*from 2015 and after...not 1515 (before the Quatrains' time) not 1615, since that was King James (and not Charles), not 1715 = was George I of Hanover, & Louis XV of France from 1710 (Louis XIV died Sept 1 1715). Not 1815 either, since Louis XVIII (Louis Stanislas Xavier; 17 Nov 1755 - 16 Sept 1824), known as "the Desired" (le Désiré), was a monarch of the House of Bourbon who ruled as King of France from 1814 to 1824 except for a period in 1815 known as the Hundred Days. Napoléon Bonaparte (/nəˈpɒliən, -ˈpɒljən/; [2] French: [napələsɔ̃ˈbonapɑʁt], born Napoleone di Buonaparte; 15 August 1769 - 5th May 1821) was a French military and political leader. As Napoleon I, he was Emperor of the French from 1804 until 1814, and again in 1815. So not a Charles. AND NOT Charles X: (Charles Dixième) 16 Sept 1824 to Aug 1830... Grandson of Louis XV •

Kurosaki Ichigo comment: "Reptiles hate it because it can kill them!"

When watching this video which displays a gadget for clearing away chemtrails, just keep in mind that tools like this are often turned into weapons. Such as the ME directed energy/multiple energies sasar, masar, phasar, scalar 'tools', which has become the "Medusine device" which the Industrial Military Complex happens to call the Medusa weapon...

One might ask how can this gadeget affect humans? Stop now, and think. How many heavy metal chemicals do you think your body (container) contains? Begin with how many "vaccinations" you have endured, then look up at chemtrails which cover your drinking water and the food you ingest. We are almost all "wired" as "receivers".

See how the word *orgon* took us to *Medusine* took us to the *Adriatic* !

- **REPROBATE ELITE MISPLACE HOAX - HOMELY RIPS OF FAME REAPPEAR** the only thing I can think of at the moment is the elite shooting themselves [and all of us] in the feet when they set off the « rip » which sent Fukushima terminal. The earthquake (rip) they engineered was a warning to Japan not to get involved with North Korea at the time. Other “HOMELY” RIPS OF FAME to REAPPEAR would be the Madrid fault. The word ‘reappear’ is the clue, because the last time the Madrid fault was active was in the nineteenth century, almost in living memory, so not so long ago.
- **COMPATIBLE RAPE parallel, or equal to an attack, so saying might as well be an attack. EXASPERATE ALL** including the elite – seems to mean they shoot themselves once again. Like teenage delinquents, they never seem to see the real consequences of their actions. That is because they are guided by a satan.

PROFILES MORAL CREATOR HOSTS : the Elohim Alliances for the Living Library – who are finding many ways to warn humanity. For instance sending Simon Parkes (UK) to clarify the reptilian situation. By sending Anton Parcs (Fr) who has actually lived with a reptilian reincarnated entity and authored works which included such names as Ayse. Also via Jim Sparks (USA) who has been at a loss to comprehend the things happening to him, yet still bravely wrote about it, and the ‘chef’ who has been ‘joining’ the ‘ingredients’, the clues and directions provided via Nostradamus’ quatrains. Why do they all have Parks as a surname ? To fulfil the comment made by Nostradamus in Letter #31 to ‘Brototius’: and raising the question of who was Brotot ? Someone who surely was aware of the stargates.

“Here already it has been some time that my dear **Brotot** was delighted by **Parks**, who took hold of our mandate those things amongst us which must be done herself/himself [being] as a priority the best among us.

And let that woman who has the ears to hear whatsoever amongst our mandate. To undergo delivery forthwith...”

quicquid: whoever, whatever, whatsoever spelt ‘quidquid’ here

est: AS apud: at, among, in the presence of, at the house of

nos: WE/US/OUR boni: BEST/BETTER benefit (noting Nos tra’damus means “our gift to you”)

quamprimum: [forthwith] sibi: [to undergo] vendicat: [delivery].

P. Brototius filius [son] iuvenis [young] est [as] admodum [completely] is this saying the ‘complete son’? Would that be Immanuel?

P. Brototius:

IS OUR PURIST ^{pendantic} **POIROT** ^{detective} **PUTS BOOST ORBIT TRIP OUT OS** (UPROOTS BITS UP). **STIR OUTPOSTS, BOOT UP BI BITS, IS ROBOT BUST OPT SPUR, OUST, TO STOP PIT RIB ROBUST TROOPS RIP, BUST, POSITS ROB TRIP. TRIO STIR BOTS TOO. STUPOR-POOR SUP** partake of U.S. SOUP. **SO ORBS TRIP UP SIR TRI STOP BUS.** [trip]

(The forum **LANGUAGE ENGINEERED** promises to be quite interesting)

- **POIROT PURIST** great detective **ORBIT TRIP OUT** just as the Hopi prophecy rock says **OS in Capricorn**
- **STIR OUTPOST** the planetoid (video Melbourne, seen launching from its orbit)
- **ROBOT BUST** that creature with no nose appearing as a pharaoh bust which Sir W Petrie discovered
- **PIT outer space RIB** of Leo constellation = Chertan **ROBUST TROOPS** the supersoldiers
- **POSITS ROB TRIP** using CERN and the other ‘particle colliders’ influencing our inner core
- **TRIO** early in these texts the triads were mentioned frequently. These were the other three parties signing the ‘treaties’ which seem to have begun in 1933 with F.D.R. but may have begun as early as 1909. This triad was composed of a Zeta45 grey, a shapeshifted reptile and a “Nordic” from Alcyone – **all of whom came out of Antarctica**
- **BOTS IN SOUP, US. POTS** – the nano bots in many different types of ‘soup’ one of which is ‘vaccines’ from test tube ‘pots’
- **ORBS** of the Elohim Alliances **TRIP UP SIR/Marduk**, who has been using the CERN trying to stop the ‘bus’ moving out.

Letter #31:

P. Brototius:

IS ROBOT BUST OPT SPUR, OUST, TO STOP PIT RIB ROBUST TROOPS we have already learned who the “rib” in space (pit) is – those from Chertan at the “rib” of Leo constellation

Here is the LyRan – see he is minus a nose?

The word “robot” tells us much – that it is a biobic, with the Elohim alliances

This is the ancient artifact found by Sir. W. F. Petrie under Giza, and whatever else he found there that day sent him on an immediate mission elsewhere. This was found secreted behind the library of the eminent archaeologist

- **It came to me in my sleep, that the Celtic Zodiac Tree « months » do not have as many days in each 'zodiac' month as the Astrological current 'months' do. For instance ALDER is March 18 - April 14 is 27 days. When going through every single tree zodiac, all thirteen of them, they totalled 354 days for a Celtic year. There happen to be three 'odd' days in a Celtic year, Samhain/Yew/Halloween, and that month has one extra day and then there are/were two others considered not auspicious to talk about, and they were 'no-name' day (Mistletoe) December 23 and 'eve' of winter solstice, December 24th (at the time). Having an orbit (year) of 354 days indicates a time before we had 360 days (which the Mayan called a 'tun', up until 705BC according to Chinese records) when our year went from 360 to 365 days. Now we have 377 days at the moment, an extra day in each month.**

So what caused these alterations in our orbit ? Were they the result of a polar shift ? Or a passing (shar) of the Nemesis system ? If they were consequence to disruption by the Nemesis system, they should coincide with a shift of some sort in our planet and orbit. Our new 377 day current orbit is a result of the approach and passing over of the current shar of Nemesis and its system - and could well alter more dramatically yet as this system leaves us. Think Doppler effect, which has been named in these texts. Interesting that 354 divides by 6= 59 times. Six is an Anakim base number, they who say they designed the 'sign posts' called the Zodiac, the numbers of the hours in our day and all things related to divisions of the planet, such as the latitudes and so on.

The number 59 happens to be two solar orbits of Saturn, probably means nothing much.

- DEAF MUTE – those who are not being told (cannot hear) nor cannot speak/repeat the truth – DEFECTvb are defecting to the life which does not include electricity supplied the way many think it can only be supplied, via a grid. These 'deaf-mute we call 'preppers'. At first it will be 'merciless tedium' because we will all be shunted back to a stone age.
- **'MESMERIC MICE'** this is the *Blue Mouse Protocol*, which you will not find on the intern-net (**DISCREET IDEA**). This is the 'mouse' reference amongst the poems of Nostradamus in his Latin correspondences. The *Mouse Protocol/ Project* is an absolute mind control agenda involving the "Cloud" and other "smart" programs.
- **MID MA** either mid Libra (Sept 22 – Oct 21) or mid October **SCARE**. There are many events projected for this date, but the "scariest" ones will be the "great Translation" of Earth and the False Rapture taking advantage of it, or E.T 'invasion'.
- **FRAMED FARCE FEAR RACE**. Recall the warning that the *cloned Von Braun* told Carol Rosin, that he said to her: "they will invent an alien invasion saying they are dangerous aliens". When it seems the *first public 'visitation' WILL* be the Elo'him come to deal with the "dangerous ones" and these ones (we have learned) will be coming up from below... it will be what was our military in their ships making out like they are the "bad" off worlders. This is the the 'second coming' the 'good' ones (and almost too late the quatrains say). The 'first coming' was the false Jesus (the one in the Last Supper) shape shifted and surrounded by his twelve 'disciples' and also the front men for those who "arrived" long before. Jesus copied as if he was the real Immanuel/Yeshua. Peter the misogynist "patriatch" in the Last Supper (who turned into Marduk) was the real leader of this pack.

SHADIER VON BRAUN UUHO 'HATED FEAR' here we have an oxymoron – which is also what Von Braun was VALUED MANY BENEFIT THAT THEY NAÏVE ROSIN HEAR.

Carol Rosin was one of the main "witnesses" in the Dr Greer May 2001 "Disclosure". Interesting he has called his 'documentary' *Sirius*. Another intriguing clue to the negativity of those from Sirius is the subliminal messages within advertisements mis-pronouncing the word "serious" as "Sirius". Notice the 'greys' with huge blue eyes in some ads? Blue eyes are psychologically considered to be trustworthy. A benign race of Off Worlders would for one thing, not be involved with commercial advertising and secondly not need mind control to 'implant' any messages influencing one's natural thinking.

- 1) **Von Braun** (the cloned plant) warns that it is not really bad aliens arriving, but the **Black Ops 'humans'** after their **NWO chaos scenario** "joining the world against a major 'enemy' – false flag of all false flags"
- 2) since Von Braun was a plant – the opposite of what he said must be the truth, a **true real enemy** (from below) with the agenda of owning our planet via a **New World Order**. Keep in mind the word **Order** is usually reptilian.
- 3) **the third scenario being that those underground Grayles using the looking glass have seen the real Elohim** Coming and want us to treat them like the enemy, getting us to help them do their dirty work! **Via a N.W.O.** **Why do they fail to understand the potency of the Elohim Alliances Who have kept our planet viable so long?**
- **MOLE HEN** those from **Grus/Bennu/Phoenix** who have **cameleon moles** such as **McCain** and **Soros** in positions of influence

- **(MOLE HEN) ENTICED TIMELESS LEMONS:** those behind the lemons in the Last Supper being the Anu family, with the word **TIMELESS** quite appropriate because they are almost immortal and when they aren't, they use stargates! This then explains the connection between those from Grus building the pyramids world wide and the Anakim who wrote about it. There were female Mantids overseeing these projects – and their agenda was slightly different in that they made the pyramids as sentinels. Computerised Earth Defense Systems. Albeit 'out of tune'. This was what Tunguska was all about, and the dating of the five Bosnian pyramids to around 30,000 years ago corroborates this particular parallel agenda for pyramid power.
- **SECOND NET FELT END SECT** the J-Rod greys need a book of their own, and by researching Dr Dan Burisch one can learn much. Here again the texts corroborate details which are found out in the real world. This was how I knew James Michael Casbolt was telling the truth in *"MANNEQUIN A.I. DANGERS"* when he spoke of those from Aldabaran being hand in hand with the Nazis under Antarctica were the source of *child sexual deviancy* in the programs he suffered. These texts call those from Aldebaran "sexual rogues". It is the same with the J-Rod, which has been called Che-rub-im historically, and they do use "Che" as the prefix to their individual names. These are the infamous greys which most people are so accustomed to seeing, and who think they are the only greys. Often I have wondered if they are the Igigi of the Anu. Their origin was the Zeta Reticuli constellation in which sits Serpo, but those peoples have divided into a 'breakaway' civilization between those from 45,000 years into our future and those who broke away from that soulless type to overcome the soullessness of that infertile techno-society in 52,000 years of our future. These J-Rods then overcame the problems of both soullessness and infertility, with three genders, moved to Gliese 876C near what we call Aries now and have been returning to repair time lines having allied with the Elohim group. This is what the Bee/Wasp is on hieroglyphs: –since the constellation Apis the Bee/Musca the fly/Vespa the Wasp was where they came from, and this constellation has now been partly absorbed by Aries. The texts also call them He-Rods, giving them the male gender which is one way of discernment.
- So we see, consequently, that there has been at least three different greys involved with Giza (centre of our land mass). The 'Igigi' Zeta45, the J-Rod52 (aka "the hero", named exactly this way in these texts) and those from Lyra with no nose, which we have seen as a pharaonic statue bust kept by Sir W.F. Petrie. Interesting to comprehend that these [computer generated] texts by Allan Webber state that Nostradamus named his assistant in the 'stage gates' UUilliem52, with the 52 appearing as LII. Nostradamus said he was "quite fond" of UUilliem52. Since Allan Webber (when I last asked him) said he does not believe in aliens, and it was he who programmed the "dictionary" for his anagrams template – then one must ask *'how did the computer know to create that name?'* It is very important to keep in mind that computers **came to us** indirectly from the Zeta45 greys which were the 'front men' (one of the three 'signatory' in the "treaties") between the Military and the Anakim trading technology for humans. So you see where the words **SECOND NET** derive. Reticuli means **NET**. Also the word **FELT** is not one applicable to the Zeta45. The **SECT** in question would be a [Muslim/Roman] religion.

Monarchies perira. La befte

where "perira" means "perish", Marc diGuiseppe wrote pointing out the **AMBIGUITIES** in this word. If one has read the Epistle to Henri, where Nostradamus must have been crossing his fingers as he wrote *"and no ambiguities..."* one needs to also be reminded that the Hidden Texts gave us permission to use **"aphesis"** (the *silent* letters which do not appear such as in Knave or Icke). This is almost magical when one realizes that removing the letters "nave" can mean that the resulting remainder will still refer to Knave, the black Knight, or the letters "Ice" can still refer to David Icke in the rest of the line! Marc diGuiseppe has pointed out quite rightly that the word "perira" could as easily mean Pereira. We have also seen that for the purposes of working with the *codes within codes*, the word needs to be capitalized – and we have seen a few town names minus their capitalization which is telling the decoder not to include that word into a *codes within codes* guidance. To date how the *codes within codes* directive arrived has not yet published. It is almost enough for a small book, so later. The secondary meaning for perira is "pear tree" and is also a name for Sephardic Jews inhabiting Portugal, Galicia & Brazil. Whether this pear tree is a date or a place needs to be considered. Normally the date for a tree means the date one can pick the fruit (such as the figs description in the bible, and the date for hazelnuts in the Keltic alkhemye lists). Pears would be late or high summer. So, what does this line mean? The beast [in high summer] are the monarchies? Does it mean the reptilians make a move in the heat of summer?

Or does it mean **"The Dragon Monarchies killed the beasts."**

(Remember: Jews were not considered to be human beings by the Ecclesiastical Cults. MdG)

Without syntax it is saying "Monarchies perish". "The beast"... *with* syntax it is saying "Peireire monarchies" is "the beast." From what can be determined in these texts:

YHWH/Enlil is of reptilian format. Keep in mind those from Benu/Grus/Phoenix are "cameleon" (chameleon) allies, such as John McCain (per Chani) and George Soros per 9 98 3 Aux Lygonnois mandera que contraint...

YHWH/Enlil is the "god" of the Jewish nations, who in their lack of general understanding do not realize they are praying to a "beast" (same for the Muslims and their "Allah")...

The very bible edited so many times yet managed to hold onto a few original words until the Catholic doctrines changed it. Note the word "which". This also appears in the Lord's Prayer "Which art in heaven" until the Catholics changed it to "who". Why did they do that?

No idea who it is meant to be.*

The creature shown with others inside the red circles - is this the "lamb"? One with much to hide it seems. The unidentified 'person' could be the Sasquatch, since these texts have been telling us that there are some Elohim in the Last Supper as well as the "creatures". It certainly looks Neanderthal, and the Sasquatch do use a type of technology which can make them invisible to our eyes. The broad nose might indicate something too, such as extra large sinus for sonic resonance. To obtain a close date for the little bible might be as simple as determining when Medieval (Shakespeare-ian) "ye" became "the" and when the word for son as "sonne" was still in use.

* No idea who it is meant to be: is it a modern Nephilim, one of the two species - due to the red beard??

Ninurta, according to these texts, has a very red beard, but is "neat and tidy" in appearance, and is "slim"

left side of the face: image - appears to be a lamb - so these two, derived from the same disciple are fulfilled as "wolf in sheep's clothing"

As usual, while searching for one thing - I find another.

The Da Vinci portrait on the left has the spookiest eyes - they seem reptilian to me. Indeed, the pupil has been emphasised by throwing a shadow of it onto the lower lid!

On the right is the person hovering behind Nostradamus in the Last Supper, and above the person used for the Sasquatch here. By covering the left half ~> we see a lovely profile, yet by doing the mirror trick we receive a very life-like bat, nestled into the palms of a three fingered creature.

There seems to be an image inside the bright blue, and in the green beneath it.

- HAG-FISH a hag fish looks like a giant leech, so the double meaning in this description includes Leech constellation, and the HAG/crone (chronus = time) means the age of the FISH as Pisces – a constellation in the SEAS where Grus sits. We have seen that there is an alliance between those from the "crown over Orion" (Leech/Hirudo) and Grus GHOUL. Especially in the Sixaines in Centuries Eleven and Twelve (which Wikipedia denies existed and deletes each time I try to include them) but which were found "rendered to Vulcan" behind the fireplace of Nostradamus... and in which the name Leech is in plain sight.
- **HUGE GULF OIL LIES** the Mexican Gulf Oil Spill has **not** been capped, and the lies regarding this are huge, because this spill combines with the radiation from Fukushima – contaminating the entire planet 'INFINITELY'. - **GUILTY NINETY GUILF** there are a couple of different meanings for the word 'ninety'. One is a 25% of a circle. An obscure meaning could be in the nineteen nineties (1995) when Chani came thru the secret particle collider in Africa and provided helpful advice during the ensuing ten years until 2005 when he left. That information has been kept secret for the most part from the rest of humanity, with some being leaked. This was called the **CHANI PROJECT**.

We now know who the DUNG ones are, they are the 'Pile, Heap, Manure' under the 'tail of Taurus' and also the "third" peoples of the Antechrist we have just learned. The "second" species of Nephilim (fallen ones).

Just in case you think I am making this up – here is an image in which one can see for themselves, the "Manure" under the tail of this chimera Phoenix = (Benu/Crane/Grus/Heron/Ibis) and note the sword which is "held within" that pile of Dung. The Sword means Orion – and "within" the Heap means the genetic structure of their DNA is Orion related. Actually, the sword of Orion is not a sword, but his penis, no warrior wears a sword between their legs! The "face" of Nostradamus means in Scorpio. The ears mean both Virgo and Auriga – both of which are constellations and a date. The coronet means Sirius. Reiterating what Nostradamus said in his Preface to Cesar – the directions to "reading" the vignettes – "first and always – go to the stars". In other words – seek all your answers in the astronomy, real "time" calendars have their true secrets held there, and the Other Worlders come from there. At top, behind the moon (in their own planetoid) are the five stars of the Cassiopeians. Then we have the Orion's Belt. Held in the tail are the nine stars of the Pleiades hovering over their wayward member Alcyone, inbred by those from Orion and along the spine of the Phoenix are the seven stars of Ursa Major of Anu.

.everything/chemtrail ILL-TEMPERED-NINURTA-IS-IN-BARREL DATE (is/Jan.21-Feb.17.And see 8:10:2 "arrives in Aquarius"

The 'little Bear' here means one of two things, either :

Russia, because Ra (formerly E.Yah) [with 3 lines telling us so] is backing Russia in order to save the earth from genetically
manipulated organisms - which are part of Ninurta's « murder » plan.

Or Ursa Minor, the polestar pointers, pointing at Ophiuchus, which would then be read as RAS' (head of Draco constellation)

If it had not said "Ra's" little Bear, it would have been comparing to the 'big bear' of Ursa Major/Anakim or it could have meant
those of Ursa Minor (the same as those from Ophiuchus, Phil Schneider's grayles under Area 51 which are the shadow of the shadow
[elite] "government")

The underlined letter simply means apheresis is used (silent letter).

The L & F dates are the same as those of the « SPY PICA EASTER 3:33:3 » which is F/Alder tree zodiac March 18-April 14 and "L" is
in Pisces (Laguz sky rune of Pisces)

'PICA' means fanatically/obsessively eating something foreign to the normal diet, such as cannibalism

If it had not been for Janet Lessin introducing me to Glenn Bogue, the "MEAN-ART-BRUTE"^{Leonine} words would not have been
understood at all. This is a direct reference to the 'Eucharist' lines in the forum LEONARD & ENKI recently published :

LEO'S (Sphinx) **DESIGN EQUATED ANU KINGS SIGN** (and looked like Ninghizzida/Hermes/Thoth says Tablet #10 of Enki) and - who possibly did have a lion's head. The word "Leo's" could also mean Obama, who was born a Leo.

see the comma at the end of line four,
this tells us quite clearly to find the other quatrains which refer to Italy (Adriatic) and the consequences of volcanic activity from here causing the contrecoup on the other side
In very recent forums which are related to this one, the hidden texts also say that a false 'meteor' or 'asteroid' will be sent across the Adriatic to set off the 'Serbian Basin alive' and this then sets off other super volcanoes on the opposite side of the planet. "Three sleeping giants" Mother Shipton said. The one directly antipodean to Etna is in New Zealand.

The living pushed back and murdered instantly. [note: murdered]

Other warnings in these forums say that the false meteor which sets off Etna then consequent to Etna, sets off a large volcano on the other side of our planet (contrecoups). Although the plan to bomb Yellowstone in October 2014 was thwarted due to losing their jump room on Mars, the elite have now opted for a nuclear attack on Etna, and THIS is why the word “murdered” is used in relation to the high platforms around the ‘park’ of Yellowstone, set off by Etna, set off via an alphabet group. Whoever they really are inside the alphabet groups, I wonder why they do not see that they are not also immune to the evil they do, as in “whatsoever they do unto others, they do to themselves”!

"It appears that Gog will persecute the Sunnis and ally with the Shiites much after the fashion of Raypoz, his Attilian 21st-century predecessor. According to the prophet Ezekiel, Iran, Ethiopia, and Libya will be staunch allies of the land of Magog. Gog and his Persian-African allies will attack Sheba (Yemen), Dedan (western Saudi Arabia), Tarshish (southern Spain), the Lions (Great Britain), as well as the mountains of northern Israel.

It is at this point that the science and technology of war will take a back seat, for the hand of God Himself will punish the land of Magog and its allies with an all-consuming fire. **(The great Solar Flare??)**

Suddenly cities all over the world become depopulated by what appears to be a catastrophic nuclear war resulting from the **supernatural** destruction of five-sixths of Gog's forces. According to the Book of Revelation, one-third of the world's population will die during this holocaust. The size of Gog's army is also assessed as being 200,000,000 strong. **That means that 167,000,000 Asian soldiers will be incinerated by God's celestial fire**, which many may interpret as a space-born phenomenon.

The powers of Russia and Northern Europe will save the badly-beaten Western nations, defeating the remnants of Gog's army and his allies utterly. After a seven-month cease-fire, the Far East commits unforgivable violations, renewing the war. Two powerful Northern leaders then destroy the Great Wall of China during a devastating attack on China and the Pacific, thus ending the War of Gog." <http://www.newprophecy.net/antinostro.htm>

- Now that we know who/what the 'mean art brute' is from the Last Supper painting by Da Vinci, the Lion creature wearing the baphomet icon. The 'ill bred' Arab refers to Allah.Lu. It simply cannot get any clearer than this. Those Leonine creatures from Chertan are involved with the Anakim Ala.lu/Lucifer and the Monsanto *et alia* agenda – "MANAGERS OF ALL" 6.59.3
- actually the wording in the texts is : **ABSOLUTE MANAGERS UP..** and see how Da Vinci has portrayed shape shifting ?

NINURTA.IS.TIRELESS.SURREALSTIC.SUBNATURAL.PLANET.MURDERER-ELITE'S.FALSE.PLANET.NURTURER.ABSURDISM

- a direct pointer to the erstwhile reason for chemtrails, that they are for 'protecting' Earth from 'global warming' when they are in fact *causing* the greenhouse effect. This was proven in the ensuing days following Sept. 11 2001 when all air craft were grounded. The temperature dropped four degrees in those days (Nexus Mag. May-2002) The reason no parliament will debate the issue is simple. In doing so the subject of all the other planets heating up will arise followed by the cause – the incoming Nibiru solar system perturbing them. The paradox is that the Earth is not heating up like Pluto did. Recently scientists announced that the Earth has an envelope, a shield, the "aegis" and these texts say it is the *core of the Earth* which is heating up. Those who have been « stealing helical casing » and displaying angels at the sun which are larger than Jupiter – have been *creating* the solar flares problems which assists the chemtrails agenda. A reminder for all of those readers who still think SaLuSa is a good channel from Sirius, that SaLuSa is part and parcel of this agenda (« Sirius is his » 4 44 1, that is – allied with this Lion)

These texts have shown

- 1) the real floor plan of Giza and its real meaning (neither Orion's Belt nor Cygnus)
- 2) the real course of the great "Ages" : – we still have several centuries before the end of the Pisces "age"
- 3) the real millennium we are in is not the one we think, due to manipulation by those in whose image we are made
- 4) that stargates are real, and once one 'civilization' has them – all 'civilizations' have them, and this is what the doctor meant when he wrote to Cesar saying 'the past, the present and the future are all one'.

And this is how the Templars had possession of a looking glass, the one taken to Oak Island.

taken from the left side of the face next to Nostradamus in the Last Supper

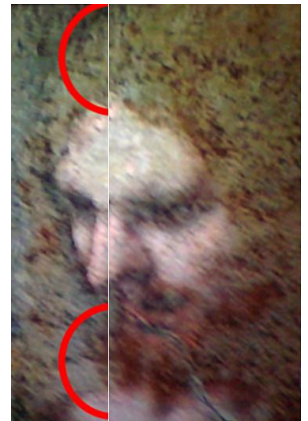

This is taken from the right side of the same face and seems to be in the process of shifting shape, like a chameleon. No idea who it is meant to be.*

Just to show you more of the genius of Da Vinci, as if anyone needs to be reminded – in the Last Supper - on the right is the person directly next to Nostradamus – looking down at the Therses hovering in front of them. →

After being "axed", "mirrored" and rejoined, it becomes two very different "creatures".

A "lamb" and what might be a Dero/ Fallen angel – or even a Sasquatch. These texts tell us that there are some of the Elohim hidden in this painting as well.

You could have some real fun doing this too.

Prognostications 1565 by Philippo Nostradamus

If he was born 1539, he would have been 26 (same age as Da Vinci had been when he had been "gone" for two years).

Both father Nostradamus and son were still alive in 1565

See the sub-title of *Les TRIOLET dv TEMPS* = (THE THREE TIMES)

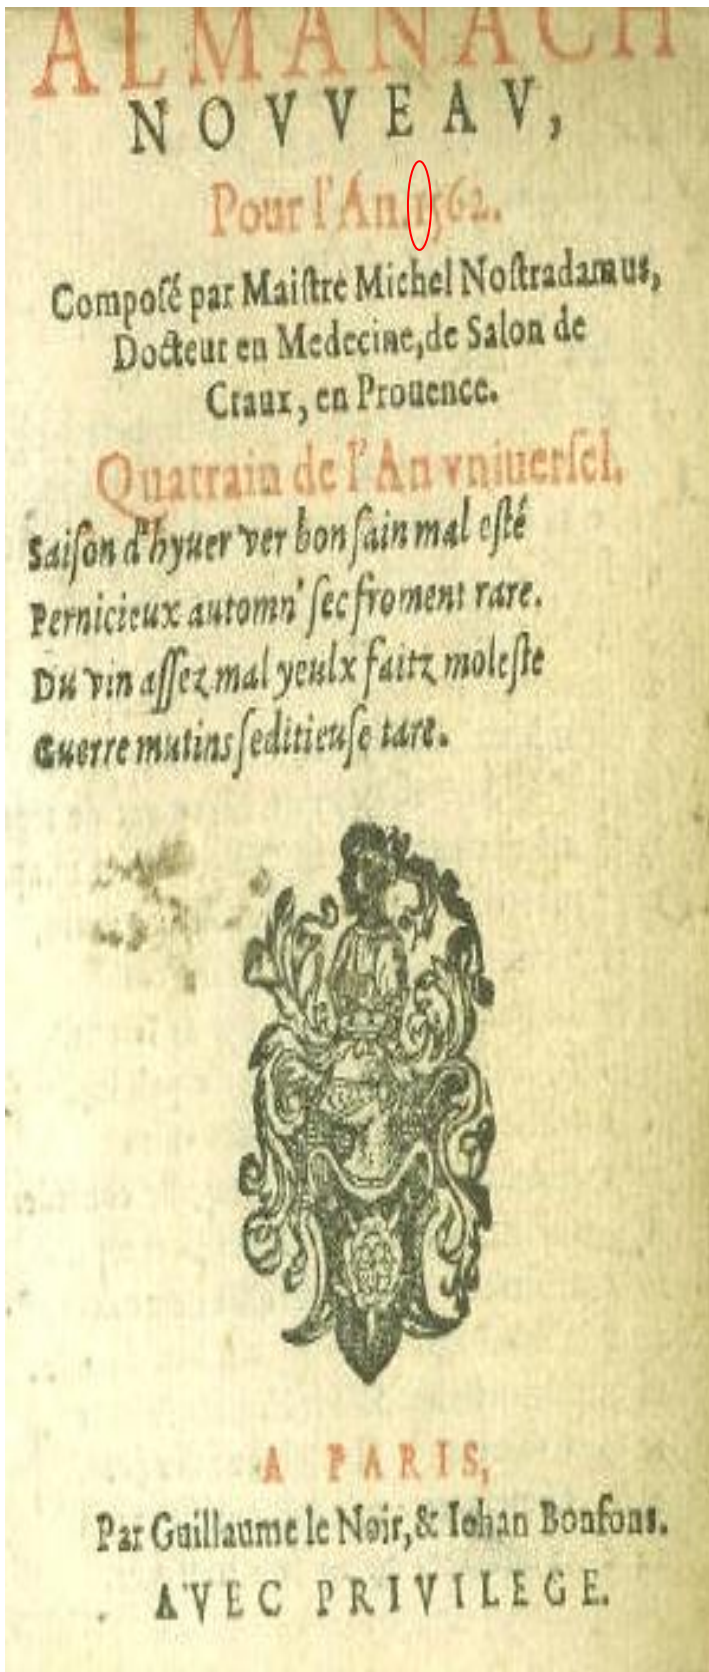

"visions at Salon of a petit fils" being a pun it would seem to me. Followed by "of the Great Nostradamus". With Michel de Nostradamus still alive at the time of this publication – the claim must be true, since there has been no argument from the "Great Nostradamus" regarding the claim. The date of DC.XLIX is 1549, so which Nostradamus wrote it? The 'young/small son' Cesar had not yet been born in 1549.

1565 – Nostradamus died 1566, but see how he has divided the three Roman numerals by using a different colour? Was this a hint?

There are two different constellations in that background. One has six stars (recall the “sixth brightest” in 2:5:1 which was Lyra) others when ‘searching’ claim it is Vega, Capella, Rigel or Canopus.

The other has seven quite largish stars.

The lay-out these stars are in gives no real clue if they mean Cepheus and his seven children, (1:10) or Ursa Major which as the Plough and the Cow’s Hind Leg had seven.

See the sink hole? The area looks very much like Milan.

The calipers once again showing us about a 5,000 nautical mile movement of our round planet, not without scrawling two half attempts beforehand.

Again the branches of the tree show a very sparse growth and what is that black bird? A Raven? This means in Yule (and August). Is that a mosque?

The Arm (Cepheus) and the Hand have a say in the calipers. The word Hand singular means Betelguese, and plural means Leo. Where does the new equator travel? There is a scroll out of sight which contains the Latin words

SPATTIS DIMETIOR ORBEM

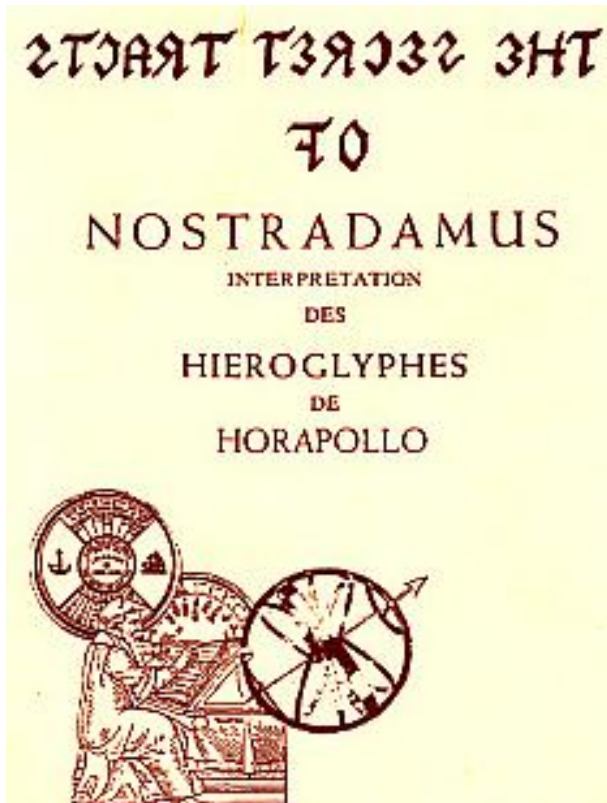

There are a few comments to make here.

First – see the characters of the date? The ‘568’ is quite removed from the **I** which, in my opinion is a capitalized “i” and not a “one”.

In the font these numerals are, one - “i” would have this appearance or like a **1** or **1**. The only font I can find similar in the ‘one’, is Centaur which looks like this **I** but the other three digits in Centaur look like this **5 6 8**, so, in which case, it should appear as **I568**. Compare the **5** in the Centaur font to say, the **5** in Collona. Since the texts themselves have guidance as to which font to use, that of (Garamond) and later Centaur, the fonts must carry some weight. **I 568 is in Garamond or 1 568 also in Garamond.**

This frontispiece is not in Garamond, and it is two years after the death of Nostradamus. Note the **Pisces** and the **Sagittarius** inside a ‘ring’. A morose cherub at top, **Cepheus** holding a bare branch in his right hand a flagellator in his left, I actually think this with its ‘three arms’ is Arm.Marg.Eddan. The words say **DOMINATOR IN ARCE** Sagittarius on the left side and **IVPITER** Jupiter **AETEREA** ethereal/divine **SVMMA** highest/everlasting group on the right – over a happier cherub. If the Sagittarius is the dominator date (or Draco), the dead branch must be Pisces (Grus).

THE SECRET TRACTS OF NOSTRADAMUS
INTERPRETATION OF HIEROGLYPHES
OF HORAPOLLO (Horus Apollion)

so saying the secret is hidden within the words
"The Hieroglyphica offered a treasure trove of new allegories that the humanists utilized either directly in their works – such as the famous Ebnepfote, by Albrecht Dürer – or, more commonly, by consulting the very complete and systematic compilation undertaken by Giovanni Pierio Valeriano, also entitled Hieroglyphica (editio princeps 1556). But the major relevance of Horapollo's book consisted mainly of inaugurating a new and widely disseminated model of symbolic communication. Beginning with the previously cited Ennead V.8 of Plotinus, along with the commentaries of Ficino, hieroglyphic representation was understood as an immediate, total and almost divine form of knowledge, as opposed to the mediated, incomplete and temporal form appropriate to discursive language. These ideas inspired not only Ficino or Giordano Bruno,¹ but also Erasmus, Athanasius Kircher and even Leibniz. On the other hand, this work initiated the mode of "writing with mute signs" (Alciato) – as expressed in the preface of so many emblem books – thus contributing decisively to the evolution and popularity of the emblematic genre. In fact, as Mario Praz has pointed out, in this period emblems were normally seen as the modern equivalents of sacred Egyptian signs. Horapollo, Hieroglyphica - emblematica.com

Footnote

1.545 /= 2003 (when Iraq was taken, Seven & fifty years of peace ended)

The year 2003 is derived from 1-545 by adding 458 which is the 'year' cipher the texts themselves guided us to

In the subject of more than one cipher key for numbers/dating – see the following lines from the hidden texts which explains how the Jain key was found, as well as saying there are plural keys.

One really needs to simply cast one's mind over the almost impossible coincidence that anyone at all would find the code! The chances of prying eyes gaining the information in a given immediate time frame are practically nil. Nor even putting several people to the task. It requires *one* mind with a useful memory, it requires the Template and the knowledge of the "key" words. It was Allan Webber who accomplished part one of this. The word "Jain" as confirmation was well hidden just to top it off. To find all these lines *ad hoc* in documents with ten thousand lines and to recognise that any given one applied to any *other* given one was a task for years of work. Allan would have only had one key word to work from, the word "zero".

The rest were simply "curious" to me so they were "collected" for "later". This is what the collator does, *collect and put together*. Just to show you how these lines first arrived to be collated, here are the original examples for you to see for yourself. They all derive from Allan Webber's computer programmed Template.

We have learned that the word EMPIRE always relates to a reptilian agenda. This includes that of Napoleon - ever wondered what it was that motivated and prompted the little egomaniac? Here is a thought - what was it that really defeated Napoleon?

No doubt also meant to be anagrammed – and see the words *de quinze ans, puis apres* “of/from year fifteen then after” which in the 1545 version is shown as **de xv ans**.

The instant reason this caught my eye being the incongruity of the number 15 as a year in an almanack which was dated no where near a year numbered fifteen.

No wonder people branded Nostradamus a false prophet – he was not even speaking of the current times! About the closest a reader of those times could have concluded would be a millennium fifteen. So let's just take that line first.

While researching, tip-toeing, around the subject of Philip/Filippo Nostradamus of Venice circa (written about in) 1573, where all modern “scholars” have referred to him as the “nephew” of the “great Nostradamus” – and where I could find no brother nor sister of the great Nostradamus who may have produced this Italian child named Filippo Nostradamus (please correct me if this can be found otherwise) – nor could I even find the birth and death date ~ (but my searches are being censored). So, by which mentor did this *Italian* Nostradamus receive the same information that the great Nostradamus was *given*!

In the medieval [archaic] French – dated ca 1400 with an open end date, the words “son petit-fils” hyphenated meant “his base born son”.

If a person were to speculate having in their possession very brief information – that Nostradamus had left town following the death of his entire family and headed off towards the Levant via Italy. This much is known, (and stated in 1403) but the age of Nostradamus at the time of this shocking event is also not known for sure, and even the length of his time away varies from six to eleven years.

The Chinese Whispers down the centuries have done much damage – but probably a good thing in many ways. So, say we take his age at that age in which he appeared at the Last Supper. He must have been in Italy both in those years during the lifetime of Da Vinci (and before he was even born) or on the road in the area of Italy during his travels (in real time). If we take his age at approximately 36, as he appears in both the Last Supper AND painted by his son Cesar early in the 1600’s – (making me think Cesar may have also received time visits) – then the possible date for the birth of a “base born” son would be 1503 + 36 = 1539. This would make the date Filippo was written about in 1573 quite plausible. he being around 34 himself.

From French – English Word Reference, the modern spelling is hyphenated, the “scholars” not being aware that this means “base born” (from the archaic French) then in the next search, same page

petit- (fils de son enfant) limited, low ranking, petty, little-known, modest birth (bastard) **same page:**

English: petit- **low grade - offspring - shirttail - short - small - small-scale** – a little thing – inconsequential

example: C'est un petit employé de la banque. He's a low-ranking employee at the bank.

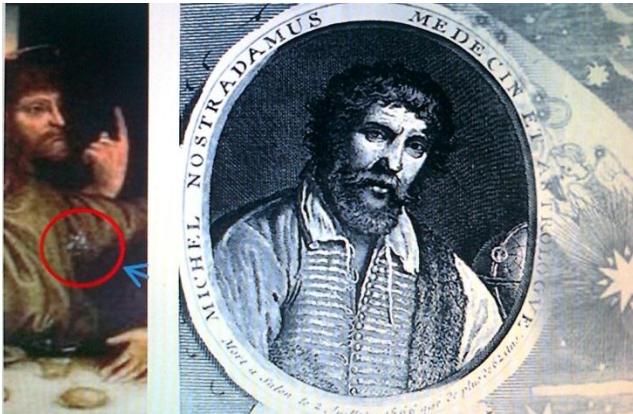

Book: **Triplets time, according to visions of a *small son* of the great Nostradamus.** Duval, Jean (16 ..- 1680)

¹⁷ Filippo Nostradamus, *La Salutifera*; Crespin, *Prognostications avec ses Présages, pour l'an MDLXXI*, [8]; Anon., *L'ami de la religion et du roi*, November 14, 1827, 32. and

Les triolets du temps, selon les visions d'un petit fils du grand Nostradamus

now: WHY would a man describe himself as a “small son” or even as a “grandson” of a man known to be about 36 when travelling through Italy? Answer: he didn't. He did as men have been known to do; admit, even advertise their base-born birth, such as William “*The Bastard*” which is how William the Conqueror did sign his documents!

now is this *d'un petit-fils* a grand son of Nostradamus or a bastard son? The author Duval if born earlier in the 1600's would be writing about a direct son – because even Cesar was still alive in the early 1600's. But notice what the title *Les triolets du temps* means? The triple method, so I have no doubt that the “petit-fils”

The evidence for asking the main questions rests in the Therses encircled. The Therses is the famous “flower of life” as people like to call it, but in full dimensions. The first question being “if that really is Nostradamus in the Last Supper, then how is that possible when he was not yet born for several more years yet”? I now believe that The Doctor visited his son Cesar (an accomplished artist) and had him draw up the portrait ca 1600 (over a hundred years after The Last Supper) – just so that we, here and now, **can make the comparison.** Same haircut and beard trim.

1553 – 1629, Cesar de Notredame, who was 13 when the doctor died in 1566

<http://webapps.fitzmuseum.cam.ac.uk/explorer/index.php?qu=Helleu,%20Paul-Cesar%20Jean%20malade&oid=165944>

By 1529 “Le Charbon” [the plague] had subsided enough for Nostradamus to return for his degree...

in 1537 again, the plague returned. **[This would have been the period he lost his family. He would have been about 34]**

“He made another circuit through the cities of his past successes, stopping at Toulouse to set up a more permanent practice.

There he received a letter from **Julius-Cesar Scaliger** in 1534, inviting the doctor to Agen. Scaliger, respected as second only to Erasmus, was one of the greatest scholars and philosophers of the Renaissance.

They become fast friends. The doctor delighted in sharpening his wits with the mercurial mind of Scaliger. Nostradamus settled in Agen near the home of his mentor. He had fallen in love with the town's bright sunny skies and dry climate. His medical practice flourished. Soon the wealthiest families in town were parading their daughters of marrying age before his eye. He married a young woman of great charm and beauty whose name cannot be confirmed ¹ She bore him a beautiful boy and girl. Nostradamus lived an idyllic life for the next three years, spending his days at the Scaliger's house surrounded by some of the greatest minds in Europe, and his nights nourished in the love and security of a happy home. In 1537 plague visited Agen with the clatter of death carts on cobblestone streets. Nostradamus sprang to action with all the confidence and energy of the past. Each day he bade farewell to his healthy young family, thanking the Divines for their continued good health while death stalked the households of Agen. One day he returned from his tour of wealthy patients to find his wife and children burning from the fever, their faces developing the black boils of the “Le Charbon”.

Every technique failed to cure them. The healing hands which cured thousands wrung themselves helplessly as they all died. Word of the doctor's personal tragedy spread throughout town as a great scandal. Most of his patients deserted him. His wife's family demanded he return her dowry at once. When he refused they took him to court. Nostradamus had a terrible quarrel with Scaliger who was known for breaking his friendships and who chose this moment to strike out at the grieving and vulnerable doctor with singular cruelty.

As if this were not enough Nostradamus suffered yet another blow, this time from a remark he made during happier days to a workman casting a bronze statue of the Virgin Mary. Nostradamus was known for having a biting sense of humour and his remark to the workman had been in reference to the “casting of demons”.

The joke came back to haunt him three years after when the workman, nursing revenge, saw his chance to strike the fallen doctor by alerting the Church authorities of Nostradamus’ comment. The doctor was called to stand before a preliminary hearing on a charge of heresy. He defended his joke as an innocent description of the workman’s mediocrity and nothing more. The Church authorities remained suspicious and Nostradamus was instructed to stand trial before the Church Inquisitors at Toulouse.

He escaped from Agen under cover of darkness, **heading his mule east to Italy**. He would wander through Western and Southern Europe avoiding the Church Inquisitors for the next six years, trying to pick up the shattered pieces of his life in a pilgrimage of self-discovery.” (and see 1:40:3 One assigned to Egypt to study history...where he learned about time gates It was during this period that his prophetic powers awakened. <http://www.historynotes.info/nostradamus-the-renaissance-man-2509/>

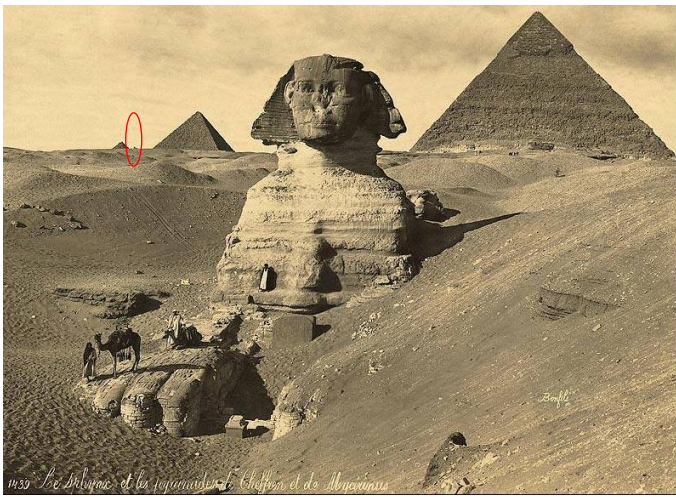

FILIPPO NOSTRADAMUS

Italian source unknown

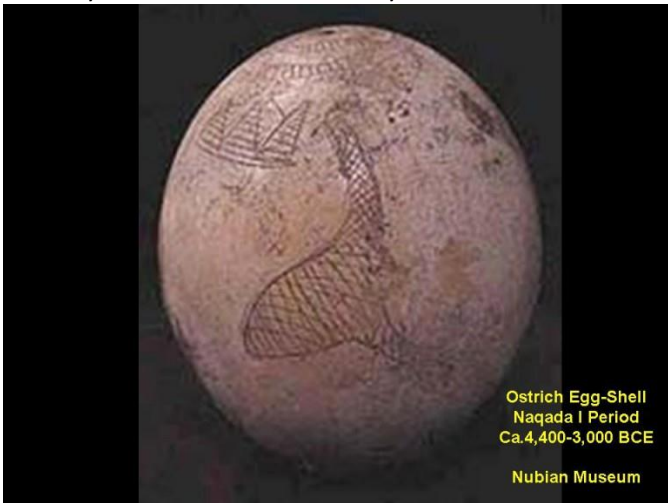

Summary: at the ages 34 – 40 Nostradamus had gone to the Levant via Italy. The age of 36 for fathering *son petit-fils* Filippo fits. Making Filippo born around 1539. So that by 1573, at age 34 also, Filippo’s works were accomplished enough for Filippo to be written about.

Count them = FOUR. Taken from a hot air balloon around 1922-25. The fourth one is beginning to show signs of plunder. Proof absolute that neither Orion’s Belt nor Cygnus can be the constellation the floorplan was designed around (told us by Edgar Cayce). For me, having read the message in the Hidden Texts, the Orion Group may have conspired to remove one. These days satellite images of the Sahara are beginning to show more pyramid sites – all with four pyramids, just like they each must have been a giant “motherboard”. Would someone please show this to Bauval.

1939? the remnants of the fourth is just seen on the distant horizon, taken from a hot air balloon.
 Did they have cameras in 1839? By 1939 I would have thought the area better cleared. Maybe that says N°39

Stylized heron = Bennu bird, four pyramids (at a presumption, cannot see the back of it).
 There is also an ostrich egg, ca 6,000 years old, showing a similar thing.

I had a reader remark "I can only count three" – but what about the big one behind those three? The one with a beam shooting from the top into the clouds

When watching any of the 28 videos which caught "ORBS AT 9/11" The count was three. According to these hidden texts one of which contained Nostradamus, one had Da Vinci and at a guess (because it has not come to my attention yet) the third enclosed St. Germaine – who travelled back for discussions with Voltair. Do you see what the name "Voltair" means?

It describes the frontier of research. Here are key quotes that illustrate the use of synthetic genes to "protect against disease," while changing the genetic makeup of humans. This is not science fiction:

"By delivering synthetic genes into the muscles of the [experimental] monkeys, the scientists are essentially re-engineering the animals to resist disease."

"The sky's the limit," said Michael Farzan, an immunologist at Scripps and lead author of the new study."

"The first human trial based on this strategy — called immunoprophylaxis by gene transfer, or I.G.T. — is underway, and several new ones are planned."

"I.G.T. is altogether different from traditional vaccination. It is instead a form of gene therapy. Scientists isolate the genes that produce powerful antibodies against certain diseases and then synthesize artificial versions. The genes are placed into viruses and injected into human tissue, usually muscle."

Here is the punchline: "The viruses invade human cells with their DNA payloads, and the synthetic gene is incorporated into the recipient's own DNA. If all goes well, the new genes instruct the cells to begin manufacturing powerful antibodies."

Read that again: "the synthetic gene is incorporated into the recipient's own DNA." Alteration of the human genetic makeup. Permanent alteration.

The Times article taps Dr. David Baltimore for an opinion:

"Still, Dr. Baltimore says that he envisions that some people might be leery of a vaccination strategy that means altering their own DNA, even if it prevents a potentially fatal disease."

Yes, some people might be leery. If they have two or three working brain cells.

Let's take this further. Under the cover of preventing disease (and all good covert ops float a laudatory goal to conceal their true intent), **vaccines are ideal carriers for all sorts of genes that would be permanently incorporated into the human structure.**

The enormous tonnage of propaganda about vaccines, and the resultant mandatory laws that enforce vaccination, create a powerful channel along which re-engineering is eminently possible.

Synthetic genes injected into billions of humans would form a grand experiment to create an altered species.

This grand experiment could be compartmentalized.

For example, secretly, genes 1-6 would be injected into Group A in geo-location I.

Genes 7-12 would be injected into Group B in location II. And so on.

Vaccine recipients will be subjected to ongoing surveillance to gauge the results. On various pretexts, members of these groups will be brought into clinics for exams and tests, to discover markers that purportedly reveal their bodies' responses to the genetic alterations.

Are these people stronger or weaker? Do they exhibit signs of illness? Do they report behavioral changes?

Through surveillance and testing, all sorts of information can be compiled.

Of course, there is no informed consent. The human guinea pigs have no knowledge of what is being done to them.

And what would be the objectives of this lunatic research program? They would vary. On a simplified level, there would be two.

1. Create weaker and more docile and more obedient and more dependent humans.

2. On the other side, create stronger and healthier and more intelligent and more talented humans.

Obviously, the results of the latter experiments would be applied to the "chosen few." And clearly, some of this research will be **carried on inside the military.** Secrecy is easier to maintain, and the aim to produce "**better soldiers**" is a long-standing goal of the Pentagon and its research arm, DARPA.

3. A global vaccine experiment of the type I'm describing here has another bonus for the planners:

those people who fall ill or die **can be written off as having suffered from various diseases and disorders** which "have nothing to do with vaccines." This is already SOP for the medical cartel.

The numbers of casualties, in this grand experiment, would be of no concern to the *Brave New World* shapers.

As I've documented extensively, [the US medical system is already killing 2.25 million people per decade \(a conservative estimate\), as a result of FDA-approved drugs and mistreatment in hospitals.](#)

Major media and government leaders, aware of this fact, have done nothing about it.

Here is a quote from Princeton molecular biologist, Lee Silver, the author of *Remaking Eden*. It gives you a window into how important geneticists are thinking about an engineered future:

"The GenRich—who account for ten percent of the American population—[will] all carry synthetic genes. All aspects of the economy, the media, the entertainment industry, and the knowledge industry are controlled by members of the GenRich class..."

"Naturals [unaltered humans] work as low-paid service providers or as laborers. [Eventually] the GenRich class and the Natural class **will become entirely separate species with no ability to crossbreed**, and with as much romantic interest in each other as a current human would have for a chimpanzee.

"Many think that it is inherently unfair for some people to have access to technologies that can provide advantages while others, less well-off, are forced to depend on chance alone, [but] American society adheres to the principle that personal liberty and personal fortune are the primary determinants of what individuals are allowed and able to do.

“Indeed, in a society that values individual freedom above all else, it is hard to find any legitimate basis for restricting the use of repro[grammed]-genetics. I will argue [that] the use of rerogenetic technologies is inevitable.

[W]hether we like it or not, the global marketplace will reign supreme.”

Here is another gem, from [Gregory Stock](#), former director of the program in Medicine, Technology, and Society at the UCLA School of Medicine:

“Even if half the world’s species were lost [during genetic experiments], enormous diversity would still remain. When those in the distant future look back on this period of history, they will likely see it not as the era when the natural environment was impoverished, but as the age when a plethora of new forms—some biological, some technological, some a combination of the two—burst onto the scene. We best serve ourselves, as well as future generations, by focusing on the short-term consequences of our actions rather than our vague notions about the needs of the distant future.”

Notice that these two well-known scientists are speaking about “ethics.”

A significant number of such experts have their own lunatic version of what is right and wrong.

With vaccines that permanently alter human genetic makeup on the horizon, and given the corporate and government-agency penchant for secrecy, we are already inhabiting the *Brave New World*. It’s not a distant prospect.

Every genetic innovation is aimed at bringing us closer [to a stimulus-response world](#), and further away from freedom.

Which is why the defense of freedom becomes ever more vital.

That struggle comes down to who controls, yes, the philosophy, not the science. Is each human merely and only a system waiting to be re-engineered, or is he something far more, inhabiting a physical form?

We already know what the vast majority of brain researchers and geneticists believe, as well as the governments and corporations and universities and foundations that make important decisions.

Of course, these days, the college faculty department considered to be the least important, the most useless, a mere appendage waiting for those with wisdom to put it out of its misery and kill it off...is the philosophy department.

That leaves us to take up the argument and the resistance.

Not Lee Silver at Princeton or Gregory Stock or Bill Gates or George Soros or David Rockefeller or the Pope or Stephen Hawking or Obama or the Clintons or Monsanto or Dow or the Bush family or PBS or FOX or socialists or Communists or liberals or conservatives or some wackadoodle at Harvard or MIT or UCLA.
