

They did not have to kill him

John Kanzius mysteriously died suddenly February 2009, two weeks after posting a video showing the "burning of salt water". He had been seeking a cure for cancer, and found a free energy source instead. By passing certain radio frequencies through sea water, the reaction of a flame of intense heat was not the expected outcome.

The accolades he should have received had turned sour in two ways...

FIRST

By his unexpected death from a "heart condition". For many decades the alphabet agencies have all had the use of a frequency weapon designed to stop a beating heart.¹

SECOND:

Within months, certainly by 2010, the US Navy had cargo planes with engines based on the John Kanzius' discovery ... yet no patent was ever registered.

One might say, within moments of this fabulous discovery, the entire idea had already been made obsolete. Rendered so by knowledge the 'elite' had kept for themselves since 1934.

Following the illegal treacherous 1933 "deals" of a cloned F.D.R., made with beings of undetermined origin, selling humanity out so he and his cronies could profit from technology received. Amongst which and including free energy devices. The same which power unidentified flying craft and the same which power current Airbuses. The same described in the letters "Ha" from line two of Presage y566 [the year Nostradamus was was killed]: (see *One Sent To Die Unique of All Deaths*)

(Ha-Du/element 115 pg 10, 11 pdf article *Androgyne Dorean Smart SpaceSuit* May 1 2018) :

Ou il ha le paradi, Its the ha^{dubnium/115} paradigm otherwise *in another form*

In this enigmatic sentence, Nostradamus is also alluding to ormus, white powder gold, the same of line 4 in 1 42^{y555}

"Seeking the gold of *d'amant* /^{the ornament} (Nostradamus 3 94 2) and Psellus (Michael Psellus the younger)" with *d'amant* being diamante, or *black* diamond. Ebonics energy is achieved via *obsidium*, so imagine what energy might be derived from *black* diamond laser. The missing fourth pyramid was made of obsidium. The properties of ormus boggle the mind. Best to seek Laurence Gardner (R.I.P.) videos without using google. Try DuckDuckGo or Ixquick/Smartpage. It is worth mentioning that Bob Lazar in his Area 51 disclosure, when he said "element 115 cannot be found on Earth" was saying so in order to preserve his life. Ask yourself why are those places where cars drive themselves uphill all now under military guard. Yet on the Earthly Table of Elements Ununpentium is shown. Ununpentium is 115. The Hafnium/Du has been obfuscated by the likes of Wikipedia telling outright lies about it. The Russians from Dubnia have been telling the truth. Keep in mind names are changed to hide things about them.

When ormus is ingested it protects DNA from damage during time gate trips. The reason we see blue "gods" across the planet is they were ingesting *silver* with their ormus. Carried in those little 'handbags'. Ormus is also known as monatomic gold, white powder gold.

In the bibles ormus is Shewbread. In some hieroglyphs you can see it floating above its plate.

The acronym O.R.M.E. refers to different yet similar things.

[Contrary] Orbitally Revolving Magnetic Energy, and Orbitally Rearranged Monatomic/Molecular Energy.

Empirical Proof Of Time Travel (apart from the Patent google has; titled *Full Body Transport System*)

In Summary:

Key words are;

Circular Molecular Phenomenon (adjunct electrical currents and the correct frequencies displayed by cymatics)
Dodecahedral Magnetic Frequencies (certain cymatics provide the proof of the correct frequency – a vertical cross induced by receptive properties in particular stones – such as Tellinger's 'stone pointers' which *are not* pine cones)

Gene spliced DNA

(in rare receptive people)

Ormus ingestion ~ C+F+ endnotes

(a *particular* gold – made into white powder gold aka mono-atomic and other names, along with old world maize enzyme)

Therses ~ Cronus Visor

or one of "seven conduits" (I am reliably informed that the Industrial Military Complex have been shown other "conduits" for the purposes of manipulating and gaining "profits" as part of their off world "treaties" agreements)

Here we have the "tree in stone" again. Quite obviously not a real tree, but a machine, and the evidence? The hovering haoma of the ring lord – either descending or leaving.  No, I am not an electrician, but someone will understand. Copper-plates described in these texts may additionally be a hint in relation to the ZINC words found twice in the Telling forums for free energy. Subsequently further description was provided relating to HAOMA and the metals details in 10 100 4 (noting it is the very last Quatrain line)

 The line 2 72 4 pg 20 of A Fill In While Working On Armageddon (connects 10 72 DOES NOT SAY on its page 12) contains descriptions of how and why the copper and sonic sine-tube/pipe units are "rewound intence" sic. meaning tightly Here is where I asked again "are these the copper-zinc units"? ? Copper-zinc being Brass (where the word Brasil derived, as in Hi-Brasil of Atlantis) but also Brazil. Copper-tin was mentioned too, this is pewter.
 Therefore this is neither a "tree of life" nor does it (the ring lord haoma) have wings- it is encircled by copper wiring for a torodoil result with electrified sonic frequencies through zinc tubes. Not forgetting that the electron beings (One Male/Menolea) "man of fire brought down" possess a copper based blood, and not iron like ours. Their height and bulk – around the eight feet high and more would also have an influence on their abilities. These abilities carried by their DNA is what was removed from their genetically manipulated "lulu" future slaves, (we, the people) along with immortality. They maintain their immortality using care-ful maintainenece of their DNA by ingesting ormus (which creates a glow) and sometimes silver added – which makes them bluish in colour.

HAOMA of 2 70 3 The tree in stone (wall frieze) (DNA) fiery tribe brought down, a pun/carried down, and put down. here are three very early examples of a time gate trip being initiated. It is easy to see how this image evolved into birds wings. This is the Ring Lord, with his anode and diode, his realms of copper coils surround him, and the "tree of life" in the foreground (which people parrot on about for some reason) which is the electro-magnetic sonic energy propulsion system. There is zinc involved here too ??(say these texts 2 72 4) This is the infamous "mercy seat". In the image bottom right we can almost see a kind of craft being formed. The image below shows the EMR being contained by cables of some type, which the top image does too

publication using BI THESAURAL one of the directives to the Collator –(Template 1 29, 1 87 4, 3 54 3, 4 51 3, 5 61 2, 5 62 1) and it then says:

BRANCHES has been investigated at some length in other pdf forums, basically referring to BRAN CHE which turns out to be CHANI, an
off world assistant to Nostradamus in stargates – once was Bran The Beloved and St Michael. CHANI IN MACHINE ^{4 61 2} say the texts.

Very few moving parts will always triumph over engineered machinery.

These same "treaties" FDR began with three supposed off world beings included turning children into legal CARGO – (hence BIRTH CERTIFICATES) and selling out our DNA properties.

The technologies received by the elite/shadow governments have reached the stage of "magical" and include "MedBeds" which can return life to the dead. These technologies included humans flying to the moon in 1939. There are five different types of clones.

Most world "leaders" have at least one copy of one type or another.

Further to the PDF forum (article of collected information dispersed among the works of Nostradamus) titled *22 Types of FREE ENERGY* from Allan Webber's *Computerised Template 20th October 2019*

My brilliant eye doctor set this article into motion by asking me:

"but how does the revolving magnetic wheels engine start?"

My answer was "humans need to use their brain" – meaning that we do have access already to many types of starter motors, we only need to think about it and find a suitable one.

STARTER MOTORS

The Greek Inventor Heron of Alexandria, also known as Hero invented a steam driven propulsion engine. He called it the *aeolipile*. C+F+1 11 2 illustration herein. A simple steam powered device which only needs an axle extension from the hub of the magnetic wheels.

Sooner than thought, ^{time travel} arrived too late.

recall what Ileana † said – Doreans arrived to see the gore

You will recall from Part One of this Topic, the pdf forum

ANDROGYNE, DOREAN and SMARTSUIT published May 1 '18:

the reason I immediately accepted the testimony of Ileana? There were three reasons. 1) Ileana was trying to explain to the public the dangers

of believing Corey Goode, which these texts also did. 2) Ileana used the name DOREAN. 3) Ileana mentioned in passing the gore kills on board

when the Dorean had boarded the arrested cigar ship. NOWHERE else

have I heard ANYONE use that word – under ANY context at all.

Albeit, the word appears in the Template for the Hidden Texts as

DORLEAN – that was because Allan Webber did not know what it

was either. The ONLY people who might know are those with the

Triple Method in their head. Not many of those around ! Knowing

immediately who and where from, provided from within the word

DORLEAN – DOREAN from L = Tau Ceti

+ ILEANA former pilot for the Secret Space Program (SSP)

recall what Ileana said – Doreans arrived and boarded the cigar craft taken, to see the gore from torn up children.

During this particular battle, the Dorean (Tau Ceti "police dept" for the Elohim Alliances) lost their own craft while defeating the reptilian cigar craft. Consequently, despite the several warnings in the hidden texts about discerning the status of visiting craft that the cigar/zeppelin type belong to those which arranged treaties to take human children as CARGO; there IS still one of these craft manned by friends, the Tau Cetians of the Elohim Alliances for the Living Library.

At this juncture there is a detail I would like to include which was published in an obscure pdf and probably laughed at by the readers. It is a brief transcript I made of a 1959 movie which in hindsight – was telling the truth.

The craft shown in this story are/were Vrill craft.

J-ROD45 & TREATY IX is to be a forum sometime soon and it does speak of the walking dead..

PLAN 9 and ED WOODS DIRECTOR

January 12, 2015 .

did Ed Woods the director travel to his future? Or maybe he had access to a cronor visor

Ed Woods gained the worst director award - **but he WROTE the script too.**

Where did he get the idea of "Plan Nine"? It is Treaty 9 which includes the "trade in Men" clause, and the walking dead are what we call men in black... The first of the real life False Treaties were signed by a cloned FDR in 1933, the elite had free energy in 1934 – from exchanging (trade) humans for technology... each "treaty" has a nine year tenure. Obama ratified Treaty 9 (trade in children) Nov 8 2014 – 81 years after 1933 and this is why within weeks, the Mexican children crossed the border minus parents and simply disappeared. THIS is also the main reason FULL disclosure has not happened.

1) **see the chemtrail at 5:49** *the patents for chemtrails (chemical trails) are dated 1984, Vatican produced a 1985 coin showing a chemtrail plane zooming across the top of the coin over a map of the world, minus California*

2) **decals** – *see the current space program decals on the 'aliens'*

3) **"beam into the pituitary of the newly dead"** (in 1959?) *this is a current SSP technology called MedBed*

4) "as long as they can think - we will have problems" *noticed the dumbing down in the school system?*

5) "developed a language computer" (1959) *the Japanese have designed and produced a handheld language translator*

6) "we could have destroyed Earth eons ago" *like they did Mars*

7) "you are on the verge of destroying the entire universe" 45:05

(and nuclear weapons ARE felt across the Quantum Universes according to the hidden texts. The Universal Non Nuclear Proliferation Treaty was ratified July 16 2019 so that ANY mention of "nuclear threat" on msm is all paper tiger talk fear mongering)

8) "use your small electro gun"... "throw it to the floor, it will break contact"

9) at 52:50 listen to the birds frogs and insects in the back ground, that was how the world was in 1959

10) "and every word of this story is true"

11) "I can't help feel the answer is out here somewhere" **(indirect ref. to quantum physics)**

12) "Are you going to let them [humans] find us"... "it's the only way"...

13) "I will turn on the **victa robotory** so we can converse with them"

14) "You will be the first **live people** to enter a celestial ship"

15) "never heard metal sound like that before"

16) "I am shooting first and asking questions later"

17) "wouldn't it be better to kill a few now than let them destroy an entire universe?" Aeros

18) "turn on the tele visor" *(long before street cam was even a thought)*

19) "I am a soldier of our planet" (The anakim are warriors) "come to ask your aid, **but your governments refuse to accept our existence**" "because you on Earth are idiots, split the atom..."

20) "the juvenile minds of yours will never comprehend"... **"rays of sunlike are minute particles..."** *since proven true*

21) "no use of the mind god gave you" "and a chain reaction will occur"

22) "our entire aim is for the developement of our planet" Aeros

23) "some one will pass you in the night and you will never know it [that it was an alien]"

24) "God help us in the future"

URIAH is Urri' a planet in the Nemesis solar system

To determine the different times which give us either a 'rapture' or an 'ascension' event, we need to look at the clues. One definite clue regarding a 'rapture' event is the alliance between Sirius (Prince of Dark Men – or Dark Men of Prince. Prince being obsolete for Sirius), Orion and the Eridu. Eridanus is a constellation which sweeps across the Milky Way from the area of the "Sea" in which sits Aquarius, Pisces and the nautical constellations... to the foot of Orion, almost in supplication to Orion. So to say "from Eridanus" would therefore be a sweeping statement. The forum regarding the Anunnaki is going to be too large for this method of publication, but one thing learned from the lines for that forum is that there are a very large number of names which relate to the Anunnaki. They have alliances everywhere.

Eridanus has been compared to the River Jordan, and it is easy to see why. That saying 'as above, so below' comes to mind.

TESLA OFF GRID FREE ENERGY GENERATOR VIDEO

http://www.off-gridindependence.com/?aff_id=24662

October 25, 2011 - World's First "Energy-Storage Membrane."

"Compared to rechargeable batteries and supercapacitors, the proprietary membrane allows for very simple device configuration and low fabrication cost. Moreover, the performance of the membrane surpasses those of rechargeable batteries, such as lithium ion and lead-acid batteries, and supercapacitors."

- Xie Xian Ning, Ph.D., National Univ. of Singapore

A team from the National University of Singapore's Nanoscience and Nanotechnology Initiative (NUSNNI), led by principle investigator Dr Xie Xian Ning, has developed a polystyrene-based polymer membrane that not only promises greater cost-effectiveness in delivering energy, but also an environmentally-friendly solution. Image by Xie Xian Ning, Ph D.

The soft, foldable membrane is sandwiched between and charged by two metal plates that can store charge at 0.2 farads per square centimeter. This is well above the typical upper limit of 1 microfarad per square centimeter for a standard capacitor. The cost is much cheaper - 10 to 20 watt-hour per US dollar for the membrane - compared to only 2.5 watt-hour per US dollar for lithium ion batteries. Potential applications: hybrid vehicles, solar panels and wind turbines. See National University of Singapore.

I was a paid up member of earthfiles at the time Linda Moulton-Howe was educating us regarding this technology. This energy storage membrane along with memory based metallic substances (cant bring myself to call it "metal") and the information regarding graphene 'storage' is the basis for the Smart Space Suits and the DNA shared craft. The same which initiates shape shifting of the craft between animal/octopus/jellyfish etc to mineral/black cube to vegetable/walnut etc and anything in between. These three examples are detailed thanks to an event in Texas where at first it appeared to be a walnut shaped craft (described by Da Vinci) then turned to a black cube:- leaving as a jellyfish. These entities do seem to prefer sea creatures such as bluebottle or shrimp or tentacled flying objects.

endnotes ~ Ormus ingestion ~

A highly pertinent set of events this week has culminated in this publishing of up close and personal experiences Alec Newald suffered. In his telling of the details, some point out the amazing properties of ormus.

For me, having produced the Collating of the Template by Allan Webber (who does not believe in off worlders) this book from Alec Newald held many troubling details.

The primary concern of which is the name Zeena gave him. Anu.

Why? The word ANU means simply "one from heaven"- The letter "U" harks to Urania, the heavens.

All the same, I dislike the coincidence. The apparent fact, king of the biblical Anakim was named Anu.

From memory, reading the original book a long time ago, Newald said they went to Saturn. Connotations of Saturn rarely receive applause and accolades, do they!

For one thing, the texts told me to find the works of Jno Cook and his Saturn Cosmology. The "cosmology" of Saturn includes it was once our own sun – and will be again!

The other thing? Troubling me immensely, the quatrain tells us that the "Saturnines will be burned by the millers".

5 11

*The sea will not be passed safely by those of the sun,
the Anakim will not pass safely over those
from Celestial Sea (Argo-Mantids)*

Those of Venus held all Africa.

(They are the Vril under Antarctica)

Saturnines will no longer occupy their realm,
(see Saturnines burnt by the Millers)

And changing the Asiatic Adriatic part.

5 24

*Raised under Venus the law and realm,
(Valiant Thor said he came from Venus
Is the law and realm raised by the Sun,
Saturn will have dominion over Jupiters empire:*

By those of Saturn suffering worst fire.
*the rings of Saturn have been disappearing
The Saturnines – Anakim "of/from the sun"
burnt by the millers: – the Elohim Alliances*

6 17

*After the queues [orbits] the ass-drivers [Aurigans]
burned,
They will be obliged to change diverse garbs:
(space suits – see Newald's details)
Those Saturnins burned by the millers,
*The Elohim Alliances (millwheel of precession)
will not be covered OR
Except the greater part which can not be
covered. [hidden (the Quantum part)]**

The concern for me here is that the quatrain seems to say the Saturnines are negative in nature and that the Elohim Alliances for the Living Library (the Millers of the Millwheel of precession) are "dealing" with them. The face Alec Newald describes of these peoples is quite opposite in nature to that described by the hidden texts (which derived from Chani a younger Elder).

Reading Newald's CoEvolution very much brings to mind those Tall Whites of Charles Hall, yet run by The Elders?.

Another detail provided throughout these hidden texts is that of the "velvety square clouds" within which Newald clearly describes travelling at the invitation of the Elders. The same of the Sparsholt Crop Circle with two tablets of information. One a disc in binary. The other similar to The Ten Commandments tablet. The exact same day the Orion grey appeared in a crop square at Arecibo. Yet we only ever hear about the Orion Grey. No one has EVER published a translation of what the Elder was trying to tell us. For me this is a pointer that the "dark energies" controlled the matter.

Confusion does not describe the conflict within me.

Was the entire Alec Newald event a charade? No, doubting it was a charade - normally meant to disguise something. For Alec, much was not disguised, but proffered, such as the construction of the shape shifting craft, the space suits and the food, ormus, formerly named in our bibles as "manna" and "shewbread".

Serendipity and the forum you are reading

First a "friend" request on facebook that lead to my receiving from her an updated version (2011) by Alec Newald (a real life friend and neighbour of hers) of his account of CoEvolution... ISBN 0 9587093 00
I strongly recommend you find this book and read it.

Due to Copyright I cannot reproduce any of the book.

Instead: Key words and para-phrasing is the best I can supply, simply because Alec Newald has published so many parallels to these Hidden Texts and to many crop circle appearances which already do appear as images scattered throughout these forums of Hidden Texts, that themselves are parallel to the texts' hidden information.

- o CRAFTED AIR, (ARROGANT FOR PROFIT) goes with the DEFOLIATION AGENDA – which words are within the line. Believe it or not – they plan to sell you AIR so that joke about "next thing they will be taxing our air" : is not a joke. And you are letting them spread chemtrails – all part of the DEFOLIATION program. There is an entire collection of lines from the Template which make a pdf titled AIR, TREES & DEFOLIATION which got started nearly ten years ago but had been placed way back in the queue. Do you see how one will never ever escape their slavery paradigm?

The more I try to find something good about Hogue, the more I dont.* At this juncture many of you will not have seen that the word Semyase/Samjase, the leader of the "200 fallen angels" in the bibles, means the "co-pilot" in Plejaren language. The word for "Chief Pilot" is unpronouncable but does have an acronym. The so called "tetragrammaton" of YHWH. The English spelling for this four letter acronym might go something like this *Ischeuaise*, "Ish-u-Yase" - meaning Chief Pilot, lord of airways. Being lord of airways, the Ruach also means lord of frequencies, storms, sacrificial smoke. Also known as Thor and EnLil, whose very first name while still on his home planet Zha.am.i [called Nibiru when in our solar system] - was EnKur. Pilot of a cargo Kur/ a mobile planetoid. The same of Noahide "laws".
