

## ANDROGYNE, DOREAN ~ PART THREE

removed from *ANDROGYNE, DOREAN SMARTSUITS Part Two* June 30 2018

due to too many pages

Raising the subject of **good cop ~ bad cop...** but first a few things to store in the frontal lobes. We were “made in their image” minus a few minor details, like immortality and full cellular memory.<sup>1endnotes</sup> Many reasons for this: the least of which humanity would have overrun and outnumbered its lord-and-master system in very short order. The greater of which; was to be able to *control* the slaves in the system. By imprinting from birth the gods and lords to be “feared” and “obeyed” and calling it “religious belief” as dogma. Over many millenia and some upgrading of the common-sense factor (intelligence), we have begun to see that which should be obvious (to some anyway).<sup>1endnotes C+F+endnotes</sup>

**The idea that religions can create happiness...**

**The paradigm that we need a system of hierarchy...**

**The thinking that we cannot survive without a money system...**

**The belief that we have enemies everywhere – why is that?** Competing, being competitive translates to being the bully on the block. That at all times *someone* must scramble to the top. Yeah – *that* is peace-ful! Not. So ~ we have all become a *Game of Charades* for those gods. “God” refers to *other gods* in the bibles. How come? What was once called a Dog and Pony show, that’s how come. Just like Pavlov’s puppies, we dance to the puppeteers’ tune. All the while doing the same things and expecting different results.<sup>other gods Exodus 12:12</sup>

It really is a case of *Garbage-in-garbage out*, yet the gods know full well all of this! This is *why* they invent wars. Playing cat & mouse with our [lack of] intellect. The seven sins were instilled for a reason – for we humans to teach ourselves to reject them. Not many *homo sapiens* do.

So, when a “good guy” approaches our “leaders” (full of those seven sins) and offers a way out – how many of our sinful “leaders” took that Opportunity. None, not one. Why was that? Because it meant not making money out of the deal, it meant not raping and pillaging the blue planet for personal profit. It meant no individual would gain more than another.

That was why the puppeteers made the offer! Knowing full well that our “leaders” were serving-self.

So along comes Valiant Thor and entourage from Venus. Providing helpful guidance with an element of Truth within – knowing full well that the “leaders” of humans (clones as they were) would take a year to “think about the deal” - then knock it back. All that technology! The carrot at the end of the longterm profitable stick.

Keeping in mind these same visitors have time travel, *produced Revelation*, live forever, and, like Enlil, are bitter and twisted having suffered “jealousy” and “wrathfulness” requiring us to *fear* him, and admitted it.

Thus: there are a tiny few hints in the following video which give their game away.

One that struck me about three parts thru the video was Valiant Thor’s comment (attitude) towards the fate of those who treated their fellow mankind as they did. We, [the “leaders” on our behalf] with our own tiny reptilian brains, agreed whole-heartedly with the sentiment he offered. Putting no further thought into why it was said. I will leave that think-ing with you.

The final point to be made is that of the Off Worlders underground, who control, the boundaries of the western hemisphere - **have been shooting other Off Worlders with better intentions towards humanity**, out of the western skies. They have been doing that since (according to records) 1864.

**This little detail has meant the ones with good intentions have had to resort to time gates to come and go, but those with scout craft, such as the one Valiant Thor used, were “safe” to come and go! That Includes [the same] craft which visited George Adamski, Billy Meier and others. See the difference?**

Alex Collier, David Huggins, Jim Sparks, Linda Porter and the rest (including NostraDamus and myself) do not receive the space craft visitors – we are “huxed” (being “fished for”) as Da Vinci put it, ‘picked up’ via time gates.

**Valiant Thor and Company can do it too, of course – but – where would the fanfare be if they travelled like that?**

**After all – the very last thing they wanted when first they came was for the mere plebian-prole to know that there is such a thing as using time dimensions to “travel”! And still do – up until their googledotcom published the patent.\***

Re-iterating about all those videos showing erstwhile “time travellers” from such and such a ridiculous period as far in the future as over 6,000 [AD]. Supposedly arriving here in our times to tell us that time travel “was invented in 2028” (*a date they all stick to*); when all along time travel has been available (sometimes accidentally) forever. Particularly when in February 2018, google made public the successfully gained patent dated Sept. 29 2004, for the *FULL BODY TRANSPORT SYSTEM* pre-empting anyone else with the same idea. <sup>★ top of next page</sup>

**To conclude:** in the following video – **all the beautiful and lovely things that did happen to some people** in the western hemisphere, only to be “harrassed by the g\_bberment” was a dog and pony show. The truth of this was when Frank Stranges (the narrator) says near the end that he is “very active in the **Ashtar Command**”.

First: Ashtar-Eshdar is Ishtar, is KALI. And second, the word *COMMAND* is *reptilian*, the *very opposite of Self-Will*. previously unseen footage of Valian Thor at 9:57. The fact they were “working at the Pentagon” should be a pointer

**all the beautiful and lovely things Valiant Thor said = good cop**

**“harrassed by the g\_bberment” = bad cop**

**and Who runs the Shadow of the shadowed (elite) g\_bberment? Anakim bloodlines (house) – That’s Who. The Fallen Angels**

LOOK FAMILIAR? THESE ARE ALL SAID TO BE SHOTS TAKEN OF VALIANT THOR AND COMPANY ARRIVING FROM VENUS. SO HOW COME THEY ARE IN THE SAME CRAFT THAT VISITED BILLY MEIER? THE ONES SAID TO BE FROM THE PLEIADES? Number 2 is a more modern upgraded version of the vril craft Admiral Byrd experienced at Antarctica. They are ALL Vril craft. The one on the right – number 4, has been said to be from Sirius. Recall Alex Collier's warning – "the first to arrive will be from Sirius, they are full of \_ \_it." From what I can make out; of all the collections of information I have seen since 2006: including the hidden texts: – these are ALL from Sirius, but based under Antarctica. This is *not to say* these visitors do not go to or are camped at Venus, Mars, Io, Saturn and others.

**Helen Parks at 25:15** the narrator says something truly interesting. "any source of energy which creates heat is destructive. Any source of energy which creates coolness is positive". Good Cop; (anyone who tries to introduce cool energy gets "suicided"). They WERE working at the pentagon - past tense – and what does the pentagon *do*? It is in charge of *warfare with emphasis on financing warfare and engendering it*. That is, *inventing it*. What does he said that Valiant Thor (Thor = god of storms) was at the pentagon to try and *prevent* wars.<sup>C+F+1 82.4</sup> One would think an off worlder with an unmeasurable Intelligence Quotient would be able to circumvent any need for warring when dealing with redneck humans intent on destruction. Did he, as a Copiest, fall back on that old cliché – that humans are to be allowed Free Will? As dad used to say "Poor Will" (meaning Willie/William, because soldiers were ordered to "fire at will"). Phil Schneider had said the IQ of Valiant Thor was thought to be "at least 1200" and 12 is an Anakim base number. Somehow I do not think that was a coincidence.

All very confusing to me - due to the added issue of cloning throughout the decades - this all seems to me to be a wolf in sheep's clothing - at the *enth* degree. Particularly, that the guidance from Valiant Thor as to the placing of "safe" nuclear energy plants turned out to be all right on top of Earth's fault lines! According to Phil Schneider, Valiant Thor had been working with the military industrial intelligence (and media) complex for "58 years". If you go surfing around most websites (parroting each other) you will see they admit to visitors from Venus who arrived in Alexandria Virginia, March 16 1957 "leaving the U.S. in 1960." Then in other web sites you will see them say Valiant Thor *is still living* in the U.S.A. "hiding from the C I A". Since he names himself "Commander Valiant Thor" immediately we can comprehend he is working *within a military forces* paradigm. It is much more likely that he is *running* the alphabet group agencies. How did they know to raid Noah's Ark? What it was? And Where? Why would Venus need a military?

If using thoseconspiracyguys website to learn about Valiant Thor, the person they have ringed in red is actually Phil Schneider's father! That is something you can check for yourself, simply by watching the above video and comparing.

I was told to "study astrionics" (6 78<sup>1</sup>, 10 76<sup>2</sup>, 3 38<sup>3</sup>, 7 12<sup>3</sup>, 7 13<sup>3</sup>, 4 72<sup>4</sup>, which you can check in the *Template of Quatreins*) in order to be able to judge the reality of those who are using the different propulsion systems in their craft. Long story short - Adamski *et alia* were visited by Vril Craft - and those that came out of those craft said they were "from Venus" and sometimes "from Pleiades". Many problems with both those answers. Because: Atlas, Alcyone and Maia have been fully infiltrated by reptilian interests (and DNA) and we know them as the "fallen angels" plus the real Plejeran cannot be *anywhere near* humans, neither physically nor psychically.

**at 34:03** speaking of the "2 lights coming from North to south and 2 from east to west" that is exactly what I saw the night of the imploding "moonship" as they called it. I might point out, this was the occasion of the "overloaded support system" (2 72) of that moonship, and the event of the "pliomorphous android" stating that "souls are too good for humans". *One Sent to Die Unique of all Deaths* That happened 8 35pm Sept. 19<sup>th</sup> 2011 just north of Canberra, and can be found on Astronomical searches.

**at 34:49** – Stranges says the Navy *has controlling influence* here. THAT IS EXACTLY what the hidden texts are saying. It took me a while to understand that E'Yah (EnKi) is the "Lord of Earth and Waters". This is a good thing, since the concern for E'Yah is the loss of trees; and chemtrail damage to the "mucilage" as they call it. The biospheres. The chemtrails agenda is from Sirius.B. **at 42:33** Stranges says "they are not working with Putin nor Trump". The Putin involved *is the western hemisphere's* own clone of him [Putin], and the same for Trump (according to the texts) which then makes me wonder why "they" could not just say that, had they been the 'goodies'. Instead of "they do not have integrity".

We can see for our own eyes what the clones appear like and what the real one looks like - more wrinkles for starters. The other reason they might not be "working with Putin or Trump" *is because the Off Worlders with Good Intentions are!* Judge them by what *they are doing* – both Putin and Trump! We need only look at the clones to see they are "wrinkle-free".

**at 44:28** ALBERT COE 1920 **abductee** – to research: (mentions "from 1904" and that happens to be the year Crowley wrote The Law Of One) mentions Xretsim = MisterX, as 'Zret', speaks of "came from Venus but began in Tau Ceti". With Vril craft. Mentions "stand clear while taking off" which "Tau Cetian" Zo did to "William," *earthfiles interview* & "3 legged craft" Casseopean **at 1:34:40** Frank Stranges describes the suit offered by the bronze skinned, (one was purple skinned,) violet eyed ones to a medium, Barbara. These "bronze skinned" ones could be the "TAN" ones in the texts.

Towards the end of the video, around 1:42:00, Stranges says he is very active in the Ashtar Command. This group has been infiltrated for some time by reptilian {DNA} hence the name "COMMAND", which is a warrior term.

**at 1:43:00** "visited by C I A," <sup>run by ET</sup> "you can release anything, except; about the J F K assassination":

Now, what does THAT tell you? PHIL SCHNEIDER 1 Hr and 9 minutes <https://www.youtube.com/watch?v=S3qSkTAJiz8>

1. it is by their craft we will know them 2) because our "leaders" have some of these IRONIC craft to use in an IRONIC manner

The word IRONIC here is more than a hint that it speaks of *metallic based* unidentified flying objects, because there are unidentified flying objects which *are not based* on metals of any kind. Indeed it is ironic that for the best part of the 20th century millions of humans have witnessed objects flying in the skies at stupendous speeds, blinking in and out of our reality – only to be publicly scoffed, scorned & humiliated for speaking out loud about their experiences. Being told by the "experts" in mental health that they are mentally unsound. We all know what an *expert* is don't we! A drip under pressure. That includes modern 'doctors'. The *real* irony is that many of those flying craft were OURS/ made by *your* tax dollars using technology provided by the off worlders – in ILLEGAL agreements to exchange that technology for what was originally in the "treaties" *trade in men*, but has become *trade in children*. And do not for one moment think that the thick-necked military leaders were receiving any technology that might in *any way* defeat those off worlders! The military industrial media complex may believe now that they have scalar and sasar weapons (the Medusine Device) that they can defend themselves with those technologies and use them *against* any off worlders. It is certain that the Off Worlders have their own means of defending themselves against anything they may have allowed the I.M.M.C. **For instance : the off worlders have their own infiltrated copies of military leaders within the ranks.**

It seems to be taking up the time period that would normally have been Sagittarius

Recently an article was published at the Hidden Texts website about the White Horse of  
Uffington being Sagittarius complete with Corona and the sprung bow – a big X in front  
of the astronomical sign, albeit not outlined in white, but it is there

Using screenshot has its visual limitations. My suggestion is that you ‘google’ “St John The Divine Cathedral at New York Columns”  
and go straight to IMAGES. This is not the only amazing column there. You know how this information was found (cronor visor)  
and you know that shows only one possible timeline. That in 1991, the Mandela Effect had not yet happened, and that using a  
cronor visor will tell no one what the *real date* is they are seeing. My own experience of having the docteur appear in my living  
room provided only one clue as to what date he had come from. That was *the clothes* in which he stood. Being *the fashion* of the  
6<sup>th</sup> Century, the 500s. We *do have* a parallel exclamation from the fifth century (400s) when Da Vinci had commented “he just  
appeared in the artists studio, wearing stockings”. One would think he meant that the apparition was wearing only stockings!  
Nothing is said in vain when it comes from Da Vinci.

That statement was made specifically for someone in *his future* to recognise the “cue”, as he put it.  
To have someone “just arrive” in one’s work area, wearing clothes *from a future* fashion, startling to Da Vinci because  
hosiery in his day was *underwear*. It was, after all, a mini ice age. However, in the ensuing century from Da Vinci’s day  
in the 400’s (i452 to i519) to that of NostraDamus, (i503 to i566), hosiery had become high fashion!  
Nothing new under the sun, is there!

Just in the short decades between 1920 and 1960, *well hidden* underwear went to semi-naked yellow-polka-dot bikinis.  
Anyone remember the tremendous front page news in 1964 when Jean Shrimpton took her hemline up four inches?.

The world of fashion went ballistic.  
To me, it is rather ironic that in all their twisted attempts to mislead us regarding *the when & the where* of what we all might  
*be truly* experiencing:- fail- due to the one thing that glues humanity: *the sexual attraction which controls us like magnets*, in  
order for the race to procreate. To keep this titillating attraction viable, *we use our outward appearances, which has always*  
included what we wear. We can even judge the ‘period’ in old photographs using this knowledge. Hairstyles, wigs, footwear &  
bare painted nipples during Roman times – we never stay the same. Never. And now, they are *de-sexualising* the human race!  
(The year Henry VIII died i547 is the same year Henri II began his reign. Same fashions. We often get misled by numbers 8 or 2)

before 2018 orbit ends **THE AGE CHANGES** a long time ago, while on my earlier/steeper learning curve I watched  
 a video called **QUANTUM ASTROLOGY** by Rick Levine. In it I learned that astrological events, such as a line up of  
 planets which *compounds their influence,* will see us on Earth affected by that event one orbit later!  
 Therefore line three is correct. "Under eighteen" also becomes at the end of that orbit/year = 2019.

We will know come October 2019, because the words for Libra in October are so frequent throughout the PIG lines & say it all begins following directed energy fires as a “cue” (see *WHAT ARE THE CHANCES*). Today is July 30 2018 so I must motivate my task. One hopes however, that it means October of 2019 and not 2018 giving people the chance to get their “stepped root cellar” going

Sadly this last week in July 2018 has seen the directed energy weapons ramped up and “wildfires” repeated worldwide, began in Greece, Boreal (named in these texts as follows) and California – with the false media sticking to their wildfire story. Have any of you begun your “stepped cellar” for root vegetables? We can eat root vegetables raw, ALL OF THEM.

A while back, Da Vinci added for us while we are “*living like a mouse*”, that we need to be careful about the use of lighting, because it will attract unwanted entities. The period of hiding like a mouse was 7 months. A fb friend suggested everyone will be able to see using night goggles. One website I recommend is ALL OUTDOOR which has diverse articles from how to make your own gun to what plants are safe to eat. They have directions to supplies of night vision ware and much more. The MAIN problem with living for 7 months partly underground will be the cooking of food, and the topic of fresh water.

At this juncture I am going to have a little gripe. There is a reason for my upcoming rant. Here it is:

Many people on fb are parroting those who rise themselves above others, use misguided concepts, gain extensive (useless) “followings”; using their monstrous ego and commonly asking for money to continue their “services”.

They rave on about new age stuff, awakening one’s “spiritual concerns” and “empowering” oneself. Often in their repertoire will be seen the words “we are in the Age of Aquarius, the age of humanitarianism”.

This is misleading and causes false hopes. People think they need to do nothing except meditate on ‘improving oneself’ The Age of Aquarius is still at least 700 years away, not much good to you and me!

What are the alternatives for us?

To become pragmatic. To see things for what they really are and to act accordingly!

Instead of the stock answer I get all the time when I publish “today’s find” – that I am using “fear porn”.

How constructive is it to retort “you are a fear monger” when all along, as Dan Brown said “we fear *what we do not* know”.

MAN’S RIBS OIL TRIBES GOBLINS FLEETS STROBE ILL N.TO S. BOLSTERING INSOLATING: **BOILS SEAS**

- **FALSE FLEAS** – if one had not read Da Vinci’s riddles this statement would fly high over one’s head. The FLEAS TALE is about the grass being greener on the other side. This gave me a laugh here, that the elites’, no matter how hard they try to “be gods in God’s world” with their eyes forever on the “greener grass” will get to see their failure in finding it. First they in collaboration with Off Worlders who DO see the “greener grass” (and want to turn it into a desert) are going for the land grab by firing sasar and scalar weapons from satellites, from drones or from their Identified Flying Objects onto humanity in their dwellings; oblivious of the peril above. It seems that all those homes with smart meters attached are targeted. We can see with our own eyes that the properties of the elite are not being affected by the “darts from the skies” while all around them cars are melting into the streets. Having lost everything the majority of the newly homeless are herding themselves into FEMA ‘camps’. There to become baseless experiments for the new Nazis, who actually won WWII.
- **BOREAL SIGNS**: yes, the “wildfires: have begun there, destroying that which was uniquely “boreal”
- **MAN’S RIBS** – and another pun! Adam’s tribes. But not the Adam we know, for here “MAN” means Mannuz, as it does in the bibles, Mannuz (I AM) being the sky Rune for Orion. So, when saying, the Son of Man... anyway, these OIL TRIBES are those which anoint themselves with “axunge” (animal lipids) being the manner in which they refuel themselves. Being GOBLINS they are androgyn/greys or Reptoids. Here it is their FLEETS which STROBE the streets.
- **BOLSTERING INSOLATING**: using via weather-war machinery, extreme heat with help from the sun (SOL) so that they can use the strange extreme heat for the “wildfire” excuse. They do not want us to know this is a form of invasion!

My answer to Linol Anderson regarding his "king Plachacha of the Pleiadians". ....

if you hear people saying "Hitler was misunderstood" and other ideas about "Hitler trying to do good" ~ ask yourself this question : if Hitler was trying to 'do good', why then did these texts say "HOCUSSED HITLER" and never allowed him to successfully find the Triple Method? Why deny a man trying to do good when he was seeking the hidden ciphers of NostraDamus? In the same lettre #32 where the docteur writes about the Triple Method, he mentions Kraft (Krafft) and Parcs. Kraftt was working very hard for Hitler to find the codes and came perilously close. The 'Parks' who 'picked up the mandate and ran with it' could have been any one of the four "Parks" ( there is a fifth person named Parks now doing similar 'work') along with Simon, Anton, Jim and Helen.

Since these texts, in the Template, clearly said UUE HOCUSSED HITLER 4 26 3. My question to the trendies is this: if Hitler was so good for the planet, why did the likes of Chani feel so happy about hoccusing him, when denying Krafft the means to find the Triple Method? Krafft is named in Letters 31 & 32, as is Parcs.

It is true I absolutely desired to "understand the quatrains more fully", and did perform my lay apprentice ship between 2006 and 2012, but I certainly had no idea I would accidentally find the Triple Method! Having no hint that the directives that were within the Template to compile the Bibliography named there, (☺ read them) to compile the Alkhemye List (from sources they provided) to study Celtic Zodiac clues, Vinca Runes ☺ collate in unison the Runic Skies that Allan Webber had found :- would all result in discovering The Triple Method.

The very thing Ernst Krafft and Hitler were seeking no matter how much money they threw at the task.

The words "triple method" (☺ "ring") did not cross my pathway until August 2012 when reading the correspondences of NostraDamus. Forcing me to shut down the original Website and open a new one.

The six years between 2006 and 2012 were in the main learning about computers – without which neither Allan Webber programming the anagrams, nor myself would have been able to accomplish much. The first time-gate visits in January 2009 and Easter 2009 did let me know this was no game, that someone was quite serious about my learning curve!

C+F+WAVE (and UUAVE)

I believe many quatrains above refer to the crop circle seen in 2002 which I termed “Paul LaViolette’s ether waves” or Chani’s ‘sonicboom’.

Noting that is a *huge* Golden Cube and *not* our sun.

The one top left has a very large “atmosphere” so is not the Earth, or it could be our sun with Nemesis in front of it.

The tiny object is Earth – casting a shadow, or being moved.

If it is Earth – it is closer to the viewer in perspective therefore not on her normal orbit.

This cropcircle relates to ASCENSION which these texts have been telling us refers to not only Earth, but the entire solar system. Noting in the following discourse it is *our sun* (with its followers) which is doing the moving.

**Just days before his death on December 27, 1944, well known Bulgarian mystic [Peter Deunov](#) had a vision which inspired him to relate a prophecy of what was in store for the human race in the century that was to follow.**

Deunov, also known to Bulgarians by his spiritual name **Beinsa Douno**, was a philosopher, musician and spiritual teacher who developed a form of esoteric Christianity. Curiously, his prophecy anticipated in great detail the concept of a superwave which he predicted was to purify the Earth in the very near future and not only bring about tremendous geological transformation, but also spiritually change the world, bringing into being a new human race, the “sixth race.” One would do well to read his amazing prophecy which is related in this four page document which is an adaptation written by Olivier de Rouvroy – September 2003:

<http://www.progressions.info/Peter%20Deunov.pdf>

Alternatively, for a synopsis one can also view the following [enclosed in the Nexus article linked above, titled Our Planet Is On Fire] youtube video which tells a bit about Deunov’s life and narrates highlights of his superwave/human transformation prophecy:

#### **THE MECHANICS OF ASCENSION**

“Peter Deunov begins his prophecy with an accurate reference to a coming Galactic superwave. <sup>See CHANI PROJECT</sup> He states:

“...everybody will soon be subjugated to divine Fire, that will purify and prepare them in regards to the New Era.

Some decades will pass before this Fire will come, that will transform the world by bringing it a new moral.

This immense wave comes from cosmic space and will inundate the entire earth.

All those that attempt to oppose it will be carried off and transferred elsewhere.

Although the inhabitants of this planet do not all find themselves at the same degree of evolution, the new wave will be felt by each one of us. And this transformation will not only touch the Earth, but the ensemble of the entire Cosmos.”

Later he refers to terrestrial upheavals which indicate the occurrence of tremendous climatic and seismic effects. He states:

“There will be floods, hurricanes, gigantic fires and earthquakes that will sweep away everything. Blood will flow in abundance.

There will be revolutions; terrible explosions will resound in numerous regions of the earth.

There where there is earth, water will come, and there where there is water, earth will come.”

Further on he refers to waves of “cosmic electricity” (cosmic ray electrons?) which will sweep the Earth.

Indeed, the main component of a superwave would be its cosmic ray electrons. Here he indicates an ongoing volley:

“The earth will soon be swept by extraordinary rapid waves of Cosmic Electricity.

A few decades from now beings who are bad and lead others astray will not be able to support their intensity.” <sup>DENSITY?</sup>

Deunov also mentions that our solar system is currently traversing an unhealthy dusty region of “contaminated space” called the “13th zone” which was left behind by the destruction of a constellation (or star?):

“Our solar system is now traversing a region of the Cosmos where a constellation that was destroyed left its mark, its dust.

This crossing of a contaminated space is a source of poisoning, not only for the inhabitants of the earth, but for all the inhabitants of the other planets of our galaxy. Only the suns are not affected by the influence of this hostile environment. This region is called “the thirteenth zone”; one also calls it “the zone of contradictions”.

Our planet was enclosed in this region for thousands of years, but finally we are approaching the exit of this space of darkness and we are on the point of attaining a more spiritual region, where more evolved beings live.”

Indeed, just as he prophesies <sup>[sic]</sup> the solar system has for a long period of time, perhaps for the past 3 million years, been passing through the rim of the North Polar Spur supernova remnant, a cloud of dust and gas left from the explosion of a star many millions of years ago. Astronomers acknowledge the presence of dust clouds even contacting the fringe of our solar system. Also most of the long period comets that enter the solar system, that many claim to come from the Öort cloud, actually are part of this interstellar debris field and are entering due to the Sun’s passage through this debris zone. According to the superwave theory I advanced in 1983, the presence of this nearby dust is responsible for why Earth has been going through a sequence of ice ages for the past 3 million years. For millions of years before that time we had no ice ages because we had not entered this dusty zone. For more information consult my [Ph.D. dissertation](#), or read my book [Earth Under Fire Paul LaViolette](#).

Also just as Deunov states, this dusty region is a hazard for many solar systems in our Galactic neighborhood. The NPS supernova remnant is believed to be located about  $400 \pm 200$  light years from the solar system and to have a diameter of  $370 \pm 230$  light years, thus affecting hundreds of thousands of star systems. His contention that it is a source of poisoning is also verified by my own polar ice research. As I have described in my paper recently published in [Advances in Space Research](#) during the past few hundred thousand years, our planet has been subjected to the ongoing entry of tin-rich and lead-rich interstellar dust particles. One such particularly hazardous event, which occurred about 49,000 years ago, caused a hundred thousand fold increase in the rate of cosmic dust influx, produced a global climatic cooling, and increased lead levels in rain water

**10 times higher than the EPA's maximum health hazard limit.** These tin-rich dust particles still enter our stratosphere in small amounts and according to a research group led by Dr. Abbott of Lamont Doherty, one influx of tin-rich and nickel-rich dust occurred as recently as **536 AD** causing a modest climatic cooling and obscuration of the Sun for one or two years. Deunov's prediction that we are about to leave this hazardous region is indeed welcome news.<sup>536 AD was in a mini ice age anyway</sup> What is really very amazing is that Peter Deunov had this vision in 1944 well before much was known about active galaxies and galactic core explosions. Most research on quasars and cosmic ray emitting core explosions began in the 1960's and even as late as the 70's not all astronomers were convinced that the Milky Way's core has previously undergone core explosions." ### Public health fraud: why water fluoridation is one of the greatest crimes against humanity

The mass medication of citizens via water fluoridation may be one of the greatest crimes against humanity taking place today — and it's also one of the most under-reported scandals, too. Daring to speak out about the real facts on fluoride will get you stamped as a "crazy conspiracy theorist," just like questioning vaccine safety or talking about the dangers of glyphosate will get you a fast-pass to being labeled "anti-science." But, even though the cost may be great, a few brave souls are still willing to speak out about the health hazards foisted upon us by the powers that be. Dr. David Kennedy, a biological dentist, [recently called water fluoridation](#) a "public health fraud," and his description couldn't be any more correct.

### Strange: Turkey Moving Against Israel in East Jerusalem

"Look at the "Homestead Movement." It is an indication that **Father *Is*** is hard at work preparing all of us for the coming transition to Fourth Density. **The Homestead Movement** is growing by between 4% to 5% each year. Gardeners and farmers are what the Elders of the Minturian race (the Mantids) are looking for. According to Oswald Spengler, it is agrarian culture that fosters art and music and not "civilization" (this would be true if you consider the idiocy of today's so-called art and music). Technology will exist but we won't be attempting the construction of a robot slave race...you *gnow* what I mean, don't you? There's a big difference between the morals associated with using a plow share or a chest of carpentry tools and the immorality of adapting science and technology to build a slave race. Wouldn't you agree?" M diG.

**One good example of this word-intention was with the word LUX which normally means "glowing" ~ as the Golden Cube certainly does. **In June 2017, physicists achieved 'liquid light' at room temperature for the first time ever, making this strange form of matter more accessible than ever.**

This matter is both a superfluid, which has zero friction and viscosity, and a kind of [Bose-Einstein condensate](#) - sometimes described as the fifth state of matter - and it allows light to actually flow around objects and corners.

**Regular light behaves like a wave, and sometimes like a particle**, always travelling in a straight line.

That's why your eyes can't see around corners or objects. But under extreme conditions, light can also act like a liquid, and actually flow around objects.

Bose-Einstein condensates are interesting to physicists because in this state, the rules switch from [classical to quantum physics](#), and matter starts to take on more wave-like properties.

[They are formed](#) at temperatures close to [absolute zero](#) and exist for only fractions of a second.

But in this study, researchers reported making a Bose-Einstein condensate at room temperature by using a Frankenstein mash-up of light and matter.

"The extraordinary observation in our work is that we have demonstrated that superfluidity can also occur at room-temperature, under ambient conditions, using light-matter particles called polaritons," [said lead researcher](#) Daniele Sanvitto, from the CNR NANOTEC Institute of Nanotechnology in Italy.

Creating polaritons involved some serious equipment and nanoscale engineering.

The scientists sandwiched a 130-nanometre-thick layer of organic molecules between two ultra-reflective mirrors, and blasted it with a 35 femtosecond laser pulse (1 femtosecond is a quadrillionth of a second).

"In this way, we can combine the properties of photons - such as their light effective mass and fast velocity - with strong interactions due to the electrons within the molecules," [said one of the team](#), Stéphane Kéna-Cohen from École Polytechnique de Montreal in Canada.

The resulting 'super liquid' had some strange properties.

Under normal conditions, when liquid flows, it creates ripples and swirls - but that's not the case for a superfluid.

As you can see below, the flow of polaritons is disturbed like waves under regular circumstances, but not in the superfluid:

**The flow of polaritons encounters an obstacle in non-superfluid (top) and superfluid (bottom).**

"In a superfluid, this turbulence is suppressed around obstacles, causing the flow to continue on its way unaltered," [said Kéna-Cohen](#).

[The researchers said](#) the results pave the way not only to new studies of quantum hydrodynamics, but also to room-temperature polariton devices for advanced future technology, such as the production of super-conductive materials for devices such as LEDs, solar panels, and lasers.

"The fact that such an effect is observed under ambient conditions can spark an enormous amount of future work," [said the team](#).

"Not only to study fundamental phenomena related to Bose-Einstein condensates, but also to conceive and design future photonic superfluid-based devices where losses are completely suppressed and new unexpected phenomena can be exploited." The findings were reported in [Nature Physics](#).

The **new magnetic molecule** modelled at Bielefeld University and synthesized at the KIT reveals a spin in its ground state that is as large as that of 120 electrons combined. This makes it the largest spin ever to be observed in a single molecule. ...

### Messages from a Star Traveler

"I had been an asset in the ICC on the Mars ICC Bases as well as the ICC Cybernetic labs on Mars. I am going to connect some of the dots from Altered Carbon to the ICC on Mars:

#### **Soul Transference and Memory Engrams**

1. Soul consciousness transfer technology in the ICC is where the souls are removed from the body with mind review technology, as well as microchips implanted in the subjects that backup the memory engrams of the person in digital databases, or the soul is held in electromagnetic containment fields until it is transferred to a new host. As well the mini microchips are removed from the host's body after they die to keep the memory engrams or if the host is injured and body mind transfer needs to happen.

The soul transfer technology has the ability to remove one individual's soul and transfer it into someone else's body whose soul has been removed to do temporary soul consciousness transfer or to do it on a permanent basis. The mini microchips that store the backed up memory engrams are implanted into people's hands, back of the neck, and sometimes into the brain although that type of brain implantation is risky.

#### **Clones, Augmented Cybernetic Humans, Cyborgs, Cybernetic Labs**

2. On the ICC Cybernetic labs the ICC scientists have various options for building cyborgs by either splicing human body parts with cybernetic tech, implanting cybernetics into full humans to augment them with super strength and agility, creating genetically engineered humans by rebuilding the exact carbon copy of a human with perfect genetic structure, and cloning making multiple copies of a being but that is not a perfect carbon genetically engineered copy. As well as building a completely synthetic cyborg which looks human and has the memory engrams of someone who had been alive. The synthetic cyborgs have the capability to take on any physical features they choose from body height, weight, skin color, hair color, eye color, speech patterns, etc., as well they can look like anyone that they want and also can adapt to having super strength, etc. These synthetic cyborgs act completely human, they can adapt their body temperature to feel warm, cold, they can eat food and drink liquids, their bodies have nanotechnology that allows them to simulate being human and organic.

Life Extension Technologies, Holographic Medical Pods, Meditech Units, Regeneration Tanks, 3D

Holographically Medical Assisted Technology

3. The ICC build holographic medical pods and Meditech units that can regrow (regenerate) body parts, complete age regression, cure diseases, heal wounds, and even bring back individual's from the dead. There are also drug serums designed to prolong life expectancy and age regress individuals. The holographic medical assisted technology allows surgeons to see 3D dimensional body parts and organs in real time on holographic monitors while performing surgery.

#### **Smart Suit Technology**

4. The Smart Suits that the ICC builds are designed to protect the wearer from projectile fire like bullets, lasers, phasers, plasma, etc. There are electromagnetic fields around the smart suits that deflects the projectile fire. These smart suits have nanotechnology embedded within the suits and also the incorporation of thought consciousness assisted technology that allows the wearer to power the smart suit with their mind. The smart suits have the ability to mimic clothing, change the molecular structures of the body to control bio waste so there is no need for going to the bathroom, amplify agility and strength, speed. Smart suits also create cloaking and invincibility fields that can only be disrupted with high dosage of voltage electricity before the electromagnetic fields around the smart suit are re-calibrated and even a higher dosage of electricity is needed next time to disrupt the cloaking of the suits to make someone visible. These smart suits allow the wearer to walk through solid and physical matter, allow for levitation & space flight capability, holographic interfaces with computers & digital data bases, communications between com units or ship communications, adjust bodily functions for optimum health levels, heal injuries, and provide food nutrients and supplements to the body to keep it alive and healthy. The thought consciousness assisted technology allows the wearer of the smart suits to provide mind commands to the suit in order to teleport the individual wearing the smart suit off planet for close planet to planet transfer like for example from Earth to Mars, during teleportation the individuals molecules are dematerialized and then materialize after the teleportation has been achieved, this happens with the smart suits adjustment of bodily molecular functions to create transport functionality.

While being in space flight the wearer of the smart suit would put on a helmet that is equipped with a mini microchip holographically adapted super computer that interacts with the smart suit to make the suit an environmental suit monitoring oxygen levels and providing adequate oxygen supply to the body while in space flight without needing a space ship to do short planet to planet flight. The smart suit protects against space radiation, and space debris acting as body armor with its electromagnetic fields which deflect & repel any harmful outer space deterrents. These smart suits are often reverse engineered from advanced extraterrestrial technologies.

#### **Torture of children, young adults, and adults, with sex abuse and Slavery (An Aldebaran Paradigm)**

**The ICC uses various torture and blackmail techniques on its assets to keep them in line, it abuses children and**

## **young adults selling them as sex slaves or bargaining tools with extraterrestrials, as well as using adults to create cyborgs, scouts, and soldiers.**

I saw young children on the Mars Colonies being taught how to use technology at a young age. The children were always accompanied by guards at the colonies and bases, never being allowed to go anywhere on their own or outside the facilities where they were being kept. I never personally saw the children being abused as sex slaves but it is common practice for them to be sold off to handlers as pets, be tortured, brutally mutilated and killed, especially the young adults.

The ICC assets did participate in sex orgies and ménage à trois in order to be able to raise their life force energies and as part of spiritual ritual practices, the more vibrational life force energies someone could psychically siphon from other SSP assets the more powerful and strong you would be to be able to survive as an SSP asset.

Differences between classes of people between the Elites Upper Class, Middle Class, and Lower class of citizens

### **(A reptilian paradigm)**

The ICC abducts and indoctrinates people from Earth as well as from the Mars colonies to be its unwilling assets who are implanted either with microchips or the neurolink implants in order to track the assets through real time audio and video monitoring of what the assets experience in their daily lives, everything is always recorded and transmitted to the ICC handlers or supervisors. ICC assets do their work on the ICC Mars Bases, in the Cybernetic Labs, on the ICC Space Station Orbital Platforms and it is a military type setting with strict rules for behavior, no personal interaction with coworkers, and no fraternization with extraterrestrials that are the alien/human hybrids working with human assets on the various ICC facilities on planets and out in space. Freedom is very limited it's all work and only minor time off for leisurely activities. The ICC assets usually do work parameter project duties for several years in a job task setting and after several years are transferred to other departments and ICC facilities for different work assignments for several years, before other job rotations happen again. ICC assets have access to the holographic medical pods and meditech units to be healed and cured of diseases while they work for the ICC, once they are released from asset services their memories of being an ICC asset are blank slated and they no longer have access to the advanced healing technologies so whatever medical problems they had before becoming ICC assets or after service, the medical problems become apparent again.

### **Planetary Corporations and the Secret Space Programs**

The technology the SSP programs have gotten from ET's [in exchange for human cyborg slaves] is beyond the belief structure of Earth based humans. This is just the tip of the iceberg:

- Time travel through man-made time dilation portals and clock works devices or through naturally opening energetic portals that open on planets these are activated with SSP Asset psychic abilities
- Soul transference between bodies, with soul trap technologies operated by electromagnetic stasis fields
- Regeneration that can bring you back from the dead, regeneration tanks with different green and blue goos, holographic medical pods, and portable meditech units
- Personal cloaking devices, smart suits with electromagnetic fields to shield again energy weapons and projectile bullets
- Devices that allow SSP Assets to alter their DNA and genetic body structures on the molecular level to temporarily transform into other ET's and have their genetic stalk in your body's system. This can be achieved with drug serums or shape shifting devices.
- Personal portal tech like star gate platforms or naturally opening teleportation portals that are opened with psychic abilities
- Directed Energy Weapons that cause internal bleeding or cancer these weapons have invisible laser frequency fields
- Warp drives and crystalline based engines or plasma cores to travel beyond the speed of light or for inter-dimensional travel
- Access to the wormhole system of the galaxy or the cosmic web of space teleportation energy transfer hubs
- Replicators for food or any other 3D material you want
- Zero Point energy and clean energy that can remove pollution, and terraform planets or moon systems

#### **MOLECULAR KNOT OF DNA**

" The discovery of what's described as a 'twisted knot' of DNA in living cells confirms our complex genetic code is crafted with more intricate symmetry than just the double helix structure everybody associates with DNA – and the forms these molecular variants take affect how our biology functions.

"When most of us think of DNA, we think of the double helix," says antibody therapeutics researcher Daniel Christ from the Garvan Institute of Medical Research in Australia.

"This new research reminds us that totally different DNA structures exist – and could well be important for our cells."

The new DNA component the team identified is called the intercalated motif (i-motif) structure, which was first discovered by researchers in the 1990s, but up until now had only ever been witnessed in vitro, not in living cells.

Now, thanks to Christ's team, we know the i-motif occurs naturally in human cells, meaning the structure's significance to cell biology – which has previously been called into question, given it had only been demonstrated in the lab – demands new attention from researchers.

If your only familiarity with DNA shapes is the dual helical spirals made famous by Watson and Crick, the configuration of the intercalated motif could come as a surprise.

"The i-motif is a four-stranded 'knot' of DNA," explains genomicist Marcel Dinger, who co-led the research.

"In the knot structure, C [cytosine] letters on the same strand of DNA bind to each other – so this is very different from a double helix, where 'letters' on opposite strands recognise each other, and where Cs bind to Gs [guanines]."

According to Garvan's Mahdi Zeraati, the first author of the new study, the i-motif is only one of a number of DNA structures that don't take the double helix form – including A-DNA, Z-DNA, triplex DNA and Cruciform DNA – and which could also exist in our cells.

Another kind of DNA structure, called G-quadruplex (G4) DNA, was first visualised by researchers in human cells in 2013, who made use of an engineered antibody to reveal the G4 within cells.

In the new study, Zeraati and fellow researchers employed the same kind of technique, developing an antibody fragment (called iMab) that could specifically recognise and bind to i-motifs.

In doing so, it highlighted their location in the cell with an immunofluorescent glow.

"What excited us most is that we could see the green spots – the i-motifs – appearing and disappearing over time, so we know that they are forming, dissolving and forming again," says Zeraati.

While there's still a lot to learn about how the i-motif structure functions, the findings indicate that transient i-motifs generally form late in a cell's 'life cycle' – specifically called the late G1 phase, when DNA is being actively 'read'.

The i-motifs also tend to appear in what are known as 'promoter' regions – areas of DNA that control whether genes are switched on or off – and in telomeres, genetic markers associated with ageing.

"We think the coming and going of the i-motifs is a clue to what they do," says Zeraati.

"It seems likely that they are there to help switch genes on or off, and to affect whether a gene is actively read or not."

Now that we definitively know this new form of DNA exists in cells, it'll give researchers a mandate to figure out just what these structures are doing inside our bodies.

The findings are reported in Nature Chemistry.

[Largest molecular spin found close to a quantum phase transition](#)

Nine scientists at Bielefeld University, the KIT, the University of Magdeburg, and the University di Modena e Reggio Emilia (Italy) were involved in the studies. Every single electron possesses a quantum mechanical intrinsic angular momentum, also called spin. The new magnetic molecule modelled at Bielefeld University and synthesized at the KIT reveals a spin in its ground state that is as large as that of 120 electrons combined. This makes it the largest spin ever to be observed in a single molecule. ...

## Medical

"Over 50 million Americans suffer from severe heart disease. Autopsies show that almost every child **over the age of 4 already has incipient to severe cardiac problem**. Heart specialists say everyone over 30 has some form of heart disease. The danger of fats toils is from being fractionated, cooked, hydrogenated, refined, and even "cold pressed" Cooked, heat processed oils are generally impossible to metabolize. Such oils are **corrupted at the molecular level and deadly**.

Vegetable oils are processed with gasoline solvent, sodium hydroxide (Draino, caustic soda), phosphoric acid, bleach and other toxins. They contain residues of these deadly chemicals along with abnormal, misshapen, manmade oil molecules ("traps fat"). In extracting and processing, oils are exposed to light, oxygen, heat, and (as with supermarket oils) chemical solvents. All these degrade the oil. When oils are overheated (cooked/fried) and used for too long, as the case with oils at fastfood restaurants, they become oxidized, loaded with damaging free radicals."

**Refined white salt is protoplasmic poison.**

**Celtic sea salt.** This moist, never dried, genuine "gray whole ocean salt" is actually healthy!

It actually normalizes blood pressure! Doctors in Europe regularly prescribe it for many diseases, for it is full of assimilable minerals, and supplies a substantial part of the trace elements missing from today's supermarket produce.

**Caramel is prepared from ammonia; it is suspected in the manifestation of some retinal disorders in children.**

Have a frothy, delicious, chilled glass of Ethyl Methyl phenylglycidate

**It tastes just like strawberries.** This clear, liquid chemical artificially imparts a very berry taste to ice cream, beverages, candy, gum, and other delights when not being used in perfumes. It's even listed as GRAS (Generally Recognized As Safe), even though it retards the growth of rats and atrophies their testicles, and paralyzes the muscles of female rats.'

ELIMINATING FRANKENFOODS: WHAT CAN I DO?

1. Learn all you can about the dangers of genetically engineered foods.
2. Learn how to shop to avoid these foods. Boycott companies using these foods.
3. Tell your friends, family and loved ones about this problem.
4. Start or join consumer groups to label and ban chemically toxic and genetically engineered food.
5. Send letters to your political leaders and representatives.
6. Write and send letters to the media, writers, and editors.

## AVOID

Foods containing cottonseed oil, hydrogenated or partially hydrogenated oils, high fructose corn syrup, Coca Cola/Pepsi Cola (THI), Splenda, NutraSweet (Aspartame), Aesulfame K, Land O' Lakes dairy products (rBGH) and Cabot dairy products (rBGH).

\* THI (cola drinks) is an **Immunosuppressant and Carcinogen** - Cola drinks (and many commercially processed brownish foods) get their brown color from this ammonia caramel compound called 2-acetyl-4-terahydroxy-butylimidazole THI. Coca Cola and Pepsi Contain THI and since Coca Cola holds the patent on THI, you would think that the THI patent was for its use as a brown food coloring, it is not. THI's sole patented purpose is for its ability to suppress the immune system, not as a food-coloring agent. The more THI you consume, the more it suppresses the immune system. And the more the immune system is suppressed, the greater your susceptibility to developing cancer and other degenerative diseases. THI is jokingly referred to in the industry by its nickname (Terribly Harmful Ingredient). I find it disturbing that Coca Cola would patent and use a substance in its soft drinks whose sole purpose is the destruction of the human immune system. I find it even more disturbing (though not surprising) that the FDA, the agency that is supposed to "protect the consumer" from harmful foods and drugs allows a substance to be used as a food additive whose only patented purpose is as an immunosuppressant.

\* **Tomatoes Genetically engineered** with bacteria-derived kanamycin resistance genes, Antisense backwards DNA, antibiotic marker genes, viruses, and DNA of flounder and North Atlantic shellfish. This and genetically engineered Yellow Crook Neck Squash have antibiotic marker genes used **to facilitate** the genetic engineering process. They can cause allergies and autoimmune disease.

\* **Yellow Crook Neck Squash** Gene-spliced with two experimental viruses and arbitrary marker genes, capable of causing unpredictable and unexpected effects.

\* **Sulfites** are a class of chemicals that can keep cut fruits and vegetables looking fresh. They also prevent discoloration in apricots, raisins, and other dried fruits; control "black spot" in freshly caught shrimp; and prevents discoloration, bacterial growth, and fermentation in wine. Until the early 80's they were considered safe, but CSPI found **six scientific studies proving that sulfites could provoke severe allergic reactions and death**.

The CSPI and the Food and Drug Administration (FDA) identified at least a dozen fatalities linked to sulfites.

All of the deaths occurred among asthmatics. In 1985 Congress finally forced the FDA to ban sulfites from most fruits and vegetables. If you have asthma, you may want to avoid all sulfite-containing foods. The sulfite ban does not cover fresh-cut potatoes, dried fruits, and wines, which has to carry sulfite warnings on the label.

**Sucralose** is already in a wide range of products, many of which are (sadly) sold in health food stores and used in the manufacture of foods and drinks by so called nutritionally-oriented companies. It escapes me how supposedly "health conscious" companies like Newmans and others can knowingly use toxic ingredients such as High Fructose Corn Syrup, Sucralose, Aspartame, Aesulfame K and Cottonseed oil in their products when healthy alternatives such as organic sugar and Coconut and Palm oils are available.

Despite the manufacturer's (Johnston & Johnston) claims to the contrary, sucralose is significantly absorbed and metabolized by the body and has been found to concentrate in the liver, kidney, and gastrointestinal tract.

According to the Japanese equivalent of our FDA, as much as 40% of ingested sucralose is absorbed, the rest is excreted unchanged in urine and feces (and eventually makes its way into the water supply with the myriad of other drugs like prozac and antibiotics).

\*\*\* **A possible Chlorinated Pesticide masquerading as a sugar.** \*\*\*

\* **Sodium nitrite and sodium nitrate** are two closely related chemicals used for centuries to preserve meat. While nitrate itself is harmless, it is readily converted to nitrite. When nitrite combines with compounds called secondary amines, it forms nitrosamines, extremely powerful cancer-causing chemicals. The chemical reaction occurs most readily **at the high temperatures of frying**. Nitrite has long been suspected as being a cause of stomach cancer. Look for nitrite-free processed meats -- some of which are frozen, refrigeration reduces the need for nitrites. Some commercial manufacturers have begun selling bacon preserved with **ascorbic acid** (vitamin C) instead of nitrites.

ASCORBIC ACID IS NOT VITAMIN C, IT IS MADE FROM A MOLD/ SODIUM ASCORBATE IS VITAMIN C

\* **Monosodium Glutamate (MSG)**

Early in this century a Japanese chemist identified MSG as the substance in certain seasonings that added to the flavor of protein-containing foods. Unfortunately, too much MSG can lead to headaches, tightness in the chest, and a burning sensation in the forearms and the back of the neck. If you think you are sensitive to MSG, look at ingredient listings. Also, avoid **hydrolyzed vegetable protein, or HVP**, which are other names for MSG.

MSG CAN PARADE UNDER MANY DIFFERENT NAMES : INCLUDING FLAVOURING, PECTIN & YEAST

\* **Fluoride – A Lesson in How to Market a Toxic Waste**

The U.S. government has **promoted fluoride even though:**

A. It was **recognized as a toxic waste** since the beginning of the Industrial Revolution.

B. The proposal that Americans fluoridate their water was first made by an industrial scientist who was attempting to find a way to market and sell a substance that the aluminum industry had to pay to be removed as industrial waste.

C. **Fluoride was first legally** disposed of 50 years ago by making it into **rat poison and insecticides**.

Now it's in the water supply. UNMEASURED

A person's exposure to fluoride may include:

1. Fluoride contained in the water supply.
2. Fluoride contained in foods due to agricultural or processing methods.
3. The increased fluoride content of a food that is cooked in fluoridated water.
4. Fluoride contained in toothpaste.

Avoid Toothpastes that contain Fluorides many so called "health food" brands contain fluoride and Sodium Lauryl Sulfate (a carcinogen & gum irritant)

Most government agencies, however, continue to ignore the scientific evidence and market fluoridation **by making fictional claims about its benefits.**

"All of western Europe, except one or two test towns in Spain, has abandoned fluoride as a public health plan. It is not put in the water anywhere. They all established test cities and found that the benefits did not occur and the toxicity was evident."

It's interesting to note that in the 1950s, fluoridated toothpastes were required to carry warnings on their labels saying that they were not to be used in **areas where water was already fluoridated**. Crest toothpaste went so far as to write: "Caution: Children under 6 should not use Crest." These regulations were dropped in 1958. When fluoride is ingested, approximately 93% of it is absorbed into the bloodstream. A 1992 University of Arizona study yielded surprising results when they found that "the more fluoride a child drinks, the more cavities appear in the teeth."

Fluoride was used by the Nazi's as a mind control agent and continues to be used as a mind control agent in Russia, China and North Korea, where it is only used in prison water supplies. The British were the first to find that fluoride was effective as a mind control agent making the individual mentally docile and proposed it as a potential biological weapon for use during war. The level of fluoride used by British researchers was roughly equivalent to what is contained in the water supply of most American cities. The Nazi's found that flouride "numbed the mind, weakened the will and made the prisoners docile."

The Nazi's planned to utilize fluoride as a mind control agent by fluoridating the water supplies of all conquered nations after they won the war. It is interesting that shortly after World War II, the United States began a national campaign to fluoridate its water supply.

**"We would not purposely add arsenic to the water supply.**

**And we would not purposely add lead. But we do add fluoride.**

**The fact is that fluoride is more toxic than lead and just slightly less toxic than arsenic."**

Constantine was far more sympathetic to Christianity than his predecessors - supposedly because in 312, on the eve of an important battle at the Milvian Bridge, Constantine saw a vision of a (chi rho) cross with the words "*In hoc signo crucis vinces*" *In this sign of the cross, you will conquer.* Being given these "signs" by the fallen ones, because they needed Constantine and his line to perform certain tasks, such as changing calendars

RAT YEAR/2020 CAPRIC'RN. Capricorn. Affrication used AFAR/Aquarius - the Age of ? Aquarius month does follow Capricorn

Other text warnings relate to these same dates saying Saudi Arabia will become the new North Pole. Interesting that the author David Montaigne, in his June-July 2018 Nexus Magazine article, states the date of December 21 - 28 2019. I will repeat that - December 21-28 2019 for a triggering of a magnetic polar shift. This is the exact time of the year that Japan has been slated to roll into the ocean in these texts. But first, a caveat or two.

First: Montaigne got the stellar heavens "clock" from the bible. (Daniel, Isaiah and John) He did not stipulate which version. Second: Then used an astronomical computer program to find those constellation settings that bible provided. The date of Capricorn owns the end of a year AND the beginning of the next year, so 2019 & 2020 both share the same Capricorn!

The caveat being that computerised programs are around 676 years out. The difference between 324 deleted years causing the "dark ages" and the 1,000 years added by the swipe of a plume, changing the "i" to a number "1" (best example being the dated letter found under the floorboards of a Tudor mansion recently. The date clearly saying i633.) My collection of articles wearing the date prefixed with an "i" or a "y" for "Iesus" or "Yeshua" has become large enough to convince anyone.

The Age of Aquarius is not due to arrive until ca 2587. If we are really in 1342A.D. (as at 2018) - we have a truly long wait for the Age of Aquarius. The Age of Pisces has 36 astronomical degrees. It takes 72 of our orbits/years for our sun to cross each degree. Pisces therefore contains 2,592 of our orbit-years. Being in 1,342AD means we have just passed the half way mark in the deceptive age of Pisces, with 1,250 years to go before we see Aquarius. Yes, that leaves me in shock too. Once again it is my lot to despair at how slow-thinking I am. There will, of course be the argument as always about the real date used in relation to a Jesus and his birth or death date - at the most a variance of 40 years. Being 33 (his death age) and ca 7 BC (his birth year)

For many of these pdf forums I have been using the words "we have at least a thousand years to go for Aquarius". These words had set off a large hue and cry amongst readers, so reluctantly the phrase "at least 676 years" was inserted, mainly to mollify my own thwarted thinking. But that is a lie too. As much as we do not like it, we still have 1.250 years yet before Aquarius.

You may be calling demons with your sounds: watch!

YHOVAH =  
HOVAH = RUIN, DISASTER  
AHVAH = TO DO PERVERSITY  
AHVEH = DISTORTING

IN SUMERIAN FLIPPED OVER,  
THE TETRAGRAM "YHWH" equals "ENLIL"

13,469 is the sum total of the Hebrew letters here. I wonder why the person who did this little illustration omitted the introductory YA, °Yah/yod to the far right of the acronym. Hebrew is read right to left, and the letter which looks like a comma is the Yod. Or a number 10. This lends new thoughts about the word COMMA in the Template! Dividing 13,479 (the sum total including Yod) by 11 has an interesting result – it equals 1225.3636363636363636 repeater. Mere curiosity, nothing else, at this moment.

According to Sitchin, Yahovah/Yhaweh means “I will be what I will be”, not “I am that I am”. Sitchin says the language is using a future tense. From what we know of the many names of EnLil in his incarnations – this be-comes very true! Just think “Cement Spirit” (QuetzalCoatl) and Valiant Thor.

The number 13,469 will come to mean something, even if it is only the “bulge” in our half of the Millwheel of ages (from Leo Rising to Pisces inclusive) which ca ‘half’ of 25,920 (a full turn of the Millwheel of Ages) is about 12,960 (of our old orbits, the time it takes Earth to complete a cycle while following our own sun calculated during the period we had a 365 day orbit). So a 509 orbital year difference is well within the mathematics of Earth’s uneven orbit measurement tolerances across those periods of time – call them eras or epochs.

If one reads all of the Clay Tablets “of EnKi” one will realize that the Numerators are these immortals whose base number is 12 or 60. Their human by-blow elites have the number 11. So a 360 day year must have given them great feelings of accomplishment, only to have it skewed by the Elohim Alliances by an extra 5 days in 705BC.

To me it seems this must have been the date for the sun going “up ten steps then back down ten steps” (noting the number is ten – a pointer for who it was that caused this, just as the Ten Commandments was a pointer it was NOT YHWH/EnLil involved).

These extra 5 days became the “unlucky” and sacrificial days for the “deluded” Maya (as described by the Baghavat Gita in book II). EnLil is “chief pilot, lord of airways, storms and [sacrificial] smoke.

They never provide numbers for no reason. Just as the Template describes them as NUMERATORS and other versions of that word which mean the same.

Dividing 13479 by 4 gives us 3369.75 a number very close and even possibly the mean number of our years it takes the Nemesis system to complete its own orbit. There would be variables here just as there are with Haley’s comet which seems to take 75 years twice then 76 years the next, then 75 years twice as so on. Therefore; counting on the Nemesis system to arrive right on 3,660 years every time, means one will be quite disappointed, that by basing one’s assumptions on that figure the rest of one’s calculations will be exponentially “out” and mean nothing except a waste of time doing so...

When using *average number of years* as a yardstick, as Ptolemy did, provides a dangerous basis for basing one’s assumptions just as shown in the era of each “Age” being composed of either 2,000 or 2,160 years described in the *MILLWHEEL OF THE AGES* forum. Everyone dancing in the streets believing (due to roughshod mathematics) that we are “going into the humanitarian Age of Aquarius” when, as it turns out, we have only just passed near the midway point of the Age of Deceptive Pisces.

Placed on an analogue clock, and illustrated on the Cross of Hendaye, it is Virgo (“spring-vernal”) which should be at the top between “12” and “1” “A.M.” Along with Leo being *precessional* to Virgo, (depicted as a Sphinx facing to the right, as it is on the Denderah Zodiac) that is, at the “11 pm” to “midnight” position.

To have done it that way (the correct positioning) in the forum of *MILLWHEEL OF THE AGES* would have sent many readers to the asylum trying to comprehend it.

Especially since “our years” are not and never have been the same number of our days. Starting with 260 days in a year during early and pre-biblical times up to 3,123BC,\* becoming 360 days until 705BC (Chinese records), then having 365<sup>1/4</sup> days per year until October (10<sup>th</sup> to 14<sup>th</sup>) 2013. At which date we began a 377 day year, and growing. From that date our orbit has been 377.8 days – being pulled-pushed by the incoming Nemesis mini solar system. The same reason our orbit has always been disturbed, that is, by outside influences.

\*3,123BCE which was calculated on a modern computer programmed dating. This requires deleting the number of 676 for correction. At the year 2000 (Y2k western hemisphere timeclock debacle) the date was really 1,324 C.E. Therefore, that program which has 676 years by too many, means it has 3,123 years by 676 too many.

Thus the date of 3,123BCE gained via that program, (taken consequent to the Planisphere disc) should read **2,447 BCE** (by the way, this is the Austrian asteroid event, the one *said* for Sodom & Gomorha, which Hancock has as Mayan August 3,114BCE, allowing for the time it takes a society to recover from a world altering episode and to write it down/ sculpted into clay tablet/stone called ‘the Assyrian Planisphere disc’ which is **said to have been made ca 700Bc**<sup>Henry Layard</sup> as a copy of a previous record of an asteroid event between ‘3,123’ and ‘3,114’ (recording of it). **But, was it a copy?**

To date the 705BC event that provided the new orbit relates to one of the two episodes in the biblical records: – the two in the bible which speak of sun and moon novelties. So, was the *Planisphere disc* the second event?

One is Isaiah, <sup>Judah</sup> in 38:8 **705BC** is the date the Chinese records say we went from 360 to 365 day orbit the Book of Isaiah was written by King Hezekiah, **who reigned from 715 to 686 BCE**, and his aides.

How the Jewish sages came to this conclusion is clear. The first verse of the book says that the prophet prophesied during the reigns of four Judean monarchs, the last of whom was Hezekiah. It would make sense that it was the king and his scribes who put together the compilation of Isaiah’s prophecies after his death.

It would also make sense for a royal archive, if one existed in First Temple Jerusalem, would likely have contained records of prophecies. The royal archives of the Semitic city-state of Mari (in today’s Syria) held records of prophecies 1000 years before Hezekiah. The royal archives of the Neo-Assyrian capital Nineveh held records of prophecies too, some written just a few decades after Isaiah’s time. Keeping records of prophecies in royal archives may have been the norm.

The Assyrian Planisphere Disc, *said to be dated about 700BC.*

Then the assumption is made by the establishment that it is a *copy of a previous event way back in 3,123BC (Hancock’s 3,114BC event) Jasher?* (Genesis 33:19) C+F+YASHER Why would a scribe be reporting an event from some two and a half thousand years before the time of making the Planisphere?

These two events are named separately in the bible, in 705BC during reign of Hezekiah-Isaiah 38 8 “**the shadow moved up ten DEGREES and back the ten steps**” mentioned in Joshua 10:12 around 1381BC < less the added 676 > = 705BCE: **“the sun stood still and the moon stopped, for a full day”. Earth stopped turning. WHERE were Isaiah and Joshua situated at these hours? What can stop the Earth?**

The event of Joshua fighting Amorites Alyalon Valley 10:12 is the same as Judah Isaiah’s, around 705BC.

1405-1385 BC <sup>dated by Garstang</sup> making Joshua just prior to the reign of Akhenaton <sup>ca. 1349–1336 B.C.</sup> [http://www.metmuseum.org/toah/nd/phar/nd\\_phar..](http://www.metmuseum.org/toah/nd/phar/nd_phar..)

In the 1950’s Kathleen Kenyon worked at the site and relied upon pottery sequences to redate these walls back to the end of the Early Bronze Age (EBA), around 2100. They could not, she announced, be those that fell before Joshua. It was this claim that led Courville to become a revisionist. There were two possibilities. Either O.T. history or Egyptian dates were grossly in error. Courville elected to work from the premise that OT history was largely right, which meant that the Conquest could not be so early. Since the later site archaeology at Jericho and Ai matched OT history, the CC had obviously set Joshua’s era back too far by **c670yr.** <sup>(676?)</sup> **1385 minus 676 = 709BC** close enough to 705

The mention of a *q’sitah* as a type of money (Job 42:11) suggests a date which is at least during the time of Joshua (cf. Jos. 24:32), if not during the patriarchal period (cf. Gen 33:19)<sup>5</sup>

12 On the day the Lord gave the Amorites over to Israel, <sup>Jacob</sup> Joshua said to the Lord in the presence of Israel/Jacob: “Sun, stand still over Gibeon, and you, moon, over the Valley of Aijalon.”

13 So the sun stood still, and the moon stopped,

till the nation avenged itself on <sup>[b]</sup> its enemies, **as it was written in the Book of Jasher:13**

The sun stopped in the middle of the sky and delayed going down about a full day. <sup>Meaning Earth stopped turning – caused by an asteroid?</sup>

**1385 minus 676 = 709BC** close enough to 705 **In Oct. 2013 we began our new 377+ day orbit.**

**Today is middle of 2018 :- 5+ years later ... and STILL no public record of it!**

14 There has never been a day like it before or since, a day when the Lord listened to a human being. <sup>followed by that assumption</sup>

Surely the Lord was fighting for Israel! <sup>Jacob</sup>

15 Then Joshua returned with all [Jacobite] Israelites to the camp at Gilgal.

<sup>5</sup> Archer writes, “But if the scene was laid in North Arabia near Edom, a clan type of society may well have persisted there as late as the time of the Hebrew monarchy. Possibly private sacrifices by the heads of families persisted alongside the official tribal priesthood. The foreign locale would also account for the comparative rarity of the name *Yahweh* in most chapters of the book. Job shows a distinct preference for the pan-Semitic term, ‘*Eloah*’ or ‘*Elohim*, for God ...

Interestingly enough, the title *Shaddai*, the Almighty, occurs no less than thirty-one times in Job as against its sixteen occurrences in the rest of the Old Testament. This evidence from the use of the divine names certainly tends to confirm the theory of a non-Israelite background (Gleason L. Archer, Jr. *A Survey of Old Testament Introduction*, 464–65).

The Book of Job [contemporary to Joshua] having now been dated to “reflect the time of Abraham [of Ur] from before the Exodus and The reference in **Ezekiel 14:14 to Job with**; other names in Job are authentic for the second millennium B.C.”

IT MEANS THE EARTH STOOD STILL – WHAT COULD HAVE CAUSED THAT “3,224 YEARS AGO”.

In a paper published in the “*Royal Astronomical Society journal Astronomy & Geophysics*” researchers explained that they were consequently also able to refine the dates of the reigns of two Egyptian pharaohs of that era, **Ramesses the Great** and his son **Merneptah**. The paper reinforces research published earlier this year by Israeli scientists, which also interpreted the biblical story as referring to an eclipse on the same date. (but was it a Sol-ar eclipse?) **Joshua** prayed that God help the **Israelites** in their battle by stopping the sun: “Then **Joshua** spoke to the Lord on the day when the Lord delivered the **Amorites** before the children of Israel;<sup>Jacob</sup> and he said in the sight of the Israelites/Jacobites: ‘Sun, stand still [dom] upon **Gibeon**; and you, Moon, in the valley of **Ayalon**.’” (**Joshua 10:12**).

Impression of a seal bearing the words

"Belonging to Hezekiah [son of] Ahaz king of Judah" about 1 cm across and showing a winged sun and ankh, Assyrian symbols of power and life. Ouria Tadmor

So – what does this tell us?

**Sometime while King Hezekiah was alive** – who reigned from **715 to 686 BCE**: someone saw the winged disc of the Nemesis-Nibiru system.

If it was this that caused the **705BC** event which disturbed our orbit and added 5 days – then the “3,660 year orbit” is wayyyyy off!

We are in 1342 now, add 705 (BC) = **2,049**. Even using 2018 as now, adding 705 still only gives us 2723 for that particular orbit; since **it is in view** now. Had their orbit been 3660 years, and we are *really* in 1342AD, the previous passing over should have been around 2,318BC. At 2018, last at 1,642 BC.

“Isaiah’s strange prophecies are of another ilk: it is hard to imagine for what practical purpose royal scribes would keep prophecies such as “And I will give children to be their princes, and babes <sup>CLONES</sup> shall rule over them” (3:4).

How would they check up on this prophecy to see if it indeed comes to pass?

Even if some parts of the book are true representations of the words of Isaiah, certainly major parts of the book are not. This had already been suggested by 12th century Rabbi Abraham Ibn Ezra, who pointed out that the prophecies in chapters 40 to 66, and in chapters 34 and 35, were written in a language very different from the rest of the book, and make no mention of Isaiah in them.

Most modern scholars agree that these chapters cannot be describing prophecies by the original Isaiah, whether written by Hezekiah or not. They had to have been written by someone living after the **destruction of Jerusalem in ca 586 BCE**.

The original Isaiah lived more than a century earlier, so could not have said :

“Speak ye comfortably to Jerusalem, and cry unto her, that her warfare is accomplished, that her iniquity is pardoned: for she hath received of the Lord’s hand double for all her sins” (40:2.)

These chapters had to have been written by some other prophet living in the context of the Babylonian Exile.

Since we do not know his name, scholars refer to him (or, less likely, her) as Second Isaiah or Deutero-Isaiah.

**“Then the moon shall be confounded, and the sun ashamed, when the Lord of hosts shall reign in mount Zion, and in Jerusalem, and before his ancients gloriously”** (Isaiah 24:23).

So the sunlight went back the ten steps it had gone down. New Living .... This is a writing by Hezekiah king of Judah after his illness and recovery:

38:4 Then came the word of the LORD to Isaiah, saying,

5 Go, and say to Hezekiah, Thus saith the LORD, the God of David thy father, I have heard thy prayer, I have seen thy tears: behold, I will add unto thy days fifteen years. (15 ORBITS)

6 And I will deliver thee and this city out of the hand of the king of Assyria: and I will defend this city.

7 And this shall be a sign unto thee from the LORD, that the LORD will do this thing that he hath spoken;

8 Behold, I will bring again the shadow of the degrees, which is gone down in the sun dial of Ahaz, ten degrees backward.

So the sun returned ten degrees, by which degrees it was gone down. (Ten being an Eloim Alliances number)

[2 Kings 20:9](#)

And Isaiah replied, “This is the sign to you from the LORD that He will do what He has promised: Would you like the shadow to go forward ten degrees/steps, or back ten steps?”

[2 Kings 20:11](#)

So Isaiah the prophet called out to the LORD, and He brought the shadow back the ten steps it had descended on the stairway of Ahaz.

This is the illustration of the total eclipse **January 2010.** Taken in China.

Do you see the problem with this image?

Either our moon has become closer to Earth, or both our moon AND the Earth have moved further out.

Recall all those Encyclopaedic mentions of our moon fitting precisely across the face of our sun in a full eclipse using the figure of the moon being one fourth the size of Earth? Which it did October 12 1958, with such a fine line encompassing the moon the corona was clearly delineated showing waves and solar bursts. Here we see a mere *smooth glow* of the sun.

**ECLIPSE MAY 10 2013**

**SO SAYING CURRENTLY Earth is 3.67 times larger than the Moon**

+`+-9-

**FEBRUARY 26 2017**

Either our sun is growing in size or the moon has moved further away from us because in 1958 we never had to resort to articles like this one which contains the qualifying statement:

"This will be an **annular** solar eclipse, sometimes referred to as the 'Ring of Fire'. This happens because on this date, the Moon appears slightly smaller than the Sun in the sky. Therefore, the Moon cannot obstruct all of the Sun's disc during this [type of] eclipse."

Does that explain the May 2013 and the January 2010 exlpses too?

**AUGUST 21 2017** this was the "eclipse" which had the "moon" arrive from top right and leave at bottom left direction.

Since when has our moon **EVER** fully covered our sun so completely that there is *no* corona?

**IF** this is **OUR** moon – how close has it come towards Earth to be able to encompass our *enlarged* sun?

**Had** it come this close – we would see it extremely large during the daytime too.

## Microwave weapons no longer Conspiracy Theory – Now deployed in China

U.S. Secretary of State Mike Pompeo told lawmakers that the 'sonic attack' in China was 'medically similar' to the incidents in Cuba

By **Ian Greenhalgh V\_t erans T\_day**

May 23, 2018 See Barrie Trower videos

[ Editor's note: Clearly the unfortunate American who suffered a 'mild brain injury' was the victim of an attack using a microwave weapon and no doubt, this was the work of someone in the intelligence community.

The CIA have long admitted to possessing microwave weapons; and the research into the exploitation of the microwave portion of the frequency spectrum dates all the way back to WW2 and the early developments in centimetric radar.

The invention that made a practical centimetric radar system possible took place in Britain, at Manchester University. The device was called a cavity magnetron, and it made possible for the first time the generation of microwave frequencies at high power levels.

Today, the cavity magnetron is at the heart of every microwave oven. It is also to be found in all forms of high frequency equipment for telecomms; anywhere where you need to generate a high frequency signal. Add an antenna and a wave guide and you have yourself a microwave weapon.

In the 1950s, British researchers discovered that many frequencies in the microwave spectrum had effects on the human body; certain frequencies could cause very serious health effects, particularly to the brain. Given sufficient exposure, you could induce all kinds of injuries, including strokes.

This research led to the development of microwave weapons that were covertly deployed during the Cold War. British expert Barrie Trower has lectured widely on the dangers of microwaves, and his work is well worth studying. Ian ] Haaretz

### U.S. Warns Citizens in China After Consulate Worker Suffers Sonic Brain Injury

An American citizen working at the U.S. consulate in the southern Chinese city of Guangzhou has reported suffering from "abnormal" sounds and pressure leading to a mild brain injury, the U.S. embassy said on Wednesday.

The embassy, which issued a health alert to Americans living in China, said it could not link the case to health issues suffered by U.S. government staff in Cuba dating back to late 2016.

However, later on Wednesday, U.S. Secretary of State Mike Pompeo told lawmakers that the "sonic attack" in China was "medically similar" to the incidents in Cuba.

The unnamed American citizen assigned to the consulate in Guangzhou had reported a variety of "physical symptoms" dating from late 2017 to April this year, the U.S. embassy in Beijing said in an email.

The worker was sent to the United States for further evaluation.

"The clinical findings of this evaluation matched mild traumatic brain injury (MTBI)," the embassy said.

The State Department was taking the incident very seriously and working to determine the cause and impact, the embassy said.

Pompeo said that medical teams were heading to Guangzhou to investigate the incident.

The State Department added the Chinese government told the embassy it is also investigating and taking appropriate measures.

SEE how the people that make these videos are manipulating the video watchers?

Whenever I watch these I comment on a detail. For the most part the claims have been that he "came from" somewhere past the 4,000 AD mark and my comment to that is always – how do they manage *to speak using our words* we use today when one need only follow the evolution of idioms to know those people that far into our future would never be able to understand us. Best examples: and here, I am only speaking of a *twenty year gap* – I sent some hidden texts to one of my daughters by email.

She wrote back in *text language* that she *could not comprehend* the words – she wrote complete sentences of which *I could not* understand!

*Begging the question – how far will text language go before it is completely unrecognizable even to those who use it today?* Then there are the word meanings, the idioms of which become altered *each generation*, for instance:

I received a phone text from my other daughter who was doing a school visit to Technical College. The high school teens go there for a day to try out different work opportunities like becoming a hairdresser or chef.

So I receive a text from her "*oh mum – welding is sooo mad!*"

Leaving me thinking "poor girl, why is she even trying welding out?"

Dear reader, *You* know what she meant, don't you!

Yes, she loved it so much she went on to gain the Regional Apprenticeship award. Other such words have been "fab" meaning "fabulous" - a word back in the nineteenth century which meant *nature of a fable kind and not believable* – and the likes of "*oh that's really sick, man*" – do I need to continue?

To conclude – these comments made on the video sites must have struck home – so why all of a sudden do they say he "came from 2082"?

**Because that makes the *language barrier* less of a problem and the invented date more believable.**

This is very close to what the Golden Cube looks like thru a telescope, except all those filigree at the edges entirely cover each face, with the plainer faces as a bright golden and the darker shadowed bits as a bright dark lime green in appearance.

Now, the interesting thing this piece of art work is telling us, is that the cube appears round.

It has an aura-like atmospheric-like golden LUX glow.

Without a telescope – it simply APPEARS like a small planet.

**JASHER ~ YASHER**

The "book of Jasher" is actually 91 books of Yasher, "The Upright Ones". The Righteous Ones.

So, not one individual author. Particularly as it encompasses from Adam and Eve to Noah and the Ark and to Abraham's birth at Book 7, with another 84 books to be read.

There were (at least) two major world events within the period from the beginning of the Books of Yasher to the period of King Hezekiah/Isaiah and Joshua and Samuel 2., (app 700 BC) with both Joshua and Samuel 2 referring back to "as written in Yahser/Jasher". So saying, the event written therein.

So what could that previous "event" have been? These texts have spoken of a "perfect flip" in the Age of Gemini (6,053 BCE give or take a few to 4,109 BCE give or take a few). One thing that did happen in this time-frame around 5,300 BCE was the forming of Crater Lake Caldera caused by a very large volcano eruption. This is the same timing for unusual and opposite climates in Peru and other parts of the world.

Making it two world altering events many hundreds of years apart. Add the third one of Clay Tablet #10...

From just prior to the episode of Edgar Cayce's date for building the Giza pyramids, viz: around 10,500 BC, then Graham Hancock's Mayan Calendar date of August 3114BC (a result of the June 29<sup>th</sup> 3123BC asteroid jolt making allowances for human recovery.) Next event around 700BC (705 according to Chinese records) being the same of Hezekiah-Isaiah and Joshua's "sun standing still".

The reason this path of attack is being used is to establish:

- a) the event, one a result of a Nibiru fly by and one a result of an asteroid hit on Austria... and
- b) the timing of it because it seems to be the cause for the alteration of our orbit-days-in-a-year.
- c) at the same time raising the question was Noah *not* Ziusudra since Ziusudra seems to apply to the Leo Rising episode of world wide tsunami flooding; (according to Clay Tablet #10) the passing over of the Nemesis sytem, with flooding *not caused by* torrential rain, yet Noah's flood was.

Plus, it is Noah's name in Yasher – Jasher of the Genesis books. "Genesis" was not from Leo Rising.

In the Lost Books of EnKi it is stated that Earth calendars "began as a comemoration of king Anu leaving Earth for the last time "the Nibru-Ki/Nippur/Shumer Akkadian Calendar ca 3,760 BCE". How convenient is that! Did king Anu come and go during a passing over of the Nemesis system? Was the following passing over during a ca 100BC shar? Was that the reason for a new Jesus Christ calendar? If so, what was it that caused the 705 BCE event that changed our orbit from 360 to 365 days? If so, why do we have Nemesis in our solar region now – when we are really only in 1,342 AD? Is the number of our years of 3,660 per shar not correct? Where did the date of 3,760 BCE derive from for a "first [Akkadian] calendar"?

It is widely accepted that the first pharaoh AHA-Menes was dated to ca 3,100 BCE. The number of years being the earth reign of Menes was used *as a* calendar. He being the first human king after the Kings' List. Why did it take ca 660 years for a calendar to travel from Nippur to Egypt?

And don't bother trying to find answers in Wikipedia. They are not there.

Nippur= place of the Heaven-Earth Bond. Place of the seven steps to heaven. Now, what does *that* mean? Can you guess? The "ladder" (of Jacob/Is-Ra-El) seen on the sporran of Thutmoses II or III and the 5<sup>th</sup> dynasty pharaoh of Guatamala has 7 steps. As does the steps in the Codex of the Grus with fish in beak. The ziggurat in the Boturini Codex has 7 steps, as does Djoser's "stepped pyramid" by architect Imhotep. The Template for the Hidden Texts refers to stargates as "stage gates".

in copyholder-proofreader terms a PERIOD is a full stop in a line,  
thus saying when a full stop appears in a line, to divide the  
letters from the rest of the line before anagramming.  
This is called a directive to the collator, 38 pages of them in sum

I 559 + 458 = 2017 DIFFERS PROPER noun-uppercase LETTERS (seems I was meant to find this in 2017 or at least by 2017)

This directive relates to the Capitalized words. We have seen many proper names appearing in quatrain lines minus their capitalized letter. This is because that word is not needed in the *codes within codes* - that is: collating just the words with capitalized letters, and anagramming them on their own, separately. Anyone with half a thinking mind can see that no one was going to find the texts hidden; unless they had actually done *all ten years* of the required work.

There are many "experts" on the matter of offworlders; who will tell you that shape shifting is not possible, that David Icke was delusional.

I am here to tell you that changing shape happens. That those people in denial could well be *disinformers for those who can do* the shape shifting. Having experienced an acquaintance myself, who consistently allowed his eyes to become of the reptilian variety when he thought no one was observing him, it comes to me why I was allowed to see this, back in 1996 when this anagrammed hidden texts mandate was nowhere near my horizon. Not for another ten years.

That there are *many ways* for shapeshifters to do so.

The least obvious is via breeding. Having 100% reptilian DNA yet keeping that handsome husk.

Those we speak of are the masters of genetics, so there may be other ways related to genetic manipulation. Such as the bending of the light from their 12 (or however many they can run) strand DNA.

There are offworlders which can not only read what you are thinking, but *deposit unsolicited* thoughts. Images of what you think you are observing.

Then we have the offworlders which can manipulate their surroundings with themselves inside those surrou-dings to appear different, to disappear and become transparent. They do this using frequencies.

If you go to a search engine and type in GREY IN THE BABY MONITOR , you will see my friend Judy Clarke (who has written books on her own contact experiences since she was nine months old. One book titled *A LIFETIME DEAL*) and one night where I was on the phone with her when she suddenly said "oh I see a grey looking thru the window at my mother's room next door". For an hour and ten minutes it was there, so I told her "get a photo of the baby monitor with your phone". She caught one shot from the darkened room and one from the room with the light turned on. You can see this because its eyes got that red reflection in the second shot. While still on the phone to her, she walked outside to confront this grey (that is what I call "being without fear") and her little dog ran right under where it had been. It had seemed to have disappeared. The dog knew it was still there, it had simply made itself invisible. Later that night the little dog became desperately ill, damaged liver and kidneys, from microwaves.

**TRULY INTERESTING QUESTIONS SENT IN BY A NEWBY READER OF THE HIDDEN TEXTS OF NOSTRADAMUS**

• Purpose of the Elohim alliance?	A: to protect and nurture the Living Library of planet Earth a way station for over 200 offworlders.
• Many different races in this alliance I see.	A: 20. Ten are of human type and 10 are not. The Alphabetical List of the Elohim Alliances is a pdf forum <sup>(collection)</sup> at the Hidden Texts Of Nostradamus (and Da Vinci)
• Is the Andromeda council part of this alliance?	A: no, more of an overseeing collection of Extra (outside) Dimensionals (time) Beings. "Princesses" the texts say. Also described as R.O. = Regency Order
• Purpose of the Andromeda council?	A: TO OVERSEE THE BALANCES of sentiencies in the various Cosmos who have Elders with them. Even the Anakim respect them, but not so afraid they would not lie to them. Why did the Anakim <i>think the R.O. would not know</i> they were being lied to?*

\*The hidden texts spoke of a request the Anakim made to the Andromeda Council, that of returning to Earth “to retrieve their plant and equipment”. Imagine my surprise when I finally came across the videos of Alex Collier – to watch him saying the exact same thing in one of his earlier videos of the 1990s. This same video Alex Collier also mentioned the “Ayse”. It was on hearing this that I realized the word “AS” in the texts meant Ayse. This was all at the same time I found Anton Parcs work which also mentions the Ayse and the Andromeda Council.

from the pdf forum 7 73 1 PRESENTED TO VULCAN April 6 2014

6 17 3 Those of Saturn burned by the millers, (Mill wheel of precession)

The Saturnins are the Anu – burned by those who run the great millwheel of precession – the Andromeda Council. A correspondent who does have pertinent things to say (Marc DiGuissepe) said to me the Council will get sick of the Anu never “growing up” with their constant service to self and lack of desire to improve their souls. Alex Collier said the Council had been approached by the Anu to return to Earth to “retrieve plant and machinery”. They were given permission to do that – with, it seems according to many lines herein – this being their final chance to “behave” themselves... saying they would be “burned up”!

• The unholy six are the “Fallen” ones?	A: NO. The Unholy (Repulsive) SIX of the Orion Group composed of ALDEBARAN, LEPUS, SIRIUSB, MONOCEROS, AURIGA, ALGOL. Add (fallen angels) ALCYONE & ATLAS interbred against their will by Draco There are several types of Draco or Drago.
• Are they also shape shifters?	A: There are many which can shift shape. The main ones we have had dealings with come from The Dividers & Sextant constellation of the Leo Minor group once called The Carpenter. Allied with those from Chertan in Leo. The texts say these are “the managers of all” the negatives. There is a constellation now called Grus but formerly known as the Bennu/Crane/Heron and Phoenixoptera, these have “chameleon” and the texts say McCain and Soros are reincarnated from there.
• Are these who run the Illuminati families?	A: Those from Sirius B which are specialists in shape shifting and those from Draco, and from Bufo (in Libra) which has a king Drago under the Vatican run the elite and monarchies
• Who are the Cassiopeians?	A: A group affiliated with the Andromeda Council, often mistaken as “demons” because they include the Incubus and Succubus which is a program for improving humanity. They run the Synthetics which perform similar tasks for them. They are part of The Elohim Alliances which includes Sasquatch
• What was the “bright burning rod” that Nostradamus referred to?	A: A space Craft
• Where do the Nordics fit in to this?	A: There are 29 known “Nordics” or “Swedes” There is a list of them at the Hidden Texts Website. Recently a 30th was found. The main ones for us are those in the Elohim Alliances (three of them) The cat eyed Dahl, a true Pleiadian & the Dorean of Tau Ceti (“police dept.”) The “Nordic” that was co signor of the Treaties with FDR was a shape shifted fallen angel from Antarctica, as was the grey, a Zeta45 J Rod, and a supposed human “from Betelgeuse”. Also a Shape shifted reptile – from Leech/Hirudo the “crown” over Orion. Named many times in Centuries 11 and 12, which is why Wikipedia refused to add those Centuries to the first 10 by Nostradamus
• Are they also known as the “Tall Whites”?	A: NO The Tall Whites come from Markab in the “Shoulder” of Pegasus. They are negative towards us. Their place within the Anakim is not known
• Valant Thor is Pleiaden and benevolent?	A: NO. Valiant Thor is EnLil in disguise. Says he comes from Venus but arrives in Vril craft from Antarctica. Promoted the nuclear scheme while all the while saying not to use it. Is still with the Pentagon. By their space craft you will know them
• Is he part of the Elohim Alliance?	A: NO. He is the main problem for the Elohim Alliances because he considers himself Commander of the AirWays (his words) which INCLUDE frequencies like directed energy fields. These frequencies are killing the planet.

This was what the Pied Piper of Hamelin was about. The Grayles underground (the ones that attacked Phil Schneider) eat humans and they come from Ophiuchus. They are the Mabus . The other reason for mutilations is the need for hormones which are also made into a “glue” to support the vertical duodenum of the taller types, the standing up Lizards for instance.</p>
<ul style="list-style-type: none"> <li>Enki is Anakim, which is a descendant of the Nephilim, correct?</li> </ul>	<p>A: NO. The Nephilim are descendants of the Anakim. EnKi as E’a was the chief genetecist, scientist, who hybridized the humanoids already here and gave them their 22nd DNA “tweaking”. This seems to happen after each major ice age, and we have had “at least 20 major ice ages” according to professor Richard Alley. The Andromeda-Cassiopeia-Elohim Alliances (A.C.E.) are arranging another major ice age – since this has proven to be the best way to get rid of the reptilian ... who run the CERN world wide and are putting our central core out of whack in an attempt to prevent ice ages. 	Disclosure is being provided with the Truth, especially about the false "treaties" which human "leaders": have been milking for personal gain receiving technology in exchange for children. The first of these "treaties" was in 1933 with a cloned FDR. In 1934, the elite had free energy, As far as I know the Hidden Texts is the only place where we have been given 20 different forms of free energy. List is below
• Who is the "King of kings"?	A: Cepheus is the King of kings – the obsolete name was The Arm because he held the branches of our DNA in his arm with his "wife" Queen Cassiopeia doing the hands-on in-vitrum. THESE are the TWO WITNESSES, in heaven.
• Is Cepheus in the Heavens our father?	A: NO they are the huge Seraphim hibernating in the Black Knights They "do" hands on stuff for the Elohim, but are autonomous. They are the fragrant Ones. Certain Contactees have said the Black Knights "came from Boötes" which is partly right. They came from Arcturus IN Boötes.
• Is Heaven really known as Hoova?	A: a name is just a name. Some hide behind a name such as Jesuits
• What does Eucharized mean?	A: as in the Euchariste? Means the sacrament of The Last Supper. Grail, by the way means Cup, which is an obsolete name for Casseopeia.
• Who is Marduk, Satan?	A: Marduk has fifty names. Yes, he is an Accuser and also the Adversary. It was he who arranged the alteration of our calendars back in the 7th century; and Allah-Lu is Lucifer, has 99 names. These two are thick with each other. Grandfather and grandson. There are many satans. Most leaders are a satan. People forget when Valiant Thor arrived, he said that he came "from the morning star"... We (the military) took that to mean Venus. He let them believe that. But Venus is not a star. Sirius is "the morning star".
I am profoundly grateful to Lisa G. who had the foresight to sit down and request answers to queries she had, having jumped into the Hidden Texts at the deep end.

that the Anu (as we call them) approached the Andromeda Council for permission to return to Earth ostensibly to retrieve plant and equipment from their gold mining enterprises.

As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" As we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions...

The Anu are not capable of learning. They are all about "service to self" ... with the exception of Ea-En.ki-E.Yah-Ra

**Excerpts from the article Nexus Magazine page 55 June/July 2011...The CHANI Project by "Acolyte"**

... researchers started receiving communications from an Entity who claimed to be from a parallel universe/dimension/timeline.

A remarkable and ground breaking interaction ensued.

For a period of five years, researchers asked the Entity a series of over 20,000 questions and received answers to more than 95 per cent of questions asked.

In reviewing the research notes for this article, all the above projects at one stage seemed to have had a turn in merging with the CHANI project and subject matter. One researcher commented:

"This is an orgasmic interaction between science, theory and spiritual awareness." SOMETHING RUSSIA LEARNED LONG AGO In October 1999, technicians began a series of software and hardware upgrades to all the collider equipment and computer networks.

The purpose was to get the **system infrastructure Y2K compliant**.

It was soon apparent that the Y2K-compliant upgrades had a direct effect on the CHANI research project.

On 14 November 1999, contact with the Entity, which for five years was continuous and constant on a daily basis, was effectively lost. The Entity was verified to them in ways and methods that are still highly classified and which I can't elaborate on.

(Here is evidence that Chani was using time. **By altering time lines inside the equipment, they lost the Chani communique.**

The Template for the Hidden Texts was written up by Chani for someone (Allan Webber) to find. Chani had gone back to i554 to hand the Centuries of Quatrains and other works for NostraDamus to publish. By doing so, the good docteur became the apprentice, and having journeyd back to Da Vinci's time frame, became Da Vinci's "Mentor" as Da Vinci wrote, "and then painted him in".)

**The Entity and Humanity**

The Entity explained in some detail to the researchers that contact was made because the Entity was our equivalent of a "student" and he had authority from his Elders to interact with, observe, study and learn from us. The Entity explained that his Elders "noticed" us (we here on Earth) and our whole solar system cross onto "their" parallel universe. The Entity also explained that we weren't the only race reaching this crossroads/ merge, but that they could see other alien races from other planets in our solar system as well.

Our Entity was specifically tasked to study us (humans, Earth), while other students were tasked to study the other races and planets corresponding to their planet and solar system. It was not just a merging or colliding of our Earth reality, but it was our complete solar system colliding with the reality of another "parallel" solar system.

Although it was we humans (with some alien assistance/technology) who were "playing with dark and portal matters", the result was that our whole solar system traversed into "their" universe of visibility/perception.

In answer to this thought - a frame of mind instilled **BY THE COPIESTS**

"Simon brings back stuff. But. Hes with mantids and they serve reptz."

**When**, I say, **WHEN**; [speaking in Foghorns Leghorn's voice] we all realize that we are fooled almost

ALL THE TIME by COPIES - **THEN**, we will have a form of "awakening"/

The standard Mantids are with the Cassiopeia and Elohim Alliances. They come from Argo in the Southern Skies.

The COPIESTS (mostly Drako) have copied everything that arrives here which is GOOD for us, then, they slowly twist the thinking by using their COPY.

This is what happened with Immanuel Iscariot... and This goes for politicians too. Very much so.

The very large Mantis (I use the western hemisphere spelling without a "d" because they mainly go to western hemisphere humans) usually have two sets of front arms and always seem to be a scary size.

One of the super soldiers who had served his time, Randy Kramer, stated that he was fighting against insectoid-Mantids, and that when he used his intelligence (common sense) and put down his arms, so did the Mantis. Turns out, The Mantis was with those who were against the elite's agenda, and Randy had been fighting WITH the elites...

6. **Harnessing plant** life such as a rose bush to produce electricity, somewhat very similar to the aquatic Pyramid Power above. Nexus Magazine 2017.

7. **Hydro generators** (up to 3kva) can buy in Illinois, around \$400 each at the time of writing.

8. **Kanzius John** - certain radio frequencies run thru salt water producing a temperature over 1200 Kelvin currently being used in Naval cargo plane engines. Might be wise to look over those Patents too, to find the radio frequency.

9. **LUMINANT LUX** The FIFTH new matter form - called LUX is a form of light matter, the *CLEVER DORDRECHT FLOUWERLET VERTEX* of 3 5 1 3 in the ANDROGYNE DOREAN forum. The word **LUX** which we see frequently in the Template of the Hidden Texts means: **Frequency of Light Matter**. C+F+LIQUID [light] as the fifth form of MATTER on page 15 C+F+LUMINANT in the Template, 52 Lines for LUX

10. **Methane**, a good alternative, but like the solar panels, not so effective in an ice age 9 5 7 2

11. O.R.M.E Orbital Revolving Magnetic Energy generators currently in use in India. *Template: find ROME. Allan Webber did not know about ORME* They got desperate when the U.S. stopped coin so they went straight to free energy. Ormus is white powder gold.

This is a hybrid form of what Ed Leedskalnin was using to build his Coral Castle, but he included sonic power - sasar - **ORME** also is an acronym for Orbitally Revolving Molecular Energy

12. **Pyramid power** - two parallel streams of large bodies of moving water - needs obelisks made from a quartzite stone, a form of crystal which store energy - could be called Tesla Towers. See number 16. Recall the crystal radio?

13. **RADON - RADIO ELEMENTS+mercury** propulsion used by the Fallen Ones / see craft which visited Adamski, Meier & others. Also the reason for flat tops on pyramids - for landing platforms safe away from humans. 59 lines

14. **Salt storage** of solar heat using acres of directed mirrors. Never under-estimate the power of a directed mirror - angled properly. C+F+SALT in the Template. "Salt" can mean Perseus, Henry Salt, a street drug, and the element. Salt water and radio waves, see Kanzius

15. **Sasar energy** - (like laser but with sonic frequencies). Additional to Laser, Maser, Phaser and Ebonics, this can be a tool for engraving (anything) for levitating (anything) and for a weapon. The doc calls it the Medusine Device, and funnily enough its military nickname is the Medusa Weapon... also known as Directed Energy Field. Being used in Russia in operating rooms and to cure cancers via frequencies. Being used on California, Spain and Boreal at 2017-8. Is utilized occasionally in our own operating rooms but kept a bit quiet for some reason. Research YINM

16. **Sea wave** turbine power ~ works in moving creeks too.

17. **Solar storage** into batteries - from silica panels, can be hybridized along with wind power

18. **TERBIUM/THORIUM** 2 100 1 ... 2 25 2 ... 10 13 3 ... 2 43 4 ... 3 12 4

19. **Tesla energy** drawn directly from **ozone** - download as much of his patents as you can and put onto hard copy while you can. 10 27 3 OZONE 8 30 1 ... 1 72 3

20. **Time travel energy** - controlled sonic (D.E.F) + magnetic energy. Cymatics display the required frequencies. The Fleur de Lis in format. See STAGE GATE in the Template. There are at least 7 different "conduits". eg: CRONOR VISOR

21. **Wind turbines**, collect energy in batteries - see Tesla as Batteries.

Being the first I have heard the word LEVERON, it will require looking out for its presence. As we have seen in these Hidden Texts, the Orion Group is certainly "at war" with the Elohim Alliances.
