

YULETIDE

Although it can't be guaranteed which year these lines apply to, many lines say it is on a Friday. Because this time of the year is imminent (today is the 19th of December) these Yuletide-Capricorn-Car lines have been plucked from other upcoming and long past forums and appear as is. Look also at years with a Friday Yule.

taken to be prevented from the task (such as Telling) – it does not stop Enif, Marcab and those of Scheat, this is the three way star wars between Enif the 'nose' of Pegasus (currently on the fence, may be the Tall Whites of Ch. The "Field" means Pegasus, a.k.a the "square".

Put in the uttermost depths, raised, put to the throne.
Lucifer was put 'in the pit', allowed to be uplifted after his full term (which he has had shortened by 324 years). With "mis au trosne" 'put to the throne' can mean two things: put on the throne or handed to the King of kings Cepheus whose sky rune is a Throne, who is the "Arm" in the heavens – and who are the Seraphim the "fiery ones".

DEFT BUG-EYED^{Mantids} REPREHENSION OF ANAKIM, SO MASTERED INTER-BRED HUMAN BEING

This message has been repeated time and again. “HIP” is that part of Leo Constellation, the same as “Rib” which is Chertan, the shape shifting “managers of all” who use sea animal shapes for their ‘demented’ shape shifting craft, of 6 59 3, which also stated ERUPTIVE SERBIAN BASIN ALIVE & many of us have seen craft entering and leaving many different volcanoes world wide: these are the Chertans. NOT friendly at all, and that includes Mt. Shasta. These from Chertan, being shape shifters, have no trouble duping the likes of Gilliland and Greer – the Mothman seen at the ranch of Gilliland should have been a clue.

GEM is the Earth. “MEMBERSHIP” means the alliance forced on the Siriacs by those Oannes of Chertan.

HYPER MODEST means the “meek, righteous” aka the Elect.

BONE is Capricorn, same date as the other (APPLE) lines which include “hilarious” and “comical”.

Only 18 months after the mysterious death of John Kanzius. I still can’t get over how I had titled the FREE ENERGY folder “EUREKA”- and here they are using the same word to mean free energy.

the Bible anywhere). Being "caught up" is not the ascension, apparently, but an abduction for the purposes of cannibalism – by
the Anu and others.

PORT CLEARANCE is probably relating to the stage gate and the word NO could well be "ON" meaning the Oannes who are in
league with the Anu. Meaning PURELY RECALL ON.

GOLD also means Leo as well as knowledge and "E" also means the Zeta Reticuli attendants.

SUBLITERATE UNSTATELY SUBTITLES - telling me that I have not named the forums with appropriate titles – true...

At the same time this is a rap over the knuckles for omitting to include the quatrain lines at all! This had been on the former
web site when working with Allan Webber's template only and of course, without having received the triple method. During
the reading of Allan Webber's template I finally found directions guiding me to these codes. Only after having realized there
was NO brass tripod named anywhere but in the smoke screen Epistle to Henri. When spotting 'triple method' in the corres-
pondences it came to me – It was Allan who found the first of the three arms of the ciphers, the Runic skies – a thing which
still astonishes me since this means our alphabets are based on the shapes of the constellations.

The Triple Method is now published as a pdf forum on its own at the new website making it so that anyone can pick up the
original quatrain lines with the very first intended spelling mistakes included from which one can do one's own decoding.

If one sees a name or an issue within the words – (such as "YEAR") – remove those letters, anagram the rest and the details
will unfold about that issue... this is what "They" mean by "language is engineered"...

Allan Webber's template

explanation :

Allan Webber had programmed a computer to recognise anagrammed words within the quatrain lines. He had set out to prove anagrams are not real. Once he discovered there is merit in anagrams he continued, completing his task in 2008, which happened to be the time I found him.

He had been waiting for me to 'turn up' since my full name had appeared several times...

Such a truly clever manner of naysaying the doubters. Dividing the task thus.

Most of the [Yule](#) anagrammed lines that the author « read 'computer' » collator discovered, appeared in the previous pdf forum published last week (third week in December 2015) which had been titled *MEDITERRANEAN & YULE*.

Then for some perverse reason it came to me that maybe there had been some Yule lines in former publications made on the former web site – which had all been obtained via Allan Webber's Computer Template, prior to the "lay" person becoming a "graduate" and receiving (being shown) the TRIPLE METHOD (website forum Folio 1.)

The work done by the collator between 2006 and the end of 2012 had all been accomplished minus these tiny details – which came about when I discovered the ONLY place the word "tripod" appeared was in the *Epistle to Henri*, mostly a smoke screen all on its own since it has contradictions to things said in the *Preface to Cesar*.

NOWHERE else does the word 'tripod' appear – despite what was written by any (and I mean ANY) former authors! Within Allan's Template we have been told this was how they had "hocussed Hitler"...

Guided to reading the correspondences of Nostradamus, composed in the Latin language:- there it was !

In Letters #31 and #32 the words 'triple method'. Along with 'Parcs will pick up the mandate and work with it'. Now this "Parcs" includes Simon Parkes (UK) Anton Parcs (Fr), Jim Sparks (USA) as well as Helen Parks (Australia) – a four pronged approach to the "mandate".

It seems to me that I am the only one who recognizes exactly with Whom we are being educated, no less than the Elohim-Cassiopeia alliances under the Andromeda Council.

Allan Webber had not been forgotten either – he has 28 pages of personal guidance from within his Hidden Texts template. Allan has been guided to continue his work using gematria, the power in the numbers which alphabets contain (and NOT 'numerology' as a reader once wrote, reprimanding me).

Numerology is like astrology – it requires interpreting. The texts never concern themselves with depending on *interpreting* astrology – other than the descriptive names involved, nor depending on **interpreting** that which *numerology* enumerates. Each letter has its own number – a fixed aspect not requiring "interpretaion" and the same with the stars – it is just the science of astronomy/ This is stated in the *Preface to Cesar*.

All five of us doing different types of 'work' for the same 'task- Master' using our separate God given talents.

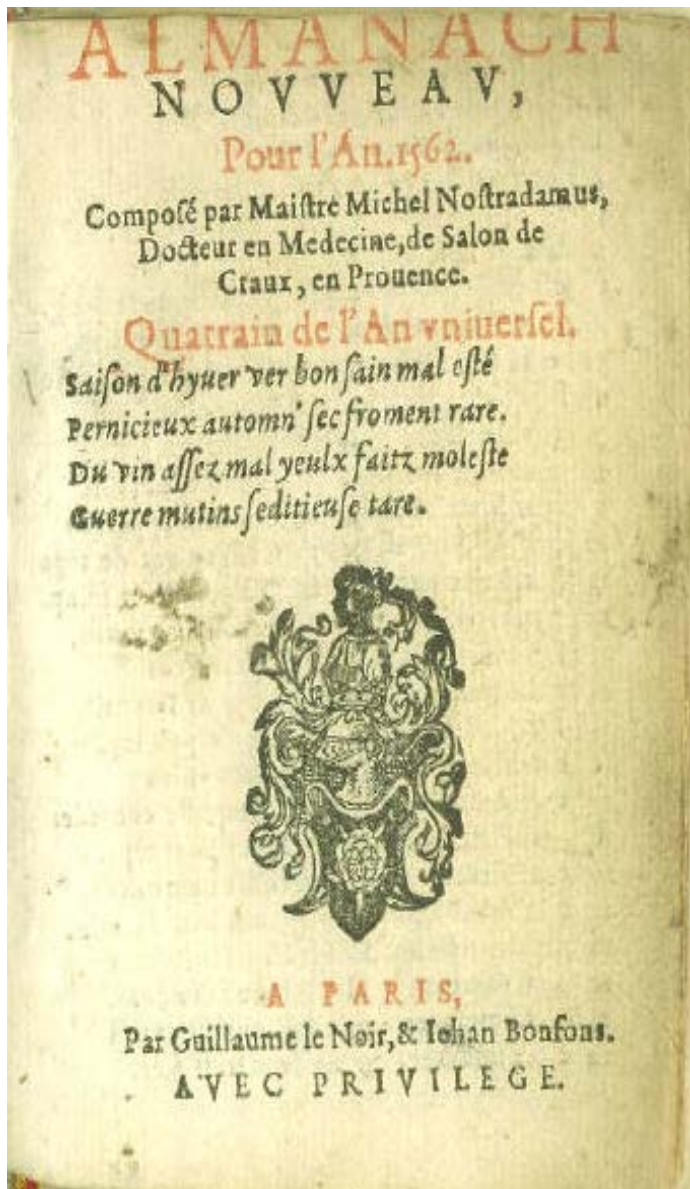

There are many others involved with Alex Collier near the top of this list, but David Huggins and Linda Porter (both named in the template) have done their part, actually painting members of the Elohim, with Bridgette Neilsen and her YouTubes spreading the word, albeit not knowing the extended background.

line 1 says **The battle sign will not be given,**

(blowing up the park)

line 2 says: **They will be obliged to opt out of the park.** (Recall the elite were forced to go to Plan C when they were planning to bomb Yellowstone, but their jump room on Mars blew up, so their plans to leave the sinking ship failed)

line 3 says **The ensign entering Ghent (Flanders) will be recognised all round (of whose effort placed the detour)** noting in the original line Gand/Ghent is not capitalized, here is an example of *not* using the codes within codes...

This quatrain contains what seems to be disparate topics, but they are all related. They refer to banksters agendas.

10 83 4 Qui fera mettre detous les fiens a mors **Whose microphone effort placed the detour**

this does **not** say: Of him who will cause all his followers to be put to death. Mors is also maw – the bit of the bridle= modern microphones
RANSOMS INSANE FEAR; NAMES SAME SOUL LINES (all the Tellingier lines) "INSANE FEAR" since there is **nothing to fear from the Ubuntu principle, which is what the "detour" speaks of – kidnapping the real Michael Tellingier, cloning him and reprogramming the clone. At this juncture – some months later, this seems to have actually happened,**
