

EMPIRICAL PROOF OF TIME TRAVEL

In Summary:

Key words are;

Circular Molecular Phenomenon

(adjunct electrical currents)

Dodecahedral Magnetic Frequencies (certain cymatics provide the proof of the correct frequency – a vertical cross)

(induced by certain properties in certain stones – such as Teller's 'stone pointers' which *are not* pine cones)

Gene spliced DNA

(certain receptive people)

Ormus ingestion

(a particular gold – made into white powder gold aka mono-atomic and other names, along with maize enzyme)

Therses ~ Cronus Visor

or one of "seven conduits" (I am reliably informed that the Industrial Military Complex have been shown other "conduits" for the purposes of manipulating and gaining "profits" as part of their off world "treaties" agreements)

DATES: Nostradamus appears in The Last Supper painting * several years before he was even born in 1503.

The Last Supper by Leonardo Da Vinci: Da Vinci was around the age of 33+ while working on the Last Supper.

According to various sources, the Eucharist was completed roughly around 1485+.

One thing little known about Da Vinci is his disappearance for two years. He was aged 22 when he went and aged 24 when returned in 1476. He had stated he was exploring 'a cave' and 'became lost'.

In his written works, Da Vinci alluded to:

e trassele nel volto al mittitore ^{the emitter} **delle calze.**
^{painted} **Nostradamus in the Last Supper**
^{the emitter} **who comes forth**

mentitore: prevaricator *calze = heed them, calze = stockings*
the mentor in stockings and ^[then he] **drew his face within**
he who would have been wearing hosiery -

heed them, meaning, take note of this detail. Most forget that for around 500 years up to and including the year of Waterloo, Europe was experiencing a mini ice age. This period envelopes the centuries of Da Vinci and of Nostradamus – hence stockings for Da Vinci were *underwear*. The following century saw these as *hosiery* – and the height of fashion. Nothing changes like fashion!

capitò nella stanza d'un pittore	He/it happened in the room of a painter

Italian) meaning Nostradamus i.e.: not isolated in the bending of time boundaries (dimension) <i>indicating</i> 'not on his own' / 'not the only one'
⁵⁷ Due viandanti nella notte -	Two travellers in the dark: ^{night/outer space} Da Vinci and Nostradamus both time travelling

* when Nostradamus was 32 give or take a year (around and following 1534; his time), following the death of his first wife & family. He left France in 1534 and was gone 11 years into deep Egypt via Italy (where he did sire a *petit-fils* [bastard] son Filippo. How do I know Filippo was his true son? Filippo published works which contain the *Triple Method* codes—the ciphers given to me at the end of 2012. The *Triple Method* most certainly is not a 'tripod'! *Triple Method is Published at the Hidden Texts of Nostradamus web site.*

The same code which Krafft *almost* found for Hitler. Those only mentioned once ever, in Letter #32 to Rosenberg re: 'Brotot'.¹ The red herring "tripod" named in the Epistle to king Henri was an absolute smoke screen. No-where [at all] in the quatrains is the wording "tripod". The implication is of *three foundations* (i.e. Triple Method) but not as a tripod. The words "reclining on a brass saddle" do appear and refer to seated in a time gate. The Centuries of Quatrains were handed to Nostradamus to write up and to publish. There are Twelve Centuries.

The finding of time gates by Nostradamus could have been anytime between 1534 to 1546, (or even at a very young age say, 19) so between the ages of 31 to 43 appearing in the Eucharist. He looks around 36 in the painting. Next page.

Da VINCI April 15th 1452 – 1519 May 2nd **aged 67** (51 when Nostradamus was born)
 Da Vinci was around 34 give and take a few years while he was painting the Last Supper (fin. ca 1485+)

NOSTRADAMUS: December 14th 1503 -1566 **aged 62 ½** July 1st - 2nd
 (15 years of age when Da Vinci died)

¹'Brotot'. (I love footnotes too)

The original Latin written by Nostradamus in Lettre #32 *includes this paragraph:*

"Brototium meum iam dudum **Parca** rapuit, quae ^(Fem.) quiddam est apud nos boni quamprimum sibi vindicat. P. Brototius filius iuvenis est admodum et [69 v°] ista parum curare videtur. Porro autem tales sunt plerumque nostrae literae, quae si vel non perferantur vel negligentius habeantur, non parum ea res nos offensura sit." **idibus Octobris 15, 1561.**

"Here already it has been some time that my dear Brotot was delighted by **Parks**, who took hold [of our mandate] those things amongst which must be done by herself [being] as a priority the more important [thing/mandate] among us."

Albeit spoken in the past tense, they are discussing *future* events.
