When thinking in terms of the Jesus Christ phenomenon – the word « Carpenter » refers to where he came from- or at least those who invented the principle of a saviour with only female mitochondria. Carpenter is the obsolete name for Norma [R.o.m.a.n] Constellation which is now Leo Minor. The person Jesus of Nazareth was a stone mason. At the time of Yeshua of Nazareth, trees were almost made extinct by Herod for his ships and temples, and only the wealthy built with wood.

- Now that we know who/what the 'mean art brute' is from the *Last Supper* painting by Da Vinci, the Lion creature wearing the baphomet icon. The 'ill bred' Arab refers to Allah.Lu. It simply cannot get any clearer than this. Those Leonine creatures from Chertan are involved with the Anakim Ala.lu/Lucifer and the Monsanto *et alia* agenda –“MANAGERS OF ALL” 6.59.3
- actually the wording in the texts is : **ABSOLUTE MANAGERS UP...** and see how Da Vinci has portrayed shape shifting ?

- and when we do 'cut out' the image of Jesus and examine the 'suave peripherals'- it clearly shows us a Lion with a Baphomet symbol on its chest. This is the hint at the Christ figure being an introduction by those of Leo: Marduk?
- It is not easy to envisage the Christ figure as an invention, with all his wisdom and teachings! It was all a *lure*.
One hint towards the Anakim being involved was the number twelve – disciples. The "elite" love eleven, just add Marduk!

* I want to start from the beginning, with the original "Dr Anderson Interviews", published in late 1998. Once the current version was published on the Internet, the original one was taken down. Luckily, there were people like former White House employee, Fred Burke (<http://www.wanttoknow.info/>), who had downloaded the whole original website and liked it so much that he created his own domain, <http://wingmakers.us>. Thus, the original site is still available to the public. www.illuminati-news.com. Wes Penre

And this is where, why and how it became infiltrated – by the shadow of the shadow "govern-ment"

The Praying Mantis Beings--depiction of the Founders They come from Argo which is a large constellation in that southern area of the night skies once called "the sea" which has all the nautical named stars. Argo consists of Canopus, Puppis the Poop deck which is what a cockerel seen in many places means - Vela the sails, Malus the mast, the Oars and Carina the keel. Argo is always depicted travelling stern first a pointer to travelling into the past...

Footnote/s

The reasons for the chemtrail agenda: – noting the patents were obtained in 1985 and the first chemtrail was August 1986

Jill Larkin to Helen, what do you say are the reasons for chemtrailing?

Helen Parks:

According to the hidden texts this is an agenda of those from Leo constellation, between Leo Major and Leo Minor, but the contractors are from Sirius: a very large number of reasons, real reasons that is. From the texts 1) defoliation 2) decrease oxygen 3) decrease sun light 4) keep it all warmer (reptilians like warmth) 5) a method of distribution of whatever they want which will make us thick in the brain yet alive enough to still be consumers 6) assists in the agenda to prevent the Elohim scout craft from entering the western hem, via HAARP 7) assists in the weather warfare agendas 8) assists in holograms and extra low frequency radio waves travelling parallel to the ground 9) assists in the low fertility and short life program 10) synergistic with genetically manipulated organism agendas to do with livestock and other animals and last but not least 12) destroys biospheres and soil. One last idea might be to prevent humans from looking up and seeing something

"Inanna by her parents Nannar and Ningal was beloved. Enlil [Her Grandfather] by her cradle sat. Beautiful beyond describing she was, in martial arts with Anunnaki heros [Nibirans on Earth] she competed. A skyship of her own, to roam Earth's skies, to her the Anunnaki presented." [The Lost Book of Enki, Sitchin, 2002 page 250] Inanna and brother Utu, twins of Nannar (Enlil's second son), were both Nibirans born on Earth.

Inanna and her twin were long-lived like homeplanet Nibirans.
