

DERO: COLLECTION of THEIR MENTIONS IN THE HIDDEN TEXTS & SCRIPT

When researching; such as watching images, it is looking for details *omitted* that often are the dead give-away of a hoax being perpetrated on the viewers. Yet on occasions – other details that would normally seem highly unlikely to you and me – do arise. **When they happen to match** something already long published within the Hidden Texts, one needs to sit up and pay closer attention. There are video links herein which fit that category. Right from the first time I heard or saw the words Dero and Tero I had it in mind that this was all “hooley”. Yet:.....

○ there were other words such as PRAETORIAN REPTILE EMPIRE INTRUDER & MANIPULATE & AIM ERUPTING etc. which we

have seen before. Also AIM PORN AT PROLE, AIM 'SMART' MAGNETIC PLUNDER, the same which the "Jesus-soul" David Icke has

been warning us about but sometimes one thinks one is wasting their breath. For me, the **most important message is to keep your guns loaded.**

○ The kidnapping of school children (kindergarden pupils) is of highest alarm, the way those schools are doing those so called bus

drills – sadly, the public will believe their 'govern-ment' regarding false invasions and 'darts from skies'

○ **DARING PARDON NERD** this refers to a computer hacker somewhere who discovered the black space ops. This person

might be an English person (McKenna?) due to the UK clue, yet could be Snowden. This means that Putin leaned on someone to have

the whistle blower released. More importantly – that someone had heard him!

○ **IN ANKLE** means in Aquarius – the Mantids from Argo (Oars) have 'primed' the range of satellites before they're 'born'

○ **QUAD**, the 'square' is the 'field' of Pegasus **LEG** means from Scheat in the 'leg' of Pegasus, and this is what the amputated leg in

hieroglyphics means too. These are the little bluish greys of the Elohim. One of which stayed with Whitley Strieber for a week.

○ **DESPAIR UUORDS** = all of these texts could be said to be 'words of despair'. Planted. Both Nostradamus and Da Vinci and all

those others with the Cassiopean and Andromedan 'message' are the 'sword' of the Elohim.

○ **PEN MADE RAILED RAPID PASSAGE MODERN AQUARIUS-** so here is another reason for the bringing forward of the great

ages (medieval, dark, and the Great Age) using the "pen" – which we have seen in the removing of the Jesus prefix "j" or "i"

by clerics. No error with it, due to the word **"MADE"**.

still typed in the word. Sure enough – not long after – the patrolling robotoid Dalek appeared!

- o PILE is also the Manure/Heap Alcyonese, the Fallen Angels with the high technology
- o CREATOR STAR RACES – meaning the Elohim Alliances
- o In just the same way that Putin is "Adore Putin" and Jesse Ventura is "Lame Ventura" with "Utopian" (or 'Lecturer') Telling, Eloise in most lines about her is coined "Adroit" Eloise, and that began in Allan Webber's Template. Adroit describes her well, – an accomplished mechanic, welder, Euclid operator, horse trainer, artist & runecaster.
- o "PIANO-MADE" (Da Vinci's advice) ARTICLES in LANGUAGE IS ENGINEERED REPLICATED these hidden texts done again

- o SPHERES PROFUSION* there have been many warnings that the first "intrusion" also known as "alien invasion" will be composed of our own home grown craft – created from back engineered scout ships, but also with the assistance of the grays mining our moon, under Area 51 for this purpose. This event is to be the "enemy" against which we 'will all need' to combine into a 'New World Order' – with one front man actor dictator – primed to be the "nippleless actor" pope.

- o Energies in language. Voice activation. I am the Word

What an interesting concept. Is this what the Tower of Babel was really about? Different cultures with different languages of different energies? Then there is another way to look at this sentence.

In very recent times, the ability of the spoken word to affect molecules in water and also to affect our very DNA ! This comes under the auspices of sound waves which then takes us to sonic effect leading from quantum physics/ mechanics.² I do have the beginnings of a forum titled SQUEEZING THE WAVES, which stemmed from 1 63. At first thinking this was jet propulsion because that line was about "through the skies/heavens". On further consideration, this is all about quantum mechanics or physics. We had a term in the 1960s and 1970s which directly relates to this – it was called "vibes".

Yes, good vibrations – and how right we all were!

And from *DA VINCI MEETS NOSTRADAMUS* :

All of this preamble has been an introduction to the following lines which speak of Laestrygonians which may or may not be Titans. They do have one thing in common – they are both cannibals and prefer children. Those of Odysseus seem to have been above ground types ("throwing rocks from mountain tops"), and the "Titan" types of the underground quite similar to "Dero". One needs to also re-research the description "Dero" which has all the appearances of being extremely inbred forms of Nephilim. These were my first impression when reading about all the missing people from Yosemite – especially on learning that other worlders were known to presidents as far back as 1909. This would then include president Theodore Roosevelt – who had certain large expanses of wilderness parks made "National". He accomplished this very quickly at a time when prospecting was fair game. This 1909 date also happens to be the year the mysterious Kinkaid made his discoveries under the Grand Canyon. It is not Sasquatch of any kind which are the perpetrators of the missing children in the National Parks. The Sasquatch are part of the Elohim alliances and the advent of people missing in Yosemite in particular draws the attention of the alphabet agencies. We already know the Elohim is defending itself against these agencies.. and is disarming their nuclear warheads.

"Most of the disappeared are children between 20 months and 12 years old, and elderly people between 74 and 85, according to David Paulides, an ex-cop who used to work near Yosemite National Park. No one carrying a firearm has disappeared. The cases bear some inordinately strange features. In 95% of cases, bad weather follows the disappearances, washing away footprints and clues and making it impossible to carry out searches. Bizarrely, the disappearances occur in areas where huckleberries are in abundance. And in a lot of missing children cases, the children are found miles away from where they disappeared in areas they couldn't possibly get to on their own. Some are found without their shoes – yet their feet aren't scratched or bruised. Some aren't found at all, but their clothes are found – as if someone or something has deliberately removed their clothes."

Author David Paulides has written the books *Missing 411-Western U.S.*, *Missing 411-Eastern U.S.* and *Missing 411-North America and Beyond* to tell the little known story of these disappearances dating back at least 125 years in this country.

The year 2013 saw more national park disappearances than in the past 27 years combined. Paulides has hit several stone walls on his quest to solve the mystery of the disappearances, including the National Park Service (NPS) and the FBI. -

At the time this happened Spring in the northern hemisphere had become April, which is what the Julian calendar had as the new year. The reason for Marduk to 'repent' changing calendars because it was done to enable the false rapture. A genocide agenda. - **ELSE LED HORSE SHOULD NEED UNDO** not so sure what this means. It *could* mean that leading the way to the Four HORSES of Revelation (such as the ASHEN HORSE) can be undone! That Revelation is not 'fixed in stone'. It seems to be transpiring that the elite are changing Revelation anyway; by altering those timelines they are manipulating ^(7 73 1) Many of the future predictions of a lot of people (such as Edgar Cayce and the Interview With William by Linda Moulton-Howe) are not eventuating on the timelines they were expected, at all. At the moment *most** of the negative elite agendas are at least eighteen years overdue (at 2017). One needs to think at depth about that.

*such as the matter of bombing Yellowstone in October 2014, with the evidence of the explosion on Mars base to prove it. This action by the Seraphim in the Black Knight removed the means for those elite to escape the burning ship.

While searching for an image which appeared in one of the forums on the old web site, one which showed creatures scrambling UP out of the depths – this appeared – on facebook!

It is *tromp l'oy* – murals which trick the eye.

Whoever painted this is aware of the lower class reptoids which sport four clawed digits and not the five which the upper class draco do.

These seem to me to be depicting an almost perfect description of those Grayles of Phil Schneider or possibly even the Saran of Da Vinci. Plus they seem real to life size. Also read the lines with the name “DERO” in them, here.

If you enjoy these works you need to know that the ‘elite’ do not. One of the clauses in the TPP ‘agreement’ being that just one person claiming a web site is “offensive” to them will see that web site is closed and removed from the internet. This means that any ‘govern’-‘ment’ schill can do so, effectively preventing the ordinary folk (who supposedly voted them in) from receiving any type of information which may or may not be disagreeable to the minority: – the “authorities”. Therefore it is my suggestion the reader who is

The image here is not true to exactly how the **Dero** are in appearance, it is more a likeness of the Grayles (Maitre) of Phil Schneider. The **Dero** have nasal features which appear more elephant-like, as in Ganesh.

He did so (according to Burisch-fully named in these texts- and in these texts) in order to repair time lines which had been altered by the military industrial E.T. complex with this E.T. being the Zeta45 grays which work with the Anakim (and I personally believe these are the Igigi of the Clay Tablets of Enki). According to this J-Rod52, his and many other off worlders' future would

become drastically altered had he not done so. As strange as it seems, this is also telling us that **time lines for Revelation** have also been altered, thus "NO man shall know the hour".

The reason for false calendars is to bring forward (shorten) the "bound in iron" sentence for the evil one which wants to unleash all manner of hells on Earth, the worst of which is stealing your children – to be ripped apart and eaten, put 'into sausage casings' says Da Vinci. **The ANTE' key is in the Epistle to Henri** where Nostradamus refers to it five times, and in two quatrains. This matter is so urgent that there is almost nothing more urgent

Lucifer/ Ala.Lu used Marduk to arrange to have a third of Lucifer's bondage reduced using the farce of deducting three centuries [from the Roman-Gregorian calends] which we now call the "dark ages" – then compounded that by having clerics alter the "i" for Immanuel (or "j" for "the year of our lord Jesus") into a number "1" adding one thousand years to another calendar by the stroke of a plume.

The reason, you ask? To trick us into not knowing when we are.

So that the "treaties" the cloned FDR signed (on our behalf in 1933) signed us all away, us and our children. Each treaty runs for nine years (despite what else you hear) and Treaty 9 came due Nov. 8 "2014" which was not 2014. This unenforceable instrument contains the clause "trade in children" – for extra terrestrial "baloney sausages" (Da Vinci) Nostradamus was "assigned to Egypt" to study these things, and the quatrains which resulted are in the forum named *SHARS OF NIBIRU & THE MISSING 324 YEARS*

By the way, this makes the Shroud of Turin the real thing due to the absolute inaccuracy of C14 dating because of **bacteriological encapsulation – which shows the date up to 700 years more recent.** See THE SHROUD IS REAL

Actually there is no manner whatsoever of dating anything within 700 years. Ice cores are proving to have many delineations within one year [orbit] instead of one per year. Tree rings stop altogether in cold times, so if we have a mini ice age such as the Maunder Minimum which encompassed a 500 year period in the last instance ending the year Napoleon failed to take Russia, then just as stated in various places "no man shall know the hour nor the day".

There are so many calendars overlapping each other across the centuries since Sumer, that we have no means of correcting it. Compounded by the Y2K fiasco. Upon which ALL computerized programmes have been set. This includes the Astronomical. Making the so-called Crucifixion date somewhere in the region of around one thousand years ago (by one calendar) and that calendar was only *accepted world-wide* by 1922.

DERO: ANU MULE; ARE NOT RED HAired GIANTS, ARE NOT SASQUATCH. NOT KNOWN ABOUT ABOMINABLE SNOWMEN

We have seen descriptions of these **Dero** such as « imbecile » and « cretin » ... this would make these creatures different from another type of giant which has begun featuring in videos. These different ones are intelligent and also alive and flourishing world wide. From the Solomon Islands to the **Himalayas**. Here is a link for a video under 25 minutes in length but extremely interesting. The first description is regarding the stench and we have seen several texts about this peculiar and most unpleasant detail. The video explains why they have this deathish smell. Another detail being the very large nasal cavity which can resonate and cause things to levitate (this detail from a different video) and that the vibrations from them can cause one's head to explode. Naturally there is a hidden text line about this very thing, saying PART FALLEN ANGEL

- **APRIL NEMESIS LEGEND, this is the PassOver – noting this means the date of the Passover of the bible can now be back dated. We are now in 1692 AD making the biblical Passover around 1968 B.C.E. Thus the huge volcano Thera also known as Santorini, and the Exodus when Moses saw the “pillar of fire by night and the pillar of smoke by day” can also be given a date. These details do appear on a stele which means it too can be placed in this time frame.** FOOTNOTES

Authorities plan to cut off power to militia at occupied Oregon refuge
Armed militants will begin their third day at the remote refuge and have vowed to remain for months to protest at over the treatment of two local cattle ranchers

“(NaturalNews) Reports that federal officials are headed to Oregon to try to “resolve” the situation where armed citizens now occupy a federal wildlife refuge building should raise warning flags for everyone. If the arrogant, tone deaf federal government attempts an aggressive assault on the compound that results in bloodshed, it might very easily spark a nationwide armed revolt against government tyranny in response.”

She explains that she's been told that Earth-bound humans get "sick" when they interface with aliens on their craft[†]. Parkes explains *that's true* and most* of the time it's because the aliens are usually existing at a somewhat higher frequency of vibration which disrupts our metabolism.

Author David Paulides has written the books Missing 411-Western U.S., Missing 411-Eastern U.S. and Missing 411-North America and Beyond to tell the little known story of these disappearances dating back at least 125 years in this country. The year 2013 saw more national park disappearances than in the past 27 years combined. Paulides has hit several stone walls on his quest to solve the mystery of the disappearances, including the National Park Service (NPS) and the FBI. - See more at:

o The dark ages with 324 years simply removed to enable clause 2014 to be brought forward, we were really in i690 at 2014, in one calendar. In another we have one thousand years added by changing the 'i' to a number '1'

o The 2014 clause is for "trade in children"...*J-ROD45 & TREATY9* has not been published yet. Quite apart from the evidence put forward in *SHARS Of NIBIRU & The MISSING 324 YEARS* the other outside peripheral evidence is that the *SHROUD IS REAL* which can be shown when the C14 dating is found to be faulty by 700+ years due to bacterial encapsulation, adding the 324 missing years to this then gives us the absent millenium in the true aging of the Shroud. Added to which is the matter of one thousand extra years in our modern calendar – either way we have hundreds of years before the Age of Aquarius, and so does the Accuser who was meant to be "bound in irons for a thousand years". What a clever way to shorten his sentence! Change the calendars, literally moving the goal posts.

- OOMPH TERRIFIER a good description of what Nostradamus tells king Henri regarding the event called "the great translation" where "everyone will think the Earth has lost her gravity". This event is now looking more and more to be October 2016, since it happens before the stars move or *while* the stars are moving, an event which needs to occur prior to Sagittarius 2017 when a new female astronomer whose surname is Elvin "repairs" the astronomy. According to these texts. This is the occasion when Mira in Cetus becomes the new northern star pointer. In November (13th) 2015 the main particle collider seems to have suffered an accident (all youtube videos were pulled and that is a good sign the rumours are true) – so anyone thinking these texts would be made re-dundent and meaningless by the final failure of CERN – please think again, and ask oneself "why is it China suddenly began to build one of their own?"

The answer is time gates. China has them too.

This "Hero" was the J-Rod52 who returned to a crash site near Roswell. He did so (according to Burisch-fully named in these texts- and in these texts) in order to repair time lines which had been altered by the military industrial E.T. complex with this E.T. being the Zeta45 greys which work with the Anakim (and I personally believe these are the Igigi of the Clay Tablets of Enki). According to this J-Rod52, his and many other off worlders' future would become drastically altered had he not done so. As strange as it seems, this is also telling us that **time lines for Revelation** have also been altered, thus "NO man shall know the hour".

He who added 324 years to our calendar (season timer) in 676AD so that 676 became 1000 A.D, then 1690 would be called 2014 ~ noting all of these dates are a 'year of the horse'.

Even 324 is divided by 12 by 27 times. If that means anything. Twelve is the base number the Anakim depend upon. The F.D.R. "Treaty IX" which was ratified Nov 8 2014 includes the clause "trade in men 2014" – when 2014 was really i690

JOEL E.T. in other lines "**spreads cholera**" – these would be the Zeta45 grays which 'work for' the Anakim (Igigi?)

A reader wrote me to castigate me on using "information" from off the world wide web. I do, when it matches details from these texts. Even if this is a hoax, and it bothers me not that it might be - I find the coincidence of it appearing on f b at exactly the same time this PDF forum is being compiled rather compelling regardless. Everyone loves something weird and this fits that category. Now – let us assume it could be for real. I feel so sorry for a mother to find herself in this position. Had she been abducted by the Dero-Ganesh and played with like a toy? We have been learning they are "techno-creeps", fallen angel Nephilim no less. Keeping in mind the word ARYAN – aka The Alcyone-Manure-Pile fraudsters

Not an "avian" theme. Not unless we hark back to the "fish in beak of heron", in a Mayan Codex. See the steps? And his "ladder" sporrans. Where have we seen them before? In the above codex. In Thutmoses III stele. They mean "stage gate". This is either the BLAIES/nosy one – from Altair, the 'Semitic' type of grayle of 9 94 3 and 3 6 4 herein and or a hybrid bred prehensile nosy ones, those which went underground to become the "techno-creep Dero" with leanings to becoming "as elephant and apes"

<https://nexusnewsfeed.com/article/health-healing/mind-altering-cat-parasite-just-got-linked-to-a-whole-lot-of-neurological-disorders/>

"This study is a paradigm shifter."

The brain-dwelling parasite *Toxoplasma gondii* is estimated to be hosted by at least 2 billion people around the world, and new evidence suggests the lodger could be more dangerous than we think.

While the protozoan invader poses the greatest risk to developing fetuses infected in the womb, new research suggests the parasite could alter and amplify a range of neurological disorders, including epilepsy, Alzheimer's, and Parkinson's, and also cancer.

"This study is a paradigm shifter," [says one of the team](#), neuroscientist Dennis Steindler from Tufts University.

"We now have to insert infectious disease into the equation of neurodegenerative diseases, epilepsy, and neural cancers."

The findings are part of an emerging field of research looking into how *T. gondii*, which is usually transmitted to humans via contact with cat faeces (or by eating uncooked meat), [produces proteins](#) that alter and manipulate the brain chemistry of their infected hosts.

While healthy adults are generally considered not at risk from the parasite – with the exception of pregnant women, who are advised to stay well clear of cat litter – the organism has previously been tied to [behaviour-altering disorders](#), and evidence suggests it can also [rewire how our immune system functions](#).

Other research has been [doubtful](#) of some of the claims around the parasite, suggesting *T. gondii*'s correlations to neurological conditions aren't quite as established as some reports would have you think.

In the new study, though, a team of more than 30 researchers from 16 institutions assessed how *T. gondii*'s secreted proteins could impact the neural chemistry of human hosts, triggering changes in the brain that could lead to neurodegenerative diseases.

"We suspect it involves multiple factors," [says one of the researchers](#), Rima McLeod from the University of Chicago.

"At the core is alignment of characteristics of the parasite itself, the genes it expresses in the infected brain, susceptibility genes that could limit the host's ability to prevent infection, and genes that control susceptibility to other diseases present in the human host."

To find this, the researchers analysed data from the [National Collaborative Chicago-Based Congenital Toxoplasmosis Study](#), which since 1981 has monitored 246 infants with congenital toxoplasmosis, the infection caused by *T. gondii*.

The results showed that fragments of microRNA and proteins found in children with severe toxoplasmosis matched up with biomarkers found in patients with a range of neurodegenerative conditions, including Alzheimer's and Parkinson's.

They also found the parasite might increase the risk of epilepsy due to altering communication between brain cells called GABAergic neurons, and discovered links between *T. gondii* and almost 1,200 human genes that play a role in various cancers.

To be clear, the researchers aren't saying the brain parasite is definitively what's behind people developing these debilitating illnesses, but it's possible that *T. gondii*'s protein-based meddling in the brain environment could possibly influence or enable pre-existing susceptibilities in some people to these kinds of diseases.

"We hypothesise that disease occurs in the presence of the relevant susceptibility genes, parasite genotype and other innate and environmental factors such as other infections, the microbiome, or stress that influence immune responses," the authors write in their [paper](#).

It's a disturbing finding – especially since previous estimates have suggested *T. gondii* could infect as much [as half of the global population](#) – but there's no sense in getting alarmed until we know a lot more about what's going on here.

It will fall to future studies to examine the parasite's potential impact on our neural pathways further – and in doing so, new discoveries could lead to some positive upsides to this sobering research.

"At the same time," [says Steindler](#), "we have to translate aspects of this study into preventive treatments that include everything from drugs to diet to lifestyle, in order to delay disease onset and progression."

The findings are reported in [Scientific Reports](#).

A WARNING TO FUTURE MAN

"In the mid-1940's a welder by the name of Richard Shaver mailed a manuscript titled "A WARNING TO FUTURE MAN" to Ray Palmer, editor of **AMAZING STORIES** sci-fi/sci-fact magazine. Palmer re-wrote the ms. and added much of his own metaphysical and occultic ideas to the plot, re-naming it "I REMEMBER LEMURIA".

Shaver claimed to have had actual physical contact with members of a cavern-dwelling society known as the Teros, humans like us who were at war with another subterranean race of degenerate man-beasts known as the **Deros**.

According to Shaver, after the **Deros** had wiped out the underground community with which he was involved, he never again

visited "the caves" in a physical sense, however he claimed that following this he began receiving "messages" via the "telaugs", or electronically enhanced focused telepathic augmentation beams, claiming to be from the "Teros". Many readers of AMAZING STORIES believed that, as time passed, Shaver began to fall under the influence of the **Deros**, becoming more delusional and paranoid and confused, unwilling to admit the possibility that the "messages" just might not be originating from his erstwhile cavern dwelling friends, the Teros.

You can't really blame him if this was the case, as he was a lone warrior fighting a battle against an enemy few of us could even begin to comprehend, especially at that time. Also Palmer's influence in drawing him and others deeper into occultic and wiccan philosophies [i.e. one can contact the "Teros" by making themselves an "open channel", not realizing that there were other more malevolent astral parasites out there looking for a human "host"] probably did not help his situation much. Palmer went on to start FATE magazine, which although it has carried some very valuable information in the past was and is also a popular stomping ground for the New Age and Wicca crowd.

Anyway, the so-called "Teros" that were tapped-in to Shaver's mind, some including myself believed, were not always who they claimed to be, but rather sorcerers passing themselves off as "Teros". The overall effect of the "voices" which communicated with Richard Shaver, Shaver's own blind faith in these voices, and Shaver and Palmer's attempts to convert the information into sci-fi and occult format to placate both his technical and/or metaphysical oriented readers, resulted in the "final drafts" of Shaver's stories actually tending to discredit the entire subterranean world idea, making it sound so fantastic and ridiculous and offensive to the Judeo-Christian ethic and the Scientific crowd alike that all but the most die-hard believers rejected his claims off-hand, and even many of the remaining believers were drawn deeper into the occultic propaganda which Shaver's "sources" no doubt wanted to use not only to create an atmosphere of ridicule [as they have also done with the UFO phenomena, and especially with the UNDERGROUND BASE phenomena where the subterranean/aerial phenomena converge] but to also bring all who they possibly could under their supernatural spell, since many of these denizens of the deep -- I am convinced -- are physical beings yes, but demonically-influenced beings who are nevertheless adept in the ancient dark arts of remote sorcery and witchcraft and occult mind control. Take it or leave it.

If one could consider the possibility of the existence of a race of deformed and degenerate subterranean sorcerers intent on dividing, conquering, infiltrating and invading the surface world [which they consider to be the "pasture" where the inferior "livestock" who are destined to feed and serve their "race" knowingly or unknowingly] reside... then the very release of such information might threaten their plans if not their subsurface empire[s] itself. So, if we consider this a possibility, then we might see how they might have manipulated Richard Shaver into bringing ridicule and discredit to a subterranean reality that was in danger of being exposed, and at the same time draw numerous people into the pit of dark occultism by convincing them that they, too, could become channels for the "Tero thought beams".

Shaver, again no doubt with noble intent, ended up spending much of his time cutting open rocks in order to read the stone "picture books" that the ancient had supposedly left...

Regardless of all this however, something else happened that we might consider very positive.

Shaver's stories prompted literally thousands of letters, articles, reports and personal accounts of encounters with unexplained subsurface anomalies.

Sure, there were probably the fantasies and hoaxes thrown in, but the bulk of these accounts tended to corroborate each other and in fact create a "master puzzle" that DID in fact begin to make sense to those with the discernment to see the "deeper" picture. Such reports would have otherwise remained hidden tormented memories of those who kept such stories to themselves for fear of being labeled lunatics. However with the "Shaver Mystery" in full swing in the pages of AMAZING STORIES magazine, such people were provided with the ideal sounding-board for them to air their experiences, whether it be 1st, 2nd, or 3rd hand information.

In my early years of research into subterranean anomalies I would spend literally hundreds of hours combing through back issues of AMAZING STORIES [circa 1945-1950] in a large university library and read in awe the multitudes of articles and letters on underground phenomena that were provided by Palmer and Shaver, and originally possibly some of our "fallen comrades" within the inner world below who had managed to send us warnings of a sort concerning the battles taking place beneath the earth, a battle which they warned would one day over-flow out to the surface realm.

I was at the time beginning to learn that many of the occultic ideas of preparing oneself to be a "channel" for supernatural energies was a self-destructive path, considering all of the ethereal parasites out there in the ectoplasmic realm who were looking for human hosts, and would masquerade as any "benevolent" entity that they could in order to sink their astral tentacles into the ever gullible. I came to realize through trial and error that the only "channel" who I could trust to respect my personal sovereignty was Jesus of Nazareth, and none other. As the good book says, "resist not evil but overcome evil with good." With my new friendship with the "Lamb" of God above, I was able to expose the lies of the "Serpent" below which had sunk its astral fangs into my soul, devouring my ectoplasmic life force energies to feed its own insatiable appetite, as it has done and still does with millions around the world.

I also had a sense at the time that Shaver, in spite of some honorable intentions, was nevertheless being fed propaganda by the **Deros**, and so I felt a sense that I should steer clear of many of his later admittedly occult-fiction novellettes that appeared in A.S. magazine, and stick with the other more tangible accounts sent in by the readers.

However in the beginning, Shaver nevertheless was one of the original few to voice a warning of an imminent infiltration and/or invasion of the surface world by a demonically-possessed underground race. In his book THE TIME MACHINE, the ever prophetic H. G. Wells wrote about a subterranean race of man-beasts, the "Morlocks", which literally fed off of those on the surface as a parasite would feed off of its "host".

Sometime in the 1950's or before, or so I had heard from a few different sources, an oceanographer by the name of William Beebe had made a bizarre statement to reporters that one day we would be attacked and invaded by a subterranean race. Beebe vanished without a trace sometime after he made this statement. He was lowered in a diving bell off the coast of Florida, and when the SEALED diving bell was brought up and opened it was empty!

Some may read accounts of underground alien activity and, because of the way it is written, discredit it as insane babblings, as many had done with Richard Shaver's writings in spite of the fact that the so-called "Shaver Mystery" dominated the pages of AMAZING STORIES for at least 5 years and created numerous off-shoot magazines, newsletters, books, clubs, and so on. In fact, some may look at certain of my own earlier writings -- during the time when I was struggling to sort out a very confusing enigma which was apparently designed to create confusion in order to conceal its inward secrets; also subject to intense psychic and emotional pain which I KNOW was the result of astral/psychic/energy attacks against my being -- and like with Shaver many may have considered these desperate attempts to conquer, synthesize and make sense out of a very complex mystery to be the ramblings of yet another deluded paranoid fanatic. Oh well, believe what you will.

I DO admit that I was [and probably still am] in way over my head. But thanks to my "higher power" I have not been "consumed". I certainly to NOT want to fight this battle alone, and I know that MANY OTHERS who have fought this real-life "Dungeons & Dragons" warfare could say the same thing. Volunteer recruits ARE being accepted, but I would warn you to make the King of kings your "Commander In Chief*", otherwise the "Serpent" will chew you up and spit you out.

I know this by personal EXPERIENCE!

I would however suggest that rather than judging "my own" research and writings, that you would rather consider the ORIGINAL sources of the information -- for in reality I am really just passing on and consolidating what others have reported -- rather than a writer who is trying to piece the information together in an attempt to bring some sense of balance and order to his concept of reality, which has been challenged and stretched to the limit by the appearance of collaborating information from numerous sources that flies in the face of the programmed "reality" which the media monopolists tell us we are supposed to accept. Remember, they are in the *business of making money* and selling-out to those who can supply it to them, and NOT necessarily in the business of the TRUTH. So refuse to be "assimilated" by their propaganda machine!

Also, perhaps we should not reject EVERYTHING that Richard Shaver tried to tell us either, especially his original message which he delivered in his "WARNING TO FUTURE MAN."

Is Planet Earth Being Terraformed by Non-Humans?

Some things happening on planet earth today just don't make sense if you're looking at them from the perspective of an ordinary human being.

For one example, look at the amount of financial debt being accrued around the world. We're talking trillions and trillions of dollars. It seems utterly cartoonish that human beings could owe this much money to other human beings. The numbers actually make more sense if consider that our creditors may actually be off-planet entities.

Take also for example, the widespread industrial scale destruction of the planet. The Athabasca oil sands project in Alberta, Canada, is a scorched earth endeavor so large it is being compared to the Great Pyramids of Giza and the Great Wall of China.

Mountaintop removal in the Appalachians, the end of the Amazon, such callousness about Fukushima... none of it makes sense.

But if you expand the realm of possibility when trying to comprehend all of this, it actually makes more sense that the driving forces behind such wholesale destruction of the planet aren't from here. Those pressing for all of this aren't dependent on these ecosystems for life.

Perhaps our earth is being used by off-planet entities for its resources, and the planet is being actively terraformed to maximize the efficiency of resource extraction.

Terraforming is, "the hypothetical process of deliberately modifying its [a planet's] atmosphere, temperature, surface topography or ecology to be similar to the environment of Earth to make it habitable by Earth-like life."

They use the term hypothetical because as far as we know it has never been done, however, a holistic look at events on earth at present fit the description of terraforming, except in reverse. Earth is being terraformed to look like some other place.

Writer V. Susan Ferguson wonders if an extraterrestrial race is already here, in the millions, and if the planet is being altered to be more favorable to their particular needs.

"They are Terraforming our Earth to make it suitable for the hybrids that are now said to number in the millions. A planet that has been slowly chemically altered, made physically denser, warmer, drier and slightly more radioactive and methane-rich is evident.

"The insanity of building nuclear power plants next to ocean shores as in Fukushima show an intent to increase radiation. The melting of the Arctic, Greenland, and Antarctica is causing the release of vast amounts of methane. Are the hybrids immune to large amounts of radiation and methane. Do aluminum resistant GMOs agree with their immune systems?" [Source]

Is this the hypothesis that most accurately fits a world where geoengineering is broadly evident and is more and more frequently described by the mainstream news as a necessary part of adapting to climate change?

"Unknown to most, it became exceedingly clear by approximately 2025 that governments had in fact reengineered [geoengineered]Earth's atmosphere, its oceans and the planet's electromagnetic grid to facilitate the use of scalar and sonic technology in such a way as was harmful and in some cases detrimental globally." ~ Timeline Collapse & Universal Ascension, E.M. Nicolay & H.L. Jang

*These projects are so massive and involve complex cooperation between industry and government. Regarding the amount of investment it takes to finance projects like these, Timothy Good in his book *Earth An Alien Enterprise: The Shocking Truth Behind the Greatest Cover-Up in Human History* quotes William J. Pawlec, a former U.S. Air Force computer and programming specialist:*

“What concerns me is when these projects go ‘beyond black’ — people with ulterior motives have gotten in control of these projects and/or the funding of them, and/or the ability of what is really scary, to write their own unlimited checks with no recourse to anybody.

“They are not even a budget item anymore. They literally authorize the Treasury to cut them checks, [and] it becomes evident that they have agendas that are independent of the goals of the United States. And the attitude is seemingly one of control — power and control.” ~ William J. Pawlec

Meanwhile, the demolition of the environment only accelerates, and all the while it appears that nature is somehow being weaponized so that both the weather and the earth’s electromagnetic field can be utilized for geopolitical ends. Regarding the use of technology to reshape the earth’s electromagnetic environment, Ferguson refers to Nicolay: Nicolay says that perhaps the most destructive use of these technologies that have ‘weaponized’ our atmosphere is the use of the Earth itself “as a medium for transmitting massive scalar and electromagnetic energy waves that could silently be used for enormously destructive purposes anywhere in the world.”

Awareness of the potential for bullying countries into agreements regarding trade and military installations can be considered when we read of unprecedented anomalous hurricanes, tsunamis, floods, droughts, and bizarre firestorms. They blame these occurrences on global warming, which then justifies more geoengineering. Read between the lines. Our planet is dying.

Nicolay: “By the mid to late 2010’s hardly any region on Earth was free of the newly ionized and metalized atmosphere, or by virtue of particle fallout, the ionization of the electromagnetic grid system of the planet. “Earth itself, and its atmosphere, were [are] now the ideal medium for the transfer of vast waves of scalar energy, which could be used to control weather patterns, control natural phenomena, or directed and delivered with near pinpoint accuracy and devastating results.” [Source]

Final Thoughts

There is something to think about here. We can ignore these problems all we want, but they are not going away, but will rather continue to exacerbate environmental and societal stress.

Our current popular understanding of how the world is managed does not have an explanation for such heinous crimes against mother nature, of which we are the ultimate victims.

Could there be some sort of extraterrestrial or breakaway civilization having its way with this planet, for some end which we cannot be allowed to know for certain?

HALL OF RECORDS ignore the monkey genetics, that word "evolution", logical as it sounds, does not apply to the human animal here on Earth. Unless by that word we mean "DNA tweaking". According to the Casseopean, ^(Knight-Jadczyk) and the Andromeda Council, ^(Collier) the modern WE-US have had at least **22 "tweaks" of DNA** over the eons. Refer The Giants' Base Under Bucegi. ^{P. Taking a great leap (meaning it is only my opinion) those seem to me to be around 20 different stages of civilization followed by as Cremo puts it "de-volution". I find it an amazing coincidence that we have had "at least twenty major ice ages on this planet" ^{R. Alley} Of course it is a further 'stretch' of imagination to realize there are 20 in the Elohim. Having read so many (soooo many) lines telling us an ice age is coming and pointing the finger at the reason for it. "This study is a paradigm shifter."

The brain-dwelling parasite *Toxoplasma gondii* is estimated to be hosted by at least 2 billion people around the world, and new evidence suggests the lodger could be more dangerous than we think.

While the protozoan invader poses the greatest risk to developing fetuses infected in the womb, new research suggests the parasite could alter and amplify a range of neurological disorders, including epilepsy, Alzheimer's, and Parkinson's, and also cancer.

"This study is a paradigm shifter," [says one of the team](#), neuroscientist Dennis Steindler from Tufts University.

"We now have to insert infectious disease into the equation of neurodegenerative diseases, epilepsy, and neural cancers."

The findings are part of an emerging field of research looking into how *T. gondii*, which is usually transmitted to humans via contact with cat faeces (or by eating uncooked meat), [produces proteins](#) that alter and manipulate the brain chemistry of their infected hosts.

While healthy adults are generally considered not at risk from the parasite – with the exception of pregnant women, who are advised to stay well clear of cat litter – the organism has previously been tied to [behaviour-altering disorders](#), and evidence suggests it can also [rewire how our immune system functions](#).

Other research has been [doubtful](#) of some of the claims around the parasite, suggesting *T. gondii*'s correlations to neurological conditions aren't quite as established as some reports would have you think.

In the new study, though, a team of more than 30 researchers from 16 institutions assessed how *T. gondii*'s secreted proteins could impact the neural chemistry of human hosts, triggering changes in the brain that could lead to neurodegenerative diseases.

"We suspect it involves multiple factors," [says one of the researchers](#), Rima McLeod from the University of Chicago.

"At the core is alignment of characteristics of the parasite itself, the genes it expresses in the infected brain, susceptibility genes that could limit the host's ability to prevent infection, and genes that control susceptibility to other diseases present in the human host."

To find this, the researchers analysed data from the [National Collaborative Chicago-Based Congenital Toxoplasmosis Study](#), which since 1981 has monitored 246 infants with congenital toxoplasmosis, the infection caused by *T. gondii*.

The results showed that fragments of microRNA and proteins found in children with severe toxoplasmosis matched up with biomarkers found in patients with a range of neurodegenerative conditions, including Alzheimer's and Parkinson's.

They also found the parasite might increase the risk of epilepsy due to altering communication between brain cells called GABAergic neurons, and discovered links between *T. gondii* and almost 1,200 human genes that play a role in various cancers.

To be clear, the researchers aren't saying the brain parasite is definitively what's behind people developing these debilitating illnesses, but it's possible that *T. gondii*'s protein-based meddling in the brain environment could possibly influence or enable pre-existing susceptibilities in some people to these kinds of diseases.

"We hypothesise that disease occurs in the presence of the relevant susceptibility genes, parasite genotype and other innate and environmental factors such as other infections, the microbiome, or stress that influence immune responses," the authors write in their [paper](#).

It's a disturbing finding – especially since previous estimates have suggested *T. gondii* could infect as much [as half of the global population](#) – but there's no sense in getting alarmed until we know a lot more about what's going on here.

It will fall to future studies to examine the parasite's potential impact on our neural pathways further – and in doing so, new discoveries could lead to some positive upsides to this sobering research.

"At the same time," [says Steindler](#), "we have to translate aspects of this study into preventive treatments that include everything from drugs to diet to lifestyle, in order to delay disease onset and progression."

The findings are reported in [Scientific Reports](#).

If you are wondering why I included this little tidbit of information – then all I ask you to do is apply the same knowledge to parasites of a *different* paradigm.

MEDUSINE DEVICE = D.M. without the French syntax, the English reads M.D.

"Deus Maximes by Guillaume Tonnaz 2005

But with "D. M." the thing looks completely different, because - after the "scholars" –

"Diis manibus" = "to the pagan Gods", or on a Christian page ([new Advent](#)) stands as explanation:

"One of the most common of the latter, "D. M." (i. e. Diis Manibus, to the protecting Deities of the Lower World), was stripped of its pagan meaning, and adopted in a rather mechanical way among the formulæ of the early Christians."

Now the "scholars" say in such a way, likewise it can be "Deus maximus" = "to the greatest God"!

Nostradamus has in his Latin "spelling saying" expressly the "scholars", "astrologers" and "fools" [be] banished and told them, "to get their hands off his texts (in 6 100)

In 8 28 "Au marbe escriptz prescriptz intergetez" = with the marble inscriptions, put [the] regulations underneath.

8 28 4 *Au marbre script prescript intergetez*. (lodge, place)

If we regard now the letters from the view of the "Steganography", then they can have more different meanings:

D. M. = Deus maximus = to the greatest God

D. M. = Deus Maximes = **divine rules, utterances, instructions, remarks,**

D. M. = De us Maximes = use the rules to utterances, instructions, remarks,

D. M. = De us maxim es = to the use maxim er (**expand**) there (of these)

In such a way can one the two letters also read and interpret and thereby a "hidden text" of the master would be found !

GET THE VIDEO WHERE COURTNEY BROWN'S REMOTE VIEWER says that the [secret search] "ATLANTIS" DISASTER ENCOMPASSED THE ENTIRE **NORTHERN HEMISPHERE AND POLE** – ERGO – ANTARCTICA WAS NOT ATLANTIS. Having made that statement it just came to me *we did* have a "perfect flip" in the Age of Gemini, yet the undersea evidence off of Morocco *does* show the perfect description according to Plato. Leaving us with the image of Giza at the south and the land mass under ant-arctica at the north prior to a polar flip. In between those times were other 'flips' (50,000 years ago & ca 13,000 years ago & ca 6,500+ years ago) BUT IT WAS "MU" WHEN IT WAS AT THE EQUATOR, JUST AS THE TEXTS SAID – "MU AT THE END OF THE U.S." Edgar Cayce NEVER said Antarctica was once Atlantis which some memes try to have us believe.

(similar to what Edgar Cayce said, only he called it a 'temple'. Did he mean temple as in the Alkhemye term = stargate?) TWO SEPARATE EVENTS CAUSED BY THE SAME THING – ONE 3,000 MILES WEST OF MOROCCO (northern hemisphere? at that time? AND ONE UNDER NEAR OR AT current ANTARCTICA. Depending on which disaster was being viewed the LeMuria or the ATLANTIS – the stars *would not have been the same* due to the timing being either 50,000 or 13,000 years ago. according to Cayce (Dick Allgire 'worked' with Antarctica – formerly Mu at the equator of the time) It was Dick Allgire who 'saw' the Mantids designing and building Giza with four pyre-amids.

This image was published in an earlier forum relating only to the layout of four pyramids, which we have learned is based on the constellation Grus formerly Pheonixoptera/ Benu/ Crane/Heron/Ibis/Jabiru. Birds of the Penu 'southern skies' Always when looking at the large (bigger) picture one will see additional information. This is WHY newspapers show only what they want you to see.

Are these four elevations in the four pyramid layout?

How extraordinary that the **elite-run media channel** which is not a "documentary" rather more a "mockumentary" channel should show this image!.

Are we all aware that all maps of all kinds show the North pole direction as the "UP" in any picture which displays any feature which is geo-logical?

My daughter said (no doubt in a blond moment) "but what would be the reference here"? And just as in the Sam Neill movie "The Dish" - I answered 'I suspect the sun might be a good reference point'! In the movie it was the Moon above. Begging the question, doesn't it, "but why did they do this?".

It seems to me these unusual images of Antarctica in the north are of a subliminal nature. Ask yourself, why produce an image "upside down"? Where do you think 'Ant-arctica' would be situated here?

And another shot of four pyramids under the Azores ocean.

This one gives the proportions .

Still think it is based on Orion's Belt?

Recently images are appearing on the internet where someone has 'invented' another star amongst those of Orion's Belt to fit this format. When all along it is The Bird Grus with its Beak [Oxyrhyncus] in the Fish/Pisces. Formerly known as The Benu ^{southern} Bird/Crane/Heron/Ibis /Jabiru.

Here a really pertinent question is going to be asked – all throughout the Yellowstone forum the dates of the September Equinox (which is now three days later, around the 24th) and that of October 11 (which had three lines stating this day, and on a Friday night into Saturday) for an event followed by a major event the week of Halloween, which also lags a day or two due to our new orbit of 377 days. As this is being written the date was October 31 2014. **According to the above information the main event is going to be "postponed".**

Thus, as I write in November 2017, the bombing of Yellowstone has been postponed by forcing the elite to remain on the 'prison planet' / This was accomplished by simply sasing their Mars Base – in October 2014.

Another reader has written pointing out quite rightly that I am "fond of sourcing from the internet".

This topic has been raised before, where I have said that this is done only if the information matches what the meaning of the texts states.

An example would be using images of Ganesh which fit the text **Dero** descriptions, both anatomical and geographical. The obvious outstanding related detail being the sinus speciality – shown by a man who had an experience with them in 1932 (Steve Brodie). LONG before photoshop, internet, country-wide information and even the common telephone. Not only by this one man, but also described by more recent Kandahar Giant event. Where the specially trained army corps were assailed by the sinus effects used by the Kandahar Giant. Sasquatch can also use their sinus resonance.

Mysterious disappearances in Yosemite National Park ...

David Paulides, an ex-cop who used to work near Yosemite National Park, has been researching the recent spate of unexplained disappearances in America's national parks... [Article: The Secret Vanishings in America's National Parks](#)
"In a few cases, *Green Berets* have surprisingly shown up to join and/or **take over** searches. This happened in [1969 and] 1971 in Newcomb, New York [state] when an 8 year-old boy vanished while walking back to a lodge to change his clothes. His scent was lost in a swamp and he was never found." LA Times.com

Author David Paulides has written the books *Missing 411-Western U.S.*, *Missing 411-Eastern U.S.* and *Missing 411-North America and Beyond* to tell the little known story of these disappearances dating back at least 125 years in this country. The year 2013 saw more national park disappearances than in the past 27 years combined. Paulides has hit several stone walls on his quest to solve the mystery of the disappearances, including the National Park Service (NPS) and the FBI. - See more at: <http://dcxposed.com/2014/04/27/secret-vanishings-americas-national-parks/#sthash.Gn39NNGI.dpuf>

A very small bell was donging inside my ear at the latter. Only because I spent a hellish night on a "Jack Frost" motor bike run in which I got lost behind the back of Mt Kosciusko and running out of petrol for my bike, I came upon a place called MOE and this was actually named in a long ago pdf, but stuck in my mind due to my horrendous ride in the snow. So, on searching for MOE in the texts, here it is.

7 24 4 **SERAPHIM UUARLORDS**

here is an explanation for those of the ARM in ArmMargEddan being in alliance with the **Elohim Alliances** but not *part of the Elohim*. Almost everything **this combination of off world entities** does, that is, their *modus operandi*, is done with Peace using Harmony and Spirituality tempered with Love and Nurturing and great Wisdom. I say *almost*, because amongst this great Alliance, (the **E. A.**) are those which are hands-on operatives who can and do intervene.

Those from Procyon (the "merry ones"), **the hooded elder 'dwarves'**, (witnessed in medieval art) whose other name is "dragon-slayers", ... the synthetic assistants (called *Incubus* and *Succubus* in former times) and the P.D. (police department) of the Tau Cetians for instance. Find *"Interview With William"* in the earlier earthfiles.com of Linda Moulton Howe - who has recently become the same as Fulford, Goode, Greer and Wilcock under the control of illuminati. How do we know this? They *never mention* any of the Elo'im Alliances, EnLil/YHWH nor Semyase. A simple thing of which they could not be aware. Judge them by their actions. This includes **their omissions**. It is in Centuries Eleven and Twelve that these closer descriptions of the **E. A.** appear, amongst the Sixaines. Along with the word 'crocodilian' loud and clear. Messssiah as David Icke puts it. Have you wondered why the sudden recent "finds" 'proving' the bible is false are popping up all over the place? It is to **discredit the first words** in Genesis *"Father Elo'im Creators..."* Telling's research

Please note, I did not say "Jesus", but the bible. The word 'Jesus' is a *title, an office*, such as 'president'. The very reason those Centuries (along with the latter half of Centuries Seven) are always blocked on web pages such as the illuminati-run Wikipedia. Besides; TEN is the base number of the Elo'im, & we all "know" there are TEN Centuries by Nostradamus, don't we! How many people do you know are aware there are actually Twelve?

In this i425 painting not so easy to see, are hooded little critters running around the 'cathedral'.
 Now that we know what/ who runs the Vatican and all religions we can visualize that the Dwarves of the Elohim Alliances are doing what they do best. Keeping the balance of things on our planet.

⁷⁶The 14th century eruption of the Black Death (blamed on little hooded ones) had a drastic effect on Europe's population, irrevocably changing the social structure. It was a **serious blow to the Roman Catholic Church** and resulted in widespread persecution of minorities such as foreigners, Jews, beggars, and lepers **by the church**. The uncertainty of daily survival created a general mood of morbidity."

"Leaving Modena fleeing what was seen to be little hooded ugly black dwarfs wending green mists circling the Cathedral. These had been sent by the 'gods' because many ordinary folk now were aware of travelling into the future. "
 reference Linda Moulton Howe, her earthfiles has an account of this PLUS Hreidmar the dragon slayers...

"Ordinary folk becoming aware" was why the Templars buried their cronus visor under Oak Island (with assistance) the date of doing so during what we call the 14th century - the 1300's (or 1300s)
 History is repeating itself in this same manner, with the elite containing their almost exclusive use of future timelines.^{7 73 1}
 I say "almost" exclusive, since they are not the only ones who can do so.

DERO appeared inside the line – not spotted, will appear in DERO COLLECTION PART TWO

SOMEONE WITH AN AGILE MIND RECENTLY ASKED ME

"How do you find the right lines"?

The answer comes in several parts:

- 1) Back in 2009 When Allan Webber sent me his Template, I read it word for word. This was before I learned/understood how to operate a computer. It took me two entire weeks to 'read' Allan's Template. By reading it, I mean looking at it just as it came – which manner of appearance you can see for yourself if you go to Folio 7 of the website and peruse the two pdf forums titled *Allan Webber's Template (Lines 1 & 2, and Lines 3 & 4)*
- 2) For some reason I have always had a 'memory' for weird. The first Hidden Texts of Nostradamus website had its uses in that I became familiar with the vocabulary. The problem with that website being it was published ignorant of the *Triple Method* which They did not allow me to have until the end of 2012... guessing it was a rite of passage and persistence, since my interest in the Quatrains actually began April 10 1980, the date I asked a small prayer "to understand the Quatrains at a greater depth". One could say that prayer has been answered somewhat.
- 3) Once I had been allowed the *Triple Method* of deciphering (which many including Hitler did seek) – then it became a matter of recognizing "key" words, which the ALKHEMYE LIST provides (and which the texts showed me how to compile).
- 4) AFTER THAT, still following instructions from within the Template, which named LEONARDO DA VINCI, the final direction being supplied by him "to play the words like a piano" (see in LANGUAGE IS ENGINEERED)
- 5) HERE above are four examples of the minor miracle which is embodied within the Quatrain Lines. Looking for the words "motile" and "time" which I had remembered were in the Template, & related to *Repairing time portal ("seat") manipulates profits*⁷⁷³¹ as well as the so-called 'Mandela Effect', I found five lines altogether that did apply; viz: 6 72 4, 9 37 1, 1 66 3, 9 98 4 (above) & 3 74 1 (below). Noting that quatrain 9 37 1 *begins with confirmation about these comments here!*
- 6) THIS is where "weird coincidence" comes into it. As you can see, I was at the outset simply commenting on the topic of The Elohim, in these texts, say they are the only ones who can "level off motile time" with this comment to be followed by some evidence straight out of Allan Webber's Template (and by now you can probably see why this end-product "task" was divided between different people). And within these particular lines, having gone and retrieved the very Original Works to get the very original spelling, *hidden key words* which Allan's programme had not been coded to recognise – hidden there, were details relating to this very Forum about **DERO! a creature among other creatures that Allan told me he does not believe in**
- 7) So, you see, I do not find them, they find me. An additional advantage to this topic (of how the right lines are found) is to be made in 3 74 1 for instance. Plucked from the Template, I find that line one actually has no "D" for Dero, then when I went to find a "T" for 'Tero' – I find there *is no 'T'*. *These types of 'errors' turn out to be an intention on "Their" behalf!* Meaning that the words "motile" and "time" cannot be in this particular line. SO presuming it does derive from 3 74 the next thing to do is see if these words can have derived from any of the other lines in 3 74, if not, maybe 3 75 where Allan found it. Looking at 3 75, there is no 'P' to hand, yet once again, in 3 75 2; there we discover the words DERO & TERO.

Not finding the correct 3 74 1 line (one with a 'T' in it), line 3 74 2 *does also have both DERO and TERO within it!*
Thus *another* example of how the TITLE key words are to be found!

3 74 1 Naples, Florence, Fauence & Imole, i555

I see there is no "T" nor "D"

ELOIM ALONE SELF~ENFORCE MOTILE TIME LINES PLAN

How many articles would have us all see it
 So – we just ignore the 2 at the left?

The excuse using "those of the brightest stars" fails, compare tiny Asterope (named) to the large Atlas (not named)
 The reason for this obfuscation is simple. Any misdirection which leads the reader away from the truth about
 the "Hind Leg Of The Cow" (Ursa Major) is welcome by those Anakim who come from there.
Half-trained "experts" such as the Weidners and the Herschels of the "academic" world simply have not done
 the proper research. Since it is Fallen Angels and Anakim of which we speak, we are all on a need-to-know basis
