

DINOSAURS & FALSE "AGES" Part One

ABSTRACT

That we all live in a calendar lie

A lie designed by Off World Trade Interests

**Who have successfully denied Earth humans (dare I say Earthlings?)
any gnnowledge of the effects affected by the Off World Trade Interests
both on the Industrialized planet Earth, her denizens and her wildlife.**

**That this influence is arranged in order to deny Natural Growth, the
same we all inherited in order to Nurture**

**That the Creators of this heaven on Earth have been helpless to prevent~
Who can only Guide us by inference, meaning the intention is for us to
Help and to Act Wisely on our own innate cognisance**

**Which in Part 2 or Part 3 of this title; DINOSAURS & FALSE AGES
will attempt to continue the outline of Methods used**

**To do so will require the reader to lay aside all that they thought had
been taught, and learned as "truth" in their youth**

**To comprehend the depth of detail the Copiests and Hoaxers have really
delved, in order to apply their various very devious agenda and to hide it
from actual scholars**

Why are they doing all of this?

**To bend you – all of you, your mind and your body, to their Will
To control what you think, eat, drink, breathe and "under-stand".**

**At the very end of this mini saga a table of discoveries and question marks
will be summarized.**

Who are *THEY*?

**And have they done this in previous
ages? Answer: (In Part 3...)**

Absolutely *YES* !

**Are they spraying Graphene Oxide
via chemtrails?
"Absolutely Yes"

Important to Preface this information from the *media* * in history with two questions.

WHY ? Why should we need to question history ?

Answer: because history *as we have been taught* is all a fabrication. All of it. So, in our child-like innocence we ask again, why? Why is art dated true as 541 be hoaxed by an added M?

Why would anyone want to hide the truth about our roots, how we came to be here, & what happened to change everything. That answer sits in the deceptive age ¹ we inhabit.

One controlled by the money system which controls all of us.

YET ~ as always, nothing is what it seems.

We are pawns of several off world interests, the same behind ArmMARGEDDAN.

One of which is so evil, it trades our very DNA, our children & our Energy, our *prospective* collective SOUL frequencies energy! Recall the Essene Lords' Prayer?

The *Our Father* - translated from Aramaic by the Nazarene Essenes

Oh Cosmic Birther of all radiance and vibration...

Soften the ground of our being and carve out a space within us where your Presence can abide.

Fill us with your creativity so that we may be emboldened to bear the fruit of your mission.

Let each of our actions bear fruit in accordance with our desire.

Endow us with the wisdom to produce and share what each being needs to grow and flourish.

Untie the tangled threads of destiny that bind us, as we release others from the entanglement of past errors.

Do not let us be seduced by that which would divert us from our true purpose, but illuminate the opportunities of the present moment.

*For you are the ground & the fruitful vision, the birth, power & fulfillment, as all is gathered & **made whole once again.***

We are governed/controlled because we are collateral, herded, both mentally and physically. For profit. Indocrination as children, before we are seven years old always works.

Believing religiously, in any given savior, be it a "Loving lord", a shepherd who kills the lamb, or even a warrior mentality for "making" The Man. These days called transhumanism. "Man" is code for Orion. Leading to the last Question... Why are we taken this way, and by whom?

Answer: the Copiests. The shape shifters which clone & build creatures that look like the benevolent ones. These images here, I published years ago; hold the answer to our current dilemma of being mis-informed.

**media – the medium with which information is spread. Frequently, or nearly always, comprising hidden messages via cipher and code. To alert the 'reader' of the day (who often could not read) via visible images regarding events kept hidden from folk by those in the Establishment such as the Inquisition. Media by way of art in clay tablets, copper plaques, murals, paintings, rock wall reliefs, woodcuts.*

1. deceptive age: Being in 1346CE at the erzats 2022 means 1,246 years yet to go until we reach the Age of Aquarius. The reason for bringing the age of Aquarius forward is shown below.

See **MILLWHEEL OF THE AGES** folio 7 <https://www.hiddentextsofnostradamus.com> "hoaxed by an added M" ? Answer is here later:

***p.s:** the twisted information regarding "the third antichrist" derives from the words of Nostradamus in his Epistle to Henri II, where he mentions, *five times*, the word "AnteChrift" both as the 'second peoples' & the 'third peoples' *from before Christ*. The *Age of Pisces* even if it was 2160 years in length still means we would have had more than 800 years to go. But Pisces is over 2590 years in length: leaving us here in 1343 over 1240 years yet before the true Age of Aquarius. When looking at dates that are further on than 1346C.E. (now), such as "1547", then KNOW that the number '1'^{1a} is a J for Julian which first kalends began 46-44 'B.C.E.' It was not until late J582 that Rome fiddled with the kalends, then added 1,000 to their new fiscal calendar in January J583. This was accomplished by switching the prefix i^{1b} to a 1. This "Gothique" calendar lasted only until J676 = I.676. The word "Gothique"^{1 42} was last used in common language between J584 & the J670s, a mere 92 years! For explanation of the J, the j & the i ^{C+F+Clement.} Begging another question. Does the word Gothic date the Visigoths? ††

Constantine in the last days of his Roman reich,² validated prince Otto's 'New Age' calendar sending to Greece the Edict which changed J676 to the new millennium 1,000. The first image we have of the use of "AD." ANTE DIEM? before the day also carries the date of ·i·527. so saying Julian527, so why add anno domini? Or is it Anno Dommini – which in Latin says 'year of domination' or year of 'Dominion'. Begs the question: what actually happened in J527? ^{C+F+afootnote} C E = Current Era. Staged Centuries Part 1: Fabricated Reality Invented History, Phantom Time,

Just to drive us all crazy – here is an enigma that is the legitimate spanner thrown into the works.

This detail may in some way be the pointer to some kind of Truth.

So far, in my re-searching, the LETTERS A.D. as a suffix, have not appeared until after pope Gregorius replaced his Julian "J" with a number "1" – adding A.D. after that date.

He did this in January of the former J583 – making it 1583.

Yet here, in the media of the day of i527, 56 years prior, is an illustration clearly showing two letters after the "i" date.

It is almost tempting to call the D 500 and the A "added".

Joking. Who and Why displayed it this way?

Bigger question is this – exactly when was the "M" forced onto the resisting public? By the time Nostradamus began publishing stuff – and all his works did use the "M" – here is the connection- the added M (1000) and the A.D. suffix clearly in use before the Gregorian Calendar made it official.

One cannot help but notice all Feudal realms with their individual throned kings/queens. So why are ships sideways?

Maps which display the "C+F+sideways" tilt - as far as an upside down tilt, all appear post J79 until J719.

These include Piri Reis J513, Vallard Atlas J547, Ahmed Hadjid J559, Christian Scrooten J592 and many more which I intend to produce in date order in another pdf forum, because there seems to be some chaos every mid-era. ^{QV See ALSO :}

Here is a more familiar view. This is the Vallard Atlas J547 complete with a green Sahara & what else?

afootnote: Having discovered the various age gaps that the elliptical orbit of our sister sun really contains, at ca 700 each orbit give/take 50 ±, with every 5th 'sun' being at 3600 ± years; it seems there is a co-relating event mid stream in each of the seven century eras which has nearly catastrophic repercussions too. Such as the mystery J536 & others.

1a The Gregorian calendar prefixed by a number 1 instead of the J or I, was only accepted world wide in 1922. Encycl. Britt. Only 11 years after C+F+hungerstones

1b The i prefix is explained in 10 27 and under the word "Clement 1st"

² Roman reich, generally known as the Roman Empire (first reich) and recognised defeated by nature. Volcanic activity killing off grazing for cavalry horses, followed by a mini ice age which eventually lasted around 500 years. Wikidpedia has it subsiding shortly after Napoleon's defeat (also a Roman Empire, second reich). Third Reich was Hitler and now, your pent.agon is run by the fourth.

Always ask yourself the question when hearing the words "volcanic activity" – what was it that set off that activity?

In this manner, the Gadoury finds of Central American city footprints all sideways may be dated. Either to that "age" between a Nemesis visit J79 & the Ison-Wormwood/Nemesis visit of J676-J719; or to a previous age/visit of the incoming mini solar system. One of these "ages" was when the "Goose Returned"* (Cygnus, from south to north) as seen in the "Silver" Pharaoh's (Psusennes the Commoner) icons.

* Mazzaroth-Mizraim by Miss Frances Rolleston

"Psusennes" means "The Star Seen in the City". Carolyn McDowall. His reign is supposedly dated 1036 to 989 BCE. And the "age" prior to that carried the Bennu Bird icon, meaning that Crane-Heron-Grus was in northern skies before the *Goose Returned/Cygnus re-turned* there. The word Bennu or Benu or Penu means "southern land"!

As geologist Eric Gonthier stated : "Earth has had around one hundred pole reversals" in the last 12,000 years.

This map, as we have found is really dated J592 since it was only 10 years prior that Gregorius added a thousand years by changing the "J" or the "i" to a number "1". And because we are in 1344, the year 1592 has yet to be. Making this the same century of the Piri Reis map. What do we see here? We see an equator turned sideways, a lush Africa, no snow or ice at the area we have been calling the north pole. And what think you about the sheer accuracy? The view from a very high altitude. We need also be aware that Antarctica is closer to an equator on the other side! Still – all the same – where is a snowy north or southern pole? Why are there no deserts as we have today? Leading to another set of enquiries... How is it that Giza is the centre of all land masses today complete with the pyramids thereon facing that almost perfect true north and south? A detail which points heavily to a Hidden Hand from some Higher Authority. We might even call it Grace.

We were in 1344 at 2020, is 1346 at 2022.

This longitude and current equatorial latitude red lines shown are current to today; & do not apply to this actual map. We could count the miles that this turn had, by calculating the distance of Sahara greenery, with each longitude comprising around 69 miles at Equator. We can also reconcile the answer with the apparent desertification right across Asia Minor seen on this image and sub headed "Original SAHARA latitude". **Robert Schoch** take note.

The upcoming roll is said (by these texts) to be around 5,200 nautical miles when it settles, and this barren area looks as if it is a similar measurement. About a quarter or less of Earths surface ^{C+F+592}

Skymap Johannes Hevelius i611 – i687

I have used the lower case "i" here because the letter found under the Tudor Mansion was dated i633.

Have you begun to ask yourself why?

Why did all the pre 720 astronomers depict the constellations facing the opposite way to how we see them?

That prior to 719 A.D. the Animal for Cancer was a crayfish or lobster – and post 720 A.D. it became a crab.!

proving, again, that Nostradamus was in Pre 720. He used the lobster.

That here in this image pre 720 we see Sagittarius very much facing the wrong way. With Corvus before Leo, which was the Epiphany that led me here.

The OTHER detail that now comes to light is the actual date for the Uffington Horse. This ground glyph is actually Sagittarius complete with bow and arrow to its RIGHT.

THIS was the hint left to us here in their future.

That THERE WAS A RESET OF THE HEAVENS, that they had a NEW SAGITTARIUS after 719 AD and that it has been maintained since post 719.

How does this come about?

If our heavens turn - SO DO WE – and THIS IS WHY T.P.T.B.

stick to their Orions Belt mythology regarding Giza.

The Establishment has a standard answer for this, that these astronomers were all just copying each others' mistake. They cannot explain why Hevelius also did a woodcut telling us the same information; using the Triple Method. Yet it is known the sun once rose in the west. Maybe more than once. C+F+Eric

The Cartouches of Psusennes I... 1036-989 BCE

the reason I am on a mission to find events of disaster *mid term* of the ca 700 year Nemesis crossings - the *Goose Returning* tells us the same as a "Phoenix" - *the Return* - from where? From the Other Side of the planetary skies! We know that Benu Bird is in the southern skies now, but in "Leo Rising"³ when Giza saw new pyramids, its layout was based on the Benu Bird, which has its own enigma, meaning *southern*. So Giza was built while in the south, the Age of Leo Rising,³ mentioned by Eubasar or C+F+LEO

My mission is to pinpoint the *planets of Crossing* that resulted in an Earth turn. This can be done mechanically, physically as geologists do, and it can be done by following place names such as hamlet Oxyrhynchus (fish in beak = Grus holding Pisces) and via wall relief and dating cartouche depictions.

Such as this image here...

My quandary was knowing Hezekiah struck a coin showing the Winged Disc, which date of † around 705 BCE. C+F+Remus agrees with the Chinese records speaking of our orbit gaining 5 days (the 5 "unlucky" days of the "deluded" Maya), plus the mention in bibles of our sun standing still & climbing back up ten steps.

We already know when our planet turned during Wormwood, thanks to Hevelius and to Nostradamus: - J676-J719. But why did pope Gregory want a "new Age" in J582/583? Continues:

We know why Otto had a new age calendar invented, because of Cassini j672, Otto could see the incoming planetary system by J676, and relate that to the reason for the Thames freezing solid overnight.⁴ Was THIS the 'mammoth' freezing event? Yes, I believe it was, because those mammoth/mastadon had been at Florida latitudes prior to arriving in Siberia latitudes overnight. Validating for us the planet had turned during Ison-Wormwood; by J719. Hevelius had confirmed this twice, once in January J687, the month he died, and just before that in J686 with a coded C+F+firmament woodcut. See it in *Explanation of the Prefixes*

Using our own experience right now: - from January 16 1981 when astronomer Robert Harrington *et alia* published his finds regarding "Planet X" up to 2002 when my own daughter saw it in the heavens, then to current times beginning publicly 2010 when many people began catching shots of it (meaning its dark sun AND the travellers with it) :- we can therefore count that its incoming progress from ca. 1981 to, say, 2021 = 40 years, and presume its outgoing progress should be similar... spending ca 80 years here in our own solar system where we also follow our sun.

This means the same for those witnesses in J676, J686, J69½ silver goblet I caught on Antiques Roadshow J703-6 then various woodcuts & vignettes with our constellations *all back to front*, along with the White Horse of Uffington which is celebrating the reversal of Sagittarius - all around 670 years ago. At "2022" we are actually in 1346 CE. Back to J676, the "New age" of 1000, of Yule in July, the THAMES⁴ and the buttercup mammoth/mastadon freeze.⁵

Noting that its age gaps are *decreasing*, due to its elliptical orbit.

The disclaimer here is for the purist who needs to comprehend my justification for using Julian 46 Before Current Era as a cut-off or Beginning point It seems Tudor England preferred to use lulus (i) prefix than the capital J of Julius Caesar/Julian.

Remus: Rome itself was founded circa 753BCE (April 21 they say). Well within the 80 year come-and-go period, which included 705BCE. One needs to look sideways at that number and ask "what happened leading up to that day? Answer is 'The Winged Aten Disc'. Noting that a visit of the Nemesis mini solar system affected kings every time it approached, and the year of 705BCE was no exception. The other thing Nostradamus asked us to hold in abeyance was a period of "around twenty years" – extra. We can see this advice in his header under PREDICTIONS an English word. Why do you think that was? Was it because in the 500s of his day, the approaching solar system could be *seen* for 20 years before it began to leave? We have learned that it has been in our current times forty years on its approach (Harrington) so one assumes it will take 40 years in its leaving – affecting our own planets all the while. This then becomes an eighty year period within our solar system in which to pinpoint one time. The one big event that remained in living memory, out of that 80 years. The reason those in the 500s period of *20 years viewing* has doubled, is simple. Harrington had a bigger telescope!

GADOURY FINDS

Here is something I have been waiting for
 In recent times a Canadian boy, William Gadoury, had discovered a Mayan city designed on a star system, which the media have worked very hard at not naming.
 The first Gadoury found was Casseeopea, which is mostly in the northern hemisphere, but does peep over the edge of the south in certain seasons.
 Then Gadoury went on to discover many northern hemisphere constellations matching placements of cities in Guatemala.
 All the star systems he named were within a 2.5% match off the land placement. If these designs were made in the order of thousands of years ago, and not hundreds, then that percentage of error can be placed at the feet of the precessional *movement of the constellations*. I turned this upside down to make my own comparisons.
 The best one to compare would be Cygnus, the northern cross, because it is on par with Crane (Benu)/Grus (which has a bent back wing) – and I only raise the topic because to me, at this moment, the cross in the illustration does look like it is next to Laguz/ Pisces / Fomalhaut, with a bent back wing and with nearby Pavo... Recall Grus has its "sharp beak in Pisces". *The imaginary lines are deceptive.*

It is a bit annoying that someone has joined dots with a line, disguising what might be other wise. I say this because between or very near Pavo sits Aries, which is only a triangle of bright stars and they seem to be here smack in the middle. But not included. With Pavo near. To me, the absence of Orion is one hint. The proximity of Aries to the long pointed constellation of Pisces-Formalhaut-Laguz seems obvious, being the second longest zodiac Age taking 2,590 years for the sun to cross; (second only to Leo which takes the sun 2,808 years to cross) ... and then I see not only Benu-Crane-Heron-Grus (in the yellow circle) with its right wing bent back and very close to that other cross in the southern skies, called the Southern Cross, in the red circle. so, no, not the northern hemisphere!+

Turning the celestial footprint *sideways* merits other discoveries with distinction – such as Antarctica being situated at the Equator. Not only a form of verification, but a form of dating the planning of the floor plan – prior to 6,500 BC (see the pdf forum ADAM & EVE which is *nothing* like you think it will be!)

Here is a quest for someone – what happened ca. “800” years ago to have caught out these penguins ? Using 2022 as our date, 800 years ago would be around 1220.^{CF1200} But using 1346 date and the arbitrary ‘800’ leaves us at around 1550. If we have the 800 as give or take a hundred, that would read 650. We know it was not 1550 ± because the likes of Nostradamus would have made mention of a catastrophe like that. HOWEVER, *THERE IS A MAP OF THE MEDITERRANEAN* of the “1500s” (1500s) which shows it all under ice. The same period during which both Da Vinci & Nostradamus lived. The same which brought down the 1st & 2nd reichs. We also know that Carbon 14 dating is a hazardous method to trust due to bacteriological encapsulation. That dendochronology cannot be trusted either because trees stop growing in ice ages droughts and floods. That ice rings cannot be computed because pollution rings have been found to be multiple in any given year.

Information in the Ipuwer Papyrus include those on its reverse.

The mention of Amon which in turn leads to other details such as a "dark age" (recuperation period from that chaos) which results from the elliptical orbit of the Passing Over of a mini solar system.

I am in the process of proving this intrudes every 700 years give and take - and such as it is, is able to assist us further in reconciling timing events, both political and geological.

The "ages" of Amon the double feathered crown of Marduk-Sneferu etc have been determined by the establishment as around 2500 BCE±, to J79CE, but Marduk's "age" was in Aries*, ca 1440 BCE± (and see the Ram headed Sphinxes).

I am was still working on Ipuwer due to that papyrus being a copy of a previous one. SINCE DISCOVERED IT WAS THE 1486 BCE EVENT.

So, we see, just sitting right in front of us another establishment red herring of 1000 years: 2500± to 1500± BCE!

➤ FAT-FACED SATAN the Anu from the Nemesis system live for lengths of time which we cannot comprehend. The entire time they live their heads get broader with age and their eyes appear closer - hence "fat-faced"... which is exactly how they appear when found, hidden as they are in The Last Supper.

After all, we only knew (as far as we are told) that Harrington got his information in 1981 via a good telescope. Both details (1981, telescope) may not be true.

What if pope Gregory got his information straight from the horse's mouth? Once we realize that we ARE herded by an off world interest, ones with time gate technology (and the Vatican HAS had a cronor viusor), then what is at one moment a big stretch; suddenly becomes credible!

What if, 96 years later, Otto having been profoundly affected by the Thames and Danube freezing solid overnight – took it on himself to fix the New Age in place! Was he even aware Gregory had done the same, because the tyranny of distance in the 500 and 600s was tangible. Plus we are assuming Gregory added 1000 years by error! Whereas we know Otto had on the face of it, good cause to change a calendar. To bring forward a millennium and start anew – simply because that was what was actually happening to him.

Of all the names the Nemesis mini solar system has been known by, the very name which struck great fear in all peoples hearts was the one in the bible. WORMWOOD.

Just on the side at this juncture – when you hear people use the word MOON or LUNATIONS... just keep in mind the moon we have at the moment, arrived about the same time as the Younger Dryas. Raising that other question – did the arrival of the Nemesis system on that occasion cause the Younger Dryas, and was it a Fifth Sun?

NAMES USED by various Societies relating to the incoming mini solar system include:

WINGED ATEN 1486 BCE: (Tulli, Ipuwer THE EXODUS): **WINGED DISC** Hezekiah 705 BCE, HERCUBOLIS/HERCULOBIS TYCHON, **PASSOVER J79 CE**. **ISON/NEMESIS-WORMOOD J686 CE** & currently (at 1346CE/2022) **COMET ATLAS**.

SOURCES: IPUWER, TULLI/THUTMOSES, HEZEKIAH COIN (when we gained an extra 5 day orbit) SANHEDRIN **PASSOVER J79** false Jesus martyr crucified, **J325 Nicene BIBLE REVELATION WORMWOOD**, NASA/renamed it ATLAS currently.

➤ Both images above: no other way to describe this but as a "winged disc", and see the ca. 705BCE coin here with 'upside down wings'. This date is within the Nemesis visit range of the 753BCE *founding of Rome*. It is my belief that GENESIS in the bible is also a reset following a fifth sun event according to the ADAMIC calendar

Impression of a clay seal bearing the words:
 "Belonging to Hezekiah [son of] Ahaz king of Judah" about 1 cm across
 and showing a winged sun and ankh, and Assyrian symbols of power and life. Ouria Tadmor also
 symbol for electricity, same winged disc on the BenBen stone.
 So – what does this tell us?

Sometime while King Hezekiah/Isaiah was alive – who reigned from
715 to 686 BCE: *that this view was still in their skies following 705BC* ^{C+F+ELEPHANT}
someone saw the winged disc of Atlas-Nemesis-Nibiru system.

If it was this that caused the 705BC [Chinese records] event which disturbed our orbit and added 5 days – then that "3,660 year orbit" is wayyyyy off! Unless the comet-sun is only the Destroyer at those time gaps.

It turns out that our planet suffers many weird seasonal events about every 700 years give or take a decade or two. The coin above of around 705 BCE was followed by the great Earthquake during the Crucifixion which was clearly stated to happen in a C+F+Passover. Add the 'Comet' event of J672 when G. Cassini reported it. We are in I346CE @ 2022.

Did pope Gregory know at the end of J582, that Nemesis was coming? Is that why he made it a *fiscal* age? And was the trip of the incoming mini solar system so slow that century that its devastating effects were not felt until J676 when Otto took it upon himself to table the New Age by calling it in July of J676 "Yule of 1000"... we already know we have had *this system by whatever name* – in our vicinity for forty years incoming and presumably 40 years leaving, making 80+ years right there. I know what you are going to say now – how could pope Gregory have even known/seen it as early as J583? He didn't, Cassini had in J672. Yet the Vatican has had coronor visor technology since how long?

³ "Leo Rising" Age of Leo Our sun takes 2,808 years to navigate across constellation Leo.. I used a 1930 *Norton's Star Atlas Charts* showing the 1930 IAU constellation boundaries, which were drawn to conform as much as possible to traditionally recognized constellations. Luckily 1930 was before the 1933 illegal E.T. false "treaties" of F.D.R which introduced so many false information criteria. The same that eventually led to the likes of Wikipedia which continually misleads readers in such high proportions on so many topics. The ecliptic is plotted in *Norton's Star Atlas Charts* and the ecliptic longitude crosses the constellations boundaries. According to Endubsar's Clay Tablet #10, it was in "Leo Rising" which saw that great flood (caused by the Planets of Cross.ing). The word "Rising" refers to the cusp & the first "decan", or the first "one tenth" of crossing in this instance. Decan also means 'ten days'. The cusp of crossings, including equinox (equal day/night) & solstice (sun stands still) is largely ignored and discounted by many "scholars". Albeit, pointing out that this date fits with the Younger Dryas after correcting our calendars. By removing 676 years. This information matches Edgar Cayce [reading 5748-6, July 1, 1932.] "was a hundred years in construction, 10,490 to 10,390 BC"

See MILLWHEEL OF THE AGES where the Age of Leo has the centre of its cusp at 10,373 (Leo ended around 7565 BCE)

⁴ The Thames over night freeze. in July of J676 In his works *Chronology of Weather Events*, James A Marusek describes under the date July [1]676 that the Thames had Frozen overnight, naming "Comet Ison" event at 1680. ⁵ Everyone who hears about the mammoth-mastodon freezing solid with buttercups still in her mouth, is astounded. Those who have ever killed a 500 kg (dressed weight) cow for the table are more astonished. Because it takes *one week* for a bovine carcass to cool down and set. And that is when it's hung in a coolroom-freezer! So how is it possible for a beast around four times the volume of a cow or steer to 'set' overnight? (how do we know it was overnight? The frozen mastadon, Danube & Thames freezing solid *overnight* might be a good clue.) To have been caught grazing on buttercups, (& what season do they grow?); to have had the time only to sit down? On studying this mastodon, and strong *pointers tell us that is what she really was*, I conclude she was an animal from very temperate regions! Look at her. She has an almost hairless body. She was born and raised in a temperate latitude! She died *when and where* buttercups grow – a short lived growing season, such as *crocus/saffron* and *Ranunculus* do. On reading behind the disinformation (establishment keeps calling her a mammoth) the consensus is a July event. If true – that would be a third pointer to July!. Being Otto's date, the date in quatrain 6 2 1 and this frozen event. The real reason the family of 'pre-historic' (a *misnomer*) *Mammot Americanum* leaving their flesh edible enough for dogs to enjoy, is that they were NOT 'pre-historic'. They lived along-side other dinosaurs right up until the Wormwood event of J 676, 686 to J 716. If you try researching this I strongly advise finding other search engines than g--gle, duckduckgo or yahoo. After all; wikidpedia insists on calling her a 'he' and a 'woolly mammoth'. Yes there are many finds just like her of the *Mammutae* family with as many arguments against a) freezing suddenly and b) where in what latitude they had been. Wikidpedia does its best to keep to 'establishment' ideas about history. They won't even admit that Nostradamus wrote two more Centuries. The reason for that is those Sixaines in Centuries 11 and 12 describe the standing up crocodile (Messsiah). The other partial book of the Seventh Centuries was also found with 11 and 12 "rendered to Vulcan", behind his hearth. It contains references to using time travel to "manipulate the profits" – called by Nostradamus "the Anubis seat"... and who introduced the Anubis seat? Those "three" under Antarctica from the Orion Group. C+F+TRIAD in the Template for the Hidden Texts, which took Allan Webber nine years.

For the same reason front-anchor Linda Moulton Howe tells us Antarctica has been covered in ice for "millions of years". The finds being made under Antarctica all tell us that off world peoples are still there, that it is their technology that gave Tesla ⚡ Hitler the *anti gravity craft*, them who went to Billy Meier to misinform him, and them who went to several others including George Adamski. Once one concludes that there are negative off world interests which have been here for more than one cycle of Nemesis, that they run the *reichs*, that they prevent the "good guys" from traversing western hemisphere air space and that the *only craft allowed to use that airspace* are allied with them – then we know that what we see when the likes of 'Valiant Thor' arriving in his Sirius ships have an agenda beyond what they let us know. Forcing *our 'goodies' entites* to utilize time as a form of propulsion, to come & go. Why the E.A. let Jim Sparks know *that was what they were doing* by returning him before he left.

My summary: =

Where the mastodon had been was a temperate latitude, such as Florida

That it had been *Siberia* which was in that temperate Florida-like latitude ...

That whoever is *saying* the plants (out of many types of buttercup), were *Ranunculus borealis* – is doing so for a cover up, backed up by the fact they keep calling her a *woolly mammoth*. Except that, the current Siberia would have *modern* named *borealis taxonomy* wouldn't it!

Why would anyone want to hide these truths?

ANSWER: See Adam & Eve on Folio 7 of the Hidden Texts website. Plus, note the Antarctica lies

So you, the powerful public, do not ever guess our planet *had a turn* a mere 666 years ago. One Reset.

Why, again would that concern the establishment? ANSWER: CIA says "6,000" years ago, fitting it with GENESIS, BUT STILL NOT TRUE, it's plural

Mammoth or Mastodon...

the **woolly mammoth** has a large hump on its head, the first feature we **do not see** on the mastadon left. The other feature being that she is almost **hairless**, with no 'dip' in her tusks.

Mammoths and mastodons were distantly-related kinds of elephants that lived during the Pleistocene. Their teeth were very different and are the best feature for telling them apart.

(meaning its dark sun AND the travellers with it) :- *we can therefore count that its incoming progress from ca. 1981 to, say, 2021 = 40 years*

July 2005 see the diagonal cross on the upper large planet and the pheon (equal sided) cross on the lower large one

Judging by the fashions only – in particular the tall hat and everyone is wearing hose, this would place the dating of this woodcut ca 1650 + or so. Ask yourself just how did the engraver know to illustrate a diagonal cross on the larger (although it might just be a lot closer), and a pheon cross on the other? One of which is Nemesis-Ison & the other is Nibiru

When I first found the woodcut image, I had not yet found the Hevelius woodcut information nor the prince Otto date of J676... This one was WORMWOOD J676 to J719, after Giovanni Cassini spotted it sometime around J653-J672. The 2005 crop circle straddles the road at STONEHENGE Do you see the diagonal cross on the lower large body and the upright pheon cross on the upper large body...^{C+F+pheon} do you see bodies with an atmosphere? The one at top left seems to be our sun.

from: *Chronology of Weather Events 7th Edition 2010* – James A Marusek (*begins 2 "AD"*)#

Winter of 1675 / 1676 A.D. The winter of [1]675-76 in *Ireland* was very fair or **rather no winter at all.**

[1]676 A.D. On 23 May 1676, the French ship *Le Vansour* sails along the coast of the island *Tristan da Cunha* located about midway between Africa and South America, and observed the peak on the main island was covered with snow.¹⁰⁵ footnotes in *Chronology of Weather Events*

➤ **J676** On 16 June 1676, a hailstorm struck Dunstal [Dunstall] in Staffordshire, *England*. The hailstorm was 1½ miles [2.4 kilometers] long and ¼ mile [0.4 kilometers] broad. The hailstones were 4 inches [10 centimeters] about [in circumference] and of unequal and various shapes.²¹²

[In *England*] on 19 June, there was a terrible storm of thunder and lightning.⁷²

[In *England*] on 9 August, there was a tempest with great wind and high tides.⁷²

** [In *England*], the summer was exceedingly cold.⁷²

1680 A.D. [In *England*] on 11 February 1680, there was an irregular tide when the sea flowed three times in 5 hours⁷²

Since we are only in 1346 at '2022': all the number 1 prefixes in Marusek's work need to be 'fixed'.

By either changing the number 1 back to a J or an I, or just removing the number 1.

I have just spent time trying to find AGAIN where I SAW the word 'Ison' in this period of Marusek's work.

His next (2011) publication of updated finds has no mention. He is part of establishment after all, being a nuclear physicist – but on reading that period J676 to J719 again – everything mentioned still points to an aberration with Earth, her orbit and her seasons. Where winter was suddenly summer and many other parts of that world were frozen solid. His works are copyright© and I do use them as an educational tool for truth finding.

The reader should by now, see how current establishment disguises (by name changing) or hides almost everything to do with astronomy and the Nemesis effect on us, our planet and nearby celestial bodies. The first of which being our moon is not what we think. None of us can nor should use the Moon in any "New Age" "studies" since it only arrived from Canis Minor between 11,000 to 12,000 years ago.

Somewhere on a later page I will put screen shots of "weather events" from J676 to J719 – and you will see the events match woodcuts and the likes of the silver goblet dated J69½ that I caught on Antiques Roadshow.

Winter of 1676 / 1677 A.D. The Seine River in *France* was frozen for thirty-five consecutive days from 9 December 1676 to 13 January 1677.^{38, 60} The Maas (Meuse) River remained frozen from Christmas until the 15th of January.⁶²

In 1676 in Paris, *France*, there were 35 days of frost.^{58, 80}

Extreme cold reigned from 2 December 1676 to 13 January 1677 in northern *France*. The earth was covered with snow, and the river remained frozen thirty-five days.⁷⁹

This winter was very severe in *France*. Particularly intense was the cold from 2 December 1676 until 13 January 1677. "Thirty-five consecutive days the earth was covered with snow and the Seine River frozen. Then came wet weather. In February we had a few mild frosts and frequent rains. The same weather conditions prevailed in March. The sky was almost completely overcast. The beginning of April was still cold and wet, but around the middle of the month, the temperature was mild, but soon afterwards came the cool weather again which held until 22 May." On the frozen river Meuse, they travelled from Christmas to 15 January with heavily laden wagons over the ice.⁶²

Winter of 1680 /1681 A.D. In 1680 in *England*, the frost was long and hard.^{47, 93}

The winter was intensely cold in *Europe*. The Little and Great Belts in *Denmark* were frozen, and many people perished.¹

This year the cold was so severe as to split whole forests of oak trees.³⁰

Now, when returning to Marusek's pdf of one year later updated publication;

there is no mention of Ison. Since 2013 I have personally received two pointers to a

Mandela Effect. Seems to me this is a third, in his 2011 version of a *Chronology of Weather*

***Events*. (found my published copy of his Ison mention C+F+PREUPDATE) * I, /we, all were told**

Meaning that prince Otto, relative of * Constantine, had removed the months of

August up to and including December, calling July 676 as "Yule" by the texts in 1 42 4

to read Psellus the Younger. He wrote *The Cronographia* & *Daemonibus*.

Has any of you ever been **gaslighted?**

One finds something which gives one a jolt, such as the oomph I received on reading Ulrich Niemitz to find he concludes it is 324½ years that was taken out of our calendar... all the while these texts had me seeking the year J676, in the July, for the date that 324½ years had been removed when July was made "Year one of the first Millennium".

So it was with seeing the word ISON in his July [1]672 weather events by James A Marusek, the first time I read it.

➤ continues at left

Wikipedia has Michael Psellus publish 1055, i.e: 55 years past Otto's J676 = J731? C+F+ Clement 1st. Even so, I still hold a caveat on this dating information.

In 1680 in southern *France*, the cold kills all the olive trees.⁷⁹

The winter in 1680 was in *Italy* and *Provence* very severe. In *Provence*, the olive trees froze to death.⁶²

1681 A.D. In *England*, all the spring and summer was dry.⁴⁷

The spring and summer of 1681 [in *England*] were so hot and so dry that no one remembered a state of vegetation, equal to the likes seen this year. The herbs and grasses were burned, and in the air, no trace of moisture could be detected.⁷² In *Dijon, France*, the grape harvest began on 9 September.⁶²

In *England* on the 1st of May, there was a great hailstorm.^{57, 93}

Winter of 1681 /1682 A.D. In the *United States*, on 11 December 1681, the Delaware River near Philadelphia was frozen solid in one night so as to be passable on the ice.¹

1682 A.D. In *England*, “Rain, hail, floods, all the summer.”^{47, 92}

these all being J676, to J682 to J719. Keep on mind Otto had “made July as Yule”

1682 A.D. In *England*, “Rain, hail, floods, all the summer.”^{47, 92}

On 6 June, at Tortorica in the Valley of Demana in *Sicily*, at 7 o’clock in the evening, there arose such a tempest of rain, thunder and lightning, which continued for 36 hours. At 1 o’clock the next morning, great torrents of water caused by these rains, fell down from the neighboring mountains with so great rapidity, that they carried down trees of extraordinary bulk, which demolished the walls and houses of the town. They overthrew St. Nicholas’s Church, drowned the Archdeacon and many people with him. It left only fifty shattered houses, which fell soon after. It drowned 600 inhabitants, the rest were employed in their fields about their silk, fled to the mountains where they suffered much for want of provisions. The materials carried down by the flood, were so much, that they made a bank above the water, near two miles in length, near the mouth of the river, where the Sea was deep before. Several other towns near were much damaged by it.⁷²

1683 A.D. In *Dijon, France*, the grape harvest began on 13 September.⁶²

Winter of 1683 / 1684 A.D. During the winter, the River Thames in *England* was frozen below Gravesend.¹

The frost in *Britain* lasted for 13 weeks.^{2, 40}

In *England*, there were fairs on the frozen River Thames in 1683-84.⁹⁰

The Bayeux Tapestry was NOT 1066AD which was an invented dating to make it fit other ‘history’. Neither was it 66 years plus J676. First, it took an unknown number of years to finish. Second, having no gunpowder shown anywhere when **Marco Polo** took gunpowder to **Europa J 270s**, then the dates ON the tapestry are contradictory. One of 495/6 by zodiac, & one of 596 (D⁵⁰⁰VC^{95+I}) whereas 496 in C+F+ **Candia & Little Tartary**, would have read at that time, with **CCCC. Quatrain 9 7** tells us to “**acquaint Breton reign with Norman**”.

In *England*, there were fairs on the frozen River Thames in 1683-84.⁹⁰

In *England* on 9 September 1683, it was very rainy and then to the 16th, warm and pleasant, that night a great frost. This was the coldest winter in *England*, the longest hoar frost known in the memory of any living.⁷²

In 1684, the River Thames at London, *England* froze eleven inches (28 centimeters) thick and was traversed by loaded wagons.^{38, 60, 80}

In 1648 [misprint for 1684], the Thames River in *England* was covered with ice over a foot thick. Booths were erected for a fair, which was held on the river. Coaches plied to and fro on the ice as on dry land. All the *French* ports were closed for three or four weeks, the harbors being frozen over.⁶³

Severe winter in *England*. The River Thames froze for 2 months and there was a frost fair that began on 1 January.²⁸

It is not general knowledge that our current calendar was not accepted world wide until '1922'. (Encyclopaedia Brittanica, the Establishment). '1922' being I-922 on the face of it.

So, Have a think about that date. Titanic sunk 1912, WWI ends in 1919 with the Versailles Treaty. Tesla receives the blueprints for anti gravity craft from "angels" whose intentions in 1922 were leaning towards the population and the planet receiving free energy... but

the banksters had already curtailed those intentions to keep and profit from it for themselves.

10 27 3 Un Clement, Jules & Afcans recules,

Clement 1st, set back, the calendar (the first/ kalends) Julius (Julian) & Ascanius – also known as IULUS: telling us J & i prefix are the same. Ascanius, a close ancestor of Julius Caesar Since Julian was in 46/44 Before Current Era (J79C.E.) which is ALSO before Christian/ papal era, then it was the papal control system which changed Julian's calendar.

The French word : recules =

to isolate-go back-move back-put the clock back-raise the age (!) which is exactly what did happen to the calendars, more than once. Pope Gregorius arranged a fiscal system to "send the calendar back" by changing the i to a 1 thereby adding one thousand years to Julian583, in the January. C+F+diligence

HERE IS CLEMENT the 1st

dated by Wikidpedia to the first Century "AD", but which century was that! What do you notice about this man who "set back" the Julian kalends?

He shows the satanic hand sign of the horns sometimes disguised under the term "bene-diction" and which century was he really in?

There are clues here. Relating to the lower case i, the upper case I, the lower case j & the upper case J.

The latest news reports reveal Comet C/2012 S1 (ISON) is brightening and may yet become the comet of the century. But is ISON a comet? A startling photo has been circulating of comet C/2012 S1 (ISON) that shows it comprises three objects rather than a solitary nucleus as claimed by NASA astronomers. The photo was taken by the Hubble space telescope on April 30, 2013, and it shows two of the objects are highly symmetrical cylinder shapes. In August, a number of bloggers began claiming that comet ISON was accompanied by two UFO motherships, and/or its core was in fact a large biosphere. Not so according to NASA scientists who officially responded in a post that the three objects are merely an overlay of three different time exposures of comet ISON.

C+F+592. Immediately on seeing what we call Giza/Gizeh in the j592 map, with Sahara a quarter of the planet to the East of Giza, any scholar worth their salt is going to blurt "but Giza sits exactly central to the continents today, facing a perfect north and south alignment". A good basis for debunking many details. Here is where a quantum leap about knowing things must take place. One of these leaps is that todays perfect alignment was arranged. In just the same way Earth was moved out of the way of Toutatis St. Lucy's day, December 2012.

I is not a number 1 ... It is a capital 'i' = also a J

Look closely at the gap between the I and 568. #1568 needs no gap. This was two years after Nostradamus was found dead. So, who had the courage to leave us this clue? Chavigny did. Not forgetting the publisher.

Which prefix was Constantinople Otto working with when he made the cold summer of j676 "Juli into Yule"? We have seen i633 on a Tudor letter, i545¹ on a Church request for a copy of the Last Supper, and J499 for the return of Christosphere Celumbo to Spain along with Fransifcus Drakus in J579, in this way we know that Queen Elizabeth 1 died i603 making King James I of all Britain in i604. Hence the KJVersion was i611

The Husky dog is very similar to Gene Decode's sigil. HIS SYMBOL.

This raised question marks in my mind because of a possible propaganda virtual video. How do we know this was a virtual video and a therefore mis-leading mis-information video? Because the real Gene Decode uses bitchute, and not you tube.

C+F+hungerstones

By this date – around April 2022, a thinking person having glanced through these pdf forums, will or at least should have, come to the conclusion that:

- i: Other World interests have been using Earth and her resources since times before time, way before our current moon arrived from Canis Minor in the Sirius-Orion Group, during the Younger Dryas
- ii: Those resources include the trees & biological living creatures; & those include humans
- iii: That these off world entities have technologies far beyond our imagination, & these technologies include making the weather, using sonic frequencies to move objects, even the Earth herself, moving tectonic plates, and crucifying a martyr
- iV: Controlling humanity is easy. Starve them. Using rain or no rain, to herd the humans !
- V: By threatening the local kings and politicians with a grim future, such as the Great Chicago Fire, or the great droughts that brought the Hungerstones just south of Poland into use (showing their real Julian dates), or the more recent "wildfire darts from the skies". Not forgetting great flooding happening now, with "wellness camps" waiting in the aisles for the unwary...
- VI: these human looking 'fallen angels' have, by using this duress, created autonomous "unions" such as the United Nations and NATO, the World Economic Forum, the IMF, WHO, EPA, FDA, TGA and all other alphabet groups designed to push the NIV directions to the 'unwashed hordes' & 'useless eaters', because it is their New World Order INVASION AGENDA..
- VII: Make no mistake, there are at least three off world triads, one of which dwell under Antarctica, that can bend human will.

- Gene is miss informing us when he says EnKi is Lucifer.
- Allah-Lu is Lucifer. Recall Lucifer maintains Earth "is his" because he was first to find her. When Ala Lu (the father in law of E'Yah-EnKi) was exiled from Nibiru-Zha.ami... he left his home planet to find another. On seeing the "alluring blue ball" of Earth (Endubsar Clay Tablets) Ala-Lu claimed her for himself and was able to redeem himself back home by telling his king Earth had the right gold to repair the atmosphere of Zha.ami.
- The excursion back to Earth was made by Ala-Lu in his space ship along with E'Yah-later EnKi in his own space ship.
- However, Ala Lu the destroyer, used Nukes to blast thru the Hammered Bracelet, whereas E'Yah used WATER guns.
- In this way we can discern who is what – by their actions.
- Because Ala-Lu, despite KNOWING how nukes affect the quantum fields and other civilizations as a consequence, still went ahead using them.

Do you see the clues?
 In the Hieroglyph is the Mountains sigil of Ninurta
 The **Igigi Grayles** have a hologram hovering which shows us a Sirius mother ship, also known as Vrill.
 The pale element hovering above its palm & smack in the centre of the picture is Ormus, also known as biblical Shew bread, manna, colloidal silver-gold, white powder gold and monatomic gold.
 This is vital for time travellers because it maintains their DNA. This is the stuff that mysterious "handbag" contains.
 These are the same which dealt with Aleister Crowley. His "Lam" was sent by these Grayles. He also called it 'Aiwass'. Which is a copy of Eihwaz.
 Orme stands for Orbitally Rotating Molecular Energy, (hence monatomic) and Orbitally Revolving Magnetic Energy.
