ANDROGYNE, DOREAN, & SMARTSPACE SUIT

xplanations sometimes are not simple things. nding the previous DERO PART TWO collection with a slew of new information from one

lena Ka who introduced Ileana and her expose of details regarding the Secret Space Program.

In former forums we have seen many comments about the likes of Corey Goode, David Wilcock & DeLonge being front men for the illuminati and their agenda. That agenda is to keep you - the tax paying public - as dumb and as ignorant as possible about where your tax dollars really went without telling you why your country suffers for lack of it. The best example of this "dumbing down while seeming to inform you" which applies to this topic is an article appearing this week (of the end of February 2018) in the Nexus magazine. Not pointing fingers at Duncan Roads, the editor of the magazine, how would he know? The article is perportedly telling us that NASA has supposedly just invented a space suit with built-in toilet facilities. If you get to watch any of the video links (in the previous forum) about **lleana** – you will hear her frequently describe the "smart suit" and its capabilities:- technology received from off worlders. Should you go to the Template for the Hidden Texts, you will see 27 lines with the word SUIT relating to the smart space suit. A couple here. The real reason, however, that she seems kösher to me, as usual, sits in the details. In just the same way I almost threw out James Casbolt's MANNEQUIN as a large collection of fibs – until I read his description of those from Aldebaran being the sexual torturers for mind control. This detail appears in THE TEMPLATE OF COMPUTER PROGRAMMED ANAGRAMS so diligently compiled by Allan Webber over a period of ten years, at the end of which he gave to me, because my full name appeared within some of those compiled lines. Fortunately these were published at the web site very recently, because I thought you were ready to view them. Not to mention, that you might almost be able to deal with them yourselves, by also using the Triple Method ciphers and everything else I have supplied you to fiddle with and get lost in them as ^{CF}one-does.¹ In the beginning, for me, as soon as I received the Template it was printed out in hard copy and took me two weeks to read, taking notes as I went. The result of that was the forum 84 EXTRA TERRESTRIALS - which is published on the website. In there you will see under ALDEBARAN:

"CORPORATE ARYANISM CAUDATE (thick trunk, tailed) "SEXUAL AUROX ROGUES" 5:46:1 ETHNOS" 3:81:1

"aims mortal rays" 1:94.1 directed energy fields 5G etc "pertains Istar (Sirius) serpentari "- 8:93.2 chemtrails

see "MANNEQUIN A.I." James Michael Casbolt

see Oannes forum. Medical. Vaccines & Chemtrails 1 & 2 Aurox means "as horned one" footnotes Horus so cast your mind back to wall reliefs where the giants have curved horned helmets.

These are under Antarctica with the "fallen angels" and others. Aurox also means *Taurus constellation* = Aldebaran & Pleiades. Getting to the crux of the detail which caught my attention – the one Ileana cannot have known sparked a volcano inside me. At 1hr:37 min. into her video, she describes **DOREAN** found in stasis in a cigar craft and other gory things in that craft. https://www.youtube.com/watch?v=ikBXSSvCS0k Immediately I knew to whom she refers.

In the TEMPLATE you can see for yourself – the word DORLEAN. Allan Webber for one thing, did not have the Triple Method because that was not given to collator-me until the end of 2012, so he did not know to program his computer to remove the "L" as a "left over letter". That was a *directive to the collator*, received 2009, along with the Template. Plucking out the "L" leaves "DOREAN".

The result being DOREAN L = with the Sky Runes (which Allan *did* find) of "L" applied to Pisces, in particular Tau Ceti. Two other dots spring to mind, the first being the earthfiles article "Interview with William" who describes his lifetime visits from "Swedes" who said they were from Tau Ceti, arriving in a cigar shaped craft... possibly a purloined one. And the second provided by the template itself, here. Other craft the Tau Cetians use are the boomerang, invisible scout ships, ones rather similar in shape to the Ummo, a bit like the Vril craft, with a deep body and a totally different **propulsion** system. The template uses the word RADON in relation to this propulsion system – dangerous to be near when in use, which is exactly the warning given to "William" when they were lifting off. It was this earthfiles article which details large standing up reptiles herding people, just as Da Vinci describes being the SARAN. Coming from Sarru, which is here, now.

In one way, this type of thing (forums about the unexpected) can be frustrating because I had it all planned to work the JESUS forum. The DOREANS have always been an unknown to me and now is the chance to change that status. So JESUS once more will have to wait... you can find the Jesus lines under IESUS, YSUS and JESU in the Template.

The other topic plucked at here derives from ANDROGYN – because of the comment made by St. Clair who "invented" the FULLBODY TRANSPORT SYSTEM – when he mentioned a Grey had approached him (flash bulb in brain – Cröwley and his grey he called Lam – giving him the works of The Law of One and taking it the wrong way since it was meant to be about the field of quantum mechanics connecting all things). The consequence of the forum FULLBODY TRANSPORT SYSTEM PATENT being that all those erstwhile "time traveller" videos amongst whome none seem to have the same year for "the invention of time travel" are liars. Planted disinformers. Did you *really* think the elite were going to allow anyone to tell the truth about time travel? As you can clearly see for yourself google.com are taking credit for that invention. In pre 2018. What your own intellect should be yelling at you is this: ONCE ONE HAS TIME TRAVEL - SOMEONE IN THAT TIME HAS IT! We cannot deny that the most famous portrait painter of all time had painted Nostradamus in the Last Supper – several years before the doctor was even born! Compounded by the remark made by Da Vinci ... "he just appeared in the artists studio – wearing his stockings, so I painted him in"! In the Last Supper. An innocuous enough comment, not spoken in vain. Simply because stockings in the day of Da Vinci painting The Last Supper - were underwear, and a mere fifty or so years later, (when Nostradamus was 36+) hose was the height of fashion.

Here is just one more clue that the dark ages never happened. Proof that clothing fashions have never stood still!

If a person were to compile the details of all these off worlders and their agendas from within the Template..... one would have the makings of a darn good movie. Here are just a couple of Smart Suit lines from the Template. 3 49 1 *Regne Gaulois tu feras bien change, French* ^(Gaul includes European) *realm you will be much changed*, ^{ties with the red lines} U.N, EULOGIAS' skull n bones URSAE BEAR ENCHARGES [ILEANA'S] GELATINOUS SUITS, BARS stops OBSTRUSE ^{hidden,} sneaky GANGRENE NASA LARGE RETICULI ^{grayles} CARBINER EGOS warmongers GENERATE LOUIS asteroid SUREST ONTO SERBIAN BASIN IN ASSES, ^{Cancer} BONE ^{Yuletide} GENEALOGUIST E'A GENIUS CUBE BEING GRACE ENGAGES HELEN CARRIES ITS HUGE CENTURIES~LANGUAGE~GENRE SAFE these texts ENRAGES OANNES GRAILES REACTING IN GARBAGE BASE (AGILE SUBTERFUGE) FRAUGHT UUITH ICE HURRICANES SCABROUS EIGHTEEN .

- There is a very interesting string of videos by Jay Essex. He mentions the Elelians (Eleleus in the Template) which are
 Light Beings. He describes the different factions among the Anakim the first I have ever heard anyone do apart from
 these texts and the Papers of the original Wes Penre. Essex spells them as "Annunaki" and makes a point about it.
 These texts have always referred to them as "Anu", the bibles spell them as Anakim. Potatoes-tomatoes.

My web site man says that is not possible but he would not realize that it is from *Military sources* that we *have* the internet and I am sure that the E.T. grays which control the military have their means. My daughter was complaining about all the high color (such as the purple and navy background) so this forum is lacking the amount I used to apply. Did you notice how these three very different sources of "riddle" lines (can't use the word "quatrain" because one line came from the Manuscript *Monstre d'Abvs* with one coming from the <u>very last</u> of the quatrain lines, and the other from Da Vinci's Riddles) that in all three each had hidden different topics *and all of those topics* matched in their detail being:

- the Event = a contorted-spinning-torqued universe, with moving stars. The bible speaks of this as the *sky* unfolding and a new Earth and a new heavens. Clay Tablet #10 of Endubsar also uses the same words. The Hopi Prophecy rock tells us the same, showing Earth falling off her orbit, with a division of humans – one lot going up to become A.I. (and the Grays we know of as J-Rods) and the other lot parallel "below" planting corn in a matriarchal society. All Accomplished by THE SAME ENTITIES in each de-scripted line
- 2) all of them provide the *exact same dates.* Consequent to the October event (possibly the "great translation", when we need to know this means "a great moving of earth, or The Earth" and could mean a supervolcano or Peru Slip or Canary Islands slip or all three): then from TEA-POT which is what Sagittarius was once called into OS which is Capricorn that straddles the end of each year and into the beginning of the new [fiscal] year. We have actually FOUR lines saying this, one additional to these three is the line saying "*OUR* NINETY SEVEN OS RAT YEAR" which '97 is I697 is 2021 with the *Capricorn* being the *beginning* of that year and *the end of* RAT. Noting with the dates, the word CAR could have been used too meaning over Yuletide, but was not. The full word TEAPOT was there both times but I could not fit it in
- 3) all of them tell us about the *directed energy weapons* from the skies "cooking" people, and who is doing it. The quation was raised "where did all the victims go?" The words PORKIER and COOKING should tell you. The lines with TEA in them also had EATEN or ATE and CONTACTED (as in *contactee* meaning "picked up"). Normally the word "abducted" would be more precise but there is no 'b' to hand. Contactee more usually means an ongoing deal.
- 4) all of them say to *plant non g.m.o. root veges* in your cellar in "stepped" growing beds. The word "stoop", or "stoëp" is an old fashioned word for steps, I can remember my great grandmother using it (the word) when she was sharpening her knives on it, leaving grooves behind. There would be a reason for the "*strata growing technique*". Possibly to do with the watering system and the conserving of that water, but also to do with the light needed.

• ARGON-ION FUSION = etheric energy C+F+9 52 2. Here the collator (and you) are being asked to do more research on orgone: "Out of Phoenix1 came Stealth technology, which I cannot talk about because of my job.

It also produced all sorts of energetic little toys like the radiosonde.

What is a radiosonde?

Well, in all appearances it was a little white box that they attached to a balloon and sent up into the atmosphere. The government told people that it involved gathering weather data. It used a very unusual type of **pulse modulation**. In most cases they used a CW (continuous wave) oscillator and pulsed the signal. This turned out to be a very efficient conversion of electrical energy to **etheric energy**. I very recently started collecting radiosondes. I never saw a receiver. I found out that they were designed up at Brookhaven National Labs. I started to talk to people at Brookhaven and ran into a retired gentleman who used to work there. He told me that the design was originally done by **Wilhelm Reich**. That piqued my interest.

The story goes that in about **1947** Wilhelm Reich handed the US Government a weather control device, a device that would do DOR-busting. Reich thought that if he could decrease the amount of DOR that storms would not be so violent. (DOR is the result of **orgone energy** coming into contact with an enclosed radioactive source. This produces a Deadly Orgone Energy - DOR - which **threatens life.** It is also produced in the atmosphere through other processes.

The government sent the device up there into a storm and it did reduce the intensity of the storm.

The government liked it, and they started another phase of the Phoenix project where they designed these "radiosondes" and started launching them in large numbers, maybe 200 to 500 per day. The radio in these things had a range of about 100 miles. If they used so many of them, one would think that receivers for them would be common-place. I used to be a collector of radio receivers. I have over 100 in my personal collection. I have never seen a radiosonde receiver. I have heard of them but I have never seen them.

What are the frequencies used?

The frequencies used are 403 MHz and 1680 MHz. They used two different frequencies."

They are both on at the same time?

"No. One or the other was used at any one time. The earlier ones used 403 MHz plus or minus 2 MHz. The later ones used 1680 MHZ, plus or minus 6 MHz. The "thermistor" in them had gold, silver, platinum and iridium in it. Reich used sensors that had gold and silver in them. The humidity element is a plastic plate with silver around the rim and conductive lines going across the plate. They put a very unusual mixture of chemicals on this plate.

Unlike most humistors, the resistance went up as it got damp.

What we're theorizing at this point is that the "thermistor" (temperature sensing) rod acts like a DOR antenna out-of-phase. The "humidity sensor" acts as an antenna for the orgone;

The pressure sensor is essentially what they call a barrel switch, which is a pressure sensitive cycling switch. The device would destroy DOR and build up the orgone. The transmitter consisted of two oscillators, one of which would run at the carrier frequency (403 or 1680) and a second one which was a 7 MHz oscillator hooked into the grid of the carrier oscillator. The result was that the 7 MHZ oscillator would pulse on and off.

How does all this relate to what was going on with these other projects?

The government could not tell the public these were weather control devices. What we are seeing here is actually the genesis of what became the Montauk project, which was a combination of Wilhelm Reich's work and the Philadelphia Experiment."

"Ha" is Dubnium, but also could be Hafnium here (Hf) Hafnium is a good absorber of neutrons and is used in the control rods of nuclear reactors. Hafnium is also used in vacuum tubes as a getter, a material that combines with and removes trace gases from vacuum tubes. Hafnium has been used as an alloying agent in iron, titanium, niobium and other metals. "Dubnium is a synthetic chemical element with symbol Db and atomic number 105. The Berkeley Group proposed the name **ha**hnium -- after the late German scientist Otto Hahn (1879-1968) -- and symbol **Ha**. A highly radioactive metal, of which only a few atoms have ever been made. Dubnium [Ha]does not occur naturally. It is a transuranium element created by bombarding californium-249 with nitrogen-15 nuclei.

In 1968, a team led by Georgy Flerov at the Russian Joint Institute for Nuclear Research (JINR) bombarded americium with neon and made an isotope of element 105. In 1970, a team led by Albert Ghiorso at the American Lawrence Berkeley Laboratory (LBL) bombarded californium with neon and obtained isotope 261. They disputed the claim of the JINR people. The two groups gave it different names. The Russians called it neilsbohrium, while the Americans called it hahnium, both being derived from the names of prominent nuclear scientists.

Eventually, the International Union of Pure and Applied Chemistry (IUPAC) decided it should be called dubnium" Discovery date 1968-1970

'Dubnium is named for the Russian town Dubna. The **most stable** known transfermium isotope, with a half-life of just over one day' www.rsc.org/periodic-table/element/105/dubnium

"Theoretical research establishes dubnium as a member of group 5 in the 6d series of transition metals, placing it under vanadium, niobium, and tantalum. Dubnium should share most properties, such as its valence electron configuration and having a dominant +5 oxidation state, with the other group 5 elements; however, it should display a few anomalies due to relativistic effects. Limited investigation of dubnium chemistry has confirmed this assignment. Solution chemistry experiments have revealed that 105 dubnium often behaves more like niobium rather than tantalum, breaking the [exothermal] periodic trends."

The above research was gained from a polyglot including some from *illuminati-google-owned* Wikipedia, which states a <mark>contra-diction to the others:</mark>

"Dubnium, having an atomic number of 105, is a superheavy element; like all elements with such high atomic numbers, it is **very unstable**. The most stable known isotope of dubnium, 268Db, has a half-life of around a day.^[27] IT seems it has more than one numeric weight property, known variously as Dubnium 260, 262.1138, Db 267 & 268 Dubnium can only be obtained by artificial production." ^[b]

To arrive at the answer which the "cues" provide in the words "Oh the ha/dubnium paradigm *otherwise* ...the chain link has taken me to a number of results, the first being the number 105 = 10 and 5 but one could also say 1+5 = 6 which refers to the "unholy six", the Opposition to the Holy Elohim, so more searching later... dug up the Golden Cube (in image #1) which is exactly what I saw thru my telescope; and dug up a sigil which at first glance says AYS.HA in Cyrillic* & another sigil which seems to show the Eye beaming light (Illuminati) BUT it sits in a green tree over blue waters = E'Yah.

- 2) Neon coming forth from the dark. The Andromeda Council are the "tuna-blue" ones arriving from another dimension
- 3) This diagram appeared as a crop circle
- 4) Another description for Dubnium, saying it is also known as Unnilpentium/Unp. Guessing that means 105.

in the early months of 2018 there was a quiet public mention of "element 115" - the mysterious element that Bob Lazar had spoken about when being questioned regarding his authenticity of working at Area 51 - many years ago - which he told was the very power source for off world space craft. The propulsion for what we now know as the Negative E.T. Lazar had stated that this element "was not from Earth". Yet there is a video out now that says "scientists" ~ (you know the ones that mysteriously find technology out of thin air) \sim have just discovered a new element on the periodic table and named it element 115. While I was sitting there watching this video – the above information was flashing in my mind. The simple little word with two letters – Ha – which, due to the attempted obfuscation by the likes of Wikipedia – tells me "they" have had since the discovery of Ha/Db (another attempt at disguising stuff) back in 1968. Keeping in mind that date is one year before they did (collectively and jointly) land on the moon for public purposes. The "public purposes" of course was all about money – the getting of it. So that we would not recognise the free energy used for that trip, the maintaining of space rockets has been kept in the public eye – even right to now with Elon Musk and his "rockets" - This was to become the wedge in the opening of the door of removing our money from our social security systems. Like the frog in warm water slowly cooking, so that none of us would realize where the money was all going, thinking the expense of "rockets" when all along they can get to the moon and everywhere else, at no cost at all C+E+cnacov

In the i555 (first) printing, the word Calendar is spelt plural – making it either the tenth Calendar or the Ten Calendars which of course, is a Century. It could be a reference to the Julian Calendar which commenced in April... *made Gothic. Once again pointing to Roman times* becoming *Gothic times.*

That is: *the century the Romans left Britain to its own devices* (call it anytime after 420 C.E. taking a bit over a hundred years to recover from the volcanic effects) *BECOMING* GOTHIC viz; ca i582 with pope Gregory.

The i582 timing is the date of ratification of the Edict Bull of pope Gregorius in Rome.

The actual calculations for this new calendar having taken a decade or two to compile.

Meantime, and parallel to these auditing activities in Rome, the Byzantine "royalty" were on their own path to "repairing" calendar dates. Guided (according to these texts) by off world insistence, with prince Otto approaching his relative, king Constantine (VII according to Niemitz. Wikipedia says VIIIth) to have July i676 changed to Yuletide of 1,000 Anno Domini. Thus the monk Psellus the Younger was really publishing his Cronographia not in I055A.D. but in 731. Much closer to the Greek named therein who described quantum physics.

This takes me back to 1 42 4 which was intended to take the reader to the works of Psellus. The *Cronographia* being one. The words d'Amant *and* Pselyn/Psellus can, however be read to mean another published work of Psellus written in Greek and translated by Marcus Collisson I843 and Dr. Charles Nicholson (which I am just now reading) called :

<u>De Operatione Daemonum (On the Operation of Daemons).</u>

www.esotericarchives.com/psellos/daemonibus.pdf

(Pseudo-)*Psellos, Michael*, and Marcus Collisson. *Psellus*' Dialogue on the. Operation of *Daemons*. "Introduction:

MICHÆL PSELLUS, who flourished in the eleventh century,

the Author of this little treatise on the operation of

Dæmons, was an eminent philologist, philosopher, and

scholar, and filled the office of Tudor to the young Prince

Michiel, son of Constantine Ducas, with great credit to himself,

as appears from the eulogium passed on him by Anna

Comnena, daughter of the emperor Alexis (Alexiados, lib. v.)

Beside other works, he wrote an exposition of Aristotle's

Philosophy, and Commentaries on the Book of Psalms and

Solomon's Song. Mosheim, the ecclesiastical historian, pays

the following tribute to his worth:—

"But the greatest **ornament** of the Republic of Letters in the eleventh century was Michael Psellus, a man illustrious in every respect, and deeply versed in all the various kinds of erudition that were known in his age. This great man recommended warmly to his countrymen the study of philosophy, and particularly the system of Aristotle, which he embellished and illustrated in several learned and ingenious productions."

"-"Though we cannot discover with certainty, from all that is said in the Gospel concerning possessions, whether the dæmons were conceived to be the ghosts of wicked men deceased, **or lapsed angels**, or (as was the opinion of some early Christian writers, Iust. M. Apol. :

1.) the **mongrel breed of certain angels** (whom they understood by *the sons of God*, mentioned in Genesis, ^{ch. vi.,} 2) and of *the daughters of men*, it is plain they were conceived to be malignant spirits.

'Art thou come hither, βαστανασαι ημας, to torment us before the time?' Matt. viii., 29."

-whilst our Lord says, delivering the future judgment;

"Depart ye cursed into **everlasting fire**, *prepared* for the devil **and his fallen angels**: indeed, the scriptural opinion appears to be that, as the devil walketh about like a **roaring lion** seeking whom he may devour, going to and fro in the earth, walking up and down in it, so his emissaries, the apostate [elite] angels, the dæmons, roam through every part of it, inflicting diseases, tempting to sin, and blasting physical as well as moral good." "Surely a supercilious contempt for the **Anakim of ancient literature**, which would censure them unheard, or consign their writings to oblivion; is no mark of either liberality or wisdom in the present age." Define **apostate**: one who leaves behind their religious or political beliefs making the twelve Apostles simply 12 men who had abandoned their former beliefs. We know them mostly as the twelve Disciples, having taken on new disciplines. 394 ornament XCIIII For five hundred years more one will keep count, i557 + 500 De cinq cens ans plus compte on tiendra, Who was the ornament of his times: TIMES plural/Nostradamus Celuy qu'eftoit l'aornemet de fon tempt The Triple Method Then suddenly to one a great light given, Puis à vn coup grande clarté dourra, Que par ce fiecle les rendra trescontent. Anakim (fallen angels) of ancient literature. DEFINE apostate: one who renounces religious or political beliefs. Thus the 12 "apostles" were rebelling against the politics of the times, led by Jesus-Immanuel. In exactly the same manner [the original] David Icke was doing " In +054, after the ecclesiastical upheaval following the definitive separation of the Greek and Roman churches, Psellus withdrew from academic work into monastic seclusion, adding Michael to his baptismal name. Recalled by the empress Theodora (1055–56) to serve as her prime minister, he continued in the office during the reign of his former student, the emperor Michael VII Ducas (1071–78). Having urged the Emperor to reject any overtures towards reunion with Rome, Psellus was forced into final exile when the Byzantine Macedonian dynasty's internal struggle between aristocratic and military families resulted in Michael's deposition and the accession of the emperor Nicephorus III Botaneiates (I078-81). Manifesting encyclopaedic knowledge, Psellus composed treatises and poetry, all characterized by forceful and sometimes virulent expression, on themes in theology, philosophy, grammar, law, medicine, mathematics, and the natural sciences. Foremost among his writings are a tract, "Commentary on Plato's Teachings on the Origin of the Soul," and the Chronographia, which

recounts the events from the accession of the emperor Basil II to that of Nicephorus III.

Notable also among Psellus' literary remains are his correspondence, consisting of more than 500 letters, and his funeral eulogy for Michael Cerularius, patriarch of Constantinople and principal force behind the Schism of 1054. With this change, Byzantine thought returned to the idealism of *early Greek* Christianity as exemplified by the **4th-century** Cappadocian school of Gregory of Nazianzus and Gregory of Nyssa. '

"The Byzantine historian Michael Psellus the Younger [b. 1018- d. 1078 OR 1096] contribution to our understanding of the crusades comes from his Chronographia, which provides a history of Byzantine emperors immediately before the First Crusade. His work is especially useful for providing details of the decline of the Byzantine Empire in the decades prior to the crusades. Especially useful is his history of Romanus IV Diogenes who reigned and took part in the disastrous Byzantine defeat to Turkish forces at Manzikert in 1071.^[1] This defeat made clear just how dangerous Turkish forces were to the continued existence of the Byzantine Empire and encouraged eastern Christians to look to the West for help, ultimately resulting in the crusades.*

Recall what lleana said regarding a cigar/cylinder craft absconded by the Tau Cetian (Dorean) that they were using it? Recall I have been saying since the very beginning of these works that there is one exception to the owners of cigar-cylinder craft - that this craft seems to be used by the Tau Cetians. Here is the reason. First one had to discern that these "Swedes" were not shape shifted other worlders (and this is what led to the pdf forum 29 NORDICS). It puzzled me on reading Linda Moulton-Howe's article "Interview with William" that the craft arriving every Sept. 11 (his birthday) since he was a child, seemed to be one built by the Negatives. The fact that they would care for William (saved his life once) from childhood, a most unexpected string of deeds had they really been of the Negative type! The explanation for this arrived with Ileana's videos - her details of the "police department" Tau Cetians taking the ship after overwhelming the Negative [child-eating] Occupants. removed 1 27 2, 1 27 3, 1 27 4, 3 11 4, 3 41 4, 4 6 1, 6 80 2, not yet worked with. and FOR THOSE OF YOU WHO THINK THE SUN SHINES OUT OF THE PLEIADIANS ... EYES

There are a few "Messages from Pleiadians" videos doing the rounds.

The very fact they have not been censored should tell you something.

Here are some of my debates that these videos are not for real:

PLEIADES VIDEOS

first lie:

"The Pleiades has seven stars"

I have no idea why the establishment wants you to think this is true. Of the nine named stars, the ones they tend to ignore are Atlas (the brightest) and one of the small ones, variously omitted. These would be fully infiltrated by reptilian DNA and it is very strange to omit Atlas.

According to these texts Atlas, Alcyone and Maia are the compromised societies – so far.

The Pleiades consists of 40 stars each with a lumin strong enough to be recognised.

Of these 40, NINE are named.

In olden days ^(in alkhemye language) these were called "Atlas, (the king) Gran, (the Queen) <u>AND</u> The Seven Sisters. They are named in alpha order as follows :

Alcyone, Asterope, Atlas, ^{King} Celaeno, Electra, Maia, Merope, Pleione, ^{Queen} Taygeta.

ONE lie was enough. Not wasting my video time on any more.

Homer was said to have been of Pleiadian extraction. How was he able to deal with human "auric stench"?

'Pleiadian Message Explaining Everything' title of a 2 hr video Here I have plucked out comments made on this video, stopping halfway through the two hour farce. Much of it does contain beautiful information true and pertinent, but when weeding out the planned programming – all in all that which sounds good is common sense anyway.

"Hierarchy" = a reptilian construct and certainly NOT a Pleiadian custom

"came 300,000 years ago" - but they, the Anakim, themselves say 450,000

she makes the new "OWNERS" sound a good thing ... slave owners. No one owns anyone

"share a frequency" the very thing Plejarens CANNOT DO with us due to our "auric stench"

"you must make peace and merge with them" (the Lizzies) make peace? So there is a war?

a free will universe would never say MUST

"open your eye/s of Horus" = illuminati and listen to her constant reference to The Light

"stop giving over your authority to YOUR parents" the opposite of the Ten Commandments!

"even tho they do not have bodies like yours (referring to the false Mantis and other non human off worlders which have a real input... and the copying of the real Mantids and others)

"shakra connecting to the gridwork" ??? See the Hidden Texts about ANTENNAE & Blue Mouse.

The number 12 is *not* of the Living Library, which uses 5 (fingers) 7 (days) 10 (decanate) and the Golden Mean for the Fibonacci sequence. Suddenly they begin quoting the Living Library?

The number 12 base is used for *controlling* the Living Library – *via technology:* latitudes, longitudes, hours of the day counted/controlled, calendar months in an orbital year, days thereof (there were once 360 in 705BC. An additional 12 has been added at October 2013 and we currently have 377+)

This constant talk of the Living Library is a "copier" protocol used to fool us, just as they do with their actor clone walk-ins, which they have done *for thousands* of years.

"without human occupants others cannot access the Library "– then please explain the over 220 off worlders which do use Gaia for a Way Station (Bill Ryan articles. See: Elk Hunter's Contact.^{earthfiles})

"concentrating on *sexuality* denies free will" ... thus the gender argument, a reptilian idea, they want us to all be one gender, a compromise which excludes breeding our selves. Those from 52,000 years in our future say they have three separate genders. The middle one is for Administration of logistics.

"in the decade of the 1990s" - huh?

" "came" to the U.S." indicating the narrator is IN the U.S. listen closely, and think how she should have worded it had she really been a Pleiadian

" "your own "channelling" " when the Plejaran themselves *know* that this is a negative method, warning us they never use it - *because they use* E.S.P. ^{mind reading} TELEPATHY

This is why they need no kings, **nor hierarchy** therefrom.

"BRINGERS OF THE DAWN" = LUCIFER, CROWLEY... couldn't help herself, could she!

"I AM willing to give up difficulty" – contradicts what was stated early in the video.

She describes what is known as Love under Will (which is Crowley again)

"WE WANT" are two words not used by real Plejarans. Service-to-self people use these words.

"but it totally backfired...

https://nexusnewsfeed.com/article/human-rights/google-tried-to-censor-what-americans-can-buy-online/

Very silently — and very temporarily — this week Google appeared to have chosen a side in the gun control debate in the wake of the recent school shooting in Florida that left 17 people dead. Disappointingly, that stance involved censorship of what shoppers using the corporation's search engine could find online.

On Tuesday morning, people shopping via Google began to notice that any search items related to the word "gun" or the category of firearms in general were coming back with zero results. If you were in the market for a glue gun or a nail gun or any other such product, you were simply out of luck.

But it went even further than that. Any shopping search at all that contained the letter string of G, U, and N would come back with nothing. Looking to purchase a box set of the TV show "Laguna Beach: The Real Orange County?" Sorry. Trying to find that perfect burgundy rug for the living room? Not today.

In fact, Google's algorithm restrictions went **beyond** the term "gun" and **prohibited** shoppers from finding seemingly any item that could be — however tangentially — connected to firearms. If you were searching for auto parts for your Dodge Colt, for example, Google was no help. Need some more razors from Remington? Better look elsewhere.

As **demonstrated** by YouTuber Douglas Stewart, these restrictions only applied to people using Google's "Shopping" tab. All the words and phrases previously mentioned, as well as the countless others that weren't, came back with standard results when searchers keyed them under the "All" tab.

It didn't take long for people to notice what was happening, and many began highlighting the situation on social media. Equally quickly, Google caught on that people had caught on. By late Tuesday, as the *Washington Examiner* **pointed out**, shopping via Google had returned to its previous experience.

Where AS = Aise, ACE verb, where BRAIN'S means the two brained J-Rod52, where GRACE refers to deeds by the Elohim, SAGE is Nostradamus, SUBNASAL means those which produce sonic frequencies via their sinus. The word SCARE means RACES. Where "f" is also "S". INFERNAL BUGS would be the very large four armed negative Mantis. FROGS here means those from Bufo/Toad. FABULOUS = using the obsolete intention of *beyond belief* (in this case ARSENIC in chemtrails which BEGGAR SUNNIER). COBRA is always Putin Urinals is URANILS from Urania, also known as the heavens. INFANTRY along with the same date. Thus also letting us know that those soldiers are not human and not to be treated as human. They are biologically designed and incorporated A.I. with lizard genes.

This is how they can regenerate limbs and repair themselves. Even cutting off their heads might not be the answer.

Herein is the entire space-wars represented within three words. 0 Here is the entire reason we have idiotic politicians who know-nothing trying to second guess the Elohim Alliances which are busy nurturing the Living Library. These "politicians" and their "scientists" always trying to "improve" failing Earth conditions (caused by the elite one way & another) all the while making things worse. Slot amongst these the ingredients of the off worlders agendas which are not the same as each other – and we have a dangerous soup. **** 2 73 4 Par troys couronnes au grand Endymion. crikey, I just realized there is a Quatrain about the one without hands! 1 65

Infant (clone) without hands never so great a fulfillment seen: (cloning) (emphasis on the word "seen") but the wording uses 'feudre' as a cask (in vitro) The roval child injured of/from estrus/womb casualty. (Donald Trump's son) Then fuse event to divide the pulley system (orbit) Three trussed up in the middle under the oaks.

The royal child injured of/from ovaries/womb casualty. (Donald Trump's son)

with rumors that his son Baron being an autistic – damaged in utero.

when this last appeared, it was during the inauguration of Donald Trump

There is another explanation for "damaged in utero" and that is related to

abductions and "foetus fiddling". Or at least, the result of that pregnancy

(Oaks = stargate. The "three" are always the Roschilds) (and the Hidden Texts do say that these will be "locked in time")

Additional to this guatrain in which the second line has it as: LXV 1 65 2 L'enfant royal au ieu d'oefteuf blefse:

Enfant fans mains iamais veu figrand fou dre,

L'enfant royal au ieu d'œsteuf blessé: Au puy brifes: fulgures allant mouldre, Trois foubz les chaines par le millieu troussés.

ί557 during that abduction. \

IF, for any reason, Baron eventually becomes a "public figure" do keep in mind that what you will be "seeing" is not the real one.

My google chrome page has had my f b quick link for a few days showing a post I had placed regarding the "polyp" style grayle, (thin long neck and large head) the one titled 'Maitre' by some, but it is the one of Phil Schneider. Shortly after, it appeared with a blank square over it, censored.

The reason I mention this censored image is twofold. a)-the 'leaders' of the west have been given a time by which date to disclose the truth; by the off worlders b)- so why censor an image of their puppeteers, unless it is related to the false flag of 'alien invasion'?

Meet Australian John Patterson who Drove his armoured personnel carrier in the streets and knocked down the Harmful GWEN / Phone towers.

Patterson worked at Telstra "phone company" and tested Telstra's digital systems for 25+ years. Over the time he realized the very real dangers of electromagnetic radiation. When he got moved to a new facility in between two towers, he got all his equipment out and measured the frequencies. With undeniable proof of the occupational hazard of working in the building, his higher-ups let him go, which he claims is pretty much what happens when someone in the industry realizes how dangerous they are.

Pattersons Video (copy and paste if link not active) https://www.youtube.com/watch?v=MMpvziGoAGg

Neil Pascoe

"When Patterson realized that these Phone / GWEN towers which he helped put up were killing humans and de generating the DNA of all living things, he decided to take matters into his own hands and drive his armoured personal carrier on the streets and smash them down which amounted to 6 million dollars worth of damage.

Its time the public knew what these towers are actually doing and how they are connected with a much bigger Agenda including: **A.I., Mind control, Weather Modification, MK Ultra, Targeted Individuals** and the slow killing off of the Population "soft kill / Agenda 2030".

If the masses [k]new, humans would take to the street and rip these things to the ground over night. Patterson said "People within the industry have purposely misinformed all of the relevant authorities, so that not much can be done without a large public uprising about it"

The level of EMF that is being emitted from these towers is calculated like this:

Each rectangle panel you see on the sides = 300 microwave ovens which can project for 5-10+ miles.

Most towers have 12+ panels so you do the maths.

12x300=3600 microwaves blasting you non stop day and night with proven harmful EMF. Plants don't grow well near these panels , humans get hyper Accelerated diseases, depression, tiredness and hundreds of other health defects putting the immune system into fight or flight mode 24/7. This kills the nervous system, making dna telomeres brake off much quicker, rather than the body using the energy to heal and regenerate its being used to protect and fight the harmful emf.

For farmers out there or people who have large properties when Telstra comes knocking on your door with a too good to be true offer like well pay you \$180k per year to put a tower on your land tell them to FUCK OFF and inform your neighbour's as well so they don't do the shifty and put one in down the back some where.

You are literally selling your Soul and signing a death warrant to your neighbour's in a 10km radius.

Not only are you killing your family **and all living things around**, you are actually de generating the DNA of your grandchildren's children. Yes this [is] generational and DNA goes beyond 7 generations.

You are also opening your land up to be messed with by the weather modification and targetted individual programs running to this day. Warn you family's... (sic)

1520 = Magellan

Or published 1620 by nephew of Drake? Sir Frances Drake born between I540-44 The fashion worn by the guy on the ladder includes hose, and those holding upright pikes do not really look like bearded Portuguese or Spaniards. The man standing behind the horses – is that an umbrella? Or a round shield? The horses were not depicted by a person who is familiar with saddlery since the forehead band-throatlatch of the bridle is not correct at all.

On balance of detail which can be seen, this seems to be the earlier visit. That of the earlier i500s.

The fashions: the sleeves of the enthroned guy are held in squared sections. This was dropped in the Elizabethan reign and he is not quite wearing a ruff, but separate collars which preceded the Elizabethan ruff.

The weapons: The pikes are not the extra long ones of the English, be it foot or horse, yet if those are shields they are round, which followed on from the pointed type of the early i500s...

The saddlery: the stirrups are the forerunner of the semi enclosed Spanish style. Albeit not on a high fashioned saddle nor horse (it is more a merchant's horse, having no soldier-breeching). The single girth points to the earlier date because two girths became popular later in the century. Naturally, a saddle made in one decade could still be in use several decades on. The livery-man feeding the horses is not quite wearing the puff "trousers" with codpiece style. Problem with Elizabethan reign is it began i558. It is easier to find cut off dates for her fashion than for the previous reign. How did her favorite (Sir Frances Drake) end up inland when he was a privateer, a polite title for queen-sponsored buccaneer.

The lack of fear shown by the natives is another give-away. By the time of Cortez and his visits, (±531) the natives became very wary of Spaniards. Plus there is no historical indication that Cortez had direct knowledge of giant peoples.

here we have a clean shaven visitor

The images attributed to be Frances Drake with a giant or two cannot be him since he was a man who wore the neck ruff of Elizabethan fashion, and very rarely is seen wearing a hat of any kind in any of his portraits other than a conquistadors helmet.

The flatter hat seen on a few depictions refers to the days of Nostradamusm the i500s, a hundred years earlier than Drake.

The one thing common to all pictures of Drake is his beard.

same clothes, same visitor, same giants, same occasion FRANCES DRAKE [nephew of same name] 1628

One hundred years later, in *The World Encompassed* (London, 1628), the first detailed account of Sir Francis Drake's circumnavigation, the author, Drake's nephew of the same name, wrote:

"Magellane was not altogether deceived, in naming them Giants; for they generally differ from the common sort of men, both in stature, bignes, and strength of body, as also in the hideousnesse of their voice: but yet they are nothing so monstrous, or giantlike as they were reported; there being some English men, as tall, as the highest of any that we could see, but peradventure, the Spaniards did not thinke, that ever any English man would come thither, to reprove them; and thereupon might presume the more boldly to lie: the name Pentagones, Five cubits viz. 7. Foote and halfe, describing the full height (if not some what more) of the highest of them. But this is certaine, that the Spanish cruelties there used [referring to Magellan's hostage taking], have made them more monstrous, in minde and manners, then they are in body; and more inhospitable, to deale with any strangers, that shall come thereafter. He reduced the height of the Patagonians from ten feet to seven and a half feet but was obviously more intent on discrediting the Spanish and blaming them for the "monstrosity" of the giants. Ironically, though, he was really confirming the basic facts behind the myth."

• INDEX IN VILE SEXISM VISION = sharia 'law', therefore Islam.

• Even in the *Second Coming* of the Mazzaroth (Miss Frances Rolleston) it is stated that Cassiopeia and Argo are "mixed" in the "six". So that would be the "insane four" and two of the Elohim as the "unholy six"

There is a video everyone should watch. Jim Sparks speaking of his experiences being "pulled" up by off worlders. In this video he mentions black ops helicopters *that seemed to be in league with* the Elders who were trying to teach him. For me, there were some contradictory details in his epic. The first being the fear that was used against him. In my own experiences I have never felt fear. It seems to me that Jim Sparks suffered more than one type of "pick up for"more than one off world agenda. Yet his final mature conclusions are parallel with the paradigm for the Living Library. http://askthedragon.org/ancient cities under giza.htm

"The Sumerian record provided a probable description of the lion-headed Sphinx at Giza, and if that great creature was built to guard or obliterate ancient stairways and lower passages leading to subterranean areas below and around it, then its symbolism was most appropriate." by Tony Bushby

"During the first Egyptian "pyramid war", between Horus and Seth, Horus strikes: "...(and he) let loose against them a storm which they could neither see with their eyes, nor hear with their ears. It brought death to all of them in a single moment..." (Sitchin, 1985)^{This detail informs us that Horus was EnLil-YHWH lord of airwave storms, SENDER OF FATAL FREQUENCIES}

ERRATUM or not

A reader wrote asking about 2023, when the Year of the Rat (2020) was named. The year of the Rat is also 2032 and any 12 years after that. The thought was that I had made a typo error.

This is not to discount 2023, as it does appear as the Year of the Hare (Cat or Rabbit) too and seems to be about ice ages.1 40 3 Hyftra d'Egypte qui veult que l'on deflie ('q' = 'k', 'f' = 's')appeared in ANCIENT ECUADOR, EGYPT. CANDID CALENDARS (C+F+CANDID)

An invention to keep our juvenile daily routines running.

There has always been a calendar for every "civilized" society – all running parallel to each other. In one of them operating contiguous to the next, 324 years was plucked out... removed and in "the next" calendar; one thousand years was simply tacked on. The difference remaining is 676 'years'. Was it a co-incidence that prince Otto lived in [the real] 676 'AD' ? No. For us, THIS is the amount we still need to remove. Doing so would place the 2018 us in the 'real calendar year' of 1342. Except that in Their wisdom, They have provided us with a simpler solution. They called it "OUR NINETY" which was I690 on our current Gregorian scale. That was in what we call 2014. A purported "year of the Horse". As is 676, 1000 and I690. Our "2014" [I690] was the shar year the Nemesis system was recognized as having arrived in our solar system.

CRABWOOD 2002: WARNINGS ABOUT OUR FUTURE, AND THE BBC LYING

Recently, the mantra from these texts has been regarding the *copying* **of visual elements done in order to fool us.** For us to discern. Here is another example. We have all seen the guy on the left with its binary message... but how many of you have seen the one on the right? How do we discern the difference? Part of one method to detect the difference might be in the *manner of the* presentation. The one on the right is not using the same type of pixels as the "TV" manifestation on the left. They both arrived in 2002. Maybe we need to see which one came first – simply because *"copy-cat"* means copying something already gone before. See the time portal 'worm' **in the right hand** image. Why was this **crop event kept quiet**? Why are "people" trying to say the coin shown here is a hoax? It is a damn good representation given by many others!

An Elder or Guardian from an extraterrestrial civilization involved with the past, present and future of Earth. Illustration by Bradley Heald, 2nd Edition of *CoEvolution* 2nd Edition © 2011 by Alec Newald, available from NEXUS Magazine and Alec Newald - COEVOLUTION.

"SOLARIAN" - recall 5 62 2 "Sol is eastern, Saturnines western" If we accept that the rarely published crop circle with its undeciphered disc compact is an Elder, (produced in the same manner a previous crop circle complex had a Jesus face as a reptile) then that would make the very famous Arecibo message from those dang grey sneaky "influencers". The icing on that cake for me is the representation of Orion's Belt appearing on its shoulder. One thing we have learnt is that there is nothing good which emanates from that direction - loosely titled the Orion Group and their disinformation.

Even thogh Alec Newald had said he was taken to Saturn and saw these Elders there – that does not mean he was told the truth where he had really been taken, or even if they were the real Elders. Just like the George Adamski and the Billy Meier contacts – mixing the truth with misdirection is an art these abductors have conquered. Nostradamus says the Saturnines are running the western hemisphere and we know how *that* is working out!

2 13 3 Some of this has appeared before, re-produced for those who have not seen it at the previous publication. ST. CLAIR'S ILLUMINATI TIME TEAM refer to the previous forum FULLBODY TRANSPORT SYSTEM PATENTC+F+ANDROIDS which is where the title for this forum came from. The androgyne (a form of grey) which gave John St Clair details. Re-iterating here that this is proof "time travel was [NOT] invented in 2028". A mantra duplicated by many false time travellers seen in youtube entertainment. Quite obviously the google.com entity has the patent, published in February 2018 by the collator. If they have released the patent they are well and truly using the equipment. (We already have learned that the elite are "manipulating timelines for profit" in 7 73 1 - a quatrain found among three 'books' "rendered to Vulcan" when workers were renovating the fireplace in the home of the doctor.) There are seven main "conduits" for travelling in time. A contact former employee of Eschalon informs me there are actually more than seven now, no doubt, abilities provided in the "exchange for technology treaty" programs. This is stated by Nostradamus in the forum IS, CAN BE, SEVEN CONDUITS, SOME USED. At the time that pdf had been published I had received only five of these visits. The last was July 2nd 2017, which I caught on camera. It has finally come to my mind the very reason for the eight time gate visits received by myself (with my son in law sitting next to me during one of them) was for the "proof of the pudding". Plausible deniability would be one way of putting it. The only visit type not received was a full-body-hugging type where all 17 of the senses would be in full play. Understandably, anyone travelling from 500 years ago would not want to breathe our air, toxic as it is. Reading the RING LORD forum, the explanation is provided by a line which states "first gather vector nearby". 9 58 VitryFranceBretons

Today is April 22 2018

and I just watched a video put out by Steve Quail, in which he is promoting his current book. He went to some length to impress that he alone had produced the video for fear of being edited. Certainly a valid enough concern.

This is being brought to your attention, not because he might be plagiarising the idea – heavens!, the mere thought that the legendary childrens' rhyme contains some truth is fearful enough! Moreso because I find it fascinating that he had the same thought I did about it and its source. In it [his new book] he describes word for word the Fee Fie Fo Fum line that I published July 3 2016, in the pdf - forum "Adriatique – Antechrist, Charles".

While seeking something else amongst my files – I came across the line here which had been published in the pre-2012 website. Back before 2012 the message in this line was not the same message it means to us today with the likes of the *"accidental spillages"* of toxic by-products and the crude oil itself into streams and rivers of life-dependent fresh waterways.

If you are a living breathing human-being on this planet today, with access to various social media paths – you will have heard of the CEO of Nestlé's statement that "humans do not have a right to [fresh] water]". Yet no-one has the gumprtion to rise and get to the bottom of that statement. All they do is complain. IF *the humans* (lets us call them Earthlings) delved more into this comment, they might find how this CEO thinks he is right. First off, we all should know he *is not* an Earthling. He is the product of hybridizing fallen-angel blood with something that once was ours.

This tiny detail may even be what the abduction-probing, early-abortion E.T. agenda was about; back since (and prior to) the 1940s. That CEO is the age now when he could possibly *be one of those* early embroyo extractions. We have seen that the message in Chani's texts here included the fact the Cassiopeian-Elohim Alliances do some of the same or similar off worlder cross breeding with Earthling blood (DNA) – for the purposes of *improving* on the current Earthling format (and who can argue that we do not need "improving"!) For one thing, the Living Library is losing her bio-spheres which maintain Life. The current format of Earthling is not constructed to deal with the new upcoming Earth, strange and different as it will be.

What happened prior to the 1940s ? you might ask (as you should).

The Off World 1933 false "treaties" with a cloned F.D.R. is what happened. Clauses within those ongoing "treaties" renewable every nine years were upgraded as and when Earthlings became dependant on the technologies our "scientists" mysteriously managed to "discover" every time we have accepted each new technology as "normal". Thus- somewhere amongst those clauses, we have been sold out, not only our future generations "traded" for that technology, but the very biospheres without which we cannot survive in our current format, that was traded too. THIS is why that CEO mocks us as he talks down to us about our "rights".

The food – altered and manipulated to look like food (that is their *forté*– changing appearances, just as David Icke says). The air – via chemtrails and combustion engines, and the water, an element we are actually part of, being scientifically understood as composed by some very high percentage. Somewhere between 70 and 80 percent. So, if we are eating polluted food, breathing polluted air, drinking polluted water, and surrounding ourselves with polluted electricity – what then will we become?

Here is that line I found: 3 34 1 *Quand le defaut du foleil lors fera,* When the eclipse of the sun will then be, quatrain continues, applying to nowadays : The monster will be seen in full day: Quite otherwise will one ^{they} interpret it. "According to multiple sources, world leaders have already established contact with otherworldly intelligent beings and are now governing the Earth in accordance with a universal pact between many advanced races residing in the universe." See how they are beginning to cover their tracks regarding those deadly "treaties"? They have reached a stage where full disclosure is about to reveal the "treaties" were actually performed – and they are hoping the details will not come to light http://hidden-mag.com/mars-is-inhabited-by-humans-and-we-have-a-secret-pact-with-aliens-space-activist-reveals/

recall in past forums chemical details such as Ascorbic acid (made from a mold) and used as a preservative calling it Vitamin C, plus E211 Sodium benzoate; when combined above 30 degrees Celsius (we are 37) becomes Benzene in the gut. Benzene causes leukaemia. EVERY single "soft drink" contains these two. REAL Vitamin C is Sodium ascorbate

Original Aramaic Lords Prayer

From Lee Freeman II:

The Lord's Prayer "Oh Thou, from whom the breath of life comes, Which fills all realms of light vibration and sound. May Thou Light be experienced in my utmost holiest. Thou Heavenly Domain approaches. Let Thou Will come true – in the universe $^{(all that vibrates)}$ Just as on Earth, (which is material and dense) as it is in heaven. Give us Wisdom (understanding, assistance) for our daily need, Detach the fetters of faults that bind us, (karma) as we let go the guilt of others... (materialism, common temptations) Let us not be lost in superficial things, but let us be freed from that what keeps us from our true Purpose. From You comes the all-working Will, the lively strength to act, the Song* that beautifies all, and renews itself from age to age. Sealed in trust, faith and truth. (I confirm with my entire being)

*Song that beautifies all is the frequencies of DNA which provide our aura
