

THE ELOHIM ~ ALPHABETICAL ORDER THE CREATORS IN GENESIS

CASSIOPEIANS: The 'אס' (Ayse) ⚡ The "M'ASTER" he is "Ferdinand the fair" in the quatrains and he can be "SEE-THRU" He is also THE GRAAL (not grayle) and are part of the ANDROMEDA COUNCIL WHO ARE EXTRA- DIMENSIONAL, the "REGENCY ORDER" the R.O. in the texts' אס is also **Father Which Art in Heaven**
The word NAVARRE in the quatrains refers to the Elohim – who answer to the Andromeda Council and the CUP word is the Holy Graal of the Cassiopeians and can be seen in many hieroglyphs
The number FIVE is their base number and anything which involves a five such as the extra five days added to our orbit in 705BC is credited to them noting 7 & 5 = 12. Seven is also an Elohim number.
These are the real Watchers over the Living Library.
Not sure if the five is related to five fingers or the five stars of the constellation. If the number six or twelve is apparent it is the Anakim who will be involved. They do have six fingers in human form. These are the Keepers as in zoo-keepers but like to tell everyone they are the Watchers.
The one caveat to all of this is that E.Yah-En.ki sometimes uses the twelve base, such as in crop circles and the twelve centuries of quatrains and sixaines, albeit, they are only known world wide as ten centuries. This is how we know it was not En.lil-YHWH who gave the ten commandments to Moses.
 How do we know Enlil was YHWH? Apart from the hidden texts telling us it was he who gave the money system to the AskheNazi/Zion Jews in 1:40:4 and the Clay Tablets of Z Sitchen telling us he was Lord of the Airways, storms, **Thor**, smoke sacrifice Chief Pilot-Ruach [and QuetzalCoatl] (cement-spirit), the following words also tell us: the **tetragrammaton in stone**.
It was also he who has edited the bible beginning with the Nicene Council in 325AD and now with the N.W.O. - N.I.V
Personally I find the number 325 rather a coincidence of sorts since it was 324-325 years plucked out of the 676AD calendar to become 1,000AD. I think it is a taunt to our collective intelligence, therefore a slur at e.Yah-En.ki.

You may be calling demons with your sounds: watch!

INTRODUCING the Elohim, a name which most bible readers are aware is in the plural. These are a group of well advanced peoples of the uni.verse which have been slandered every which-way possible by those against the "christ" principle – the anti or ante-christ The Cassiopeians told Laura Knight-Jadczyk that the word "anti-christ" refers to the **reptilian 'peoples'**. Titling *one, two or three* anti christ is ridiculous when you think of the likes of Idi Amin and Pol Pot and even the Great Chinghiz Ghan – all of whom nearly outdid the likes of Napoleon and Hitler. The "three" anti-christs are **three different factions** of reptiloids. The Grayles under Groom Lake from Ophiuchus (of Phil Schneider) & the red Oannes of the Vatican (from Norma-Leo Minor) are two of them – the latter here on Earth are the ones which are allied with the "third" i.e: Anakim Alla[h]-Lu a.k.a. Lucifer ex Mars. It needs to be emphasised that there are more 'families' of reptilians who dwell on Earth and have predated we as human beings here. Although they remain neutral in the main, there has in past centuries been 'sorties' of child stealing parties such as the pied piper of Hamlin in 1274AD. Underground caves and tunnels interconnect world wide, including Nagas of the continent of India to the Solomon Islands. People get hung up on titles and names, such as "demon" and "archon". This was all part of the **tower of Babel** idea. Get us all "spell.ing" **properly**. It is the use of the letter combinations in a word which is the intention, such as in these texts, all engineered for one purpose, ... or another.

SHIPTON, CAYCE, ISIAH, ENOCH, EZEKIEL and many others.

In the case of Ursula Shipton who was contemporaneous with Da Vinci, Dee, Nostradamus & Ravestein, those other prophets from former [Biblical] times and Cayce who was alive in the twentieth century; they all without exception had the exact same message to send to us.

How could this be? There is only one answer – a time portal. The next question becomes: from whom? The fact that Da Vinci and Nostradamus were 'abducted' and given information which is the same, but provided in slightly different ways for us here in the now to re-assemble; should not surprise anyone. There was a third who also must have experienced the same – known as 'Mother Shipton' – born Ursula Sontheil in 1488 in Norfolk, England, and died in 1561, with the same warnings, most already proven.

FRINGE OF FAIR HOLY HEAVEN FIVE-FINGER (Elohim) GLORY VERIFY HAIRY FREE-LIVING (Sasquatch)

- saying the Sasquatch are part of the Elohim and the Living Library, this makes sense to me, plus repairs another problem which appeared. These texts tell us that there are twenty alliances of the Elohim. The Cassiopeians seem to be separate or even part of the Andromeda Council, so removing them from the list of alliances left nineteen. The Sasquatch need adding
- Also in many of the paintings of David Huggins appear hairy creatures of different sizes

David Huggins has unwittingly painted the Elo'im, being a serial abductee himself for purposes of the Living Library. Ea/E.Yah/Enki/Ra the *green* Oannes is in the 'Aettir/Eddur compound' along with a Mantis, a Dwarf (of Whitley Strieber), four different greys including the blue one from Pegasus and the green one from Arcturus, –another is a Che-Rub he rod, a Dahl Nordic and a Plejaren or a Synthetic Succubi. Not shown are the Leptorrhin from Bireo in Cygnus, but they live under Shambahla. 𐤀s who can be *see thru* may be the one right in the background behind the Mantis. A “caution” to me is a result of my description of the word ‘cup’ thinking it meant those of the dice thrower Perseus the Parasites.

This cup is seen in many hieroglyphs and means the crucible – the holy Graal a possible reference to *en vitro* creation. So, do ask yourself – **how did David Huggins know to paint these?**

He is not the only one who has done so – Linda Porter has too.

Here is a more concise table of the length of the Zoödiac “Ages” in terms of our years
with one important note

in 705BC the Chinese records tell us that the year/orbit changed from 360 days to 365
the Mayan records have a memory of a 260 day orbit/year – which most likely happened at a time of a pole shift and
it is even possible we can consider the 705BC date a time of an Earth movement sideways but 4 95 3 tells us a
perfect roll occurred “**last but one**” shar (each of 3660 +/- our years) and here is another reason we cannot calculate
the Nibiru orbit in relation to our own years, because ours have altered more than once.

Since we have a shar due any time now (1691AD/2015) then the last shar was **ca 1970BC** ^{- 1969}
so the shar which caused the *perfect flip* was in **around 5,630** ⁵⁶²⁹ **BC in the age of Gemini.**

In the forum *SHARS OF NIBIRU & THE ZODIAC AGES* the **average** of each age period was used, now one can see why.
The date of 5630BC or just over 7,000 years ago fits with the evidence of extreme and long term flooding in Peru
a climate change so severe that this is also the time of “sudden urbanisation” out of the blue so to speak

FROM “LEO RISING”	FROM & TO	Quite unwise to use average numbers	
LEO ^{9290/9614BC shar}	10,373 BC to: ↓	LEO RISING 873 years into Leo = ca 9,500BC ↑

AGE NAME	Length of Years @ 365 days	Number of Degrees crossing each house	Each degree is ca 72 years/Earth orbits
Aries, a short house	1,440	ca 20	Age of Marduk: about 1445 BC to 5 BC
Taurus ^{includes the Pleiades}	2,664	ca 37	Age of Taurus 4109 BC to ca 1445 BC
Gemini	1,944	ca 27	Age of Gemini 6053 BC to 4109 BC
Cancer, a short house	1,512	ca 21	Age of Cancer 7565 BC to 6053 BC
Leo one of the largest	2,808	ca 39	Age of Leo 10,373 BC to 7565 BC
Virgo/Boötes	ca 3,168	ca 44	Age of Virgo 13,541 BC to 10373 BC
Libra	ca 1,656	ca 23	Age of Libra 15,197 BC to 13541 BC
Scorpio AND Ophiuchus	ca 1,800	ca 25	Age of Scorpio 16,997 BC to 15197 BC
Sagittarius,	ca 2,448	ca 34	Age of Sagittarius 19,445 BC to 16997 BC
Capricorn	ca 2,016	ca 28	Age of Capricorn 21,461 BC to 19445 BC
Aquarius	ca 1,872	ca 26	Age of Aquarius 23.3333 BC to 21461 BC
Pisces	ca 2,592	ca 36	started ca 5BC, take 5 from 2592 = 2587 C.E.
MILLWHEEL	✓ ca 25,920	360 ⁰	the Great Millwheel of the Precession

Pisces started ca 5BC, take 5 from 2592 = 2587 Current Era begins in Pisces
(=2587 of Pisces -1691 of Pisces = 896 years still to go before Age of Aquarius)
my opinion: Capricorn & Aquarius need reversing in house size.

Source **Norton's Star Atlas** charts show the **1930 IAU constellation boundaries** extended by multiplying **each degree by 72 years**

If we take Enki's Clay Tablet #10, which states that the Giza Plateau complex was completed in “Leo Rising” and the
astronomical clock within the ‘air shaft’ of the great pyramid does measure **ca 9.500BC**, then that is **ca 870 years** into
Leo, with still around **2,000 years** to go in Leo – thus “in Leo rising” is correct.

We are currently in Pisces Declining with still almost **900 years** to go and no where even *near* the cusp of Aquarius.
