Even so, one will not realise exactly what is meant without understanding what **QUATRAIN 3 94** is saying.
It speaks of using *publication dates* as a cipher. Using 458 as "five centuries"; *then published again in March 2013.* ^{endnotes}

however, all dates nominated in the false "treaties" are false dates. The clauses which nominate a date are null and void because we were not in 1933 at 1933 nor are we in the twenty first century yet. One thousand years was tacked onto our calendars by changing the "i" to a "1" and 324½ years were removed in July i 676 *turning that month into a new 1,000 A.D.^{omo}* to create a "fiscal" calendar.

The difference between the 1000 added and 324 "lost" years leaves 676+ which still needs to be removed from the Anno Domo calendar. This skullduggery was arranged between Constantinople and Greco-Rome. The bull/edict involved was sent to Greece, and is kept well hidden.

This is why the Vatican knows the Shroud of Turin is real. We are in 1347 following crucifixion of the martyr, @ 2023.

 Yet, to say specifically "in the U.S.A." without a back up reference is still misleading. My question is this - where are they getting the date of 2023? Nostradamus was well aware we are using false calendars, which is why he had D. O. M. put on his headstone.

I am going to interject an hypothesis forward here, probably means absolutely nothing.

For some time I have wondered why the date of 458 is important enough to be a cipher.

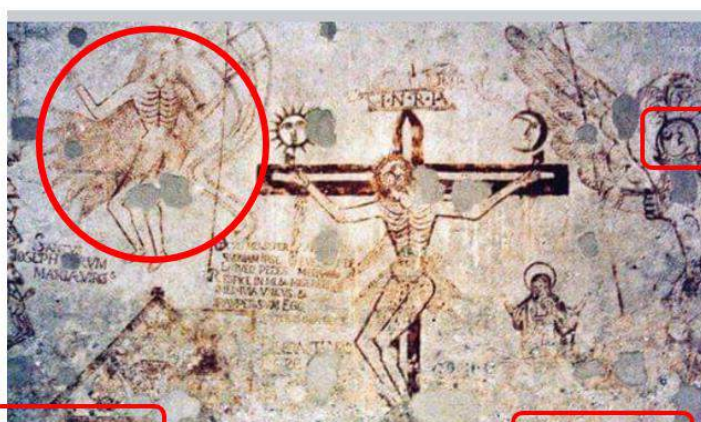

Yes, Jain had then published his book with mathematical zero as a number, used the same way the Mayan used a zero. If you read "scholars" works saying the "fourth age" or "fifth age" ~ you can bet they had not begun the numbering of an Age from Zero. Yet the Maya did. This would mean a "fifth age" by our scholars is really a fourth age. And knowing the proclivity of our current Deceptive Age of Pisces Puppeteers, always wanting to drag that blanket of the future up to our noses so that whatever agenda they had planned for "Age of Aquarius" can appear to be happening much sooner... Even this Mayan calendrical misconception can be added to Ptolemy's "averaging of the Ages@2,160 years each" agenda, as a result of the E.T. Puppeteers requirement. Ptolemy, was, after all, a Greco-Roman Empire product.

From MILLWHEEL OF THE AGES we already know NOT ONE SINGLE AGE takes the sun 2,160 years to travel across. Pisces, for instance, needs 2,592 years before we come to Aquarius. Pisces, we have learned, began in earnest when a martyr was crucified & RESURRECTED: Into another INCARNATION - hence the IC prefix in very early works following immediately on the news of the crucifixion. The first round church was constructed in "162" which can only mean 162 years after j79, with j80 the first year of Anno Domo of I.C./Incarnation of Christ. The 162A.Domo plus j80 is 1AD = 242AD. The Agenda of those who have a need to deceive us have us at 2,023 Anno Domo. EVEN IF WE WERE LIVING IN/ DOMO year 2,023A.D. we would still have ca. 137 years before Aquarius. Being in 1347 though, keeps us a few centuries yet before it!

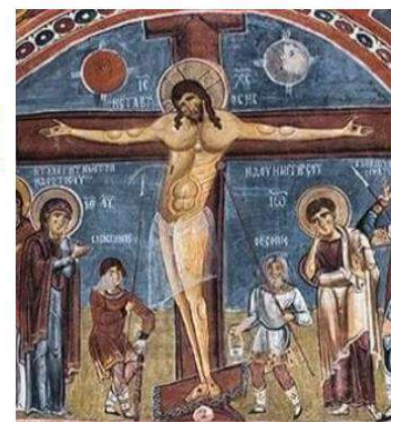

SO: a backward reconciliation of 458 minus the j79^{1AD} = 379, deduct the 325 (Nicene Council date, which is the same as Otto's 'lost' 324½ years) from the 379 leaves us 54. As in 54BCE, the 'nova' prompting julius to begin New kalends.

This round church was in use by 1162
 i162 is 162 A.D.

"A new sign" **DOES NOT** appear on the horizon every 2,160 years". Far From it. Each constellation is a different LENGTH to its neighbour! which it did in J689-95 ~ Nostradamus died July J566, 6 years before pope Gregory changed calendars to 'Gotique', which lasted until Otto, a relative of Constantine in Byzantium, became alarmed at the Danube, Thames and Nile freezing solid overnight July 2nd 676. Pronounced July as Yule of the New Age 1,000, thereby "losing" 324 years. The result of keeping Greco-Roman kalends order under kontrol of Church left us with 676 years too many. Early Sunday morning, March 22nd 2020, on face book, someone posted a ridiculous hoaxed video regarding Nostradamus and Ogmios. These videos do annoy me so much, always being based on fear factor, ignorance and unsubstantiated scholarship. The first word that hit me in the face was "economy" – a word the doctor never used (in real life), living in a feudal system. OGMIOS meaning = giant (OG) MIOS = making water – Uranite: Orion. So is this really what Orion is doing? Not his sword at all

- This video (which I am not going to promote) had an image purporting to be the doctor – but was instead, his son, Filippo.

OGMIOS. Appears in 5.13 5.51 5.80 6.42 8.44 9.33 9.72 9.89 9.93 10.27 10.79 & Presage 39 6 42 To Ogmios will be left the realm. Towards the end of this pdf I went searching for some of the so called Nostradamus prophecies provided in a short fear-mongering video, with such key words as CLIMATE. (an ILLUMINATI concept). Nostradamus did use the French word climatique, which means "latitude". CIVIL WAR. ECONOMY/FINANCE (said the narrator). MIGRATION & REFUGEES, yes, a few quatrains. Pope died. Not just pope, but PAPPAL. ENGLISH KING – but the one mention of a modern king is here, as "king is not king". EMPIRE. ^{3 97} None of these topics is ever given a quatrain or presage reference which a person can check. Notice how the videos are aimed at worrying the public that the pope will die, and that Empire fails. These are the very things which keep us all in slavery! Including the English king; not a king/ There is a pdf titled ADRIATIQUE, ANTECHRIST & CHARLES, which has further explanation.

I just noticed that the date this pdf went onto the website is the very date the texts said QEII actually died. July 2016. She was laid in state early 2017. So, when MI5 and MI6 put out a web post in December of 2016, they had panicked.

Each of these videos has good points to consider, the most valid being the color of the eyes from blue to brown (!) and the teeth. The queen can afford to have beautiful teeth!

It has ALWAYS been royal policy NEVER to "complain nor explain", so when one sees tweets or blogs purporting to be from the palace no matter what the content is, such as "the queen is NOT dead" TAKE IT WITH A LARGE GRAIN OF SALT.

The BEST reason for NOT telling the world she has died is the legal one. In reality she had no legitimate claim to the throne in the beginning This is a subject the reader best go re-search for themselves to understand it.

If you are case-hardened readers of these works from 2014, you might recall an event in the October which NASA wrote off as a "meteorite hit" on Mars. This (according to these texts) had been well pre-dicted to have been a sasar hit from the Black Knight Seraphim onto the Mars jump-room base.

This was done because the elite had plans to bomb Yellowstone, jump-room over to Mars to safety leaving the rest of us to go to smithereens. The removal of their jump room base meant they had to cancel and/or postpone that agenda. This is what has set their Agenda -21 back several years.

By now, in 2023, they have other means of arriving quickly at Mars (and it will NOT be by rocket!).

They changed Agenda 2021 year to Agenda 30-21 ... meaning 21st Century.

Working with the word SAIS will eventually take us to the word SAXON, because Sais is where the finest short blades were made and exported from the area Heliopolis to Memphis near Sais – thence to the Gladiators, and to the precursors of Alfred the Great. The short sword in his times was known as the Saxe. According to Bernard Cornwall (The Last Kingdom books). For me, the lining up of « "Breton acquaint Norman king" » is still a priority. ❖ *Such as only a husk will* = those who get the left black eye *quill* lobotomy are taken over by the juvenile reptile who sent its quill along the optical nerve spreading to the spinal fluid. This is what happens to VIPs when they tour Amerika. To become frontmen.

❖ When collecting the 1700 plus coins & maps I have, one recent glaring clue was sitting in maps of the period 513 Piri Reis, with Blemmye & Dog Headed men at Antarctica. In 537 most of the American area was not mappable *due to ice cover* as far as Mexico city, yet anywhere 'north' of Scandinavia was ice free... the 547 Vallard Atlas is sideways, 565, 570, the same, with California completely covered. All the Gadoury city asterism footprint place-ments are sideways. Closely followed by all of Scandinavia, Greenland ice free along with Frisland before it was censored. The Hadji Ahmed J559 map of Antarctica at equator. A 565 map of Antarctica shows elephant, drom-edary, bears, lions and hyena. Maps in 590, 592 show Sahara completely green with ducal tents and banners. An astronomical map of 590 shows Cetus and the nautical stars in the North!

❖ Any map with Candia instead of Crete is prior to i669 when the Sun King Louis XIVth renamed it.

❖ North wind these words are dating this information, so that at the time I was finding the iced Americas, the north wind will be created by our planet turning towards the north.

Minuscule (lower case) letters were developed in the Middle Ages, well after the demise of the **Western Roman Empire**, and lower-case versions of Roman numbers are now also commonly used: i, ii, iii, iv, etc. In the Middle Ages, a j was sometimes substituted for the final i of a number, such as iij for 3 or vij for 7. This j was considered a **swash** variant of i. The use of a final j is still used in **medical prescriptions** to prevent tampering with or misinterpretation of a number after it is written

3 41

Hunchback will be elected by the council,
A more hideous monster not seen on earth, Nemesis
The required /influensive/desired blow will pierce the eye:
The traitor to the King received as faithful.

Although this does describe the Death of Louis Conde March 13 1569, (adding the cipher 458 to 1569 gives 2027) the hidden words say something else, and the clue is the sentence "more hideous monster not seen on Earth". Nostradamus does not exaggerate. Calling the Compte Louis de Conde the most hideous thing ever seen on Earth is not in his pervue.

As a doctor, Nostradamus would have seen many 'hideous' hunchbacks.

The most hideous monster ever seen on this Earth would be Nemesis or Nibiru.

The "eye" is Orion or our sun (Artemis/Orion). Or even the dead comet sun Nibiru.

The key is in "BOSSU" which is BUS OS (moving in Capricorn) and the council spoken of here is the Andromeda counsel.

The traitor is king Nan.nar, who was executed 18.8.18 and his enemy was those from Argo (Oar) of the second coming - said to be "the desired" ... Mazzaroth/Mizraim Miss Frances Rolleston.

 Billy Meier was misled by his visitors (who arrived in Vrill craft) & early in the visits many of their predictions did come true. Just like Edgar Cayce. But towards the latter predictions from Cayce, not many have come true, so I am wondering if he actually channelled the fallen ones too. The same with Valiant Thor, he came along and the first thing he addressed was our diet - same with Cayce. But Valiant Thor knew full well our diet is a moot point when it is all genetically manipulated.

then published again in March 2013.
 The "Triple Method" in Lettre #32 of the Latin Correspondences, was not given to me until quite late 2012. Taking me until March 2013 to collate, compile and publish ~ all without realizing this was fulfilling one of the prophecies, the first line in 3 94, which includes the word Ornament..
 Knowing (d'Amant¹⁴²⁴) had been a bit of a mystery to scholars of the works of Nostradamus, with numerous interpretations and many of them probably correct - I had little choice than to place this as both a black diamond used for "ebonics" (directed energy frequencies used to make crop circles) and as "diamonte" - an ornament.
 And who was the Ornament, with capitalized A for Amant?
 Nostradamus, in 3 94! This then told me that if Amant was the Ornament, then Psellyn/Psellus was also a person. Psellus was Michael the Younger, a monk who wrote the CHRONOGRAPHIA in around the year 155.
 As it was also a name for Porphyry, an astronomer, in Porphyrys Pillar.^{C+F+PILLAR}
 J562 this letter J by this time (598) may have become the European J for Jaar/year. On its own a minor threat to church, appearing to diminish their authority simply by not being Jesus nor julian (1). Rather ironic for church, when it was the I.C. they were hiding. Initials for Incarnation of Christ. That which the i or ı / ı was replaced by a number 1 in January of 583.
 At a slightly later date, changing the Anno Domo to A^{nno} Domini. To the point that the knowing public even resorted to using Dom.* on graves and coins. That is to say, Capital D, lower case 'om' full stop. Allowing the reader to choose if it was meant to be Domo or Domini.

In this way saying neither Domo, nor Domini. The ugly secret by church being that dommini in Latin, with two "m"s = means dominion of, or dominating, instead of "our lord" with one "m". This also tells us that this is a lord which is deceptive and unloving and needs to dominate. Hardly Omipresent nor Divine. Not to be confused with the initials all in capitals, D O M with which Cesar repaired his father's tombstone. This addition was done in Roman Numerals meaning 500 Naught / not One thousand. Last night on an Antiques show, I caught the Roman numerals showing the M supposedly for 1,000 but in fact meaning Mega / Great, with a full stop either side of it.

* There is a silver goblet inscribed inside the upper lip with J69½ - exactly like that. Year six hundred ninety five? So, what happened in 695 - well, i680 mentions Ison, along with a woodcut, Heveleius' astronomical woodcuts show in j686 Shows Sagittarius in reverse to how we see it today. Then his j687 woodcut, done in the triple method cipher shows all the star systems had reversed. Even the vignettes of Cesar de Nostredame showed all the constellations in reverse to how we see them today - proving by another method that they lived prior to a year with a 1000 in it. The White Horse of Uffington can be dated as well. It is Sagitatrius, complete with bow and arrow, folowing what must have been an Earth turnover, following Wormwood and Ison in December j680. The European public did the same for the i/j in 820 - showing both a capital J and a lower case j telling us they were not the same thing, signing this with I.820.

A MESSAGE FROM THE VICE PRESIDENT
JOHN F. KENNEDY JR
memetrunk.com

I want to extend a personal ThankQ from Carolyn and I directly to the #DigitalSoldiers #KeyboardWarriors, #MidnightRiders & #Anons To our Military and Galactic Alliance behind the scenes at the ready. This letter is directly to the American people, in hopes to reach as many humans left - as you undoubtedly have noticed that we have taken back this country from the grips of the evil Artificial Intelligence COVID-19 Bloweapon deployed by the Democrats allied with the CCP that behind it all were controlled by the slave ship Draconian overlords, in conjunction with our Secret Space Program, Space Force, Militaries & The Galactic Alliance we have defeated our greatest adversaries mankind has ever faced. As we face the EBS & Military Tribunals, I urge all Americans to prepare for Martial Law. There will be active military on the streets at key locations to maintain Governmental powers, during this transitional phase to ensure maximum safety during Operation Warspeed. These measures are in place for the immediate fallout after the EBS, when the lights go out just know that the White Hats Are In Control. Understand that we faced an evil the likes of which no one has ever seen, because the strings that control the world were inside you (Tugging on the strings of your heart to drain you like a battery) because the truth is a force of nature. I was sooo pleased to see John Kennedy refer to his and ^{6 1 2} Donald Trump's guardians as the Galactic Alliance, and NOT The you tube Galactic Federation! Because we all know what happens to the indigenous folk when a Federation arrives to run things. The original people have their children taken by the state, their mature men massacred and their Elders derided. To the right is a shot I caught in 2020 of what did not look like my normal visitors, being dull and out of shape. Nigel Impey brightened it to the point we can see an elongated some-thing behind it. One of the little cubes is black, as is its halo, so it seems it is a black cube, only confusing more than to enlighten us.

HOW THE PREFIXES EVOLVED and OPERATED:

They evolved, just as fashion, language and customs do. Beginning as 22 runes until in the Gotique times, (583 to j676) the j was introduced (i524) and the two U/s or V, became a W. Various peoples had a ferrago of needs for their own alphabet with the Tartarian using 202 characters & others needing only 20. As late as the i800s, a Y would be used as a J.

Because i492 Quadrata font had no j, nor w, the alphabet appeared like this: abcdefghijklmnopqrstuwxp*3

From 'old English Ano Domo i61/LXI) right up to i492. The W seems to have come from the direction of Wales, around the same timing as William the Bastard signed at as two Vs intertwined when he took Hastings in i496.

The two Vs as a W were still being used by Nostradamus in j555, just as the four IIII's were still being used for IV/4 in his own times. Applying also to the XXXX for XL and the CCCC for the CD. The latest I could find for the use of IIII was 598.

This is how we know Hastings was in the century of CCCC / four hundreds. A Greco-Roman tapestry with the identical comet overhead also kindly showed a pageant with the date on it of CCCC 96. By the times of i066, the use of CCCC, 400 XXXX, 40 and IIII 4 had long (by at least 400 years) dissolved into CD, 400 XL 40 and IV 4.

The i for iulus/Julius remained with most forms of dating until the 500s, (i527) when king Henry VIIIth began his split with Rome.

It seems to have been in i524 that kings got their brains together and introduced the letter J – especially for Portugal and Europe where Jaar meant Year. Recall on the Nic Grilekerck Map I queried the upper case J used and lower case.

- * P interesting that a Y appears in Spanish language before i492, indeed from LXI iulus kalends; (in England 15BCE).

Thomas Candifsk Cavendish J587

Turns out, the difference between the types of *J* relate to *J* for *Jaar* (year) and a preference for not conceding to Rome with its *J* for *Julian* (an emperor) causing the insistence on using (by religious folk) the *I* – which one would think is still *I* for *iulus*. But no~! This *I* is for *Incarnation of Christ*. Under this guise, church not needed. Why? Because church was busy burning folk at an iron stake (Filippo Nostredame / Giordo Bruno for example, burned at iton stake i600) because they did not believe payment to church was needed for saving souls when there was such a thing as re-incarnation. Many very early dates in media around the crucifixion event have the *I. C.* followed by a Roman Numeral number instead. In the English language this would be spoken as *Christ's Incarnation (C.I.)* but in all other languages the syntax is *I.C.*

endnotes INRI Nazarene Jesus King of Iudeans

The tacking of the advertisement to the cross which is said to have read INRI cannot be true. The bibles say right from the beginning regarding this advertisement that the INRI was repeated in three languages. There was simply not enough room to do so at the top of the wooden cross. Ron Wyatt discovered the actual spot of this crucifixion was at the *base* of Golgotha with enough rockface behind, complete with three carved shelf niches inside which there was plenty of room for the three languages advertisement.

The Isle of SKYE was named after the Skythians, which explains Scythian armor at Hastings.

In his Art of Horsemanship, Xenophon describes the mercenary macedonian and Skythian horse-manship and how their main gross national product (if you will) was acting as world wide mercenaries for others. In this case it seems a link between Queen Scots in her exodus from the land we call Egypt, and those of the Pictish tribes.

The link is the timing, around and on the heels of, the 1486 BCE ThuthMoses witness of the Nemesis visit; in the Tulli Papyrus.

If someone could translate the Greek on this image, would be good

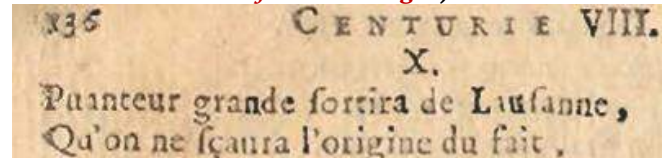

The Skythians arrived with queen Scots travelling between Ireland and the Picts landing at Isle of Sky, eventually to overtake the Picts and named Scotland at a time when Loch Ness divided the land. These are the same mercenary Skythians seen in the Bayeux Tapestry of the 1066 Hastings-Norman takeover.

 Very sad that folk do not receive English grammar etc. Was this done on purpose for this very reason?

in 631^{edition} KJV the satanic king James version, the bible compiled by the Freemasons... Scot James 6th became U.K. James 1st. The KJV used to be my "go to" bible. Turns out it was just another Version, like the NIV is just a NWO version. With over 4,000 words changed, 16 books removed, (and that is after the Nicene Council of 325 had edited out what they wanted, which was in essence the IC XC prefix along with what that meant) The USE of A.D. as a suffix was not made until the 600's Even then the only part that was consistent was the Anno. Alfred the Great left that legacy of DOMO (living in) to his bloodline. Church changed that to Domini/our lord following the Giordano Bruno aka Filippo Nostredame stake-burning in 1600. My question is this. Which bible did Donald Trump use?

Andy the Highlander

N The doctor was HANDED the works to write up. He and Da Vinci were picked up by members of what John (JFK) FORMERLY Junior., calls the Galactic Alliance. In the Hidden Texts of Nostradamus these are called the (much maligned) Elohim Alliances For The Living Library. Since there is very little that is 'normal' around MICHEL DE NOSTREDAME, suffice to tell you that CHANI of the Chani Project (a Younger Elder) was the one delivering the works to him.
 In essence, Chani in the beginning, but WILLIEM52 later on, took the doctor via the "brass saddle" in a time gate, using time travel. One of those trips was to the towers at 911.
 Since GOOGLE had the patent for FULL BODY TRANSPORT SYSTEM (time travel) by 2004, we need only know, that once a time visit to a space time happens, then those at that space time also have it.

The day and the moment I saw this craft looking like a giant Pelican – shooting through the valley towards me then veered off – I was carrying my camera. I was on my way to the stables to photoshoot a young horse about to be advertised, because I had sold me farm unexpectedly. When the photo was developed the large craft had exited stage right, but the shot had caught why the craft was veering off. A V formation of silver orbs, about a dozen of them were in hoy pursuit. Those Sphenoid craft that look like large birds belong to the Ruach, the Enlilites. Did I have a lucky day that day!

Here is a translation of the text of Ahmose's stele - which when one reads and comprehends the effect received by Egypt - one comes to realize this speaks of the Passing Over of the Nemesis solar system which had set off the Santorini/Thera volcano:

Long live (?) the Horus "Great of Manifestations," He of the] Two Ladies "Pleasing of Birth," the golden Horus "Who binds the Two Lands," King of Upper and Lower Egypt, Neb-pehty-Ra, son of Ra, Ahmose, living forever.

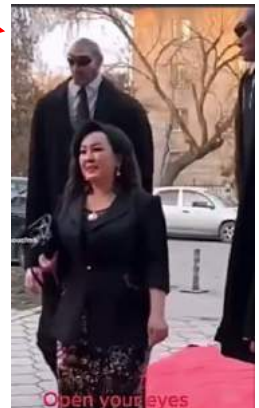

Now, His Majesty dwelt in the town of Sedjefatawy ("Provisioner of the Two Lands")

[in the district just to] the south of Dendera.

Now then, Amon-Ra, Lord of the Thrones of the Two Lands, was in Heliopolis of Upper Egypt (= Thebes).

It was His Majesty who went south ("upstream") in order to [give to him bread, beer and everything good and] pure. Now after the offering, [...] their(?) [...]. Then attention was given in 33 [...] this [dis]trict. Now then, the cult image [of this god...] Osiris [...] as his body was installed in (lit. "united with") this temple while his limbs were in joy.

[...] Now then,] this great god desired [...] His Majesty [...] while the gods complained of their discontent. [Then] the gods [caused] that the sky come in a tempest of r[ain], with [dark]ness in the condition of the West, and the sky being in storm without [cessation, louder than] the cries [lit., "voices"] of the masses, more powerful [than...], [while the rain howled] on the mountains louder than the sound of the underground source of the Nile that is in Elephantine.

Open your eyes

*Then every house, every quarter that they (scil. the storm and rain) reached [... their corpses(?)] floating on the water like skiffs of papyrus outside the palace audience chamber for a period of [...] days [...] while no torch could be lit in the Two Lands.**

Ask yourself why could no torches be lit?

Was this a description of a passing over of the Nemesis solar system?

Tibetan monks did warn us all back in 2012 to put blankets up over the windows and not turn on any light source, that should we go outside during the PassingOver, one will go mad with what one will see

FIRE and D.E.W. See "worst rogue Kissinger"

DARDS Darts from the skies, are Sazar (sonic laser) from satellites, military craft & drones, and WE are the enemy!

Sasars are Lasers using differing forms of gemstone which have different frequencies. This is one example of lord of the airways (frequencies) ENLIL using part of Lord of Earth and Waters ENKI's DOMAIN against him.

But Enki does the same (using Enlil's own domain against Enlil) to lord of storms (and the consequent sacrificial smoke that often ensues from lightning), where Enlil's storms & tornadoes constitute flooding & destruction; the RAIN that ENKI sends means repair and creation.

SASAR: [Sazer] the mystery schist disc artifact was the method of producing the frequencies by reading the produced cymatics required for controlling the pitch. The Maya had this technology. These were used for levitation, enscribing solid rock and melting rock.

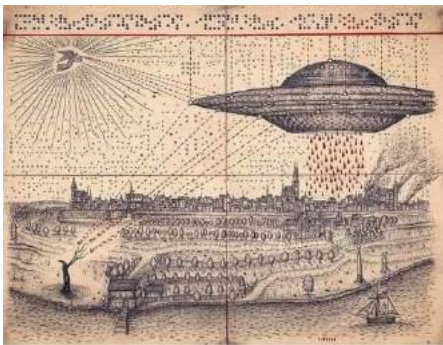

The differing gems used are Ebony, Obsidian (ebonics, used for making crop circles) also Black diamond (*d'amante*, in 3 94 the 'ornament') and the plinth seen in cartouches of pharaoh standing on it. Full of silica, a form of computer.

Amethyst, Garnet, Ruby, Sapphire = Maser; emerald = laser Saser = Sound Amplification Stimulated Radiation which can be translated into Frequencies Energies Directed (F.E.D.) Focussed ElectroMagnetic Adjusted Radiation. F.E.A.R. and this is what your friendly police use on crowds of people quietly sitting in front of such places as Parliament House Canberra.

Yet I have been spelling it SASAR = Sound Adjusted Stabilized Artificial Radiance. Ray gun for short.

Tried to post this question in Archaix and my post was denied. Does anyone know who drew this or when it was created ?

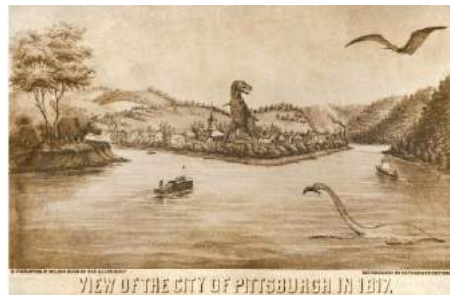

For whatever reason, there are two of these paintings, one without and the other, with, the source of the fire

'Same for this one. Had Kissinger not made his "burn you out" statement, these may have gone unnoticed.* Yet the description in Marusek's Chronology of Weather Events

A° i666 Great fire of London. Nemesis had just been seen by Cassini. It was almost like a "scorched Earth" policy! Just as we are having right now.

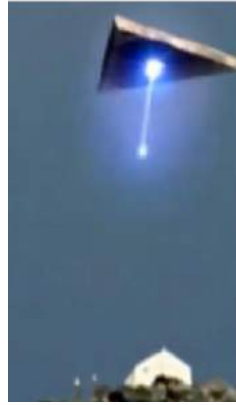

describes these wildfires, most certainly not started by Mrs. Brown's cow!

And now, in the works of Assange, recently releasing real off world battles in both the north and south poles. Putin and Trump have been dealing with these together and the dog & pony show we have been forced to endure has been just that.

Note to self Get the images from Putin's aide regarding the technology the guardian off world Watchers gave Putin – having to deal with invaders who now find a need for Planet Earth. With their dead sun comet (named ATLAS by N A S A) partly carved up and on a new trajectory, nothing will be the same for those inhabitants in that mini solar system which might never return. So, we are being shown a "false" invasion on media which disguises a real one (Assange). The Putin Aide interview will need to be in the next pdf forum.

This might also refer to two planets in our own solar system being
moved around, with particular consequences for the inhabitants.
One thing is certain, inhabitants of failing planets must needs find
another. Raising the question – is this the real reason for Trump
receiving visitors – and for Putin having to fight off invader aliens?

8 64 Two planets out of seven will be in despair. Herein
sits the Problem. May 2020 saw galactic assistance in
carving off some of the comet Nemesis so that it would not
hit Earth, but the result was not good for the mini solar
system. It seems that this has changed its course to make
it either never return, or some other disastrous effect on
its inhabitants. Are we really being invaded ?

FALSE PROPHITS and DOLORES CANON
 You think I am going to tell you Ms Canon was a false prophet, don't you?
 Between *her* spelling her name CANON and *others* using CANNON there is a tale.

 HOST CAME ~HAS SHOT COMET. H , MAE. In Taurus
 and it WAS in Taurus "MAE"

This single episode will alleviate future destructive
 events caused by the comet (in alphabetical order)
 Atlas-Hercubolis-Ison-Nemesis-Tychon etcetera.
 Hercubolis is another spelling.

For it to have appeared as a warning mentioned in
 the Preface to Cesar, ccj.de Mars 1 555 a prophecy
 made 789 years ago (1344AD minus J 555) is simply
 freaky to the unknowing mind.

If the comet "Atlas" is another name for Ison or Nemesis, then this event is
 explained not only in the Hidden Texts but in the Quatrains too - That this
 passage of Nemesis "will be the last"
 So, think very carefully what those inhabitants of its orbiting planets will be
 likely to do about it
