This age should have been called the Age of Discerning. Throughout the centuries since biblical Genesis, the Elohim have been given a bad name. The Accusers are very clever at this, and it is the same Accusers who run the satanic agenda.

Why?

Because the ELOHIM are the Creators of the Living Library.

Following several Quatrein lines of warnings to the collator regarding a date for my final pick-up and the preparation for that incident; including my giving away Everything; ~ the event was a no-show. The explanation was in Allan Webber's Template all along.

The word d'Amant refers to the Ornament, which Nostradamus named himself in 3 94, but also relates to "diamante" or black diamond, needed for sasar D.E.W.

Psellus' Dialogue on the. Operation of daemons.

The dating of Michael Psellus The Younger & his *Cronographia* is NOT 1055 as Wikidpedia would have you believe. We take the 1000 off because it was added late 1582 (which is before '1055'), leaving us with 155. This is not even Anno Domo yet until 180.

So this publication was 25 Before Christian Era.

† "gold" meaning "knowledge" of Psellus' = 'Chronographia'

The tenth of the April Calends, calculated in Gothic fashion

The word *Gotique* was not used after the year j-600

The word *Kalends* refers strictly to the julus Calendar

the Letter J was not invented until 1524 with this i becoming more pronounced to make a J from j when three kings agreed the 1492 i (i) & j (j) would be made distinguishable. Here is the 500's J of Nostradamus.

The very reason I realised the channeller Barbara who was meant to be channelling a Pleiadian, one who was supposed to be an 'expert' on our history, telling us "you have only known about quantum fields for about one hundred years" when In Book III of the *Cronographia* by Psellus 25BCE, he refers back to a Greek who described quantum fields exactly.

6 17 3 Those of Saturn burned by the millers, *the caretakers of the Millwheel of precession*, the Galactic Elohim Alliances

The Saturnins are an Anu faction – burned by those who run the Great Millwheel of precession: the Galactic Counsel.

A correspondent who does have pertinent things to say (Marc DiGuissepe) said to me the Counsel will get sick of the Anu never "growing up" with their constant service-to-self and lack of desire to improve their souls.

Alex Collier 1992, said the Counsel had been approached by the Anu to return to Earth to "retrieve plant & machinery". They were given permission to do that – with, it seems according to many lines herein – this being their final chance to "behave" themselves... so saying they would be "burned up"! See ESTOMACH which tells us what happened: and explains to you why aliens now.

thus substantiating that saying "give an inch & they will take a mile". Alex Collier said that the Andromeda Counsel gave permission to the Anakim to "drop in" to remove their mining plant. That was the excuse the Anakim gave to be allowed to come to Earth during this pass over. This seems to be a test for the Anakim to see the error of their ways (slavery etc). Being **DUMPED** in **SUPREME WAYS** sounds onerous, for the Anakim, being prevented (for any reason) from coming to Earth to mine gold and the other minerals they need to to make space craft, will be onerous indeed.

GENE DECODE: REDPILL INTEL DROP - THIS IS HU- WATCH

DA VINCI (an incarnation of E'Ya according to these texts) hid information in his art, particularly The Last Supper. The hidden entities were put there to be found, and in-sinuated into Marduk's beard is "whistle-blower" Gene Decode's dog. If it was a wolf I would say that would be David Rockefeller but it is not. Now – what do you think this means? There was a saying "bearding the enemy" meaning to catch him. Yet I have noticed recent videos by Gene Decode have fallen short in the truth, as well as his voice changing to a younger man's. Making this image a "FRONT MAN". The word DOG also refers to SIRIUS

Lately, when listening to Gene Decode, I hear his voice changes, I hear words come out of his mouth which relate to "trending" ideas, and can be disproved :- (such as EnKi is in his wording Lucifer). What I need you to mull over, is his name. GENE. DECODE. Noticed today 29th.8.23 Gene's sigil has changed

It was one of these that shape shifted to become Jesus on a Donkey – "paralyzing the gathering" – where almost all of which crowd did possess the "Epipteric" bone. A small bone near the stirrup bone in the skull, which is frequencies-manipulated by the Mind Bender Greys, to mesmerise humans.

“On September 12, 2000 the **GUARDIAN ALLIANCE** was given the ultimatum that 50,000 of its Grail Line Indigo Children be evacuated out, then the rest of human populations were to be left to the agenda of the **UNITED INTRUDER RESISTENCE**. Unfortunately, the UIR races intended to instigate pole shift on Earth between 2003-2008 to 'clear the real estate', allowing the humans of Earth to survive just long enough to be used to access Earth' Star Gate opening codes, at which time all, including the "Chosen Ones" would be destroyed. If the UIR, and their "Puppet Operatives" among the human Illuminati are permitted to continue with their plan, certain hybrid-target-viruses will be released among select populations to reduce the number of races considered by the Fallen Angelics to be expendable; the AIDS virus was simply an experimental test run originally orchestrated by the Drakonian agenda Rigelian zeta races via their human pawns within the Illuminati World Man-agement Team Interior World Government.

The 'chemical seedlings' known as the "**Chemtrails**" is part of this plan,* as certain chemicals that will facilitate the activation of the virus once it is released, are presently being imbued into the local atmosphere in target locations. As the UIR plan goes on, the HAARP installation and several other related global 'facilities' will be activated to broadcast a mass 'Frequency Fence,' a Photo-sonic scalar pulse technology that can harness human brain-wave patterns via bio-neurological blocking into a selected frequency range within which the natural perceptual facilities can be technologically manipulated; the target date for the Frequency Fence in 2003-2004. Once 'the stage is set,' and global human conflict, fear and instability has reached its intended peak, the UIR intends to state a Mass Landing, with Galactic Federation, the Pleiadian-Nibiruian Anunnaki, the Dracos Reptilian hybrids of the omicron-Drakonian collective and a few Rigelian Zetas thrown in for good measure, leading the way. The invading fleets will "Come in Peace as the Peacemakers," claiming they are our ancient creator Gods and kin who have intervened to 'protect us from destroying ourselves and our planet'; they will present seemingly miraculous cures for cancer and several other diseases (including the plagues they seeded) and provide seemingly amazing technologies for environment cleanup ... the personifications of 'Angels sent from above.' If their plan proceeds as intended, the Pope an a collective of global religious leaders will gather to inform the public of the "Great Gift from God," seducing the masses into blind subservience to the "New Angelic World Government"; a "unified Humanity n the eyes of God" All of these things are part of the UIR strategy to directly and physical infiltrate human culture. If we allowed them to go this far, our "United National" will be 'welcomed' into the Fallen Anu-Seraphim aNunnaki controlled 'Federation of Planets' which is a cover name stolen from a once-valid Emerald Covenant collective, that is now used in reference to territories conquered by the Anu-Seraphim Anunnaki; territories that exist under full Anunnaki totalitarian exploitation and dominion. Then and only then, will the final phase of the invasion plan be set in motion.

Once Earth's portals are used to invade the Inner Earth Amenti Temple-Generator Complexes, unannounced pole shifts on earth will be rapidly set in motion via the Nibiruian Battlestar and a stunned humanity will have little more than three days in which to contemplate 'what has hit them'."

* Here is the answer Dolores Cannon should have given the man in the audience when he asked for the truth about chemtrails. Saying to him that this was “only his own reality” was a major cop-out, & the reason I no longer trusted her. She once had the clearest blue eyes as Canon, but later she suddenly had orange eyes, as Cannon. As do many walk-ins. **GUARDIAN ALLIANCE** also known as Galactic Alliances and Eloim Alliances for the Living Library, which explains their appearance in the painting MADONNA and SAN GIOVANNI late i400s. The Golden Cube of the Galactic Eloim Alliances are “APPRAISING” certain situations. The tentacled creatures also appear in many crucifixion media.

In the final phase of the UIR plan, which must occur before the natural 2012 opening of the Halls of Amenti Star Gates if the takeover is to succeed, Earth's portal system will be used to invade the territories of Inner earth, the control matrix for the Halls of Amenti Star Gates, which are the real object of the UIR conquest. Once Earth's portals are used to invade the Inner Earth Amenti Temple-Generator Complexes, unannounced pole shifts on earth will be rapidly set in motion via the Nibiruan Battlestar and a stunned humanity will have little more than three days in which to contemplate 'what has hit them'.

This is the UIR Plan, numerous phases of which have already been set in motion.

Anna Hayes (Ashayana Deane) said this recently in an open letter to her e-mail list:

In preparation for the August 2003 the UIR's "Great Thunder" plan for Hethalon involved first fulfilling their 666-BeaST Blue Fire Sword Initiation electrical Solar/Planetary Metatronic Shield reversal during May 2003 Hetharo, which they have successfully done, then completing magnetic Solar/Planetary Metatronic Shield reversal during August 2003 Hethalon, which will occur. The "Great Thunder" plan was scheduled to take place once reversal of the magnetic Solar/Planetary Metatronic Shield was accomplished. Since our first data dispensations of 1999, we have mentioned the potential of the "Intruders' August 2003 Dimensional Blend Experiment", the last in a series of 3 "experiments" that began with the 1943 Philadelphia Experiment, progressed to the 1983 Montauk Project and was scheduled for completion during the August 2003 "Magnetic Peak". The term "Dimensional Blend Experiment" was a gentle way of describing the potential "activation of the 666-BeaST machine" and ~~caused Solar/Planetary Metatronic Merkaba~~; dynamics we have had to progressively reveal since the early 2002 UIR BeaST activation. The "Great Thunder" that the UIR had planned for Hethalon involved the **coming of Wormwood**, the UIR controlled "stellar body" that follows the reversed-diagonal orbit with planet Nibiru. Though we have had some success in **reducing the size of the Wormwood body**, a portion 2/3 the size of the original remains under UIR control. In simple terms, the UIR had intended to force the Wormwood body into its "Ricochet" between Earth and the Sun during the August 2003 Hethalon Peak. The UIR intended to use the Wormwood body to reverse the post-Hetharo CCW-spin of the PCM universe Metatronic Solar/Planetary Shield and Merkaba to a CW-spin during Hethalon, causing the PKA Parallel Universe Wesedak Black Hole, (which entered Vesica Pisces Phase-lock with the PCM universe Solar/Planetary Shield and Merkaba during Hetharo), to be forcibly ripped open into the PCM universe, in a "Dimensional Blend Experiment" the likes of which this Universal Veka has never seen.

Once the Wesedak Black Hole was ripped into our universe and solar system via the UIR/Wormwood-caused PCM Solar/Planetary Metatronic Shield reversal, the "rip and dimensional blend" were intended to continue on until the Wesedak Black Hole, and our solar system, were progressively pulled into the PCM universe UIR-controlled Wesedak Black Hole between 2008-2012. The **"Great Thunder of Wormwood Passing"** is a potential event that has been under the control of Nibiruan Anunnaki operatives since Atlantis, and which was partially turned over to shared Metatronic control with Andromie-Necromiton and Wesedaks in the later Atlantean period via the Lucifer-Archangel Michael agreements. Through their contemporary UIR alliance, these groups intended to fulfill their "Great Thunder" scenario during the August 2003 Hethalon Magneti Peak; an event that would have caused rapid mass destruction on Earth, which would have appeared as if it was of "natural" origins, in the event of its occurrence. (The Zeta races have been preparing people for this drama, assigning it to "unavoidable natural causes", via their "channelings" over a recent number of years). If the "potential UIR shift" events had not taken place through the course of Hetharo **we, the Eieyani would** have released public warning through our Speakers and simultaneously we would have personally visited Earth in a way quite obvious to the masses, in order to provide evidence to world governments to prove the reality of what we say, and to provide with this evidence the precise coordinates and related technical data by which the **Wormwood body could be manually destroyed by Earth governments** to prevent the pending cataclysm.

NINMAH'S OATH "On my oath, the annihilation of Mankind shall never be repeated!" Enki tablet 10 Why The Hammered Bracelet Could Not Be Flown Over

If the Hethalon scenario had evolved in this way, utter chaos would have broken out on Earth, for UIR fleets would have orchestrated mass disclosure of presence as they physically mobilized in attempt to deter our visitation and prevent Earth governments from taking remedial measures against Wormwood. Fortunately, the "potential UIR shift" events occurred just following Hetharo, and the original UIR "Great Thunder" plan had resultantly undergone some very positive changes, much to the frustration of the UIR Andromie-Necromiton leaders. The rather chaotic energy that many of you have been feeling running within the Planetary Shield since Hetharo is partially due to these UIR shift events.

J557 notice the hint to look at the capital I as a 1
 First to notice is the differences in spelling between
 publications, done intentionally ...
 Second, that Venus is not capitalized ; because the word is
 not required in a « codes-within-codes » cipher.

instead all mammals lacking defense. Commander Valiant Thor arrived telling the pentagon he had come from Venus. First he advised against eating meat, (sound familiar ?) and advised against using nuclear as a power source. Then, showed which places to put the nuclear plants – all of them on fault lines !

Commander Valiant Thor is an EnLil incarnation.

The word Commander being a reptilian pyramidal (reptil-eze) order concept.

So saying, mammals without defenses (against nuclear) and lacking means to defend anyway, no one being suspicious. Sounds as if no one did any frequency research. EnLil incarnation.

Now you know why the word "incarnation" was removed by church, the SiriusB-run Catholic church!

MANTIDS FAVOUR HELEN MEAD'S TRANSLATED FONTS, GRAND NOTATIONS RANT, REFER TURNS OFF LEONARDO'S HORNED TOAD/Bufo ING.harvest (ART) (We have seen that ING means 'harvest reaping', here as a false rapture and that there is a toad/Bufo (in Libra) within Da Vinci's art!). Ngliterra was the name of England before 2nd century, Ng = harvest, L = flows, I = in this place, t = protected by, Erra = goddess of warriors. Proving Norse raiders had Angleterre before Romans.

○ HORNED TOAD the word 'Toad' means those reptilians from Bufo which is entwined within Boötes constellation, hence the confusion between one witness (Alec Newald) being misled and told that it is those from Boötes are in the Black Knight orbiting and the medieval painting of the pope hoeing with the background having numerous Sirius space craft flying overhead. This indicates the Vatican is in cahoots (hoeing rows) with these off worlders with the alchemye name of the lost hoe. The horns literally means they have horns. 1101 tells us the Black Knight came from SERPENS, an asterism BEHIND Boötes. Billy Carson is on his path to finding these things.

DIRECTIVES: provided For ESTOMACH & BRANCHES

Without DIRECTIONS for dealing with Allan's ANAGRAMMED WORD Template; A COLLATOR-PERSON WOULD be left totally floundering... fortunately, the quatrains themselves provided a how-to do it RECIPE

ABSTRACT

That the most important three words in these entire works are as follows:

The Essential Essence~holding the real reason for all the other warnings.

That by stealth of Other Principalities, disguising the real Universal Aqti.

Aqti is the *hidden* agenda...for some; the entire reason for humans to exist.

As far as those *Principalities* of Ephesians 6:12 are concerned:

"for we wrestle not against flesh & blood, but against principalities, against powers, against the rulers of the darkness of the world, against spiritual wickedness in high places."

How many of us actually heed what this really means!

It means that human Earthlings are the inter-galactic universal currency.

Kept mollified by lack of Education, by Entertainment & by Un-natural & Virtual reality.

6AUTHENTIC. 9BRANCHES. ESTOMACH. These words have provided the Biggest Picture.

The level of Essential Essence~holding the real reason for all the other warnings. One of which is comprehending what happened to or with Dolores Canon. Yes, she did reach a dimension, where her SECONDHAND conversations with Nostradamus were real. When he 'told' her he would speak to 'no man'... Right up unto the very day they began the actual 'decipherment' of the quatrains. After that the *Nostradamus* entity spoke to plenty of 'men' - Things unexpectedly changed from first person to third person. Even her own name became Cannon with two Ns. Her eyes changed from bright pale blue to orange. She became the spokes person for the very same entities which we will encounter many times in The Hidden Texts. There is mention in Allan Webber's Template (the same that held my complete name within it,) even my first spoken word - *barcarolle* - Offenbach - causing a moment of pause. Did this *entity* give Dolores Canon the Triple Method? No.

notice in this 1562 edition, the roman numeral for 4 is IV, not IIII, which last appeared printed by publishers 1598.

 Note: wherever possible, the J557 publication of the Centuries of Quatrains is used. Quite often, there are differences in spelling between publications while he was alive, and therefore intention. When that happens, both sets of wording is used.

When Dolores Cannon told us Nostradamus gave her the 'codes', the only code she mentioned was 'anagram' and that was only his upper case words. Nor did I read her say to use only the Very Original Authentic publications, the ones Michel hand checked himself. Best example right here is BRANⁱCHES.

WHEN NOSTRADAMUS first contacted Cannon, he said very clearly he would not speak directly "to any man". Yet later "he" "did nothing but" in her books. I am not picking on her, just pointing out that her work from the *false* docteur channelling was not her fault, the consequence of being misled by the mind bending entity... and has no similarity in any way to Allan's & mine, nor to her other works. Once you comprehend the Directives were the *curriculum* of a long hard-earned apprenticeship over many years, you can compare the results between what Ms. Canon/Cannon "learned" as "ciphers" from her "mentor" and the results supplied by Allan Webber's different pathway to those of my own. She was USED for a purpose. To mislead away from the truth, as are all front-men. This includes the Archaix team. See *WHAT IS IN A NAME* pdf.

Ensure the Quatrain line is an original, 555, 557 or 562. Many times you will spot a Topic word, say, TRUMP. Pluck those letters out and place them first in your Result. Anagram the remainder to build it

What to say? Allan Webber set out in 1999 to prove anagramming words has no merit...

We find from his anagrammed quatrain lines that LANGUAGE IS ENGINEERED.

o **CAUSTICAL VOLCANO IDEAL** : all along we have been told (without any vacillation) that volcanoes are to be set off with the view of causing the demise of the elite and all the baggage which goes with them, 'fried' in their dumbs

o **ISSUE IS SOUL'S HALO SHONE CLEAN:** the reason for the argument which caused the death of Nostradamus in September 19 2011, which I am told is what I witnessed. I did see a 'planetoid' implode and four craft leaving it.

o **LEECH ALIENS** the Orion Group, *Leech is the 'crown' over Orion, named in Centuries Eleven & Twelve, which had been "rendered to Vulcan" (hidden behind the fireplace).

Chasing heinous **TRADE sale** : the 'trade in men' clause, the TSS is part of it. exchanged for technology for the few, almost always designed to destroy and never designed to nurture.

'ACES' LUSH SENILE ELITE. With 'aces' being a pun. Noting the word 'senile' which acuity is what the elite did not specify when they were chasing immortality. A SENILE immortality would be a living hell, for those around them.

o **ADVOCATED CRACK. ¶IS VACILLATES ERADICATE ELITE.** True, I realize now the vacillation was not aimed at the elite, but at the damage the elect might suffer during the 'eradication'. The intention after all, is not to throw the baby out with the bath water. My suspicion is that the 'elect' are more likely to be those new humans born of the hybrid breeding programs to improve the human ability to nurture the Living Library and we have seen the word 'meek' inclusive of this arrangement, since 'meek' means the righteous.

o **AHA** the first pharaoh - a key word for the president, who was cloned from a pharaoh's cells, being Amenhemhat, and not Akhenaten as some people are saying. Akhenaten had too many physical problems to be of use, albeit, Amenhemhat was his paternal relative a couple of generations divided. This entire bloodline, from HatShepSut to her son ThutMose III to his son Amenhemhat has been showing indications of alien intervention, (details later) with the 'terminal sire' being AkhenAten, whose very brain and its cells are different.

I say 'terminal sire' because he had no reigning grand children, TutAnkhAten having no living children.

o **SALACIOUS:** crude, improper, suggestive

o **LILAC OAR ACE:** recall the purplish craft seen over South America... the Mantids from Argo part of the Elohim Alliances.

If the comet "Atlas" is another name for Ison or Nemesis, then this event is explained not only in the Hidden Texts but in the Quatrains too - That this passage of Nemesis "will be the last" So, think very carefully what those inhabitants of its orbiting planets will be likely to do about it
Think ten fooler at airforce one

In all my reading, the big surprise to me was that Anna Hayes wrote about this very event going to occur. It has waited cachéd for 8 centuries within the word ESTOMACH in the Preface. Haye's words appear in Pt 2.

This single episode will alleviate future destructive events caused by the comet (in alphabetical order) Atlas-Hercubolis-Ison-Nemesis-Tychon etcetera. Herculobis is another spelling.

For it to have appeared as a warning mentioned in the Preface to Cesar, ccj.de Mars I 555 a prophecy made 789 years ago (1344AD minus J 555) is simply freaky to the unknowing mind.

"The Nordics were certainly messengers of Enki because they came in peace and were pro-mankind."

Devil's Advocate Detail: As did Valiant Thor. (Commander, lord of airways, frequencies, storms, & sacrificial smoke) – who is/was actually EnLil. *While writing this, I received an email from a person whose name appeared spontaneously in these texts saying to research NIMROD, that Valiant Thor is the same as Nimrod!*

Meaning as **Moloch**, verifying sacrifice as HIS, EnLil's purvue.

This pardigm on its own tells us Those of YHWH/EnLil are the destroyers of life on our planet!

Appearing to be pro-mankind – offering to share "safe" nuclear power, and showing WHERE the plants can be placed. *By happenstance – all on tectonic fault lines. Since EnKi is "lord of Earth-soil & Waters" (a gardener and creator) this was a direct snub of tectonic warfare in the making.*

It is via frequencies that the Fukushima earthquake was conspired: one of the charges laid by Q Not forgetting the huge tsunami (of water) thereby using EnKi's own tools against him in their duel.

EnKi can play this game too, in the YELLOUUSTONE collection, there was advice that a strange easterly wind would be blowing during the eruption of Yellowstone, (FIRE/Lucifer) sending much of the danger out to seaward. One of these in 2013 (a year before the event) told us who, how, when & why Mars in October 2014 would have its base sasared, with several other quatreins following explaining the jump room base was destroyed to prevent parasite elite from bombing Yellow Stone. They were ready to simply walk away to Mars, leaving 2015 with their planned plagues. Being forced to remain on Earth, putting their Agenda21 back to Agenda30, allowing time needed for the rest of humanity to experience and to realize their truth...

 Orbit ca 658 years
 This seems to be Ivy or Olive branches

*these years each an orbit of our own, consisted of 360 days up to 705 Before Current Era. Prior to the 360 day year up to 705, it seems to have been 260 day years, possibly prior to Graham Hancock's 3114 BCE which needs adding back 676 extra computer programmed years to his event, happening around 3790BCE/ Each fifth visit by the incoming mini solar system sits in a ca 3,600 years of our orbits. The total of years in the eras between 1486bce and 1347 CE = 2832 saying it should be ca. 768 years until the next visit. As you can see in this Millwheel diagram, the next gap periods get shorter, not longer.

<https://www.nolimitszone.com/solar-warden-the-classified-space-program-developed-using-alien-hi-tech/>

Among the files, he found there was information about “non-terrestrial officers” numbering in the thousands, as well as data regarding “fleet-to-fleet transfers.” As he kept searching, McKinnon an enigmatic kept popping up: Solar Warden.

THERE ARE SOME VERY CREDIBLE, RELIED-UPON PEOPLE, ALL SAYING YES, THERE IS UFO TECHNOLOGY, THERE'S ANTI-GRAVITY, THERE'S FREE ENERGY, AND IT'S EXTRATERRESTRIAL IN ORIGIN AND THEY'VE CAPTURED SPACECRAFT AND REVERSE ENGINEERED THEM.—GARY MCKINNON, THE UFO HACKER

George W. Bush's Justice Department eventually discovered the UFO hacker's intrusion and accused him of committing “the biggest military computer hack of all time.” If the United Kingdom were to extradite him to the U.S. he would have faced up to 70 years in prison and millions of dollars in fines. But that never happened and many suspects it was only because McKinnon still possessed crucial information that he used to leverage himself out. More so, his lawyer even had government officials testifying under oath about the existence of the Navy's Space Fleet. Never heard of it?

According to McKinnon, the ultra-secret Solar Warden maintains a fleet of various spaceships. It consists of eight massive cigar-shaped mother ships and about four dozen smaller “scout vessels.” Hundreds of “Space Marines” are in service aboard these ships and each mothership has an additional crew of approximately 300 scientists and technicians on board. The Space Fleet is operated by the NNSOC (United States Naval Network and Space Operations Command). In 1993, former Lockheed Martin Skunk Works CEO Ben Rich held a lecture at the UCLA's James West Alumni Center in Los Angeles. He spoke about the progress registered in space engineering during the previous four decades. The last image in his presentation was that of a black disk “zipping out into outer space” and Ben concluded with the words:

We now have the technology to take ET home.” Those who attended said he wasn't joking.

5 ASTRIONICS six mentions in the Template. Imperative to know who uses what propulsion

THE Very first Thing to comprehend regarding craft that fly against gravity, is that most we see were made here. That we have been co-habiting this planet with other civilizations for all times.

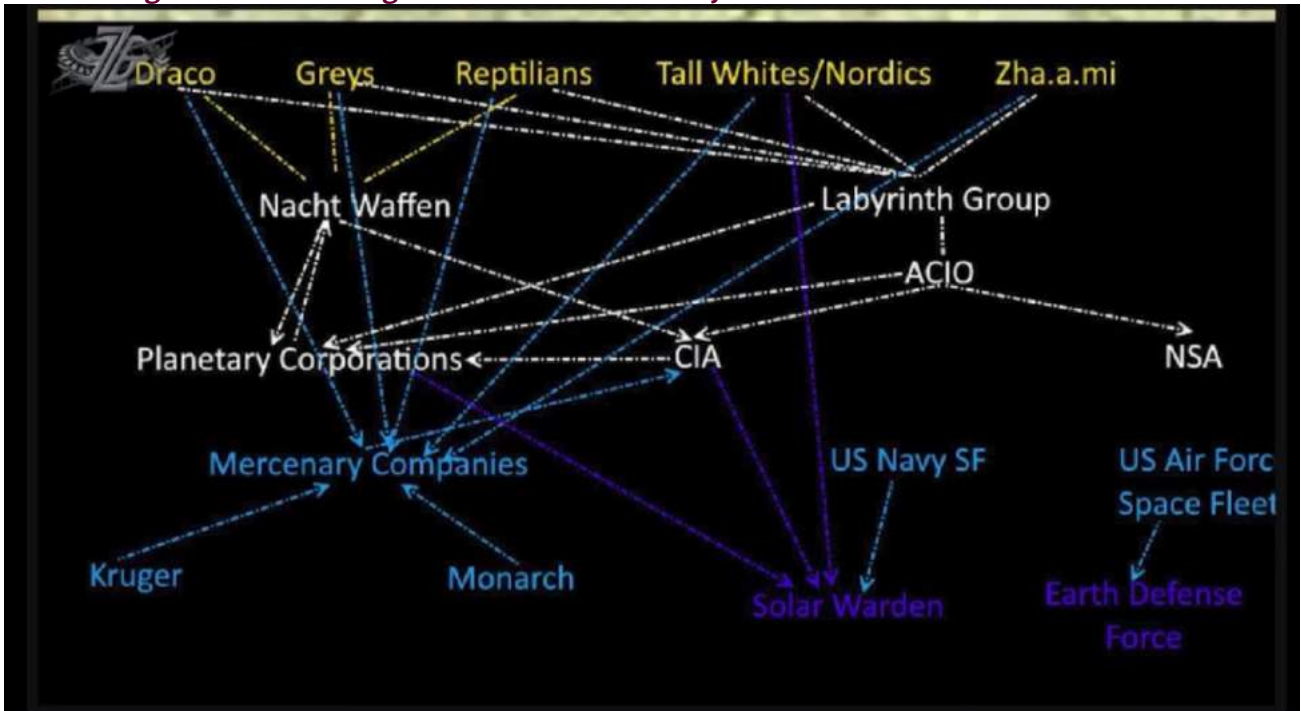

Consequent to this knowledge, all craft we see with any kind of clearance lights, come from here.

Even from deep under our oceans and under the great depths of our topsoil. The Dero, LeMuria pdf by Richard Shaver,¹⁹⁴⁵ the Mahabaratta, the rock face engravings; are all eye witness legacies. The other Thing we need to Know is that your be-love-ed govern.ments will at all costs, prevent you from finding out what they really know; and how long they have known regarding Other World Civilizations. Regarding their “treaties” with those entities, and their Personal trade for technology.

 3 77 2 *Lan mil fept cens vingt & fept en Octobre*, The year in October I727 ... I:7:27 was dealt with in COMBIEN?
 [3772 is the very last line in the Template as well] In 1 7, 2nd line 7th word = *prinfes, taken. As in* abducted *whicb* 1 49 3 says:
 ...causing many to be carried away. *To be taken* – I do not think this means “killed”, as in a plague or something/

BUT: literally speaking, and obeying the directions, 3 77 2 is saying (noting the absence of an **apostrophe** in L'an) that
 “The Anu seventh century (676 AD) made in October 27th a thousand” thus we have been told that July of this
 “year of the horse” was made into January (as a fiscal year) *called* “1,000” – and in the following October 27th
 the former “i” was changed to a number “1”. I did wonder when (how close to) the **removal** of the 324½ years
 in July 676 related to the altering of the prefix for Iesus from the letter to the number – thereby in sum total
 adding 676 years to our calendar. Also begging the questions, when was the A.D. actually added? And where?
 In the *codes within codes* of the quatrain 3 77, from the capitalized words **ArièsOctobrePerfeEgypte** we see :
 PIE POET, STAGE GATES AGES, EAGER TO TIE: OGRE ROBS PERFECT EGO (Iesus) TYPEFACE PREFIX OPERATES IN
 REPEAT (May 22 to June 22) recall “Yule in July” BEER/ale date May 13 – June 10 thus saying between **June 10 and 22nd PROOFS**
BORE/carried in **COPPER**(October)BEFORE. (PROOFS is another name for printer’s ‘galleys’, the trial run prior to publication)
 If we were not talking about 676AD I might have thought this refers to I582 the supposed date of pope Gregory fiddling
 with the calendars, removing ten days TO BRING the Julian calendar in line with the seasons (and making Nostradamus
 and Da Vinci born in the *Julian calendar* dates) despite what wikipedia and others might infer. Personally, I am suspecting
 the addition of 1000 years was done *before* pope Gregory editing the calendar as he did 16 years after the death date of
 Nostradamus in I566. Something is not right here. If both Da Vinci AND Nostradamus were writing the millenium as a
 number “1” prefixing the century, and they were in the fifth and sixth centuries respectively; that is, shortly after the
 Romans lost Britain – and Nostradamus being fully aware of the millennium error (since he published Presage J562 among
 all the rest of his dated publications with the “1” as a numbered prefix) do we just say “**there were many calendars of**
differing sources all being used separately but concurrently? What other explanation is there?
 Actually, it is only *my presumption* that Da Vinci used the “1” instead of an “i”. With Nostradamus *it is no* presumption.
 Keeping in mind their lives *overlapped*. Also, that Da Vinci *died* in France.

From CENTURIES 12

IF you did read *HIDDEN IN PLAIN SIGHT* you will recall the matter of the “three books” which to his
 mind, Nostradamus considered too dangerous to have hanging around. These same three books were
 mentioned in his advice to his young son in the letter titled the “Preface”. The mention made was a
 bit of a smoke screen in that Nostradamus said he had fed the books to “Vulcan”. The books were, however
 stashed inside the wall of his house. Sadly most had been damaged beyond reading by the time they were
 discovered.

The word “Vulcan” was, of course, a cipher, simply because Nostradamus could as easily have used the word
 “fire” I The major deplorable problem then, came in the “translation” of these newly found quatrains and
 sixaines. The damage to the documents was in many cases beyond repair.

The other problem then became those having no knowledge of the “triple method” simply *corrected* the
 spelling - blaming this on the publisher instead of realising that Nostradamus was alive then, and quite
 capable of correcting this problem himself.

The result has become a bit of a guessing game – based on having seen the original quatrains published
during the lifetime of Nostradamus. That is to say – from 1555 to 1566 there was ample time for the
 publisher to be “admonished” by Nostradamus and have the erstwhile miss spelling “corrected” back then! But
 the originals do still tell us many things which can be inferred in the remainder of Century Seven, Centuries
 Eleven and Twelve ~ that which we have left to read.

One thing learned (recently in *COMBIEN – WHAT DATE, HOW MANY?*) from the original quatrains was the
 word “Lan” [lan] appearing without an **apostrophe** [l'an] does not mean the word “year”. It means in the Latin
 “either/or”. This is a pointer telling us to take that line (or the quatrain) as an “either/or” form for decoding.
 Could this be the reason a former proof reader was given the task of collating these texts?

When put to the test – this discovery certainly did work!

It is with the *omissions* in the words and in the punctuation which one must “scrutinise” closely. In line four
 of 3 77 the often overlooked letters “pte” tell us to do exactly that. This same quatrain, 3 77 also has “Lan” for
 those who understand what this really means – saying clearly *either the year or the number* 1727.

Plus – *to scrutinise this closely*. Thus a clue to go to Centuries 1 quatrain 7 Line 2 word 7.

REPEAT the Capitalized CODEWORDS if needed such as Roy, being such a short word, the Permission is to be able to use it as ROYROI for instance. (see PDF **CODES WITHIN CODES** and pdf **Fill In for Armageddan**) or : **AUMOINS**, because (for example) plucking **MAUI** out leaves only **NOS**, but repeating the word as **AUMOINS.AUMOINS** gives us two Us which is a W – and that let us have such words as **SNOW**.

I need to explain what happened regarding the ‘codes within codes’ method of deciphering the hidden texts.

Today is March 16 2012... the above line is the first time I have worked with it. The first time I have seen this piece of ‘direction’ (there are 38 pages of other ‘admonitions’). Six months ago – on the same night, three different methods of advising me to use codes within codes was sent to me. My daughter phoned in the middle of a dinner date to tell me, my niece had an automatic handwriting event which said the same, and two entities came and hovered over my TV. One came in one way and out the other (through my window) – then vice versa.

¹³DITROCHÉE where there is a comma, full stop or colon in the middle of a quatrain or presage line

To only anagram to that point, then to separately anagram the remainder of that line, once having already anagrammed the entire sentence. The PDFs regarding Presages 2022, 2023, 2024

for the most part have none of the ditrochee'd lines worked at all.

DITROCHÉE becomes another Directive. There are Presage & Quatrain lines with a full stop, some a full colon smack in the middle of the line. This is saying to anagram only those words within that period marker.

This is the "iambus" of the "metrical foot".

THE argument that the “i” is a Roman *number* sometimes seen as iij or iiij meaning ending in “4” for instance; –

 his satanic Freemasons compile the King James Version. An original in leather lock up bindings has the date as

THE REASON FOR BEING SO PEDANTIC REGARDING THESE THREE LETTERS RELATES TO CALENDARS. HAVING GOT YOUR MIND RELAXED TO THE NOTION, THAT THE NUMBER ONE MUST BE REMOVED, FROM THE MIMICRY OF DATE PREFIX - THE LIKES OF WIKIDPEDIA WANT YOU TO THINK! SIMPLY BECAUSE WE ARE IN 1347 AT THE GOVERNMENT-KONTROLLED STATED DATE "2023" THEREFORE ANY DATE SHOWN ANYWHERE WHICH IS LATER THAN 1347^{at 2023} IS NOT TRUE. THE #1 NEEDS TO BE REPLACED WITH EITHER THE j OR A j. THIS REFERS TO iulus-iulian-julian; YET as an i, ii, iij - WAS a Roman numeral meaning 1,2,& 3 and still is in legal terminology

Searching Yandex, the use of the letter J was accorded a difference to the i492 font face of the letter j for i & the same j for the letter j; in the year i524. GOOGLE WIKIDPEDIA

Yet, with no intent on my part to send you cross eyed with detail, if you are really interested in how the Letters J and Y evolved from the letter j - then the following is for you.

<p>8.2.2 <i> and <j></p> <p>In England, the first attempts to replace the grapheme <i> with <j> where it corresponded to the consonant /dʒ/ go back to the late sixteenth century, but it became generally established after 1630 (OED, s. v. "j, n."). This replacement can also be traced in <i>The Schoole</i> editions. No occurrence of the grapheme <j> can be found in those published between 1557 and 1621. In 1626, word-initially, eighteen tokens of lower-case <j> are recorded in <i>jangle, jewell, joy, joyfull, judge, judgements, judging, just, justice</i>, and <i>justly</i>, printed in blackletter, as well as one upper-case token in the Roman type in <i>Jacobs</i>. However, not all the tokens of the relevant lexemes are spelt in the modern way, as this edition contains also the variant forms <i>ioyfull, iudge, iudgement(s)</i> and <i>lust</i> in blackletter, lower-case (five tokens), <i>ludges</i> and <i>lust</i> in blackletter, upper-case, as well as one token of <i>Jacobs</i> in upper-case, in the Roman typeface. Word-medially, <i>, in all the words where it corresponds to /dʒ/ in the previous editions, is replaced by <j> in 1626 (i.e., <i>Majesty, reject, rejoyce, subjects</i>, and <i>vjust</i>, all in blackletter). Surprisingly, in the following edition (1630) one can see a switch to the old system, without <j>, apart from one instance of <i>Jacobs</i> in the Roman typeface. By contrast, in 1635 the modern distribution of <j> is in place, except when a word begins with a capital letter. In the latter case, the old variants are used (i.e., <i>Jacobs, Judge(s)</i>, and <i>lust</i>). In the 1640 edition, <j> is fully established word-initially when a word starts with a lower-case letter, and for the capitals, the use depends on the typeface, with</p>	<p>170 — Orthographic regularization in Early Modern English printed books</p> <p>8.2.2. <i> and <j> continued</p> <p><i>Judge(s), lust</i> and <i>justice</i> in blackletter, and <i>Jacobs</i> in the Roman typeface. The only difference between 1640 and 1660 is that in the latter <i>Jacobs</i> (in the Roman typeface) is also spelt in the old way. In the last three editions (1670-1687), the modern spelling is the standard, except when the capital occurs in blackletter (<i>lust, Judgements, ludg, ludges, Iustice</i>), which simply does not seem to have a separate character for <j>.</p> <p>By comparison, in the KS, <j> is recorded solely in the last edition (1656), in <i>journey, joynt</i> and <i>judg(e)ment</i>, printed in the Roman typeface. This grapheme is not employed at all to refer to /dʒ/ in blackletter, even in lower-case. Nevertheless, in the editions issued in 1506, 1528, 1580-1585, and 1604-1618, it is occasionally used as a final allograph of <i> in Roman numerals (e.g., <i>iiij</i> and <i>xij</i>). The absence of <j> in 1656 may have resulted from the lack of a separate character for it in blackletter in the printing house which issued it.</p> <p>When it says sixteenth century it means the 500s, etcetera. Where it says 1621 etc; it means i621. By 746 Culloden it is j</p>
--	---

It is usually claimed that the graphemes <i> and <y>, acting as vocalics in word-medial position, were used interchangeably and haphazardly by the early printers of books in English (e.g., Blake, 1965: 65, 71; Brengelman, 1980: 349; Salmon, 1999: 28; Nevalainen, 2012: 144). Nevertheless, some studies show that already in early sixteenth-century books, the distribution of <i> and <y> is not as random as has been suggested. More precisely, <i> is regularly used in function words (e.g., THIS, WHICH, HIS, WITH)⁶⁸ and <y> in content words (Aronoff, 1989: 68–69, 93–94; Rutkowska, 2013: 121–130).⁶⁹ Such division can be noticed in the earliest KS editions (1506–1528), but in the second half of the sixteenth century and the first half of the seventeenth century <y> is gradually replaced by <i> also in content words. Interestingly, HIM(SELF), THEIR, and WILL behave differently from the remaining function words, displaying the spelling patterns characteristic of content words (see Rutkowska, 2013: 123–124 for potential reasons of this differentiation). Consequently, it does not seem surprising that the only function words which still contain <y> in *The Schoole* edition published in 1557 are WILL, THEIR, and HIM(SELF). In 1593, *theyr* is the last remnant spelling variant

So, here we see we can verify the topics dates simply by knowing the country of origin and the fashion of the font in that period. Accompany this knowledge with the requirements of religion (church) & politics (king or parliament); and you will have all the keys needed to date publications. Just as the CD/CCCC, XL/XXXX & IV FOR IIII divides timing.

divides timing... Nostradamus did this for us in his J557 publications. He used for IV italics IIII for the thick headed (me).

In this way, the <i> for iulus prefix of Kalendars was never a J for Jesus. The I C = Incarnation of Christ, but Church got rid of that pretty damn quick, replacing it with Anno Domo (year living in) followed in the 600s with a change of heart, renaming it Anno Domini, letting people think it meant Year of our lord. People not knowing it could have been Anno Dommini – year of Dominion (the churches). The J was European: Jaar = year. Turns out there never was a Roman Numeral M for 1,000. The letter M meant MEGA or GREAT. Will explain later

Several conclusions can be drawn on the basis of the results of the present study. First of all, a few stages can be identified in the process of orthographic regularization in the corpus under analysis. The most spectacular changes are visible between the 1557 edition and the 1582 one, both in the distribution of the vocalics <y> and <i> and in the indication of vowel length, consisting in the replacement of (the remnants of) the old system <VCe> pattern with the new, <VVCe> one. Two other important dates are 1640 and 1670. The former corresponds to the establishment of the graphemic distributional principles without exception, and the latter to the full installation of most modern vowel length indication patterns, at least in *The Schoole* editions. Salmon (1999: 32) refers to the year 1660 as "marked by the establishment of an orthography which was, in most respects, that of the twentieth century". The findings of the present study suggest that this boundary should perhaps be moved to the year 1670. One can argue, obviously, that the relatively small size of the corpus limits the possibility of generalizing the results, but in fact the findings confirm the main trends identified by Rutkowska (2013) for the KS, a much larger corpus, despite some time differences concerning the settlement of particular features.

As concerns the analysis of particular graphemes, the difference in typeface as well as the difference between lower-case and upper-case letters should be taken into consideration in assessing the findings concerning graphemic usage in early modern books printed in English. Also, the distribution of the graphemes <v> and <u> as well as <i> and <j> in the corpus under examination casts some doubt on the dating of *The Schoole* editions allegedly published in 1626, 1630, and 1635. My findings suggest that the 1626 edition could have been printed after 1630 (and possibly also after 1635). Thus, the analysis of orthographic features can affect the dating of particular documents in cases where the date has been reconstructed, and not explicitly stated in the colophon.

- GREGORIUS^{affric} Pope Gregory, whichever one it really was, who in October 1582 removed ten days of the Kalends (TABLE) to bring the iulian months into a lineup with lunar ("pagan") Kalends. Who, in January of 1583 – (according to these texts) – exchanged the initial prefix which read as Iulian/Julian (and by 583, the J had just been established as a letter) to a Roman number *i*/1. Ever seen that? The numbering shown as lower case *i*, as *ii* for 2, *iii* for 3/ and *iiii* for 4. The latter was changed to read *iv* by 598. Yet for legal purposes these numbers appearing as a suffix, required what was called a SWASH – an extension to the base of the last digit in order to prevent fraud – for example *iiiij*. This number is still a legal four today; or a *iiij* /3 or a *ij* /2.
- **THIS is how Pope Gregory "changed" the prefix *i* of iulius to a "Roman number *i* = 1"**
- **Nothing to do with Jesus/Ieosus, since the prefix to Julian Kalends began 46.BCE - Before Current ERA. EVEN following crucifixion in i79/80/1 Anno Domo, the SUFFIX became I.C. which much to Catholic Church horror stood for Incarnation of Christ.**

❖ SUUASH/SWASH = *iiiij* **BASED ALONGSIDE** meaning prefix or suffix. This set of Roman numerals is still legal today; with the definition of the word having changed somewhat since the 1500s. "Denoting ornamental flourish on a written character in writing or publications since 1301". In the case of Greco Roman Numerals of the Lower Case *i* in a series, the last character containing a tail to distinguish it is the final *i*.

Minuscule (lower case) letters were developed in the Middle Ages, well after the demise of the **Western Roman Empire**, and lower-case versions of Roman numbers are now also commonly used: *i*, *ii*, *iii*, *iv*, etc. In the Middle Ages, a *j* was sometimes substituted for the final *i* of a number, such as *iiij* for 3 or *vij* for 7. This *j* was considered a **swash** variant of Roman numeral *i*. The use of a final *j* is still used in **medical prescriptions** to prevent tampering or misinterpretation after

- The insistence to "ATTEND TIRESOME ROME KALENDS ELOCUTION" has led 5 40 3 to appear herein 3 times.
- ROMES REANNOTATED CALENDAR TRUE QUOTIENT is 1000 years less: re-annotated from prefix j for iulus
kalends year 1/j (46 BCE) where i ii iij are normally Roman Numerals 1, 2, 3. Yet in the instance of Julius, his
Kalends began with the i for iulus/iulius. Pope Gregorius in i 583 January, took the alphabet letter i for lulus and
changed its alphabet meaning to a number 1. Bull-edict sent to Greece, not Rome. The date 46BCE is taken by this
author because it was the first year julius compiled what was thought to be a necessary repair to kalends:
following arrival of orbit-changing Nemesis system in 54BCE (the "nova" coins)... In 44BCE July was inserted
by julius.
- "TORNQUET FEET/Pisces ROTTEN FIT" to 'tie off' the "Pagan" mechanism of dating using moon cycles – which

We are really in 1343A.D. and Lucifer wants to cheat. The Age of Pisces
even if it was 2160 years in length still means we would have had more
than 800 years to go. But Pisces is over 2590 years in length: leaving us
here in 1343 over 1240 years yet before the true Age of Aquarius. EVEN
using 2019 from 2160 (the two false numbers) would leave us with over
<140> years yet to go, not even on the cusp of the horizon of AQUARIUS.**

This piece of free masonry tomfoolery appeared in a 2019 pdf.
The dates in this illustration refer now to 2023, four years later.
The reason they need to bring the expected date of arrival forward* is that the Nemesis system will not return, and the next visit was expected to be around an era yet to go, even as we have seen; that its orbit has been shrinking, it may have been up to another 800 years away.
*The other reason for adding 676 years to the current julian/Gothic Y2K calends.
At 2023 we are in 1347, making the Shroud of Turin real.

15 FONTS (of their times). CAVEAT herein: on the manner for dating:

BEFORE diving in, elbows up, nose to the grindstone on any topic living in previous history, one must keep at the very forefront of one's mind that ANYTHING depending on COMPUTER based programs of 'information' will have been founded upon the Y2K construct.

The very reason for **Y2K** was to "bring into line" the various calendars worldwide... **including slotting in that Trojan Horse containing the extra 676 years.** EVERY SINGLE SCHOLAR depending on a computerised programmed time-based project such as the very one most Kalend buffs need the most; the Archaeo-Astronomical computer program: are founding their hard works and entire hypo-thesis on unreconciled lies.

Therefore: the sharp eyed scholar-student will certainly notice the printers' subject matter in its own time-font as an Out of Order Object in a more modern framework.

Just as veritable as finding a ladies Seiko watch ring in a Chinese Emperor's tomb. Undeniably an O.O.O.!

In order to assist myself with 'fixing' differing fonts in their own fashionable time slot, I put together a table of Printers' Font for each century from slightly Before Current Era. Works with numbers too.

This table of fonts will appear in Portion Two of DIRECTIVES, since I have already run out of pdf room.

Suffice to say Nostradamus worked very hard short of slapping me in the face with a dead mullet – to have me grab this great hint. Allan Webber in his Template I did notice over the years, does have lines

referring to fonts. And not just fashionable print, but individual letters also. Such as *f* for *s*, & *u* for *v*.

THE REAL AGE OF THE GIZA FLOORPLAN

It seems to me that the timing has arrived for the public to comprehend the actualities. Every time I see or hear so called "experts" sprout the age of the Giza pyramids being "fourth dynasty" it makes me cringe for their lack of personal involvement. It was only the causeways that were built then. By that, I mean that the archaeologists enslaved to an archaeological "peerage" lacking their own individual detective abilities. In other words "followers" in the blind sense. As G.R.R. Martin put it "*belief defies reason*". How brave was Dr Robert Schock placing the age of the Sphinx at a number of millennia which almost gave his colleagues the vapours!

2: THE PRECESSION OF THE AGES – WE STILL HAVE SEVEN CENTURIES BEFORE THE "AGE OF AQUARIUS" The "Ages" as we have all been 'taught' via our wobbly and legless internet, are all wrong². On one hand we as the public are told each 'age' through which we all travel is a length of either 2,000 years or 2,160 years. Whichever non-student one is reading. First we need to establish what a 'year' is – until recently it was 365 days, and that was only since 705BC when the Chinese noted the 360 day year had become longer. Enlarged by the five 'unlucky' days of the Maya. Since October 2013 we have a 377^{footnotes} day year – rather convenient, just an extra day per

Alphabet **18 LETTERS** of the times

Other guidance relates to the use of alphabet letters in the times. There was no "W" but there was on occasion, use of two "U"s. "Q" is also "C" or "K" or G and "f" is "S". Then there is "que" as in Parques – although the "qu" is a "k", the U & E may mean E.U. Letter J was not introduced until 1524, so letter i, letter j and letter y were interchanged, depending on location & era.

The u and the v being identical then the i and the j like so. This was still in use up to 524 & seen as late as the 746 Culloden coins.

So we see interesting developments with the letter J. In Holland (as it was then) and in Portugal, the J MEANT year of. In Spanish it is pronounced as an H. And now we know why the J499 map describing the expeditions of Celumbo, Drakos, Candifk/Cavendish and Magella used different forms of j prefix. Celumbo/Italy-Spain. Drakos/England. Candisk/UK. Magella/Portugal, as was De Gama. In many countries, both the i and the j up to 492 were the same letter character. I would love to see the real date on Hartog's pewter plate left on the west coast of Australia!

A photographer claimed he spotted and snapped pictures of a shiny object with strange movements on April 3 at a hotel in the Turkish resort of Kemer, Antalya. But, there's a good argument to say that this was also filmed over San Diego by another eye witness at another time? I absolutely love UFO sighting's like this or because it puts things into perspective that UFOs are on Earth, but are operating possibly "everywhere" and that they might be able to travel vast distances totally unstoppable, unchecked and without any authorities challenging these trespassers!

Here's the San Diego (Santee) UFO image which looks the same as the Turkish resort UFO:

LET/allows ²¹MONTAGE TO RHYME Into the English translations RHYME – RIME DIRECTIVE

This was meant to appear in Portion Two, but it is one of the first main ingredients to learn translating the old French-Latin verses into English, & yet have the English lines rhyme too, to arrive at intent.

This, in effect, creates the actual requirement for arriving at the information, & probably explains why the public think of the works of Nostradamus as a mere nonsense. It can involve montaging the syntax, *the very thing English speaking translators often forget. Such as D.M. 866 which really is the M.D., the Medusine Device, that which turns everything to stone. 2) **AGRIPPINA** (Cornelius)

Nostradamus guided Allan Uebber to read **En Chiffre** (Agrippina) chapter 14 which states:

“Concerning the bodies of Angels, there is a great dissension betwixt the late Divines, and Philosophers; for **Thomas** affirms that all angels are incorporeal, **yea evil angels**, yet that they do assume bodies sometimes, which after awhile **they put off again...**”

(Alminezur = numeral iz 14). (En Chiffre is the mysterious ‘Henric’ of the quatrains) This is “direction” to read Chapter 14 of Cornelius Agrippina. Allan Webber had discovered additional direction which led him to the meaning of “Henric”. The body of Agrippina’s work in chapter 14 relates to “good” angels and “bad” angels, **and the fact that they can appear in any form – shape shift.** (Noting the number of this quatrain)

“To help researchers get a time frame for when this merging of realities would occur, the Entity gave them “**predictions**” that served as **indicators** for when the time was close. The Entity's abilities and accuracy were verified to researchers by predictions and indicators given during the five years of the CHANI project which did eventuate (these are still classified).

The predictions didn't come all at once, but were obtained/spread over the duration of the research project. Although the Entity was in the “now”, he was able to see events in our timeline that he shared with the researchers. Some of these were a cosmic **sonic-boom event and changes to our Sun and Jupiter.** All these predictions were to be used as a sequence of indicators

to identify the time (**Fuse Year**) when the big event (**the Merge**) would occur.

(The leaves could mean the *land* on Earth, and inverted would then mean “made upside down”) Of the men [“men” is obs. for Aquarius, thus saying that Aquarius has fallen with Andromeda [garment] twisting around that area in the skies] who are there, some should have fallen and be lying wrapped round by their **garments** (meaning either garlanded/October but ‘garment’ in the Alchemye list is the stars of Andromeda) and almost **indistinguishable** (shapeshifters) on account of the dust,^{footnotes} [placed before our eyes] and those who are left standing should be behind some tree with their **arms** thrown round it (arms means in Gemini and also means those from Cepheus which are part of the Second Coming, part of ARM.MAR.GID.DA) to prevent the wind [Ruach/En.lil from **dragging them away**; others should be crouching on the ground, their **hands** (*hands* plural means those from Leo) over their **eyes** (eyes means those from Orion) because of the **dust**^{footnote}, their **garments** and **hair** (“hair” means those from Cassiopeia or Berenice) streaming in the **wind** (Ruach/En.lil god of the air, skies and wind)

Let the sea (those from Crane Crux/Grus Eridanus etc) be wild and tempestuous, and between the crests of its waves (where it is calmer – means those of Tau Ceti in the Whale constellation, but is also a reference to the “fetch” between waves, which is a key word for a time gate) it should be covered with eddying foam, and the wind [Ruach] should carry the finer spray^{footnote} (the disguise or the dust cloud left by Nibiru?) through the stormy [storm means Alcyone in the Pleiades, said to be in alliance with the Ruach/wind/En.lil who is ‘lord of the air’ the YHWH] air after the manner of a thick and all-enveloping mist. ² table of the the Precession of Ages using:

[Norton's 1930 IAU Constellation Star Atlas](#)

for the number of degrees in each zodiac sun crossing –

- which had been tampered with as follows:

“Ptolemy (Al Magister) himself declares that he altered the form of some of the constellations to give the figures a *better proportion*, of stars which the older astronomers had placed.

Bayer turned the backs of the figures to the spectator instead of the faces, and Albert Durer, or some German, put them all into Gothic costume, in which they remained till the time of Flamstead. He revised, or rather re-constructed the forms of the constellations, and first laying down the stars themselves correctly, drew the figures according to that part of the body in which the several stars were said to be placed by Hipparchus and Ptolemy.

SOURCE from Miss Frances Rolleston/the MAZZAROTH-MIZRAIM consequently:

- The age of Aquarius has 1872 years
- The age of Capricorn has 2016 years
- The age of Sagittarius has 2448 years
- The age of Scorpius 1800 years
- The Age of Virgo includes around 12,500 years ago: (Younger Dryas and mud filled Gobekli Tepi)
- Virgo 3168 years = 13,541BCE to: Leo ‘rising’;
- Leo from 10,373BC to 7,565BCE = 2,808 years long,
- of Cancer 7,565BC to 6,053BCE = 1,512 years
- of Gemini: 8,053BC to 4,109BCE = 1.944 years
- of Taurus: 4,109 BC to 1,445BCE = 2,664 years
- of Aries: 1,445 BC to about 5BCE = 1,440 years

of Pisces: about 54 BC to 79 CE 2,587AD = 2,592 years

CENTURIES 12 speaks of Crocodilian (Messiah from Sarru') which is why Wikidpedia kept deleting that Nostradamus had three other Centuries hidden behind his fireplace: "rendered to Vulcan".

SUMMARY

The words **ESTOMACH** & **BRAN^ICHES** have held within them the following information:
That the incoming mini solar system has had its entire orbit altered with uncertain trajectories...
That the inhabitants of Zha.a.mi/Nibiru & Sarru have decided to regain control of Earth as a result,
That the branches of DNA are at the crux of a nexus – caught in the middle of altruism & satanism
That the trade in human ADC is being fought over by the various parties with differing needs for it
That this is known as ArmMargEddan... and
That this is not the first time.

Coreet who of you spotted this? In the original it does look like the maths **SUM** sign Σ making this two words **Core et, KORÉ** and, so saying **ET** & stage gate, because Greek **Koré**, like Demeter (& her mother), would disappear for seasons at a time, seen going underground. **Koré** can be spelt **Coré**, just as Scythians is really spelt Skythians & Celt should be Greek Kelt. To follow pharaoh princess **Scota** to keltic Scotland, & her relative **Nefertiti** to Basque area via Turkey; thence on to Keltic Germany, will give you a sense of why the one percent are deleting those Celtic bloodlines.
