

The "cue" word amongst the Leonardo "Riddles" was in the lines of his script which included - *the intended line usually starts with an 'e' (= 'and') then includes the "nella" word and then 'stops' at the comma.* Too simple really, since the Italian « nella » means "within" or "inside", in this case, *hidden within.* The use of the comma is the *dividing* line – and this was *stated* in the texts from Nostradamus -

At the time Allan's computer found these words, the Celtic Tree Zodiac ciphers had not yet been discovered, so Allan would not have known that the letters 'M' and 'B' were tree zodiac dates, nor would he have known the word COMMA was so important or that it was relating to the work of Leonardo! Normally 'BE' means Virgo in itself a pun in that case, since this is the first time anyone has really decoded Da Vinci's work. They need the Triple Method to accomplish the deciphering. This decoding system appears on the website header page.

o **SEXAGENARIES** definition: relating to terms of sixty. The Chinese have "sexagenary" either in days or years... in this instance, it could be the longitude and or latitude. On searching 60 degrees lat by 60 degrees longitude the only land mass with this description belongs to the Ural Mountains. If sexagenary means in the "sixth decade" that would mean a period of 70 + years which is a length of time stipulated in the Epistle to Henri

"In the spring there will be omens, and thereafter extreme changes, reversals of realms and mighty earthquakes. These will be accompanied by the procreation of the new Babylon, miserable daughter enlarged by the abomination of the first holocaust¹.

There were several other choices but this is the only one had tornadoes at Yuletide fifteen. The other clues are a rural post office garage which sells live-stock feed, seed and "orange fudge", with a bore and oak or elm trees nearby (in the "lee")

COME FROM ORION'S BELT - and who have tried to take credit for many things. Was it they who removed the fourth pyramids around the world ? Omitting to remove the fourth one amongst the pyramid layout of [Mount Baigong](http://nexusilluminati.blogspot.com.au/2012/02/alien-base-found-at-chinese-pyramid.html), <http://nexusilluminati.blogspot.com.au/2012/02/alien-base-found-at-chinese-pyramid.html> found near [Mount Baigong](#), about 40 km southwest of the city of [Delingha](#), in the [Haixi Mongol and Tibetan Autonomous Prefecture](#), [Qinghai](#) Province, [China](#).

near Mount Baigong in the western province of Qinghai, Xinjiang/Xianyang, the **four** pyramids sit untouched. One would be forgiven for thinking this is an aerial photo of the Giza Plateau, noting that all of these pyramids also have cut off tops. Seems a stretch to think that any of them had a "pyramidion" on top, that every one shows the cut off peak

why everyone persists in showing the four cardinal points using a crayfish is beyond me - the Scorpion is well recognized for its stinger. The Crayfish was the medieval 'animal' for Cancer only more recently becoming a crab... the sasar tool/s /weapons which Michael Tellingher has brought to light is the method used for levitation, for cutting and for inscribing the masonry. PLUS NO ONE ever mentions that most pyramid layouts consisted of **four pyramids** - which were formed on the basis of **Grus (Heron)** constellation - currently in the southern hemisphere - and did you pick up on what she said about reading the "blurred hieroglyphs many hundreds of thousands of years old" AND did you notice an obscure frontispiece titled D'HERON D'ALEXANDRIA upon which NO comment was made - except this is the BENNU bird, the Ibis aka the Crane also known as Grus constellation. The proof lies with a town called OXYRHYNCHUS seen from 150 klm up at Al Faiyoum ('The Sea' - an alchemical name for that area in which sits all the nautical named constellations including Pisces and Grus) but Oxyrhynchus means "sharp beak in the fish" (and not "fish in the sharp beak") and when one goes to look at Grus - there it is with its beak in the tail of Pisces. The Aztecs also had this image. THEN did you hear the comment : "about 100 pole reversions"? Well, one of those was a perfect flip - landing Giza in the Northern hemisphere - where people have now resorted to Cygnus (the Goose Returning) as the format. Problem is, Cygnus faces the wrong way to reach Oxyrhynchus. The long legs of Grus go under the Bennu Caves (which Collins wants to rename the Bat Caves) and then underground it continues all the way to the Giant's Base under Bucegi. The fourth pyramid (seen also in many Chinese pyramid layouts) forms the bent back wing of Grus.

The 'issue' which troubled me was the **absolutely perfect** to within-a-centimetre- flip of the planet "last but one" shar ago. According to these texts and their directives, this event happened in the Age of Gemini ca 7,000 years ago 5630BC (a perfect flip – how appropriate for Gemini!) But see in Part 6 of LEONARDO & MARDUK where I asked "has there been a perfect roll over in the three sharS SINCE Leo rising?? DERO: ANU MULE; ARE NOT RED HAired GIANTS, ARE NOT SASQUATCH. NOT KNOWN ABOUT ABOMINABLE SNOWMEN

We have seen descriptions of these Dero such as « imbecile » and « cretin » ... this would make these creatures different from another type of giant which has begun featuring in videos. These different ones are intelligent and also alive and flourishing world wide. From the Solomon Islands to the **Himalayas**. Here is a link for a video under 25 minutes in length but extremely interesting. The first description is regarding the stench and we have seen several texts about this peculiar and most unpleasant detail. The video explains why they have this deathish smell. Another detail being the very large nasal cavity which can resonate and cause things to levitate (this detail from a different video) and that the vibrations from them can cause one's head to explode. Naturally there is a hidden texts line about this very thing, saying PART FALLEN ANGEL

- o POSES creates the REASON AS/Ayse ASSIGNS the poles roll END of XXVI/2016, the Anakim use this event for their false rapture via FEMA camps.
- o FOUL GIANT EXPANSION. ANU OGRE the Anu Ogre could mean YHWH/Enlil or the Dero mule which is described using the term "inbred" and "cretin" which is also a descriptive medical term "cretinism" with a small head. The Dero could be related to the Fallen angel cross bred piloted and "Huxed" (lifted up) via AIRPLANE to Ohio in this instance. Noting "PLAINER/ ordinary PILOT" compared to the Lord of the Airways and "Chief Pilot" Enlil.
- o TO FIX SAFE (NON-FUNEREAL) well - this is scary. I think this is saying he only appears dead! The proof seems to be with the need for the red line, drawn to remind people not to go past that area of his head on pain of explosion
- o LONER IOU EXPLAIN EXPLORE PROOF yes, by seeing what one is looking at one will notice certain differences between the puppet Putin clone and the real one. OF FALSE RUSSIAN PUTIN in judging them by what they are doing. We have already seen the weeping one is the one not to be trusted, he with the stubby fingers.
- o APPEARS SIXTEEN. This type of dating seems to me to appear to be a year out, keeping in mind that when a 'year/orbit' is stated, the number of days can begin anywhere along that orbit/year, and we now have 377

RELEVANT ZODIACS BLENDED, HUMBLE LONER FEMALE (astronomer Fiona Elvin with her own forum) **RENAMED LATE ROOSTER**

In the forum regarding Fiona Elvin, not yet published because I was told not to – texts say she arrives in Sagittarius of Cocq Thinking logically this seems unlikely to me for the repair of astronomy to begin in late 2017 (but could be the year of the rooster 12 years later) because of the recovery time we would all need following such an event – think electrical grid... one answer is that this event happens in May of 2016. Being a long drawn out event, it could simply *begin* in May of 2016. When in early 2009, I first collected the lines with this lady's name in it from Allan Webber's computerized template, I did go and search her and she was training to be an astronomer!

○ **RELEVANT ZODIACS BLENDED here are three words with huge impact. Those zodiac constellations which are currently our point of view will no longer be in the zodiac line-up we are familiar with. ACE CRUEL ACT IS TRUELY FOUL RAPTURE.

someone asked me how do I know I am not the one being fooled? A question I asked myself many years ago.

These two lines here prove this is a gentle natured guide. YOU OPT FOR PEACEFUL CAPTURE Reckon any other entity would say this?: - plus recall a while ago that FORGIVENESS was to be paramount?

Can you imagine a negative Draco or even any elite using this word?

While looking for any more PENULTIMATE words, I did find in quatrain 2 28 the following, keeping in mind this was published a year ago (early 2015, writing at the moment January 15 2016) when neither the awareness of the "tearful Putin" nor the understanding of the 'copied' Tellingner had seemed a likelihood...

But starting first with the 1562 edition (which had not been published) with the 1555 version that follows.

2 28 Appears in LEONARDO ENKI & MARDUK part 5 continues

but has also been named Part 6 (appears on page 22)

this one had information about the faked Putin and the faked Tellingner - published a year before the « tearful Putin » and the « cloned Tellingner ». Sadly in the case of Tellingner - who has suddenly become quite commercial, he will not be aware what has happened. Recall a new visitor in his compound? That would be the handler.

vaguera – a hybrid French Latin word. Composed of *vague* & *era* of which *vague* can mean any of these words: lurking- sneaking- wave- tidal wave- **tenuous- at a low ebb- bow wave-** cold snap- cold spell- cold wave- **confused-** crest- crime wave- fuzzy- **groundswell- hazy- indistinct- New Wave- remote- shadowy-** undefined- unspecific- vague- **If one brings to mind the Extra Low Frequency radio waves to be sent from G.W.E.N. towers, then it fits the quatrain line.**

and “era” in Latin which means: era, erae N F [XXXCX]

mistress; lady of the house; woman in relation to her servants; Lady; (which I would like to take as the Statue of Liberty in this instance, or the ‘first lady’)

The silver and the green could mean two different types because a ‘greenish grey’ comes from Arcturus (allied with the Elo’im) and a tallish silvery type is one which visited Whitley Strieber, the one picture on the front of “Communion”

- o **DEROES RIPPER OF JUNIOR, AND UNFAIR ANU ONES JOIN IN** – saying here that there are two types of giants being described
- o **“GATE UP IS ERUPTIVE FROM FREAK OF NATURE”** if we do hear Tellingier making this statement we will know he is the ‘fake’ one, the ‘walk-in’. These words will rest very hard on the cloned man himself
- o **FALSE FLAGS & RAVAGE FERTILE** the Cassiopeians grieve that the reptilians have decided to make everything on Earth infertile. Earth is, after all, the Living Library, here for at least 220 different off worlders, not just us
- o **UUANTS FUTURE REVENGE** – these reptilians which come from the direction of Camelopardalis are so vengeful that they want **FUTURE** revenge, that is: “if we can’t have it, no one else can” – that attitude
- o **IOU UUAKE UP!** does not get any clearer than that! Leave your TV and your computer and save yourselves
- o **RENDER FLIPPING: TURNING** means quite clearly altering Donald Trump – did you think he was immune?
- o **SUAVE SELF-RUIN** very sneaky way of ruining all of us. Other lines say Trump is Monsanto’s man
- o **DEPRIVING UNARMED PLODDER SERF** this should ring some warning bells!!!

- MIDDLE= equatorial PAPER= Earth/birch DEAFENING EVENING DREAD PELÉ ERUPTION this was the 'last sign' in a previous warning in relation to the LA. sinkhole and Lake Superior giving way with all that this means
- FINER LAME VENTURA – I love the way in which these texts qualify a difference between a clone/walk-in and the real person. How many lines have now said that (the real) Jesse Ventura rides the wave of Earthly turmoil in the absence of the elite who have scarpered underground into their dumb sites
- APRIL NEMESIS LEGEND, this is the PassOver – noting this means the date of the Passover of the bible can now be back dated. We are now in 1692 AD making the biblical Passover around 1968 B.C.E. Thus the huge volcano Thera also known as Santorini, and the Exodus when Moses saw the "pillar of fire by night and the pillar of smoke by day" can also be given a date. These details do appear on a stele which means it too can be placed in this time frame. FOOTNOTES

It is worthwhile going back to LEONARDO ENKI & MARDUK (part 5 continues) or titled Part 6 pages 21 & 22 see 2 28 where a year ago I commented: Well. All I can say is that if Credo Mutwa had a walk-in, why not Tellinger. Or Trump!

It is just as well I had those thirty eight pages of direction, which derived from the template of hidden texts Allan Webber had programmed – I would never have thought of all of this on my own! It was only this week (of May 10 2015) that I discovered one of the 'ring lord' visits was from Da Vinci (the visit of the handsome well trimmed one) and had not been Nostradamus "at a younger age" which is what I had assumed beforehand.

 clearly ANTE which means 'the third people before' the times of Christ -suggesting this might mean the Nephilim.

- MELLIFEROUS not unpleasant TRANSIENT crossing in the texts from Nostradamus it states “plainer passage”

- DAMMING means ‘containing’ [containing Enlil]

- FOOLS INTEGRATION – means many things but could be pertaining to the release of thousands of refugees from disparate cultures amongst countries which do not understand them, creating hatred intentionally. Or CERN
- IT MISNOMER ANTE AS ANTI IESUS. Yes – in the Epistle to Henri Nostradamus says (six times) that the ANTE-Christ « third peoples » rise up. So it means the third type of people, reptilians (Nephilim) from underground rise up... those (Dero and their relatives) from before the times of Christ.
- This business of waiting for the “third AntiChrist” is ridiculous when it is not a competition to see which individual has become the most evil throughout history. We human beings have suffered the likes of Chingiz Ghan, Stalin/Lenin Hitler, Pohl Pot, Idi Amin and countless others; none of whom can really ‘outdo’ the other !

Important to keep any zinc away from any artifacts, implying ZINC "STIRS"

medical: Zinc: A diet that supplies sufficient zinc blocks the uptake of radioactive zinc-65. Zinc DTPA has been used to chelate americium-241 from a nuclear accident victim. Natural zinc also will help the body eliminate several toxic heavy metals including cadmium, aluminum, lead, and excess copper. Although doses over 50 mg. per day have been used it should be under a doctor’s care. Dose: Preventive--adults—15 mg.-----pregnant women—30 mg.-----lactating women—40 mg.
 Therapeutic—adults---15-50 mg. -----pregnant women—30-50 mg.-----
 Lactating women---40—50 mg. per day.

 Armed militants will begin their third day at the visible refuge and have vowed to remain for months in protest at over the treatment of two local cattle ranchers

"(NaturalNews) Reports that federal officials are headed to Oregon to try to "resolve" the situation where armed citizens now occupy a federal wildlife refuge building should raise warning flags for everyone. If the arrogant, tone deaf federal government attempts an aggressive assault on the compound that results in bloodshed, it might very easily spark a nationwide armed revolt against government tyranny in response."

I need to say here that using the word 'scalded solid' combines the various descriptions from Nostradamus – that of 1) no air 2) burnt 3) mud 4) lava. Combining lava and mud would create steam which does "scald" !

- o *UTOPIAN TALENT are the key words for Tellingier and or the Ubuntu principles*
- o *NOTION means these warnings or information in the texts speaking about what has been happening to Tellingier. The current living one in the public eye will retain most of the memories of the original with omission of memories that the shadow people behind the 'elite' would not want maintained. The main method of discernment is an alteration in what was once the normal attitude and a change in some minor personal habits such as diet and an additional new 'friend' which will be the handler.*

There are scientists who are saying the greater effects will be felt as the Nemesis system is **leaving** us. The texts say a lady astronomer arrives in Sagittarius of the year of the coq rooster to repair the astronomical index. This is saying that our planet will have been moved and the old constellation formations will no longer remain. Then there is 10 39 3 which states "before eighteen". With our new orbit/year I am more wary of trying to comprehend what is meant when They say a particular 'year'. Three times these pages stated a *new year* commenced October 10/11 2013. - o ELABORATE BRAZEN ORNATE VENALIZATION corrupt, motivated by money This is the background behind an alphabet agency deciding to plan a false meteor - which plan has been aborted. Originally Plan A (or B) was to set off a bomb in Yellowstone in BRAZEN ORNATE date – Halloween. But the Elohim alliances beat them to that idea by sasing the jump room on Mars where the 'elite' had arranged to escape. Then Plan B (or C) was to arrange a false meteor onto Etna at Yule – on a Friday. Yule of 2015 had a Friday date but so does 2020. There are two asteroids which do pass by every four years just prior to the solstice of Yule, Toutatis and companion. These ARE due again in 2016 and 2020
- o Matthew's "days being 'cut short' to save the elect" did happen in April & June of 2011 in order that these two asteroids would miss Earth in 2012. With not one peep from NASA until after they were gone. The time is right to divulge that I was told the YULETIDE FALSE METEOR forum was a RUSE for 'FIFTEEN' – a warning shot over the bows of the ship of NASA from the Eloim to the alphabet agencies. A warning they seem to have heeded due to the words ABORT ATEN ON BOAT (Earth) see 'NEED ELITE INCOHERENCE' see next line

EVIDENCE OUR ORBIT HAS CHANGED

Normally every day sees the sun rise and set at intervals of about five minutes earlier or later depending if the date is prior to a sun standing still (the solstice) or after that date – which used to be December 21/22 in the southern hemisphere for the longest day in summer. The incremental five minutes becomes more and more each day before a summer solstice then after a summer solstice the sun sets by five minute less each day (until it reaches the shortest day – another 'sun standing still'). Thus when in 2015 google search stated the longest day for the southern hemisphere would be a sun set of 8:07pm on December 21-22-23 – it did raise my eyebrows. The reason for my perplexity is that every other year the longest day can see a sun setting around 9:15pm., not 8:07pm. The Photo I took here just happened to be 8:07pm, so when googling to check the hour and finding it said exactly the same – my suspicions regarding the 377 day year became confirmed. The following illustrations show the photo taken December 23 2015 at 8:07:44 pm – then a photo taken January 7 2016 at 8:14pm. Setting *later* – NOT earlier as it should have!

the word 'modified' at 8:07:44 pm simply means the picture had been *taken* at that time and moved from one location (the camera) to another (the computer) and the word 'created' simply means 'this properties enquiry' – which had been made on the old computer. The properties query on the right is showing much more common sense in the relation of date details. Notice how even though there are fifteen days between photos – the sun has barely moved sideways (towards the right-north). In fact, looking at the tree gap it seems to me it is setting in the exact same place! In former times a move of just under -5^{minutes} each day would have been expected. This means that from October 10/11 2013 (just as the texts had said in THREE lines beforehand and several since) our orbit began its new elliptical enlargement which currently sits at 377 days for a complete year.

Putin within the KGB, his job, was a desk job...

Putin was never "head of the KGB," as some writers mistakenly (and, often, maliciously) assert. That is simply a falsehood. Rather, he served as a mid-level intelligence bureaucrat who sat at a desk in Dresden, East Germany, where he was stationed with his family for several years before returning to Leningrad. His job was to analyze data, and he had no involvement in other activities.

http://www.youtube.com/watch?v=NiwQf0dOQMU&feature=youtube_gdata_player

Cassidy explains that "Putin looked a bit pale after his return" and she was told that he had met with "Off-world" races. She explains that she's been told that Earth-bound humans get "sick" when they interface with aliens on their craft. Parkes explains *that's true* and most of the time it's because the aliens are usually existing at a somewhat higher frequency of vibration which disrupts our metabolism.

Plus Simon Parkes says about mantids: judge them by what they are doing

Simon's answer about Arcturans:

"are 5th- 6th dimensional, and Lyrans sit above them as Manipulators of force such as the vibrations of the sun.

Below them (the Lyrans) are the Pleiadians...

"are key players and are part of the 'wider representational group' which look after the Earth" (The Elohim!!)

There are two avenues of thought regarding who these are (from the texts) which say on the one hand that members of the Elohim are "surrounding" the incoming Nemesis system and the second is that of the Second Coming, which is composed of the "insane four" and the "repulsive six" of the Mazaroth (keeping in mind that two of the 'repulsive six' belong with the Elohim). There is a rapture event up coming in which a meteorite splits into two over the Adriatic and the False rapture then takes advantage of the chac arriving "having fasted". This the destruction of Rome event too.

Nephilim have been here since forever, since their first inception - they are underground and National Parks were made that way for THIS reason (see the texts). The other three "parties" signing this Pact were: The Nordic which was the Alcyonese front man for the Anakim, a Grey Zeta45 and a shape shifted "Orion" creature. Each of these three is a member of a separate triad (say these texts) making that original Pact between humans of Earth and nine others. The 1978 "Battle for Dulce" was the result of the signing of the 1978 'treaty'. The fifth signed "treaty".

ARE YOU INTERESTED IN WORKING WITH SOME OF THESE LINES FOR YOURSELF?

There is no monopoly nor is there a competition in knowing how to do it.

You can start with your own name. This will then tell you events around you.

FIRST: download the two original Centuries Publication and Prophecies Edition on the header page

THEN: troll through every quatrain line finding letters of the alphabet which make up your name

USING a program called Anagram Genius (downloading gives you about thirty free 'goes')

MAKING sure and certain that the exact letters which appear in the quatrain line are copied into the anagram genius, deduct those letters which are your name. Remove them, they are now "the issue".

Anagram what is left. If you see a medieval 'f' the program will not recognise it, so change that to a

modern 'f' – which happens to also BE an 's' as well. If you need a "w" you need to remove two "u"s

and replace with a "w". So if your name has a W the quatrain line will need to have two "u"s in it.

Other letters: 'i' can be 'j', 'c' can be 'k' and so can 'q'. This is but the beginning: – continued later

FOOTNOTES Page 13 **APRIL NEMESIS LEGEND – the Ahmosis-Ahmose I stele.**

Ahmose - founder of the 18th dynasty - also known as Neb-pehty-re and whose third son was none other than Amenhotep I (Amenophis I). His wife held the title *Second Prophet of Amun* (Amon) thus during the age of Marduk.

“Broken pieces of the stela were found in the third pylon of the temple of Karnak at Thebes, modern Luxor, between 1947 and 1951 by French archaeologists.

The stela consists of a single text in horizontal lines, copied on both sides of a calcite block that once stood over 1.8 m tall.

The side of the stela termed the ‘face’ or ‘front side’ had horizontal lines painted red, with incised hieroglyphs highlighted in blue pigment. The reverse face, or back, was unpainted.

Linguists Dr Robert Ritner and Dr Nadine Moeller from the University of Chicago’s Oriental Institute believe the unusual weather patterns described on the Tempest Stela were the result of a massive volcano explosion at Thera – the present-day island of Santorini in the Mediterranean Sea. Because volcano eruptions can have a widespread impact on weather, the Thera explosion likely would have caused significant disruptions in Egypt.

The new translation suggests the Egyptian pharaoh Ahmose ruled at a time closer to the [Thera eruption](#) than previously thought – a finding that could change scholars’ understanding of a critical juncture in human history as Bronze Age empires realigned.

If the stela does describe the aftermath of the Thera catastrophe, the correct dating of the stela itself and Ahmose's reign, currently thought to be about 1550 BC, could actually be 30 to 50 years earlier.

"This is important to scholars of the ancient Near East and eastern Mediterranean, generally because the chronology that archaeologists use is based on the lists of Egyptian pharaohs, and this new information could adjust those dates," Dr Moeller said.

In 2006, radiocarbon testing of an olive tree buried under volcanic residue placed the date of the Thera eruption at 1621-1605 B.C. [\[bearing in mind that C14 dating can be out by 700 years give or take due to bacterial encapsulation PLUS 324 years needs to be deducted as we have seen\]](#)

Until now, the archeological evidence for the date of the Thera eruption seemed at odds with the radiocarbon dating. However, if the date of Ahmose's reign is earlier than previously believed, the resulting shift in chronology might solve the whole problem.

The revised dating of Ahmose's reign would mean the dates of other events in the ancient Near East fit together more logically.

For example, it realigns the dates of important events such as the fall of the power of the Canaanites and the collapse of the Babylonian Empire.

This new information would provide a better understanding of the role of the environment in the development and destruction of empires in the ancient Middle East.

For instance, the new chronology helps to explain how Ahmose rose to power and supplanted the Canaanite rulers of Egypt – the Hyksos.

The Thera eruption and resulting tsunami would have destroyed the Hyksos' ports and significantly weakened their sea power.

[But more importantly, destroyed the grazing for all livestock, since the pumice from Santorini/Thera has been found far inland to the east].

In addition, the disruption to trade and agriculture caused by the eruption would have undermined the power of the Babylonian Empire and could explain why the Babylonians were unable to fend off an invasion of the Hittites, another ancient culture that flourished in what is now Turkey."

Here is a translation of the text of Ahmose's stela – which when one reads and comprehends the effect received by Egypt – one comes to realize this speaks of the Passing Over of the Nemesis solar system which had set off the Santorini/Thera volcano:

Long live (?) the Horus "Great of Manifestations," He of the] Two Ladies "Pleasing of Birth," the golden Horus "Who binds the Two Lands," King of Upper and Lower Egypt, Neb-pehty-Ra, son of Ra, Ahmose, living forever. Now, His Majesty dwelt in the town of Sedjefatawy ("Provisioner of the Two Lands") [in the district just to] the south of Dendera.

*Now then, **Amon-Ra**, Lord of the Thrones of the Two Lands, was in Heliopolis of Upper Egypt (= Thebes). It was His Majesty who went south ("upstream") in order to [give to him bread, beer and everything good and] pure. Now after the offering, [. . .] their(?) [. . .]. Then attention was given in 33 [. . .] this [dis]trict. Now then, the cult image [of this god . . .] [. . .] as his body was installed in (lit. "united with") this temple while his limbs were in joy.*

*[. . . Now then,] this great god desired [. . .] His Majesty [. . .] while the gods complained of their discontent. **[Then] the gods [caused]** that the sky come in a tempest of r[ain], with [dark]ness in the condition of the West, and the sky being in storm without [cessation, louder than] the cries [lit., "voices"] of the masses, more powerful [than . . .], [while the rain howled] on the mountains louder than the sound of the underground source of the Nile that is in Elephantine.*

*Then every house, every quarter that they (scil. the storm and rain) reached [. . . their corpses(?)] floating on the water like skiffs of papyrus outside the palace audience chamber for a period of [. . .] days [. . .] **while no torch could be lit in the Two Lands.****

***Ask yourself why could no torches be lit?**

Then His Majesty said:

'How much greater this is than the wrath of the great god, [than] the plans of the gods!'

*His Majesty then descended to his boat, with his council following him, while the crowds [on] the East and West had hidden faces, having **no clothing on them after the manifestation of the wrath of the god.***

His Majesty then reached the interior of Thebes, with gold confronting gold of this cult image, so that he received what he desired.

Then His Majesty began to reestablish the Two Lands, to give guidance (or "a conduit") for the flooded territories. He did not f[ail] in providing them with silver, with gold, with copper, with oil and cloth comprising every bolt that could be desired.

His Majesty then made himself comfortable (= seated himself) within the palace (life! prosperity! health!).

Then His Majesty was informed that the mortuary concessions had been entered: [that] the tomb chambers collapsed, the funerary mansions undermined, **and the pyramids fallen** – what had been made rendered non-existent (lit., “what had not been made”).

Then His Majesty commanded to restore the temples that had fallen into ruin in this entire land: to refurbish the monuments of the gods, to erect their enclosure walls, to provide the sacred objects in the noble chamber, to mask the secret places, to introduce into their shrines the cult images which were cast to the ground, to set up the braziers, to erect the altars, to establish their bread offerings, to double the income of the personnel, to put the land into its former state.

Then it was done in accordance with all that His Majesty had commanded.

Robert K. Ritner and Nadine Moeller. 2014. The Ahmose ‘Tempest Stela’, Thera and Comparative Chronology. *Journal of Near Eastern Studies*, vol. 73, no. 1; doi: 10.1086/675069

<http://www.sci-news.com/othersciences/linguistics/science-tempest-stela-ahmose-worlds-oldest-weather-report-01826.html>

Things to note are:

the timing of [around] ‘3,500’ years ago aligned with where we really are today... in 1692 AD, by deducting a shar of Nibiru (about 3660 years although the great orbit is never the exact same) we come to around 1968 BCE or thereabouts, which would date Thera and consequently the Exodus ...

“ According to the writings of Hevelius, the Jewish Exodus took place 3506 years ago.

This same time frame was given in the 1602 works of Abraham Rockenbach, *De cometis tractatus novus methodicus*, "In the year of our world 2453 - as many trustworthy authors, on the basis of many conjectures, have determined - a **comet appeared which Pliny** also mentioned in his second book. It was **fiery red**, of irregular circular form, with a **wrapped head**; it was in the shape of a globe and was of terrible aspect. It is said that the King Typhon ruled at the time in Egypt. Certain authorities assert the comet was seen in Syria, Babylonia, India, in the sign of Capricorn, in the form of a disc, at the time **when the children of Israel advanced from Egypt** toward the Promised Land, led on their way by a **pillar of cloud during the day and a pillar of fire at night.**"

“Many old authors, Lydus, Servius, Hephaestion and Juctinus also mentioned the **comet Typhon**.

(Which happens to be another name for Nibiru/Nemesis)

They all described it as an immense globe of fire, whose movement was slow and close to the sun.

Its color was bloody;

"It was not of fiery, but of bloody redness." They said the object caused destruction with its rising and setting and was the cause of many plagues, evils and hunger. They also said that if the earth were to meet with Typhon again, a **four day encounter** would suffice to destroy the world.

The Exodus:

The first visible sign that the Destroyer was near was a fine red dust, coating the land. This same red dust gave the sea, rivers and lakes a bloody coloring. This bleeding of the waters was also recorded by the Maya.

According to them, "in the days of the great cataclysm, when the earth quaked and the sun's motion was interrupted, the waters in the river turned to blood."

From the Papyrus Ipuwer, "The river is blood....Plague is throughout the land. Blood is everywhere"

From Exodus (7:20) "All the waters that were in the river were turned to blood."

Exodus(7:21) The blood was all throughout the land of Egypt....And all the Egyptians digged round about the river for water to drink; for they could not drink of the water of the river."

After the red dust, came the hail of fiery stones. In Exodus 9:8 it is said that a small dust, like ashes of the furnace fell in all the land of Egypt. The dust was the forerunner of the stones. Exodus 9:18 There fell a very grievous hail, such has not been seen in Egypt since its foundations." According to the ancients, these small stones were hot and mingled with fire. Today we would call them meteorites. (These will be the “gravel blind environment”)

Ipuwer wrote

that the stones and fire from the sky destroyed all of the crops and frightened away all the livestock. The story of hot stones is corroborated in the Mexican Annals of Cuahtitlan. It describes how a cosmic catastrophe was accompanied by a hail of stones. In the oral traditions of the indigenous peoples, there is also stories of a time when the sky rained fire and hot stones. many cultures from around the world recorded a sticky substance the rained down from the sky and at times ignited, creating great walls of fire that traveled across the land.

According to **Immanuel Velikovsky**, this substance was oil, the same oil we refer to as fossil fuel.

Velikovsky believes the oil in the ground was seeded by the passing Destroyer and not the result of decaying matter.

According to the Hebrews, this sticky goo covered the earth and caused fires to burn for seven years.

After the fires came the darkness, **brought on by a disruption in the Earth's rotation.**

Besides darkness, this disruption also caused [super] hurricane winds.

They said the wind and **darkness lasted for seven days.**

According to rabbinical tradition, contrary to what the Torah tells us, this plague of wind and darkness was said to [have] killed 49 out of every 50 Israelites and only a small population was left to flee Egypt.

An **Egyptian hieroglyphic inscription in el-Arish** reads:

"The land was in great affliction. **Evil fell on this Earth.** There was a great upheaval in residence... Nobody could leave the palace **during the nine days**, and during these nine days of upheaval there was **such a tempest** that neither men nor gods (the royal family) could see the faces of those beside them."

When the Earth was **forced out of her regular motion**, a shock wave convulsed across the planet that caused a **massive global quake.**

Ipuwer wrote

"The towns are destroyed. Upper Egypt has become waste... All is ruins."

"And Pharaoh rose up in the night, he, and all his servants, and all the Egyptians; and there was a great cry in Egypt; for there was not a house where there was not one dead." (Exodus 12:30)

Houses fell, smitten by one blow. "The angel of the Lord passed over the houses of the children of Israel in Egypt, when he smote the Egyptians, and delivered our houses." (Exodus 12:27) The Hebrews probably fared better during this quake because as slaves, they would have lived in simple huts made of clay and reeds, while the Egyptians lived in homes of brick and stone....

"The first born of the Egyptians didst **Thou crush at midnight.**"

When the world plunged out of darkness, the Hebrews were at the Red Sea, where they say the waters parted, revealing the sea bottom.

They said the water stood up as a wall. Could this have been caused by the gravitational pull of the Destroyer?

Our tiny moon effects our oceans, now imagine what would happen if a massively dense brown dwarf star was passing by... it would **grab the oceans and pull them up to the sky.** While the massive tides towered above, a battle went on in the sky.

This battle was seen around the world.

According to rabbinical literature the night of the great earthquake, the sky was as bright as day, as Typhon (the Destroyer) filled the sky like a fiery dragon. It was said that Typhon, "Out topped all the mountains, and his head often brushed the stars. One of his hands reached out to the west and the other to the east, and from them projected a hundred dragons heads. From the thighs downward he had huge coils of vipers which emitted a long hissing. **His body was all wings...**and fire flashed from his eyes. Such

and so great was Typhon when, hurling kindled rocks, he made for the very heaven with hissing and shouts, spouting a great jet of fire from his mouth.'

Egypt wasn't the only land to fall victim to these plagues, a cataclysmic [wave] also struck Palestine, Syria, Cyprus, Mesopotamia, Asia Minor, the Caucasus and Persia. Also, Crete was overwhelmed by natural upheaval, the volcano **Thera erupted and the Indus Valley civilization came to a sudden end.** For those who might be skeptical of the word of the ancients, a few modern scientists have discovered corroborating evidence, supporting the ancients were struck by a global event. Scandinavian scientist, **Rutger Sernander** discovered that catastrophic climate change took place in [around] 1500 BC. [Which would really be **1825BC** or thereabouts]

Careful investigation by **W.A. Johnston** of the Niagara River bed found the present channel was cut by the falls less than 4000 years ago. The Bear River delta is **3600 years old.** A study by **Claude Jones** of the lakes of the Great Basin, show the lakes have only existed for [around] **3500 years.**

Reginald Daly made observations of beaches around the world and discovered that sea levels dropped 16 -20 feet, [around] 3500 years ago. The evidence our world was struck by a cosmic event is overwhelming and yet people will tell you this is nothing more than an hoax. They will tell you that **Immanuel Velikovsky** was a fraud and his work was bogus. They will call you a liar when you present the facts or they will try to make you look like a fool. The one thing they can't do is produce evidence to prove you wrong...because they can't.

We need to reconsider the dates.

In 676AD prince Otto had an edict made by his relative king Constantine VII that July 676AD will become 1,000AD "in order that he be crowned in a new millennium" was the excuse. Meanwhile we, here and now are 324 years out. **We are in fact in 1692 at 2016.** Re-search Illig. Niemitz. S Guth for a start - and Pope Gregory had he really been in 1582 should have removed 13 days, not ten.

Taking 1692 from ca 3660 years (a shar/orbit of the Nemesis system which is never the same number of our years) we arrive at approximately **1968 BCE which fits very closely to:**

Thera-Santorini which was the REASON for the Hyksos invasion – looking for grazing for their livestock because the eruption had sent pumice and pall to the East killing plant life... where the Hyksos came from.

THEREFORE

Santorini was the cause of:

1. Hyksos (100 years reign in Egypt)
 2. the new 18th dynasty
 3. Ahmose writing about the consequences of that PassOver (which caused Santorini, its pillar of fire by night & smoke by day)
- the date of that event being more or less 1968 BCE to be followed by Hyksos rule for around a hundred & 7 years**
 THUS the **18th dynasty** began with **Ahmose I** following **1847 - 1868 BC** or *around in that 21 year* time frame

Born: 1561 BC, Thebes (ADD 324 YEARS = born 1885 BC date of stele (corrected) is ca 1874 BC when he was 9 or 10

 Children: Amenhotep I, Ahmose-Meritamun, Mutnofret, Ahmose-ankh, Ahmose-Sitamun, Ramose, Siamun
 Grandchildren: Thutmose II

When your government main-stream news tells you that bright object is the I.S.S. knowing all the time it is not – what is the government NOT telling you about it? The same with “newly found planet in our system” which they have actually named Planet X! Several scientists have died over this knowledge in the past.

what has been touted as being the I.S.S. 'nearly as bright as Venus' has never been the I.S.S. It has been a planetoid from Sirius (say the texts) here is a link to someone catching it "leaving"

To reiterate: we have seen that the western hemisphere is run by the shadow ‘puppeteers’ from Other Worlds which are proving to be entirely detrimental to the human species and even to mother Earth. If the western hemisphere main stream news (the mouthpiece for the shadow government) is telling us lies about planetoids, then those planetoids are of a *negative* nature. The main reason main stream news was forced to admit our solar system “has another new planet” is because Putin has already told his nation where they can go for safety – years ago. Our western hemisphere “politicians” are looking to save their own skins as this knowledge seeps down to us – when those same “politicians” by hook and by crook (including mysterious deaths of those astronomers who were intending to provide warning)... have denied the public this knowledge, all the time believing they will be safe in their own bunkers! **THIS is why they want our guns.**

Of the books of Whitley Strieber, only two have I read: *Communion* and *Breakthrough*. Neither of which mentions his childhood abuse and both of which mention various differing visitors. Of those various visitors three could be said to be members of the Elohim alliances – the little hooded dwarves, the little blue grey which stayed with him for a week and the tall glowing angelic stranger which visited Strieber during a hotel stop-over (and which resulted in another book). This latter could also have been a shape shifted entity. It is their method of arriving which discerns their source, since those of the Elohim alliances cannot approach the western hemisphere without being dropped from the sky. Those which do arrive ‘manually’ use lightning (the Tau Cetians in their boomerang craft, albeit, these have a type of cigar craft too, witnessed by “William” earthfiles) Even though the Industrial Military E.T. Complex does have a form of dimension gate and looking glass, they seem to be fond of arriving as an e.t. is expected to arrive – leaving those of the Elohim to arrive strictly via stage gates.

Thus, Strieber seems to be receiving off worlders from both sources

C14 Bacteriological encapsulation and the Shroud of Turin dating

- 1) we are in 1692 now
- 2) The Shroud was C14 dated between 1154AD to 1032AD, a period ranging 122 years which on its own is not acceptable and hardly accurate given the expected science involved in the Carbon 14 method. For the sake of the mathematical image, let us go down the middle and just call it 1092AD the median, as the age provided by science.
- 3) From the current date of 1692, deduct say 600 years of bacteriological encapsulation (but this error range can go as high as 700 years) we arrive at 1092, the “median” age of the C14 dating. This makes the Shroud of Turin real.
- 4) For the sake of those who are now confused, we will use the current date of 2016. Take off the 324 years added by Prince Otto and Constantine VII in 676AD and we arrive at 1692, now deduct the age given by C14, the median period of 1092AD and we are left with around 600 years in difference. Allow for the C14 plus (older) error and we get 00AD

The Shroud has been dated by radio carbon method from three laboratories to:

AD 1032 - 1048, 1089 - 1119, 1142 – 1154 (a leeway of 122 years)

add up to 700 takes it back to 300 AD or thereabouts – (a coincidence the Nicean Council edited the bible in 325AD?)

now deduct the MISSING DARK AGES of 300 or thereabouts and the period of the beginning of our A.D. calendar is reached.
