

# PREQUEL~SEQUEL TO DINOSAURS & FALSE AGES PART 3

**A very short article for one simple reason:**

*The upcoming date for one event that should have been mentioned, but was not, in any of the previous pdf items regarding False Ages*

Today as I write it in "late Cancer"; July 19 2022, in a year of the Tiger, it would be horribly remiss of me to omit the following and just hope that this event is not for this year of the Tiger, 2022 but for another one 12 years away or more.

**First to always keep in the back of your mind is this:**

**We are being looked after.** The Eloim Alliances for the Living Library have been Watching and Guarding for many centuries. They even appear in 'medieval' art C+F+Mainardi or i466

*This planet we inhabit, the one we were meant to nurture, but were sabotaged by negative off world forces,\*\*\* against our means and ability to detect them; is far too important in the large picture to allow such deceptive subversion to win.*

*Once the Money System was handed to the AshkeNazi, this planet of ours began its unhealthy slide.*

*Why do you think the seven sins were outlined in the first place?*

*Our avarice, greed and sloth have always been the easier path.*

*We failed our mission.*

*What began this discourse was opening that which we were guided to. The Chronographia by Psellus the monk (1424 "seeking the gold<sup>ormus</sup> of the Ornament & Psellus." Ornament/Nostradamus/D'Amant, black diamond/sasar\*) when I noticed the dates given for his life. In the 1952 Introduction Psellus is shown as '1017 – 1078'. On the tails of the findings herein, that date becomes i017 to i078. The question becomes, do we take this as 78 years after the iulian<sup>Julian</sup> Kalends of 46 BCE? We do, because Michael Psellus was not writing after the years of j582. This means Psellus died the year before 79 C.E. The year OUR calendars began. This way, in his own words, the Constantine he writes about is alive at the same time as Pontius Pilate! This is the reason Psellus in his Book Three, refers to Anaxagoras<sup>39</sup> of the 5<sup>th</sup> century B.C. (who "thought that other kosmoi (universes) contemporaneous with our own might and probably did exist ad infinitum". In other words – quantum fields), and who had been living in the same era\*\* as Psellus.*

\*\* **same era**: each 'era' is made by the incoming & outgoing mini solar system variously called a different name every time it arrives in our skies, which seems at first to be around the 700 year period. The periodossey of chaos events seems to have an interruption in this circa 700 year gap, such as the mystery i536 event and the early i800s. These things will be investigated once False Ages is done.

\*\*\* **negative off world forces.** Observe those hand signals.

See the upright triangle on Aleister Crowley's sigil.

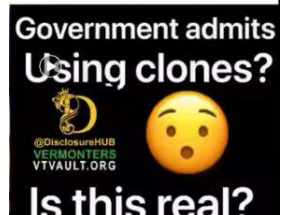

This is NOT the hand sign which we see with president Trump.

Both JFK Jr and he show the opposite to this. The hand signal, however, does not represent pyramids but the cloven hoofed one

Now; you just *KNOW* what I think of so called 'experts'!  
The *triangle* or *pyramid* of Satan in hand gestures does NOT hang pointy end down. In a pyramid the pointy end up says that one entity alone stands above (commands/ orders) all others below.

 Why do I mention this little known artist?

Because in one painting alone, he displayed

- The negative shapeshifter tentacle
- The walnut craft dispersing tiny weeny black cubes – and
- A golden cube “**appraising**” – observing, because the Eloim Alliances do not interfere with free will, but do employ Seraphim (the Arm), Dorean (Tau Cetian ‘Swede’) a type of ‘police department’ and Nordic Procyon for hands on deeds.

In any of the Hidden Text pdfs C+F+ ‘tentacle’... (invaders of ALL proportions, nano to giant) – just for those who have not been following these hidden texts, meaning they will not have seen these images

The Golden Cubes, encased in their force fields do appear as a sphere. They do not interfere as a rule, but we have seen them fighting black cubes over Vanilla in South Africa recently, and sending black cubes packing over my farm in 1977  
 The walnut craft in this painting, when expanded, actually shows two small black cubes peeling off.

IF you were wondering WHY so much time and effort has been placed on “fixing the calendar errors” then it is time to reiterate what is happening to your children, and in this current period, when: - and has been for many centuries.

Ask yourself this question:

“Why are off worlders so interested in trade for human children?”

It is not just for Da Vinci’s “sausages” nor the “bologna” of Nostradamus...

One might first take a trip looking at images of carvings, statue reliefs on many cathedral columns – ask your search engine for “cathedral column statues” and go straight to images. There, you will be shocked to see that those cathedrals, many of them built while Immanuel Iscariot was still alive – display childhood pedophilia by the church inmates, including the cutting of their throats to be bled into a bowl.

And here we have it – the reason off worlders want our children, is their TORTURED BLOOD.

He spends some pages describing the storm making and other abilities of the inhabitants.

He was unwittingly dealing with the negative Ursa anu, with the proof sitting simply in the word Darius, a born warrior. The various technologies shown on board all point back to EnLil/yhwh; who brags about being lord of storms, frequencies and sacrificial smoke.

LXI. Jar year 61 where capital M means mega/great & D is 5th Cent.

Additional to the hint in D O M (500 nought-not 1000) on the headstone of his grave, there are others...

Here in a post on fb is mention of 'both before the middle ages and contemporary, from the 5<sup>th</sup> to the 15<sup>th</sup> centuries (1600s)' "a scheme of history which began with the garden of Eden and would end with the Second Coming of Christ".

Were they trying to frame a period of hope by flaunting the Second Coming as an age?

What seems strange about the setting up of a thousand years of hope designed back then 'from fifth to fifteenth' is that the 15<sup>th</sup> century still has 300 years to go. Scrambling through the deception & lies placed in retrospect, by luminati such as shadow-government-owned wikidpedia, youtube, goggle, yahoo, microsoft, bing, social platforms (where opinion seems to count more than science of research) and now duckduckgo; is a task many people seem to think is not necessary. People get bored with the work needed. Yet it is just like a game of chess.

are said to profess modern or medieval history. Conventional Sense of Term.—As time goes on, the "middle ages" will necessarily become more and more less. The persons who first used it were making a gesture of freedom, and yet at the same time they were implicitly accepting the medieval conception of history as a series of well-defined ages within a limited framework of time. It did not speak of the six ages or believe in the chronology of the Machimite prophecy (see JOACHIM of Fiore), but never they inherited a scheme of history which began with the Garden of Eden and would end with the Second Coming of Christ. In this scheme the thousand years from the 5th to the 15th century after Christ might well be regarded as a distinct, respectable period of history, which would stand out clearly in the providential scheme of the world. In modern times, we have discarded the Eusebian chronology (see EUSEBIUS of Caesarea); we look back to an almost infinite past and forward to an almost infinite future. In the eyes of a scientist a period of a thousand years is neither here nor there. Moreover, the content of history, both before the middle ages and contemporary with them, has been immensely enlarged. The significance of many aspects of medieval life has been changed by the knowledge of previous civilizations—of the civilizations with which medieval Europe was in contact.

### My comment:

Thats a big wow for me. I am currently working on DINOSAURS and FALSE AGES. THAT M might be very important, but only as far as the end of GRECO ROMAN TARTARY. BECAUSE 1500 ad has not arrived yet.

We are in 1346CE.

AD was first used in 1527 for "The King's Matter" which was the Boleyn problem.

Like you, i got an old 1977 Encycl. BRITANNICA.

I SO found something the M was used for.

Not millennial but the Latin from GrecoRoman MEGA . i was researching Omega and Mu (mew/ the average).

In that research i found MEGA meaning the Roman GREAT year.

### answering the group:

Thalieke Landtsheer » Rise from the dead: biblical, flat earth, millenium (for some tartarian!)

An important article found from Lindsey Ball's group by Christopher . They found an article from an old encyclopedia:

I got an older encyclopedia set. Check out what I found! Basically, people used to regard 500 ad to 1500 ad as the Millenial reign, but then they discarded that idea for evolution and billions of years!

Consequently, we will sometimes see a number expressed as (Roman numeral for 1000 = **cd**). For the 'Age of the Second Coming')

Or as a capital M for Mega, meaning "great" year. This is a simple political trick, a psy op for passifying people in hope.

Here is a perfect example of the discovery above relating to 5<sup>th</sup> to the 15<sup>th</sup> Century after Christ...

"In the life of a scientist a period of a thousand years is neither here nor there..."

Political agendas using inexplicable dating, in this case - Anno year of followed by a D= 5<sup>th</sup> Century 1492

Which of these below is a hoax. I pick the one on the left because the capital prefix in England at the time was not used, the lower case f/i was introduced by king Henry VIII<sup>th</sup> in i527, a letter found under Knole House, a tudor mansion was dated i 633 closer to j645 than to 620, and the placing of the date seems less obvious in the j645.

j620 which of these is a hoax ?

j645 Moiardum in Latin means ?
