The reasons I see Collier as very "real"?

1...He named Ayse as did Anton Parcs long before I published the name found in the Hidden Texts...

2...He spoke of the Anu asking permission from the Andromeda Council to return for their machinery and plant and then more than one Hidden Text line said the same thing 20 years later - from the Template - a thing we have seen is scrambled and requires putting into context first *then* de coding.

ALEX COLLIER LINKS noting that nowhere throughout all of the Template is the full word SIRIUS to be seen. Ciphers for it are plentiful, however.

"THE FIRST GROUP TO CONTACT US WILL BE FROM SIRIUS B - THEY ARE FULL OF SHIT"

and how many recognise the "coincidence" that Steven Greer's group is named using the word **SIRIUS**
this shows either a lack of knowledge, or a ritual mocking

Which is also what all the ridiculous SaLuSa "channelling" via Michael Quinsey is all about, dialect to suck you all in. See many Quinsey contradictions in *FALSE RAPTURE* forums

"CORPORATIONS ARE RUN BY A PROGRAM, AN E.T. PROGRAM" ... "IT DOESN'T MATTER *WHAT* PEOPLE THINK [ABOUT E.T]"... Collier:

"WHAT IS REALLY IMPORTANT -?- FAMILY AND FRIENDS"

"WHO CAN AUTHORIZE E.T CLEARANCE TO THE PRESIDENT - *THOSE* ARE THE SECRET [SHADOW] GOV'T .

"AND WE ARE PAYING FOR THIS, BUT NOT DERIVING THE BENEFIT

"WE DONT NEED THE SPACE SHUTTLE, WE HAVE NOT NEEDED IT FOREVER

"LET US JUST RELEASE THE FREE ENERGY - THE DOLLAR IS DEAD ANY WAY

"IT COMES BACK TO THE AMERICAN PEOPLE - HALF OF YOU DONT EVEN VOTE (not that that means anything)

"NEED TO HOLD THE FED ACCOUNTABLE - NEED TO REMIND THEM WHO IS IN CHARGE - THE PEOPLE

NOT TO BE CONFUSED WITH "HANDS" WHICH IS LEO

Clear Clue: in Sepulchre (tomb).
 When speaking of tombs the word "MAUSOLEE" is often used by Nostradamus...meaning at Giza. However there are thoughts regarding his own tomb...the D.O.M inscription & the D.M. in one quatrain. Also the tomb "Medusine Device" in another

Nostradamus said (in the forum I am on now LANDS MELEES)

10 27 1 **CLEAR CLUE IN SEPULCHRE ENGRAVEMENT**

I already knew that the letters D. O. M. were on his grave stone (his son put the "O" in the middle of these two letters following the desecration and replacement of the headstone). It is important to know that 500 was not 1000 (DOM) to save the children.

The words from the two letters D.M. normally mean *Diis Manibus* (gods & ancestors) but the O is a Zero. 500 not 1000. Cheetham says meaning *God in Me*. That on its own is intriguing as "ME, I AM" in obsolete language means "Orion". What Nostradamus wanted someone to do was work the words *ROMAN MEDUSINE* from the French spelling.

Again we have something interesting ROMAN = NORMA = obs. for those from Regulus saying they are *MEDUSA-like*, so saying *Medusine Device* (Device Medusine.) Keeping in mind they had something to do with the pyramids complex.

The DOTS we are to join is that Nemesis was going to impact Earth this passby. The French and their ET chums carved parts of the comet-dead sun off so it would alter its trajectory. Meanwhile, at June July 2023, we do have melees of space craft overhead.
 • MARS CRUST HARM According to Clay Tablets of Endubsar , part of Nemesis system sidesuiped and took out Mars.

- "AIM UNDER" means to find the words hidden under or inside the quatrains. Also means to investigate underground
 - "OS UNDER" Australian Under (Allan Webber and or Nell Mead-Parks) or
 - UNDER OS (Os is bone, meaning in Capricorn - the December 22/23 dates, so before those dates
 - "REASON IN" means the reason is *in the word*, one very simple example "letters in honey" and "letters in fish" ...simply means get the words out of those letters comprising "h.o.n.e.y." and "f.i.s.h."

 - OSMIUM: means "fragrant ones" the nine of the Ennead – the gods

For those who have arrived here new to these hidden texts and somewhat bewildered, here is an explanation of
 the numbering system Allan Webber set up throughout his Template of Quatreins.

So that the computer would not automatically "run on" his line count, he places a pound sign first, like so...

£ 3019 2 90 4 with this line being from Centuries 2, Quatrain 90, line 4.

Should you need to find his results for a particular line, you need only type in Control plus Find= C+F+3019
 in the above example. His results carry Key words. Once you have a key word of interest, you need only use
 that for C+F in his *Template Of Computerised Quatreins*/ those were Directives for him out of the Template.!

ALLAN WEBBERS TEMPLATE Part Two

ALLAN WEBBERS TEMPLATE Part One

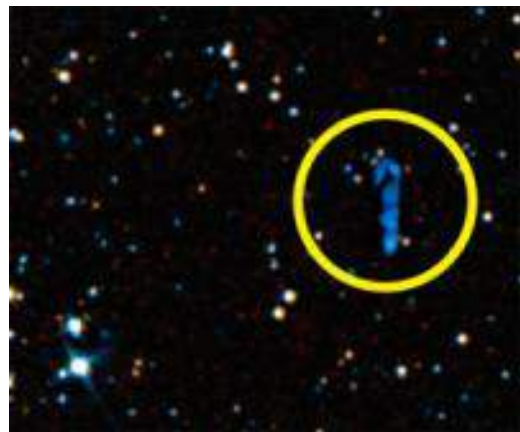

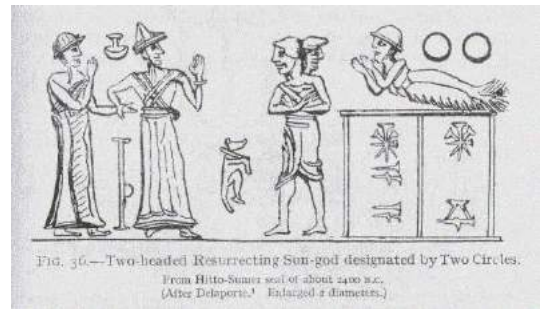

<http://www.hiddentextsofnostradamus.com/wp-content/uploads/2017/06/1-Allan-Webbers-Template-Part-One.pdf>

The fudged out area in blue circle was a chick.

The chicken represents stem cell and genetic engineering. See “electric light pole” and aerial refueller #10 in image before. As described in CESAR’S LOST BOOK – THE KEY on page 5 of the Website. From page 22 of the *Book of The Dead* (Budge)

Above: This wall relief above has appeared in the forums before. The cigar shaped piece of equipment numbered “10” seems to be at the top of the previous wall frieze, only upside down and seems to be “connected” via the appendage. The object which looks like an aeroplane numbered “11” seems to be the same object with the same number in the previous frieze. The picture on the right appears to have the same alphabet. See the “fish-man” (Oannes) the dog (Sirius or Canis Minor) and Miletus the two faced person. Miletus has a few mentions in the Hidden text, as does the “fish-man”

The two pictures above are supposed to be actual photos, one taken with a telescope
The two below are illustrations by artists or photo shop – I hope

The clues given us on the left are:
 The diary of life is empty – ready to start all over. Wheel of time (zodiacs) has nothing. No stars in the band, but the “apron” is in cyan (Aquarius) in colour. The blue of his robe represents a day and/or a zodiac month (Pisces and Saturday/Capricorn) - Are they crown of thorn injuries on his forehead? **CROWN is key for LIBRA** He is well rugged up on the right, and the tectonic plates are normal, albeit see a few “detours” in the Milky Way. Band means in Pisces too. The apron is behind the twists in the Banner/Band and is in fact a bright golden colour. This could mean Golden Host or the Keepers (who use gold to contain their atmosphere) The twists are our own earthly ‘rolls’

“it will be in October the Great Translation will take place...as if there is no gravity”

See below

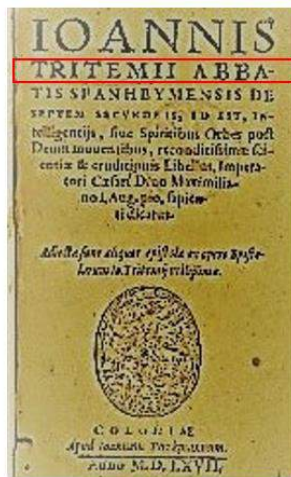

Left: The one eyed stag is Orion, the Chrono is Saturn and the maid is Virgo. Right: Nostradamus cannot emphasise enough how the constellations and the zodiacs within them are involved in simply everything related to understanding the quatrains. Not only astrology, but the astronomy - as the high priority.

The spoke free millwheel of time – a new start?
 The yellow/gold colour usually means in Leo or “from the sun”. Or even Golden Host. The Vine which entwines the cycle of time means in Virgo. The six limbed star is the “unholy six” of the second coming and on the top left hand limb is a little blob. I scratched my head and asked around to see if anyone could determine what it is meant to be. I was thinking it was a bear... My son in law said he thought it is an owl. I nearly fell out of my chair when he said that.
OWL MEANS MAY 13 – JUNE 9 and OCTOBER 28 – NOVEMBER 24
 (see Chani Project)

Warnings regarding Easter and May are plentiful and they seem to refer to 2024. The CHANI Project speaks frequently about the May event and see lines 10 27 and 5 14 1. Not forgetting the Celtic Samhain/Halloween is also OWL date

ORME-ORMUS CREATES THE FIELD

Female face is Hatshepsut

Belt with 3 stars of Orion. Sporan is the pyramid with 'stages' to the stars. This is why Nostradamus calls this portal a Stage Gate...

Subterranean city leads to "Hades" and the stage gate

The stage gates all over the world are interconnected.

Nostradamus was taken in under Rennes la Chateau (10 100 4 the final line) to emerge at Giza (Greek Hades) The Haoma symbol of the Sumerians – 'Lord of the Rings' some people call it, showing a man in the air with long wings, a large ring around his central body and holding rings and implements in his hands is duplicated in a Mayan illustration. I saw this in *Ancient Aliens* on TV and have been driven to dementia trying to find it since.

Left: this, I believe, shows the sun, Nibiru and the three day eclipse caused by Nibiru. The lobster means in Cancer but is also a reference to "lobstermen" which could be a pun relating to the quatrain "locusts on land". The word in Medieval French for lobster once meant "locust". Lobsters on land would mean the ocean has arrived. The swirls here could be just that, with the planisphere movement.

The big "V" represents the "V" of the muliebra of Andromeda

Indicating the Andromeda Counsel – who, it seems have been trying their best to assist. The wheel still has all its spokes, but the banner of the Milky Way has gone dark indicating the stars have gone which means our orbit has changed. Or an eclipse caused by Nibiru? Nibiru is not alone. There are three eclipses in 2012

The colour gold could mean GOLDEN HOST DOING

The tectonic plates are still in place. The apron or bib is golden in colour; I think this refers to the "watchers" the GOLDEN HOST at the edge. Saturn (the chrone) and the princess Andromeda is "squared" or in opposition. Virgo is shoved aside.

In the lines SATURN (the chrone above right) means the "tribes" of greys and reptilians.

Andromeda is the Andromeda Council "in opposition" ...squaring off - the bent banner means we have had a "roll" 5 32

Where all is good, the Sun all beneficial and the Moon

Is (still) abundant, its ruin approaches (no moon, no sun

From the sky it advances to change your fortune

In the same state as the seventh rock

At forty-eighth climacteric degree

At the end of Cancer very great dryness: (Ursa Major is in Cancer

Fish in sea, river, lake boiled hectic,

Barn, Bigorre (pathway 249 miles) in distress through fire from the sky.

The "seventh rock" for Nostradamus is counting from outside the edge of the solar system travelling inwards (as anyone coming from "outside" towards the sun would!). If counting from Pluto (and we know Nostradamus knew about Pluto as he has it mentioned in a line in WATERWORLD) ...apparently the seventh planet inwards is Earth. It could be Venus if excluding Pluto as a planet – but that still works, as Venus is NEVUS the warty greys...Counting outwards would give us URANUS. This could be saying "Uranites" which means "of the heavens". Thus indicating it is Off Worlders which "advance". But Uranus in 2 88 2 is in a different light "And the moon is abundant" indicates it may not be one day. See the forum A CROP CIRCLE – CAUSE for PAUSE...

The "48th" degree could also mean Celsius.

Left: 5 98 "at the 48th degree"

R: The arrow is pointing to two things

- 1) Virgo
- 2) Face which means in the first ten days of Virgo

The wheel of time still has its spokes.

Left is the pathway of an aimed asteroid which breaks in two.

The secret message on the cathedrals of Europe. On the left is either "in Taurus" or those from Taurus, which can mean the Pleiades or Aldebaran. The animal on the right is a chimera of a Leopard (with halo), a lion's body albeit with scales, holding a book in his (reptilian) hand. Is it a sea monster? Capricorn? The halo indicates one of the "gods". It could mean Cetus or even Oannes

Just a reminder of...

How insignificant we really are

Now picture a comet-planet two and one half times the size of the big one on the left...

Easy to see how such a planet might affect our "planisphere" with its own

Left: we precess from the Age of Pisces (Jesus and the fish symbol) into the age of Aquarius (Mankind and water) around 2590 Anno Domini. This time round Giza will not be the hub of that world. We are in 1347 at 2023 with age of Aquarius still a long way yet to go. On the right is Sagitta... facing the wrong way in the j500s of Nostradamus, before it turned to the current direction J689/ of Wormwood. Hevelius, Newton.

Sagitta is a constellation. Its name is Latin for "arrow", and it should not be confused with the larger constellation Sagittarius, the archer. Although ancient, it is insignificant, for it has no star brighter than the 4th magnitude and is the third smallest of all constellations (only Equuleus and Crux are smaller). It was included among the 48 constellations listed by the 2nd century astronomer Ptolemy, and it remains one of the 88 modern constellations defined by the International Astronomical Union. Located not very far to the north of the equator, this constellation can be seen from everywhere on Earth except within the Antarctic circle.

Sagitta lies within the Milky Way and is bordered by the following constellations (beginning at the north and then continuing clockwise): the little fox Vulpecula, the mythological hero Hercules, the eagle Aquila, Cygnus and the dolphin Delphinus. **Sagitta** is said to represent the arrow with which Hercules slew the eagle (Aquila) that fed upon the liver of Prometheus.

A sagittal plane divides a body into left and right portions; this section through an axis is called a plane. .

The sagittal plane, a front-to-back plane parallel to the midline of a body,... "like an arrow passing through the body".

So – what is Nostradamus really saying in this vignette?

"The three decans (companion constellations) connected with Capricornus are so closely related that we really need to study them together. They are certainly grouped closely together as if they were meant to be considered as one.

We'll start with Sagitta, the arrow.

In Greek mythology, this was the arrow used by Hercules (key for Zeta Herculis for us) to kill the vulture (LYRA) that was gnawing at the LIVER* of Prometheus. It was also said to be the arrow that Apollo (ORION) used to kill the Cyclops, (CECROPS) All three were fictional heroes that used this instrument of death to destroy the forces of evil. SAGITTA (Ltn) "the arrow"; Sham (Hbrw) "destroying, desolate" zodiactruth.com

*LIVER means BILE – a Celt date of June 10 – July 7

In the Lost Book of Cesar de Nostredame there is the KEY vignette showing the “boomerang” the Maltese (Anu-kim) Cross and the white Helmet crown of Pharaoh. These are above a vulture and a dove. I omitted to say the Vulture was Lyra constellation and the Dove was Pleiades both of which may form part of the GOLDEN HOST DOING – especially as the Vulture had an olive branch in its beak. The boomerang image means “stranger”/Alien, and also refers to the stage gate – stargate.

This is AdrenoChrome (from which Google gets Adreno and Chrome) ADC, a substance traded throughout the entire Universe. With our children termed upper case CARGO in the 1933 false Treaty signed by a cloned F.D.R and four supposed Off World people. The treaties are renewed every nine years, and Nov. 8 2014 Obamba ratified Treaty 9.

Just before allowing all those Mexican children across the border without their parents. Never to be seen again.

Is this what “halal” killing is all about? Is this why Islamic killing ritual also prefers un-castrated animals – because they are high in testosterone, adrenalin and the natural steroids that come with a high adrenalin rush of fear ... which happens when a creature is under stress, especially the type of stress it faces during a halal killing.

Did Mohammed receive a visit from an Orion? Are the Orions really reptile in form, such as the Anu/Oannes? H C Parks

KEYS FOR CODING ARE:

Runes – Vinca

Runes: - Celestial, that is, every constellation has the shape of a rune

Celtic Tree Zodiac and sub-tree – also called decans

Celtic decan which is similar to the Amerindian calendar where each ‘week’ of ten days has its own event

The best example of which is the word ‘Fall’ which is the time of leaves falling

The Celtic peoples had their year divided into ‘events’ much as native American Indians

For instance ‘staves’ – the time of the year when yew branches are gathered for repairing roof staves or

‘Salmon’ – either the time for the Salmon run – or for *not fishing* for salmon – the roe laying

The Celtic zodiac contains its own runic keys too.

The days of the week also have a tree each and a rune.

For example: Sunday can be shown as...

San, Birch, Papers (from Birch) Canoe (from Birch) Barque, Barge, Alba, Æ which has an EE sound, but E is a Tuesday and A is a Saturday (these were from musical notes)

The Zodiacs themselves have alternate words such as ‘neck’ for Taurus, Os (bone) for Capricorn and the metals they represent.

The word ‘mineral’ – Feldspar is Pisces, ‘tin’ is Sagittarius, Copper is Libra and so on

That is the FIRST HALF of THE CODES

The SECOND HALF of the CODES comes from the ALCHEMYE LIST

This is the key word from the obsolete languages (Assyrian/Sumerian/Denderah etc) that represent each Constellation and zodiac house, and each decan in that house.

E.g.: “Arm” meant Cepheus King of kings

And “Mar.Gid.Da” was Ursa Major....

And Eddur – the Eloim - join them together and you have...

ARMARGEDDA
