ca 705BC - sun stood still, (Chinese records, AND in the Bible) 360 days became 365.

ca 700 years later huge earthquake under the crucifixion- followed in around y33 (?) PassOver #...  
 (and just what is that?)... And in the bible: Kings, Hezekiah/Isaiah and Joshua 10:13

so go another ca 700 years – more and less

Giovanni Cassini in i672 saw a new very large planet "behind" our sun ...

because all our own planets FOLLOW the sun... none can go ahead and get "behind" it.

Then to July 676 AD prince Otto made the calendars into 1000 AD. Wiping 324 ½ years off history

**Now why would authority do that?**

Was it a RESET? Keeping in our minds there is a long period for us to view the interlopers' journey inside our own planetary system during which time many of our planets are altered, not just in their stance but physical properties too. So far, this visit has been naked-eye seen in our skies since '2002' – and that has only been the incoming part of its trip! Eighteen years approaching, likewise for leaving. How apt is that = in ordinary view for at least 36 #... of our years! kept hidden from us for most of it by our grubberments.

Since the crucifixion of the *Martyr Jesus*, that would make this current shar around y672 of our orbit years each – almost all of those (up to Oct. '2013') consisting of 365 days.

The orbits we have had since Oct '2013' (to 2020') have been at at 377.8 days (and growing)

and y 672 plus or minus the real year 1 of our lord Jesus which could have been year 33, #... the

*martyr's crucifixion* date is close enough to the ca 700 year gaps that seem to occur between our own major upheavals.

The last time "comet" "Ison" came towards Earth the weather witnessed from y672 was as crazy as it is now. Here is a short summary from:

From *THE COMING OF COMET ISON & THE FEMALE CHRIST* by Dan Green

from Dan Green:

"Now that we are on the threshold of replacing the term 'paranormal' with an explanation of the phenomenon by way of the term 'Quantum Entanglement', it makes life a little easier to share one's experiences with the actuality.

Quantum Entanglement, used in physics to describe inseparable relationships between quantum systems which, when reduced to layman's terms explains how information can be shared no matter how far apart they exist – communication taking place outside of space-time to confirm the Buddhist\* teaching that all things are linked and that separation is an illusion."

- Rene d'Anjou 'La Fontaine de Fortune' – Comet ISON approaching? (asks Dan Green) *this for me; is to establish a date by their fashions, not the 400s... when stockings were underwear, the pointed footwear = mid 600s*

Dan Green speaking of the painting: "in which a fallen knight has a pair of wings upon his helmet, with a heart between. Naturally we are given to thinking that the hazy orb in the sky is a diffused sun, but if we were to think of an approaching celestial body then what we could actually be seeing is the fuzzy, temporary atmosphere of a comet face on. That it is moving would explain the noted anomaly in the illustration of the shadows not being in the same direction, whereby we would expect them to be if cast by a fixed sun. The nucleus of a comet may also be referred to as its 'heart', and the wings it sits between in the illustration appear to duplicate the 'wings' or discharge of a comet. Now, we refer back to the Comet ISON, for the letters are an anagram of ISON, the alleged Priory that watches over the Grail secret. Also, from the Rennes-le-Chateau Parchments that decode at Lincoln Cathedral is the enigmatic reference to **681**."

- **\*not only Buddhist, but the monk Michael Psellus the Younger made this statement in his 'Chronographia' in "1055"AD**  
**Just for the heck of it, I went to 6 8 1 (BUT 681 is also the DATE of y.681)**

*Pointing out the painting shown here must be in accidental reverse. The lady on the ground is not a "fallen knight" because she is wearing a form of wimple and would be riding her palfrey side saddle, and the knight's horse is behind the sorrel horse, which must be hers because it has a very long stirrup leather (for side-saddle occupation) but the single stirrup is on the wrong side of the horse. Unless the lady only has one leg. What would the piece of equipment signify? Looks like an apothecary collection. The "wings" and 'heart' on the helmet I think do refer to the winged red planet.*

Why was all this obfuscation?

Does Nemesis really have a 700 year give or take return orbit?

We have found via the Hidden Texts that we are really in **1344 AD @ 2020**.

Did Sitchin make an error on the length of a shar? Accidentally? or on purpose?.

Or is it 360 odd+ years out (and not 3660) and similar to return, not always fixed due to their orbital shar being elliptical.

Here is an example of why the Solstice days are SO important to the pagan way of life.

Imagine you are on Zha.am.i – Nibiru and the planet has reached its furthest point away before returning towards Sol.

The planet pauses for three of those 'days' as ours does when arriving at the solstice. In reality: THAT is the beginning of the "new year" saying goodbye to the winter orbits and looking towards the warmer return.

Our own winter solstice, December 21,22, and 23<sup>rd</sup> should be the last days of the calendar year, but the Julian calendar had it as first day of Spring and the Egyptians used the August harvest as the end of the [agricultural] year with September 1<sup>st</sup> the spring - hence the Lion bodied Virgo headed Sphinx.

But wait!

CURRENTLY that date for Spring is in the SOUTHERN hemisphere. Yet it only seems to have been that way since the late-middle y600s. We have two illustrations that tell us this, one is a prophecy (the vignette) and one is a prediction by Chavigny in early y600 hidden in plain sight.

These publications, followed by Cassini's y672 discovery by telescope in the same century.

The word "solstice" simple means "sun standing still".

In both the case of Zha.am.i and our planet, it is the same sun = Sol.

We have been witnessing signs of the mini Nemesis system since at least 2000 – first coming in, then wending its way PAST us and expected to *begin* leaving around 2021 to 2023 (according to the Russians) and now it is somewhere close about us – in view for the general public for at least the last ten years, and caught on many weather cams world wide.

Here is the place to add two mighty interesting images, both drawn up during the time of the Nostradamus family, in the 500s and early 600s.

Both show Taurus facing the wrong way, that is to say, the opposite way to the placement we see it today!

There are many other clues that Giza was once in the southern half of our planet.

The first provided by the good docteur himself – in his Preface letter to his 3 y.o. son Cesar (and to us, because we are as three year olds to his knowledge base) to "always, always look to the stars first".

The Name SUMER means "south sea" and the word Penu (pronounced Benu) means "south land".

For those who have been following the Hidden Texts, the constellation of Grus in the southern hemisphere is no stranger. It was once known as Bennu (a dancing crane with one wing bent back and its sharp beak in the tail of Pisces) but also known as Phoenixoptera, (and why would THAT be?Retruning from the fire/sun, re-set) Crane, Heron, Ibis and in the texts as Jabiru.Yet it brings to mind the dancing Brolga of Australia. A bird known to 5<sup>th</sup> dynasty Egyptians who left their mark at more than one place in Australia, the Bambara walls at Kariong near Gosford being the first to come to mind.

Recall the word PENULTIMATE in the texts, relating to a "perfect flip" last but one shar of Nemesis ago? Which I took to be in the Age of Gemini, using the information Sitchin left, that of a 3660 year orbit of the Nemesis system... that length of orbit now deeply in question.

and notice the curve of a giant planet in the background Casseopea and Cepheus are facing the wrong way as is Taurus (no hind legs) and the empire of Orion

**Chavigny i603 Pleiades**

Here is further proof Chavigny was "in the know" and NOT vilified by Nostradamus just because the doctor did not include Chavigny in his will. See the bridge? Means stargate

**whoever spotted this detail I salute you.** Once again the Pleiades has been depicted as just the seven stars in the image bottom left, but if you look closely at the cropped top left illustration there are eight, with the ninth cut off. The "bridge" once again proves Chavigny was in the know. We see Taurus here *back to front*, with Pleiades trailing. I personally saw two planets May 2017 – behind our sun top right limb.

- \*Hancock has a Maya reset date as August 3114BC – which was the 3127 BC. episode, taking a little time to recover, then record it
  - This was when our orbital year had been 260 days, according to Maya calendars - becoming 360 days as a result
  - making a shar of the Nemesis system at approximately a third more common so around four shar between 3127BC and 705BC when we became 365 days and the "miserable" Maya considered the extra five days as "bad luck" days (appr. a third more = 360 minus 260)
- In the Baghavad Ghita, the word Maya is taken as "deluded"

This dating will be explored herein.

How do we know the door lintel is 5<sup>th</sup> dynasty?

The aerial refueller on it also appears on a 5<sup>th</sup> dynasty stele in the Br. Museum titled "the Hunting Scene".

"Our knowledge of the succession of Egyptian kings is based on kinglists kept by the ancient Egyptians themselves. The most famous are the Palermo Stone, which covers the period from the earliest dynasties **to the middle of Dynasty 5**; the Abydos Kinglist, which Seti I had carved on his temple at Abydos; and the Turin Canon, a papyrus that covers the period from the earliest dynasties to the reign of Ramesses II. All are incomplete or fragmentary. We also rely on the *History of Egypt* written by Manetho in the third century B.C. A priest in the temple at Heliopolis, Manetho had access to many original sources and it was he who divided the kings into the thirty dynasties we use today"

Here we have the giant Pharaohs,  
Hind leg of the Cow = Ursa Major  
probably a meal for the giants, like a leg of lamb for us  
defeating the  
Benu-Crane-Grus-Heron-Ibis-Jabiru-Phoenixopterus  
(Oxyrhynchus – “sharp crane’s beak in the Fish” – Pisces)  
maybe they ate Herons back then, but this is a defeated  
bird, not a cooked and prepared for table bird.

Looks like a meal here. Egyptian scholars maintain the ancients used the term "Hind Leg of a Cow" for the constellation Ursa Major which over time has also been known as The Plough and The Big Dipper. Ursa Major has seven stars, whereas Pleiades has nine. The Points/angles on the hind leg above are 7. So going back to the actual stars we call the Pleiades, I tried to see if a cow's hind leg could be made out of the formation.

**NINE NAMES OF the PLEIADES: ATLAS, GRAN/NAN, AND THE SEVEN SISTERS**

THE PLEIADES  
NINE STARS, NOT SEVEN (actually 40 named stars of over 200)  
A NUMBER STATED BY OTHER SUPPOSED DECODERS  
IT IS URSA MAJOR WHICH HAS SEVEN STARS, THE MAIN ONE BEING  
AL QUAEDA (AL KAID, pronounced Al Kay-ed)  
URSA WAS ONCE TERMED "LEG OF THE COW" BY THE ANCIENT  
EGYPTIANS. THE LEG FACING THE OPPOSITE WAY IF IT WERE MEANT  
TO BE THE PLEIADES  
NOT LEG OF THE BULL (Taurus) WHICH HAS NO HIND LEGS AT ALL.  
THUS EXPLAINING WHY THE LEG OF THE COW IS TO THE LEFT OF  
ORION IN PETROGLYPHS, WHEN THE PLEIADES ARE TO THE FAR  
RIGHT OF ORION...  
THE ALKHEMY NAME FOR THE PLEIADES IS THE "HEAP" & THE  
"PILE" & "MANURE" BECAUSE THEY SIT UNDER THE "TAIL" OF  
TAURUS

*The reason for comparing these was to see if the Cow's Hind Leg above was actually depicting Pleiades back to front. Checking on this because Pleiades is in the same sky not far from Grus which has its beak in Pisces, but not with its head bent back. Do you think the shape of Pleiades could be a cow's hind leg?*

A thought just came to me

We can be certain that Nostradamus lived in the 6<sup>th</sup> century and not the sixteenth.  
And that Presage J562 was exactly that. In the year of our lord Jesus.

This means that when Mohammed/Muhammed was born y571 AD (April 22nd) he was born five years after the doctor was killed. So, when, in the Preface to his three year old son, NostraDamus wrote:

**"This is in spite of all the ambiguous opinions surpassing all natural reason, expressed by Mahomet;" ~ Mahomet had not yet been born!**

*"For according to the celestial signs, the Golden Age shall return, and after all calculations, with the world near to an all-encompassing revolution [poles shift]*

*- from the time of writing 177 years 3 months 11 days - plague, long famine and wars, and still more floods from then until the stated time.*

ADDING 177, 3, 11 to March 1 1555 = 1732. Go TO C1 Q7 L3 WORD 2 and there is THE DATE xiiij 2013 June or July with the word "combien" under the quatrain in the original

*Before and after these, humanity shall several times be so severely diminished that scarcely anyone shall be found who wishes to take over the fields, which shall become free [of owners] where they had previously been tied.*

*This will be after the visible judgement of heaven,*

[ASTEROID HIT, NIBIRU, POLE SHIFT, ICE AGE or HOLOGRAM]

*before we reach the millennium [FOURTH millennium] which shall complete all.*

*In the firmament of the eighth sphere, [VENUS] a dimension whereon Almighty God will complete the revolution, [ORBIT] and where the constellations will resume their motion which will render the earth stable and firm, but only if He will remain unchanged for ever until His will be done.*

*This is in spite of all the ambiguous opinions surpassing all natural reason, expressed by Mahomet; which is why God the Creator, through the ministry of his fiery agents with their flames,*

*(the Seraphina / Seraphim or Nibiru solar system) will come to propose to our perceptions as well as our eyes the reasons for future predictions."*

RECALL in "Armageddon Warlike Image", page 33 maps of star formation floorplans found by a boy, William Gadoury, which led archaeologists to more discoveries in Central South America – and that those constellation formations are all sideways? Guatamala in particular seems to have been a hot spot of high technology in early times – when Antarctica was at the Equator (and very likely wore another name such as LeMuria) which also helps date the Guatamala cities at prior to 6,500BC. According to the C.I.A. report Adam & Eve.

Find the Vallard Atlas 1547 – where all land masses on Earth are displayed sideways, with a couple showing the North at the bottom of the map with the excuse that "this was how Islam did their maps".

If they "did their maps" with "all showing north at the south", why then are most of them shown sideways?

Also, Christosphere Celumbo returned to Isabella in 1499 – which date and 1547 were prior to the reset dates of 1583/Rome to y672/Cassini to y676/Constantinople – when Ison finally hit in y680 on its way out.

974 It would be better Breton king *aquainted* Norman king. Which they *did* – in y596!

Currently our history has the Bretons (King Artur) and the Normans (Willelmo) ca. 400 years apart although Wikipedia manages to stretch the Breton age & Norman age to "meet".

The difference between y1066 and y596 is 470 years

No where on this tapestry is there a date nor a clothing fashion that even looks remotely like the 11<sup>th</sup> century.

There is, however, an interesting astrological date *said to read* March 15<sup>th</sup> 1495.

We have learned that this is really 1495. This would fit well with the "W" consisting of two "V"s

Did the person interpreting the astrological date get it wrong?

Or did that astrological date refer to something one hundred years earlier?

Meanwhile, during the period y596 the real date shown on the Bayeux Tapestry

(which had taken 11 years to complete)

the date of y582 and y583 had produced the "newly made millenium" of 1,583 in January in Rome.

It is not commonly known that this calendar had not been accepted world wide until 1,922.

What do you see?

There are people calling this a Merkaba. I only know it as a Therses, and we have all seen it hovering in front of Nostradamus at the Last Supper table, putting one man into shock forcing him to lean back. Since the texts called this man a "lout" I am not going to describe him as an apostle or disciple.

**bindu**

means to "transform" to leave one state and become another. In the crop circle the division of solid state translating to another is shown by comparing the dark and the light.

The artifact found in Central Mexico 1955 shows the *cronor visor* using a therses to see below.

By a weird serendipity, the same day the bindu post appeared was the same day both these crop circles were shown me.

Where we see bindu in one form above, we see it in the other form here, the square in movement - translating (moving across) The cube inside the golden sphere.

In 1947, Admiral Richard E. Byrd led 4,000 military troops from the U.S., Britain and Australia in an invasion of Antarctica called "Operation Highjump", and at least one follow-up expedition. by Erich J. Choron from GreyFalcon Website

That is fact. It is undeniable. But... the part of the story that is seldom told, at least in "official" circles, is that Byrd and his forces encountered heavy resistance to their Antarctic venture from "flying saucers" and had to call off the invasion.

 It's here right on time! – What is here? Ison/Nemesis, of course!  
 and y680 was 664 years ago, which explains the condition of the coin.

Helen Parks When writing up "safer places" out of the Hidden Texts of Nostradamus - turns out those have been in quite the opposite places to where Zeta-Talk advises. Plus all the Zeta-Talk places seem to contradict each other over the years

Helen Parks For one thing NOWHERE in the Hidden Texts does it say we are going to have a pole shift. The planet will lay down by 6 to 8 degrees [more] a move of about 5,000 nautical miles - which agrees with what Isaiah said

ENDNOTES

\*not only Buddhist, but the monk Michael Psellus the Younger made this statement in his 'Chronographia' in "1055"AD

This particular "IO55A.D." would be prince Otto's "new made" 1055, changed in July 676 [A.D.] therefore the real publishment date for *The Cronographia* would have been  $676/^{1000} + 55 = y731$

ca 705BC - sun stood still, (Chinese records, AND in the Bible) 360 days became 365.

These were the "unlucky" five days of ceremonials that included ripping the heart out of a person's living body/ this is halal killing. So, raising the question of the age of the Maya - certainly much older than variously "900 years ago" or "from around 600 AD" ... which we used to hear touted about in some documentaries.

The Mayan calendar stipulates a period that held 260 days in their "tun", and this seems to have been until the June 3127BC event which Hancock has as August 3114BC (following a recovery period in that particular reset). Here we can see the Maya, or Guatamalan, had a lengthy society. The wording in the documentaries may have been "disappeared 900 years ago" or "disappeared around 600 AD". That 600 AD being the timing of a reset.

**Now, for todays news.** February 4<sup>th</sup> 2020: main stream media has finally published the find of a fourth pyramid including its causeway, on the Giza Plateau. If you had read the *BAUVAL and More From Leonardo...* pdf Jan'y 2016, you would have seen that the texts warned Bauval that he could have been the hero of this discovery had he studied the matter more closely instead of sticking like fly paper to his Orion's Belt theory.

The consequence of this validation (of the Hidden Texts) is the admission that Orion's Belt it can not be, thus, which constellation was it? Cygnus as an idea for the floorplan had to be released on account of it flying the wrong way.

Once one accepts the importance of the Benu/Bennu Bird caves, one must accept the whack on the back of the head that Gibbs was famous for, bite the bullet - and realize it means the BENNU BIRD constellation.

By now, we all should know the catch to that idea- that Bennu-Crane-Heron constellation (which Henry Salt suspected and which the texts said he did) is in the southern hemisphere.

Why design Giza Plateau on a constellation in the southern hemisphere?

Because Giza was in the southern hemisphere. Because BENU means "south land".

The name has been changed to Grus (and why would that be?) with its "sharp beak in the fish".

The fish being Pisces. There is an ancient town near Al Faiyoum named Oxyrhynchus. This is Greek for "sharp beak in fish".

" circa 750 years ago...

Oct 27, 2017 Introduction by Rick Duarte Jan 21, 2018 (I342 AD minus ca750 = ca y592)

"750 years ago, the world was plunged into darkness for years on end. Thus began the Mini-ice Age. Crops failed and the resulting famine claimed tens of thousands of lives across England and Europe. What Earthly event could have produced such a catastrophic event? In a years-long, scientific investigation, teams of scientists were able to finally uncover the mystery that has led them around the world, from pole to pole.

Now you too will know what happened in Indonesia 750 years ago." A volcano set off by...Ison

ONE really needs to be patient when working with these prognostications between the alert and the event, yet on many occasions the predictions have been found as briefly as the day before the event. Except the one being mentioned right now is the cause and effect of the execution of Nanar, king of the Anu. Personally I am just glad I lived long enough to explain this, because had I not, no one would have ever known! This was published in the original *Hidden Text of Nostradamus* website, December 9<sup>th</sup> 2009, and I write February 5<sup>th</sup> 2020.

Close to a tad over ten years between the *consequences* and the *publication* of the prediction speaking of Andromeda Council giving permission to the Anu to return to Earth ostensibly in order to retrieve equipment. Imagine my astonishment when watching an early video dating back in around 1994 or so by Alex Collier, where Alex describes the exact same set of details! With my watching it 15 years later (1994 - 2009) shortly after finding this line, which turns out (after 1994 to 2020, or really August 2018, has elapsed) to have been a test for the Anu.

Giving them enough rope to hang themselves.

To be explicit - the execution of Nanar 18<sup>th</sup> August 2018 for *Contempt of Court*.

Exploded on the spot. One wonders what happens to the "id", the soul, in cases like this.

Following death of their king, Ninghizzida was made king. At the same Hearing Marduk was placed under house arrest because he claimed he would redeem himself (and there has been a line recently about that).

I feel, however, that he also is being handed that same length of rope.

Simply because the Council knows the future.

Whereas Marduk, like Allah-Lu, thinks he can dodge death using time-gates - so there right away we can see what "house arrest" means for Marduk.

well - this just blows me away! This is speaking of the subject Alex Collier stated: that the Anu (as we call them) approached the Andromeda Council for permission to return to Earth ostensibly to retrieve plant and equipment from their gold mining enterprises. As Sitchin wrote, they need the gold and other minerals to make the SAFEGUARD MANTLE which they constructed around their entire planet as a solar power and safety unit. "SAFEGUARDED ENDANGERED QUARTERS UP" As we have seen throughout these forums, factions of the Anu have other agendas, and one would wonder why the Andromeda Council has allowed them to approach Earth which the Anu see as their own private "zoo". It seems the Council is waiting for them to "mature" and to see the consequences of their actions

#### "Mirror Entities , and Artificial Intelligence

- 1) Each individual in these types of programs ( IBIS ) is assigned one ‘mirror’ entity.
- 2) The first physical connection will occur during a portal connection ( see Looking Glass event-1982 Penang, Malaysia ).
- 3) The Mirror Entity will continue to periodically torture the individual in various ways to allow easier fracturing of mind for CROSS-OVER and OVER-SELF cloning procedures ( see Looking Glass event above )
- 8) If the Mirror Entity is victorious, it will gain full control over the mind and body of the individual permanently. If process 8 occurs, the **Mirror Entity will infiltrate human society posing as the original human.** The Mirror Entity will have full awareness of what it really is and will exist as a shape shifting being of unnatural type.
- 12) Be advised- Both the individual’s and the Mirror Entity’s consciousness are essentially trapped within the A.I machine. This process occurs and the other being and I are forced into this alternative body. The reality can only be described as two beings trapped inside a tight dark space, screaming to get out and struggling against each other for survival. As this new body is infused with more alien DNA than **human/Pleiadian** [negative Pleiadian] DNA, I lose this psychic struggle and become 'locked' in an area of my mind. I am now barely conscious but the part of me that is conscious is screaming to get out. The alien’s consciousness has more control over the new body, however this Mirror Entity is trapped too and under control by the AI system, so the alien is screaming to get out as well. As I said, this is a diabolical process!"

*Spending today trying to find Alex Collier video links, in particular the video regarding the topics mentioned here, but time for me is running short and I do not have spare days to be watching videos to pinpoint the one concerned... The book requested of me needs only to be compiled. A book about Nostradamus and his life in relation to the almost magical texts which he was handed, his meetings with Leonardo Da Vinci, (which all on its own seems an impossibility), his travels thru Egypt (in times of a mini ice age) a full rendering of the original quatrains, albeit without their hidden meaning since those are here ; and his final true and unique manner of death (which I witnessed). Why would I forgo publishing a book like this at a time when the world needs to know, just to do myself in? Why kill me over time travel when we have the likes of Al Bielek, John Titor, Randy Cramer and James Casbolt already letting the world know ! These same guys also have the other knowledge being imparted from these texts relating to tools of peace and weaponry. Not to mention Alex Collier, Jim Sparks, Michael Tellingner and Simon Parkes. Vladimir Putin too. The difference between my ‘mandate’ and theirs is that many of these texts are prophecies & have been coming true. So what do readers do with prophecies ? Not very much. To me the fact that some of this information comes in the format of true prophecies is not the real point. It is the little alerts, such as ‘keep your guns loaded’, and the chemical danger to children in all types of bottles, the fact that we have shape shifters among us, and that these were even seen and written about thru the ages. If, after spending all these years gladly doing these works, it only produces a positive result relating to **repairing the calendar** and **nullifying the ‘trade in children’ clause’** – then my work is done. Apologies for this if it appears as a tirade, just trying, as usual, to ‘make sense of the senseless’.*

“I would have to get into the detail traveling using Resonant Frequency at another time, too complicated for email.

Al Bielek – Original WingMakers:

There is going to be an announcement of a **new financial system** between **January 20th** and **early February**.

However, this may be **delayed by die-hard Satanists** who do not want to see their rule end.

By the way, I have been informed that **David Rockefeller** has ceded control to Sen **John D. Rockefeller IV** and Evelyn de Rothschild has ceded clan leadership to Baron David de Rothschild.

So, according to my latest intelligence the 5 points of the pentagram consist of:-

Queen Elizabeth, Papa Bush, J. Rockefeller, David Rothschild and the Satan worshipping Pope.”

The detail of which I speak which proves the elite and their plans for a new world order does not eventuate; (which included all the bogus and secret 'trade' 'agreements') is shown when Al Bielek asked the nurse about 'chemo therapy' for curing cancer.

Her response was "oh we stopped doing that a while ago, we now use sonic frequencies".

If you have been following (re-searching) Alex Collier you will know the cost to him and his family these ongoing contacts have caused... he speaks of the Nibiru event & how to deal with it & in this video he provides us with the best advice, full of common sense and most likely factual in all of its essence. The Saturnins are the Anu – burned by those who run the great millwheel of precession – the Andromeda Council. A correspondent who does have pertinent things to say (Marc DiGuisepe) said to me the Council will get sick of the Anu never "growing up" with their constant service to self and lack of desire to improve their souls. Alex Collier said the Council had been approached by the Anu to return to Earth to "retrieve plant and machinery". They were given permission to do that – with, it seems according to many lines herein – this being their final chance to "behave" themselves saying they would be "burned up"!

ALEX COLLIER EQUIPMENT ~ NANAR EXECUTED

The reasons I see Collier as very "real"?

1...He named Ayse as did Anton Parcs long before I published the name found in the Hidden Texts...

2...He spoke of the Anu asking permission from the Andromeda Council to return for their machinery and plant and then more than one Hidden Text line said the same thing 20 years later - from the Template – a thing we have seen is scrambled and requires putting into context first then de coding.

ALEX COLLIER LINKS noting that nowhere throughout all of the Template is the full word SIRIUS to be seen. Ciphers for it are plentiful, however.

**"THE FIRST GROUP TO CONTACT US WILL BE FROM SIRIUS B – THEY ARE FULL OF SHIT"**

and how many recognise the "coincidence" that Steven Greer's group is named using the word **SIRIUS** **this shows either a lack of knowledge, or a ritual mocking**

Which is also what all the ridiculous SaLuSa "channelling" via Michael Quinsey is all about, dialect to suck you all in. See many Quinsey contradictions in FALSE RAPTURE forums

None of the common tests for age are correct. Carbon 14 'can be up to' 700 years out give or take (why to 700 years?) the excuse given has been "due to bacterial patina". Ice cores can have "dust" delineations *more than once* per year. Tree ring dating *is always false because trees do not grow at all* during an ice age.
