MATCHING the "3127 ~ 3114"¹ie: "3200" BCE world wide event which a very large number of scholars depend upon for their time scaling ...

Era = that period between visits to our own Sol by the dead 'sister' sun, a comet, complete with planets or that period called an AGE such as Pisces 179 + 2592 = from 2671 A^{nno} Domo, until our sun is in Aquarius.

BCE = Before Current Era ~ which began Passover of 179

Underlined phrases mean it has an illustration here and in Part Two

¹ Ancient Egypt ~ AHA/Menes ~ 3127 to 3114 BCE Where did he arrive from & who did he defeat? ...

Was it a Fifth Sun visit? The one which happens every 3,600 give or take decades in Earth years?
⁵ The J676 - Dec 680-695 CE was a Fifth sun, Wormwood (the 'star') and Ison/Nibiru/Zha.am.i . Go back 3,600-ish [less 676 (added to calendars) "froze solid"] = 2924 B.C ± using Y 2 K computer programs
Why did Livestock-dependant civilizations suddenly move all at the same time ? Answer ~ no grazing. Either Earth turned & or volcanic activity poisoned the grazing ground/ - same for the Vikings ca 179 CE (PREFIX symbols j = I or i, φ Φ = [Roman 1,000] is not  which means Mega - the Great by any font)

INTERESTING THAT

the date for a FIFTH SUN working back from around J676/J680/695*, would be approximately 2924 BCE A Mere 190 Earth years from 3114 BCE Given that takes ca eighty ± years for the incoming and outgoing mini solar system to travel through our own, 2924 is very close to be 3114 BCE Also given that our Earth years (orbits) were once 360 days prior to 705 BCE; then again sometime before that, the Mayan 260 days each.. We can see at a glance that each elliptical orbit of the dead comet star Nemesis system never has the same length as any other. The OTHER PROBLEM we do have is the computer programs all being set to 676 years too far along, set worldwide in the year '2000'. This means the garbage-in-garbage-out principle applies. If a date shows 9,200 BCE on an astronomical clock, it needs to go back 676 years. So, saying, the date arrived at by using the astronomical clock found by Gantenbrinks robot is actually 676 years further back than 9,200 BC. THIS WILL APPLY TO ANY DATES PROVIDED BY COMPUTERISED PROGRAMS... making 3114 BCE as 3790 BCE, and the same for all of them!

¹ The House of can also mean Astrological & Astronomical. In this instance; the House of the Fish plural, which would be Pisces. Modern day teachers do not teach grammar, and the plural for fish as "fishes" has always been "Fish", as in 'Octopuses' are Octopi. ² For a concubine to have all 3 sons crowned king would mean the Christian idea of a 'bastard' would not apply. Anglo-Saxon England or Early Medieval England, existing from the 5th to the 11th centuries from the end of Roman Britain until the Norman conquest in 1066, consisted of various Anglo-Saxon kingdoms until 927, when it was united as the Kingdom of England by King Æthelstan (r. 927–939). See the *real* date for the kings here & under the heading *Crowns* in Pt 2

Taking '5th century, the 400s, back 1000 years becomes 600s Before Current Era. Taking "11th" century back 1000 years as it is a *continuation* of the fifth, means 11th C. is really the 1st Century i.e. 179'80 to 1'180

The kingdom of England – with roughly the same borders as exist today – originated in the 10th century. It was created when the West Saxon kings extended their power over southern Britain.

How was the kingdom of England formed? | The British Library

We now know to remove <1000> invented years from our Y2K computer programmed (garbage in – garbage out) searches relating to before J583/676. That makes this "5th Cent" (400s) as around 600 BCE & "11th" as the 1st Cent.

After July 2nd 1676 we add back 324½ years to our invented modern calendar.

We have also discovered that it took around 16 years to stitch Matilda's Tapestry telling us the story of king Harald/Harold and Hastings. She and her seamstresses completed the task in what we are told was 1066. So, how could the Hastings battle on the Tapestry be dated as 1,066? Especially when Harald/Harold was a Viking, raiding from First Century

Let us remove first the 16 years in which many different ladies of various education & spelling skills laboured on it. This gives us around 1,050 for the actual battle according to the establishment; which was Viking *Harald* against Norman Viking *William the Bastard*. Do you remember why the Vikings left their homeland in the first instant? The answer is: they had no food. So, when we see '1,050', deduct <-1000> leaving us with ca 50 *A^{mo} Domo*, or 1.129 (79+50). Not one gun or cannon on view in the Tapestry, understandable since Marco Polo published about gunpowder on his return 1.271.

First, being the much earlier real date, we cannot presume this was a "Tuscan" knight, because if this date is earlier in fact than the kings became kings themselves – then there was no king yet to do that knighting. Not until ca. *A^o Domo* 144. See *Crowns* in Part Two.

With this date of "1180" we can do one of two things. We could deduct the 1000 because 180 this was before J583/676; or We could deduct 676 which is the overall number of years too many in our current calendar/

So it was either the year 180 which would include the first Crusade or it was 1180 minus 676 making it 1'504. From 410 – 500 is thought to be the end of Roman influence over English land.

We will look-out to see if there was a reason in 1'504 for this~ Tuscany Knight to have thrust his sword into the petrifiable mud.

This is a pheon cross. With even sized branches. The more you look the more you will see this emblem. Popes wear it. This is not a crucifixion emblem.

In X180, a Tuscan knight plunged his sword into a rock. He then swore off war and became a hermit. It is now believed that this sword evolved into the Excalibur story in the United Kingdom (the legend of King Arthur and the sword in the stone story.) The Tuscan Sword remains embedded in the stone to this day.

This is St George's Cross. It is seen illustrating the arrival of a planet. C+F+Stonehenge in endnotes

C+F= GIEGES – see map later. Alfred the Great referred to St. GIEGES. Perhaps not spelt that way. Turns out St. George & his dragon appears in the first 100 years of the Crucifixion. The name of this channel hardly ever appears past the Celt 500s. Refers to The St. GIORGES ST. GEORGE'S Channel named above the CELTIC SEA in a very aearly map I had thought a fake because Ireland, Wales and England are named that way on the map referring to such times as the word CELTIC is suggested (a polite word for it) by the establishment, that 'there was no such thing as Celtic!' After scrolling through the works of Nostradamus, born 1503, I found literally over a hundred mentions of Celtique. I'm going with his work, and NOT the luminati who have lied to the folk about EVERYTHING. History, food, healing, weather, money, science & E.T.

2 13 2 Day of death put for first.day ~ First day of our new calendar is to be taken from the crucifixion date, the "day of death"...

THIS is why I began our current calendar from 179. (LC.crucifixion/Incarnation of Christ, see Part 2) Yet we still need to use Iulu8/Julius Spring-Easter of 46 BCE for our current and newer calendar, because 1582, when pope Gregorius altered that calendar, was still 'pagan' Iulian. Because it takes the death of a 33year old person (supposedly Immanuel Iscariot renamed Jesus) to make the martyr. See 2 13 2 "Day of death for first day"...

REVELATION for short

3114 BCE postulation: bibliography. A very long list of modern Establishment published "peer reviewed" works, complete with the computer programmed error instilled by Y2k event (the "fixing" of the extra 676 years), which then means that all dates (other than Chinese records) prior to Before Current Era need that 676 years taken backwards. For instance '9,200 BC' would be ca 9,900 BC. Or: 3,127 BC / 3,114 BC as **an average, say, ca. 3,100 BCE was really 3,776-3,800 or thereabouts.**

Sumerian Planisphere ~ [a celestial clay disk](#) Known as the Köffel Disc

"For over 150 years scientists have tried to solve the mystery of a controversial cuneiform clay tablet that indicates the so-called Köffel's impact event was observed in ancient times. The circular stone-cast tablet was recovered from the 650 BC underground library of King Ashurbanipal in Nineveh, Iraq in the late 19th century. Long thought to be an Assyrian tablet, computer analysis has matched it with the sky above Mesopotamia in 3300 BC and proves it to be of much more ancient Sumerian origin. The tablet is an "Astrolabe," the earliest known astronomical instrument. It consists of a segmented, disk-shaped star chart with marked units of angle measure inscribed upon the rim

Noting again, the words "computer Analysis" ~ complete with the inclusive "Garbage - In - Garbage - Out" : that problem everyone is ignoring.

Marco Polo published in i271 Both Blemmy & Cynoceph appear in Piri Reis' i531 Sanhedrin showing the new angle of equator & Crossing Over i79
 Did you see this Saint Christopher was a Cynocephale? In many very early depictions he was also a very large giant.

If anyone ever asks you "what does AD really mean?" domini = lord, but dommini = dominated
 You can tell them : "Anno Domo. Living in the Year of " and nothing to do with 'our lord' 'Lord' indicates Master. M'Aster. M is Orion and Aster is star. So saying "Orion Group overlord".
 So, when you see 'ascended Master' ~ what does that truly indicate? Keep this in mind for later.

The batteries in an electric car weigh about 500 kg. To make a car battery of this type, you need to process 10 tonnes of salt for the required lithium, 15 tonnes of ore for the required cobalt, two tonnes of ore to get enough nickel and 12 tonnes of copper ore. In total, you have to process 200 tonnes of soil to make a single battery.

As if that wasn't enough, this pollutes more than a petrol/diesel car does in 20 years of normal consumption.

They will be obliged to change diverse garbs:
(space suits - see Newald's details)
Those Saturnines burned by the Millers,
Except the greater part which can not be

or covered, hidden (the Quantum part) The
Elohim Alliances (millwheel of precession)*

The concern for me here is that the quatrains seem to say the Saturnines are negative in nature and that the Elohim Alliances for the Living Library (the Millers of the Millwheel of precession) are "dealing" with them. The face Alec Newald describes of these peoples is quite opposite in nature to that described by the hidden texts (which derived from Chani a younger Elder). Reading Newald's CoEvolution very much brings to mind those Tall Whites of Charles Hall, yet run by The Elders?. Another detail provided throughout these hidden texts is that of the "velvety square clouds" within which Newald clearly describes travelling at the invitation of the Elders. The same of the Sparsholt Crop Circle with two tablets of information. One a disc in binary. The other similar to The Ten Commandments tablet. The exact same day the Orion grey appeared in a crop square at Arcibo. Yet we only ever hear about the Orion Grey. No one has EVER published a translation of what the Elder was trying to tell us. For me this is a pointer that the "dark energies" controlled the matter.

177 years is mentioned in the Epistle to Henri II

"Five and a half times bigger than Jupiter..."

That makes this comet exactly the same size as the Nemesis comet.

I think that just may be the case! "They" like to confute the PUBLIC by changing names and event time lines!

H Parks

Much of my work is based on exactly that principle. I learned that when they t'asked me to find all the names those Anakim have used. At the 120 names mark I realized why. And the texts themselves explained it too.

From Peter:

The translation: because the hereditary word of the occult

"stomach" was always a great riddle for the interpreters.
Someone translated the word into "inside, middle", Leoni for
example into "the grave".
I found out another meaning for the whole sentence, that can be
formulated like this:

And yet – this interpreter still managed to leave out part of the intended words to be anagrammed. He ignored the word 'car'

Space-ship triangular shape stops meteorites detected over a city in the world 01/04/2023

The second major prediction to come true in recent months. In August 2022 was a nova, alerted including the date, when published 3 weeks prior as the "Fuse/Grand Pulse, & Wave" event involving Betelgeuse, and disguised by main stream news as a CME.
 This is one which also appeared on the day prophesied (January 3rd 2023) along with the added detail of remote prevention, written in a number of quatrains. Here described as a "triangle" craft, it was not.
 Help came from orbs and a pyramid craft which belong to the Elohim Alliances. I even have a shot of that craft fuelling up with water.

The so called CME was a cover up for a nova coming from direction of Betelgeuse. This was prophesied in the Casseopea Files as the Wave Event, in the CHANI Project as the Fuse Event and in the Hidden Texts of Nostradamus as the Grand Pulse, due in AUGUST, TIGER YEAR. This event was seen as a crop circle 2002, made by Elohim Alliances in Golden Cubes which aggregated into a cube as large as our sun shielding both Nibiru and Earth as best they could. Alaska afire was the first sign of it.

Loudly warning about CME...

NASA's Solar Dynamics Observatory recorded the blast on **August 14th**: Traveling faster than 600 km/s (1.3 million mph), the plume tore through the sun's outer atmosphere, creating a coronal mass ejection (CME). 31 Aug 2022

Yes, the hermit Agafya said the "Year of our lord Adam 7522" which she said in 2014 before she passed.
7530/2022 minus 7171 = making Peter 359 years ago with us really in 1346 - 359 = the year i 987 for Peter.

Yesterday at 8:44 AM

Pay attention to the date imprinted on the opening, Summer 7171.

The "year of our lord Adam" of which Agafya spoke, for those who have not realized – is the beginning of the history relating to that part of Genesis which describes the advent of the slave human race.* Dated to the day we stand in as 7, 530 years gone by. Up to J680, that was two Fifth Suns ago.

So, if we take December j680 which was Ison-WORMWOOD, from 1346CE, we get 666.

This explains SO MUCH about the Satanic Agenda. Those who work by numbers and where the stars sit, which is why they fiddled calendars in order to bring the Age of Aquarius forward, with over 1200 yet to go.

The word "medallion" is probably not the correct description. It looks more like a manhole cover...

Recall that all "monarchy" are run by off techno-world trade interests, and have done for millennia, which is why there are griffen and space craft appearing on the Hastings-Bayeux Tapestry of i495-6.

- o **DEAD PETITE-FILS TRADERS:** these days petits-fils would mean grandchildren, in those days it meant "natural-born" or born out of wedlock. These days, this is quite the norm. Yet there is a third meaning. Natural born and not artificially born
 - o **TRAP DATED LEAP:** the leap date can be Scorpio (Oct 22 – Nov 21) and a leap year. This refers to the false rapture...
 - o **PLAINER PASSED** Plainer Passage is a PDF about Nemesis **LETTERED 'ATLAS** yes, they changed Nemesis name to ATLAS
 - o **DEPARTS ERA.** Nemesis has taken from around the 1970's to be spotted by Astronomers to be seen in our own skies now: will put a shot of two suns I accidentally caught during the bushfires when the smoke became a filter. But the ERA or period it takes for the Nemesis solar system to arrive and then to leave can be between fifty yearsto eighty.
 - o **SATURN ALERTS:** the first of which was 'JNO SOL' found on the same page as the ONE MALE vignette, down on the bottom line of that page ie: Jno Cook's *Saturn Cosmology - telling us Saturn was once our sun before; which updates Velikovsky and which detail appeared in a video yesterday that did make me sit up! The texts told us Saturn will be our sun again, and seeing Saturn lose its rings and getting closer or more correctly, WE are moving out, seems to validate this.*
 - o *Keeping in mind these vignettes were painted in J563. And we are in 1347 at '2023'. A gap of 784 years.*
 - o **The DARK ALLIANCE: Salvaging NACHT-WAFFEN S.O.U.Ls For SATURN's 'Retrievals'**

FAA confirms 'jellyfish'-like 'large unknown object' over Minneapolis, Minnesota – October 7, 2022
The Black Vault received word of this incident by someone who wishes to remain anonymous, but had access to the FAA database that listed the report. It was sent to The Black Vault in mid November of 2022.
The text related to the incident, as sent via email to The Black Vault, stated the following:
La Crosse Tower (LSE) reported they had a target 5 miles South of La Crosse. Object was described as large and at a low level, with alternating red, blue and green lights. ATC reported that they could not tell if it was a UAS but were getting strong primary returns. They also stated that drones don't generally register as a primary target. The ZMP sector that showed the primary return reported it was a strong return with crosses on the screen all over the place.

Rather fitting that the Lion Maned man, (LEO) with bears claws (URSA) is wearing the **Corona/Coronet** of a Prince (SIRIUS) and wears the scars from a crown of thorns. Telling us that shape shifters from Sirius invented the martyred Jesus Christ. This was the greatest deception ever in the current Age of Pisces. The Deshret crown of Upper Egypt bordering Axum-Ethiopia, that part in the south currently.

The boomerang shaped craft in the vignette above and in the square yellow frame below was known as "foreigner" or "alien". The Iron pheon Cross. The rose coming out of a docking bell refers to time gates, the Vulture refers to Lyra-Vega, and the little bird in back-ground which has no legs refers to Abus-Hrundo, the Swift, which we know today as Twitter. The white crown is telling us that the Earth's pole (poll) is circled by Saturn (the smaller globe at top) and this is what Jno Cook wrote too.

In this way we have a date for Saturn's tenure as our sun. The conjoining of red & white crowns was *after the 4th dynasty* (same timing as the Seti I door lintel, same as the Barbara Walls at Kariong) and fits with the event of the Nile moving away. Causeways being needed at Giza because Lake Moeris dried up. Slotting in with a passage and the consequences of the Nemesis system which is the most logical cause for Saturn being sent out to the gas giants realm. The self-same cause for Saturns return, and being "burned" by the Millers.

If there are any of you who began this sojourn with me from the beginning – when the very first pdf was titled TVVIN TOVVERS DECEIT and then the second published pdf was MEDICAL VACCINATIONS & CHEMTRAILS, you may recall the constant warnings regarding needles.

Not just to receive them, ("take the jab") but not to DONATE blood either. This warning was dated 2008. One would wonder why not donate blood? First thought being: "they use clean needles dont they?"

But no, that is not the reason for not donating blood.

It is because anyone who has *received* the jab – will have *toxic blood* to donate.

EVER WONDERED WHY FRONTLINE HEALTHWORKERS ARE THE FIRST TO RECEIVE THESE JABS?

Because *their* jab is NOT A VACCINE – it is an agent for SPREADING (SHEDDING) its ingredients.

What quicker way is there to SPREAD a BIO WEAPON than to have everyone queue to a "health-workers" station where the culprit spreader IS the healthworker!

NAUGHTY BEAVER ONCE VIDEO ENVY = BRAWNY MENACE (ORNAMENT VENDETTA) NOW ANEW

- Wow. Was puzzling about the Naughty Beaver Envy part, until it finally came to me. This comment refers to the PDF collection last posted to the website addressed as *Tony Knight Regarding The Fourth Reich*. In which I had asked “why, oh why, pick an actor with a great hooked nose when in reality the red headed Nostradamus had a perky ski jump nose!

Recall the communication method where I was told to “ask twice”? Well – I had asked twice hadn’t I : – ‘why oh why...’ And here, in the very next pdf following that question – I have been answered (when at first the question was only meant to be rhetorical).

Yet it does illustrate an important subject – that of “giving a good dog a bad name/image”.

This is called propaganda. Done with the intention of misguiding the public. In this instance by Naughty Beaver – influencing the folk into believing that Nostradamus was “a satanic child eating Jew” as one very misinformed reader wrote me. She left me feeling literally nauseated – because her level of intellect is indicative of the majority of the uneducated generation she lives in. Parrotting what disinformers publish.

This all actually tells me the very ideas that derive from these Hidden Texts have got someone rattled.

If Da Vinci, the most famous portrait painter on the planet, couldn’t get it right – no one would!

The entire reason I put together that pdf forum about the misinformative video/s by Naughty Beaver – was because none of the quatrains mentioned were interpreted in the way the quatrain was provided to us.

- **BRAWNY:** Brawn always refers to muscle. So saying here – flexing his muscles and not his brain.
- **ORNAMENT VENDETTA** = says it all. the “ornament” is what Nostradamus called himself in 3 94

Puis à vn coup grande clarté dourra,

Notice the Roman numerals are still in archaic format, as IIII and not IV

This is the J557 publication, only 100 years after Roman Society failed

1. For five hundred years more one will keep count, *

2. Celuy qu'estoit l'aornemēt de son temps:

He that was the ornament of his times: plural

- Line one is somewhat tongue in cheek, because this Quatrain was published in what was supposed to be on the face of it, 1557, so adding “+more than 500 years” does not give us 2021 does it. It produces a result of 2057. The “more than 500 years means literally, a lot more. As in 2021 minus J557 = 1464.

That is a LOT more than “500” years. Or, the year we are in, 1345 minus J 557 = 788. Also “more”.

But. The scholars who accept the face value will just automatically be thinking 1557 (or 1555, the first date of publication) “plus 500 = 2055” and not see there is a question mark on that calculation.

They might take the “and more” as the extra up to 2055.

I do have one other problem vexing me.

The date *period* for the *astronomies revolting* ** was J672 to J719. Add around 700 (the approximate orbit for Nemesis) give or take to J672 = *around*1372, with us sitting here in 1347 at 2023, having already seen it incoming now since the 1980s. Kept a secret of course.

With the newly named ATLAS still needing another 27 years to have been a 700 year orbit this time – we can see that former orbits were closer to 780 years and now we are at a hundred year less in that [*elliptical*]orbit!

It seems to take around 50 years for the Nemesis-Zha.am.i (Nibiru) system to be in our own solar system then to leave it. The expected timing of 1372 cannot be predicted because, I have noticed the gaps between visits from the 1486BCE *Winged Aten* effect to the 705BCE *Herculobis/Hercubolis* to the *Pass-Over J79 CE* to

*Ison & Wormwood of J687 (Hevelius' woodcut commemorating a reversal of astronomies) – their orbits have been *reducing* every time!*

In other words – the elliptical ORBIT of this mini system – is getting smaller! Shrinking.

1486 Tulli papyrus – 705 BCE (Hezekiah coin) = 781 years orbit (Santorini -Thera)

705 BCE Hezekiah coin to J79 (PassOver) ... = 784 (and why did Julius begin a new calendar anyway?)

Because in 54BCE they saw it coming, same as prince Otto; Cassini had seen it coming J672. Otto's new 1,000 (Millennium) calendar in J676 *but the peak* was J687. This new calendar of Prince Otto conjoined the short-lived J582-3 “*Gotique*” of pope Gregorius, along with its additional number 1. The word “*Gotique*” from “Goth” a term that encapsulated early France and Germany, was only in public use up to the (J)600's. (Nigel Offord)

Calling J79 the *peak of that* visit due to Pompeii-Vesuvius (in the October) same year as Crucifixion.

From 79CE PassOver to *peak of Ison* at Hevelius' J687 = 608 year orbit†

From the peak of J687 to 2023now: 1347 C.E., not quite the peak yet = only 660 years for Atlas.

TRANSPARENT CUBE deceptively out-innerlined C+F+WRONG

so saying have I been wrong about this craft – if it belongs to the Dark Fleet. Because this is the same or very similar craft painted above a Romanian Church leaving behind Psalm 170.3 on a copper plaque. It is very possible the Flugelrad II is a spin off (copied) of the Casseopean craft which looks more like the one illustrated behind Robbert's head above. The transparent cubes are described in the Dark Fleet video.

The M great year, in M LXI/61. IF the M was PART of the date, would it not have appeared as MLXI. Or 1,061, which, according to the Establishment, is only five years before the supposed Hastings Battle that had the English lose. Fairly certain that kings Ethelstane, Edmund and Edbred, with their own dates established, had very little to with 1066, Harald/Harold, Conan (who received the keys) and William the Bastard, being a Nor'man, a viking himself.

This font style of an M is not the same as the Roman Numerals font-style of the letter-numbers LXI.

The M is not part of the number. It is a prefix, in the same manner an i for iulus-Iulius, or Anno Domo was, until the times that a letter j appeared (J was invented in 1524), which was after 1492.

One detail regarding the prefix used in this document, is that the date of this document had not yet reached the year 1,000!. According to wikidpedia (which automatically ADDS an extra 1000 years in front of year dates), the kings and queens named in the illustration of Queen Edyth covered 893 to 919. Wikidpedia has Alfred the Great's death as 899.

Because Saturn is strong in Aquarius where it can have the most influence over the collective, Saturn is what creates boundaries and thus form. In Aquarius this relates to communities and social structures. In order to create form things need to be restricted, hence we saw them closing down school and parks and things of that nature. But we also saw some of the people become aware of their own divine rights and responsibilities and thus reclaiming their authority.. in pisces there maybe a lot of things happening with ships or the ocean because Saturn creates seafarers and portsman when it's in water signs. It has a little bit of power in the first 10° as it is in its own decan of Pisces, but in Pisces we move into consciousness and ethereal things. Saturn also governs over sciences so quantum sciences no doubt will be a focus and things that create mastery over spirituality and psychic abilities. It will be an interesting 2.5 years. When it moves into Aries will be where things get really interesting tho cos Aries is it's sign of fall.

St George with pheon cross

The oldest known record of Saint George slaying a dragon is found in a Georgian text of the 11th century. The legend and iconography spread rapidly through the Byzantine cultural sphere in the 12th century. It reached Western Christian tradition still in the 12th century, via the crusades.

https://en.wikipedia.org/wiki/Saint_George_and_the_...

We have been learning that wikidpedia cannot be trusted with dates. The word date here "11th" needs 1000 removing from it which makes it the 1st century. This ties in with a map which shows the St George Channel between Ireland and Wales along with the city of Pulowondon where London should be, dating the map before the Roman Londinium

Roman rule seems around Herod BC, quitting from i410.

ST GORGES CHANNEL

Before Londinium was named by the Romans

Pulowondon Celtic name for London prior to Romans

Which is how I realized the comet in two particular tapestries was not Hallys. Because the greco-Roman tapestry showed the date as CCCC and 96 and the other tapestry *discovery for the same comet, dated by Glenn Warwick which* he found from the zodiac appearing in its lower border as 495, in March. THAT tapestry was the Hastings Battle. We know it as the Bayeux tapestry.
My own confirmation of this date includes: a) Cetus is back to front in the border, (reversed in j695) b) no gunpowder or cannon, yet the Spaniards had carbines against Montezuma in i531, *cannon* were used in the 100 years war from 453 & arquebus in i499, c) one side used Scythian/Skythian mercenaries d) the crowns worn by the viking Harald/Harold and the viking William the Nor'man bastard were still rudimentary. To have been a "bastard" means he was born out of *Christian* wedlock.

Why does the Bayeux Tapestry have an astrological date of March 15, 495 in its border with Cetus – a constellation we have in the Southern Hemisphere?

UK turns to 'warm banks' amid plummeting temperatures and cost of living crisis

Screenshot The National News

Organized by a coalition of Christian groups, the Warm Welcome Campaign has seen "warm banks" emerging, in the form of community organizations, churches, libraries, and businesses opening their doors to people desperate to come in from the cold. Some of these spaces offer free tea and a space to work. Many are filling up rapidly.

"There's little doubt that we are heading towards a moment of crisis this winter in the face of energy and fuel inflation," Christian activist Carl Bosch stated on the campaign's website. "People will be facing a stark choice between food and warmth. Creating warm and super welcoming spaces... is going to be an absolute necessity" (RT - 11 December 2022)

Look up! - And you will see, there is something deadly wrong.

Then look across the Atlantic, from where the energy shortage-dine emassates - "It's Putin's fault - Russia, Russia, Russia!" - the mandate on Europe to create an energy cum food shortage, to demolish her industrial base, her employment, her livelihood - look across the Atlantic to the Atlanticists who have almost zipped zero energy savings measures in place.

They are still driving over 5-liter engine SUVs, pick-up trucks, and otherwise fancy gas-guzzling luxury cars, at literally a third or less the gasoline price from what it is in Europe. Most restaurants are still flooding cold from super energy-swallowing air-conditioning. Even though, outside temps have become quite pleasant in the south, and even cool in the mid- and northern part of the country. - And nobody talks about saving on heating costs.

All the while, in tiny Switzerland, paradise of the money masters and white collar "generators", where (per capita) most Texas are sold worldwide, a status symbol of the rich, of course - in the little country, they are talking about banning electric cars for saving energy. The Power of the Global! Can you imagine!

About 60% of all energy produced in Switzerland stems from renewable hydro-power. The other 40% come from four AER speeding nuclear power plants. But in 2017 the government decided to phase them out - to follow the powerful Green all destructive Agenda.

To the contrary of the Green Propaganda, nuclear power is one of the cleanest, and, yes, safest sources of energy. What will replace nuclear power? - Environmentally harmful - in every sense of the word - windmills and solar panels? Just to conform to the "Socio-philly-anthropy-fundist" Green Agenda?

Recently, Wikipedia tells us [in ANY description of NESARA] there is a 14% 'one off' tax, which has now become 17%

This tells me that there is a [deep state wikipedia] plan to keep government *and* the tax/es by scaring ppl into thinking their 14% will be "cheaper".

The gold has already been retrieved from Monarchy and Vat.i.can.

The **FALSE** one is National Economic **Stabilization** and **Recovery** Act – GHW Bush enacted in 1990.

Supposedly from [@JFK_Q17](#) – Why does he not tell the truth about our orbit?
He speaks of control of the people (*govern* means control and *ment* means the mind)
using the calendar.

Pope Gregory changed the Julian calendar from Spring to January for *fiscal* reasons.
Spring at that time was the full moon of Easter which was often in March.
The month of July was not in his 46 BCE kalends. It was added in 44 BCE. Why?
Now, that raises another question – how was there “room” to stick another month
into the yearly cycle?

Did our orbit change again giving extra days in the seasons? Only to lose those extra
days the next time the Nemesis solar system arrived?

Was this a reason (excuse) for pope Gregory i583 removing the harvest as a tax period
in August and beginning the tax (fiscal) period in January so that tax collectors could
arrive any time and force folk to pay, even though their harvest was not yet due...
In this manner collecting children in lieu of moneys for payment.

There are many quatrains which speak of money system and laws changing/

To a foreign place is the empire transferred:
You will be set up amidst other customs and laws:
Rouen and Chartres will do much of the worst to you.

Frejus, Antibes, towns around Nice,
They will be thoroughly devastated by sea and by land:
The locusts ^(lobsters/Mantids) by land and by sea blown propitious,
Captured, dead, bound, pillaged without law of war ^(sent off in trains)

Many time Nostradamus refers to the

was living in these times! 5 93 10 56 10 66

The map to the left is during the early BCE
Viking need for safe land, and it was they
who got to name the "Archipeligoes" of
what we now call the British Isles. Except,
those known as Viking/Raiders were there
before the Greco-Roman conquest. The
Celtique Pulowondan that Romans titled
London as "Londinium" appears on maps
BEFORE Londinium does. The map at left is
before 179 CE and the right is dated 1718 –
during a great flood which then froze, caused
by Ison & Wormwood.

To Christs. Church. of Canterbury

Recall I was having reservations that a **Catholic Church** could have been established so early after the crucifixion? I needed to remind myself that time travel has been used for eons, that the Crucifixion of a martyr was a well tried method of controlling the minds of ordinary folk, and from what we have learned so far, the greys from Sirius “paralyze gatherings” & give them holographic images which they believe to be true because they have “seen them”. Remember “epipteric” bone and the 180 letter from a Centurian? What he really saw on Palm Sunday, not being the Jesus, *but a grey producing* that image. Because our Centurian *had no epipteric* bone! Today I came across an image of Westminster Abbey, the old wooden parts of it, built & known (when date repaired) to be ca 1097 : a mere 17 years after 1080 A.D. Although known as Westminster Palace, it is more strictly titled Westminster Abbey. *The date shown here of 1097 needs the one thousand removed*

Just to be clear - the primary reason for these alerts & warnings from Nostradamus to you, is to first learn *how and why* to discern the differences between the Copyysts fooling you, by copying the originals (space craft included) and by hiding those originals from you.

Notations

It is very difficult in 2023 to find the ORIGINAL workings for *National Economic Security And Reformation Act*. It is over 22 years since Clinton signed it. Following 9/11 the greatest head turner of all times; it has become imperative to defeat those which planned to never allow the instigation of this Quirite Act.

In Part Two of this ‘CONNECTIONS’ Topic there will appear a clarification including parts of the Very Original, yet some can already be viewed in the ST GERMAIN pdfs on Folio 7 of the Hidden Texts of Nostradamus website.

HOW YOU ARE MANIPULATED BY PEN.TAG.ON OWNED Goooooooogle PROPAGANDA USING LANGUAGE OF INCITEMENT. Such words as LOGICALLY, FALSE HOPE, CONSPIRACIES, MYSTERIOUS, ELECTS, WAS, CULT, RECOVERY, and "Qanon's Bastards". Wouldn't that be spelt Qanons' - ?

For one thing – the cloned domain name for the Pen.tag.ons' own copy of the original **Q Anon**, is not spelling the original domain name. They do not want you to go to the Original! **They want you to go to the copied account**, the propaganda & misleading domain name **they** have instituted along with other copy domain names (ie: **QAnon**). Not forgetting they use **Wikipedia & YouTube (by whatever name they are using that day) for the same purpose.**

THE LIES
If the date of **1990** or later is used, it is the **cloned copy** which has no relation with the **1950s – 1970s -- 2001 original**

- ❖ **1990 or later:** GHW Bush had an alternative "recovery" Act drawn up that would still include the government & taxing the folk to maintain that governing body. Leaving open the opportunities for rorting those taxes, especially as 'overseas aid', which has been overseas into their own pockets ... (Mind-Control is what the word govern-ment means)
- ❖ **cloned copy:** like everything the Copyests do, it is copied to fool you
- ❖ **RECOVERY:** making it seem like recovering from previous political bodies' errors – pointing the blame away from themselves. The corporation of The United States had its final bankruptcy date of November 2nd 2020. The day before elections of a non existent president or administrator.
- ❖ **1950s – 1970s -- 2001 original:** at this later stage, following the would be enactment of the Original intended NESARA September 11, 2001 being thwarted, and the ensuing non stop smoke screens such as the inciting words above tell us; plus the constant Wikidpedia co-mingling the title of the Act and its intentions – resulting in a book titled NESARA II – we find ourselves either not comprehending the original reason for the Act, or unable to source that Original Intention.
- ❖ **There is a book out titled NESARA II which has combined all the details here along with a complicated tax rate scheme, as if Tax was legal**
- ❖ **Pointing out that more recent "explanations" now include such titles as "Ascended Masters" (of which St Germain is named one) and false prophets such as Salusa, Sananada & the Martyr Jesus - which is not the real Immanuel Iscariot- including Galactic Federation & the Gaia See Eye Ay agents. Ashtar & Hatonn are also false. As are Wilcock, Goode, Delonqe and any Youtube "[mis]information" from "Nostradamus".**

We can see this is purporting to be 1785
 The capitalized "i" is quite obvious. Yet it was the number 663 that caught my eye. The very date in the Coptic/Adamic Hebrew/Gotique/Y2K reconciliation on page 17 herein.
 This needle box does have an alphabet code in the numbers, which do seem to read as:
 "The gift is small but love is all",
 deciphered by Englishman Paul Wisken, and spotted by him on Antiques Roadshow.
 Yet, we can see other numbers which mean other things. Relating to other calendars. First a full uncropped picture needs to be chased up.
 If I can, the results will appear, hopefully in the next pdf

THE PROBLEM WITH THE SUFFIX A.D., SITS WITH THE FACT IT APPEARS NOWHERE ON ANY MAP NOR COIN, ALBEIT CHURCH HAS HAD A GO AT SHOVING THE DOMINI WORD INTO FOLKS' FACES DURING AND FROM THE 1600s

So much so, that we see 1600s graves using DOM. as an abbreviation of Domo, yet satisfying Churches Domini. The reason is the same one that church burned the natural son of Nostradamus at an iron stake in 1600. CHURCH WANTED FOLK TO GO TO THEIR CHURCH REPRESENTATIVE GOD-INTERMEDIARY FOR ADVICE – FOR A PRICE!

IF 'GOD' WAS WAY OUT THERE IN THE STARS (The main topic of Filippo/Giordano Bruno's books), THEN FOLK DID NOT NEED THE CHURCH. AND CHURCH CERTAINLY NEEDED THE FOLK!

FOR A PRICE! And here is that price:

This question is: Why does this image even exist?

880
 Blood of innocents widow and virgin, so many evils committed by means of the great Red ones, cardinals
 holy images placed over burning candles, terrified by fear, none will be seen to move.

Because harvesting the adrenaline filled blood of children for the ADRENOCROME has been a practice of secret societies for centuries.

From the very beginning of these Hidden Texts, the main topic has been the "trade in men" – an off world agenda which has been ongoing for thousands of years. Sadly for those who believe in political authority of any kind, to find their Trust broken in this way, that it is 0 has always been your children they need and any subterfuge that works for them to tax you of your kids, will be used. The most successful tool for the agenda has been pedophilia and clones. Copies of people you think are one thing, but they are another. During the century prior to the one we live in, the exchange for children (termed legal upper case CARGO) has always been technology. Something we seem to lose every time the Nemesis mini system passes over. On talk-radio in 2012, I was laughed at for trying to warn people that the entities involved in this CARGO of trade; are reptilian. These hidden texts have gone one further – warning us to discern the real Jesus charade And where the "suffer the little children to come unto me" leads to. The joke has always been on the ordinary one who thinks a "good shepherd" is something else. A good shepherd has ALWAYS been the one who feeds the tribe.
