

ANTENNAE

~ HIGHLIGHTED PURPLE = CAME TRUE ~
 ~ HIGHLIGHTED NAVY = watch this space ~

This will be a strange hodge-podge collection
 he subject of Antennae may *sound* fairly innocuous ~ but it is the one thing controlling all of us.
 hey are so dangerous to you & me, that people trying to warn us are receiving the 'heart-attack' weapon.

The next forum is intended to be the JESUS collection, but this bunch here will be published as quickly as possible, meaning no fancy alteration of collected items font-wise or otherwise. All credits supplied.

4 92 3 His body *suspended* of/by the *hunting* ^{chasse} *antenna* ^{radar?} *Cheetham and Webber*

4 92 where 'suspended' can mean 'hanging in the air,' or hovering
 gettee (from gesir? to lie down in front of), gettee = a gas jet
 classe = lesson, order, pigeon holed, category, form, kind, race
 chasse = chasing, hunting [the hunter, = Orion] *Cheetham, Webber*
 rame = paddles, oars, [Oars/Mantids] rotor blades, propellor
 (boat or jet engine), wind turbine, propeller = a fan

Erika Cheetham made it very clear in her works that she was using an original publication of the Centuries. Whichever edition she used it was not the Very Original i555 nor the i562 edition, while the doctor was still alive. Yet in her publication certain words do appear which have more intriguing translations, such as in 1 63 the word "serre" meaning "squeezing" the waves = frequencies (where the two editions I have been using had it as "terre") and here in 4 92 3 where "chasse" means hunting/chasing which she and Webber used- where clearly it is "claffe". The Very Original i555 publication only goes as far as ©4 Q53.

Hunting antenna: as a radar searching, could refer to the He Rod "suspended" in his scout craft on the occasion of the infamous Roswell proximity crash of 1947. Or the 1941 crash - but does not in that case explain crashes between then and 1897, since there were no radar (that humans were using) in those years ~ that we know of. Those Grayles (of Phil Schneider's information), however, had been around; since long before 1897 - and their technology had always been capable of bringing down scout craft. One similar example being the likes of the Tunguska event. Who is to say had that event been Those Caring for the Living Library? - or those Others inhabiting underneath the Living Library? We have seen in many previous forums what long-ancient pyramids can do

While I know most of you will have seen these images before, I apologize for the repetition. Many of you are freshly new to these hidden texts. Since these images apply to the topic of "antennae" they show here, hopefully for the last time.

"The Sumerian record provided a probable description of the lion-headed Sphinx at Giza, and if that great creature was built to guard or obliterate ancient stairways and lower passages leading to subterranean areas below and around it, then its symbolism was most appropriate." by Tony Bushby

"During the first Egyptian "pyramid war", between Horus and Seth, Horus strikes: "...and he) let loose against them a storm which they could neither see with their eyes, nor hear with their ears. It brought death to all of them in a single moment..." (Sitchin, 1985) This detail informs us that Horus was EnLil-YHWH lord of airwave storms

1 43 2 Il quiendra vn cas bien merueilleux, A truly wonderful event will happen

URSALINE MIX AN INAUDIBLE RELEVANCE (from GWEN towers, or pyramids?) **REMAINED "INVALUABLE", USED AS 'NICE LUXURIES'.**

This becomes extremely interesting.. The word "Ursaline" means those who come from Ursa both Major and Minor.

We have been calling them the Anun.nakim (or Anakim in the bibles) with over a hundred other names.

The subject matter here continues from Century 11 #13 which then took us to C6 6 and C6 9 and then to "squeezing the waves" in 1 63. The "nice luxuries" is also the ability to travel in time by being "disassembled" via sonic technology, but this means the likes of WI FI.

Go to the forum *CENTURIES ELEVEN SIXAINES* and in the forum *SASAR & FIPPLE FREE ENERGY* you will see much that relates to herein. 1 63 will appear later in this collection. Then ask yourself **how many other** Off Worlders have been guiding you and me to free energy?

- Re-iterating that tiny detail which will become my swan-song... **Why is it that none of any of the so called "channellers" nor visits received by contactees ever result in being provided with diagrams on how to engineer free fuel? There is no excuse for these high minded visitors for not assisting in that one small manner - after all is said and not done - it is the free energy equipment that will prevent pollution of all of Earth!**
- All those readers who have tried to discredit EnKi and these texts; pointing out they could as easily *be from demons*, should take on board what EnKi has just stated in **AUTHENTIC ALERT**. Then, should they wish to maintain their accusations (and who is it that is named the Accuser?) **the collator**, and EnKi would point them towards an entire forum titled **SASAR, FIPPLE AND FREE ENERGY**. No less than **SEVEN** forms of free energy have been named in previous pages. **It needs only you to get off your collective rear ends and make them!**

They float at extremely high altitudes, and are usually observed using a telescope. While some sightings are only visible in full light spectrum, these zereoids can be seen with the naked eye. These fascinating alien creatures are poorly documented, although many researchers know and even acknowledge their existence.

On May 3, 2016, a video has surfaced revealing an impressive zereoid sighting floating above Guadalajara, Mexico. It strongly resembles a blue whale, but from another dimension, and it may also prove that Rueli's theory regarding smaller zereoids being assimilated or eaten by the bigger ones is true. On a cosmic level, this could be a variation of the food chain defined by our earthly standards.

" The term "abomination" (Hebrew *toevah* and *siqqus*) appears more than 100 times in the Old Testament and just a few times in the New Testament. An abomination is normally a great sin, commonly worthy of death. Readers immersed in current debates about sexual ethics may first think an abomination is a sexual sin. Indeed, Scripture calls sexual sins like adultery, homosexuality, and bestiality abominations (e.g., [Leviticus 18:22, 29-30](#)). But more often throughout the Bible "abomination" refers to major covenant violations, especially idolatry (in Deuteronomy alone, see 7:25, 13:6-16, 17:2-5, 18:9-12, 27:15, 32:16). In the historical books, "abomination" always describes idolatry, often with child sacrifice ([1 Kings 11:7](#), [2 Kings 23:13](#)). Abomination also refers to idolatry in the prophets, including Daniel 9 and 11. (Daniel uses *siqqus*, a term that always appears in connection with idolatry.) The interpretation of Daniel 9-11 is difficult and disputed, but it does have some fixed points, and the nature of the abomination that causes desolation is one of them. [Daniel 9:26-27](#) refers to a prince who will destroy the city (Jerusalem) along with its temple and sacrifices, "and on the wings of abominations shall come one who makes desolate." Two chapters later there is another reference to an "abomination" in connection to the temple: "forces from him shall appear and profane the temple and fortress, and shall take away the regular burnt offering. And they shall set up the abomination that makes desolate" (11:31)."

How to remove an RFID IMPLANT

A complicated RFID Extraction*

“ * This image is from a French documentary showing a VeriChip being surgically removed from the arm of a journalist. Source: News of the world – RFID

RFID technology could lead to political repression as governments could use implants to track and target human rights activists, labor activists, civil dissidents, and political opponents; criminals and domestic abusers could use them to stalk and harass their victims; slaveholders could use them to prevent captives from escaping; and child abusers could use them to locate and abduct children. So what do we do about this?

“Apparently, the removal of an RFID Implant is complicated whether you are a pet or a human. First you have to find a practitioner who can detect the chip. This is usually not so easy to do as some of the chips do not show up on X-rays, ultrasound machines, or scanners. Once you have successfully determined that you do have an implant, you better hope the chip stays in once location, they tend to move. Secondly, you must find a surgeon who is willing to remove the chip, or find a technician who can erase the chip and stop it from transmitting data. The following is sure to help those of you who may have strong implications of chip implantation. This article is to aid you in your search for either chip detection and or chip removal.

What is an RFID (Radio Frequency Identification) implant?

RFID is a technology for identifying unique medical equipment and supplies and other high value assets using radio waves. Typical RFID systems are made up of two major components: Readers and Tags. RFID tags are also referred to as a ‘chip’.

The RFID reader (also called a scanner), is set to a particular electromagnetic frequency, and an RFID tag, which consists of a microchip is connected to an antenna. The microchip contains information that is transmitted to the scanner when the chip is within its range. The chips are generally the size of a grain of rice, but more recent technology is smaller. Uses for the RFID Chip include tracking for pets, medical patient data and records, Military recruits, Credit cards, US Dollar, consumer goods, and livestock. The RFID labels draw their power from the reader. The reader transmits a low power radio signal through its antenna to the tag. The tag receives it through its own antenna to power the integrated circuit (micro-chip) that is built-into the label. The tag will briefly communicate with the reader for verification that the tag was “read” and data is exchanged. RFID systems were originally developed created as an alternative to barcodes, so they say.

If you are not familiar with RFID technology yet, I would suggest that you begin to at least familiarize yourself with it, mainly because the number of different devices that utilize these types of tags is growing exponentially.”

Hi James,

You can have your 125kHz tag removed and replace it with an S50, but why not just put the S50 into the other hand? Of course range depends on a lot of factors like reader antenna shape and power output, but overall range is slightly less than the EM4102 if you're talking about using a phone to read the tag. Here are a few videos you should check out;

“How did you get your implant if you never authorized it?”

It is becoming more and more obvious that almost all of us have been implanted with chips in one way or another since we were born, but how? **And exactly WHO is doing the implants?**

Vaccinations, flu shots, dental work, surgeries, sleep abductions, in fact most medicine including dentistry has been loaded with implantable chips since the 1960s. They have had this technology for 40 years or more and are just now bringing it out to condition and introduce it to the public. Withholding technology is typical for the government and military for years before they release it to the public for whatever reason. Most of the time new technologies have been beneficial, but implantable chips are not one of them. If you wish to further your knowledge on current technology regarding frequency and reading distances of the RFID CHIP, we have provided a manual from DEFCON: go to Yandex search, google has it censored

Removal of an RFID Implant: Now that you have one, how do you get rid of it?

“The implantable microchip can be removed from the body – but it’s not like removing a splinter. This image is from a French documentary showing a VeriChip being surgically removed from the arm of a journalist. Source: News of the world – RFID CNN reporter Robyn Curnow confirms that chip removal is difficult. She was implanted with a VeriChip in a Spanish night club in 2004 and had the device removed later that year. She reports that the surgery was a challenge for the doctors involved, a far cry from “removing a splinter.” Here is her report: Once back home in London, I begin to feel uncomfortable and unsure about my microchip implant. The Baja Beach Club Web site assures that getting rid of the microchip is a simple and harmless procedure, something like removing a splinter. But the two doctors I consulted in London’s Harley Street disagreed. Getting the microchip removed became serious business.”

The following is from a reader who had an unbearable ringing in their ears and suspected they had an implant. This is an excerpt from part of their letter.

“That night, taking the advice on your website, 3/4” Neodymium magnets were now placed on the top arch of the ear, one if front, and one behind. But the ear had been cut, and the force of the magnets became so painful, they were not able to sleep with them on more than 2 hours before having to remove them.”

*Only days have gone by... but the sound has not returned.
(Referring to the ringing and beeping noises.)”*

Magnets can also be found inside old hard drives. They will be encased in a silver (or gold) overlay because they are more brittle than other magnets. But you will not mistake them, because the moment you try to put them together you will pinch your fingers. They are very powerful magnets, derived from a rare earth mineral.

C+F+ **HYPERSTHENE**

And they WILL render micro-chips useless.” Original source <http://www.metatech.org/>

Please check out this interview with James Walbert who is one of the Board of Directors for the Stalking Victims Network. James Walbert is a victim of non-consensual RFID implantation. He has testified in in Washington D.C. in front of the Presidential Commission on Bioethical issues appointed by President Obama. He is one of the few who obtained a “Protection Order” for James Walbert.

When I asked James Walbert why he did not elect to have his implant removed, he stated “Because I don't think it's time”.

How to deactivate an RFID Chip/Implant

"I have found that rare earth magnets called Neodymium magnets will nullify chips. I bought some Neodymium magnets online from a retailer, the kind that can lift 10lbs of steel and run about .70 cents apiece and I used band aides to hold them in place. I put magnets on the back of each ear lobe, on the side of each arm where I have received shots, on both sides of my jaws where I had wisdom teeth removed, and under each heel where I had been purposely implanted by my mother's doctor shortly after I was born. Also on my stomach where I had a cesarean. I am finding that most people are implanted by their navels as well. If you have had any type of surgery put a magnet near the scar for about 24 hours."

"We have a technology that no one can stop. * The ramifications of this technology used as a weapon are something out of a science fiction movie. We have to ensure that this technology stays within our working group. Someone could use this to disable aircraft from 400 miles away and there is nothing to trace, it would just look like the aircraft had a system failure and plummeted out of the sky.

Someone could use this to disable any alarm system, create a financial crisis by aiming at a stock exchange, someone could start wiping out every satellite in constellation and leave zero trace of what, where and how this happened. The 400 mile range is minimum, it can be increased via plasma antennas.

If one satellite 300 miles above the Earth were retrofitted with one of our antennas, you could disable any electronic device in Northern America via an EMP effect. Our knowledge is based in Resonant Frequency and we have mapped the tonal range of Earth's frequencies including gravity and how to detune and change oscillation of X, Y, Z axis.

Same principal behind the resonant tuning of point A to point B for an envelope effect of collapsed time-space, creating something similar to what you call a '[Casimir Effect](#)' and understanding the 'Impossible Space-Time Transition' of 2×10^{-33} cm, 10-43 seconds.

Our 'Vril Power' is synergistically combining Gravity Units (GU) at positions specified by the coordinates (x1, x2, ...) and (u) – a process in time, can be thought of as a matrix-valued function of dimensionality (n1, n2, ...)

Interjection from the collator:

The manner this is stated is obviously unfriendly.

The Aquarius Radio Group (the Lessins in their blog [ENKI ~SPEAKS](#)) are adamant that Marduk has "changed his ways" and only wants the best for everyone.

If that were the case, why has he not put a stop to all the genocide agendas?

Do you think any of the Elohim would use such words in this manner? "that no one can stop"

No, they have already made statements referring to their own non-technological abilities and those statements are *not* made with a competitive attitude.

Re: Question for Dr. Tom Bearden

7/21/02

"With so many nations (10 or so) having longitudinal EM wave weapons, I would not be surprised. Longitudinal EM waves can deeply penetrate right through the earth -- or deep into the sun. With all the banging that's going on in weather control etc., God only knows how many LW antennas get pointed in the direction of the sun, pour out their back-feed in that direction, etc. Cohen already confirmed the **weapons could stir volcanoes into eruption**, generate earthquakes, etc. Tickle deep underneath the sun's surface, and one can be stirring quite a brew. Don't know how the dickens one would estimate it, etc. unless one was on a project which used the interferometer technique to examine the interior of the sun, etc.

Isn't it coincidental that it's also synchronized with conflict in the MidEast, etc! In short, when conflicts and "planning for conflicts" are ongoing, the troops are stirring and burning the midnight oil, and manning the weaponry.

May be some of that is causing or helping stimulate more solar activity of that sort. Scientific observers and short wave radio operators now state that unusual electromagnetic (EM) broadcasts preceded the Seattle- Vancouver earthquake. One researcher who actually monitored the EM broadcasts prior to the earthquake states, "Could the abnormal activity on 3.39 MHz February 20 and prior be linked to the Seattle quake? If so, why would HAARP (supposedly funded by U.S. sources) be used to create quakes or other assorted EM mayhem on U.S. property? I picked up a signal so strong it went right off the S meter on my SW set at that frequency at 6:00 am on Feb 20th. Took an audio sampling of half an hour but can't make hide or hair of what HAARP is broadcasting, just that it's STRONG."

One example of how earthquakes (and climate shift including so-called global warming) can be triggered is HAARP, a U.S. military electromagnetic EM installation located in Alaska, and part of a global network of U.S. (and other nations') military electromagnetic weapons. HAARP and its EM network are designed to turn the entire ionosphere into a giant anti-submarine and anti-missile antenna.

Environmental impact studies show that HAARP - and EM environmental weapons deployed secretly by many nations - could superheat the ionosphere, and substantially damage or destroy it in a runaway ecological process.

"The discoveries emerging from Egypt, describe the existence of a world wide pyramid temple system in prehistory, mounted like antennae on the key energy meridians, which were employed by ancient priest-scientists as a musical system to stabilize the tectonic plates of the planet... cataclysmic geology at it's finest. From the mother tongue word JEDIAH, meaning "the way of the Word" or "the power of the Word", the ancient JEDAI priests used the language of Light to tune the planet like a giant harmonic bell. Much is being rediscovered in the last days of this time cycle. In the words of Dr. Jay Franz, of the Omega Foundation, "even if we don't dare to name it, there is a universal feeling of something impending on the world stage."

2002 Update by Dr. Hurtak

Since the beginning of 2002, Dr. J.J. Hurtak and a European team of investigators and explorers have been recording the construction of a massive system of walls being placed around the historic pyramidal sites and the larger unexcavated area of Giza, Egypt — in total, an area covering approximately eight square kilometres. Why build these massive walls at this time? Certainly Giza is one of the finest archaeological zones of the world. Are there new treasures of ancient Egypt yet to be uncovered that require sophisticated technology and surveillance platforms, to protect the ongoing research along the Giza plateau?

Saga Magazine's UFO Annual [1980, p4], under the heading 'Cave Martians', described a bizarre encounter with subterranean creatures which seemed to have consisted of some type of automaton-like forms, perhaps on a reconnaissance mission from an underground civilization. The story involved a tunnel near Xucurus, Argentina(?), some 90 miles from Buenos Aires. The tunnel was discovered by agriculturalist Gerardo Cordeire, and found to contain nine connecting passages and strange inscriptions on the walls. From it's entrance "men nine feet tall, green, with antennas on their heads, and square legs" were seen to emerge, and which, according to hundreds of witnesses from the town and nearby locals, resembled enormous "portable radios."

Program #6: The MicroStarr Dimensional Transformer & The FireStarr (FredBell)

Fred Bell – who was aware of the false Alcyone Pleiadians, and the real ones:

"The amazing Firestarr Orb was first demonstrated in 1982 in Aspen, Colorado. The results made the headlines of the local Aspen newspaper due to the fact that half of the town saw the UFO's that came into the beam of the Firestarr over Pyramid Peak in the Blue-Bell Mountains.

At a later date in 1988, during one of Dr. Fred Bell's concerts in Marnau, Germany, located high within the Bavarian Alps another contact occurred.

Dr. Fred Bell explains:

"I was playing for about 500 people in a concert hall, using Pleiadian ship sounds and wrap-around sounds of the Roland D-50 synthesizer and all 500 people were energized on that Fire Starr and chakra frequency. Suddenly, we had a group of Pleiadian ships hovering overhead, and people were seeing them through the windows. Then the German Air Force came out and started chasing them, after which the police arrived and cordoned off the town of Marnau. So this was a very exciting evening."

The Firestarr works on a principal of subtle vibration that occurs in spring that causes the bees to be attracted to pollinate flowers. This principal is called etheric transmission and is constant in space and not seasonal as it is here on earth.

When used terrestrially, it sends a beacon-like signal deep into space where it can be received by and homed in on by alien space travelers and guides.

(It is not recommended for city use. The more remote an area this unit is utilized in, the better the results.)

The Firestarr Orb is a communication technology given to Dr. Fred Bell from a Pleiadian woman named Semjase. The way to communicate is really through the human aura. In the Pleiades communication is done via scalar waves because they are instantaneous in nature.

The Pleiadian use auric amplifiers or signature devices for telepathic transmission. The device is tuned to the user's chakras/ endocrine glands via gemstones and crystals and amplifies the human aura, becoming a transmitting and receiving scalar wave antenna.

All human and humanoid creations have an astral body so this is the perfect communication tool through the astral plane through space and time.

The Firestarr orb is an inter-dimensional transmitting receiving antenna that develops psychic resources of practitioners to become a contactee, clairvoyant & channel with higher beings of the Universe.

It clears blockages in the human aura and chakras/endocrine centres.

The MicroStarr is a smaller, portable version of a FireStarr Orb. This device can be set up in a hotel, resort, airplane or car. It causes a reality change within several yards of its presence, once the laser is enacted!

involves a microwave auditory effect "loud" enough to cause discomfort or even incapacitation. Sadovnik says that normal audio safety limits do not apply since the sound does not enter through the eardrums.

"The repel effect is a combination of loudness and the irritation factor," he says. "You can't block it out."

Sadovnik says the device will work thanks to a new reconfigurable antenna developed by colleague Vladimir Manasson. It steers the beam electronically, making it possible to flip from a broad to a narrow beam, or aim at multiple targets simultaneously.

Sadovnik says the technology could have non-military applications. Birds seem to be highly sensitive to microwave audio, he says, so it might be used to scare away unwanted flocks.

Sadovnik has also experimented with transmitting microwave audio to people with outer ear problems that impair their normal hearing... [with] Brain damage risk

According to University of Ottawa Professor Michael Chossudovsky, the military's [High-frequency Active Auroral Research Program](#) (HAARP), operating in Alaska as part of the Strategic Defense Initiative, is a powerful tool for weather and climate modification.⁶¹

Operated jointly by the U.S. Navy and Air Force, HAARP antennas bombard and heat the ionosphere, causing electromagnetic frequencies to bounce back to earth, penetrating everything living and dead.

HAARP transmissions make holes in the ozone, creating yet another hobgoblin. HAARP inventor Bernard Eastlund described in his original patent how antenna energy can interact with plumes of atmospheric particles, used as a lens or focusing device, to modify weather

"HAARP is capable of triggering floods, droughts and hurricanes, much to the chagrin of both the European Parliament and the Russian Duma."

"August 12 - 22 The motto of the Third Decan of Leo is "Ambition."

The constellation associated with this Decan is Corvus the Crow (also sometimes referred to as Corvus the Raven), representative of a strong character which feeds upon the weak and wounded and one which may also be ruthless and zealous in striving for goals. This constellation contains TV Corvi (also known as Tombaugh's Star), discovered as a nova by Clyde Tombaugh in 1931 while searching for planets, and the Ring-Tailed Galaxy (also known as the Antennae or Rat-Tailed Galaxy). In mythology, Corvus the Crow was sent by Apollo (God of the Sun) to fetch a cup of water, but was slow in returning because he had been waiting for a fig near the spring to ripen. Eventually arriving with the cup of spring water and bearing the water-serpent known as Hydra in his claws, Corvus informed Apollo that he had been delayed due to an attack upon his person by Hydra. Knowing that the Crow was lying, the Sun God placed all three into the heavens as constellations. Corvus the Crow is to the East of Crater the Cup... within reach, but Hydra the Fleeing Sea-Serpent constantly prevents the Crow from quenching his thirst. http://www.novareinna.com/chamber_renovate.html

August 31, 2009 Albuquerque, New Mexico - Continuing Ray Boeche's January 24, 1992, notes from first meeting with the Writers in Nebraska. Linda Moulton-Howe earthfiles

"The human brain operates as a receptor for portions of the electromagnetic spectrum. EM energy, when modulated, can act as a stimulus at some point in the sensory systems. This provides a physiological basis for the degradation of behavior and for emotional and physical changes.

The degree to which brain stimulation can be limited to a discrete locus is a complex function of the wavelength of the energy, the scattering that occurs as the energy passes through tissue layers, and the nature of the antenna.

Air ions and electro-aerosols have been demonstrated to have physiological and behavior consequences. Effects have been demonstrated on emotions, reaction times, flicker fusion frequency, blood pressure, sedimentation rate, serum protein, and metabolism. Charged particles penetrating the alveolar wall are transferred to blood cells and act on the central nervous system by stimulating the pulmonary nerves.

In 1949, near Roswell, another saucer-shaped aerial craft crashed containing six non-humans - pilot, leader, couple of scientists and an engineer.

"Ebe carried a "communicator" with him - a 12-inch-long rod with coils at the top that allowed telepathic communication with humans. However, military and government authorities were frustrated to discover that telepathic thought transfer to a group of human minds is as variable as the human mind receivers. According to Ebe, in his civilization telepathic communication is instantaneous and the same for all. In illustration below, the long "earrings" were actually described as "silk threads" that came down from head covering near ears that were described as antennae for communicating back to egg-shaped craft one of which landed at Holloman AFB in Alamogordo, New Mexico, on April 25, 1964, I was told, while two other egg-shaped craft hovered defensively or offensively in the air above the landed craft from which a Sumerian-type being with huge beaked nose, reptilian eyes and ropey headdress emerged along with two grey-skinned beings. The large-nosed being carried a rod in its left hand that had a coil at the type used for telepathic communication with the humans at the scene.

Iridium Satellites became a new source of UFO Reports:

"I was looking at the sky when I noticed this light hanging in the sky that got brighter and brighter. I knew it wasn't an airplane because there were no red lights. Just a single, round bright light that got incredibly brighter, like a star exploding. It couldn't have been anything from this planet."

Well, yes, it could have been.

A constellation of commercial communication satellites has become the latest nuisance to UFO-spotters, not to mention astronomers all over the world.

Iridium LLC, an international consortium based in Washington, D.C., has been launching satellites into 780 km (485 mi.) high pole-to-pole orbits. The satellites will provide a global telephone network.

Originally, 77 satellites were planned, and the project was named "Iridium"; (Iridium is a metallic chemical element having 77 electrons surrounding its nucleus. *And is also the left over signature element following a meteorite hit hp*) Later, the plan was revised to make do with 66 satellites, but the name remained. (Thank goodness they didn't rename it "Dysprosium". -ed.)

Unfortunately, the three main antennas on the satellite (two of them are seen as the lower vanes in the photo) form a sort of pyramid facing the ground, and they are highly reflective. These antennas are about the size of an average household door, and are nearly perfect mirrors. As the satellite slowly rotates, they can reflect a beam of sunlight to the ground. Because of the satellite's altitude, it is still in sunlight long after the earth below has fallen into darkness. In fact, during most of its orbit, each satellite will be reflecting sunlight somewhere on the earth.

On July 4, 1992, at a UFO convention in Arcadia, CA, Mr. Michael Younger, a member of the super-secret COM-12 group and a scientist who worked at Groom Lake, Area 51 in Nevada, stunned the audience of over 200 people with the following incredible information, which, if true, endangers the lives and freedoms of every American. Here is the amazing scenario of the planned events:

Beginning in August of this year, 1992, a conspiracy long at work behind the scenes of our government, will make its first overt move. These conspirators plan to create a dictatorship in the United States, suspend our Constitution and attempt to confiscate all guns and firearms in American homes. Stage 1 being to create "race riots" in major U.S. cities such as New York, Chicago, Detroit,

etc.; these to begin in August. This will be preceded by a month of subliminal programming via TV and other media to condition the people for civil war in the United States. The accent will be on rap records such as "Body Count" released by Time-Warner [a ROCKEFELLER corporation] by musicians "Ice Tea" and "Sister Solj" whose lyrics in such songs as "Cop Killers" are designed to inflame and polarize its listeners. These rap songs contain such lines as "kill white policemen," "kill the pigs", "kill whitey", and "Why not kill whitey, if he can kill us?" etc.

In August Stage 2, code-named "Operation Hot August Nights" will take effect. Special agents of the conspiracy, masquerading as police, will open fire on minorities, namely Black Americans and Hispanics and Orientals. Other agents will set off incendiary bombs as they did recently in the Los Angeles riots, which essentially was a "test case" that surpassed the expectations of the conspirators. These special agents, masquerading as police, massacre these Blacks and minorities and fire at the real policemen. This brings in more police and the riots escalate. "Skin heads" and other gangs, already fully armed, join in the fray. The real police, vastly outnumbered, cannot handle the rioting. The National Guard is called in and fired upon by [other] special agents masquerading as gang members, who also enlist other gang members to fight the police and national guardsmen. These riots continue through August, with many minority Americans slaughtered in major cities."

(Note: Although this did not come off as planned in August -- possibly because the project had been compromised -- the Globalist plans are still in effect, even if they have experienced temporary postponement or set-back. Also, a growing number of reports of United Nations military equipment being seen passing through U.S. communities on trains, trucks, etc., have been surfacing in recent years. I personally have learned of a few related incidents. I have come across reports of National Guardsmen undergoing specialized house-to-house search and seizure training and urban warfare tactics. I was also told that two men who managed to sneak into a Federal military plane 'graveyard' outside of Phoenix, Arizona had come across several freight train box-cars in which they discovered what they estimated to be from 2 to 3 million brand-new SHACKLES that were apparently being stored there, just waiting to be used! Keep THIS in mind while reading the following references to potential U.N. involvement in the attempted takeover. Compare this with various implications concerning National AND Communist 'Socialist' control of the U.N. Could the reason why the 'Commies' and 'Nazis' get along together within the U.N. be due to the fact that they are both backed by the Bavarian-Rockefeller alliance? Could it be that the L.A. RIOTS which began on April 29 1992 were a test-run for a plan to incite race riots and a civil race war in the United States? This is suggested by the following quotes from researcher Val Valerian:

"During the UFO EXPO West 92 in Los Angeles, which took place a week after the riots in Los Angeles, I chanced to run into some fellow investigators who had observed several ships loaded with electronic antennae off the coast of Los Angeles two days before the riots took place.

Eastland's work. Eastland maintained that there were 'peaceful' uses for his technology. In one scenario, he explained how beams of electromagnetic power could lift portions of the upper atmosphere and redirect the Jetstream to alter global weather patterns. Using "plumes of atmospheric particles to act as a lens or focusing device," Eastland proposed redirecting sunlight and heat to different parts of the Earth's surface, making it possible to manipulate wind patterns, cause rainstorms in Ethiopia, drive hurricanes out of the Caribbean, incinerate airborne industrial pollution and sew up the hole in the Antarctic ozone layer.

"Because the upper atmosphere is extremely sensitive to small changes in its composition," OMNI cautioned, "merely TESTING an Eastland Device could cause irreversible damage."

And also we have the following article, titled "DOOMSDAY DEATH RAY". Subtitle: "Is the U.S. Government Testing a Secret Mega-Weapon?" -- by "Agent X"., The Nose Magazine, issue #26 [March 1995]. We have to ask ourselves, just WHO will have control of this 'weapon', especially if ARCO is deeply involved with the HAARP project? Beginning some ways into the article:

In marked contrast to other advanced weapons-related programs, HAARP is not part of the officially denied 'Black world' budget. Rather, the military insists that HAARP is a strictly scientific program to study the aurora borealis [or Northern Lights], when in fact it is a device intended to seriously tweak the ionosphere for purposes that are less than benign.

Eastland, who soon became president of ARCO's Production Technologies International Company in Houston, proposed burning the vast Alaskan gas fields to power a huge electric generator. The resulting power would be directed into a huge antenna complex, 40 miles on a side. The antennae would be used to focus an intense beam of electromagnetic energy into the upper atmosphere where it would collide with the ionosphere to create a phenomenon called the "mirror force." Eastland was granted a US Patent (# 4,686,605) for this invention on August 11, 1987.

"You can virtually lift part of the upper atmosphere," Eastland told OMNI, "You can make it move, do things to it." One of the tricks Eastland envisioned involved 'surgically' distorting the ionosphere to disrupt global communications. Pushing the upper atmosphere around might also generate high-altitude 'drag' that could heat and deflect enemy missiles or surround them with "high-energy electrons" that might cause the missiles to detonate in mid-trajectory"

WHAT IS ORGONE ENERGY

http://www.bibliotecapleyades.net/ciencia/ciencia_reich06.htm

10. It can be manipulated and controlled by orgone energy devices. Perhaps the first orgone energy device was the "bacquet" of Mesmer, a crude but apparently effective form of orgone energy accumulator. Reich developed several devices for the control of orgone energy. The best known of these is the orgone energy accumulator. The accumulator is an enclosure formed by a layered arrangement of metallic and non-metallic materials which result in a concentration of energy within the enclosure. Of equal significance is Reich's weather control apparatus, a type of directional antenna that makes it possible to withdraw large amounts of orgone energy from a region of the atmosphere. Used properly, this apparatus can trigger large changes in the weather. To the above ten properties of orgone energy which Reich described, I would add two others.

11. Orgone energy units "use" stored energy of various kinds in the creative process. Units of orgone energy utilize energy which is stored in various ways in building themselves up and in maintaining or increasing their size or strength. This is most clearly true of animals utilizing chemical energy of foods in metabolism and growth. Storms, which are also orgone energy systems, utilize the latent heat of condensation of water vapor as a source of stored energy. Stars may employ the heat of thermonuclear fusion in maintaining their high temperatures, although I have reservations as to whether the fusion reaction plays the key role in stellar processes that today's astronomers believe. Fifty years ago an entirely different explanation was given by astronomers for the source of stellar heat, and fifty years from now still another may be in vogue. In any case, it is evident that orgone energy processes typically involve stored energy which is used in various ways in the service of the creative process.

12. "Spontaneous generation" and other organotic processes may require unimpeded contact with cosmic orgone energy streams. "Spontaneous generation" of living organisms seldom occurs under the laboratory conditions biological scientists impose, but these conditions are completely abnormal and foreign to nature. Life can and does continuously arise out of non-living matter under more natural conditions. This process has been described in detail by Reich. I believe an essential feature of these natural conditions may be the direct contact of the matter in which life is to develop with cosmic orgone streams. Protozoa seldom appear spontaneously in infusions which are both sterilized and enclosed in sealed containers, for example. They do appear regularly in these same solutions, sterilized and kept uncontaminated but unsealed.

From a public lecture by the author on May 9, 1962, at the Hewitt Auditorium, Cooper Union, New York City. The lecture was the first of a series of six lectures entitled An Introduction to Orgonomy, which were sponsored by the Interscience Research Institute. Weather Experiments

Additional evidence for orgone energy is the effect of the Reich weather control apparatus, the "cloudbuster" as he called it.

This apparatus is a kind of antenna, which, upon being grounded into water, is said to be capable of withdrawing orgone energy from the sky in the direction it is pointed. It was claimed by Reich that it could dissipate clouds by withdrawing energy from them. It was also claimed that the device could be used to trigger rainfall when none was expected and even to break droughts. If these claims are true, Reich's apparatus is surely one of the remarkable inventions of all time. Are they true? I believe that I am in an especially good position to evaluate these claims, because I was for nearly three years a weather forecaster in the Air Force and because I have worked experimentally with the Reich apparatus for many years.

The results of my experiments are perfectly clear; the Reich weather control apparatus does exactly what Reich claims it does. Clouds at which the antenna is pointed shrink and disappear from the sky, while comparable clouds selected as controls do not.

WHAT PROJECT BLUE BEAM REALLY IS

Project Blue Beam is a NASA plan in which they allegedly will try to implement a New Age religion to start a new world order.
The means to create this new world order involve technologically-simulated alien invasions.

"The project was leaked by journalist Serge Monast in 1994.

He later published a book to describe NASA's plans to invoke this new world order.

In 1996 Monast passed away. The official explanation was that he suffered a heart attack.

Strangly another journalist that was investigating project Blue Beam died in similar circumstances

Richard Dolan gives some personal insights in the theory of project Blue Beam via his contacts at Nasa

How is NASA going to implement this and what are the logistical challenges?

Step One Step One involves the breakdown of all archaeological knowledge.

This will be done by faking earthquakes and creating false archaeological proof

Step Two:

Step Two involves fake alien invasions using three-dimensional holographic laser projections

These invasions will take place simultaneously all over the globe

Images of popular religious symbols will be mixed in

Step Three:

Step Three is "Telepathic Electronic Two-Way Communication."

It involves making people think their god is speaking to them through telepathy.

To achieve this low frequency radio waves will be used.

Step Four:

Step Four consists of 3 parts Creating fake alien invasion all over the world

Convince Christians that the rapture is about to happen

A mixture of electronic and supernatural forces

It seems important to keep in mind the possibility of our governments faking an alien invasion to create a new world order

Why *four* candles? Do they represent the “insane four” of SAMAROBIN:- SAAM, of Marduk RIB, of Leo ON of the Oannes from Sirius & R the Draco.⁶⁵³

Remember: medieval artists used their art works as the alternative “media”.

That cross and “window” under the four candles represents a portal (we have seen the cross forming as a cymatic to obtain the pitch and frequency required). Now: see the human-faced lion left foreground? It is a mature lion, meaning Leo Major.

Noting also that the ‘Jesus’ has three toes.

These men are the Patriarchal – those who would run the planet without the female input. The Oannes Mitre represents the Age of Deceptive Pisces. You will note there are three open books to be studied, make of that what you will. A god sits on the top right and a Jesus sits at “*his* right hand” with technology (eye in the sky) between them, so safe to assume this is not Immanuel, but the *invented* Jesus.

The “eye” is the little camera situated bottom left of the satellite. The antennae are held each in a hand of those above and would refer to the anode and diode of what we call electrical power. Between them they control us. The dove does have more than one meaning. It can mean a prophet, future prognostication, (like Revelation) or simply *peace* and also the Pleiades. They are false ones in this instance because of the patriarchal scene.

The central item with a halo on a mercy seat could even refer to the ‘Arc of Gabriel’ (as in Arc of electricity). See the “che-rubs” watching? They *say they are the* watchers but they are the “keepers”

“Kevin Galalae’s most notable accomplishment took place in 2012, when he exposed for the first time in its 68-year old history the chemical and biological methods employed by the UN-delegated Global Depopulation Policy... we can add electrical frequencies here and showed that **demographic objectives are carried out by covertly undermining human fertility as a substitute to war.** In 2013, he published part of his research on the history of the Global Depopulation Policy, its causes and consequences; the first account of the world’s best-kept secret and the central axis of the international framework for peace and security post-World War II. And in 2014 he presented indisputable scientific evidence that countries around the world are committing genocide in the name of population control. He has been falsely arrested and imprisoned seven times between 2011 and 2015 in order to intimidate him into silence and prevent him from exposing the truth about the methods and means by which governments around the world and the international community have defused the population bomb and in the process subverted the rule of law and democratic processes. The governments of Canada and the United Kingdom continue to hold Mr. Galalae’s children hostage as leverage over his determination to continue to speak truth to power and force governments to return to the rule of law and respect for democracy and for people’s fundamental rights.”

Kevin Galalae interview; as he exposes “Methods of Depopulation in the Age of Sustainability”.

He is the founder of the Center of Global Consciousness, The People’s Protection Force, The People’s Protection Court, the Human Rights Party of Canada, OM (Our Mind), and of Freedom in Education.org, non-governmental and non-profit organizations dedicated to defending people from governments, restoring the rule of law, and protecting our expressional rights.

ROLLING OUT the 5G

Jan 9, 2017 - There's an unexpected obstacle worrying Telstra as it prepares for the next generation of ultra-fast mobile technology: gumtrees. ... Mike Wright, Telstra’s managing director of networks, said 2G, 3G and 4G technology arrived in Australia having been designed by Europeans for densely

How many of you, I wonder, realize that the i582 Gregorian calendar was only accepted world-wide quite recently? "Britain adopted the New [Gregorian] Style in 1752 [i752] and Sweden in 1753, although the Swedes, because they had in 1740 followed the German Protestants in using their astronomical methods for determining Easter, declined to adopt the Gregorian calendar rules until 1844. [i844]

Japan adopted the New Gregorian Style in 1873; Egypt adopted it in 1875; and between 1912 and 1917 it was accepted by Albania, Bulgaria, China, Estonia, Latvia, Lithuania, Romania, and Turkey. The now-defunct Soviet Union adopted the New [Gregorian] Style in 1918, and Greece in 1923. [!]

In September 1805, under the Napoleonic regime, the the French Republican calendar was virtually abandoned, and on the 1st January, 1806 it was replaced by the Gregorian calendar.

- o On the main social connection web site there was and is a foolish meme going around that the Earth is flat. We did see two lines pointing out that this was a scheme/test to see how badly affected by ANTENNAE the general public had become. By using Geodesic GEOMETRY one can ascertain for themselves that the Earth was proven ROTUND for some centuries now. There are other forms of evidence which the elite try to disguise, and as usual, it is in what is omitted we find the required information. Such as no flight passenger ever—in a Concorde Aerial trip, piped up saying "oh when we went out to the upper atmosphere, we saw our planet was not round !" The other empirical evidence is that during a few weeks of the year our sun does not leave the polar skies but merely describes a circle as we spin! It is called the time of the Midnight Sun. This would not be possible had Earth been flat.

free energy

1. Hydro generators (up to 3kva) can buy in Illinois, around \$400 each at the time of writing.
2. O.R.M.E Orbital Revolving Magnetic Energy generators currently in use in India. They got desperate when the **u.s.** stopped coin so they went straight to free energy. This is a hybrid form of what Ed Leedskalnin was using to build his Coral Castle, but he included sonic power
3. Chlorella power - being worked on right now
4. Sasar energy - (like laser but with sonic frequencies) this can be a tool for engraving (anything) for levitating (anything) and for a weapon. The doc calls it the Medusine device, and funnily enough its military nickname is the Medusa Weapon... also known as Directed Energy Field. Being used in Russia in operating rooms. Is used occasionally in our own operating rooms but kept a bit quiet for some reason
5. Salt storage of solar heat using acres of directed mirrors. Never under-estimate the power of a directed mirror
6. Pyramid power - two parallel streams of large bodies of moving water – needs obelisks made from a quatzite stone, which store energy – could be called Tesla Towers
7. Tesla energy drawn directly from ozone – download as much of his patents as you can and put onto hard copy while you can
8. Wind turbines, collect energy in batteries – see Tesla Batteries
9. Solar storage into batteries - from silica panels, can be hybridized along with wind power
10. "Baghdad batteries", using vinegar or orange juice. Even one potato can energize your mobile fone
11. John Kanzius – certain radio frequencies run thru salt water producing a temperature over 1200 Kelvin currently being used in Naval cargo planes. Might be wise to look over those Patents too, to find the radio frequency
12. Sea wave turbine power ~ works in moving creeks too
13. Methane, a good alternative, but like the solar panels, not so effective in an ice age
14. Time travel energy – a form of controlled sonic – magnetic energy. Cymatics display the required frequencies. The Fleur de Lis in format.
15. Gallium: scientists were working on it in 2009. also known as Indium

ALPHABETICAL ORDER OF THE ELOHIM

How to Discern:

In **Genesis**, **Michael Tellinger researched** the first words, and they are **ABBÉ ELOHIM CREATORS**... with Abbe meaning Father.

All the clues we need are here, with the emphasis on the word **Creators**

The word **Elohim** is plural, 20 of them in the current Alliance. Added to which are the **Andromeda Council** and the **Cassiopeian Ayse**. If you are in the Western Hemisphere, chances are any approach purporting to be one, will be one of those "plagiarized" ones which like to fool people by *saying* they are one of the **Elohim**, the very problem the likes of **Corey Good & David Wilcock** say they are in contact with.

As always it is in the *omissions* one finds the truth – and neither of these gentlemen **EVER** name **ANY** of the real **Elohim**. Nor even mention **EnLil** and his campers. **Nostradamus** – is now a **Younger Elder**

References to the Hero, and the Nevus (‘warty’ ones) seem to refer to these – who say they are us, you and me, in fifty two thousand of our years. They use the prefix ‘Chi’ or ‘Che’. They say they are also the future of the Zeta45 (negative hive-minded EBEN)
- 13. LyRans** (appear as Ran in the Eddur/Aettir) no nose, ‘breathe’ via their skin, Our atmosphere makes them very ill. Obsolete references to them include the Tortoise/Testudine

Those results showed the succubus having *Mongolian trace* DNA. This news was pushed to the edge of nowhere due to the “peace” prize and the media being elite controlled Nothing is what it seems.
- 15. Plejaran** - Nordics from the Pleiades but excluding the Alcyonese. Those from the nine Pleiades cannot contact humans on Earth via any means whatsoever, due to the influence of our “halo” and its “auric stench”
- 16. Procyon** –the “Merry Ones”. Procyon is near Gemini. These are a form of Nordic
- 17. Sasquatch: created for nurturing the Living Library. Use sonic frequencies to ‘disappear’ and use telepathy**
- 18. Silver Greys “ARGENTAL” ANGELS** – female, their nutrition is the same gained from sea weed
- 19. Tau Cetian** – ‘Swedes’ the “police department” sometimes using a craft similar to a cigar, dangerous to be near their craft
- 20. Violet Beings** - the Aromatic - the true Angels. Sometimes I think these are former carnations related personally to the person they approach, after reading testimony of many people in the last throes of being alive here on Earth – saying “a fragrance of violets and an invisible Being saved me” went hand-in-hand with Safety.

One such was a young lady, baby in lap, falling out of an airplane that had a huge hole torn in its fuselage, strapped into her seat. She, the seat and baby were ‘picked up’ and placed back into the more safe area within that airplane.

Another was a dear friend of mine, nanny to a wealthy Greek merchant with his children in her car. The car left the road due to black ice and she, three children and two tons of car headed straight towards road workers all seated below around their morning fire before heading off to do roadwork. By gravity and other laws of nature she should have landed directly on top of those men. She says there was a beautiful smell of violets and the car was lifted and carried further along its trajectory and placed down without a lurch nor a bruise.

The third example refers to a nineteenth century officer in an India regiment who found himself lost in the Takhlaman Desert in a strange haze. Not being able to find any directions and having been stung by a black scorpion after eating his horse, he was on the edge of death when he smelt a beautiful fragrance of violets, following the direction to a well, and then a track to civilization appeared, along with residents of that community.

“...in the ‘diary’ the Aryanni referred to their craft as ‘FLUGELRADS’, which is the German word for ‘Wing-Wheel’. However in order not to divert from the flow, the United Nations Connection’s of the Nazi’s -- via Kurt Waldheim and others -- are historical fact. One source other than Shoush even reported that at one point Kurt Waldheim himself was in possession of the ‘Spear’, suggesting that this former U.N. U.S. MILITARY OFFICERS -- SHACKLED BY U.N. FORCES A report from SEVENTH WEEK MAGAZINE states that U.S. Military Officers were observed gagged, cuffed, and shackled to their seats aboard a white U.N. 747 en route to the Federal Transfer Center in OKLAHOMA! Part of this report follows:

"At a survival/preparation seminar in S.E. Oklahoma, on 3/25/95, an attendee interrupted one speaker, and stated that a neighbour, who apparently serves as a reserve crew member aboard one of the all white, unmarked, United Nations B-747 aircraft [which are assigned to FEMA, Black Operations, i.e. U.N. / N.W.O and hubbed at the Federal ‘prisoner’ Transfer Center or FTC at WILL ROGERS AIRPORT], had been dead-heading back to Oklahoma City on the flight. He descended from the flight deck to see what the “prisoner cargo” consisted of, however, not only did he see the normal armed, black uniformed guards, and a load of bound humans, but he saw several U.S. Military officers, in full uniform, gagged, and shackled to their seats!

You have been reading here in these texts about Valiant Thor (EnLil/YHWH) so here is a link showing how every one has been fooled by this entity. Supposedly with the military industrial complex "physicists for the last 58 years" from 1937-38. He has six fingers and six toes, copper oxide for blood same as octopi --- about a 1200 I.Q. ... I had a chance to meet him one time" Phil Schneider.

Remarking on the number "12" in "1200" (An EnLil numeration) and with a possible explanation for that being Full Cellular Memory due to incarnating *without any impediment* to carrying former experiences, talent, and knowledge each time re-incarnated. When watching this short video take note of what Schneider said about "throughout the 58 years he was working with us he did not age one bit" (paraphrased) So far as "benevolent alien" goes, had he really been a 'goodie' he would have been shot out of the skies by the malevolent ones underneath.

J-Rod52 have been 'camped', the cockerel meaning the poop deck of Argus, from whence the Mantids of the Eloim come, the Lyre (with TWO chantarelles) meaning those from Lyra, the *perpendicular duodenum* which mimics the Lyre but has only ONE chantarelle and belongs to certain giant Anak (since it is they with the perpendicular duodenum) plus many others in ancient hieroglyph. One will note the giants depicted leading giraffe in certain Egyptian tomb murals.

"Astonishing experiments, conducted by Dr. Hurtak and colleagues at the Great Pyramid and other sites in the South Americas, demonstrate the pyramids to be voice-activated "geophysical computers." Intoning specific ancient sounds, the scientific team produced visible standing waves of light, above and within the pyramids and were even able to penetrate, hitherto, inaccessible chambers. Subsequent discoveries indicate the ancient priest-scientists employed some sort of harmonic sound technology within the temple structures.

The discoveries emerging from Egypt, describe the existence of a world wide pyramid temple system in prehistory, mounted like antennae on the key energy meridians, which were employed by ancient priest-scientists as a musical system to stabilize the tectonic plates of the planet... cataclysmic geology at it's finest. From the mother tongue word JEDAI AH, meaning "the way of the Word" or "the power of the Word", the ancient JEDAI priests used the language of Light to tune the planet like a giant harmonic bell. Much is being rediscovered in the last days of this time cycle. In the words of Dr. Jay Franz, of the Omega Foundation, "even if we don't dare to name it, there is a universal feeling of something impending on the world stage."

➤ "Not to be taken with mood altering drugs"

During the 1500's (1500s) to the Seventeenth, Eighteenth then until 1812 (nineteenth) centuries – the Earth suffered under what is in modern times called a "mini ice age".

Here, in the sixteen hundreds (seventeenth century) one can see for themselves how the ices had absorbed much of the ocean waters, lowering the seas and leaving more land. Also notice the word **EVROPA** – which is a planet-moon. What does Meso-potamia (Iraq) really mean? Raising another question for me – why is Syria called that? Why was Persia given the name Persia.

Were these named after **Sirius** and **Perseus** constellations? Followed by:

where were Perseus and Sirius when these names were attributed, were they in the southern or northern skies – or was our planet turned that way at that time? (the time of naming)~ not forgetting **how did they get this map** then? Illustrated is what we see as the world of Da Vinci and of Nostradamus. Scan for yourself, the various names shown

Also take note of the TWO areas (or even THREE) which could be called the "Pillars of Hercules" of ancient Grecian times. See the MERMAN top of the map? That is the same area a not-so-well-known battle occurred between joint allied craft and something which these texts would call Oannes – water based off worlders. It would have been handy to be able to study that area of Jordan and other Biblical lands, had it not been cropped off the map at that point of the image near the Red Sea.
