- A **26.95% LONGITUDINAL TURN** IF SAIS NEW MEXICO is intended

**Tunisia Latitude and Longitude Map**

[www.mapsofworld.com/lat\\_long/tunisia-lat-long.html](http://www.mapsofworld.com/lat_long/tunisia-lat-long.html) - United States

Latitude and longitude of Tunisia is **34 degrees 00'N** and **9 degrees 00'E**.

**Sais - ancient site (Egypt) Map and Weather - Lat:30.95 and Long ...**

[www.getamap.net/maps/egypt/al\\_gharbiyah/\\_sais/](http://www.getamap.net/maps/egypt/al_gharbiyah/_sais/)

Sais - ancient site is a ancient site (a place where archaeological remains, ...

Latitude (decimal degrees): **30.95**. Longitude (decimal degrees): **30.7667 E...**

**LATITUDE**

Tunisia 34 –

Sais 31

= 3 X 69.11 miles = 207 miles shift North to South? Or South to North?

**1,451 MILES MOVEMENT OF EARTH**

Sais moves to where Tunisia is now. Or Tunisia moves to where Sais is now

Fortunately they are all similar in distance from equator

<p><b>SAIS in New Mexico</b></p> <p>Degrees Minutes Seconds:</p> <p>Latitude: <b>34-27'55" N</b></p> <p>Longitude: <b>106-30'46" W</b></p>	<p>Decimal Degrees:</p> <p>Latitude: 34.4653424</p> <p>Longitude: -106.5127963</p>
--	--

About **6,704 miles** if it means Sais New Mexico EARTH is **24,901.55** miles around the equator.

A **26.95% LONGITUDINAL TURN** IF SAIS NEW MEXICO is intended

A **13.9% LONGITUDINAL TURN IF SAIS EGYPT** is intended

ITALY LATITUDE. Latitude and longitude of Italy is **42** degrees 50' N and **12** degrees 50' E

SOUTH AFRICA LATITUDE South Africa's latitude and longitude is **29° 00' S** and **24° 00' E**

ADDS UP TO **4,899** MILES APART (centre to centre)

**24,860** AROUND VERTICALLY =

- A **19.7% TURN IN LATITUDE** NORTH TO SOUTH (or SOUTH to NORTH)
- A **13.9% LONGITUDINAL TURN** IF SAIS EGYPT is intended
- A **26.95% LONGITUDINAL TURN** IF SAIS NEW MEXICO is intended

**IT AS LINUS SAINTS INSIST~U AL SUSTAIN ISATIN IL = remain duped and unknowing**

**ISATIN** Chloral hydrate is a **sedative** and **hypnotic drug** as well as a **chemical reagent** and precursor. The name chloral hydrate indicates that it is formed from **chloral** (trichloroacetaldehyde) by the addition of one molecule of water. Its **chemical formula** is  $C_2H_3Cl_3O_2$ .

It was discovered through the **chlorination** of **ethanol** in 1832 by **Justus von Liebig** in **Gießen**.<sup>[2][3]</sup> Its **sedative** properties were first published in 1869 and subsequently, because of its easy synthesis, its use was widespread.<sup>[4]</sup> It was widely **used recreationally** and **misprescribed** in the late 19th century. Chloral hydrate is soluble in both water and **alcohol**, readily forming concentrated solutions. A solution of chloral hydrate in **alcohol** called "knockout drops" was used to prepare a **Mickey Finn**. More reputable uses of chloral hydrate include its use as a clearing agent for **chitin** and fibres and as a key ingredient in Hoyer's mounting medium, which is used to prepare permanent or semipermanent **microscope slides of small organisms, histological sections, and chromosome squashes**.

It is, together with **chloroform**, a minor **side-product** of the **chlorination** of **water** when organic residues are present in the water, though concentrations rarely exceed 5 **micrograms** per **litre** ( $\mu\text{g/L}$ ).<sup>[citation needed]</sup>

It was also formerly used in veterinary medicine as a **general anaesthetic**. Today, it is commonly used as an ingredient in the veterinary **anaesthetic Equithesin**<sup>[citation needed]</sup>. It is also still used as a sedative prior to **EEG** procedures, as it is one of the few available sedatives that **does not suppress epileptiform discharges**.<sup>[7]</sup> **Wiki**

**IT'S LINUS A or A.I. LINUS ST**

Is using the right molecules in the right concentration that are required for health (Artificial Intelligence).

**SITULA SIN**

**Situla**, from the Latin for bucket or pail, is a term for a variety of elaborate bucket-shaped vessels
