes called the 'elite') are placed in the same sentence as those which did NOT provide for it!

from *IS, CAN BE, 7 CONDUITS*

FOR some time there has been a choice of what it is which causes the “sack cloth of total blackness” in the bible...

here it is telling us that it is not the only the Nibiru solar system causing a great eclipse – it is the trip of earth being sent out of harm's way of our sun turning “bronze” (Presage January 3) very likely kick started by the passing of Nibiru. This results in our sun becoming so small that mercury can eclipse it (In 4 29) and see *A.D. ENDS (2016)*

10 51 2 *FALSE RAPTURE* (the one with the sack cloth sun) from ALLEMAIGNES:

horse white June 10 - July 7 horse black Nov 24 - Dec 22 horse pale red Oct 28 - Nov 24 horses Sept 30 - October 27

10 72 also refers to this Han/Hun, the king of fear. We need to keep in mind the words “as above, so below” and Nostradamus makes use of this as an ‘alchemy’ (dark and hidden) cipher. This removing of the light seems to me to refer to the huge and persistent eclipse which will be caused by the passing of the Nibiru solar system between Earth and our sun. The Biblical sack cloth *hostera* - one of the famous double edged words – the Latin *hos* meaning ‘this’ or ‘these’ and *ter* meaning three times.

There is the pun of ‘tera’ in there meaning the *Earth* and if you like, *terror*.

There is *Host era*, finally in Fr. ‘hos’ ‘have’ *tera* ‘third time’

These are the three “eclipses” seen in the vignette of the Lost Book of Cesar de Nostredame, the three days of darkness

from UNDER 1559 (add 458 becomes 2017) ...

<http://healthimpactnews.com/2014/flu-vaccine-is-the-most-dangerous-vaccine-in-the-united-states-based-on-settled-cases-for-injuries/>

The last report issued in 2013 by the Department of Justice (Vaccine Court), for compensation made by the Health and Human Services for people injured or killed by vaccines, was released in December 2013, covering the period of 8/16/2013 through 11/15/2013. The report is available as a [Power Point presentation here](#).

There were 139 claims settled during this time period, with 70 of them being compensated. So, just over 50% of the claims filed for vaccine damages were compensated during this period.

Once again, the greatest percentage of damages compensated were for the influenza vaccine, and most of those were for Guillain-Barré Syndrome (GBS). Yet these facts, tucked away in a file on the Department of Health and Human Services website, are never reported in the mainstream media. So we will report them here. You can also read the report yourself in the [Power Point file here](#).

Of the 70 cases compensated, 42 of them were for the flu vaccine, or 60% of the cases settled where compensation was awarded for injury or death due to the vaccine. The combined total of the other 40% of cases settled included the following vaccines: Hep B, Tetanus, HPV, DTaP, MMR, IPV, PCV, Hib, Meningococcal, Varicella, TD. So injuries and deaths due to the flu vaccine were compensated more than the total compensation paid out to eleven other vaccines. Yet, if you look at the top selling vaccines in the market, the top flu vaccine is only #5, being outsold by Prevnar, Gardasil, PENTAct-HIB, and Infanrix/Pediarix. (Source.)

The pun on *Barbaric* is a direct reference to the Khazars, the banksters. The madness of the false flag of 9/11 changes laws

but this can also refer to the madness of removing 324 years between July 676AD and 1,000AD taking us into 2014 before

it really is 2014. This is the [date](#) written in the bad clause of Treaty 9 which comes due November 8 2014, but we are still

in 1690, therefore this is a loophole we could take advantage of and these texts say Michael Tellingier is the one to do this.

The LESSER SEAL could be in relation to the duodenum problem, or a Seal in Revelation. Noting the 'nefer' seen in hieroglyphs with *one* chanterelle means the Anu, with two means those from Lyra (Lute)

1 17 4 *Et grands deluges quand fera aperceu. Par*

Line 4: *aperceu*. as "*apesanteur*" it means weightlessness as *aperçu* it means insight or overview, which is not in context. *apercevoir* is to perceive. APER.CEU in latin says "as if it were fish food" – could this be a hint at the end of the age of the "fish" that is: the end of the age of Christ – A.D. Or it is a direct reference to "being fish food for the Oannes"...

LAX LEVERS: cartilage failure in the Giant's duodenum

or that being "AFIRE" is the lesser problem

This line also can be read as "great hordes of E.T. when perceived (understood)" which I know is going to grow the hackles of most people who are still in the 'age' of Nostradamus – but, he has given direction to the collator to "take the hint" from the French words themselves...

UUHEEL IS APPROXIMATE = means such things as 'the equinox' is not exactly the day but can be a day either side and so on and that because of the 360 day year being made into a 365 day year in 705BC (say the Chinese) and now with our year being 377 days – these yearly pointers of solstices and equinoxes are merely "approximate" – **the repairs to Stonehenge** in the 1950's (for instance), would have been aligned to the then current 365 day year. Now, with a 377 day year, these alignments are out of whack and any "magickal" rites performed for optimum effect attempting to use these out of whack alignments would be a failure as a result. This includes all those "elite" ceremonies arranged around the great owl and ritual sacrifices. Thus sometimes the hand of the Elohim can be seen in operation right under our noses. How do I know it was the Elohim? The number '5' is thought 'unlucky' to the YHWH/Enlil faction (witness the Mayan Quetzal.Coatl/Enlil 'unlucky' extra five days in their year) so it was not the Anakim who arranged the larger orbit that time. Right at the moment now, our orbit is growing in line with our growing sun (see many forums with this message) and we do have an extra 12 days currently – which is still pointing to an [ex] Anakim – En.ki himself who is with the Elohim now. Ea – Enki – E.Yah began as an Anakim/Oannes. He is a green Oannes and now a Ra say these texts. Enki gave the 10 Commandments to Moses and the key clue is in the number TEN – the number favoured by the Elohim. The Anakim favour the number 12, yet on occasions the Elohim do use 12, such as the 12 Centuries of these texts. Albeit the final two were SIXAINES and not QUATRAINS. There is talk that Enki spent time as Da Vinci. Yes, there does happen to be two lines which say Da Vinci was "EUCHARISED" and part proof is that Da Vinci DID accommodate war engines.

Saying 'part' proof because there are two details pointing to Da Vinci's abhorrence of war – first that he engineered the 'turtle' with the second set of wheels moving against the first set so that it would never work, and second that he never

encoded these engineering diagrams as a secret, which he did with all his other valuable inventions. Meaning that he had provided what is called 'planned obsolescence' in those diagrams. We have seen in the forum *TRAIN DANGER & THE SECOND COMING* that Nostradamus also had depictions of himself pointing UP, and we have read in the *PREFACE to Cesar* the very first step to take in the enterprise of understanding the quatrains always using *astronomical & astrological* references, those from the Alchemy List of key words which also gives us the Runic Skies, and from the Triple Method, those of the Celtic Tree Zodiac. These provided knowledge of those from Leo, - Norma [Ro.man] formerly *Carpenter* Constellations.

The Voynich illustration has 8 segments and the crop circle has six. The Anakim use six. The encircled has an ‘atmosphere’ so must be the Earth therefore the larger body not being big enough to be our own sun must be the sun of Nibiru. The three smaller bodies - at a guess - being our moon and the two planetoids, one of which is that of the Cassiopeians (see *ICON*) and the other the Black Knight. These two are represented in the vignette with the cow supplicating to the empire with a queen’s head and a kin’s head suspended in the sky, Cassiopeia and Cepheus “King of kings” of 1 10. There are two of this vignette, one with a black cow and one with a white cow, one in the daytime and one in the dark. The cow is not a bull, there fore not Taurus. Recently I have been saying it means Aldebaran - those in alliances with Nazis under Antarctica, but in light of the recent line regarding Alcyone in the Pleiades being the human front for the Anakim, the cow seems to mean Alcyone, noting the word which means to *emasculatue*..

UFO CRASHES AROUND THE WORLD

In this picture can be seen one type of grey entity in the main. The one at the top of this shot is not the same as the others, having a different shaped head.

Just on the principle alone that their craft crashed in the United States and Mexico tells us there was something radically wrong with their craft there – rendering the question: why? What was so different about their space craft that brought them all down! **Since we know by what they do, that it is the negative entities behind the technology which brought them down, it leaves the answer that these dead ones are the positive or neutral [to us] entities**
