This will be another strange hodge-podge collection
 the subject of Antennae may sound fairly innocuous ~ but it is the one thing controlling all of us.
 they are so dangerous to you & me, that people trying to warn us are receiving the 'heart-attack' weapon.

The next forum is intended to be the JESUS collection, but this bunch here will be published as quickly as possible, meaning no fancy alteration of collected items font-wise or otherwise. *All credits supplied where possible.*

today is April 18. Many of the lines herein refer to dates around now, so quatrain lines you saw not yet done will appear here
 some of the following have slight repairs to words they first appeared as, such as "swives" instead of "skives"

SPECIAL APPROACH it certainly is a 'special approach' - in very public view ! Is this part of the 'suspended in the air' event which was supposed to be 'Pisces thru Taurus' ? They did warn the shadow government to fully disclose "or They will". The first to be seen will be the 'Good/Greatest Ones' followed by a false flush of Earth-made craft supposedly saving us. The 'second tribe' are the real invaders.

QUEER FIVE, VERIFIES ANTENNAE SQUARE SINE QUAVER ASKEUU UUAIVES FEVER UUIT. IS FAKE VIRUS SUUIVES FUTURE

- o hopefully I will remember to check the word SUUIVES, but from recall it means to partake in rough sexual congress. They could have said "fucks the future" too, the letters are there for that word. Swives is a medieval form of the 4 letter version.
- o There was a choice of words describing the future - the other was SKIVES - also suitable. It means indolence, laziness, bludging, no input. Just as we (those who do see) have been experiencing thanks to the dole and the expectations of the general public. Personally, I find it harder work to bludge than to actually perform some useful function. Others who feel the same way go out and volunteer their worth where they can find those who need them. Which is what I am doing now.

- o warning people that the human meat (Kin) going into fast food outlets is part of this war. Eating kin causes a disease first studied in New Guinea, called **Kuru Kuru**. The Russians are aware of it. Means aborted fetal cells used as 'flavor' too. Interesting that it states **ACUTE** which means not the normal kuru which can take decades to express itself.

INFURIATES UUARIEST KNAVE SURFACES: SAYS SUFFICE 'SCRUFFIER UUIT' ANU RUFFIANS UNAUUARE ACE CAUTERISES

- o **KNAVE SURFACES** in the Black Knight the Seraphim come out of hibernation. Referring to the Anu as '**scruffier wit**' is really saying something when we have learnt how high their I.Q. is (compared to ours). Yet, if they have never **learned** that service to others has the greatest rewards - and their souls reflect that lack, then, yes, 'scruffier' is a good description. It seems to me that only fools **can-not learn**, given multiple and almost immortal lifetimes to do it in ! EnKi/E'Yah has.
- o **ACE CAUTERISES.** The letter ACE could be an acronym. For this instance it will be taken to mean the Seraphim, who DID "cauterize" the jump room on Mars just prior to the elite believing that they could bomb Yellowstone and simply "walk". This act was predicted in many lines before it happened, along with the date (in October 2014) of an explosion on Mars.

4,000 killed at Mecca... obviously the collator was meant to find this line some time ago, except the Black Cube event may
have been forgotten if it had been written up two years ago, and this Arc may have some current event involvement too,
keeping in mind the mysterious flurry of international activity at the south pole in March and April 2017 at the south
pole. One wonders why the Imam approached Putin ?

<http://www.whatdoesitmean.com/index1955.htm> Russia Begins Transport Of Saudi Arabia's Mysterious "Ark of Gabriel" To Antarctica

" what spurred this astonishing mission, this report explains, was the contacting on 25 September of His Holiness
Patriarch Kirill of Moscow by representatives of the Custodian of the Two Holy Mosques in Mecca, Saudi Arabia,
regarding a mysterious ancient "device/weapon" discovered under the Masjid al-Haram Mosque (Grand Mosque)

The pale horse is the ASHEN one, because there is a *white horse* [date] too. The four horses of the unveiling do happen to be Celtic months and the word 'unveiling' or 'disclosure' is what *apocalypse* means. The black horse date is separate from the ASHEN, in another year, but the white horse is **June 10-July 7** and does come first. Explanation follows:
- When debating the four horsemen of the "Apocalypse" (the unveiling – or disclosure) one is able to understand more fully what Mr. Death is related to and with a horse of ashen colour the hints become more concise. Some have said 'dappled grey' and kudos to them! The clue for the event is disguised in the word 'ash'. This can go several ways – volcanic ash, nuclear ash and the Ash Tree, which is the real Tree of Life, [DNA] especially in the Eddur. Revelation 6:8

Authority was given to them over a fourth of the earth, to kill with sword and with famine and with pestilence and by the wild beasts of the earth." Commenting that Hades is a key word for stargate and Authority to do one thing also means authority not to do it. The *script* line here **poste le legne nel focolare** (*putting the wood in the firebox, fuelling their engines eating children*) is saying

How many of you, I wonder, realize that the i582 Gregorian calendar was only accepted world-wide quite recently? "Britain adopted the New [Gregorian] Style in 1752 [i752] and Sweden in 1753, although the Swedes, because they had in 1740 followed the German Protestants in using their astronomical methods for determining Easter, declined to adopt the Gregorian calendar rules until 1844. [i844]
Japan adopted the New Gregorian Style in 1873; Egypt adopted it in 1875; and between 1912 and 1917 it was accepted by Albania, Bulgaria, China, Estonia, Latvia, Lithuania, Romania, and Turkey. The now-defunct Soviet Union adopted the New [Gregorian] Style in 1918, and Greece in 1923. [!]
In September 1805, under the Napoleonic regime, the the French Republican calendar was virtually abandoned, and on the 1st January, 1806 it was replaced by the Gregorian calendar.

The fact that this line separates the word "mer" (seas) from the word "onde" (waves) draws our attention to something else intended. Many people have tried to say Sitchin's work is erroneous. These people are parroting what I call gubberment schills who would never want us to learn about Nemesis, Nibiru and its inhabitants, unlike Russia, whose government told them years ago. So in recent times the Vatican imported the world's highest authority on the Hebrew language to sift through their bible to extract the true meaning behind the words. His conclusion became the parallel to Sitchin's works.

The ancient original Celts inhabited the area Germany is today and did migrate to northern parts of the British Isles as we call them. These "Cecil" E.T. were called Tuatha de Danaan = "those who came down from the skies". (T.W. Rolleston "Celtic Myths and Legends") We would call them the Giant Anak, which should be at the top of the very long list of names they used. These were the *Giants of Renown* in the bibles, when humans were "as grass hoppers" to them. At one time they were called Rūs the Red, from where Russia got its name [eventually]. Sylvie Ivanova has an intriguing video on this matter. One immediately imagines the red headed Paracas giants.

SIXTEEN DIFFERENT TYPES OF FREE ENERGY

1. Hydro generators (up to 3kva) can buy in Illinois, around \$400 each at the time of writing.

2. O.R.M.E Orbital Revolving Magnetic Energy generators currently in use in India.

They got desperate when the **u.s.** stopped coin so they went straight to free energy.

This is a hybrid form of what Ed Leedskalnin was using to build his Coral Castle, but he included sonic power - sasar -

3. Chlorella power - being worked on right now

4. Sasar energy - (like laser but with sonic frequencies)

this can be a tool for engraving (anything) for levitating (anything) and for a weapon. The doc calls it the Medusine device, and funnily enough its military nickname is the Medusa Weapon... also known as Directed Energy Field. Being used in Russia in operating rooms.

Is used occasionally in our own operating rooms but kept a bit quiet for some reason

5. Salt storage of solar heat using acres of directed mirrors. Never under-estimate the power of a directed mirror

6. Pyramid power - two parallel streams of large bodies of moving water – needs obelisks made from a quartzite stone, which store energy – could be called Tesla Towers. See number 16.

7. Tesla energy drawn directly from ozone – download as much of his patents as you can and put onto hard copy while you can

8. Wind turbines, collect energy in batteries – see Tesla Batteries

9. Solar storage into batteries - from silica panels, can be hybridized along with wind power

10. "Baghdad batteries", using vinegar or orange juice. Even one potato can energize your mobile fone

- 11. John Kanzius – certain radio frequencies run thru salt water producing a temperature over 1200 Kelvin currently being used in Naval cargo planes. Might be wise to look over those Patents too, to find the radio frequency
- 12. Sea wave turbine power ~ works in moving creeks too
- 13. Methane, a good alternative, but like the solar panels, not so effective in an ice age
- 14. Time travel energy –controlled sonic (D.E.F) – magnetic energy. Cymatics display the required frequencies. The Fleur de Lis in format.
- 15. Gallium: scientists were working on it in 2009. also known as Indium, offset by the need to mine for it.
- 16. Harnessing plant life such as a rose bush to produce electricity, somewhat very similar to the aquatic Pyramid Power above. Nexus Magazine 2017

Yesterday I watched a fascinating video.

http://www.disclose.tv/action/viewvideo/232627/aliens_secret_space_programs_inner_earth_civilizations_corey_goode/?utm_medium=email&utm_campaign=digest-2017-14&utm_source=crit_send

It was a Corey Goode show. Fascinating for the details put in and the details left out. A very clever and believable account. Mr Goode going so far as to say Mr Trump is backed by *benevolent extra terrestrials*. Do you believe that at this date in April? Following the so-called Sarin bombing of innocent kids in Syria? When attempting to sort the good wheat from the obfuscating chaff in rhetoric – always keep in mind it is the things they DO which tell us who their puppet masters are. Had there been “good” extra terrestrials behind a ‘good’ Trump, do you really think that action would have been permitted by the “good” aliens?

Not to mention that the Sarin Syria incident has been totally debunked as another false flag.

When the scenes open with a small human (Goode) on an open stage being “booed” and behind him “appear” two strange very tall beings, do keep in mind that the very Draco-based (reptilian based if you like) Earth faction began their *current career on stage*. Acting and ‘entertaining’ Earth humans until our psyche cannot seem to do without it. Being in the western hemisphere fully controlled puppet master arena, and once having been Milab – do you really believe Mr Goode is free of their shackles? Free to roam around doing videos telling us we have won? Pray do tell – exactly **how** did we win? IF we “had won” – would there still be such false flags happening?

When watching this video ~ accept it for what it is – entertainment – and not for what it purports to be!

It would be so fully appreciated **if any readers watching this video pick up on any inconsistencies** I missed. http://www.disclose.tv/action/viewvideo/232627/aliens_secret_space_programs_inner_earth_civilizations_corey_goode/?utm_medium=email&utm_campaign=digest-2017-14&utm_source=crit_send

While Corey Goode has, and might be compared to Alex Collier, have we once heard Goode speak of removing **the money system**? Goode *has* spoken the same details Collier has received from the Andromeda Council, such as the 22 “tweaks” of human DNA over the millennia. Easy enough to sprout information Collier already did. However, have we ever heard Goode name the likes of the Andromeda Council – nor even the Cassiopeians? For me, listening to Goode – who (so far) never once tells us that those from Sirius, Leo and Orion are here to provide deadly technology, and only to a warring military based money hungry faction of humans who are mostly not humane, for “trade in men” which is mostly children ... so for me – the warning bells were really “clanging” as Da Vinci puts it. People become enamoured with the novelty of the differing entities described by Goode – and forget to ask “why” and “what” is his real message? People *because they do not know about the real ones Who created the gem called Earth as she should be + do not know to ask Goode **‘but what about the Elohim alliances’?** **C+F+ 4 26 3**

Electronic weapons, radio frequency radiation, remote manipulation of the human nervous system

OPEN LETTER TO THE EUROPEAN COMMISSION

"We are missing a legislation which would ban the purposeful remote manipulation of the human nervous system and organism including remote killing of people..."

Secret Space Programs: Full or Partial Disclosure?

(from the collator: it will never be full disclosure for three reasons.

The first: that the elite were 'given' free energy in 1934 due to:

The second: Off World 'treaties' each which runs for nine years (despite what many might say). Begun in 1933, 81 years later Treaty 9 was ratified November 8 2014 by the black president. These 'treaties' were made for individual gain to the cost of the entire planet Earth and:

The third reason: those "Treaties", specifically Treaty IX (or Plan 9) had a new clause for "trade in children", part of the reason for Libya currently becoming a "slave trade state" to spearhead others to follow in the wake of Rothschilds takeovers. (There is more than one reason they are called the 'banksters'. This is also what the new TPS agreements are about, with 'Services' to be read as 'Slaves'. Noting the **Rothschilds** name, supposedly meaning 'red shield' but I see Red-children.)

The Pre Adamites (according to Haplo group X) are NOT Atlanteans, but could well be LeMurians, from when Antarctica was once at the Equator

"we didnt need to try and fix it" ... he is right there

To my embarrassment: here is the vignette which appears above the very first Quatrain in Centuries One of the Original i555 publication. It has only been about eight years this has stared anyone in the face. The stars in the window are those of Cassiopeia. We see the two full 'lost' Centuries 11 & 12, & the remainder of Centuries seven at table **The globe has its equator way off balance.** The arm of his chair/seat appears to be a "K" or an "R" with the legs of the desk as an "H". It appears as a means of recording days in the first Chinese written texts, the Shang oracle bones of the late second millennium BC. Could even refer to the sixtieth degree where from the giants are said to emerge first.

Noting also that the OTHER sexagenaries for recording time by degrees of 60 are in the Latitudes and Longitudes, so saying gruelling times for turning of Earth - "laying down" which is what the ENGLAND NORTH -TO- SOUTH-OUER also means, ushering in an ice age

Placing us in real danger. Should ANYONE take me to court for whatever reason – it would only do the Hidden Texts a world of good... Meaning ^{untrustworthy lies} just as those Nancy Lie der states in her 'ZetaTalk', dis-informing the public. She needs to understand that **there are no good off worlders** involved with the Western Hemisphere = otherwise why would the "good" ones need to say to the shadow gubberment "do full Disclosure or We will"? What gets me about her is that she cannot see her own contradictions over the passage of time. One example being telling people on the one hand various "safe" places they can go to – then in the next breath stating quite the opposite – naming many of those "safe" places as dangerous ones.

In the instance of these Hidden Texts there were, in my current opinion, a large number of [my] errors up until the end of 2012 (when the Triple Method was finally shown me) and those mis-takes were a result of *not having* the Triple Method. This was the reason for deleting the former web site, but some of those old forums still hang around. It was in March 2013 that a collection of about 26 "lines proven true" was made and many of those HAD come from those former forums, despite the lack of using the entire Triple Method, since we did have two 'arms', that is: the *Runic Skies* which Allan Webber found, and I the *Celtic Zodiac* (guided there by Allan Webber's Programmed Template). Being instructed (via some Bibliography made available within that same Template and others I found in the Sixaines) the third "arm" of the *Alkhemye List* was collated in its current format by the Collator. This happened only because direction to Allan was to continue with Gematria, Musical & Numerology, (since he does not believe in E.T.) whereas direction to the "book keeper" was at a differing tangent.

I only got a glimpse of the first email [before the internet stepped in] (he was saying that he was taken by the same ET as some mentioned in the texts, keeping in mind how many negative ones are named therein)...

His foremost problem is fear - I rang my daughter (my emails were down) when I saw his first email and got her to answer him briefly **regarding the fear.** He said it **was a CIGAR SHAPED CRAFT which took him.**

10) DEEPER INDUSTRIOUSNESS ITEMS

is a pun on the underground bases, and utilising corporate industry to engage in creating many types of dangerous pollution (fracking, chemical "spills", radioactivity and nuclear waste, fluoride agenda etc) using thier "walk-in" cloned president to obtain the laws required to protect their interests

11) DISRUPTION INTENDED SPEEDS UP NUMEROUS RESIDENTS DIE UNDERNEATH

Nell's take on this passage:

11) Creating the main agenda episode which continues for decades. The chemical residues in the chemtrails agenda arrive "suspended" in the air. It is in vaccines also that unregulated biogens and heavy metals arrive in a "suspension" liquid with the intention of disrupting the health of residents and shortening their lives. The words "die underneath" can be taken to mean underneath chemtrails, or those who went "underneath" into deep underground bases to save their own skins

THE WALK-INS

This program of subterfuge and oppression is implemented at the "Local Level" as well as the "National Level" resulting in the meme (template) being established from the bottom-up.

<http://www.scribd.com/doc/7892639/Implementing-Agenda-21-in-Local-Government-The-Swedish-Experience>

<http://www.teapartytribune.com/2011/07/02/agenda-21-conspiracy-theory-or-real-threat/>

<http://americanpolicy.org/agenda21/>

"The reason for this is that "Local" politicians, having a smaller demography to influence, can be "bought off" much easier than politicians of "National" significance who are subject to greater scrutiny. [Again, we have a "small detail" that has been overlooked.]

>(clones) ELITE IMAGINES PRELUDE to ADMINISTER ENTITLEMENT, MEANTIME- ANGRIEST

They're just cranking 'em out over at DULCE! They have to generate enough of these Second Density animals to pose as "leaders" and social demigods in order to implement their "New World Order"-which is a return to feudalism and *corporate collectivism* or-as we see the Doc categorize as "ENTITLEMENT." (Which such cognition is, of course!)

>ELITE RE UN-IMPLEMENTED DEED; (promise) RESULTED ANU RETAINING [their] ELEMENTS [DNA]:

The ANU would not participate in this "plan" nor would they contribute their DNA as a foundation resource for the development of these Second Density animals (which have very short life spans).

>ANU IMPINGEMENT ELITE, DUMP DESPERATE ELITE.

Here, we get a glimpse of the "Truth" behind the reality of which we have become aware. The ANU created us as a self-sufficient, self-governing slave race that would mine gold for them. They would use this gold to save *their* planet. This is an ethical argument. Our Third Density, 3-Dimensional persona was created and subsequently "inspired" through the intervention of the Elders to "check" the imposition of biogenetic programming upon a naturally created Second Density being developed to eventually become "Self-Aware" as it progressed through its final octave of Second Density. What does this tell us?

Well, I think the most important thing that it says is that "creating" sentient beings in this, the Third Density is the province of the Elders and their purpose can *only* be for the reasons of exploring "Self-Awareness." The ANU *know* the Elders and have communicated with them from time-to-time. They *know* that these beings while just, forgiving, and patient, are also very, very powerful. This passage tells us that the ANU have made a public statement "We don't want to have *anything* to do with this!" They are saying. They want to ensure that the "wrath of the Elders" doesn't fall upon *their* heads; a feckless and irresponsible attitude, yes, but one that will, at least for the time being, help them to avoid the consequences of the **STUPID EMPIRE'S TEDIOSNESS** *thinking*.

>ALL OF YOU IMPLEMENT "RETAINED GUNS"

As with *all* of the Agenda 21 Legislation being established at the local level, the public is refusing to comply.

"This growing resistance to "out-worlder" intervention is the result of our having long ago been "inspired" and so, our "minds" are connected to "The Source" from which we can both draw our ethos (way of thinking) and *wisdom*. This is why the planetary ruling elite have decided to "replace us."

We cannot be trained. We squat and whiz whenever we want. We cannot be trained."

15) U.S. PRESIDENT IS TREMENDOUS BEAST ISSUES EARTH'S MURDER, ISSUES PITEOUSNESS, RUIN DENSITIES

Nell's take on this passage:

The term A.R.C. stands for "Aeronautical Repositioning Chamber." Unbeknownst to Laura Eisenhower when she cited A.R.C in her account of the effort that was made to recruit her to the Mars colony in 2006-7, this term was included in our Mars jump room training in 1980. This fact convinces me that Laura was the focus of an actual attempt to recruit her to the secret US colony on Mars. Laura is also an intelligent, emotionally balanced generalist with credentialing in many different practical skills, including survival training -- just the kind of individual that you would seek to staff an off-planet colony." -- Andrew D. Post scriptum:

In the Computerized Template which Allan Webber spent eight years creating – are many allusions to the word “spider” and “pupae” along with “Iphis” and “Annamese” along with “Dialyzer” and other words which describe how wasps feed. Such as “Sublimate”, “Liquate”, “Vapourize”, “Dissector”, “Drained”, “Separator” “Evisceration” and “Arefy”.

“Auxame” was another interesting word, it means “growth without cell division”.

It has come to my attention that the “war” in Vietnam (Annamese) was not what anyone thought it to be.

If the reader takes themselves to GLANT SPIDER videos – mostly emanating from Russia – and the hard bearded attitude of inventing a “war” with Russia – it seems (at this point) that once again it will not be what one is told to think it is.

Consequently I have decided to post the Computerized Template of The Hidden Texts on the web site, at Folio 6. for the serious reader ... being warned, Allan Webber has it fully copy written.©
