VORTEX OF OUR FOLLOWER SOLAR SYSTEM: SUN IS CENTRAL

These illustrations answer one question I had, and at the same time CONFIRMS Z. Sitchin's work My question was this: **“Why did Ala.Lu and E.a not simply fly over the Hammered Bracelet”?** In this case, the Öort Cloud, since the planets of Mars-Tiamat incident had not yet happened and we still had a planet between Earth and Mars at this time. Tiamat had formerly *been* the Earth, but split asunder forming the two separate planets. (Raising the question – was this a result of Ala.Lu blasting?) In their attempts to approach our early Earth, there was much discussion regarding Ea's decision to 'blast a path through the Hammered Bracelet using water and not nuclear power'. Ea was fully aware what damage nuclear (Weapons of Terror) would do not just to our solar system – but to other universes too.

Indeed, Ala.Lu had already done this.

The sages were aghast; with Weapons of Terror Alalu on Nibiru more havoc caused,
With Weapons of Terror a path through the Bracelet he blasted!

Once in its circuit Nibiru that region passes, calamities Alalu is amassing!

“Beyond, like a boundary, the Hammered Bracelet the Sun encircled; [encompassed]

As a guardian of the heaven's forbidden region with havoc it protected

Other children of the Sun, four in number, from intrusion the bracelet shielded.

The atmospheres of the five greeters Enshar set out to study.

EA: “Let me in a chariot to Earth journey, a path through the Bracelet with water, not fire, I shall fashion.

On Earth, from the waters let me the precious gold obtain; to Nibiru back it will be sent.”

The word “atmospheres” would have applied to Venus, Earth, Tiamat, Mars and maybe Mercury or Jupiter. But Saturn was once a sun to Earth too. Do we call the gas giants (greeters) *atmospheric*? They are not five these days, but four. The obsolete name for Saturn is *The Shield*. The texts say that Saturn will once again be our sun, and the Hopi prophecy rock does show Earth ‘falling’ off our orbit and travelling outwards. There is also thought that Venus has not always been where she is, InoCook.net

Here is the answer

although the Hammered Bracelet was and is still a Belt, its pathway is all encompassing!

The following models also explain why our sun still rises in the east (more or less) and yet the Milky Way (with its Southern Cross) moves, lately from an east to west feature where the Southern Cross was pointing to the south, to relocate to a *north to south* aspect, causing the Southern Cross to face between the west and the north-west!

One other detail I noticed:

The great pyre-amid at Giza currently has its corners and 8 faces almost perfectly aligned to the cardinal points (when I say ‘almost’, the difference is about 5 centimetres).

We have seen that the astronomical clock inside the ‘air shaft’ tells us the date of 9,200BC.

Because our computers have all been reset at 2000 (Y2K) and are out by 324 years, this date would in reality be around 9,500BC. This means that in the three shars of Nibiru between then and now there has not been an Earth shift of any kind. The promise made in Enki's Clay Tablet 10 has been kept.

But see in Part 6 of LEONARDO & MARDUK where I asked “has there been a perfect roll over in these three shars because the Giza pyramids still face true north south... 4 95 3 Les deux Vestales contre rebelleront,

ICE AGE 2015 2035 <https://www.youtube.com/watch?v=hbRTGqnEJLw>

In the Clay Tablets of Enki, by Z. Sitchin – there are remarks which seem to be contradictory, such as the moon *we have now* being in place when Ala.Lu first found the Earth *meanwhile creating havoc as he did*. There are people who have been interviewed by Project Camelot who have stated the moon only arrived ca. 12,500 years ago ^{during a shar} coinciding with damage to Mars, the Great Flood, Younger Dryas and ice age. It is quite possible that the greys who gave this information to those persons were lying...

Both ideas are the most probable, with the exception that the moon spoken of by Ala.Lu is very likely not the same one we have now.

In the quatrains, it is Mercury which does the shuffle to eclipse our sun from us. ^{4:29}

We have seen the crop circle in which our moon is clearly seen on the same 'plane' but in opposition to Earth. On the other side of a sun.

The gas giants have not always been where they are now ^{JnoCook.net}. It is the incoming second sun which disturbs these planets (according to the texts and the quatrains of Nostradamus) and that quite soon, Earth will be amongst the gas giants with one of them being “vexatious” to all the others.

The one which already lies on its side?

Aix is also a date, either the first ten days in Pisces and or the last ten days in Taurus, possibly 2016 as a result of Nibiru leaving. You are not going to believe this: but the meaning of the date of April *not being guaranteed*, nor the other dates is due to the new orbit WHICH MEANS NEW TIME LINES

and a result of 1 27 3 which did state SOLAR ECLIPSE TENEBROUSNESS APRIL FIFTEEN *not* eventuating, although NIBIRU ALONGSIDE IN MAY seems to have come true, seen end of May 2015 in South Africa.

When I questioned this after the APRIL event did not happen; almost ready to throw in the towel then 10 97 4 appeared:

The clue being the October 2013 enlargement of our orbit fulfilling the Preface to Cesar in that *timelines are not set in stone* ...to paraphrase with the reason also being stated. I laughed out loud when I saw the reason.

Hint: what have the elite been depending on?

At this juncture people who have been slavishly following all the "signs" in Revelation of the bible, should realize the same that Nostradamus was told, which he passed on in his Preface to his son Cesar- that time lines change when the urgency calls for it. We have seen several instances of this already, such as the *erzats* 2012 "calamity" which was avoided by moving Earth at 20 minutes each time, twice in 2011. The 2012 event was the Gulf Stream reversing.

WHY THE HAMMERED BRACELET COULD NOT BE FLOWN OVER

Helen Mead-Parks

- ✓ saying the Anu had the 324 years removed in order to create inexact knowledge nationally
- ✓ EXTENUATING TOXIC causing dating problems which are crossing all nations – such as the Shroud of Turin & computer programs which were all reset assiduously at the year « 2,000 » which was not 2,000, but 1676A.D. thus causing all astronomical clock programs to be incorrect, including the year 2012 and Age of Aquarius, which is not due for another nine centuries. The main feature of this deception being the clause in Treaty IX which contained the words for 2014 (which was really 1690) ratifying the « trade in men » clause = rapture. The sadder part of which is that the Off Worlders in these treaties are not obeying these clauses anyway, and if brought to task regarding their 'breach' would only say 'that was some other off worlders' and what could the idiot military industrial complex do about it ?

REPTILIAN ~ ANU or OANNES

JESUS?...moustache, beard and crown

EVEN CROP CIRCLES ARE TELLING US THAT THE REPTILIANS ARE “PLAGIARISING” THE JESUS ICON

The letter “j” was not seen until the middle of the 1500’s. Coincidentally along with the quatrains.

We need only go back to the bible prior to King James (of the 1600’s) to see that “Y” predates “J”.

Where Yuya (Egyptian spelling), Yussef was Joseph the vizier and ‘father’ to pharaoh. *Hebrew Pharaohs of Egypt* by Ahmed Osman

There seem to have been two ‘Jesus’ prophets one named Yeshua and one named Jesus. Yeshua the son of the seed of Enki sent to prop up the ten commandments. The other being his shape shifted replica. There is evidence in the bible that the apostles could ‘not recognise’ Yeshua at times, and this was the real reason for the kiss of recognition proffered by brave Judas.

The crop circle above reiterates the the shapeshifting.

We can see now why they call our orbit a “corner”

" It was an assertion by an astronomer that something had affected the Earth's orbit at the time that ISON was a big deal and he calculated that, for this year, the Earth would have a 377-day orbit. Here is the Link:

http://www.oocities.org/br/kikolivros/new_earth_orbit.htm

And here is the formula these guys use:

<http://www.telescope.org/nuffield/pas/solar/solar7.html>

Of all the lines warning us of a larger orbit, which means larger years – this one says it the clearest
So far as “formulae” goes, one only needs to watch the sun and see where it should be on the day.
The Inuit have been telling the world for a while now, that the sun is not on its normal pathway.

PERTINANT TO 2015:

watch this video, and what he says explains something which did puzzle me back in April.

The moon for four days at 8pm was in the exact same position in the same phase.

I did wonder how that could be, and this video explains it.

But it is only an explanation – because what appears on the Planetarium is false (see later here)

Also if you keep watch of a night, you will see the Earth is revolving – the Milky way has become facing north to south lately – normerly it is ever only east-west with our Southern Cross pointing south. This also puzzled me since the sun still rises more or less inthe eastern direction. The answer to that is that we are in a vortex system with all the planets NOT on the same plane we are. (google RUSSIAN VORTEX SOLAR SYSTEM and go to "images")

THE VIDEO

anyone watching this video here needs to understand a couple of things.

- 1) all Planetarium computer programs were set at Y2K, which is 324 years out. We are in 1691, not 2015
- 2) The planetary alignment in 10 67 is for 3473AD – PROVIDING THAT the Nibiru solar system passover does not move any of the current planets
- 3) none of the planetarium programs allow for the VORTEX planetary system and have all the planets ON THE SAME PLANE
- 4) CONCLUSION any erzats earthquake happening May 28/29 will be man made, simply due to QUANTUM ASTROLOGY in which all cause and all affects are separated by a lag, being effected sometimes up to an Earth orbit [year] later.
- 5) ERGO if an event does happen - it is a FALSE FLAG

The "major earthquake" spoken of will be man made, same as the Fukushima one was.

When you see the Richter scale given as 9.2 - it is really a 10.2 (which is mind-blowing)

because "they" down graded the Richter scale back in 2011 I think it was, in order for people to not realize just how bad the earthquakes are going to become with the passing of the Nibiru solar system (some effect of which we will feel come the end of September 2015)

" <http://worldtruth.tv/planetary-alignment-suggests-huge-9-8-quake-california-28th-may/>

In this video the narrator says:

" Nostradamus also apparently predicted the planetary positions for the day in a mysterious quatrain, where he writes:

The trembling so hard in the month of May,
Saturn, Capricorn, Jupiter, Mercury in Taurus:
Venus also, Cancer, Mars, in Virgo,
Hail will fall larger than an egg.

"Ominously, Nostradamus used a *similar* method of planetary positions to pinpoint the year to end his predicted annals of Mankind:

*A mighty earthquake, in the month of May
Saturn, Capricorn, Jupiter (,) and Mercury in Taurus
Venus also in Cancer, Mars(,) in Virgo
Hailstones, larger than eggs, will then fall" X/67*

"The date indicated by this quatrain is 3797AD". GIVE OR TAKE 324 YEARS = 3473AD, (850 years into Aquarius)

Collator's comments:

There are several problems with this quatrain:

The upcoming passing of Nibiru will cause ALL OF THE PLANETS TO NOT BE WHERE THEY ARE positioned in everyone's computer Planetarium

Not to mention that ALL computers have been programmed from the Y2K reboot

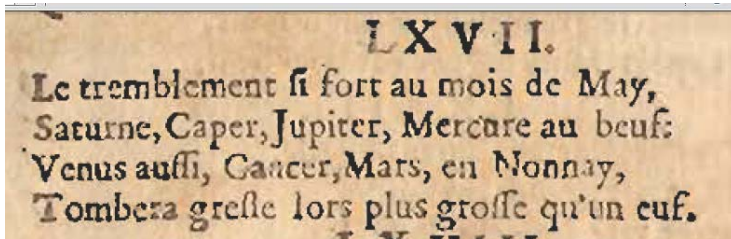

Nor that problem with the missing 324 years which were removed July 676AD by prince Ottö (and made edict in Constantinople late 676AD) which then commenced as 1000 AD...

Of course, the only earthquakes happening at the "prophecied" time were those expected to occur due to the passing of the Nemesis system.

HERE IS THE ORIGINAL QUATRAIN

WHY THE HAMMERED BRACELET COULD NOT BE FLOWN OVER

Helen Mead-Parks

 (noting the Eng. spelt Mai)
 Saturne, Caper, Jupiter, Mercure au beuf:
 Venus auffi, Cancer, Mars, en **Nonnay**,
 Tombera gresse lors plus grosse qu'un euf.

The guy doing this video was quite correct when he said to go to the original quatrain. Yet, if it is only Mercury in Taurus – where is Saturn, Capricorn and Jupiter supposed to be? in his scenario. To me this quatrain this is saying that all of these planets are to be within Taurus, a fairly crowded view! Now, it is interesting that word "Nonnay" is used for Virgo instead of "Vierge" – normally this is to accommodate the required anagrams, but this also means something else...

RIGHT – GOT IT: Nonne means 'nun' in French, but it does not mean a virgin (most nuns were not virgins) and the clue is in the latter part of the word "nay" – meaning *not* an earthly nun, but is the *key word* for the Pleiades, whereas in Latin "nonne" has an automatic ? meaning "is this not the case?" then to verify what I have just said, the word "nae" in Latin means "verily" or 'truly' or 'assuredly' and 'indeed' (there was no "y" in Latin). Actually, here is the weird part. The Pleiades are right under the 'tail' of Taurus, considered the most important part – the pile or heap of manure (which is what the Pleiades do look like). If we take this as a date it would be very late in Aries to very early in Taurus – so not even near the 28th of May.

The yellow circle is around the Pleiades aka Atlas, Nan-Nun and the seven sisters equals nine named stars with at least 40 in the constellation. The progress or "Precession" travels from right to left. In the days when it was named the Pile and the Heap, manure was much in demand and is still valuable, more so because of the artificial fertilizers being used are inclined to trap aluminium in the soil. See the 'pile' under the 'tail' of Taurus – not to be confused with the Egyptian "Hind Leg of the Cow" which is what they called Ursa Major. So when you hear the likes of people like Bauval saying the Pleiades are "above the head of Orion"... well... Orion is above left of Taurus, so not even in the picture.

Here is a more concise table of the length of the Zoödiac "Ages" in terms of our years with one important note in 705BC the Chinese records tell us that the year/orbit changed from 360 days to 365. The Mayan records have a memory of a 260 day orbit/year – which most likely happened at a time of a pole shift and it is even possible we can consider the 705BC date a time of an Earth movement sideways but 4 95 3 tells us a perfect roll occurred "last but one" shar (each of 3660 +/- our years) and here is another reason we cannot calculate the Nibiru orbit in relation to our own years, because ours have altered more than once.

Since we have a shar due any time now (1691AD/2045) then the last shar was **ca 1970BC** - 1969 so the shar which caused the *perfect flip* was in **around 5,630⁵⁶²⁹ BC in the age of Gemini**. In the forum *SHARS OF NIBIRU & THE ZODIAC AGES* the **average** of each age period was used, now one can see why.

The date of 5630BC or just over 7,000 years ago fits with the evidence of extreme and long term flooding in Peru a climate change so severe that this is also the time of "sudden urbanisation" out of the blue so to speak

Pisces started ca 5BC, take 5 from 2592 = 2587 Current Era begins in Pisces
 (=2587 of Pisces -1691 of Pisces = 896 years still to go before Age of Aquarius)
 my opinion: Capricorn & Aquarius need reversing in house size.

Source **Norton's Star Atlas** charts show the **1930 IAU constellation boundaries extended by multiplying each degree by 72 years**

If we take Enki's Clay Tablet #10, which states that the Giza Plateau complex was completed in "Leo Rising" and the astronomical clock within the 'air shaft' of the great pyramid does measure ca 9.500BC, then that is ca 870 years into Leo, with still around 2,000 years to go in Leo – thus "in Leo rising" is correct.

We are currently in Pisces Declining with still almost 900 years to go and no where even near the cusp of Aquarius.

so if we take ca 3,660 (some say it is closer to 3.660 years each shar at the moment)
 but it is OUR years which keep changing in length – not those of Nibiru
 and deduct the current Shar @ 1,691 takes us back to 1969BC or thereabouts [324 years corrected]
 people are saying 3,660 minus 2015 takes us back to 1645BC, thus placing Santorini/Thera volcano here,
 but I need to keep repeating that all our computers are out by 324 years, plus in 1969BC our year was 360 days.
 The event of June 29 3127BC (3114BC of Hancock, allowing for recovery time) which was an **aten class asteroid**
 episode – (hitting in Austria but wiping out Sodom & Gomorra) these dates are really 3451BC & 3438BC
COMPUTER PROGRAMS WERE USED TO GET THESE DATES, ERGO THESE DATES NEED 324 YEARS ALTERATION
 may have been the day changer from a 260 day orbit to a 360 day year, which then became 365 in 705BC.
 It would be interesting to research what Earth changing event caused that in 705BC – and being Chinese records;
this number does not need to be corrected by 324. The bible speaks of the sun standing still then reversing
 "up the stairs" and whatever that occasion was, it was likely the same date 705BC.

(no wonder the bibles say "no man shall know the day nor the hour")

If we take a shar happening 1969BC then go back another 3,660 = 5,629BC (or thereabouts) for the "one but last" shar and 'perfect flip' of 4 95 3 happened in the age of: GEMINI

- the excuse makers who say each zodiac crossing is "2000" years are using the Moon (by 13) & not the Sun chart, and this gives them their "26,000" year great cycle, already we can see things are not as neat as that.
- Thus the 5th Dynasty door lintel was in the time of Snefru/Marduk with the Apis title changing to Aries the Ram with the previous age of Taurus being associated with Apu/Ninurta, not Apis
- to my eye, Capricorn does not seem as large as Aquarius as a crossing of the sun's path goes, it seems to me these should be reversed.

• Virgo, Boötes and Libra are intertwined, some say Boötes is part of Libra, and some say part of Virgo between the three is 4824 years, making a mean age of 2412 years for Virgo and Libra
 • to get the return of the age of Aquarius first a few things need to be squared up:
 a) to go get the true age of Snefru/ ^{these texts say is} Marduk, Amon Ra, 4th - 5th dynasty and ruler of Aries/Ammon, established in Isa 7:9 ... Jer 42:5 ^{Mazzaroth}

After the asteroid in Taurus, around 3114/3438BC along came Aha/Nemes, whose date of ca 3000Bc now needs looking at... We know now that the 4th/5th dynasty was in the Age of Apis the Bee aka Aries from the Abydos door lintel no earlier than ca 1450 **IF** it was Marduk who reigned in the Age of the Ram. **IF** the stele in the Br. Museum ^{with the aerial refueller} really is "5th dynasty... Ninurta owned the Age of **Taurus**/Apu, the Twins/(great)/**Mas-Tab-Ba-Gal-Gal** of **Gemini**: Inanna and Utu ^{Prof S.Lessin}

 SCARABAEUS: HOLDING THE POSSESSION which is what Cancer is all about - possessions
 then Ninghizzida/Thoth/Hermes way back in **Leo**

This does NOT fit with the *dynasty time scale*, since the 18th dynasty is supposed to have been in the 13th to 14th century BC.
 from the *Mazzaroth* of Miss Frances Rolleston in the nineteenth century:

“It is generally admitted that the date of a system of astronomy is to be ascertained from the place among the signs from which the beginning of its year is reckoned.

As the Mexicans began theirs from Capricorn, it is to be inferred that the winter solstice had passed into that sign at the time of their emigration, **which is supposed to have been from Egypt.** Age of Capricorn 21,461 BC to 19,445 BC

The records of the Persian and other Oriental nations indicate a far earlier^{sic} origin, beginning their year from Taurus, so referring to the time when the vernal equinox was in that sign. Age of Taurus 4109 BC to ca 1445 BC
 I have no idea why Miss Rolleston is placing the ages in reverse order

Above all in antiquity is to be ranked the Jewish year, which primitively **began in Virgo,** Age of Virgo 13,541 BC to 10,373 BC when the summer solstice took place about the time assigned as the era of the **creation of Adam,** as deduced from the book of Genesis. For the creation of the Adamu and the Adam see Prof. Sasha Lessin and see the Clay Tablets of Enki/Endubsar. The Great Flood of Noah was in Leo Rising

A great similarity has been observed between the Mexican and the Tartar constellations, the solar and lunar zodiacs being traced in both. The **Mexicans have a cycle of such wonderful accuracy,** as to indicate that they received it from a nation, probably Egypt*, more deeply versed in science than themselves. The Toltec tribes, to whom is attributed 500 years' priority to the Astec^{sic}, are also said to preserve great similarity in their computations of time, and in the signs of the zodiac, with Tartar and Buddhist astronomy, thus indicating a **common origin,** as from their ancestor Noah. The Mexicans have a tradition of the **deluge,** and of a patriarchal family, **saved in a barque,** adding that when the Great Spirit Tescalipoca ordered the waters to withdraw, he sent out first a *vulture* that did not return, and then a humming-bird, which brought back a sprig of leaves. After the deluge, **men were said to be dumb** till tongues were distributed among them by a bird, in the shape of leaves”:

- a) Pisces commenced about 7 – 3 years BC, so let us say 5BC, add 2592 years to get the end of Pisces therefor the cusp of Aquarius = 2587AD
- b) We are in 1691 @ 2015, so we still have 896 years to go for the Age of Aquarius
- 2) This Shar of Nibiru is due in 1691-2 – now
- 3) All our computers were re-set assiduously in the Year 2000 scam – to 2,000AD. Hence ALL ASTRONOMICAL CLOCKS are out by 324 years inside the computers! When the forum THE REAL AGE OF THE PYRAMIDS AT GIZA was done, that little detail escaped me, hence the date of 9,200BC give or take should really have 324 years added, making it ca 9,500BC including my primary table on the very first page of *THE SHARS OF NIBIRU & THE ZODIAC AGES*

The circlemakers reply: APPONO ASTOS.

My interpretation: "that set up before is cunning trickery" [H Parks]

The internet sites stated that this crop circle writing is archaic Masonic. This is feasible for the Elohim, since Yeshua was an archaic stone mason, and one of theirs. Not to be confused with the Freemasons of the big "G".

Appono Astos. "We Are Opposed To Cunning And Deceit". Despite the disinformation campaign performed by the British government to quell public interest in crop circles ...

But this message response was about the likes of the reptilian Jesus crop circles

and from <http://www.esotericonline.net/profiles/blogs/what-one-crop-circle-is-saying>

Deciphering a Crop Circle: As many as 15 Crop Circles have appeared in one night and all over the world. To date all are symbols except for one that was generated in 1991 in England. This "Crop Circle" was formed of unknown Hebrew looking characters. It came in response to a question "an American Tourist etched out in huge letters on the side of a hill, "Talk to us." (Reported by Freddy Silva). The script was analyzed using all known languages and codes. It was concluded that it was an 800-year-old Freemason code. It then translated to a form of post-Augustan Latin, **APPONO ASTOS**, which means, "*We are opposed to cunning and deceit.*"

My guidance was to take it a step further using the Runic Alphabet. The meaning of each Rune is vast but I was directed to find the words that were appropriate to understanding Gaia's message. Each Rune had a phrase that is the key to the message of understanding the meaning of each letter of the code. (I used Kenneth Meadows' book *Rune Power*) This, my guidance states, is the truer meaning of the words,

Appono Astos:

"Bring forth sacred knowledge of the Feminine and Masculine that has been a lost power in your unconscious waiting to manifest: to birth a self identity of original substance, the True Self. Bring forth Flame of Hope imprinted on your Soul to integrate self-knowledge, power of realizing your own self worth at the core of your being. Dethrone ego, the adversary within, to attain character, moral force, that are rightfully yours, essential elements of your own unique individuality."
