I did look this up in YANDEX, & sure enough, September 23<sup>rd</sup> saw problems for the World Health Organization, for the United Nations, for the I.R.S. and before that, for the Rothschilds. Needing to know they are all one.

The UN and leaders of the World Health Organization are bankrupt. Game over.

THE PURPOSE OF THIS ARTICLE, ALSO KNOWN AS THE ABSTRACT:

TO explain to all those hard wired scholar-students and professors who have argued with me in relation to the capital M as a date. They never debate it, they just say – “no, you are wrong”. We learn here it is **MAGNUS**.

The big M also means Latin "moneta". Placed at the bottom of a document it means 'currency' & "paid for".

The early days of documents was no minor feat. Usually requiring a scribe monk. None of the public were learned in reading nor writing. Empire kings were well educated. Scribe was a profession in those days when parchment making was also not only specialised but guarded. With early paper being frequently re-used.

The moneta M can be seen on important charters and Wills of Testament down the page following the signatures – showing the scribe had been paid. Possibly acting as a form of swash to avoid forgery in the manner of *i, ii, iij*.

In the very First instant, it is necessary to accept the calendars we have been using are incorrect (and why they are) and situate oneself in the real year in which we sit. We are in 1348 at 2024. The Rosetta Stone for this date has always been the Shroud of Turin. Why do you think the Vatican guards it so? Church very early removed the IC because the word INCARNATION was anathema to them for their purposes.

So here we have some interesting detail. The crown of the very first century (there will be a chapter about crowns).

We have the longbow being shown off :- a thing that means little to military that can knock you down or evaporate you with a field of directed scalar energy ... but still – an advantage over former weapons.

Not yet into gunpowder epoch. Introduced by Marco Polo at the end of the 200s.

Here is one extreme anomaly:

This good queen 2 was the concubine queen of Edward The Elder, son of Alfred the Great. Yet, unmarried as they were, all their sons still became *non* Christian born kings.

This also raises that question of the date of 61 Anno Domo.IC. That would mean Christianity was in its extreme infancy. The first pope was Sergivs 9-12 a.d

This 61 naming the *grandsons of Alfred*: must be added to i80/1 a.d.= i.141 julian kalends of the popes, published under *Events, Fonts & Popes*. And of their own kalends. This lets Alfred's life exist in time to learn of the crucifixion. ENDNOTES

WikidPaedias say

Alfred died i.899. We must deduct 1000 from that Kalendar. Do we deduct from lulius or a.d.?

The other detail is the capital **Ʒ** font for **Ʒ**dythe and the boys. Followed not too long after by the *Celtic capital* **Ʒ** then the 'medieval' font, never to return to its former post crucifixion font .

**Ʒ**dythe good queen2 and noble Mother of Ethelstane, Edmund, and Eldred kinges of England every each after the other.

All fathered by Edward the Elder, son of Alfred the Great. 93.a.d./aka/julian 172.

		<p>This is the real Roman Numeral for 1000 The D = 500. I608 (j608) X tenth month.</p>	<p>Notice there is no a.d. By j608, the #1 was still fresh from 583. A law enforced.</p>
--	--	--	--

If you ever go to Wikidpedia to research Good Queen 2, you will find her sons, "each and every one a king", with not only different spelling for herself, but the sons too (Athelstan/Aethelstane). Eldred here as Aedred – & also with a different mother. Of greater importance – various dates close to the supposed Anno Domo 1000 period. 1 A.D./I.C. began j80. JULIAN/iulus Kalends #1=46BCE BEGAN BEFORE j80=1 a.d. The Crucifixion in j79 less 33 (the age of Yeshua) = 46 B.C.E.

Current Era involves the Age of Pisces (2590 in length); which began by "coincidence" with the Passing Over of Nemesis from 54BCE (the New Era). How the seasons must have changed to force Julius to arrange new kalends! The word Kalends means "new, the first". With Spring at the beginning. The earlier Denderah zodiac has spring in Virgo following the harvest in Leo – conjoined as a sphinx. <sup>Frances Rolleston</sup> Yet this would mean - Virgo in September – that Earth was upside down at the time of that September springtime.

j/IULUS <sup>endnotes.</sup> Once one realizes that fonts also date their document or media, it brings an element of fun into the search.

2022 /1346 from Canada>

Why are the wings vertical this visit in 1346 (2010 – 2024)  
<The approach of 705BCE on this coin shows the "wings"  
"upside-down" as seen by the witnesses.  
What would this detail say to you?  
That Earth was upside-down

Impression of a clay seal bearing the words: "Belonging to Hezekiah [son of] Ahaz king of Judah" about 1 cm across and showing an upside-down winged sun and the ankh <sup>also the</sup> symbol for electricity. As is the fleur-de-lis.

So – what does this tell us? Sometime while King Hezekiah/Isaiah was alive – who reigned from 715 to 686 BCE: *that someone saw the winged disc of Atlas-Nemesis-Nibiru/Ison system. It turns out, each time it intruded EVERYONE was informed and prepared – to the extent of constructing such places as Coppodacia, Deryanku. But NOT SO in our time!* If it was this that caused the 705BC [Chinese records] event which disturbed our orbit & added 5 days. The rumored "3,600-3,660 year orbit" is wayyyyy off! The dead comet-sun is only the Destroyer every Fifth Sun, every eon. Maps and information between 705BCE and J689 tell us Earth was sideways, with Antarctica at Equator.

**SPEAKING OF Wikidpedia:** CURRENTLY – END MONTHS OF 2023 have seen RedShields/Red Cross/Reutgers/Rothschilds facing bankruptcy. Locked out of their passwords and unable to access the ready. Huge auction/s of goods and chattels. The proof ?

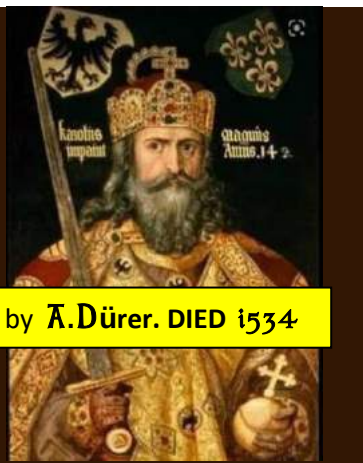

Wikidpedia Is owned by RedShields, aka Red Cross, with their wikidpedia hand out for money. Have you noticed how you are being harrassed for donations when you are trying to do a search? DO NOT DONATE because you will be funding their mercenaries – better still, do not research there. We all learned to NOT DONATE TO RED CROSS consequent to the 2019 bushfires or I should say "wildfires". Turns out that most of that coffer went to "administration".

**SPEAKING OF DECEIT & DECEPTION:** Amazing what comes if one waits long enough!

First image was used as seen by me – to illustrate Iulus/Julius: – for 10 27 3 Clement 1<sup>st</sup>, set back Iulus & July, presented by Google as Iulus and cropped to appear so. Second picture is almost the full picture his bottom half cropped by me for this page. What else do you see? ANSWER: a FORGED DATE, it is CHARLEMAGNE by A.Dürer. Third; in black & white THE REAL DATE j4 : HAS SOME IDIOT FORGED 42 AS 42 BC ? if you were IN 42 BC, how?

The J is made from a conjoined **J** & **j** same as Queen 2 Ebyhe of Domo LXI/61 After this date the **E** became CELTIC **E** Magis Annus 14 2 which 2 is hoax f

by A.Dürer. DIED 1534

At first glance the date seems to be .142... as Anno Domo, would be j222

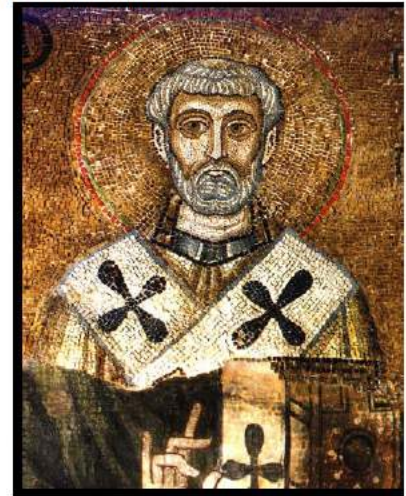

Original 1523 – Emperor Karolus Charlemagne

THE ORIGINAL No full stop after Annus/Anius. Just the j4~ Julian 4 = 42 BCE

Compare the attire here in the first century. Very similar to Clement the 1<sup>st</sup>, also in the period as pope of 46 – 47 a.d. <sup>lower case is the proper</sup>

It is not general knowledge that our current calendar was not accepted world wide until '1922'. (Encyclopaedia Britannica, the Establishment). '1922' being I922 on the face of it. So, Have a think about that date. Titanic sunk 1912, WWI ends in 1919 with the Versailles Treaty. Tesla receives the blueprints for anti gravity craft from "angels" whose intentions in 1922 were leaning towards the population and the planet receiving free energy... but the banksters had already curtailed those intentions to keep and profit from it for themselves.

10 27 3 *Un Clement, Jules & Afcans recules*,  
 Clement 1st, set back, <sup>the calendar (the first/ kalends)</sup> Julius (Julian) & Ascanius – also known as JULUS: telling us J & i prefix are the same. Ascanius, a close ancestor of Julius Caesar Since Julian was in 46/44 Before Current Era (J79C.E.) which is ALSO before Christian/ papal era, then it was the papal control system which changed Julian's calendar.  
 The French word : *recules* =  
 to isolate-go back-move back-put the clock back-raise the age (!) which is exactly what did happen to the calendars, more than once. Pope Gregorius arranged a fiscal system to "send the calendar back" by changing the i to a 1 thereby adding one thousand years to Julian583, in the January. C+F+diligence

HERE IS CLEMENT the 1<sup>st</sup> dated by Wikidpedia to the first Century "AD", but *which century was that!* What do you notice about this man who "set back" the Julian kalends? He shows the satanic hand sign of the horns sometimes disguised under the term "bene-diction" and which century was he really in?

There are clues here. Relating to the lower case i, the upper case I, the lower case j & the upper case J .

Since 10 27 3 was published, I have worked a list of popes removing the added 1. This places some from the 1200s etc back to the 200s.

"I thought I would pluck these out of the works in progress (ABBA – DIRECTIVES BOOK 5 Part Two) to get them published before any of them might come to fruition.

Hopefully I will have the wrong year, wrong month and be a complete Waster of the Reader's time... "

This is how it had appeared in the computer too, so I kept it and did not delete it, having recalled that there was another image somewhere in my files – the one on the right.  
 It is titled in the computer as: CROP CIRCLE of the NEMESIS SOLAR SYSTEM. You will hear social pages come up with many more planets, but they are mobile planetoids = Kur.

As you can count for yourself – Nemesis has seven orbiting bodies, and a moon of a moon, most likely a planetoid.

### FALSE PROPHITS & DOLORES CANON

Dolores Canon with one N in Canon was the original. As Cannon, she had been 'walked-in' by a negative channel, at the very time that channel pretended to be Nostradamus. The proof sits with her *not* having the Triple Method, nor any other form of cipher, other than anagramming one word. Not her fault.

This could also be saying *before the day* – as in

Taking this *from the day* of A.D. IS IT ALSO telling us to expect the same in the next "reset"? As if all folk knew of the mini solar system.

It was to breed and cross-breed - like a horse breeder - a new SLAVE SOCIETY.

At the cutting edge of this SLAVE SOCIETY was Benjamin Franklin, who was heavily influenced by the macabre genetic and anatomical research of Peter the Great's doctor...

Is it a coincidence that it was 142 ships sent by King Magnus to Harald Hadrata at Hastings?

Has everyone recalled the 2 coins dated to the year that was equal to 54BCE?

Described as a nova on those coins – it was in fact the arrival of the Nemesis-Nibiru system – backed up by a couple of [crucifixion artworks showing the black and red sun overhead](#).

Here is a coincidence. Or not.

The first sighting effect was 54 B.C.E. The new age kalends Julius was forced to rearrange\* began 46BC; a gap of 8 years from 54BCE. Before Current Era, also known as The Great Year.

In the *Chronology of Weather Events* by J. Marusek the date of December j.680 describes Nibiru arriving, renamed ISON. Reports followed in January j.689 of [Wormwood](#). An eight year gap. Exactly.

Newton, in his *Chronology of Kings Amended (Unrevised)* stated 6 times that the stars had changed their co-ordinates, in fact, reversed. He placed this in early I.689.

As did Hevelius. Supplying two woodcuts. The first showing Sagittarius had reversed.\*\*

The second, early in I.689 telling us in cipher, the same event – all asterisms had reversed.

Also in woodcuts dated j.718 we are shown tremendous flooding – up to the church spires.

Very recently, late in 2023/1347 – highly destructive and very fast moving floods of mud have been caught by tik.tok videos all over the Levant. Noting, not seen on main stream.

- \* rearrange: when the mini system arrives it disturbs planets orbits, spin, angle & seasons.
- \*\* reversed: turned Earth upside down. Even the “wings” of Nibiru on separate visits are either right way up or the opposite, depending on Earth being righted or not.

2022 /1346 from Canada>  
Why are the “wings” “vertical

<The approach of 705BCE on

The symbol for electricity. As is the fleur-de-lis.

So – what does this tell us? Sometime while King Hezekiah/Isaiah was alive – who reigned from 715 to 686 BCE: that someone saw the winged disc of Atlas-Nemesis-Nibiru/Ison system. It turns out, each time it intruded EVERYONE was informed and prepared – to the extent of constructing such places as Coppodacia, Deryanku. But NOT this time. If it was this that caused the 705BC [Chinese records] event which disturbed our orbit and added 5 days – then the “3,600-3,660 year orbit” is wayyyyy off! Unless the comet-sun is only the Destroyer Fifth Sun at these times.

 And here is the formula these guys use:  
<http://www.telescope.org/nuffield/pas/solar/solar7.html>  
 Distances in all graphs are measured in Astronomical Units, AU. (1 AU is the earth's separation from the sun.) The orbit graph shown above should appear approximately circular, but the new orbit is more elliptical than the current orbit. The lower section of the new orbit graph shows that the earth will go further from the sun (to 1.11AU at apogee). The upper section shows that it will also approach the sun more closely than it currently does. This closer approach occurs during summer of the Southern Hemisphere. Consequently, summers there will be hotter and the concurrent Northern winters will be milder. During summer of the Northern Hemisphere, the earth will be further from the sun and colder. It may seem strange, but these milder winters and cooler summers in the US and Europe are a terrible curse, as will be realised.

"Because the Southern Hemisphere is mainly ocean, the main effect of the increased solar heating in their summers will be to greatly increase evaporation from the southern oceans. Thick clouds will cover most of the earth during this "closer to the sun" part of the new orbit. The mild winters in the Northern Hemisphere and these constantly cloudy skies will produce frequent heavy snows, much like the great snowstorms that now occasionally occur in the late winter or early spring under similar conditions. The accumulated snow will not entirely melt in the cold summers that follow. Each year, more snow will accumulate. As snow and ice accumulate on land, the ocean levels will drop. In approximately one decade, all of the world's ports will be useless - too far

2023—a perfect year to try the Fixed Calendar

USE - YANDEX. NEVER USE GOOGLE. Under the NEW INTERNATIONAL FIXED CALENDAR, using the excuse of moon months. Problem is this. Our old moon is about to leave

Since our orbit (at the moment) happens to have an extra 12.8 days, they will simply add one day to each month later - after they finish their climate change scam

A CROP CIRCLE TO CREATE CAUSE FOR PAUSE

- Our brave little planet
- That which was once our moon
- That which was once our orbit

According to Nostradamus the new orbit will be one of three years give or take

- The pass of a red dwarf – one recorded throughout history by many names

The reasoning behind the decision of the Anu that it is Destiny that is fixed was relying on the orbits being a "destination" & "fixed"! However, it is truly FATE that is fixed, with differing and unfixed destinations. So where was their I.Q. (common sense) when they made that decision? For a bunch of gods they sure did not think!. After all – it is *their solar system* which causes *our orbits* to become "unfixed"! Orbits actually go nowhere else but where they are – except when they become *not fixed*. Such as once having been 260 days, then 360, then in 705BC 365 days, and recently, in October 2013; 377 days which is currently 377.8 days and growing. There is one exception to this idea in this debate. That is: *we are in a vortex forward moving solar system, following our sun.* This is something the gods knew... were they placing their faith on this, the Big Picture, as a *fixture* when they debated the subject? One would think with all their different types of stargates that they *would be able to circumvent things they might see in their future* and it seems to me that giving certain human-bred elite the means to alter time-lines has also shot themselves in a foot or two. After all – they did provide REVELATION in the 'bible' for RITUAL MOCKING reasons! Remember, only the Elo'im see the true end. The Beast of Revelation and His Empire

Hi Ken – we are in 1348 @ 2024. Is it i.1348 or 1348 a.d.?  
 Regarding our new calendar :  
 This happens every time the Nemesis (by many other names) mini solar system arrives on its *elliptical* orbit.  
 It came 705 BCE when Rome was rebuilt, giving us an extra 5 days on the calendar  
 It came 54 BCE and lulua/julius made a New Kalends 46 BCE Affecting i79 Passover and Crucifixion (followed by i80/= 1 a.d.)  
 J676 all rivers froze solid overnight overnight. So prince Otto made a New Age calendar named 1,000 a.d. Losing 324½ years  
 By Dec. j680 Ison/Nibiru arrived and by Jan.689 Wormwood too  
 Then, October 2013 the dead comet sun began pulling us along making a larger and *elliptical* orbit. Still growing  
 Hence the NEW INTERNATIONAL FIXED CALENDAR you posted.  
 Our moon is about to be slung into Oppositional orbit, so they are forced to pretend the new calendar is lunar, along with the 13 new "lunar" months as a cover.

Reminder from previous images screen grabbed from google – the fuzziness seems intentional

CAMERAS tuned to a specific frequency

"We were looking at a demonstration of some very sophisticated, military grade cameras that see beyond the human spectrum. Tuned to a certain frequency, it can see the tire tracks from when we pulled into the parking lot 6 hours earlier. It could see where each individual had walked during the day, and determine the shoe size and general weight of the person. Then he switched it to the more mundane infrared sensors. That runs off of present heat. But it was several times more sensitive than what is available to civilians. We could see where one of our technicians had placed his hand on a car over an hour ago. We could see the butt print of our receptionist from where she had leaned on the same car earlier in the day. We could see the exact temperature of a soda can, a cup of coffee, humans, etc. We could see where a cup of coffee had been sitting on a brick wall an hour ago. After all this seeing, several people, including my boss (The Owner), came out of the building with several co-workers. Every single one of them glowed a very bright normal body temperature. (And by the way, these cameras can see very explicit detail without using radiation at all, so those Air Port thingies are just Kill Machines).

As I was saying, everyone was glowing a bright normal human temperature. Except for my Boss. He had no heat signature. He was carrying a cup of coffee that glowed very brightly, but he had NO HEAT SIGNATURE.

I am still trying to figure that one out. And I have 5 witnesses to this event." Date: Tue, 13 Dec 2011 07:18:33

"Presently, the greatest threat to our global well being is not the "United Intruder Resistance" (U.I.R.) itself, but rather our AMNESIA and resulting ignorance as to how to handle ourselves effectively.

If we all sit around and wait for the 'First Contact Mass Landing' to occur, to 'prove' to us that our ET visitors are real, by THEN, know it is too late to do anything other than seek out the nearest Guardian evacuation team. If the First Mass Contact drama does take place, as the UIR presently intends - they will have already gained full control of EA'rth's portal systems, and will be able to initiate poleshift precisely

The last time "comet" "Ison" came towards Earth the weather witnessed from y672 was as crazy as it is now. Here is a short summary from:

Winter of I680 /I:681 A.D. In 1680 in England, the frost was long and hard.<sup>47, 72, 93</sup> The winter was intensely cold in all Europe.

The Little and Great Belts in Denmark were frozen, and many people perished.<sup>1</sup> This year the cold was so severe as to split whole forests of oak trees.<sup>30</sup>

In I680 in southern France, the cold kills all the olive trees.<sup>79</sup>

In I681 A.D. England, all the spring and summer was dry.<sup>47, 72</sup>

Winter of I681 /1682 A.D. In the United States, on 11 December 1681, the Delaware River near Philadelphia was frozen solid in one night so as to be passable on the ice.

France is 'next door' to Greece, so how come the Greek olive trees did not all die too? Greece boasts olive trees of thousands of years in age

Here we can see a report regarding ISON the renamed dead star or its companion Nibiru, ARRIVING I 680

Telling us all, fellow mushrooms kept in the dark; – that the public were aware of its arrival IN I.680. When I received the next edition of Chronology of Weather Events, this report was nowhere to be found. This was the 2010 publication. Apparently the second large celestial body came 8 years later, in i689.\*

\*From Chronology of Kings Amended, the Unrevised original – where six times Newton provides coordinates for star systems gone sideways. The Hevelius asterisms reversed, the Newton and the Shroud of Turin details will appear in DINOSAURS & FALSE AGES Part 5.

"sideways from Julian kalends to y686/7" CHRONICLES

In the end of the year of our Lord 1689 the Star called Prima Arietis was in  $\gamma. 28^{\circ}. 51'. 00''$ , with North Latitude  $7^{\circ}. 8'. 58''$ . And  
our Lord 1689  
in  $\gamma. 28^{\circ}. 51'. 00''$ , with North Latitude  $7^{\circ}. 8'. 58''$ . And

With tremendous gratitude to Jon Large for spotting this in the works of Sir Isaac Newton. I had mentioned to Jon how puzzling it was to me that Newton should:

- 1] Ignore the activity in his own heavens & environment
- 2] not write about the northern hemisphere freezing, nor
- 3] mention the arrival of Ison and Wormwood. He had died just as he finished his Amended Kings' Chronology

86 Of the CHRONOLOGY  
and kept within light of the stars; and now, upon an Embassy to several Princes upon the coasts of the Euxine and Mediterranean Seas, by the dictates of the Oracle, and consent of the Princes of Greece, the Flower of Greece were to sail with Expedition through the deep, in a long Ship with Sails, and guide their Ship by the Stars. The People of the Island Coryra attributed the invention of the Sphere to Nausicaa, the daughter of Alcinoos, King of the Phoenians in that Island; and it's most probable that she had it from the Argonauts, who in their return home sailed to that Island, and made home Bay these with her father. So then in the time of the Argonautic Expedition, the Cardinal points of the Equinoxes and Solstices were in the middles of the Constellations of Aries, Cancer, Libra, and Capricorn.  
In the end of the year of our Lord 1689 the Star called Prima Arietis was in  $\gamma. 28^{\circ}. 51'. 00''$ , with North Latitude  $7^{\circ}. 8'. 58''$ . And

Not even the moon nor orbits are permanent because in October 2013, our orbit became 377.8 days and growing.  
See FIXED NEW INTERNATIONAL CALENDAR supposedly based on moon/Lunar months – but  $377.8 \div 13 = 29.06153846$   
However if the orbit ends up at 378 days, that would mean  $29.069 \pm$  days per month for a 13 month year. Looks LUNAR does it not!

**GREAT** Gratitude is the only way I can describe my response to those of you who came along exactly at the moment they were needed, to point out details.

The following will be the most ambitious attempt at explaining a target which seems to have been lost to those who should have been able to find its foundation.

I speak of the day which we call #1 Anno Domo.

This *anno domo* is NOT *Anno Domini/domini*.  
*Is ante diem (the day before/in front of, within)*.  
YOU will NOT find *Anno Domini (A.D.)* on coins, maps nor bull-edict parchments before the 600s.

The reason is simple. Although the Church of Canterbury was named very early in Anno Domo 61, it was not until 1582 & Jan' 1583 that Church became serious about Kontrol. First by changing from *natural pagan* seasonal calendars - to man made (artificial) fiscal.

This seems to be an Imperial paradigm – to remove nature from the Equation, such as they are right now. Yet, in the end, it is all about stealing children, by taxing the folk when being asked for their taxes months before the harvest.

If you have been following my concourse through the veil of the Times, you will have seen my many errors. Those scholarly mis-takes were a form of evolution, not just mine, but yours too. So I left them there for the readers' own Pilgrim's Progress as much as for my own. It is not always easy obeying *The Directives to collator*. And one such had been to use the yard-arm of "year of the Horse". In one tiny way, that could represent a reptilian influence, since those years cycle by 12, the reptilian base number. Aha! I hear someone saying "the calendars should therefore be Lunar, with 13 each year".

Was that idea squashed by patriarchal Church?

So terrified as they are, of the Female and all things womanly. *Heaven forby* to be based on one's monthly No, there is a perfect reality to not using the Moon to build a calendar by.

The moon we have had since the Younger Dryas has not always been there. There are records of no moon at all. How can we base a calendar system on a planet at all! Planets move. Venus has not always been there nor Saturn.

This current planetary Reset will eventuate with a new and different moon, being put in place right now, and a new and different Saturn as our Sun, again.

This is a good spot to speak of Planetary Resets.

These are NOT uncommon.<sup>1</sup> C+F+UNCOMMON

Once-Upon-A-Time the Arrival of another member of our Solar System from Outer Space to Inner Space, the place where we sit, was not kept secret from the folk, the peasant/S, the prole, the Public. For a good reason: – lack of exact communication. Add to that, the Church as we know it today, was simply not the same as it had become during what we call the First Century in which sat Anno Domo. Indeed, the astronomical knowledge that a Visitor intrudes on an almost regular basis into our 'hood was no Secret. C+F+UNCOMMON

When the Nicene (Nicean) summit meeting was called in 325\*, it was with full Knowledge that a dead comet sun they named WORMWOOD was about to intrude.

And when was that?

Answer: – Ison/Nibiru in December 1680,  
WORMWOOD in January 1689. A Fifth Sun.

So, now we head to how we know they Knew.

Apart from the 1486BCE *Winged Aten Tulli Papyrus*, The 705BCE *Hezekiah Winged Disk* coin, and Chinese Records informing the world of five days added to our orbit/year from 360 to the <sup>Baghavat</sup> 'deluded' Maya 'unlucky' extra five days of the recent 365 day year.

Baghavat Ghita II: how did those in India even know about Maya?  
Recent, because in October 2013, our orbit became 377.8 days.

C+F+MEASURES Annual Exceeds More

So far, we have not discussed *Anno Mundi* nor the *Magnus Annus*.

The clue to HOW they knew sits in the  $\text{M}$  for mega Magnus, and it is most certainly NOT  $\text{M}$  for 1,000.

<sup>22</sup>NUMERATE the NUMBERS

not only by Century & Quatrain Numbers, but by date era too, some of which the Presages have provided

There are 38 mentions of the word NUMBER in the Template built by Allan Webber.

The word HORSE appears in Allan Webber's Template 55 times. Many of those will refer to a month of the Horse; Celtic Mare, White, Red Horses, Ashen & Black. If the word FARRIER is needed as a code then, that one precedes Mare. The KELTIC CLUES are on Folio 1.

## ANNO DOMO ~ ANNO MUNDI & MAGNUS ANNUS

Domo; ∞: MLXI :

\*this i prefix for 325 refers to 325 years after the Incarnation of Christ. Seen as I.C. and written in full in the following image. Making this as a date from Julius new kalends from 46 Before Current Era to i80 in his kalends, which is year #1 A.D. So 325 + 80 = 405 julian. The Roman Empire is known to have begun to fail after 412 - was this because of a, or the, secondary Intruder causing new vulcanism?

<sup>1</sup> NOT uncommon.

Indeed, the public were SHOWN the count-down of the approaching Black Sun system. Represented on a clock we can now date by the map represented on its public face. A sideways map - as they all were up until the j689 of Newton, Hevelius & the Sagittarius White Horse of Uffington, which is seen in its reversed form from prior to j689. This map even has the Arctic Entrance at the equator. The detail we need to note: UK <sup>604</sup> is under ice.

There are two other similar clocks in my collection. They all show iiii for the 4, so saying they were made prior to the changeover to Arab Numerals (that is what modern numbers are called, Arabic) last seen as iiii ca 598. So far as where these clocks are, having been in my collections for decades now, I have lost their details.

**In** retrospect; Nostradamus did try very hard to sharpen modern wits without drawing unwanted attention to certain details which the current powers that be were prone to dislike. Burning at an iron stake, certain knowledge holders of hidden details.

Beginning with the number 458. The year that Jain published zero as a number, also known as nought.

This 458 is the cipher to add to Presage dates. For one instance: 1555 + 458 = 2013, and 1562 + 458 = 2020. From his point of view, knowing our calendar was doubly flawed, he would have had to take that into account too.

With great cunning, as always with his work, there sits another hint in this date that rocked his own D.O.M. age (D = 500, O = nought/not M of 1,000. C+F+This 458

*The reasoning behind the decision of the Anu that it is Destiny that is fixed was relying on the orbits being a "destination" and "fixed"!*

So where was their I.Q. (common sense) when they made that decision? For a bunch of gods they sure did not think!. After all – it is *their solar system* which causes *our orbits* to become "unfixed"! Orbits actually go no where else but where they are – except when they become *not fixed*. Such as once having been 260 days, then 360, then in 705BC 365 days, and recently, in October 2013; 377 days which is currently 377.8 days and growing. There is one exception to this idea in this debate.

That is: *we are in a vortex forward moving solar system, following our sun.*

This is something the gods knew... were they placing their faith on this, the Big Picture, as a *fixture* when they debated the subject?

[The Beast of Revelation and His Empire](#)

One would think with all their different types of stargates that they *would be able to circumvent things they might see in their future* and it seems to me that giving certain human-bred elite the means to alter time-lines has also shot themselves in a foot or two. ANTE DIEM FROM LATIN BOOK ALWAYS IN LOWER CASE a. d.

Left. A little treasure:  
A 1939 London School book of Latin Dictionary just came my way – with the very first finding here; Lower case a.d. = ante diem. Meaning, it says here, in [the] dates This could also be saying before the day – as in “before the next, or new, era” Taking this from the day of A.D. IS IT ALSO telling us to expect the same in the next “reset”? As if all folk knew of the mini solar system.

They have the ability to shape shift or change their form.

They harness energy from our physical earth.

They are vermin like rats that take over an area if left unchecked. They are like blood thirsty vermin. They are what they are. They do what they do because that is what they are.

### REPTILIAN REPRODUCTION

#### How do Reptilians reproduce or replicate?

They hijack other life forms. They prefer to use humans.

They use a method called "twinning" which they learned from the Nephilim. Twinning is kind of like cloning. They create a type of clone from a piece of the original Reptilian, but upon birth, it begins to gather to itself it's own experiences.

Life is in the blood. Blood cells are like a slice of themselves and are the type of cells used for twinning.

Their blood cells contain the blue print of everything they are, including their genetic memory, life force, intellect etc. This can be switched on for full memory or partial. Full memory would be a replica of the complete memory of the original. They don't like to have a complete twin made because there is an identity competition. One would kill the other.

Reptilians are very competitive. A clone would kill the original because the clone would want to BE the original.

#### Reptilian Replication: The 11 Point Process

- 1.) Done by a process called twinning.
- 2.) Twinning has to do with the blood.
- 3.) Their life is in their blood.
- 4.) Their blood cell contain the blueprints for everything they are including intellect, spirit and memories, a type of genetic memories. These memories can be switched on if necessary. This is not desirable because the twin may try to kill the original.
- 5.) A single blood cell which has connection to the bone marrow is separated from their body.
- 6.) They use some type of energy maybe electricity that activates the part of the cell that is the life force. The life force is connected to every thing that is in the cell.
- 7.) This area of the cell that is the life force begins to direct the cell to form another entity. The life force is connected to everything in that cell. This process involves magnetic qualities. It activates everything to begin working. This life force contains spirit, memories, and intellect. All characteristics to be expressed are contained in the cell.
- 8.) This cell must be deposited into another life form as the preferred method of replication. The preferred targets for hijacking are humans. Although they find humans detestable, it is a necessary element of the process. The cell itself at this point may be in another dimension or any where else.

"I poured out streams of gold to get de' Medici elected". Clement's vacillation between the French king Francis I and the emperor eventually prompted an invasion of Rome by the imperial army whereupon Clement hid away in Castel Sant'Angelo to the invaders' taunts of "Luther for pope".

 o JABIRU-RAJ now we begin to see why we had to learn about the Benu-Crane-Grus-Heron-Ibis. When the Leo Rising Sphinx was constructed in the image of Ninghizzida (NOT Thoth,the Ibis headed) to commemorate the design of the Giza Plateau in the formation of GRUS/BENU, this was representing those who came from the constellation Grus in league with ('spun by') one of the Ursa Anu factions. The missing fourth pyre-amid which was still in situ at 1920, is testament to the form of the bent winged bird whose *tail* goes from the Giza Benu caves (renamed by Hawass as Bats) all the way under-ground north east to Buceggi and whose long *head* and *beak* go all the way south by south west to Oxyrhynchus Al Faiyoum. This is only seen from a height of 150 kilometres up. The RAJ connection refers to the British 'Empire' which has always been the primer of more modern worldly Imperial events – in order to gain wealth and power for a minority.

This refers to the vortex system of our solar system which was the conclusion of the question 'Why The Hammered Bracelet Could Not Be Flown Over' the answer to which fulfilling three purposes. Telling us we are all 1) « followers » of our sun – and 2) vindicating Sitchin's works. The 'works' include Clay Tablet #10 of Enki which describes the cause of Noah's flood, the timing (Leo Rising) and the directive to Noah to collect 3). 'the seeds of all living things' ~ taking only enough livestock for the journey.

o In other words – the Ark was a laboratory.

AIM 'MILK' QUANTUM OF OLD this quatrain line was meant to be found some time ago, in the Noire the Wicked forum. It was not found, hence the having to re-do this quatrain. Rather interesting that indeed the matter of the "wit of a monk" was used to indicate fraud from within a so-called "channelled" message from a so-called Plejarian, when the phrase « you have only had knowledge of quantum physics for about a hundred years » was used it automatically had my detective alert on fire, knowing that the monk Michael Psellus the Younger according to 1:42:4 had in his Cronographia of j55. written about quantum physics; even referring the reader to :~ 39 book III. "Anaxagoras of Clazomenae, the well-known Ionian philosopher of the fifth century B.C., thought that other kosmoi (universes) contemporaneous with our own might and probably did exist ad infinitum. Anaxagoras is famous for introducing the cosmological concept of Nous (mind), as an ordering force. He regarded material substance as an infinite multitude of imperishable primary elements, such as atoms, DNA. referring all generation and disappearance to mixture & separation, respectively.

It seems for the past few weeks that our stars are all upside down. FB friends are sending me shots of Orion upside down, which I also caught. But here in this image they are BACK TO FRONT, in the day of Nostradamus times (j555) Taurus is on the wrong side of Orion, and the two witnesses of his day Casseopea and Cepheus King of kings are also on the “wrong” side to what we have been seeing since j689. From the 1985 Vatican “chemtrails” coin – where the Great African Rift continues up into Europe, where Australia is divided in the middle and California is a no-show – along with Malta “extinguished”. Concentrating on the slump of the Madrid Fault here – the flow of Great Lakes is said by many (including Edgar Cayce, Billy Meier and these texts) to continue to the Gulf of Mexico. One would think via Texas. Yet this forecast shows that flow differently as it does for Antarctica – moving it many thousands of miles from Tasmania: where it is currently a mere plane hop of no more than the width of Australia in distance.

**EXACT NUMBER OF YEARS TOO MANY IN OUR CALENDAR**

Pope Gregory changed the i for iulus/Julian To a number 1 to invent a fiscal calendar having done away with the 'pagan' kalends. In this manner adding 1,000 years in January i583 Then when the new age had frozen the Thames, Danube, Nile and Potomace overnight, prince Otto living in J676, began July as Yule of 1,000. Pay attention to the date imprinted on the opening, Summer 7171.

The "year of our lord Adam" of which Agafya spoke, for those who have not realized - is the beginning of the history relating to that part of Genesis which describes the advent of the slave human race.\* Dated to the day we stand in as 7, 530 years gone by. Up to J680, that was two Fifth Suns ago.

So, if we take December j680 which was Ison-WORMWOOD, from 1346CE, we get 666.

This explains SO MUCH about the Satanic Agenda. Those who work by numbers and where the stars sit, which is why they fiddled calendars in order to bring the Age of Aquarius forward, with over 1200 yet to go.

The word "medallion" is probably not the correct description. It looks more like a manhole cover... Recall that all "monarchy" are run by off techno-world trade interests, and have done for millennia, which is why there are griffen and space craft appearing on the Hastings-Bayeux Tapestry of i495-6.

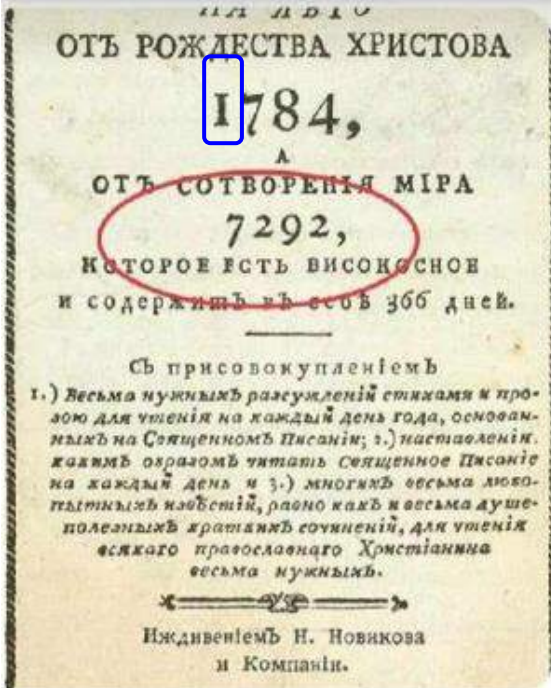

\*advent of the slave human race. See 1 40 4

RECONCILES: 7531 = "2023" = 1,347 C.E.

that's what I'm seeing. You understand these better.

I have quite a few other examples.

3 APR 2023 AT 7:03 AM

Easy.  
We are in 7531  
Take off 7292

Noting that is a capital i.  
Saying 784 is Adamic 7292  
(Genesis date).

"2024" = 1,348.C.Є. = 7532

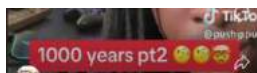

C.Є. if Current Era means Julian. If Christian Era = a.d.

QUESTION IS THIS. IS C.E. a.d.?

Or the 79 years older Julian

Image from

Clear to see is the J for Julian – the year prior to the pamphlet top left. there is thought the J stands for Justinian – will get to that shortly

1783 in other words – 783 in United States.

Not, as was pointed out by the narrator, *The United States*.

And not 1,783, but 565 years ago.

Noting NO a.d. suffix. Just the Julian prefix. Or J for jahre/year.

Noting that is a capital i.  
Saying 784 is Adamic 7292  
(Genesis date).

3 APR 2023 AT 7:21 AM

So here is the equation  
7531 this year. Minus  
7292 leaves  
239 years ago.  
Viz  
784 iulus (back then) add  
239 becomes  
1023.

The missing 324 years lost in  
676 when Otto freaked at  
Danube freezing solid July 676  
Leaving him (relative of  
Constantine) making New Age  
in July 676 calling it 1,000.  
Simply deleting 324 years.

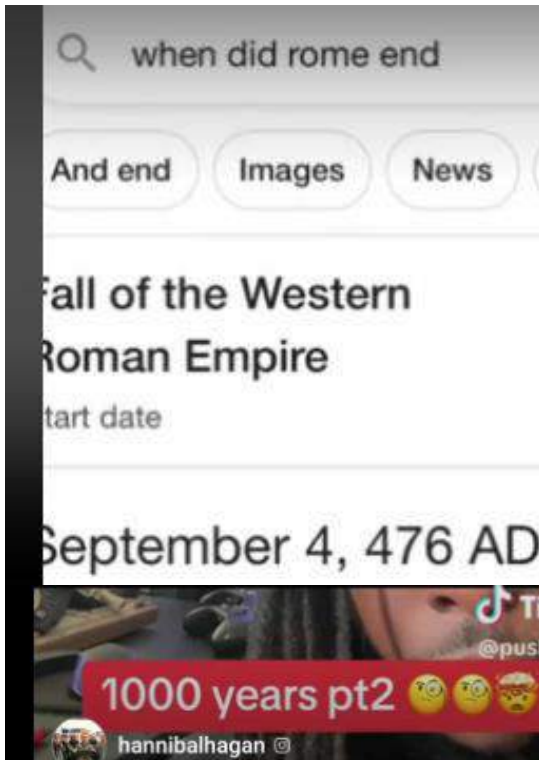

This 324 years has to be added  
back.  
1023, add back  
324 removed =  
1347. Where we are now

In 2023

EXAMPLE of how dates can be skewed.

Noting this date is exactly 20 years before Hastings, the battle of the last Viking Harald Hadrata, which was i496. Or CCCC96 on another Greco Roman tapestry. The CCCC went out of use around 598 into the 600s. To be replaced by CD for 400.

Here, we have 476. But this is i476, not a.d. 476. The Greco Roman Julian kalends were not altered by fiscal pope Gregory until January i 583 . Wikipedia has it [I]582 – but the ten days were removed late September into October i 582, so how did Gregory change the calendar that January – before he fixed it? Thus, the 476 date is still Julian and not anno domo of i80, the first of the a.d. dates.

Variouly dated between 412 and 476 – due initially to climate vulcanism (which needs to be questioned) and lack of grazing for imperial cavalry – the flow on of lost crops and no food for armies caused the Greco Roman mini ice age retreat.

But – was it only starving horses that caused the retreat? Or were the Viking kinglets of the seven kingships of Ngliterra sending them packing. Vikings born to ice ages.

While looking for the Crucifixion with Nemesis and Nibiru in the sky above it, I came across this which I have not yet researched, only to say this is not the j676-689 intrusion of Wormwood. The font and the fashions tell us this is the visit before Wormwood, the one appearing above the crucifixion. In the blue circle is our Sphere Alliance. The yellow circles the black dead comet sun Nemesis, by whatever name of its day, but mostly Passover. The red encircles Nibiru.

Compare to the 496 event  
The comet travelling left to right with a dark sun complete with a battle very similar to Hastings.

Same armour, weapons, horses, saddlery. Lacking guns and gunpowder.

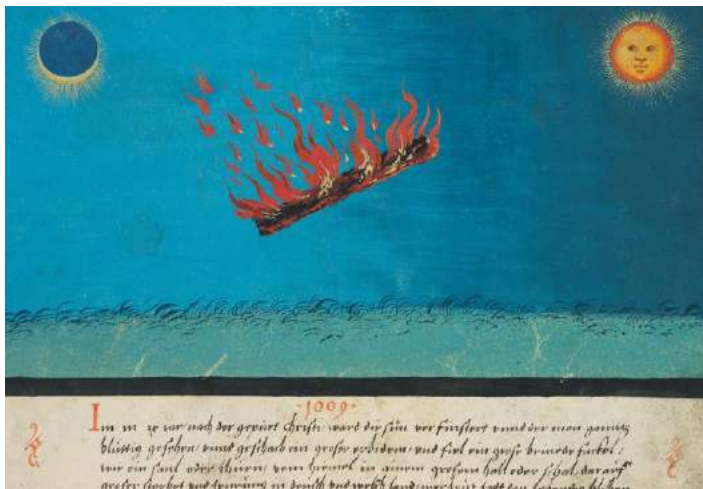

The font is in another language but seems to include the i and the slightly longer l which became the j in i524 .

The present invention is directed to a **fog** generator comprising a vessel that contains a **fog** generating fluid, driving means for driving the fluid from the vessel into a heat exchanger which transforms the **fog** providing secured access to a webpage.

[0018] The activation switch (also called a panic button) is connected to the fog generation control unit. Upon activation the switch, a signal is sent to the fog generation control unit which on his turn activates the fog generator(s) to fill the area with fog, to cut off the field of vision of the intruder, to deter a criminal from continuing robbery, or for avoiding further aggressive behavior against a user pushing the activation switch. The system of the invention may make it possible to arrest the intruder.

[0019] The activation switch may be any system for activating by pushing or pulling. Preferably, the activation switch comprises two adjacent buttons such that both have to be pushed to actually activate the fog generator, thereby preventing accidental or false alarm. In a particular application, such activation switch may be integrated in door opening systems, such that for example pushing the first button opens the door and that, upon noticing a threatening situation, the user has only to push additionally on the second button to activate the fog generator.

[0020] In an embodiment in accordance with the present invention, a self-defense system is provided wherein the means for personalizing comprise encrypting and transmitting means for encrypting and transmitting personalization data to the fog generation control unit and/or the fog generator. Specific data stored in the central database and required for proper functioning of the fog generation control unit and/or the fog generator may be encrypted and transmitted.

**HERE's a Thought:**

**We now know that the weather can and does get manipulated.**

There are patents which go back a hundred years for altering or enhancing the weather conditions.

**You name it, "they" can do it.**

Even to the point of signing an agreement in 1976 not to use weather as a weapon.

Thus: do you think the great drought of the Great Depression was natural?

Do you think Hurricanes Sandy, Katrina and all the other female named supercanes are natural?

Did you read the pdf forum SANDY? (Folio 3)
