While working on the forum **LANGUAGE IS ENGINEERED Continues**: – one sentence began as:

“More information about Nibiru being interfered with & **PLAINER PASSAGE** in the latter pages...

BECAME a short forum, here. Even when working with the texts one loses track of how many times we might be sent a warning with differing details about the same topic. So a search through more recent forums with the view of getting a collection regarding the affect we will have by Nemesis and its seven celestial bodies. You will hear various “experts” number the planets of Nemesis at a much higher rate, and they are correct too, since there are many artificial planetoids and moons involved with this system. Not to mention the bolide “followers” the doctor has mentioned.

From the computer programmed Template by Allan Webber of “A Fossicker’s Guide to Nostradamus” 5:62:4 *Nefs parfondreées & prins Le Tridental*. Ships sunk to the bottom, and the Trident (Neptunes) taken.

 "Island" always means "planet" – this is the "key" word in this quatrain, the word which "unlocks" the true meaning  
**sans nuls = double negative: "without no children" – no humans saying "with some (plural) children"- with some smaller planets**  
**eage = should be (is) saying étage which means "stage = level-floor-story but in this case "orbit" that is - incompetent orbit.**  
 This **implies age** in that a year depends on the orbit – as do the "ages" in the bigger picture  
 Incompetent age can also be taken to mean that we are all non thinkers
