**USA ADMITS Adding Fluoride to Water is Damaging Teeth and Has Been a Big Experiment**

For years fluoride was classified as a toxic waste in this country. In fact, not too long ago its only approved uses were as an insecticide and a RAT POISON! Most nations have wisely abandoned fluoridation, realizing that it was a horrible mistake and was responsible for bad health and death in millions of innocent people. Most nations, except, of course, for the good ol' U.S. of A. People who have been exposed to a lifetime of poisoning are suffering the consequences. Fluoride poisoning plays a role in practically every disease that we see. Why? Because fluoride is an enzyme inhibitor, and that means not one single cell in your body escapes its toxic effects. It's even bad for your teeth!

California defeats Monsanto in court to list Glyphosate as carcinogen

**A California Appellate Court sided with the State of California and Center for Food Safety (CFS) on Thursday, affirming that Monsanto's glyphosate pesticide can be listed as a known carcinogen under Proposition 65.**

Monsanto's lawsuit challenged the 2015 announcement by California's Office of Environmental Health Hazard Assessment (OEHHA) that it intended to list glyphosate, the active ingredient in Monsanto's herbicide, Roundup, under California's landmark Proposition 65.

Proposition 65 requires notification and labeling of all chemicals known to cause cancer, birth defects or other reproductive harm, and prohibits their discharge into drinking waters of the state. CFS intervened in the case, defending the listing of glyphosate as a carcinogen and the public's right to know when it is being exposed to cancer-causing chemicals.

"This is a huge win for all Californians—and a huge loss for Monsanto—as it upholds our right to protect ourselves and our environment from unnecessary and unwanted exposure to the dangerous chemical, glyphosate," said Adam Keats, senior attorney at CFS.

**Cooking with Canola Oil Releases More Toxic Cancer-Causing Chemicals Than Any Other Type of Oil**

<https://nexusnewsfeed.com/article/health-healing/canola-oil-proven-to-destroy-your-body-and-mind/>

"Health food Stores also unwittingly carry genetically engineered foods and foods that contain harmful chemically altered food ingredients such as Cottonseed oil (a carcinogen and infertility agent), **Canola/Rapeseed oil** (genetically engineered, chemically altered), Sucralose and **Aspartame** (neurotoxins & carcinogens) as well as products containing Flourides (a neurotoxin) and Sodium Lauryl Sulfate (a carcinogen).

\* Canola Oil (Rape Seed Oil) is genetically engineered from irradiated seeds of a strain of rapeseed "a naturally toxic plant" that has been supposedly "bred" to be nontoxic. It has been DNA-altered with California bay turnip and various viruses and bacterium in order to produce high quantities of lauric acid. Canola or (Canadianoil) is a trade name, since the process for engineering Rape Seed Oil was developed in Canada and "rape" is not a politically correct name to be associated with a food, the name Canola was created and the oil was renamed for marketing purposes. Relatively unknown just a decade ago, canola oil is now found in many foods, especially health foods, Canola oil is thought to be the second highest vegetable source of the beneficial omega-3 fatty acids. Despite Canola oil's healthy reputation, popular acceptance, it may be toxic when used in cooking. This is because omega-3s, one of Canola's nutritional strengths, **become damaged if the oil is heated**. Whether through cooking or processing, heating distorts the omega-3 molecules, converting them into the transfat form that can elevate total cholesterol, and lower the good HDL cholesterol.

Refined Canola oil, typically found in conventional food stores, is usually exposed to high temperatures, deodorizing and bleaching. Its health-giving constituents are processed away, and its omega-3s converted into the undesirable trans form. Even "lightly refined" and "expeller pressed oils can be exposed to deodorizing, which may raise the oil temperature to a sizzling/toxic 450° 470° F.

Use, more heat-resistant oils, such as Extra Virgin Olive oil, Unrefined Sesame oil or High-Oleic Sunflower oil which have the same beneficial properties as Canola, are more heat resistant and are better for cooking. Due to Canola oil's dubious "genetic" background it may be unwise to use Canola oil in any form.

Many scientists now believe that the introduction and widespread use of highly-refined hydrogenated oils and sugars such as **polyunsaturated oils** ( cottonseed, soy, corn and **canola**) and sugars (high fructose corn syrup) are dietary changes that were introduced by the food Industry in the last couple of generations that have contributed to the rise in obesity, skin cancer and heart disease. ## MEET GARY MCKINNON

### IG: CONNECTING CONSCIOUSNESS

In 2001, McKinnon performed the largest military hack against the United States government in history. His systems scanned over 65,000 computers belonging to the NSA, NASA, CIA etc. McKinnon claims that he was looking for evidence of free energy suppression and a cover-up of UFO activity and other technologies potentially useful to the public. He says the files he saw prove the government not only hides the fact that aliens exist, but multiple species actually work alongside various governments worldwide.

**7 4 1 ELOIM ALONE LEVEL OFF MOTILE TIME. Regarding the claim are no longer catastrophic events in Earth's timeline, think on it. The Nemesis system approaches with PLAINER PASSAGE yet not without affecting every planet in our solar system already. Earthquakes have risen exponentially, CERN fools with our magnetic fields, the 'elite' have spent kertrillions of our money to build their deep underground bases – all with the 'knowledge' that "time lines have been changed to mitigate catastrophe"?**

<http://exopoliticsradio.com/7-12-08.html>

To clarify: the most up-to-date info we have from Dan Burisch is that the only thing that is certain at the moment is that the future is constantly changing. Some things seen in the Looking Glass have changed and not happened.

**New things have happened that were not previously seen.**

Cautionary Note: there are many different races of ETs and non-physical entities that pose as positively-oriented beings in order to take advantage of those who are seeking knowledge and enlightenment. While each person must be their own judge of their experience and discern its meaning to their own satisfaction, it's also easy to be deceived. Protective measures are always necessary to safeguard individual sovereignty.

Now that Gary's McKinnon appeal has been rejected by the British House of Lords, it's time for the court of public opinion and the UFO community to come forward to prevent a gross miscarriage of justice. **Gary is being made an example in order to deter not only hackers but also those that question the rule by secrecy** that has become the standard operating procedure of governments - especially that of the U.S.

**This tactic is designed to dissuade others from revealing the truth about the secret space program hidden within black projects.** It is this program that Gary discovered evidence for in the files of the Pentagon and NASA. We believe that the time to come forward in protest against the rule by secrecy is NOW. "

DARING PARDON NERD this refers to a computer hacker somewhere who discovered the black space ops. This person must be an English person (McKenna?McKinnon?) due to the UK clue. This means that Putin must have leaned on someone to have the whistle blower released. More importantly – that someone had heard him!

**SSP = Secret Space Program**

"The SSP appears to be in the direct line of what the German Nazis had started off in Europe and continued in the US, thanks to the PaperClip trail. Lockheed Martin and all the big corporations lead you to SERCO (that owns them), QEII (owns SERCO), her Privy Council, her Golden Share (finger in all pies), MI6 and the vatican (of course). In other words, your 'boss' was always the German European bloodline sitting on an English throne...

These selected facts should indicate why certain decisions have been taken and why Mr Trump is cutting off the many E.U. 'oxygen tubes' planted direct into your tax collector's piggy banks, during past century/ies.

Info goes deep, deep. Most probably too shocking for the average to mentally deal or sort out. Cheers to all."

## McKINNON Space Programs

Among the files, he found there was information about "non-terrestrial officers" numbering in the thousands, as well as data regarding "fleet-to-fleet transfers." As he kept searching, McKinnon an enigmatic kept popping up: **Solar Warden**. *There are some very credible, relied-upon people, all saying yes, there is ufo technology, there's anti-gravity, there's free energy, and it's extraterrestrial in origin and they've captured spacecraft and reverse engineered them.*—GARY MCKINNON, THE UFO HACKER

George W. Bush's Justice Department eventually discovered the UFO hacker's intrusion and accused him of committing "the biggest military computer hack of all time." If the United Kingdom were to extradite him to the U.S. he would have faced up to 70 years in prison and millions of dollars in fines. But that never happened and many suspects it was only because McKinnon still possessed crucial information that he used to leverage himself out. More so, his lawyer even had government officials testifying under oath about the existence of the Navy's Space Fleet. Never heard of it?

According to McKinnon, the ultra-secret Solar Warden maintains a fleet of various spaceships. It consists of eight massive cigar-shaped mother ships and about four dozen smaller "scout vessels." Hundreds of "Space Marines" are in service aboard these ships and each mothership has an additional crew of approximately 300 scientists and technicians on board. The Space Fleet is operated by the NNSOC (United States Naval Network and Space Operations Command).

In 1933, when F.D.R. signed us all away in exchange for technology, he did so with no legal representation. The other three parties signing the ongoing pacts, each renewed every nine years (despite what other people say) – were :

1. a 'Nordic' which we now know as Alcyonese/fallen angels (allied with the Oannes of Sirius, eunuchized by them, and allied with the Aldebaran [sexual rogues] with another entity, possibly those from Perseus, the « dog faced ») with the artificial intelligence agenda deriving from the Aldebaran, so they must be able to live without oxygen. It is the Oannes from Sirius spreading the chemtrails and defoliating programs – so aligned with those from Chertan who run the likes of Monsanto.
2. a Grey from Zeta Reticuli (a servant of the Anakim) and possibly the Igigi, of a hive mind mentality, these are a 'mole'
3. a Shape shifted one saying he was from Orion (Betelgeuse) and in reality one of a separate triad including Draconian

**US Military Document Reveals Plan To Stage False-Flag Attack on America And Blame It on Another Country As Excuse to Start War**

Posted: 29 Oct 2017 10:00 PM PDT

The Operation Northwoods document, recorded by the Joint Chiefs of Staff in 1962, proves that the US government planned major false flag events with large numbers of complicit people who lie in order to achieve a political objective.

It provides details on government schemes to sabotage ships and planes, create the illusion of casualties, stage riots and actually sinking a boatload of refugees, "real or simulated", meaning that they are willing to kill real people to achieve their goals.

Remember that it is legal to use propaganda against US citizens.

The Template for The Hidden Texts has guidance to read many books (bibliography follows) but one in particular, Chapter 14 of Ravestein-Tiletanus, describes good angels and bad shape shifting angels. The Template also speaks of the "INSANE FOUR" (8 10 2) which are four different but allied or related to each other offworlders. The four also appear in 6 5 line 3 as SAMAROBRIN *one hundred leagues off the hemisphere*. SAMAROBRIN becomes SAAM of Marduk, RIB of Leo star system which is Chertan – the ON/Oannes from Sirius and the "R" sky rune for Draco, with these four being named in Rev 9. The "ON" bred on Earth producing the Giants of the bible and it is these Giants which are under the Euphrates.

Many hidden texts in the Dero forums speak of them being released during an Earth event. Videos GIANTS OF KANDAHAR
