Please forgive the never ending repetition between pdf chapters. Many of you read most of the pdf forums but some of you get as far as only one or two before going cross eyed. This is one reason for the frequency of repeating things

Allan Webber's computerized Template is every bit as amazing as the anagrams themselves. The words Allan chose to feed into his anagram program are strong and wonderful vocabulary. It is possible he received direction in this matter. I did not become involved with his pages of guidance, having enough of my own to study (thirty eight pages in arial 9 font). Allan's directions included the gematria, the numerology & the mathematical, unlike those to me which only included “the numbers” [speaking to the lady] which is entirely different. A reader wrote lambasting me regarding “don't you know about numerology?” ... relating to presage August X 1555: 1555 Aust. August X

(just the numbers) Six and 12 are Anakim base numbers
thirteen = seated at the Last Supper

The “six” are the “repulsive six” which were found by Miss Frances Rolleston in her celestial research into the bible, titled *The Mazzaroth* & also **named in the computerized anagram program** of Allan Webber. **Two of these ‘repulsive’ six** include the *Cassiopeians* and the *Mantids* of Argo. The other four are the “insane four” of SAMAROBRIN 6 5 3 which we have seen is: SAAM, of Wes Penre RIB, of Leo/Chertan ON /Oannes of Sirius & R /of Draco

There is also the “unholy six” of the big “G” of the Freemasons

The ‘thirteen’ is also the ‘insane four’ plus the Nine of the Ennead 4 94.

"Lockheed executive blows lid off of secret government space travel (quantum entanglement)

"It's called quantum entanglement, it's extremely fascinating and counter to what we believe to be the known scientific laws of the universe, so much so that Einstein himself could not wrap his head around it. It's called "quantum entanglement," though Einstein referred to it as "spooky action at a distance."

Recent research has taken quantum entanglement out of the theoretical realm of physics, and placed into the one of verified phenomena. An experiment devised by the Griffith University's Centre for Quantum Dynamics, led by Professor Howard Wiseman and his team of researchers at the university of Tokyo, recently published a paper in the journal Nature Communications confirming what Einstein did not believe to be real: the non-local collapse of a particle's wave function, and this is just one example of many. They did this by splitting a single photon between two laboratories, and testing whether measurement of it in one laboratory would actually cause a change in the local quantum state in the other laboratory. In doing so, researchers were able to verify the entanglement of the split single photon.

Researchers have since replicated this experiment over and over again, with results of entanglement seen at kilometres of distance. Below is a great visual depiction of what quantum entanglement from the film, "What The Bleep Do We Know."

"Space is just the construct that gives the illusion that there are separate objects" – Dr. Quantum

Sure, there are a lot of philosophies regarding what all of this stuff actually means, but, as Dr. Elizabeth Rauscher puts it, it's a pre-cursor to realizing that everything is connected, and that everything in the universe is one. What happens in what we call reality, is effecting something else in that same reality, it's all "touching." (source)

What's happening here is that, either we are witnessing the transfer of 'information' at a speed far greater than the speed of light, or even better, something completely instantaneous.

If all points in space are connected, that means vast distances between places are simply an illusion. Furthermore, quantum entanglement challenges Einsteins theory of relativity, but theories are developed to be tweaked and changed. Unfortunately, our world is plagued with secrecy, and you can learn more about that in an article about the black budget linked at the bottom of this article.

The Lockheed Executives Comments On Space Travel

Rich was the second director of Lockheed Skunkwork's from 1975-1991. He's been called the Father of Stealth, having overseen the development of the stealth fighter, the F-117A nighthawk. Before his death, Rich made several shocking open statements about the reality of UFOs and extraterrestrials.

"We already have the means to travel among the stars, but these technologies are locked up in black projects, and it would take an act of God to ever get them out to benefit humanity. Anything you can imagine, we already know how to do it."

"We now have technology to take ET home. No it won't take someone's lifetime to do it. There is an error in the equations. We know what it is. We now have the capability to travel to the stars."

"There are two types of UFOs — the ones we build and the ones 'they' build." Where Quantum Entanglement Comes In:

When Rich was asked how UFO propulsion worked, he said, "Let me ask you. How does ESP work?"

The questioner responded with, "All points in time and space are connected?" Rich then said, "That's how it works!"

Interesting to think about, isn't it?

Perhaps the vast distances that exist between planets, solar systems and more isn't really as much of a barrier as we thought it was.'

What Are The Sources For These Quotes?

“One of the sources is aerospace journalist, James Goodall, who wrote for publications such as Jane’s Defense Weekly, Aviation Week and Space Technology, and Interavia. He is an accomplished speaker specializing in the history, development, and operations of the world’s only Mach 3 capable, manned air breathing aircraft, the SR-71 family of aircraft.

He is also an author, as well as the Associate Curator at the Pacific Aviation Museum, HI. He was also the restoration manager at the Museum of Flight in Paine Field, Everett, WA.

Goodall interviewed many from the classified black budget world (read more about that world here.) He claimed that some of his contacts told him that “we have things out there that are literally out of this world, better than Star Trek or what you see in the movies.” From his work alone, James Goodall knew Ben Rich well. In a video interview, Goodall stated that he spoke to Rich approximately 10 days before he died:

“About ten days before he died, I was speaking to Ben on the telephone at the USC Medical Center in LA. And he said; ‘Jim, we have things out in the desert that are fifty years beyond what you can comprehend. They have about forty five hundred people at the Lockheed Skunk works. What have they been doing for the last eighteen or twenty years? They’re building something.’”

Another source comes from John Andrews, who was a legendary Lockheed engineer. He had written to Rich, stating his own belief in UFOs, both manmade and extraterrestrial. Andrews has asked Rich if his own beliefs covered extraterrestrial as well as man-made UFOs. Rich’s reply was as follows:

“Yes, I’m a believer in both categories. I feel everything is possible. Many of our man-made UFOs are UN-Funded Opportunities. **There are two types of UFOs, the ones we build, and the ones they build.”**

In Rich’s reply, he underlined the U, F, and O in “UN funded opportunities.”

Thirdly, Jan Harzan, a senior executive with IBM, along with Tom Keller, an aerospace engineer who has worked as a computer systems analyst for NASA’s Jet Propulsion Laboratory, discusses a talk Ben gave some time ago. On March 23rd, 1993 at a UCLA School of Engineering talk where he was presenting a general history of Skunk Works, he said this:

“We now know how to travel to the stars. There is an error in the equations, and *we have figured it out*, and now know how to travel to the stars and it won’t take a lifetime to do it. It is time to end all the secrecy on this, as it no longer poses a national security threat, and make the technology available for use in the private sector. There are many in the intelligence community who would like to see this **stay in the black** ^[projects] and not see the light of day. We now have the technology to take ET home.”

I was researching the etymology of the word 'prier' on the XMLittré site and found a sentence that contained the word "jà", which I was unable to find in the dictionary. In the etymological dictionary it defines the word as meaning

"A Dweller on two Planets has remained a popular occult book for over a century, largely because it contains detailed descriptions of life in **Atlantis** plus devices and technology which were unquestionably well in advance of the time in which it was written. As the cover of one of the book's editions states, "One of the greatest wonders of our times is the uncanny way in which A Dweller on Two Planets predicted inventions which modern technology fulfilled after the writing of the book."

"Among the inventions and devices mentioned in the book are **air conditioners** (to overcome deadly and noxious vapors); **airless cylinder lamps** (tubes of crystal illuminated by the "night side forces"); electric rifles (guns employing electricity as a propulsive force—rail-guns are a similar, and very new invention); monorail transportation; **water generators** (an instrument for condensing water from the atmosphere); and the **vailx** (an aerial ship governed by FORCES OF LEVITATION and repulsion)."

"... the **electromagnetic** airships of Atlantis are introduced, along with radio and television (don't forget, this book was written in 1886). It is explained that the airships, similar to **zeppelins**, but more like a cigar-shaped craft, are **electro-magnetic-gravitational in nature**. They move through the air using a form of anti-gravity and are also capable of entering the water as submarines."and...

"Terziski maintains that antigravity research began in Germany in the 1920's with the first hybrid antigravity circular craft, the RFZ-1, constructed by the Vril Society. In [1942-43 a series of antigravity machines](#) [Including [the Vril-7](#) design] culminated in the giant 350-foot long, **cigar-shaped... space station**, which was constructed in old zeppelin hangars near Berlin by E4, the research and development arm of the SS "

"..... for the number of degrees in each zodiac sun crossing – which had been tampered with as follows:

"Ptolemy himself declares that he altered the form of some of the constellations to give the figures a "better proportion", of stars which the older astronomers had placed. . . (so he averaged all/each of them to 2,160 years)

Bayer turned the backs of the figures to the spectator instead of the faces, and Albert Dührer, or some German, put them all into Gothic costume, in which they remained till the time of Flamstead. He [Flamstead] re-constructed the forms of the constellations, by first laying down the stars themselves correctly, drew the figures according to that part of the body in which the several stars were said to be placed by Hipparchus.... (and taking note that some have recently been 'altered' such as an extra star in the "handle" of the Big Dipper Ursa) consequently:

The Age of Leo from around 12,500 years ago: given our current 'age' at 2015 (but at least 1,324 years needs to be deducted)

10,373BC to ca 7,565BC =	takes 2,808 years length for our sun to pass thru Leo
of Cancer 7,565BC to 6,053BC =	takes 1,512 years for our sun to pass thru Cancer
of Gemini: 8,053BC to 4,109BC =	takes 1,944 years for our sun to pass thru Gemini
of Taurus: 4,109 BC to 1,445BC =	takes 2,664 years for our sun to pass thru Taurus
of Aries: 1,445 BC to about 5BC =	takes 1,440 years for our sun to pass thru Aries
of Pisces: about 5 BC to 2,587AD =	2,592 years "A.D." when the Age of Aquarius was due before we discovered 1,324 has

been added in around July 676 [A.D.] which would take us even further back into the Age of Pisces – the 'age of self deception' noting that the Edict by pope Innocent to move the calendar forward from 676 to the millennium year of 1,000 AD happened very closely to the same time the "i" for Immanuel prefix was exchanged for the A.D. suffix: thus adding **another thousand years** by the mere stroke of a pen. Plus we have all been misled by false sciences. In dendochronology – trees **stop growing altogether in ice ages** and in the ice cores – the rings taken to be years – have been found to occur **many times during any particular year. Couple that with faulty Carbon 14 dating which can be out by up to 700 orbital years due to bacterial encapsulation, it rests just as Nostradamus says – "by the astronomical stars can we trust in" and that includes not having trust in modern computerised astronomical dating methods – since they were all re-set at the Y2K fiasco which itself was already out by thirteen hundred years at the minimum! How clever of the deceitful ones whose wish it was to bring forward the centuries & keep us all bedazzled and distracted, all the while performing their sleight of hand agendas. They are those of the Orion Group.**

It will be no surprise then that the current dating of the Shroud of Turin might hold the key to the real number of years which need to be removed from the calendars we are using.

The problem of the C14 dating rears its head, because between the three different laboratories not one could provide a date set in stone. Keeping in mind we are talking of the death date of Immanuel – 33 A.D. (when in fact "A.D." began in our calendars at "o" calendrical date, while all along he was already between 3 to 8 years of age due to the "naming year" custom). The dates the C14 gave were combined between 1032 to 1154 A.D. about 120 years in difference, so around 33 (or 30 or 25) needs to be chopped off that first. Let us say, in that case, around 1,000 years out. We may need to ignore the "three centuries added by edict" simply because they very likely ran in parallel & co-inciding with the "clerical" error – which as it seems it is almost exactly one thousand years that the C14 dating gave – and that is only allowing that they had managed to **avoid** an area of the Shroud which may have had bacteriological encapsulation.

We seem to have a choice of two different possibilities that can direct us to the Shroud being real. The first dating method just related, or the second – where three hundred years plus needs to be deleted, (from the computerised clocks we have) & the 700 give or take years C14 bacterial error needs to be allowed for (meaning as a younger age) which coincidence adds to more or less one thousand years once again! Just for the sake of an exercise, say we take 324 off 2016 A.D. = 1692 A.D. and just for the sake of a further exercise we remove the 692 + as the C14 'bacterial error' – leaving us with 1,000 A.D. – now remove the "clerical error" of the added 1,000 years – and it is nothing we are left with which in the case of this exercise was calendrical 0 - 1 A.D. (allowing for give or take up to 8 years before the real 'birth' of Immanuel). The quatrains admit to "three centuries" (more than once), so I am wondering if the extra 24 years is not related to the actual age in years of Immanuel prior to our A.D. calendar – deducted from his death age of 33! There is another "coincidence" that sits at the back of my mind, and that is the year of 325 (of which a part is 324) in which the Nicean Council decided to edit the books they had into one and call it "the Bible". You see – the thought and plan must have been conceived before the year of publication (325 A.D.) – so did they at the time – actually do this in the Calendrical year of the **real** first year/s of our current calendar? This 324 we need to delete – is it related to that 324? The one they were getting the books they wanted together ready for publication? Next question is this: the word "publication" is very much in error relating to the first "Bibles" since "publicity" of it was granted only to those who could read Roman Latin and or Greek at that time: **and that very much excluded the general public!** Here is another anomaly. Which year did the "publishing of books" really happen?

At what stage did monks really stop hand writing manuscripts in the Latin or the Greek?

What would have prompted the Nicean Council to produce their 'Bible' in 324-325 A.D. in the first place? The Roman empire had not yet become defunct. (A 5th century volcanic event accomplished that. The army marches on its belly & volcanoes kill crops).

In *A Chronology Listing of Early Weather Events 7th Edition* by James A. Marusek impact@hughes.net (www.breadandbutter-science.com)

"This weather chronology began over 1,800 years ago."

"The Japanese began using a Chinese style lunisolar calendar in the 7th century. To keep the solar calendar aligned with actual seasons, it was required that the winter solstice always occurs in a non-intercalary 11th month. Thus, generally in early lunar calendars, the New Year began on the second new moon following winter solstice. They adopted the Gregorian calendar in 1873. Early Japanese events presented in Aston "Chronicles of Japan" ^[reference 149] are given using the historical Japanese calendar system.

Great Global Drought: Droughts can become so extensive that they can grip the entire globe. An example is the global drought of 1876-1879, which struck China, India, Australia, South Africa, Morocco, French Indo-China, the Dutch East Indies, Turkey, Brazil, the United States and Canada. In general, world trade offers a large safety net against future droughts and famines. But sometimes the world gets in a cycle where the entire world is engulfed in a great drought. This can cut holes in this safety net. During 1876-1879 over 16 million people starved to death. (World population has grown 5 fold since the 1870s. An equivalent lost today would be in the order of 84 million people.) The drought not only affected crops but also livestock. In Australia, 10 million sheep died.

Effect of Volcanoes on Weather: In reviewing the temperature record, I have come to believe most volcanic eruptions have only a minimal impact on global climate. There appears to be two exceptions: the largest volcanoes (those with a Volcanic Explosivity Index (VEI) scale of 7 or greater) and flood basalt volcanic eruption.

Large Volcanic Eruptions: The Tambora eruption occurred on 10 April 1815 on Sumbawa Island in Indonesia. It was rated as a 7 on the Volcanic Explosivity Index (VEI). The volcanic eruptions of this size are very rare events typically occurring on a millennium scale. The volcano erupted more than 160 cubic kilometers (38 cubic miles) of magma. This volcanic eruption caused a significant drop in temperatures in the Northern Hemisphere. It is important to note this cooling effect was delayed for almost a year. Analysis of Peirce's temperature data shows that the eruption did not begin to affect Philadelphia, Pennsylvania's weather in the United States until 11 months later in March 1816. Then, temperatures were depressed for nine months before recovering. At its greatest extent, temperatures were 7.7° F (4.3° C) colder than average Dalton Minimum monthly averages. This was also observed in Paris, France. This year was known as the "Year Without Summer", when a hard killer frost occurred in every month of the year. This extreme cold year also ravaged Europe, Africa, the West Indies and Northern China.

"410 A.D. In Rome, Italy, there was a famine followed by a plague.^{57, 72, 91}

Under the Emperor Honorius (who reigned from 395 to 414), so great was the scarcity and dearth of victuals in Rome, Italy, that in the open marketplace, **this voice was heard – set a price on man's flesh**. St. Jerome alluding to this plague, says: 'the rage of the starved with hunger broke forth into abominable excess, so as people mutually devoured the members of each other. Nay, even the tender mother spared not the flesh of her sucking child, but received him again into her bowels whom she had brought forth a little before.' ⁷²

*Alpheus : the white hunter tried to capture *Aresthusa* (relates to *Teutoutis* asteroid in the quatrains). In the Greek Alpheus was a river-god, so that makes him one of those from Eridanus at the footstool of Orion the Hunter. He was a son of Oceanus (an Oannes) and Tethys
Terbium: metal used in laser cutting. Terbium: a metal. eg Thorium used in vaccines 2 100 I says TERBIUM THORIUM DISEASES
So saying loud and clear it is those from Orion (Orion Group, includes Sirius and the Freemason’s big “G”) which make us all sick using heavy metals in needles and chemtrails, specifically that receiving needles bypasses the immune system and prevents it from recognising internal danger

“ The **pulvinar nuclei** (*nuclei pulvinares*) are a collection of **nuclei** located in the pulvinar-thalamus. The pulvinar part is the most posterior region of the thalamus. In **Ancient Roman** religion a pulvinar was an “**empty throne**” or cushioned couch for occupation by a deity.

The pulvinar is usually grouped as one of the *lateral thalamic nuclei*. The word is derived from the Latin *pulvinus* for “cushion”.

The thalamus has multiple functions. It may be thought of as a kind of switchboard of information. It is generally believed to act as a relay between a variety of subcortical areas and the **cerebral cortex**. In particular, every sensory system (with the exception of the **olfactory system**)

- **E.N.E** part botanical and part biological (Biobic) compared to *the other two brained* E.B.E.N those 'earlier' Zeta45 biome creatures (biomechanical) which preceded UUilliam52 (who called himself 'J-Rod52) by seven thousand orbits but using the word 'years'. Whose exact 'years' has only been assumed. The Zeta45 have no anus, a very tiny penis but really no gender. To feed they "anoint" themselves with "axunge" (the doctor's word for animal grease) and the word "christos" refers to this act of nutrition. Do you see their little gloat? These are the ones of the western hemisphere. They possess a hive mind and are programmed Liars. They are Nancy Lie-der's Zeta greys and have been leading her and her followers a very merry dance. On occasion they tell her a truth which is the carrot at the end of the stick. It would not surprise me if these 45s are the Igigi of the Anakim. In one of the most amazing remote viewing sessions where the remote viewer 'saw' the construction of the four Giza pyramids being overseen by a 'female mantis' – the worker bees doing the hard yards were a form of grey. Since it was the Anakim who seem to have designed all the thousands of pyramids world wide, and they always seemed to "call on the Igigi" for manual work, then joining those dots seems about right. *The more one 'looks' for the four pyre-amid design, the more pyramids in this format one sees.*

UNIVERSAL R.O., CIVIL QUEEN, DR., LIVID REASON END KINDER CLAUSE: OLD ORION 'SAVIOUR' CONNIVER OANNES
 NORDIC RIVER LORD SUNNIER TO DARK CONVERSION - RAVENOUS DRANK **LIVER REVULSION RAVEN.** a date of Yule/Os

o **R.O., Andromeda council CIVIL QUEEN, Cassiopeia DR. Nostradamus**

o LIVID **REASON END KINDER CLAUSE** waiting for someone to fix the calendars so the trade in children Clause in Treaty 9 can be nullified, preventing millions of children taken for their blood and organs

o **'SAVIOUR' CONNIVER means two things here. The false messssssiah/saviour- invention of the Jesus Christ figure and the conniver of calendar changes using the « saviour » prefix in two ways. First by turning the « i » into a numeral « 1 », then removing the prefix to have it as a suffix of .A.D. which the public thinks means anno domini /domini/ but really means "before the day" = Ante Deium. Pretty much « seize the day ».**

o SUNNIER TO DARK CONVERSION = this also has more than one meaning. Chemtrails. The sunnier visage (handsome) to what they really are (dark) and a third meaning for "conversion" apart from shape shifting, converting from old to young when they receive the blood from children.

o DRANK **LIVER REVULSION** Another clever pun. Anyone who has ever seen a sheep being killed for table, knows that the bile is a "LIVER REVULSION" which when poorly handled can spoil the meat. The words **BILE** or **GALL** are also a date of June 10 - July 7. This was applied to **TRAIN DANGER MID ANNA** too, and a great tsunami.

o **FRIENDLY FIFTY ONE: of the eighty four Off Worlders - 51 are friendly. There are 33 types of grey, add to 51**

equals the 84 which do affect Earth in one way and another. Some of the greys are 'good ones' and some of the others which are not greys are 'bad' ones. As it happens, of the 84 all together, two are alliances (Andromeda and Cassiopeia) and of the remaining 82, 51 are the 'friendly' ones.

- It is only a coincidence that 82 minus 51 leaves 31, which is the same number of different types of "Nordics" seen in the updated *Summary of Nordics*, amongst which *some are not* beneficial to Earth. Later on a count will be made of these negative ones. There are many hundreds of off worlders who need Earth as she was.

o **RUNYON UPROAR** referring to Damon Runyon – full of short stories, as these Hidden Texts are!

o U.N. LEO OANNE **RULE RUNWAY LAW UP** [to] **URANY** – right – here is what I have been saying all along. That the negative [towards humanity and our planet] off worlders "rule" the flightways to outer space (Urania) – and THIS is why when you see that the "government" shot down orbs and scout craft – it is the benevolent ones being shot out of the skies. This is why the "goodies" arrive via time gates with the exception of certain LyRans and Tau Cetians who can arrive inside or along with lightning bolts.

o **LOAN;LURE YOU ALL UP** relates to the exchange for technology where we were all signed away by F.D.R. in 1933, greedy for war weapons and money making technology, amongst which was the Trojan horse called the internet. This "exchange" is actually "trade" and the swap is for humans in the abduction agenda and has recently become "trade for children" at the allotted time for Treaty Nine, which was ratified by the president Nov 8 2014, except it was not yet 2014 by at least one thousand years. Nullifying this clause will release us from the stealing of children.

o **ULURU URN APU ANU** these texts say Marduk and Ninurta are 'camped' at Pine Gap – which explains Argyle base. The URN reference refers to Eridanus area near Aquarius, where the 'urn' pours out the 'headwaters' of River Erid.anus.

On reaching the top and about to open the gate in the dark, as I went to lift the chain off the gate, the sun was up. Looking down at my right hand, the flash light was gone. It was 7.30am. The dogs still patiently waiting for the gate to be opened. Mental clarity was instant, relating to the torch in my hand. Later it was found under the stairwell.

Footnotes

o **genetically engineered 'gods' – the Ennead**

It is becoming clear that the words regarding the "times of Noah returning" relate to now. Over a thousand years yet before the true Age of Aquarius (the "humanitarian") and our mad scientists are once again crossing animals with humans – with and without legal sanction.

We have seen in previous forums that the ship called Noah's Ark was a laboratory – one discovered by the CIA in 1991 with all such evidence removed. That it was "the seeds of all living things" on board and not the "two by two" fiction.

Thus, all the fascinating images of animal-human 'gods' found in Egyptian hieroglyphs were faithful renditions of the creature. One can find John Titor II on the internet and decide for oneself the things he states. The mere fact that a John Titor I (first version) came with cryptic warnings about "see to your Constitution" in the 1990's – long before the current ongoing 'rights' problems were even a thought in anyone's mind – show that there is a kind of confirmation for John Titor II. He says as far as he knows he is the 'original'. These are the glitches of time travelling. John Titor II says he visited these 'gods' in their own habitat – where he witnessed more than one Ibis headed man and lion headed men in the background.

Following the discovery of the Giant's Base under Bucegi – the Hall of Records, see Peter Moon videos "Giant's Base Under Bucegi" – where the means for hybridizing humans with animals was shown to be a reality, we must all open our minds further regarding that pantheon titled the Ennead.

Any "historical" mentions of the Great Flood of Noah being at any time later than at least 9,500+(BC) are red herrings. Great floods there have certainly been (each shar of Nemesis) – but none as great as the times we call ante diluvian. The times of "Leo Rising".

EDGAR CAYCE READING 5748-6 This Reading given by Edgar Cayce July 1, 1932.

1. EC: Much has been written respecting that represented in the Great Pyramid, and the record that may be read by those who would seek to know more concerning the relationships that have existed, that may exist, that do exist, between those of the Creative Forces that are manifest in the material world. **As** indicated, there were periods when a much closer relationship existed, or rather should it be said, there was a much better understanding of the relationship that **EXISTS between the creature and the Creator.**

2. In those conditions that are signified in the way through the pyramid, **as of periods** through which the world has passed and is passing, as related to the religious or the spiritual experiences of man - the period of the present is represented by the low passage or depression showing a downward tendency, **as indicated by the variations in the character of stone used.**

This might be termed in the present as the **Cruciatarian Age**, or that in which preparations are being made for **the beginning of a new sub-race**, or a change, which - as indicated **from the astronomical or numerical conditions** - dates from the latter portion or middle portion of the present fall

3. At the correct time accurate imaginary lines can be drawn from the opening of the great Pyramid to the **second star in the Great Dipper**, [and NOT Orion's Belt- collator] called Polaris or the North Star.

THE POLESTAR IS NOT IN URSA MAJOR, IT IS IN U. MINOR. CAYCE REFERS TO THE 'POINTER' STAR

In an October there will be seen the first variation in the position of the polar star in relation to the lines from the Great Pyramid.

The dipper is gradually changing, and when this change becomes noticeable - as might be **calculated from the Pyramid** - there will be the beginning of the change **in the races.**

There will come a greater influx of souls from the **Atlantean, Lemurian, La, Ur & Dal** civilizations.

INTERESTING THAT CAYCE SHOULD NAME THE DAL (or DAHL) now with the Elohim Alliances

These conditions are indicated in this turn in the journey through the pyramid.

4. How was this begun? Who was given that this should be a record of man's experiences in this root race? For that is the period covered by the prophecies in the pyramid.

This was given to **Ra** (MARDUK who stole the title) and Hermes (NIGHIZZIDA) in that period during the reign of Araaraart when there were many who sought to bring to man a better understanding of the close relationship between the Creative Forces and that created, between man and man, and man and his Maker. **THIS THE TRUE RA, AND IS NOT THE MARDUK RA – SINCE HE WAS NEVER A "CREATOR"**

5. Only those who have been called may truly understand. Who then has been called? Whosoever will make himself a channel may be raised to that of a blessing that is all that entity-body is able to comprehend. Who, having his whole measure full, would desire more does so to his own undoing.

6. (Q) What are the correct interpretations of the indications in the Great Pyramid regarding the time when the present depression will end?

(A) The changes as indicated and outlined are for the latter part of the present year [1932].

YES, FDR SIGNED THE FIRST (that we are aware of) OFF WORLD TREATY IN 1933

As far as depression is concerned, this is not - as in the minds of many - because fear has arisen, but rather that, when fear has arisen in the hearts of the created, SIN lieth at the door. Then, the change will occur - or that seeking will make the definite change - in the latter portion of the present year. Not that times financially will be better, but the minds of the people will be fitted to the conditions better.

7. (Q) What was the date of the actual beginning and ending of the construction of the Great Pyramid?

(A) **Was one hundred years in construction.** Begun and completed in the period of Araaraart's time, **with Hermes/Ninghizzida and Ra.**

EnKi (Marduk stole the title Ra) SEE CLAY TABLET #10 of ENDUBSAR FOR ENKI WHICH STATES THE SAME

8. (Q) What was the date B.C. of that period?

(A) **10,490 to 10,390 before the Prince entered into Egypt.** ****my italics** SO NOT Before Christ was born, but when an adult

****THIS PRINCE WOULD MEAN IMMANUEL/YESHUA**

9. (Q) What definite details are indicated as to what will happen after we enter the period of the King's Chamber?

(A) When the **bridegroom* is at hand**, all do rejoice. When we enter that understanding of being in the King's presence, with that of the mental seeking, the joy, the buoyancy, the new understanding, the new life, through the period.

10. (Q) What is the significance of the empty sarcophagus?

(A) That there will be no more death. Don't misunderstand or misinterpret! but the INTERPRETATION of death will be made plain.

11. (Q) If the Armageddon is foretold in the Great Pyramid, please give a description of it and the date of its beginning and ending.

(A) Not in what is left there. It will be **as a thousand years, with the fighting in the air**, and – as has been – between **Those returning to and those leaving the earth.**

Mazzaroth Mizraim ~Table of Contents: if the links do not work from the pdf, copy and paste into your search engine.

Personally I have found yandex.com to be less censored than the main ones people use.

It has come to my attention there has been a link that when I opened contained no problems at all, but when a reader opened contained many difficulties. It might be better to type a name in your search than to depend on some links.

People have asked me: "how do you know it is not **you** who is being duped"? One answer is this: many experiencers of the reptilians comment "they have NO sense of humour"! **Yet we have seen frequently in these forums**, the odd joke and humorous reference... ergo, case rested.

There is another group saying they are in contact with Higher Beings which nickname themselves "The 2017", with the alternate name of "The Council of Twelve". There are two warning bells inside these titles, one is the numerical itself of "2017"... which you and I know is NOT 2017 YET, albeit when combined it does become a ten... it is by the hierarchy of numeration that creates an order which is used by the Reptilian-reptoids. The other is a Council of Twelve which became MJ12 – the negative controllers.

Please forgive the never ending repetition between pdf chapters. Many of you read most of the pdf forums but some of you get as far as only one or two before going cross eyed. This is one reason for the frequency of repeating things

The other reason for the apparent repetition of quatrains is the finding of a key word which was missed previously, such as QUBITS. This very collection here in the LANGUAGE IS ENGINEERED forums tells us the word under "issue" is removed first (such as your own name) or whatever key word is needed. Consequently the quatrains will have many unseen subjects not discovered at first light. Best example at hand is the word "trumpet" in which sits the name Trump. During the earlier years of encountering 'trumpet' Mr Trump was not in the public horizon, so the search for his details was never "asked".

Only yesterday I was asked once again (by someone new to these texts) a highly pertinent query - "how do you know they were not demons all dressed up to fool you..." with the response being this:

Demons do **not know Love** nor refer to it – whereas these lines do so frequently

Demons do not **have a sense of humour** – whereas even some of our close animals seem to do so, and these texts are rampant with tongue-in-cheek jokes.

Such as a particularly nasty person trying to make a "silk purse from a sow's ear" relating to a bad decision they had made (not yet published). Involuntarily laughing at another's attempt to make a lot of money at the expense of the innocence of others, I had to pull myself up and remind myself that *greed* knows no boundaries with some.

Demons would not suggest **singing out loud** 'in the darkness' – with the knowledge that sonic frequencies affect the environs in a positive manner, including your brains, the one for your mind and the one situated in the heart...

Demons would **never tell anyone 'do not fear'** or 'have no fear' simply because fear is what they feed on...

Demons would not **continually warn us against other demons** which includes themselves, although this is a portion of the Hegelian Dialect – have you EVER heard any public figure suggest we are not yet in 2016 by at least a thousand years?

Nor that *chemtrails* are a major part of **extinguishing human kind**? That *nuclear fission* was brought to us by an imposter saying he was from Venus – dangling that carrot of war weapons in front of war-mongers.

Nor that quantum physics was public knowledge to the ancient Greeks and to the Middle Ages (eg: 1055A.D. the monk Michael Psellus the Younger in his *Cronographia*).

Nor that there are **demon angels** as well as the good ones (Tiletanus-Ravestein, Agrippina).

Nor that time travel is quite common (Da Vinci told us in one of his paintings that there are 72 "bridges" on Earth)...

And especially nor that *there are those which shape shift and purloin* our own 'images' going amongst us *ad liberatum*

Asking us "should or could consciousness succeed?" Would a 'demon' even think to ask this? Hard to second-guess...

PRINCESS COUNCIL'S CONSCIOUS DOOR SOLVES SEARCHERS QUEST: SHOULD OR COULD CONSCIOUSNESS SUCCEED?

Knowing the *agenda* of at least one of the demons we are now aware of: *that of herding the population in to FEMA 'camps'* in order to do several things to us – would a demon fore-warn us~ **STRESSES KEEP YOUR GUNS OR MOURN...**

Can you imagine a demon saying "OR MOURN" ? That implies empathy, yet we know they can be **jealous** – that was the very reason Nostradamus was **SENT, TO DIE, UNIQUE OF ALL DEATHS**, because a grey 'demon' displayed *envy* regarding humans being given a soul. ! There were *many lines* against **envy**, would a **demon say** those pearls of wisdom?

Maybe the reader can think of some more instances within these texts which would represent what a demon *would never* want us to hear ?

Another instance which I doubt *demons* would advise us: (appears in QUBITS, CONSCIENCE & CONSCIOUSNESS)

Every time an image of the group of four pyramids at Giza crosses my path, it will appear here. This one shows the sand so deep that a major proportion of the pyramids is not to be seen, nor any of the little ones, nor even the body of the Sphinx.

The reason I do this? As a reminder that Orion’s Belt (the Orion Group) has nothing to do with the pyramids which were placed world wide as a form of defence system against incoming – be it of a more natural type like dangerous meteors – or a more unnatural or warlike invasive threat to our planet. The one good thing which has come out of alerting the public to their foundations being placed in a constellation format, is that the public are now happy to accept that very idea. After all – Edgar Cayce did say that too! Now that question marks have been raised regarding which constellation (and therefore who or why) – people are searching for that answer. So far the northern cross of Cygnus has been shaping up to be one answer, with yet still more question marks. Changing the name of the Cave of the Bennu Bird to the “Cave of the Bats” will not alter the fact that thousands of Ibis mummies were found there. So now, all that needs is for scholars to realize our planet did have a “perfect flip” in the Age of Gemini (how apt) & that the Giza pyramids were built while in the southern hemisphere – which is what “Benu/Penu” means – Southern Lands... under the Southern Cross, but more explicitly the constellation of the Benu-Crane-Grus-Heron-Ibis once also known as the Phoenix – with its long sharp bill “in the fishes tail” – Pisces. This was what Oxyrhynchus meant too.

§

In my perpetual quest to find elements of truth that our calendars are wrong, and in trying to find a watershed level as evidence, is the final answer going to be that which Edgar Cayce was told regarding the date for the building of the Giza pyramids?

Continually avoiding answers from “channellers” simply because they have **not been giving us the truth*** publicly, one must swallow this precept and take at face value the following:

“ Of some interest is the date Edgar Cayce gave for the building of the Giza Pyramid structures.

Asked in 1932, his answer was this:

(Q) What was the date of the actual beginning and ending of the construction of the Great Pyramid?

(A) Was one hundred years in construction. Begun and completed in the period of Araaraart’s time, with Hermes/Ninghizzida and Ra. collator’s note: Ra is a titled which is meant to be earned, which Marduk took when he was Snefru, and which EnKi has recently received

(Q) What was the date B.C. of that period?

(A) **10,490 to 10,390**

5748-6 Reading given by Edgar Cayce July 1, 1932.

*** truth**

These texts have on more than one occasion warned us against believing in “channellers” – such as Dolores Canon’s visitor purporting to be Nostradamus. When asked about chemtrails – the questioner was told “*that is only your reality*” and I personally found that answer to be a total fudge. We KNOW now what Nostradamus knew about them. Regarding other “channellers”, for instance, one Barbara channeller of so called Pleiadians (which could well be those from Alcyone) being told that “you have only discovered quantum mechanics in the last century or so”...

When we have seen (in quatrain 1 42 4 *seeking the gold of Nostradamus & Psellus*) that Michael Psellus the Younger wrote about it – casting *his* references back to *ancient Greece* in his works *THE CRONOGRAPHIA*...

raising the question mark on those Pleiadians which visited Billy Meier – were they also from the Antarctic Alcyone because they never told him about free energy, nor that we are not actually in the 21st century yet, and they arrived in the Nazi Vril craft that George Adamski also saw.

Throughout the 1800 odd pages of the Billy Meier transcripts – there seems many contradictions, which some have studied. While reading these contradictions the words in these Hidden Texts kept coming back to me YET THEY STILL KNOW (remember) LOVE... despite being invaded over thousands of our years and bred until 99% of their DNA is now reptilian – their cellular memory recall is still latent within them!

Also, these texts, Dr Fred Bell and Billy Meier commented that our “radiancy” from our DNA damages theirs – and this is the real reason no one receives virtuous (real) “channelling” from authentic Pleiadians.

What are we to make of their predictions which came true? Obsfuscation of real history, in a Hegelian Dialect format. Oh, I just found this, how interesting that additional to Anna Hayes, someone else (Dana Rasinova www.exopolitika.cz) has come to the conclusion to question Billy Meier’s visitors http://www.bibliotecapleyades.net/meier/esp_meier10.htm

(A) **10,490 to 10,390 B.C.** So, if we remove the additional *ca*1,000 years added by the swipe of a pen – that would make the completed construction of the Giza pyre-amids at around 11,400 years ago, and that shar of Nemesis which caused the problem (the great flood) leading to the new construction, around 11,500 years ago.

This does not reconcile at all – and now the thinking is that the ‘contact’ Edgar Cayce received was faulty – especially in the light of the expected poles shift he warned us which was dated prior to 2,000 – was that because it was not yet really 2,000 – or was that because of time lines shifting? Many of the earlier predictions made while he was alive to occur after he died, *did so, such as the island which appeared in the 1960’s and was told would disappear at a date, and that did occur.*

I am going to throw this **curve ball out** and about. There is a new ‘age’ credited by Graham Hancock (3114BC) which for the sake of simplicity we will call 3,200BC (an incoming asteroid landed in Austria, killed Sodom & Gomorra *and is dated in stone* at June 29 3127BC.) To qualify this keep in mind that the computer which dated this was at least 324 years out. But to continue, IF we add 3,600 to 3,200BC we get 6,800 [ca] BC then add another 3600 [shar] we get **ca 10,400 BC**.

That is very close indeed – so why is it so close? The ‘new age’ asteroid of 3,200 BC was not a shar of Nemesis the other Destroyer. The one written in stone to have caused Mars to lose its atmosphere, at the same time as our Great Flood, and should we go to the astronomical date found in the air shaft of the Great Pyramid which tells us by computer a date of around 9,200 BC, which is really around 9,500 BC for a date that must have been during the middle of construction of that pyramid – immediately we have a *one thousand year difference* between Cayce’s date and the *computer programs*.

Oh how I hate coincidences. Was the entity telling Cayce lying?

*Should a thousand years be added **back to** the computer date?*

Working back wards from what we think we know:

We are currently in around 1016 (or not - allowing that the 324 years occurred in a parallel calendar concurrently) An average shar of the Nemesis orbit, (the Destroyer) the very thing which has influenced the end of a previous ‘age’ and – after a settling period which could be as much as 500 years – the beginning of a new age... we find that in the Bible GENESIS – a new age, or “in the beginning” has been studied with the “discovery” that it was in around 5,510 years before the new calendar we use today, taken to read either as the birth of a Jesus Christ or his death – neither of which is known, since it is understood that he was between 3 and 8 at the date of 1 A.D.

Working on the presumption that each shar/orbit of Nemesis has an *average period* of 3,600 of our years, more normally 3,660 according to the Earth Chronicles of Sitchin – but less at times too.

If 5,510 BC¹ was a result of a shar, then around 1910 BC +/- was another. This is one of the proposed dates for the Thera/Santorini volcanic devastation. Allowing another 3,600 of our years brings us to 1690. A.D. Now this kind of shocked me – simply because we have been told in these texts that 2014 was really 1690 – a difference of 324 years! Heck: how did THAT happen, taking a figure from someone else’s work (5510) and ending up with a *date in my work!* The difference, between *the 1000 years added by the flourish of a plume*, and the 324 is 676 – the date of the Edict!! That is a co-incidence I am having to come to terms with...

¹5,510 BC

“Both the Julian Calendar of the Western Empire and the similar Byzantine Creation Era Calendar of the East were concurrent in Nostredame’s lifetime, and each placed Creation at 5,509-5508 years before the birth of Jesus.”

From Arthur Crockett in The Untold Story: Nostradamus' Unpublished Quatrains.

"Mabus" is the Old German spelling of Moebius, and means "great adulterer", OR MOBIUS the one sided dimensional boundary but we now know what Mabus is - those Monsters of Abus in THE MONSTRE D'ABVS, which turned out to be the Grayles of Phil Schneider under Groom Lake etc.

it is also an Irish name. At the time of his death there will be a plague of men and beasts These events will be concurrent with the appearance of a great comet.

"There will appear toward the North
Not far from Cancer the bearded star: NIBIRU
Susa, Siena, Boeotia, Eretria,

The great one of Rome will die, the night over." (C.6:6)

The Pope will die during the appearance of a comet in the constellation of Cancer. Susa is in northern Italy. Boeotia was a province in southeast Greece, and Eretria now is Aletria on the island of Euboia near Boetia.

"Comets without tails, move silently

Panic abounds.

UFOs will appear in association with a comet, causing panic. The aliens will make overtures of peace, but will be rejected. Line 4 is enigmatic. One ship will land in New York City, but rumors of an alien plague will cause them to be quarantined while three leaders (the USA, Russia and China?) decide what to do. Then the aliens will lose patience and demonstrate their power:

"A salver flies, comes to rest in the New City
Hate flourishes for the entity within. Battle lines
Drawn. Fears of disease mask truth while three
Leaders in secret, unite against a false threat.

by Arthur Crockett in The Untold Story: Nostradamus' Unpublished Quatrains.

" Nostradamus supposedly considered these quatrains to be so dangerous that he sealed them behind a wall in the basement of his house. They were discovered during a renovation of the building. The manuscript was so badly damaged that only 21 of 51 pages have survived. "

In which case these must be the "three books rendered to Vulcan" (behind the fire place)

The hint has been provided to us many times by Nostradamus.

It appears in nearly all of his frontispiece vignettes as the three books sitting on their own in front of him at his desk.

- **LACERTA ENCOUNTER ANT Mantids UUIIN IDEA CLEAN TRUE.** If you peruse the VOYNICH MANUSCRIPT you will see the lizard people. Looks like an alliance with the Mantid people and the Lizard people against those Anakim that dream to own Earth entirely. They need to take into account the other off worlders (Grayle) whose real plan does not include oxygen in our atmosphere. This is the real reason for the defoliating agenda. There is a forum in progress which is eleven pages of just lines (unworked) warning against defoliation. It is named *AIR, TREES, & DEFOLIATION*
- **TUNA-BLUE BOUND ONES a pun indeed. The one 'bound' to a rocky cliff was Andromeda. But the Andromedan Council is also 'bound' by the agency of Free Will. There are people who have been quick enough to spot American marines tattoos worn by some of the pseudo Muslims which are really mercenaries – who certainly "know not what they do". THIS is the very reason we are being guided to **KEEP OUR GUNS re UNTIL DICTATOR...****
- **INFECTION ULCERATION INCIDENT IN ^{TIN^{March}}DIURNAL normally TIN means in Sagittarius, but it does also mean in Pisces, by adding the word DIURNAL it points to the old date for the March Equinox – the 20th, which will no doubt mean March 11 once again since it is an 'elite ritual' date. The 20th no longer being the equinox. **ULCERATION INFECTION** can mean many types of diseases. Take your pick. It can also mean nuclear poisoning.**

4 41 3 **GRASP: SEDUCING DAMAGE USING CHAMPAGNE.** (C+F+CHAMPAGNE)

this has meanings on more than one level, it is saying **UNDERSTAND WHAT ALCOHOL IS REALLY DOING**

1. Mollifies the brain and changes attitudes and morals. For instance : so that our "leaders" who are only human are easy to control and make truly stupid decisions
2. Any time anyone goes to a high priced auction, what is often the first thing produced ? Alcohol, and it is the same for large horse races such as the Melbourne Cup – there is nothing quite like alcohol to release the purse strings
3. Have you ever read the article (it first appeared in a New Scientist magazine) about the rat that was attracted to the cat ? On research it was learned that the [deceased] rat was carrying a particular para-site which produced a hormone or enzyme that made the brain of the rat feel completely attracted to the *smell* of the cat. That is a *cat* parasite, and the rat was just a rung on its ladder. In much the same way hydatids use an intermediary host (a herbivore) before it reaches its end plan – a fox or dog. The first part of an herbivore a wild fox or dog approaches is the gut – often *leaving* the rest of the carcass.

Weeks after working with this line, I just spotted a detail, or two

A.A ancient astronauts

this is saying that Putin has been taken up at least three times, by three differing types of stargate

ALSO SAME : IMPORTS TEXTUAL PLAN COLLATOR UP IN AZURE. Tiredness does overcome a person now and then. Recall all those lines describing STAIRCASE TO AIRSPACE for the collator in the date of March equinox ... AZURE means the March equinox ; and was the date for the JAPAN NUCLEAR 'ACCIDENT' forum. That forum named the exact days, the 11th for the earthquake event, and 19th for world wide news. The fact it was on the 11th is a dead give-away that it was man made, induced as a warning to Japan to not get involved with North Korea. Even Chani had said "Japan make secret warrings".

Those elite who induced that earthquake and its tsunami have a huge load of karma coming. They think by sending the public hints via media such as youtube, that their karma is wiped clean. Those who are their 'masters' are going to « **dump** » them for this very reason – that they could and would and did do these things to their own kind. The Anakim 'masters' of the 'elite' are *very heavy* into bloodlines and species loyalty. Despite the hypocrisy of their own internal feuding, which *is all about* who of them has the hierarchy of power over others. This is the evidence the Ennead of nine are not with the Elohim.

This little detail is exactly how we, mere plebs that we are, can discern the difference between those of the Elohim and those of the Anakim. (Generic name for reptilian blood. Used here because it appears in the bibles, but they have over 120 names).

With the Elohim and their Alliances – no one is any less important than another.

One thing Simon Parkes has made comment on is that he feels the Mantids do still have reptilian traits because they like to keep a low key type of hierarchy amongst themselves.

There are more than one type of mantis, and those with four front legs are **not with** the Elohim Alliances.

For EnKi to have become a true Ra, he would have had to overcome the hierarchy meme bred in his genes

R.O. FRONTIER DIMENSIONAL: ALPHA AND OMEGA TRULY EQUAL RA

1 70 3 Par la finie en Gaule commencee:

E'A-RA COLLEAGUE OF R.O. AIM FINE PERMANENCE

This is saying that Enki is "FATHER IN HEAVEN" and that means father to Immanuel-Yeshua, who "sits at his right". R.O. means Regency Order of the Andromeda Council, a title that did concern me, both 'regency' and 'order' being sourced from the reptilian hierarchic title. A friend reminded me that there are 'good' reptilians too. These ones certainly seem to have reached a very high state of vibration to be in the "tuna-blue" and "violet" realms.

§

For those of you who have actually read Alec Newold's book/s where he says "they call their place Haven" - do not be fooled by the beauty that surrounded him during his experiences. Saturn being one place they took him tells us these are the "Saturnines" of Nostradamus, the same which are under Antarctica, and formerly once from Alcyone. Those which said they "came from Venus" are tarred with the same genetic brush.

The Elohim Creators of the Living Library had the Gem of Earth in perfect harmony long before the 'Others' arrived into our Solar System.

The 'Others' have tried ever since to take the credit for the Living Library, but fail to see how harmony needs balance. To learn this lesson, they would need to relinquish the idea of hierarchy, & to replace this with Love instead of force.

4 41 3 **FOUND NAME CALLING IS CHEAP GAIN** this is really important for mere humans to comprehend.

That the "baddies" rarely use the same name twice. This in particular goes for the Anakim who *invented* the idea.

MINUS COPPER COIN ERA: saying - in the age of paper 'money' - where we should all realize that the "Federal Reserve" is a *privately* owned bank... owned by those who are the puppeteers running your 'govern'-'ment'...

and the greatest counterfeiters on the planet, making their own 'money' to sell to others; but it is also saying

"loss of the economy", which is *also* run by those same puppeteers! Always ask yourself: "who else could this be?"

MALIGNED MANURE even though the bibles call the Nephilim "the fallen ones" - it was not *their* plan to become that way, having been bred over thousands of their years - going from 'angels' to 'reptilian bred' like a frog being cooked in cold water. The word "fallen" can also be taken literally, as in "from heaven to Earth came down". It is

entirely possible that those left over in-bred Dero underground are a form of red herring - being distantly related to the "fallen ones". The Alcyonese ex-angels are the techno-creeps. Especially when it came to genetics, just think Dr. Mangela! We are generally so limited in our thinking we would never dream that alphabet groups, such as the C.I.A., are actually run and controlled by these same "half-humans". This explains the presence of the black ops at scenes in National Parks when a child 'disappears'. Telling us the Alcyonese are still "*looking after*" troglodytes.

If you have been getting sick of reading lines about what is happening to the collator I thoroughly empathise.

To show you what a slow thinker this brain of mine really is (making me wonder over and over why choose me for this task?) then the answer for it (the constant repetition) came to me only recently - after ten years of this work. It is always in the *deed*, not the talk. The *facta non verba* of a truth or event.

How else is the reader going to be able to accept validity of the works themselves?

Every single medical warning to me has come true - there are the scars to prove it!

The personal 'events' are not stated for the purpose of eliciting a response from the reader *to feel sorry* for me!

Pointing out that all those earlier alerts came via Allan Webber's *computer programmed* Template

10 81 Hesperian = western. Meaning *Venus/Nevus in the west*
Hesperian citizens putting treasure (time gate) in a temple,
Therein withdrawn to a secret place, (time)
The bonded families (Andromedan) opening the temple,
The bonded (related) alien families opened the temple
Horrible ravished prey in the midst retaken (The Dulce battles 1979 -
the real reason governments will not provide full disclosure

The word "citizens" means the elite, and the word 'temple' does not mean a religious place. The last line "taken in the midst" of this 'temple' refers then to the underground place where most time gates need to be, seated on a geological stable 'craton'. Nevus are the Zeta greys, in this case the three fingered negative E.B.E.N.

Andromeda was the one 'bound' and freed. We are bonded to the Andromedan Council via our DNA.

When the great columns of wood will shake (timing of the Golden Age (Sequoia trees, which grow only in one place~California) the Centuries Quatréins are spot on the Hidden Texts coded using Celtic Trees the Golden Age is coming after California quake, without the genderless greys and their A.I. [genderless] agenda. No one to be above another equals bliss

Whenever a line already published as 1 82 1 *Quand les colonnes de bois grande tremblee 1562* *When the great columns of wood will shake* had been; then when it is needed to confirm another (such as here) there is always something I had missed. Once it dawned on me that the words GOLDEN CUBE appeared here, it behooves me to say that I had to ask. ??

Simply because I, myself need much required confirmation about golden cubes. When our "govern-ment" says we will see the International Space Station "second brightest to Venus" in our skies, we can be sure there is much more to that statement, such as a cover-up. For one thing, the "second brightest light" in my skies is **held geocentric to my area**, meaning it does not flow backward with the rest of the stars and planets as our Earth turns during the night.

At first my thinking was "what ever that light is which is supposed to be the I.S.S., we can guarantee it must be the "baddies", since the shadow ones governing our western hemisphere "leaders" are the negative off worlders, those of Phil Schneider.

Grabbing first a [useless] telescope, then a [useless] cam-corder, finally my Apple fone caught the images further below here. Although looking through the cam-corder gave me the clear view which told me the object is actually a **giant golden cube** composed of numerous small cubes. Just as it appeared in a crop circle a couple of times.

The damn cam-corder just would not **take** the clear shot even on a tripod. So I could not get it in the beautiful colouring it has. The images we took shown below these found at youtube - were caught on my fone, and my daughter caught a couple on hers.

The thing to realize is that we can see space tubes in our images as well as these ones at youtube. My idea is to establish if these are used by the "goodies" or the "baddies". Knowing the Elohim Alliances use time gates gave me the impression they do not need space tubes.

there are several quatrains regarding "dards" darts *from the sky, and see photos poem by John B. Hare sacred texts.com*

Cil qui dira descouvrissant l'asaire,
 Comme du mort, la mort pourra bien faire
 Coups de poignards par un qu'auront induiét,
 Sa fin sera pis qu'il n'aura fait faire,
 La fin conduit les hommes sur la terre,

 As (the same as) with death, death will [thee] able do well
Blows of darts which will have been incited by one,
 Its end will be worse than he will have devised to make
The end is a conduit tube for mankind above Earth,
 Watched for everywhere, as much by day as by night.

Who will tell, revealing the affair,	Nostradamus – the collator
As with death, death will be able to do well	the same as being dead to those of his own time - time travel or reincarnation
Blows of daggers/darts -	lasers from the sky? Asteroids?
It/her ^{Earth} end will be worse -	sounds like something got out of hand <i>than he will have devised to make</i>
The end is a conduit : or the end of a conduit /tube (see #20)	there are several lines REINCARNATION being real

Looking at this crop circle closely one can see it is a cube, brightly lit up and producing a glow like Venus in the night skies. This image appeared at Wiltshire in England August 2016.

On the following page are images taken by my daughter and myself – albeit 400 klm apart. This cube or cubes are geocentric, therefore not Venus, not the I.S.S.

This is exactly what I saw through my telescope just before Christmas 2016 so bright the glare almost prevents one seeing the golden cube and the hundreds of small cubes which are inside of it.

The bright golden is highlighted by an intense green acute border for each of the cubes, large and small alike.

The top two are a shot my daughter caught, (from a park, with street lights) with the enlargement on the left. The bottom one is mine, with the enlargement on the left. Mine also had a space tube up on the top right, but I had cropped it out without realising it was there. The clarity via the cam-corder showed a bright golden colour, with SHARP green highlights. Without the really clear real-life visuals in the cam-corder viewer, one would never had thought it is a cube with it was showing so much brightness virtually leaping off it surfaces. I have left the bottom right hand edge unencumbered so you can see it is straight.

A "homopolar generator" as drawn in crops on August 15, 2012 became part of a "Rubik's cube puzzle", eleven days later on August 26, 2012

recall the image of Nostradamus in the Last Supper – at the far left here, where he appears several years before he was even born... here is an image of him found in a vignette to compare. In the vignette he wears a band of mourning on his thigh - meaning 'in Sagittarius' which is what he was. The image far right is also a portrait, by his son Cesar over a hundred years after the one at the very left.

This column was completed in 1991. C+F+SKELETON METEOR-LIKE MISNOMER (EMBARRASSED ILL-OMEN AS 'TOKEN' BONES Capricorn) token is also a date= relic = Sagittarius could be saying "TAKEN AS BONES" a long time ago there were Allan Webber lines saying that Sagittarius year of the cock (2017) would see a new astronomy and a new astronomer (naming her) who will sort out the unidentifiable stars. However using the word EMBARRASSED probably means I made a mistake with placing the word BONES in the wrong place. GOLDEN ELOIM CUBES ABLE DELETION DARK ROBED MAN-LIKE LEO MASTERED NOBLE GASES TUBES DARKNESS: space tubes MARKETED, TRADED, IS KINDER MOLESTER-BERSERKER. OK this is telling us the 'baddies' do use the tubes, just as I suspected. My simple logic being that the Elohim do not need to use space tubes. Although we can see space tubes in the photographs, it does not mean that they belong to the golden cubes. (MAN-LIKE LEONINE ENTOMBED RANKLESS SNEAKIER NINURTA AS DEAD) so his own kind did it to him, we saw in a previous line it was a rarely mentioned relative (another son of Marduk) who locked Ninurta away, and that was what the huge lid pushed aside on one of the sarcophagi was all about, Ninurta escaping.

- o where KINDER means children
- o all I had tried to ascertain here was if the planetoid above my area is really the golden cubes – and see the result!
