"The acronym used to describe the jump room that took US chrononauts to Mars was ARC.

The term A.R.C. stands for "[Aeronautical Repositioning Chamber](#)." Unbeknownst to Laura Eisenhower when she cited ARC in her account of the effort that was made to recruit her to the Mars colony in 2006-7, this term was included in our Mars jump room training in 1980. This fact convinces me that Laura was the focus of an actual attempt to recruit her to the secret US colony on Mars. Laura is also an intelligent, emotionally balanced generalist with credentialing in many different practical skills, including survival training -- just the kind of individual that you would seek to staff an off-planet colony." -- Andrew D. Basiago

Andy - once again you have cleared up some thing in the texts from the Cassiopeians/Nostradamus/Leonardo Da Vinci (who also disappeared via what must have been a jump room, when he was 26 - for two years), which I did not understand - the letters **A.R.C** come up frequently and now I wish I had known they are the acronym for the jump rooms. You see - Arc is in alkhemye List term, the hidden name for Sagittarius amongst many other more normal things. Turns out Nostradamus (at the age of 36) simply appeared in "the room of the painter" says Da Vinci -- so Da Vinci painted him into the Last Supper - and one can see the "therses" hovering in front of him (the same which came and hovered in front of me). Andy - do you know what that flower thing really is? The Da Vinci version (before Nostradamus was born in 1503) is here along with Cesar de Notredame's painting of his father (after 1600). The Last Supper was completed a handful of years *prior* to the birth of Nostradamus - just more proof that time travel is very real. I have had seven differing experiences now...

The previous two forums which included my lack of faith in the matter of the “perfect flip” (and by that I mean centimetre perfect) clearly showed my questioning the remote possibility of a centimetre perfect re-alignment of the Giza pyramids following that country leaving the southern hemisphere to settle where it is now. Hence**

**“3 82 1 ISSUE TROUBLED INDECISIVE AUSTRALIAN INTRODUCES BENNU” that is, the *Grus* floorplan design of Giza Plateau**

Are Ancient **Pyramid Complexes a Map to a Computer Circuit Board?** a bit of hardware replacing and upgrading, like **motherboards** .

“Then looking at the whole image, it became glaringly obvious that the entire Temple of Horus correlated with components of a CPU and surrounding hardware that’s found in modern day computers.

Each section of the Temple of Horus correlated with a segment of a CPU and the surrounding hardware needed for a CPU to function.”

The **Fourth Pyramid** is of deeper interest, though small in size. Herodotus referred to it. It is the middle one of the southern group. **Norden** charges Greaves with applying to the third what should have been said of the **fourth**. “Its summit,” says the Dane, “is of a yellow stone, of the quality of that of Portland.” The top is called a *cube*. The height is put at 69½ feet, but was once 82. The base is called 153 by Bunsen, though Perring found it 102½. An inclined passage, at the angle of 27°, is 27 feet long, 3½ wide, and 3¼ high. It leads to a chamber 19 feet 2 inches long, 8 feet 9 wide, and 10 feet 4 high. The granite sarcophagus was 5 feet 10 inches long, 1 foot 6 wide, and 1 foot 11½ deep. There were no hieroglyphics about it; and the contents were bones, earth, and wood-ashes. According to

**Russian pre-historian Professor Paris Herouni** December 17, 1933 – December 5, 2008

This date ties in with the date of the “perfect flip” in the Age of Gemini. This may be the time when Cygnus did suddenly appear in the new northern hemisphere, and may have appeared to the gnowing ones that their Southern Cross or its mate Grus had been replaced by the gods. This then would be the timing for the replacement of the Crane-Heron-Ibis in glyphs by the “Goose returning”

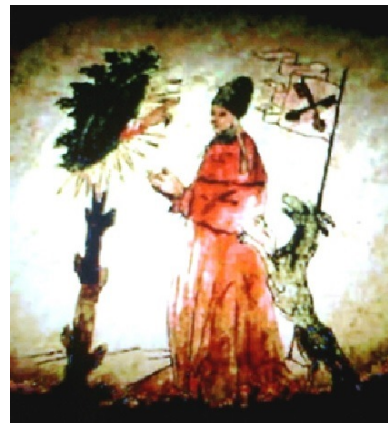

The creature depicted in the Temple of Khnum is this one – the “crocodilian” of Centuries 11 & 12, with “Taweret” in the left hand image the same creature. The messiah. Noting the **Leonine** mane. Anu.Bis you already know means Sirius. The “queen” above left is more like an Olmec, who themselves wearing the pheon cross are Anakim (generic term) also coming from Sirius. <sup>say these texts</sup> The two ‘frogs’ would be Toads referring to Bufo, which we have been learning about recently, those beings behind the Vatican... The Camel *might* be Camelopardalis, the direction from which the Nemesis-Nibiru solar system approaches our system, but the *name* means “giraffe”. It is an easy matter to scribble outlines in the rough on very ancient megalithic and have them appear in-exactly, not knowing the alchemye.

IF, at this juncture, the reader is thinking this writer is “just plumb star crazy” then hark back to the guidance in the Preface [to all these works]- directions addressed to Cesar de Notredame, a babe at the time, *but in reality* addressed to you and me in our times. That is: for us to at all times look to the alchemye of stars first for the answers. PLEASE, do not raise in answer anything derived from the smoke-screen which Nostradamus titled *Epistle to Henri*

Grus at the left which *appears in a northern hemisphere* illustration, yet is in the deep southern skies (currently) has already been described. It is the **black sun** which attracts our attention here. On the right the Hand of God/**Arm** appears *pointing* <sup>6 23 1 10 87 1</sup> out of a blackness over a land-scape almost devoid of [DNA] haplo – caulescence (the branch) with *Canis Major* behind the Vatican

The banner means the Milky Way and the two crossed keys refer to the planet of the Crossing, meaning also to use two of the triple method keys to decipher the vignette. It is a truly bleak landscape – all in the dark. There is above the Hand of God/**Arm** something else which evades description – is it a bird?

 The following are some of the web sites for the Valiant Thor advent, and I will highlight operative words which are a dead give away for the egoistic selfish and unloving Enlil/YHWH in the introductions.  
 The name THOR on its own is one of them.

If we can believe these texts and their warnings, it seems to me the following will also come to fruition for those who would invent murderous wars *in order* to float a money system and create evil intent.

Plus that other little detail – the Dagon with their original temple at or under Gaza.

This current Israeli invasion of Palestine etc *began* with Gaza. So what is it they *really* want?

"In an ancient text of the Jews, we read an astonishing description of some of these gigantic Amorites **whom the Israelites** conquered. In Buber's *Tanhuma*, Devarim 7, the text tells us of a Rabbi Johanan ben Zakkai's encounter with the Roman Emperor Hadrian. This event occurred in about A.D. 135, soon after the Roman victory in the Bar Kochba war, when the Jews rebelled against the Romans. The text reads:

"The wicked emperor Hadrian, who conquered Jerusalem, boasted, 'I have conquered Jerusalem with great power.' Rabbi Johanan ben Zakkai said to him, 'Do not boast. Had it not been the **will of Heaven**, you would not have conquered it.' Rabbi Johanan then took Hadrian into a cave and showed him the bodies of Amorites who were buried there. One of them measured eighteen cubits [approximately 30 feet] in height. He said, 'When we were deserving, such men were defeated by us, but now, **because of our sins**, you have defeated us'" (quoted in *Judaism*, edited by Arthur Hertzberg, p.155-156, George Braziller, New York: 1962).

**In the light of this remark it surprises me that those of *Israel* who seem to be 'running America' do not take heed.**

Numbers 13: 32-33 Original KJV:

32 And they brought up an evil report of the land which they had searched unto the children of Israel, saying, The land, through which we have gone to search it, is a land that eateth up the inhabitants thereof; and all the people that we saw in it are men of great stature.

33 And there we saw the giants, the sons of Anak, which come of the giants:<sup>Nephilim</sup> and we were in our own sight as grasshoppers, and so we were in their sight.

**These are the Anakim**

Hebrew 'Anakim (Deut. 2:10, 11, 21; Josh. 11:21, 22; 14:12, 15; called "sons of Anak," Num. 13:33; "children of Anak," 13:22; Josh. 15:14), a nomad race of giants descended from Arba (Josh. 14:15), the father of Anak, that dwelt in the **south of Palestine** near Hebron (Gen. 23:2; Josh. 15:13).

This event is now looking more and more to be October 2016, since it happens before the stars move or *while* the stars are moving, an event which needs to occur prior to Sagittarius 2017 when a new female astronomer whose surname is Elvin “repairs” the astronomy. According to these texts. This is the occasion when Mira in Cetus becomes the new northern star pointer. In November (13<sup>th</sup>) 2015 the main particle collider seems to have suffered an accident (all youtube videos were pulled and that is a good sign the rumours are true) – so anyone thinking these texts would be made redundant and meaningless by the final failure of CERN – please think again, and ask oneself “why is it China suddenly began to build one of their own?” The answer is time gates. China has them too.

- o 6 23 1 D'esprit de regne munismes descree's *Defences undermined by the spirit of the kingdom* <sup>Cheetham</sup>

see how Nostradamus has proofed this word by changing the “u” to “n”. At first I thought it must be an “o”, but it is not – is it!

Minuscule (lower case) letters were developed in the Middle Ages, well after the demise of the Western Roman Empire, and lower-case versions of Roman numbers are now also commonly used: i, ii, iii, iv, etc. In the Middle Ages, a *j* was sometimes substituted for the final *i* of a number, such as *ijj* for 3 or *vij* for 7. This *j* was considered a swash variant of *i*. The use of a final *j* is still used in medical prescriptions to prevent tampering with or misinterpretation of a number after it is written **conjurez to bring about**

Antibes - Provence Beyond [www.beyond.fr/villages/antibes.html](http://www.beyond.fr/villages/antibes.html)

Antibes was a Greek fortified town named **Antipolis** in the 5th century BC, and later a Roman town, and always an active port for trading along the Mediterranean .

Since it is Ninurta who is "lord of cattle, (which may well be humans), the two headed eagle and of the mountains" this heifer, a young female maiden cow... could be thought placed at "the other pole" which is Antarctica, where those Anakim with their allied Aldebaran and Alcyonese have their Nazi operatives stationed.

December 6, 2015 <http://www.whatdoesitmean.com/index1955.htm> <sup>Russia Begins Transport Of Saudi Arabia's Mysterious "Ark of Gabriel" To Antarctica</sup>

"Report from the Kremlin today prepared by the Ministry of Defense (MoD) states that the [sudden launching](#) yesterday by Aerospace Forces (AF) of two satellites are **for the protection of the** Federation naval research vessel [Admiral Vladimisky](#)— which has [just departed](#) the Saudi Arabian [Port of Jeddah](#) after taking on board a mysterious object described as the "Ark of Gabriel" whose importance is deemed so vital that President Putin has further ordered naval warships guided missile cruiser [Varyag](#), the Sovremenny-class destroyer [Bystry](#), Boris Chilikin-class fleet oiler [Boris Butoma](#), and the powerful salvage tug [Alatau](#) that upon the ending of their [current mission in India](#), they are to rendezvous with the Admiral Vladimisky in the [Southern Ocean](#) providing it protection as it [sails to Antarctica](#)... what spurred this astonishing mission, this report explains, was the contacting on 25 September of His Holiness Patriarch Kirill of Moscow by representatives of the Custodian of the Two Holy Mosques in Mecca, Saudi Arabia, regarding a mysterious ancient "device/weapon" discovered under the Masjid al-Haram Mosque (Grand Mosque) during what has turned into a very controversial construction project begun in 2014.

Gravely raising the concerns of the Grand Mosque emissaries, this report continues, was when this mysterious "device/weapon" was discovered on 12 September 2015 by a 15-man tunnel digging crew—and who in their attempting to remove it were instantly killed by a massive "plasma emission" so powerful it ejected from the ground toppling a construction crane killing, at least, another 107 people.

Catastrophically worse, this report notes, was that barely a fortnight after the first attempt to remove this mysterious "device/weapon" was made on 12 September 2015, another attempt was made on 24 September which **killed over 4,000** [people] due to another massive "plasma emission" which put tens-of-thousands in panic—but which Saudi officials then **blamed on a stampede.**

The alien was buried with precious and interesting items as well This was the tomb of the princess of Senusret II or Sesostris II.

Within the enclosure, immediately to the south of Amenemhet's pyramid, Petrie excavated the King's mortuary temple - an extensive and very complicated structure, which is now so ruined that it is difficult to reconstruct a plan. When Petrie investigated the sarcophagus in Amenemhet's burial chamber he discovered remains of a burned inner coffin, presumably damaged by ancient grave-robbers. A second wooden coffin was found in an antechamber, along with a carved alabaster offering-table bearing the names of a Princess Neferu-ptah, thought to be a daughter of the King and it was assumed that the princess had been buried with her father. However, in 1956 the remains of an almost destroyed small pyramid 2km south-east of the King's pyramid was investigated, and the tomb of Neferu-ptah was found. Her red granite sarcophagus and other objects inscribed with her name were found in the burial chamber, but up to date archaeologists are still puzzling about the real location of Neferu-ptah's burial.

MORSE CODE, BEING "AMPLIFIED"

SAYING "NO MORE WAR" signed "E" (E'A?)

We have been seeing who an "E" is throughout these lines It is Ehwaz, mistaken as Aiwazz by A. Crowley as was the message for the *Law of One* by him.

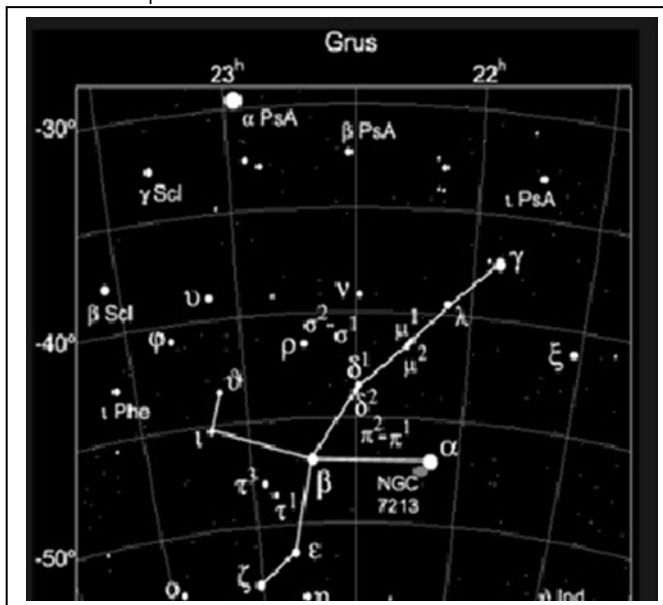

Ehwaz is also known as the Hero, a He Rod, the one which appeared in the Crabwood binary code message (which was NOT an Orion grey as people say).

The message itself tells you where they are from... rather convenient that 'E' also stands for Elohim.

To me, the delineated stars of Grus – as they are shown here – do not seem to be a fit either. The constellation of Grus is and has been “drawn” many different ways, the important detail being the “bent back wing” of the fourth pyramid, the long neck and extended beak heading south west to reach Oxyrhynchus and the tail heading first outwards under and past the Benu Caves then out to the north by north east to Bucegi/Carpathia. Cygnus as a constellation has both the neck and the tail going the opposite directions. What a coincidence there happens to be a “northern cross” and a “southern” one (not Crux). Possibly this needs turning upside down

Of the greys appearing in ancient Egyptian records – there seem to be at least two types.

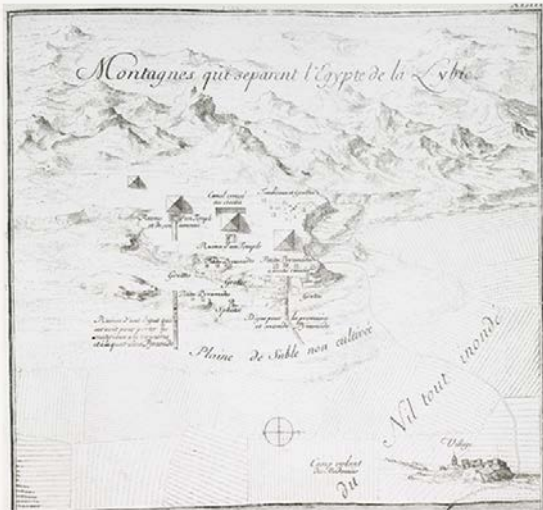

The ones “spun in Crane” (Grus) and the one of the type in the bust found hidden behind the library of Petrie.

The former being the ‘workers’ of the Anakim, those which I query are the Igi...

The more recent being of the LyRan type – no nose and members of the Elohim.

Frederic Norden during the 1700's in his book 'Travels in Egypt and Nubia' described a fourth Giza main pyramid, his illustrations regarding the position of such are very good for the period,

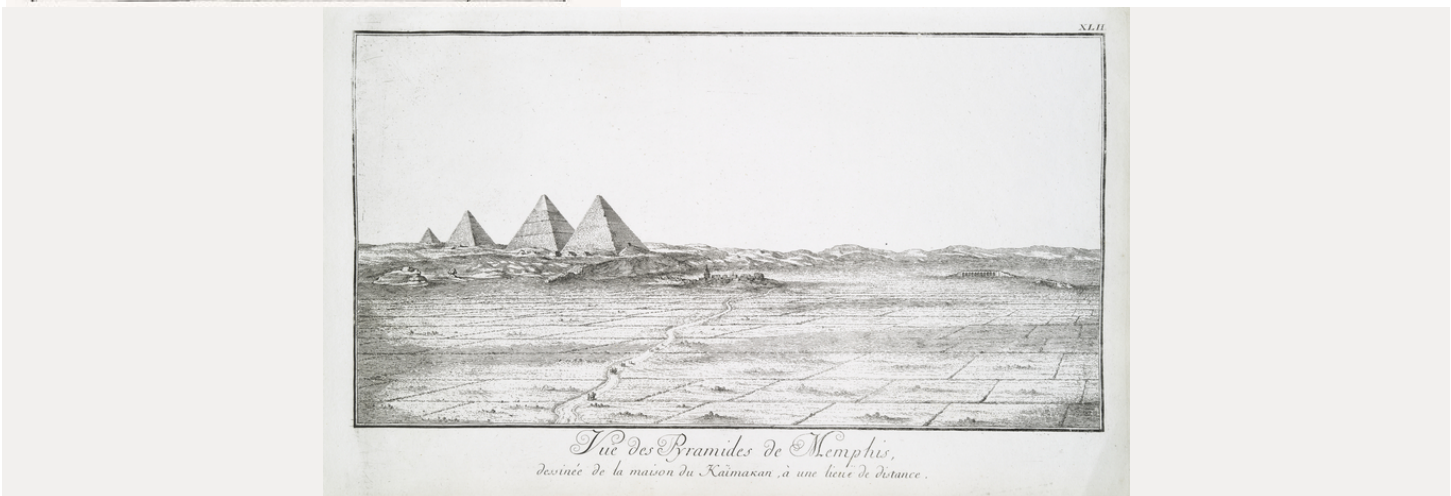

**F. Norden**

"The principal pyramids are at the east south east of Gize .... There are four of them, that deserve the greatest attention of the curious,; for tho we see seven or eight others in the neighborhood, they are nothing in comparison to the former. .... The two most northerly pyramids are the greatest, and have five hundred feet perpendicular height. The two others are much less, but have some particularities, which occasion their being examined and admired."

It is without coating, closed and resembles the others, but without any temple like the first. It has however one particular deserving remark; which is, that **its summit is terminated by a single great stone**, which seems to have served as a pedestal...the fourth pyramid has been made, upwards above the middle, of a stone more black than the common granite, and at least as hard. Its summit is of a yellowish stone.

**I shall speak elsewhere of its top, which terminates in a cube.**

It is, moreover, situated out of the line of the others, being more to the west...it makes a series with the three others

1737 Frederic Norden from south east

"Norden states that the 4th pyramid is 100' (30.4m) less than the 3rd pyramid, which means his 4th pyramid is about 36m high. G3a is 28.4m high, so not a big difference.

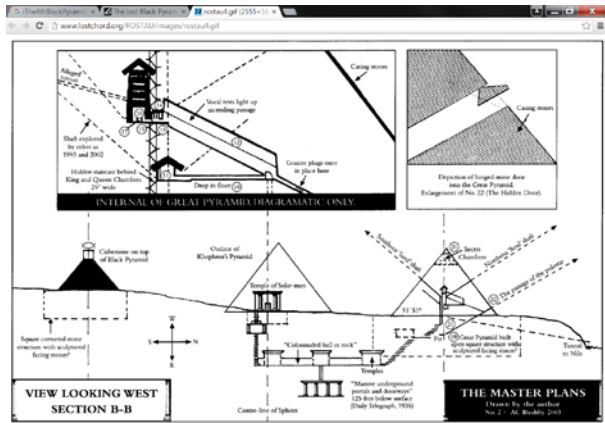

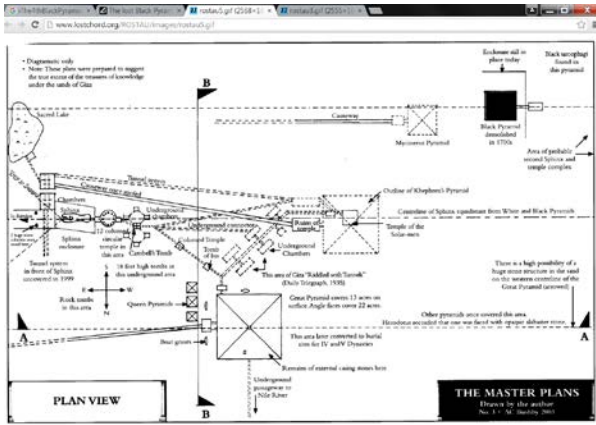

He states that the 4th 'pyramid' is "situated out of the line of the others, being a little more to the west." G3a is to the west of the SE corners of the Giza three. However, the location of Norden's 4th 'pyramid' on his site plan is not consistent with G3a. " <http://www.abovetopsecret.com/forum/thread911618/pg3>

The suggestion tends to be dismissed in terms of considering he mistakenly took one of the satellite pyramids of Menkaure as a fourth pyramid, though he describes the pyramid as made of a stone blacker and harder than granite, whereas the satellite pyramids are all sandstone, also his site plan is of very good quality for the period and positions the fourth pyramid some distance away from that of the third. He does describe seven or eight lesser pyramid constructions also, which would incorporate the satellite pyramids and show that he did take these into account. A suggestion is that this fourth pyramid was quarried in the late 1700's, but that there are still stones/ruins in its former locale

Here are some site plans and diagrams that have attempted to incorporate this fourth black pyramid into the greater Giza scheme of things;

There is the odd illustration from before Norden but these aren't so reliable.

Bonaparte (Vol. 5 Pl. 7): 1787  
<https://sites.google.com/site/okadct/norden>

This 4th pyramid is the easternmost subsidiary pyramid, G3a that has a 44m square base and a height of 28,4m. This perspective drawing is very similar to Norden's perspective

The *Fourth Pyramid* is of deeper interest, though small in size. Herodotus referred to it. It is the middle one of the southern group. Norden charges Greaves with applying to the third what should have been said of the fourth. "Its summit,"

My main question is this: Bauval says that the Pleiades are "above" Orion. How can that be? Unless Orion is lying down when he means this, since Taurus is "charging" at Orion on the right (our view) and the Pleiades are under the "tail" of Taurus, in fact, the obsolete name for the Pleiades was the "pile" and the "heap" meaning the dung of Taurus the bull. They were called this because it was known even back then, that the Pleiades is an autonomous cluster of over 40 stars (with 9 named stars) moving in its own direction. The "hind leg of the cow" is the 7 stars of Ursa Major to the left (our left) of Orion. And THOSE are the SEVEN stars mentioned in many palces including the bible. Interesting that Al Quaeda/Al Kaida is the main star of Ursa... Taurus has NO HIND LEGS at all

I had a "lamented accident" reaching down for a bottle of home brew –it blew up in my face – "they" told me back then (2006) to 'take care – eyestrain one eye' (the good one) and they were not wrong! Even 324 is divided by 12 by 27 times. If that means anything. Twelve is the base number the Anakim depend upon.
